A2A S.p.A. is headquartered in Brescia, Italy.

13 AA Industrial Belting (Shanghai) Co., Ltd produces and sells belts in China. It offers conveyor belts, including thermoplastic polyurethane elastomer conveyor belts, thermoplastic polyester elastomer conveyor belts, polyvinyl chloride conveyor belts, and polyethylene conveyor belts; and synchronous belts, roller belts, felt tapes, and processing accessories for application in various industries, such as aluminum profile processing, textiles, printing and dyeing, food processing, logistics transportation, agricultural products processing, entertaient and fitness, wood processing, electronics manufacturing, printing and packaging, etc. The company was founded in 1997 and is headquartered in Shanghai, China.

14 AAEON Technology Inc. designs, manufactures, and sells industrial computers and peripherals. The company offers embedded boards, such as embedded single board computers, computeroodules, industrial motherboards, smart display modules, and PICMG and RISC single board computers; and computing systems, including panel and fanless embedded box PCs, machine vision and digital signage systems, multiPoE and fanless appliances, turnkey chassis solutions, and industrial chassis. It also provides rugged tablet computers and accessories; UP boards and systems; artificial intelligence (AI) Edge solutions and modules; and network appliances comprising desktop and rackmount network appliances, industrial cyber security appliances, networking motherboards, and network interface modules. In addition, the company offers IoT gateway boards and systems, and servers. Its products are used in smart city, safety and security, smart retail and manufacturing, AI computing

platform, network appliance, software defined wide area network, intelligent vending machine, vision system solution, smart office/wellness sensor, and rugged tablet applications. The company was founded in 1992 and is headquartered in New Taipei City, Taiwan.

15 AAG Energy Holdings Limited engages in the exploration, development, production, and sale of coalbed methane in the People's Republic of China. It holds interests in the Panzhuang concession covering an area of 141.8 square kilometers in the southern area of Qinshui Basin; and the Mabi concession extending over an area of 898.2 square kilometers in the southern Qinshui Basin in Shanxi province under production sharing contracts. The company was founded in 1994 and is headquartered in Central, Hong Kong. AAG Energy Holdings Limited is a subsidiary of Liming Holding Limited.

16 AAPICO Hitech Public Company Limited engages in the manufacture and distribution of automobile parts, dies, and jigs in Thailand, China, Malaysia, and Portugal. It operates in three segments: Manufacture of Auto Parts; Sales of Automobiles and Provision of Automobiles Repair Service; and Others. The company offers stamped and pressed parts, including floor parts, cross members, side sills, brackets, clips, and subassembly parts; chassis frame components; housing axles parts; forged and machined parts, such as transmission, power train, steering and suspension systems, engine, shafts, wheel hubs, and other parts, as well as camber link for chassis systems, braking pawl for braking systems, copper forged parts; and plastic parts and plastic fuel tanks. It also provides casting parts; assembly jigs; and stamping dies. In addition, the company is involved in the sale of automobiles; provision of automobile repair, training, technical support, and information technology consulting and advisory services; venture capital business; investment in other companies; and import and export of vehicles and parts. Further, it manufactures car navigation systems and digital map solutions, as well as Oracle ERP systems; car accessories; and operates car dealership service centers. The company was founded in 1996 and is headquartered in Phra Nakhon Si Ayutthaya, Thailand.

17 AB Amber Grid operates as a natural gas transmission system company in the Republic of Lithuania. The company is involved in the transmission of natural gas through high pressure pipelines to system users. It also operates, maintains, and develops natural gas transmission system that includes gas transmission pipelines, gas compressor stations, gas metering and distribution stations, and cathodic protection installations, as well as data transmission and telecommunications systems. The company's natural gas transmission system consists of 2,285 km of gas transmission pipelines, 64 gas distribution stations, 4 gas metering stations, and 2 gas compressor stations. It serves companies operating in the sectors of electricity, district heating, and industry; and medium-sized local businesses, as well as natural gas suppliers receiving natural gas transmission services. The company was founded in 2013 and is based in Vilnius, the Republic of Lithuania. AB Amber Grid is a subsidiary of UAB EPSOG.

18 AB Sagax (publ) operates as a property company in Sweden, Finland, France, the Netherlands, Germany, and Spain. The company invests in commercial properties primarily in the warehouse and light industry segment. AB Sagax (publ) was incorporated in 1995 and is based in Stockholm, Sweden.

19 AB Volvo (publ), together with its subsidiaries, manufactures and sells trucks, buses, construction equipment, and marine and industrial engines in Europe, North America, South America, Asia, Africa, and Oceania. The company offers trucks for longhaulage, construction, mining, and distribution purposes under the Volvo, UD Trucks, Renault Trucks,

Mack, Eicher, Arquus, cellcentric, and Dongfeng Trucks brands; and city and intercity buses, coaches, and bus chassis, as well as associated transport systems under the Prevost and Nova Bus brands. It also provides road construction machine, haulers, wheel loaders and excavators. In addition, the company offers engines and power solutions for leisure and commercial vessels, as well as for power generation, industrial, and offroad applications under the Volvo Penta brand name. Further, it provides financing, insurance, rental, spare parts, repair, preventive maintenance, service agreement, and assistance services. The company offers its products and services through a network of dealerships and workshops. It has a strategic alliance with Isuzu Motors within commercial vehicles; a partnership with Samsung SDI Co to develop battery packs for its trucks; and an agreement with Aurora to develop autonomous trucks. AB Volvo (publ) was incorporated in 1915 and is headquartered in Gothenburg, Sweden.

20 ABB India Limited develops and sells products and system solutions to utilities, industries, channel partners, and original equipment manufacturers in India and internationally. The company operates through Motion, Robotics and Discrete Automation, Electrification, and Process Automation segments. The Motion segment produces and provides motors, generators, and drives that provide power, motion, and control for a range of automation applications; and offers solutions and related services. The Robotics and Discrete Automation segment provides valueadded solutions in robotics, machine, and factory automation. The Electrification segment offers a range of digital and connected solutions for low and mediumvoltage applications, including EV infrastructure, solar inverters, modular substations, distribution automation, power protection, wiring accessories, switchgear, enclosures, cabling, sensing, and control products. The Process Automation segment provides products, systems, and services, such as turnkey engineering, control systems, measurement products, life cycle services, outsourced maintenance, and industry specific products for the optimization of the productivity of industrial processes in oil and gas, power, chemicals and pharmaceuticals, pulp and paper, metals and minerals, marine, and turbocharging industries. The company was formerly known as ABB Limited and changed its name to ABB India Limited in June 2013. ABB India Limited was incorporated in 1949 and is based in Bengaluru, India. ABB India Limited is a subsidiary of ABB Asea Brown Boveri Ltd.

21 AbbVie Inc. discovers, develops, manufactures, and sells pharmaceuticals worldwide. The company offers Humira, a therapy administered as an injection for autoimmune, intestinal Behçet's diseases, and pyoderma gangrenosum; Skyrizi to treat moderate to severe plaque psoriasis, psoriatic disease, and Crohn's disease; Rinvoq, a JAK inhibitor to treat rheumatoid and psoriatic arthritis, ankylosing spondylitis, atopic dermatitis, axial spondyloarthritis, and ulcerative colitis; Imbruvica for the treatment of adult patients with blood cancers; and Venclexta/Venclyxto to treat hematological malignancies. It also provides facial injectables, plastics and regenerative medicine, body contouring, and skincare products; Vraylar for depressive disorder; Duopa and Duodopa to treat advanced Parkinson's disease; and Ubrelvy for the acute treatment of migraine with or without aura in adults; Qulipta for episodic migraine. It provides aluminum foil, BOPP, LLDPE, nylon, polyester, and paper packaging materials. The company offers packaging materials in the form of printed/laminated reels, pouches, sheets, and lids for packaging various products, including confectionery, milk powder, biscuits, snacks, drinks/beverages, tea, noodles, soya nuggets, processed meat products, pharmaceuticals, detergent powders,

agro chemicals, cigarette foils, garments, etc. It also exports its products. The company was incorporated in 1949 and is based in Colombo, Sri Lanka. ACME Printing and Packaging PLC is a subsidiary of Lankem Ceylon PLC.

40 Acotec Scientific Holdings Limited, a medical device company, researches and develops percutaneous transluminal angioplasty and drugcoated balloon products for the treatment of vascular diseases in Mainland China, Europe, and internationally. It offers AcoArt Orchid & Dhalia to prevent stenosis or occlusion in superficial femoral artery and popliteal artery for the treatment of lower extremity artery disease; under clinical studies in nephrology for arteriovenous fistula stenosis and in neurology for vertebral atherosclerotic stenosis indications/applications; and under clinical studies in andrology for vasculogenic erectile dysfunction indications/applications. The company also provides AcoArt Tulip & Litos, which is under registration process in China and Europe, and under preclinical studies in the United States in vascular surgery for belowtheknee artery disease indications/applications; and in preclinical studies in andrology for vasculogenic erectile dysfunction indications/applications. The company was incorporated in 2020 and is headquartered in Beijing, China. Acotec Scientific Holdings Limited is a subsidiary of CA Medtech Investment (Cayman) Limited.

41 Acrinova AB (publ) owns, develops, builds, and manages real estate properties in southern Sweden. Its property portfolio consists of 41 properties, including warehouses, offices, residential properties, and logistics. The company was incorporated in 2014 and is headquartered in Malmö, Sweden.

42 Acrow Misr delivers formwork products and services for the construction, oil and gas, and infrastructure industries worldwide. The company manufactures and markets metal formworks and scaffoldings. It also offers wall, column, slab, and bridge formworks, as well as shoring and climbing systems. In addition, the company provides predesign and preconstruction phase, construction and post construction, and special services, as well as equipment rental services. Acrow Misr was founded in 1977 and is headquartered in Cairo, Egypt. Acrow Misr operates as a subsidiary of Industrial Engineering Company for Construction and Development.

43 ACS, Actividades de Construcción y Servicios, S.A. provides construction and related services in Spain and internationally. The company undertakes construction activities related to development of highways, railways, maritime, airport works, hydraulic infrastructures, coasts, ports, civil engineering, educational and sports facilities, residential, and social infrastructures and facilities; undertakes contracts for the provision of mining services and infrastructure required for mining activities; and offers maintenance services for buildings, public places, and organizations. It also engages in the operation and maintenance activities, and development of real estate infrastructures; design, development, construction, and operation of infrastructure projects, real estates, and facilities; and promotion and development of transport and public facilities, as well as management of different publicprivate collaboration models. In addition, the company offers services for people, such as care for elderly citizens, dependent people, disabled people, and children aged up until the age of three; and manages playschools and collective restoration. Further, it provides services for building, such as maintenance, energy efficiency, cleaning, security, and logistics and auxiliary services; and services for public spaces comprising managing public lighting, which includes investing in changing light fittings, environmental services, and airport services. ACS,

Actividades de Construcción y Servicios, S.A. was founded in 1997 and is based in Madrid, Spain.

44 Activision Blizzard, Inc., together with its subsidiaries, develops and publishes interactive entertainment content and services in the Americas, Europe, the Middle East, Africa, and the Asia Pacific. The company operates through three segments: Activision, Blizzard, and King. It develops and distributes content and services on video game consoles, personal computers, and mobile devices, including subscription, fullgame, and in-game sales, as well as by licensing software to thirdparty or relatedparty companies that distribute Activision and Blizzard products. The company also maintains a proprietary online gaming service, Battle.net that facilitates digital distribution of content, online social connectivity, and the creation of usergenerated content. In addition, it operates esports leagues and offer digital advertising content; and provides warehousing, logistics, and sales distribution services to thirdparty publishers of interactive entertainment software, as well as manufacturers of interactive entertainment hardware products. The company's key product franchises include Call of Duty, World of Warcraft, Diablo, Hearthstone, Overwatch, Overwatch League, and Candy Crush. It serves retailers and distributors, including massmarket retailers, consumer electronics stores, discount warehouses, and game specialty stores through thirdparty distribution and licensing arrangements. The company is headquartered in Santa Monica, California.

45 Acushnet Holdings Corp. designs, develops, manufactures, and distributes golf products in the United States, Europe, the Middle East, Africa, Japan, Korea, and internationally. The company operates through four segments: Titleist Golf Balls, Titleist Golf Clubs, Titleist Golf Gear, and FootJoy Golf Wear. It offers golf balls under the Titleist brand; golf clubs, such as drivers, fairways, hybrids, and irons under the Titleist brand name; wedges under the Vokey Design brand; and putters under the Scotty Cameron brand. The company also provides golf bags, headwear, golf gloves, travel products, head covers, and other golf accessories, as well as offers customization and personalization of products in Titleist golf gear. In addition, it offers golf shoes, gloves, golf outerwear, and men's and women's golf apparels under the FootJoy brand; and ski, golf, and lifestyle apparels under the KJUS brand name. It sells its products through on course golf shops and golf specialty retailers, as well as through representatives, other retailers, and online. The company was formerly known as Alexandria Holdings Corp. and changed its name to Acushnet Holdings Corp. in March 2016. Acushnet Holdings Corp. was founded in 1910 and is headquartered in Fairhaven, Massachusetts.

46 ADAMA Ltd., together with its subsidiaries, operates as a crop protection company. The company operates through Crop Protection (Agro), and Intermediates and Ingredients segments. It develops, produces, and commercializes herbicides, insecticides, and fungicides for farmers to protect from weeds, insects, and diseases, as well as formulations, flame retardants, and nonagro products. The company also offers intermediate materials and ingredients, such as food additives; Lycopan, an oxidation retardant; synthetic aromatic products; dietary supplements; food colors; texture and flavor enhancers; food fortification ingredients; and other chemicals. In addition, it provides fragrance products for perfume, cosmetics, body care, and detergent industries; industrial products; and consumer and professional solutions. Further, the company engages in the other noaterial activities. It primarily operates in Europe, North America, Latin America, the Asia Pacific, India, the Middle East, and Africa. The company was formerly known as Hubei Sanonda Co., Ltd. and changed its name to ADAMA Ltd. in December

2018. The company was founded in 1945 and is headquartered in Jingzhou, Hubei. ADAMA Ltd. is a subsidiary of Syngenta Group Co., Ltd.

47 Adbri Limited manufactures and distributes construction materials in Australia. The company operates in two segments: Cement, Lime, Concrete and Aggregates; and Masonry. It provides cement, lime, premixed concrete, aggregates, and sand; various concrete bricks, besser blocks, pavers, and retaining wall blocks; and industrial minerals comprising agricultural lime products, stockfield minerals and fillers for glass manufacturing, and quick and hydrated lime for industrial processing and water treatment applications. The company offers its products to residential and nonresidential construction, engineering construction, industrial manufacturing, and mining markets. Adbri Limited was founded in 1882 and is based in Sydney, Australia.

48 Adcock Ingram Holdings Limited manufactures, markets, and distributes healthcare products in South Africa, the United States, Canada, the United Kingdom, rest of Europe, and internationally. It offers a portfolio of overthecounter products, prescription medicines, and consumer products, as well as instrumentation and surgical products. The company also provides a range of pharmaceutical products, such as women's health, cannabidiol oil, antiretroviral, dermatology, central nervous system, respiratory, ophthalmology, generics, cardiovascular, pain, gastroenterology, energy supplements, colds and flu, personal care, feminine hygiene, digestive wellbeing, allergies, baby care, cough, food and nutrition supplements, vitamins, and minerals supplements. In addition, it manufactures and supplies hospital and critical care products, including intravenous solutions, renal dialysis systems, and blood collection products. The company serves private and public sectors. Adcock Ingram Holdings Limited was founded in 1890 and is headquartered in Midrand, South Africa.

49 AddLife AB (publ), together with its subsidiaries, provides equipment, medical devices, and reagents primarily to healthcare system, research, colleges, and universities, as well as the food and pharmaceutical industries. The company operates in two segments, Labtech and Medtech. The Labtech segment offers products, solutions, and services in the areas of diagnostics, and biomedical research and laboratory equipment for haematology, pathology, pointofcare diagnostics, cell biology, genetics, microbiology, virology, molecular biology, clinical chemistry, immunology, consumables, and analytical instruments segments. This segment also offers support, maintenance, advice, and training services. The Medtech segment provides medical device products for surgery, respiration, intensive care, wound care, enteral nutrition, fall prevention, welfare technology, ear, and nose and throat segments, as well as bathroomrelated assistive devices and assistive devices for children with disabilities. It operates in Sweden, Finland, Denmark, Norway, the United Kingdom, Ireland, Germany, Italy, Austria, Switzerland, rest of Europe, and internationally. AddLife AB (publ) was founded in 1906 and is based in Stockholm, Sweden.

50 ADDvantage Technologies Group, Inc., through its subsidiaries, engages in the distribution and service of electronics and hardware for the telecommunications industry in the United States and internationally. It operates through two segments, Wireless Infrastructure Services and Telecommunications. The Wireless Infrastructure Services segment provides turnkey wireless infrastructure services for U.S. wireless carriers, communication tower companies, national integrators, and original equipment manufacturers. This segment also offers installation and upgradation of technology on cell sites; and construction of new small cells for 5G. The Telecommunications segment provides central office equipment that include optical transport, switching, and data center

equipment for communication networks; customer premise equipment, such as integrated access devices, channel banks, Internet protocol private branch exchange phones, and routers; and decommissioning services for surplus and obsolete telecom equipment. The company was formerly known as ADDvantage Media Group, Inc. and changed its name to ADDvantage Technologies Group, Inc. in December 1999. ADDvantage Technologies Group, Inc. was incorporated in 1989 and is headquartered in Carrollton, Texas.

51 Adeia Inc., together with its subsidiaries, operates as a media and semiconductor intellectual property licensing company worldwide. The company licenses its innovations to media and semiconductor industries and companies under the Adeia brand. It licenses its patent portfolios across various markets, including multichannel video programming distributors comprising cable, satellite, and telecommunications television providers that aggregate and distribute linear content over networks, as well as television providers that aggregate and stream linear content over broadband networks; overthetop video service providers and social media companies, such as subscription videoondemand and advertisingsupported streaming service providers and social media companies; consumer electronics manufacturers, which includes smart televisions, streaming media devices, video game consoles, mobile devices, content storage devices, and other connected media devices; and semiconductors, including sensors, radio frequency components, memory, and logic devices. The company was incorporated in 2019 and is headquartered in San Jose, California.

52 AdEPT Technology Group plc provides unified communication and IT services in the United Kingdom. It operates in two segments, Fixed Line Services and Managed Services. The company offers call and line rental, data connectivity, hardware, IP telephony, support, and maintenance services, as well as voice and cloud services. It also provides IT, equipment installation, managed, WiFi, and IT and communications hardware products, as well as cyber security, business continuity, and professional products and services. In addition, the company offers education IT technology solutions. AdEPT Technology Group plc was formerly known as Adept Telecom Plc and changed its name to AdEPT Technology Group plc in September 2019. The company was incorporated in 2003 and is headquartered in Tunbridge Wells, the United Kingdom.

53 Adeventa ASA owns and operates online classifieds sites. The company's products and services include generalist classifieds, specialist real estate, motors, and jobs sites. It operates various online classifieds sites under the Adverts.ie, Agriaffaires, A Vendre a Louer, Aut3navig3tor.hu, Automobile.it, Autotrader, carsguide, coches.net, daft.ie, 2dehands/2ememain, DoneDeal, eBay Kleinanzeigen, Fotocasa, Grupo Zap, Groupe Argus, Gumtree, Habitaclia, Haszn3ltaut3.hu, InfoJobs, J3f3g3s, Kufar, Kijiji, leboncoin, leboncoin hotel, Locasun, MachineryZone, Marktplaats, Milanuncios, mobile.de, motos.net, OLX Brasil, Paycar, Segundamano, subito, Truckscorner, Vide Dressing, vivanuncios, Willhaben, L3e3Argus, and Pilgo brands. The company was incorporated in 2018 and is based in Oslo, Norway.

54 Adgar Investments and Development Ltd engages in the real estate activities in Israel, Canada, Poland, and Belgium. The company invests in office properties. It also develops incomeproducing office assets through land purchases and utilization of land reserves associated to various property holdings. The company was incorporated in 1977 and is based in Petah Tikva, Israel. Adgar Investments and Development Ltd operates as a subsidiary of Direct IDI Holdings Ltd.

55 adidas AG, together with its subsidiaries, designs, develops, distributes, and markets athletic and sports lifestyle products

worldwide. It offers footwear; apparel; and accessories and gear, such as bags and balls under the adidas brand. It sells its products through own retail stores; monobrand franchise stores and shopinshops; and wholesale and its ecommerce channels. The company was formerly known as adidasSalomon AG and changed its name to adidas AG in June 2006. adidas AG was founded in 1920 and is headquartered in Herzogenaurach, Germany.

56 ADLINK Technology, Inc. manufactures and sells hardware, software, and peripheral equipment for industrial computers in the Asia Pacific, Mainland China, the Americas, and Europe. The company offers processor blades, switch blades, and platforms; CompactPCI blades, switches, backplanes, enclosures and systems, peripherals and accessories, rear transition modules, power supplies, and intelligent railway platforms; computer modules; multifunction DAQ, USB DAQ, digital I/O, digitizer, dynamic signal analyzer, GPIB, timer/counter, PXI/PXIe, and local cell measurement software and utility products; GPU and AI vision solutions, AI-enabled video analytics and deep learning interface platforms, embedded MXM modules, and PCI express graphic cards; industrial motherboards and SBCs; and industrial and fanless PCs. It also provides gaming specific solutions, generic solutions, gaming monitors, and advanced gaming architecture platforms and boards; and medical panel PCs, monitors, and tablets, as well as motion control, fieldbus, and machine vision products. In addition, the company offers MEC servers, network security appliance, and video processing servers; industrial display systems and panel PCs; ROS2 solutions; rugged SFF platform and servers; software; and embedded flash storage products. It serves defense and aviation, healthcare, industrial automation, gaming, power and energy, retail and logistics, smart city, networking and communication, test and measurement, transportation, and robotics sectors. The company was incorporated in 1995 and is based in Taoyuan City, Taiwan.

57 Adobe Inc., together with its subsidiaries, operates as a diversified software company worldwide. It operates through three segments: Digital Media, Digital Experience, and Publishing and Advertising. The Digital Media segment offers products, services, and solutions that enable individuals, teams, and enterprises to create, publish, and promote content; and Document Cloud, a unified cloudbased document services platform. Its flagship product is Creative Cloud, a subscription service that allows members to access its creative products. This segment serves content creators, students, workers, marketers, educators, enthusiasts, communicators, and consumers. The Digital Experience segment provides an integrated platform and set of applications and services that enable brands and businesses to create, manage, execute, measure, monetize, and optimize customer experiences from analytics to commerce. This segment serves marketers, advertisers, agencies, publishers, merchandisers, merchants, web analysts, data scientists, developers, and executives across the C-suite. The Publishing and Advertising segment offers products and services, such as elearning solutions, technical document publishing, web conferencing, document and forms platform, web application development, and highend printing, as well as Advertising Cloud offerings. The company offers its products and services directly to enterprise customers through its sales force and local field offices, as well as to end users through app stores and through its website at adobe.com. It also distributes products and services through a network of distributors, valueadded resellers, systems integrators, software vendors and developers, retailers, and original equipment manufacturers. The company was formerly known as Adobe Systems Incorporated and changed its name to Adobe Inc. in October 2018. Adobe Inc. was founded in 1982 and is headquartered in San Jose, California.

58 ADT Inc. provides security, automation, and smart home solutions to consumer and business customers in the United States. It operates through Consumer and Small Business, Commercial, and Solar segments. The company provides a range of fire detection, fire suppression, video surveillance, and access control systems to residential, commercial, and multisite customers. It primarily offers monitored security and automation solutions, including the installation and monitoring of security and premises automation systems designed to detect intrusion, control access, sense movement, smoke, fire, carbon monoxide, flooding, temperature, and other environmental conditions and hazards; and address personal emergencies, such as injuries or unanticipated falls. The company also provides automation and smart home solutions that allow customers to use their smart phones or touchscreen panels in their homes to arm and disarm their security systems; record and view realtime video; and creates customized and automated schedules for managing lights, thermostats, appliances, garage doors, cameras, and other connected devices, as well as offers monitoring and maintenance services. It offers its products under the ADT, ADT Pulse, Protection 1, ADT Commercial, and ADT Solar names. The company was formerly known as Prime Security Services Parent, Inc. and changed its name to ADT Inc. in September 2017. ADT Inc. was founded in 1874 and is headquartered in Boca Raton, Florida.

59 ADVA Optical Networking SE engages in the development, manufacture, and sale optical and Ethernetbased networking solutions for telecommunications carriers and enterprises to deliver data, storage, voice, and video services worldwide. It offers open optical transport solutions, such as FSP 3000 open terminals, FSP 3000 open line systems, pluggables and subsystems, and optical access solutions; packet edge and aggregation products, including carrier Ethernet and programmable multilayer edge, metro aggregation, and edge computing products; disaggregated networking, such as packet optical terminals and ensemble activators. The company also provides network virtualization products comprising ensemble connectors, orchestrators, and harmony ecosystems, as well as operates ensemble virtualization director, a management platform for the creation and deployment of virtualized services; network infrastructure assurance products; timing and synchronization products; and automated network management products, such as ensemble optical, sync, fiber, and packet director, and ensemble controllers. In addition, it offers professional services to build, care, and enable the networks. ADVA Optical Networking SE sells its products to telecommunications service providers, private companies, universities, and government agencies directly, as well as through a network of distribution partners. The company was founded in 1994 and is headquartered in Munich, Germany. ADVA Optical Networking SE operates as a subsidiary of ADTRAN Holdings, Inc.

60 Advanced Drainage Systems, Inc. designs, manufactures, and markets thermoplastic corrugated pipes and related water management products, and drainage solutions for use in the underground construction and infrastructure marketplace in the United States, Canada, Mexico, and internationally. The company operates through Pipe, International, Infiltrator, and Allied Products & Other segments. It offers single, double, and triple wall corrugated polypropylene and polyethylene pipes; plastic leachfield chambers and systems, EZflow synthetic aggregate bundles, mechanical aeration wastewater solutions, septic tanks and accessories, and combined treatment and dispersal systems; and allied products, including storm retention/detention and septic chambers, polyvinyl chloride drainage structures, fittings, and water quality filters and separators. The company also purchases and distributes construction fabrics and other geosynthetic products for soil stabilization, reinforcement, filtration, separation, erosion control,

and subsurface drainage, as well as drainage grates and other products. It offers its products for nonresidential, residential, agriculture, and infrastructure applications through a network of approximately 38 distribution centers. The company was incorporated in 1966 and is headquartered in Hilliard, Ohio.

61 Advanced Info Service Public Company Limited, together its subsidiaries, provides mobile network, fixed broadband, and digital services primarily in Thailand. The company operates through three segments: Mobile Phone Services, Mobile Phone and Equipment Sales, and Datanet and Broadband Services. It is involved in the operation of cellular telephone networks. The company also distributes handsets, as well as cash cards; and electronic money and electronic payment services. In addition, it provides international telephone service, broadcasting network, and television broadcasting services for various channels, as well as insurance brokerage services. Further, the company offers IT system, content aggregator, and billing and collection outsourcing services; call center services; and land and building rental services, as well as related facilities. Additionally, it provides internet data center, and internet and satellite uplinkdownlink services for communications; distributes internet equipment; publishes telephone directories and advertising; offers mobile contents; and provides training and online advertising services. The company was founded in 1986 and is headquartered in Bangkok, Thailand.

62 Advanced Microelectronic Products Inc. operates as a wafer fabrication company in Taiwan. It offers semiconductor components that are used in power chargers for smartphones/tablets; notebook PC/IT servos; various power supplies, such as device/ LCD TV/Netcom; solar power converters; LED lighting/AC/DC converters/power supply; and other markets. The company was founded in 1987 and is based in Hsinchu City, Taiwan.

63 Advanced Nano Products Co., Ltd. manufactures and sells nano technology products in South Korea. The company offers materials for display and electronics, including conductive oxide sputtering target, transparent conductive zinc oxide, zirconia/titania colloid and coating, transparent conductive oxide slurry, and nanoparticle slurry materials. It also provides materials for microcircuit/printed electronics, such as silver nano/submicron paste, as well as nanosilver ink for inkjet printing. In addition, the company offers materials for solar cells comprising silver paste, nano materials, and antireflective coating solutions, as well as sputtering targets for thin film solar cells. Further, it provides materials for living environment that include transparent ray blocker films and UV blocker zinc oxide powder/slurry materials. The company was founded in 2000 and is headquartered in Sejong, South Korea.

64 Advanced Technology Company K.S.C.P. engages in the distribution and market of healthcare and environmental solutions in Kuwait. It offers diagnostic imaging and radiotherapy products; medical equipment, and dialysis and health facility infrastructure; laboratory and environmental solutions; automated pharmacy systems and modular furniture for inpatient, outpatient, and emergency pharmacies; and OR integrated solutions, disposables and consumable supplies, and disposables solutions. The company also provides disinfection and sterilization equipment; patient care and rehabilitation, and medical furniture; and specialized equipment, instruments, materials, and consumables for dental clinics and labs. In addition, it offers pharmaceuticals, aesthetic products, medical devices, hospital consumables, and disinfectants; animal health, veterinary, agriculture, crop protection, and irrigation products; and wellness products, healthcare apparel, and medical devices.

Further, the company provides information solutions, such as hospital management systems, electronic medical records, and clinical decision support systems; and structured cabling, converged and wireless networking, IP telephony, video conferencing, enterprise datacenters, enterprise storage, disaster recovery and business continuity, security, and cloud and virtualization environment building solutions. Additionally, it offers kitchen and laundry equipment, including cooking equipment, dishwashers, meal delivery and ventilation systems, insulated trays, and laundry equipment for hospitals, hotels, catering services, and restaurants. The company also provides security, surveillance, and access control solutions; and trained medical professionals for the healthcare sector. It serves government and private hospitals, dental practitioners, laboratories, and physicians. The company was incorporated in 1981 and is headquartered in Salmiya, Kuwait.

65 ADvTECH Limited provides education, training, and staff placement services in South Africa and other African countries. It operates through three segments: Schools, Tertiary, and Resourcing. The Schools segment offers preprimary, primary, and secondary education services. The Tertiary segment provides education in diploma, degree, and postgraduate levels through face-to-face, online, and distance learning. The Resourcing segment offers placement solutions in the areas of information technology (IT), finance, and engineering. ADvTECH Limited was founded in 1978 and is based in Sandton, South Africa.

66 Aegis Brands Inc. engages in the food and beverage business in Canada. It owns and operates coffeehouses under the Bridgehead name; and offers coffee and tea products. It also provides backoffice services to support its retail operating brands. The company was formerly known as The Second Cup Ltd. and changed its name to Aegis Brands Inc. in September 2020. Aegis Brands Inc. was founded in 1975 and is based in Markham, Canada.

67 AEM Holdings Ltd provides intelligent system-level testing and handling solutions for semiconductor and electronics companies. It operates through Test Cell Solutions, Instrumentation, Contract Manufacturing, and Other segments. The company offers handling solutions comprising system-level, wafer-level, and package-level tests. It also provides test manipulators, test instruments, software, and other services, as well as TestPro multifunction cable tester, network service assistant, mixed mode multiport vector network analyzer, and WideOptixSR4 measurement system solutions; and contract manufacturing services. The company operates in Singapore, China, Costa Rica, Germany, Malaysia, Finland, France, the United States, the United Kingdom, Vietnam, and internationally. AEM Holdings Ltd was incorporated in 2000 and is headquartered in Singapore.

68 Aeorema Communications plc, a live events agency, engages in the devising and delivering of corporate communication solutions in the United Kingdom, the United States, and internationally. The company was formerly known as Cheerful Scout plc and changed its name to Aeorema Communications plc in December 2011. Aeorema Communications plc was incorporated in 2001 and is headquartered in London, the United Kingdom.

69 Aerojet Rocketdyne Holdings, Inc. engages in the design, development, manufacture, and sale of aerospace and defense products and systems in the United States. It operates in two segments, Aerospace and Defense, and Real Estate. The Aerospace and Defense segment offers aerospace and defense products and systems for the United States government, including the Department of Defense, the National Aeronautics and Space Administration, and aerospace and defense prime contractors. This segment provides liquid and solid rocket propulsion systems, airbreathing hypersonic engines, and electric power and propulsion

systems for space, defense, civil, and commercial applications; and armament systems. The Real Estate segment engages in the rezoning, entitlement, sale, and leasing of the company's excess real estate assets. The company was formerly known as GenCorp Inc. and changed its name to Aerojet Rocketdyne Holdings, Inc. in April 2015. Aerojet Rocketdyne Holdings, Inc. was incorporated in 1915 and is headquartered in El Segundo, California.

70 Aeroporto Guglielmo Marconi di Bologna S.p.A., together with its subsidiaries, develops, manages, and maintains an airport in Bologna. The company operates through Aviation, NonAviation, and Other segments. It manages and develops the airport infrastructure of Bologna, including terminal, baggage sorting, car parking, traffic, and cargo storage, as well as airside areas. The company also provides security services and services to passengers with reduced mobility; offers information to the public and airport users; operates as a handler for general aviation; develops, revamps, and expands airport infrastructure, including installations and equipment; and handles cargo and mail at the airport. In addition, it offers parking management services; retail sub concessions and advertising space services; and car rentals and business lounge services, as well as manages real estate properties. Aeroporto Guglielmo Marconi di Bologna S.p.A. is based in Bologna, Italy.

71 Aeroports de Paris SA owns and operates airports worldwide. The company operates through Aviation, Retail and Services, Real Estate, International and Airport Developments, and Other Activities segments. The Aviation segment provides security and airport safety services, such as security checkpoints, screening systems, aircraft rescue, and firefighting services. The Retail and Services segment engages in the retail activities, including bars, restaurants, banks, car rentals, and retail shops, as well as leases space for terminals, advertising, restaurant, and car park services. This segment is also involved in the production and supply of heat, drinking water, and access to the chilled distribution networks. The Real Estate segment engages in the construction, commercialization, and lease management of office buildings, logistic buildings, and freight terminals; and provides property leasing services for airport terminals, as well as rents serviced land. The International and Airport Developments segment designs and operates airport activities. The Other Activities segment offers telecom and cybersecurity services. Aeroports de Paris SA was incorporated in 1945 and is based in Tremblay-en-France, France.

72 Aerospace CH UAV Co., Ltd manufactures and sells electronic thin films for capacitor in China. The company offers capacitors with polypropylene electronic films covering a range of specifications, including ultrathin films, high temperature films, safety explosionproof membranes, high voltage power capacitor films, and other highend films, as well as supplies highend capacitor films and the Chinese product line of capacitor films. It also provides solar cell back material films, metallized films, high temperature resistant polypropylene films, and polypropylene films. In addition, the company offers lithiumion battery separate films for the energy storage. The company was formerly known as Zhejiang Nanyang Technology Co., Ltd. The company was founded in 2001 and is based in Taizhou, China.

73 Aerospace Industrial Development Corporation engages in the development, manufacturing, integration, assembly, and testing and verification of aircraft systems and parts in Taiwan and internationally. The company provides military aircrafts and helicopters, commercial aviation, and aero/industrial engines. It engages in the manufacturing maintenance and upgradation of drones, military aircrafts, and production of military hardware, as well as military aircraft engines. The company

also design and OEM production of airframe structure and subassembly parts; design, processing, and OEM production of international commercial aircraft engines and parts and components. In addition, it offers aviation service, R&D application, design, manufacturing, testing, system integration, and aftersales services. Further, the company offers aircraft maintenance including flight line operations, intermediate, and depot level maintenance; instrument and electronics repair, accessories, and avionics test equipment maintenance; harness fabrication and maintenance, avionics repair/overhaul, and production of avionic systems; and logistic support services. Additionally, it provides flight services, which includes flight test, airborne system development flight test verification, aerial data measurement and acquisition, and flight training; and information and technology services, as well as involves in railway, automotive electronics, and power/energy business; and commercial jet aircraft auxiliary power unit. The company was formerly known as Aero Industry Development Center. Aerospace Industrial Development Corporation was founded in 1969 and is headquartered in Taichung City, Taiwan.

74 AeroSpace Technology of Korea Inc. manufactures and sells aircraft parts in South Korea. Its products include air frame products and metallic parts, as well as assembly machines. The company was founded in 2001 and is headquartered in Sacheon, South Korea.

75 AES Andes S.A., together with its subsidiaries, engages in the generation, transmission, purchase, sale, and distribution of electric energy and power. It operates hydro, solar, wind, biomass, natural gas, diesel, and coalfired plants, as well as thermoelectric plants, and battery energy storage systems. The company is also involved in water desalination activities. As of January 11, 2023, it operated a portfolio of power generation assets with a total installed capacity of 5,101 megawatts in Chile, Colombia, and Argentina. The company was formerly known as AES Gener S.A. and changed its name to AES Andes S.A. in May 2021. The company was founded in 1981 and is based in Santiago, Chile. AES Andes S.A. is a subsidiary of Inversiones Cachagua SpA.

76 AF Global Limited, an investment holding company, owns and operates hotels and serviced residences. It operates Holiday Inn Resort Phuket, a hotel with 398 rooms; and serviced residences, which consists of studio units, apartments, and office units. The company also provides project and property management services; and real estate consultancy services, as well as develops, sells, and invests in properties. It has operations in Singapore, the People's Republic of China, Thailand, Vietnam, and the Lao People's Democratic Republic. The company was formerly known as LCD Global Investments Ltd. and changed its name to AF Global Limited in April 2016. AF Global Limited was incorporated in 1973 and is based in Singapore.

77 AF Gruppen ASA, a contracting and industrial company, engages in civil engineering, construction, property, energy, enviroent, and offshore businesses primarily in Norway and Sweden. The company's Civil Engineering business area undertakes civil engineering and niche projects related to roads and railways, port facilities, airports, tunnels, foundation work, power, and energy, as well as onshore facilities for oil and gas. Its Construction business area develops, engineers, and constructs commercial, residential, and public buildings, as well as rehabilitation projects. The company's Betoast business area operates as building contractor for large residential properties, and commercial and public buildings; and develops properties. Its Property business area develops residential units and commercial buildings. The company's Energy and Enviroent business area provides smart and energy efficient services for buildings and industry; and demolition and recycling

services. Its Sweden business area engages in construction, civil engineering, property, and environmental activities. The company's offshore business area undertakes the removal, demolition, and recycling of offshore installations; and construction, modification, and maintenance works related to cranes, modules, and rig services, as well as heating, ventilation, air conditioning, and cooling systems. AF Gruppen ASA was founded in 1985 and is headquartered in Oslo, Norway.

78 Affluent Partners Holdings Limited, an investment holding company, engages in the purchase, process, design, production, assembly, trade, and wholesale distribution of pearls and jewelry products. It operates in two segments, Sales of Pearls and Jewellery Products, and Strategic Investment and Financial Services. The company is also involved in the real estate financial assets investment business. It has operations in Hong Kong, the United Kingdom, the United States, Japan, Europe, and the People's Republic of China. The company was formerly known as Man Sang Jewellery Holdings Limited and changed its name to Affluent Partners Holdings Limited in February 2017. Affluent Partners Holdings Limited was incorporated in 2014 and is based in Central, Hong Kong.

79 Africa Israel Residences Ltd engages in the development and sale of residential units under the Savyonim brand in Israel. The company is involved in the initiation, planning, development, construction, and marketing of residential housing units; and construction, management, and maintenance of rental housing projects. It also engages in the online sale of penthouses, garden apartments, and duplexes. Africa Israel Residences Ltd was incorporated in 1960 and is based in Or Yehuda, Israel.

80 African Rainbow Minerals Limited, through its subsidiaries, operates as a diversified mining and minerals company in South Africa and Malaysia. It explores for platinum group metals, nickel, copper, cobalt, coal, iron ore, manganese ore, chrome ore, and ferromanganese, as well as gold. The company was founded in 1933 and is based in Sandton, South Africa.

81 Afry AB provides engineering, design, and advisory services for the infrastructure, industry, energy, and digitalization sectors in North and South America, Finland, and Central Europe. The company operates through six segments: Infrastructure, Industrial & Digital Solutions, Process Industries, Energy, AFRY X, and Management Consulting. The company offers architecture and design services; automation and manufacturing solutions; automotive and mobility services; building solutions for airports, culture and sports facilities, high security facilities, hospitals, healthcare and research, hotels and restaurants, housing and industrial facilities, offices, retail properties, schools and academic facilities, and stations and terminals; defense technology systems; digital solutions, and information and communication technology services; and engineering and consulting services for energy and power applications. It also offers sustainability consulting and environmental services; services for food, life science, and pharmaceutical industries; management consulting services; solutions for processing industries, including mining and metals, food and beverage, pulp and paper, and chemical industries, as well as biorefining and biobased solutions; product development services; project management services; transport infrastructure services; solutions for water management; and consulting services and software products. The company was formerly known as ÅF-PÅfry AB (publ) and changed its name to Afry AB in June 2021. Afry AB was founded in 1895 and is headquartered in Stockholm, Sweden.

82 Afya Limited, through its subsidiaries, operates as a medical education group in Brazil. It offers educational products and services, including medical schools, medical residency preparatory courses,

graduate courses, and other programs to lifelong medical learners enrolled across its distribution network, as well as to thirdparty medical schools. The company also provides digital health services, such as subscriptionbased mobile app and website portal that focuses on assisting health professionals and students with clinical decisionmaking through tools, such as medical calculators, charts, and updated content, as well as prescriptions, clinical scores, medical procedures and laboratory exams, and others. It offers health sciences courses, which comprise medicine, dentistry, nursing, radiology, psychology, pharmacy, physical education, physiotherapy, nutrition, and biomedicine; and degree programs and courses in other subjects and disciplines, including undergraduate and post graduate courses in business administration, accounting, law, civil engineering, industrial engineering, and pedagogy. In addition, the company provides medical postgraduate specialization programs; printed and digital content; and an online medical education platform and practical medical training services. As of December 31, 2021, it operated a network of 46 undergraduate and graduate medical school campuses consisted of 30 undergrad operating units and five approved units; and a network of 2,731 medical school seats that consisted of 2,481 operating seats and 278 approved seats. The company was founded in 1999 and is headquartered in Nova Lima, Brazil.

83 Agalawatte Plantations PLC engages in the cultivation, production, processing, and sale of tea, rubber, and oil palm in the Kalutara, Ratnapura, and Nuwara Eliya districts, Sri Lanka. It is involved in the provision of various noncrop diversification initiatives. The company was incorporated in 1992 and is based in Nittambuwa, Sri Lanka. Agalawatte Plantations PLC is a subsidiary of D.R. Investment (Private) Limited.

84 Agilent Technologies, Inc. provides application focused solutions to the life sciences, diagnostics, and applied chemical markets worldwide. The Life Sciences and Applied Markets segment offers liquid chromatography systems and components; liquid chromatography mass spectrometry systems; gas chromatography systems and components; gas chromatography mass spectrometry systems; inductively coupled plasma mass spectrometry instruments; atomic absorption instruments; microwave plasmaatomic emission spectrometry instruments; inductively coupled plasma optical emission spectrometry instruments; raman spectroscopy; cell analysis plate based assays; flow cytometer; realtime cell analyzer; cell imaging systems; microplate reader; laboratory software; information management and analytics; laboratory automation and robotic systems; dissolution testing; vacuum pumps, and measurement technologies. The Diagnostics and Genomics segment provides arrays for DNA mutation detection, genotyping, gene copy number determination, identification of gene rearrangements, DNA methylation profiling, gene expression profiling, next generation sequencing, target enrichment and genetic data management, and interpretation support software; and produces synthesized oligonucleotide. It also offers immunohistochemistry in situ hybridization, and hematoxylin and eosin staining and special staining; consumables, and software for quality control analysis of nucleic acid samples; and reagents for use in turbidimetry and flow cytometry, as well as develops liquidbased pharmacodiagnosics. The Agilent CrossLab segment provides GC and LC columns, sample preparation products, custom chemistries, and laboratory instrument supplies; and startup, operational, training, compliance support, software as a service, asset management, and consultation services. The company markets its products through direct sales, distributors, resellers, manufacturer's representatives, and electronic commerce. Agilent Technologies, Inc. was incorporated in 1999 and is headquartered in Santa Clara, California.

85 AGL Energy Limited supplies energy and other services to residential, small and large businesses, and wholesale customers in Australia. It operates through three segments: Customer Markets, Integrated Energy, and Investments. The company engages in generating electricity through coal and gasfired generation, thermal, hydro, wind, batteries, and solar power plants; gas storage activities; and the retail sale of electricity, gas, broadband/mobile/voice, solar, and energy efficiency products and services. It operates electricity generation portfolio of 10,330 megawatts; the Newcastle gas storage facility in New South Wales; the Silver Springs underground gas storage facility in Queensland; natural gas production assets at Camden in New South Wales; and the North Queensland gas assets. The company serves 4.2 million customer accounts. AGL Energy Limited was founded in 1837 and is based in Sydney, Australia.

86 Agritech Limited manufactures and markets urea and granulated single super phosphate fertilizers in Pakistan. The company operates through two segments, Urea Fertilizer and Phosphate Fertilizer. The Urea Fertilizer segment produces urea fertilizers and ammonia from natural gas. The Phosphate Fertilizer segment produces phosphate fertilizers from rock phosphate. The company markets its products under the Tara brand. Agritech Limited was formerly known as PakAmerican Fertilizers Limited. The company was founded in 1958 and is headquartered in Lahore, Pakistan.

87 Aguas Andinas S.A., together with its subsidiaries, operates as a water utility company in Chile. It engages in the catchment of raw water; production, transportation, and distribution of water; and the collection, treatment, and final disposal of sewage. The company also provides integral advisory and management services in sewage and liquid waste; sells equipment and nonconventional renewable energies; develops energy projects relating to sanitation companies; and offers laboratory sampling and environmental analysis services. It delivers potable water, sewerage, and wastewater treatment services to approximately two million residential, commercial, and industrial clients. The company was formerly known as Empresa Metropolitana de Obras Sanitarias and changed its name to Aguas Andinas S.A. in 2001. The company was founded in 1861 and is based in Santiago, Chile. Aguas Andinas S.A. is a subsidiary of Inversiones Aguas Metropolitanas S.A.

88 Aier Eye Hospital Group Co., Ltd. operates eye care hospitals and institutions. The company offers medical services in the areas of fundus diseases, optometry, refractive correction, glaucoma, corneal diseases, and cataract. It also provides training course for cataract prevention and treatment. The company operates approximately 500 ophthalmic hospitals in mainland China, 86 ophthalmic hospitals in Europe, 1 ophthalmic hospital in the United States, 7 ophthalmic hospitals in Hong Kong, and 12 ophthalmic hospitals in Southeast Asia. The company was founded in 2007 and is headquartered in Changsha, China.

89 Aimflex Berhad, an investment holding company, designs, manufactures, and modifies specialized automation machines and precision parts. It operates through three segments: Manufacturing and Trading, Distribution, and Others. The company also designs and fabricates metal panels and frames, and precision parts; and distributes manufacturing automation hardware and software, as well as statistical analysis software, wireless communication devices, and robotic arms. In addition, it provides maintenance and technical support services, and supply of spare parts; and data management systems to collect and visualize real time data, such as PLC readings, machine health status, and sensor data with graphical dashboard, as well as rents investment properties. Further, the company designs, develops, manufactures, and integrates modules and components; retail sale of computer hardware and peripheral

equipment, and computer software; and develops other software and programming activities. It operates in Malaysia, Singapore, Indonesia, the Philippines, and internationally. The company was formerly known as iStone Group Berhad and changed its name to Aimflex Berhad in February 2021. Aimflex Berhad was founded in 2007 and is based in Senai, Malaysia.

90 Ainsworth Game Technology Limited designs, develops, manufactures, sells, distributes, and services electronic gaming machines, and other related equipment and services. The company also provides online real money and social games. It has operations in Australia, North America, Latin America, Europe, New Zealand, South Africa, Asia, and internationally. The company was incorporated in 1995 and is headquartered in Newington, Australia. Ainsworth Game Technology Limited is a subsidiary of Novomatic AG.

91 AirIQ Inc. provides wireless asset management and location services in Canada. The company also develops and operates telematics asset management system by digitized mapping, wireless communications, internet, and the global positioning system. Its webbased platform provides fleet operators and vehicle owners with a suite of asset management solutions to monitor, manage, and protect their assets. In addition, the company offers its services through online or a mobile app, including instant vehicle locating, boundary notification, automated inventory reports, maintenance reminders, security alerts, and vehicle disabling and unauthorized movement alerts. AirIQ Inc. was incorporated in 1997 and is headquartered in Pickering, Canada.

92 Airtel Networks Zambia Plc provides cellular radio telecommunication services to individual and business customers in Zambia. It provides voice services; Internet services, including 4G, and home and enterprise broadband services; 4G devices, MiFi™s, phones, and dongles; MyAirtel App that enables customers to access products digitally; a suite of ICT and digital solutions; and Airtel Fibre network, which provides metro ethernet service, MPLS, dedicated internet access, fixed SIP/E1 voice, international private leased lines, and software defined wide area network services, as well as wholesale bandwidth and value added services. The company was formerly known as Celtel Zambia Plc and changed its name to Airtel Networks Zambia Plc in April 2013. Airtel Networks Zambia plc was incorporated in 1997 and is based in Lusaka, Zambia. Airtel Networks Zambia Plc is a subsidiary of Bharti Airtel Zambia Holdings BV.

93 Aisha Steel Mills Limited manufactures and sells flat rolled steel products in Pakistan. The company offers cold rolled coils for use in auto, engineering, appliances, and pipe manufacturing sectors; and hot dipped galvanized coils for use in various applications, which include HVAC, pipes, containers, ceilings, light gauge steel structures, and canopies. It also exports its products. The company sells its products through a network of dealers, as well as directly to the end users manufacturing various engineering goods. Aisha Steel Mills Limited was incorporated in 2005 and is based in Karachi, Pakistan.

94 Aitken Spence PLC, together with its subsidiaries, engages in the tourism, maritime and freight logistics, strategic investment, and services businesses in Sri Lanka, Maldives, and internationally. The company provides inbound and outbound travel services; owns and operates a chain of hotels and resorts; and operates as a general sales agent, as well as provides destination management services. It also offers maritime and logistics services, such as inland container terminal, container repair, shipping agent, supply of marine lubricants, representation of liner shipping agencies, and container agency services; port and liner services; freight forwarding and courier operations; container dispatch, transporting, warehousing, and renting of reefer containers; integrated

container services; express and courier services; mobile storage solutions; and cargo handling services. In addition, the company provides printing and packaging services; manufactures and exports apparel to departmental stores and apparel importers; constructs and operates thermal, hydro, wind, and wastetoenergy power plants; cultivates and manufactures tea, rubber, oil palm crops, coconut, strawberries, blueberries, blackberries, raspberries, cinnamons, and vegetables. Further, it engages in the property development business; owns and operates multistoried office complexes, buildings, and land; renting of property; operates as agents and distributors for marketing, installing, commissioning, and maintaining OTIS elevators, escalators, and moving equipment; and provides general insurance agency and money transfer services. Additionally, the company operates water bottling; and operates private maritime and higher education campus. Aitken Spence PLC was founded in 1868 and is based in Colombo, Sri Lanka. The company operates as subsidiary for Melstacorp PLC

95 Akenerji Elektrik Ėæretim A.S. engages in the generation, transmission, and trading of electricity in Turkey and internationally. The company operates hydroelectric, wind, and natural gas combined cycle power plants with a total installed capacity of 1,224 megawatts. It is also involved in natural gas trading business. The company was incorporated in 1989 and is headquartered in Istanbul, Turkey.

96 Aker BioMarine AS develops, produces, and sells krillderived ingredients for nutraceutical, dietary supplement, and animal feed applications in Norway, the Americas, the Asia Pacific, Europe, the Middle East, and Africa. It operates through two segments, Ingredients and Brands. It provides Superba, a krillbased ingredients for nutraceutical, including phospholipid complex of choline, omega3s, and antioxidant astaxanthin; QRILL Aqua, a krillbased ingredients for aquaculture; and QRILL Pet, a krillbased ingredients animal feed application. The company also offers LYSOVETA, a delivery platform based on LPCbound EPA and DHA from krill; and INVI, a hydrolyzed protein isolate for food and beverage applications. In addition, it distributes human health and nutrition products, and natural supplements, as well as provides AION, a circular solution provider that recycles waste and reuse materials. The company was founded in 2006 and is headquartered in Lysaker, Norway. Aker BioMarine ASA is a subsidiary of Aker ASA.

97 Aker BP ASA engages in the exploration, development, and production of oil and gas on the Norwegian Continental Shelf. The company has working interests in 36 fields/projects. The company was formerly known as Det norske oljeselskap ASA and changed its name to Aker BP ASA in October 2016. Aker BP ASA was founded in 2001 and is headquartered in Fornebu, Norway.

98 Aksa Enerji Ėæretim A.S., an independent power producer, produces and sells electricity in Turkey, Asia, and Africa. The company produces energy from coal, fuel oil, biogas, natural gas, wind, and hydroelectricity. It operates approximately 30 power plants. The company also engage in construction, lending, and operation of electricity power plants. The company was founded in 1997 and is headquartered in Istanbul, Turkey. Aksa Enerji Ėæretim A.S. is a subsidiary of Kazanci Holding A.S.

99 Akumin Inc. provides outpatient diagnostic imaging services in the United States. It operates in two segments, Radiology and Oncology. The company offers various medical imaging services, including magnetic resonance imaging, computed tomography, positron emission tomography, nuclear medicine, mammography, ultrasound, diagnostic radiology, fluoroscopy, and other diagnostic and interventional radiology procedures through owned and/or operated imaging locations. It provides outpatient radiology, and oncology services and solutions to hospitals and health

systems across 48 states. Akumin Inc. was founded in 2015 and is headquartered in Plantation, Florida.

100 AKVA group ASA designs, purchases, manufactures, assembles, sells, and installs technology products; and provides rental and consulting services for the aquaculture industry. The company operates through three segments: Sea Based Technology (SBT), Digital, and Land Based Technology. The SBT segment offers plastic cages, steel cages, fish farming cages, feed barges, feed systems, sensor and camera systems, light systems, net cleaning systems, remotely operating vehicles, and nets and mooring systems under the Polarcirkel, Wavemaster, and Akvasmart hardware brands. This segment also supplies polyethylene boats and pipes to aquaculture and other industries, as well as plastic pen. The Digital segment provides production control, planning, traceability, and ERP software for the aquaculture and fishing industries under the Fishtalk, AKVAconnect, and AKVA Observe. The Land Based Technology segment designs and delivers recirculation systems for landbased fish farming, as well as provides water quality conditions for fresh and seawater operations. AKVA group ASA operates in Norway, Chile, the United Kingdom, Denmark, Canada, and internationally. The company was incorporated in 1982 and is based in Klepp Stasjon, Norway. AKVA group ASA is a subsidiary of Egersund Group AS.

101 Akzo Nobel N.V. engages in the production and sale of paints and coatings worldwide. It offers decorative paints, including paints, lacquers, and varnishes; and a range of mixing machines and color concepts for the building and renovation industry, as well as specialty coatings. The company also provides performance coatings that protect and enhance ships, cars, aircraft, yachts, architectural components, consumer goods, and oil and gas facilities. It offers its products primarily under AkzoNobel, Alabastine, Alba, Andercol, Apla, Armstead Trade, Astral, AwlGrip, Dulux, Bruguer, Cetabever, Cetol, Chemcraft, Colourland Paints, Coral, Cromadex, Cuprinol, Dynacoat, Flexa, Glitsa, GripGard, Zuehne, Xylazel, Xyladecor, Wanda, Vpowdertech, Vivechrom, Utech, Trimetal, Titanlux, Taubmans, Sparlack, Sikkens, Savana, and Salcomix, as well as Sadolin, Resicoat, Relest, Procolor, Polyfilla, Polycell, Pinotex, Pintuco, Oxirite, Nordsjo, Molto, Modern Classikk, Maxilite, Mauvilac, Mason CT, Marshall, Laxol, Levis, Lesonal, Interpon, International, Interlux, Innenweis, Inca, Herbol, and Hammerite brands. The company was formerly known as Akzo NV and changed its name to Akzo Nobel N.V. in 1994. Akzo Nobel N.V. was founded in 1646 and is headquartered in Amsterdam, the Netherlands.

102 Al Anwar Ceramic Tiles Company SAOG manufactures, sells, and distributes glazed ceramic tiles in the Sultanate of Oman. The company offers floor tiles for kitchen, balcony, bathroom, bedroom, and living room spaces; outdoor floor tiles; elevated wall tiles; decorative panels; and porcelain tiles under the Al Shams brand name. It exports its products in approximately 20 countries, including GCC, the Middle East, and Africa. Al Anwar Ceramic Tiles Company SAOG was founded in 1998 and is headquartered in Muscat, the Sultanate of Oman.

103 Al Arafa for Investment and Consultancies (S.A.E.) manufactures, retails, and distributes textile and apparel worldwide. The company offers luxury, formal, and casual wear for men and kids under the Concrete, Ted Baker, Ben Sherman, Alexander, Racing Green, Suit Direct, Gibson London, and Pierre Cardin brands; and hire services under the Young&™s brand. It operates through a network of approximately 40 retail stores under the Concrete brand; and approximately 50 Baird stores, as well as sell through the online channel. The company also exports its products. Al Arafa for Investment and Consultancies Company (S.A.E) was founded in 1907 and is headquartered in Cairo, Egypt.

104 Al Ezz Dekheila Steel Company Alexandria S.A.E. produces and sells iron and steel products in Egypt and internationally. The company offers flat steel products, rebars, wire rods, and welded steel fabric for various applications, including concrete reinforcement, hightensile cables, nuclear projects infrastructure, and fasteners and fixings. The company was founded in 1982 and is headquartered in Cairo, Egypt. Al Ezz Dekheila Steel Company Alexandria S.A.E. operates as a subsidiary of Ezz Steel Company.

105 Al Kout Industrial Projects Company K.P.S.C., together with its subsidiaries, provides industrial and chemical product services in Kuwait. The company operates through Chlor Alkali, Petrochemical products, Trading, Logistics and Transport, Industrial projects, and Investment segments. It also offers caustic soda, chlorine, ferric chloride, sodium hypochlorite, salt, hydrogen, chlorokout, and chlorine dioxide. In addition, It provides land, sea, and air freight transportation services. Further, the company engages in the import, storage, and distribution of cement and other bulk materials, as well as develops, operates, and manages storage silos. Additionally, it is involved in the construction of chlorine dioxide plant for groundwater reservoirs, as well as involved in the construction of chlorine dioxide plant for groundwater reservoirs; blending of chemical services; and investment activities. Furthermore, the company produces, sells, and distributes petrochemical products and industrial materials. The company engages in logistic and transportation services. It serves industries, such as potable and waste water treatment plants, power plants, oil refineries, petrochemical industries, oil drilling, industrial applications, food, and pharmaceuticals. Al Kout Industrial Projects Company K.P.S.C. was incorporated in 1993 and is headquartered in Kuwait City, Kuwait.

106 AlMazaya Holding Company K.S.C. (Public), together with its subsidiaries, operates as a real estate development company. It develops villa communities; residential buildings; and commercial spaces, including office and retail buildings, and health projects, such as medical centers. The company is also involved in the project, marketing, and property management; portfolio management; and real estate valuation, research, and brokerage activities. In addition, it purchases, owns, and sells lands; and operates, manages, invests in, leases, and rents hotels, health clubs, recreational parks, gardens, exhibition grounds, restaurants, residential and commercial complexes, and tourist and health resorts. The company operates in Kuwait, the United Arab Emirates, Oman, Turkey, and Bahrain. AlMazaya Holding Company K.S.C. (Public) was incorporated in 1998 and is headquartered in Kuwait City, Kuwait.

107 Alamo Group Inc. designs, manufactures, distributes, and services vegetation management and infrastructure maintenance equipment for goverental, industrial, and agricultural uses worldwide. It operates through two segments, Vegetation Management and Industrial Equipment. Its Vegetation Management Division segment offers hydraulicallypowered and tractor and offroad chassis mounted mowers, other cutters and replacement parts for heavyduty and intensive uses and heavy duty, tractor and truckmounted mowing and vegetation maintenance equipment, and replacement parts. This segment also provides rotary and finishing mowers, flail and disc mowers, frontend loaders, backhoes, rotary tillers, posthole diggers, scraper blades and replacement parts, zero turn radius mowers, cutting parts, plain and hardfaced replacement tillage tools, disc blades, and fertilizer application components; aftermarket agricultural parts, heavyduty mechanical rotary mowers, snow blowers, rock removal equipment, tractor attachments, agricultural implements, hydraulic and boommounted hedge and grass cutters, hedgerow

cutters, industrial grass mowers, agricultural seedbed preparation cultivators, selfpropelled sprayers and multidrive loadcarrying vehicles, and cutting blades. The company's Industrial Equipment Division segment offers truckmounted air vacuum, mechanical broom, and regenerative air sweepers, pothole patchers, leaf collection equipment and replacement brooms, parking lot and street sweepers, excavators, catch basin cleaners, and roadway debris vacuum systems, as well as truckmounted vacuum machines, combination sewer cleaners, and hydro excavators. This segment also offers ice control products, snowplows and heavy duty snow removal equipment, hitches, attachments, and graders; and public works and runway maintenance products, parts, and services, and high pressure cleaning systems and trenchers. The company was founded in 1955 and is headquartered in Seguin, Texas.

108 Alcon Inc. researches, develops, manufactures, distributes, and sells eye care products for eye care professionals and their patients worldwide. The company's Surgical segment offers equipment, instrumentation and diagnostics, intraocular lenses (IOLs), and other implantables; and consumables, including viscoelastics, surgical solutions, incisional instruments, surgical custom packs, and other products for use in surgical procedures. Its cataract products include centurion vision system, LenSx laser system, LuxOR surgical ophthalmic microscope, NGENUITY 3D visualization system, and ORA system for intraoperative measurements; custom pak surgical procedure packs; vitreoretinal products comprising constellation vision systems, procedure packs, lasers and handheld microsurgical instruments, and grieshaber and MIVS instruments, as well as scissors, forceps and microinstruments, medical grade vitreous tamponades, and Hypervit vitrectomy probes; refractive surgery products, including WaveLight lasers and Contoura Vision used for LASIK treatment; EXPRESS glaucoma filtration device; and implantables products, including AcrySof IQ products, such as monofocal IOLs and advanced technology IOLs for the correction of presbyopia and astigmatism at the time of cataract surgery. Its Vision Care segment provides daily disposable, reusable, and colorenhancing contact lenses; ocular health products, such as dry eye, glaucoma, contact lens care, and ocular allergies; and ocular vitamins and redness relievers. The company was formerly known as Alcon Universal S.A. and changed the name to Alcon Inc. in December 2001. Alcon Inc. was founded in 1945 and is headquartered in Geneva, Switzerland.

109 "Aleatica, S.A.B. de C.V., together with its subsidiaries, engages in the design and operation of highways and other mobility assets in Europe and Latin America. It operates 7 toll highways and 1 airport in Mexico; 1 toll highway in Peru, Colombia, Italy, and the United Kingdom; and 3 toll highways in Chile; 2 toll highways, 2 ports, and 1 light rail metro in Spain. The company was incorporated in 2005 and is based in Mexico City, Mexico. Aleatica, S.A.B. de C.V. is a subsidiary of Aleatica S.A.U.

"

110 Alfa Laval Corporate AB provides heat transfer, separation, and fluid handling products and solutions worldwide. The company operates in three divisions: Energy, Food & Water, and Marine. It offers oil/gasfired steam and composite steam boilers, exhaust gas economizer, and ballast water treatment systems, and exhaust gas cleaning products. The company also provides sensing and control, cleaning validation, condition monitoring, agitators, tank, powder mixers, fittings, and tubes, as well as wall mounted cleaning nozzles, rotary jet and heads; and tank accessories and covers. In addition, the company offers centrifugal, rotary lobe, three screw, twin screw, and circumferential piston pumps. Further, the company provides butterfly, control and check, double seal,

diaphragm, double seat, regulating, safety, sampling, shutter, single seat, and ball valves. Additionally, the company offers heat exchanger, tubeintube heat exchangers, and process shellandtube heat exchangers. Furthermore, the company provides finned tube air heat, scraped surface heat exchangers, and various plate heat exchangers, wet surface, and HYAC hybrid air coolers. It also offers decanters and separator related products. The company serves energy, utilities, home, personal care, food, dairy, beverage, marine, transportation, pharmaceutical, biotech, water, and wastewater industries. Alfa Laval Corporate AB was founded in 1883 and is headquartered in Lund, Sweden.

111 ALi Corporation develops and sells settop box (STB) systemonchips worldwide. The company offers smart audio and robot vacuum cleaner products. It provides its settop box solutions for digital satellite, digital cable, and digital terrestrial STB, as well as H.264 HD or SD STB applications; and smart display solution to HDMI dongle and Pico projector. The company was formerly known as Acer Laboratories, Inc. and changed its name to ALi Corporation in 2002. ALi Corporation was founded in 1987 and is headquartered in Taipei, Taiwan.

112 Alico, Inc., together with its subsidiaries, operates as an agribusiness and land management company in the United States. The company operates in two segments, Alico Citrus, and Land Management and Other Operations. The Alico Citrus segment cultivates citrus trees to produce citrus for delivery to the processed and fresh citrus markets. The Land Management and Other Operations segment owns and manages land in Collier, Glades, and Hendry Counties; and leasing of land for recreational and grazing purposes, conservation, and mining activities. As of September 30, 2022, it had 74,000 acres of land situated in eight counties in Florida, which include the Charlotte, Collier, DeSoto, Glades, Hardee, Hendry, Highlands, and Polk. The company was founded in 1960 and is headquartered in Fort Myers, Florida.

113 Alimak Group AB (publ) provides vertical access solutions in Europe, Asia, Australia, South and North America, and internationally. The company operates through four segments: BMU, Construction, Industrial, and Wind. The company develops, manufactures, sells, services, and rents construction hoists and platforms for temporary use in construction and renovation projects; sells used construction products; and provides assembly, disassembly, maintenance, operating assistance, transportation, and insurance services. It also offers installed rackandpinion and traction elevators used in ports, power, cement, marine, and oil and gas segments for maintenance and accessibility; service solutions, such as package, preventive maintenance and repair, inspection, refurbishment, and customer training services, as well as genuine replacement parts; and permanently installed equipment and systems that enable regular access to the building maintenance units. In addition, the company provides vertical access solutions and safety products; and service lifts, vertical ladders, and fall protection systems. It offers its products and services under the Alimak, CoxGomyl, Manntech, Avanti, and Alimak Service brand names. Alimak Group AB (publ) was founded in 1948 and is headquartered in Stockholm, Sweden.

114 Alkermes plc, a biopharmaceutical company, researches, develops, and commercializes pharmaceutical products to address uet medical needs of patients in various therapeutic areas in the United States, Ireland, and internationally. Its marketed products include ARISTADA, an intramuscular injectable suspension for the treatment of schizophrenia; ARISTADA INITIO for the treatment of schizophrenia in adults; VIVITROL for the treatment of alcohol and prevention of opioid dependence; RISPERDAL CONSTA for the treatment of schizophrenia and bipolar I disorder; INVEGA SUSTENNA/ XEPLION for the treatment of schizophrenia and

schizoaffective disorder; INVEGA TRINZA, TREVICTA, and HAFYERA/BYANNLI to treat schizophrenia; and VUMERITY for the treatment of relapsing forms of multiple sclerosis in adults, including clinically isolated syndrome, relapsingremitting and active secondary progressive diseases. The company is also developing LYBALVI, an oral atypical antipsychotic drug candidate for the treatment of adults with schizophrenia and bipolar I disorder; and nemvaleukin alfa, an engineered fusion protein to expand tumorkilling immune cells and to avoid the activation of immunosuppressive cells. It has collaboration agreements primarily with Janssen Pharmaceutica N.V., Janssen Pharmaceutica Inc, and Janssen Pharmaceutica International. Alkermes plc was founded in 1987 and is headquartered in Dublin, Ireland.

115 Allegion plc manufactures and sells mechanical and electronic security products and solutions worldwide. The company offers door controls and systems and exit devices; locks, locksets, portable locks, and key systems and services; electronic security products and access control systems; time, attendance, and workforce productivity systems; doors, accessories, and other. It also provides services and software, which includes inspection, maintenance, and repair services for its automatic entrance solutions; and software as a service, including access control, IoT integration, and workforce management solutions, as well as aftermarket services, design and installation offerings, and locksmith services. The company sells its products and solutions to endusers in commercial, institutional, and residential facilities, including education, healthcare, goverent, hospitality, commercial office, and single and multifamily residential markets under the CISA, Interflex, LCN, Schlage, SimonsVoss, and Von Duprin brands. It sells its products and solutions through distribution and retail channels, such as specialty distribution, ecommerce, and wholesalers, as well as through various retail channels comprising doityourself home improvement centers, online and ecommerce platforms, and small specialty showroom outlets. Allegion plc was incorporated in 2013 and is headquartered in Dublin, Ireland.

116 Alliance Aviation Services Limited provides contract, charter, and allied aviation services to the mining, energy, tourism, and goverent sectors in Australia and internationally. The company also offers specialized aviation services, including aircraft wet leasing, airport management, aircraft trading, parts sales, engine leasing, and engineering to other airlines and clients. As of June 30, 2022, it operated a fleet of 5 Fokker 50 turboprops aircraft, 13 Fokker 70 jet aircraft, and 24 Fokker 100 jet aircraft, as well as 19 Embraer aircraft. The company was founded in 2002 and is based in Brisbane, Australia.

117 Alliance Pharma plc operates as a pharmaceutical company in Europe, the Middle East, Africa, the Asia Pacific, China, and the Americas. The company acquires, markets, and distributes consumer healthcare and prescription medicine products. It holds the marketing rights of approximately 80 consumer healthcare and prescription medicine products. The company also offers medical devices, food supplements, and cosmetics. Alliance Pharma plc provides its products under the Aloclair, Anbesol, Asthon and Parsons, Atopiclair, Forceval, Hydromol, Kelocote, Macushield, Vamousse, Nizoral, and Amberen brand names. The company was founded in 1996 and is headquartered in Chippenham, the United Kingdom.

118 Alltop Technology Co., Ltd. engages in the designing, manufacturing, and selling of electrical connectors worldwide. The company offers notebook pc, mini and micro HDMI, high power, high speed, F cable, and USB 3.1 typeC connectors, as well as high frequency, power, and transmitting speed connectors for medical equipment, industrial PC, automotive, consumer, and other applications. It also designs and makes finepitches and lowprofile electrical connectors. The company was founded in 1998 and is based in New Taipei City, Taiwan.

119 Alma Media Oyj operates as a media company in Finland and internationally. It operates through Alma Career, Alma Talent, and Alma Consumer segments. The Alma Career segment offers recruitment services through the Monster.fi, Jobs.cz, Prace.cz, CV Online, Profesia.sk, Monster.cz, Tunto, MojPosao.ba, and MojPosao.net. 207 AS Tallinna Vesi, a water utility company, collects, treats, and supplies water for private houses, apartment associations, and commercial customers in Estonia. It operates through three segments: Water Services, Construction Services, and Other Services. The company offers drinking water and wastewater disposal services to approximately 23,900 private customers and businesses, and 470,000 end consumers in Tallinn and to various neighboring municipalities of Tallinn. Its public water supply system comprises approximately 1,200 kilometers of water pipes, 22 water pumping stations, 46 ground water pumping stations, and 93 boreholes; and public sewerage system consist of 1,187 kilometers of wastewater networks, 520 kilometers of storm water networks, and 179 wastewater and storm water pumping stations. The company also offers owner supervision and project management services; design work; laboratory services; and transportation and road construction services, as well as undertakes pipe construction works. AS Tallinna Vesi was founded in 1967 and is headquartered in Tallinn, Estonia.

208 ASE Technology Holding Co., Ltd. provides a range of semiconductors packaging and testing, and electronic manufacturing services in the United States, Taiwan, rest of Asia, Europe, and internationally. It offers packaging services, including flip chip ball grid array (BGA) and chip scale package (CSP), advanced chip scale packages, quad flat packages, low profile and thin quad flat packages, bump chip carrier and quad flat nolead (QFN) packages, advanced QFN packages, plastic BGAs, and 3D chip packages; stacked die solutions in various packages; and copper and silver wire bonding solutions. The company also provides advanced packages, such as flip chip BGA; heatspreader FCBGA; flipchip CSP; hybrid FCCSP; flip chip package in package and package on package (POP); advanced single sided substrate; highbandwidth POP; fanout waferlevel packaging; SESUB; and 2.5D silicon interposer. In addition, it offers IC wire bonding packages; systeminpackage products (SiP) and modules; and

interconnect materials, as well as assembles automotive electronic products. Further, the company provides a range of semiconductor testing services, including frontend engineering testing, wafer probing, logic/mixedsignal/RF module and SiP/MEMS/discrete final testing, and other testrelated services, as well as drop shipment services. Additionally, it develops, constructs, sells, leases, and manages real estate properties; produces substrates; offers information software, equipment leasing, investment advisory, and warehousing management services; processes and sells computer and communication peripherals, electronic components, telecommunications equipment, and motherboards; and imports and exports goods and technology. The company was incorporated in 1984 and is headquartered in Kaohsiung, Taiwan.

209 Ashot Ashkelon Industries Ltd. develops, manufactures, assembles, and supplies systems and components for aerospace and defense in Israel and internationally. It offers aerospace products, such as engine shafts and rotating parts; high lift system components, including universal joints, transmissions and gearboxes, lever bearing arms, and long and short shafts for rotary actuation; landing gears components for turbo prop and business jet aircraft; electro and mechanical assemblies for aerospace applications; gearboxes, transmissions, and gearbased products; and tungsten products, which are installed in various aircrafts to balance weights in the wing fuselage, vertical and horizontal stabilizers, helicopter rotors, propellers, and aerospace instruments. The company also provides land products comprising automated transmission products used in heavyduty vehicles; final drive products; suspension systems, which include rotary and linear, shock absorbers, road arms, suspension springs and arms, tension mechanism, and road wheels tracks; and upgrade packages. It also serves agriculture, mining, marine, oil and gas, printing, construction, industrial, and commercial markets. The company is based in Ashkelon, Israel. Ashot Ashkelon Industries Ltd. operates as a subsidiary of Lahav Haherev Ltd.

210 Ashtrom Group Ltd. operates as a construction and property company in Israel and internationally. The company operates through four segments: Expressway Business, Rail Business, Commercial Development Business, and Others. It undertakes commercial developments relating to the expressway and operates metro services. The company also operates and manages the Si Rat Expressway, the Si Rat Outer Ring Road Expressway, and the Udon Rattaya Expressway, as well as the MRT Blue Line and MRT Chalong Ratchadham Line projects. In addition, it engages in the rental of retail space, and provision of advertising services, as well as offers telecommunication services for underground train stations and on expressways. Bangkok Expressway and Metro Public Company Limited was founded in 1998 and is headquartered in Bangkok, Thailand.

296 Bangkok Post Public Company Limited, together with its subsidiaries, publishes and distributes newspapers, magazines, and books in Thailand. It operates through three segments: Publishing and Advertising, Production of Television Programs, and Other. The company publishes, distributes, and advertises newspapers, including the Bangkok

Post, an Englishlanguage daily newspaper; and Post Today, a Thailanguage online news site, as well as Thailanguage magazines under the Elle Thailand and Forbes Thailand names. It also publishes books under the Post Books name; produces multimedia and video content for television and digital media; and rents studio. In addition, the company provides digital media platforms and applications in English and Thai languages; information services through various social media platforms; and general printing services to various goverent and business organizations. Further, it publishes and distributes Englishlanguage lifestyle magazines, such as Guru and B Magazine, as well as offers content creation, event management, and digital marketing solutions for public agencies and private organizations. The company was formerly known as The Post Publishing Public Company Limited and changed its name to Bangkok Post Public Company Limited in May 2017. Bangkok Post Public Company Limited was founded in 1946 and is headquartered in Bangkok, Thailand.

297 Baoding Technology Co., Ltd. engages in the research and development, manufacture, and sale of various forgings and castings in China. It offers casting and forging for ships, as well as for mining machinery, electric power engineering, technology, and hoisting machinery. The company's products are primarily used in shipbuilding, ocean engineering, powerstation, petrochemical, engineering machinery, pressure vessels, military, etc. It also exports its products to Germany, Lowey, France, Finland, Canada, Singapore, and internationally. The company was formerly known as Baoding Heavy Industry Co., Ltd. and changed its name to Baoding Technology Co., Ltd. in February 2016. Baoding Technology Co., Ltd. was founded in 1989 and is based in Hangzhou, China.

298 Baolingbao Biology Co.,Ltd. manufactures cornbased health and food ingredients in China and internationally. The company offers isomaltooligosaccharide, galactooligosaccharides, fructoseoligosaccharides, and erythritol products; high fructose corn syrups, crystalline fructose products, sugar alcohols, and resistant dextrinsoluble corn fiber and polydextrose products; starch sugars, such as trehalose, maltodextrin, and glucose syrup products; terminal products; and corn steep liquors, corn husk sprayed products, and corn gluten meal products. Its products are used in various food items, such as beverages, dairy, bakery, candy, meat, honey, seafood, canned food, condiment, health food, infant nutrition, fermentation, and animal nutrition, as well as in various fields, including daily chemicals, pharmaceuticals, cosmetics, etc. The company was founded in 1997 and is based in Yucheng, China.

299 Baotek Industrial Materials Ltd. manufactures and sells fiberglass cloth products in Taiwan, China, Japan, the United States, and internationally. It offers aerospace fiberglass fabric, a reinforcement material for airplanes's internal structure; high temperature filter bag used in power and steel plants, incinerators, and cement factories; fiberglass sunshades for use in buildings, interior designs, construction, and furniture; PTFE fabrics for use in PTFE coating areas; and electronic fiberglass fabrics. Baotek Industrial Materials Ltd. was founded in 1992 and is headquartered in Taoyuan, Taiwan.

300 BASO Precision Optics Co., LTD. manufactures and sells optical products in Taiwan. Its lens are used for highend projector, AOI detection, telescope, semiconductor, sports optics, laser related, and anodizing, as well as various optical component applications. The company was founded in 1970 and is based in Taichung, Taiwan.

301 BASSAC Societ  anonyme operates as a real estate development company primarily in France, Germany, and Spain. It offers residential houses and apartments, as well as prefabricated garages and land. The

company was incorporated in 1972 and is headquartered in Boulogne-Billancourt, France. As of December 31, 2021, BASSAC Soci t  anonyme operates as a subsidiary of Premier Investissement SAS.

302 Bati  im Bati Anadolu  timento Sanayii Anonim Sirketi operates in the cement industry in Turkey. It also provides Portland cement clinkers and potassium silicate cements; Portland, sulphate resistant Portland, Portland compound, and pozzolanic cements; and aggregate and cement bypass dust products. The company was founded in 1966 and is headquartered in Izmir, Turkey.

303 Battalion Oil Corporation, an independent energy company, engages in the acquisition, production, exploration, and development of onshore oil and natural gas assets in the United States. The company holds interests in the Delaware Basin located in the counties of Pecos, Reeves, Ward, and Winkler, Texas. The company was formerly known as Halc n Resources Corporation and changed its name to Battalion Oil Corporation in January 2020. Battalion Oil Corporation was founded in 1987 and is headquartered in Houston, Texas.

304 Bausch Health Companies Inc., together with its subsidiaries, develops, manufactures, and markets a range of pharmaceutical, medical device, and overthecounter (OTC) products primarily in the therapeutic areas of eye health, gastroenterology, and dermatology. The company operates through five segments: Salix, International, Solta Medical, Diversified Products, and Bausch + Lomb. The Salix segment provides gastroenterology products in the United States. The International segment offers Solta products, branded and generic pharmaceutical products, OTC products, and medical device products, and Bausch + Lomb products in Canada, Europe, Asia, Latin America, Africa, and the Middle East. The Solta Medical segment offers medical devices. The Diversified Products segment offers pharmaceutical products in the areas of neurology and other therapeutic classes, as well as generic, dermatological, and dentistry products in the United States. The Bausch + Lomb segment offers products with a focus on the vision care, surgical, and ophthalmic pharmaceuticals products. The company was formerly known as Valeant Pharmaceuticals International, Inc. and changed its name to Bausch Health Companies Inc. in July 2018. Bausch Health Companies Inc. is headquartered in Laval, Canada.

305 Bayer Aktiengesellschaft, together its subsidiaries, operates as a life science company worldwide. It operates through Pharmaceuticals, Consumer Health, and Crop Science segments. The Pharmaceuticals segment offers prescription products primarily for cardiology and women  s health care; specialty therapeutics in the areas of oncology, hematology, and ophthalmology; and diagnostic imaging equipment and contrast agents, as well as cell and gene therapy. The Consumer Health segment markets nonprescription overthecounter medicines, medical products, medicated skincare products, nutritional supplements, and selfcare solutions in dermatology, nutritional supplements, pain and cardiovascular risk prevention, digestive health, allergy, and cold and cough. The Crop Science segment offers chemical and biological crop protection products, improved plant traits, seeds, digital solution, and pest and weed control products, as well as customer service for agriculture. This segment also provides breeding, propagation, and production/processing of seeds, including seed dressing. The company has a collaboration agreement with MD Anderson Cancer Center to develop oncology drugs; research and license agreement with Dewpoint Therapeutics, Inc. for the development of new treatments for cardiovascular and gynecological diseases; collaboration agreement with Exscientia Ltd, Foundation Medicine Inc., and Evotec AG; research collaboration with Arvinas Inc.; strategic research partnership with University of Oxford to develop novel gynecological therapies; and

Kyoto University to identify new drugs candidates for the treatment of pulmonary diseases. It distributes its products through wholesalers, pharmacies and pharmacy chains, supermarkets, online and other retailers, and hospitals, as well as directly to farmers. Bayer Aktiengesellschaft was founded in 1863 and is headquartered in Leverkusen, Germany.

306 BCB Berhad, an investment holding company, engages in the investment, development, management, and letting out of residential and commercial properties in Malaysia. The company operates through Property Development and Management Services; Construction and Related Activities; and Others segments. It offers project, road, and general construction services; and project management services. The company also operates Prime City Hotel, a 213 rooms hotel located in Kluang; 2 shopping malls, including BCB Plaza in Kluang and UMall in Taman Pulai Utama near Skudai; and restaurants. In addition, it manufactures and sells concrete products; and trades in building materials. The company was formerly known as Kemajuan Buditama Sdn. Bhd. and changed its name to BCB Berhad in August 1995. BCB Berhad was incorporated in 1988 and is headquartered in Kluang, Malaysia.

307 BCE Inc., a communications company, provides wireless, wireline, Internet, and television (TV) services to residential, business, and wholesale customers in Canada. The company operates through three segments: Bell Wireless, Bell Wireline, and Bell Media. The Bell Wireless segment offers integrated digital wireless voice and data communication products and services, as well as consumer electronics products. The Bell Wireline segment offers data, including Internet access and Internet protocol television (IPTV), local telephone, and long distance services, as well as other communication services and products; and satellite TV service and connectivity services. This segment also buys and sells local telephone, long distance, data, and other services from or to resellers and other carriers. The Bell Media segment provides conventional TV, specialty TV, pay TV, streaming services, digital media services, radio broadcasting services, and outofhome advertising services. BCE Inc. was founded in 1880 and is headquartered in Verdun, Canada.

308 BCM Alliance Berhad, an investment holding company, distributes commercial laundry equipment, and medical devices, and healthcare products in Malaysia and internationally. It operates through Commercial Laundry Equipment, Medical Devices, Healthcare Products, Laundry services, Food and Beverage, and Others segments. The company is involved in the supply, installation, testing, and commissioning of vended and onpremise commercial laundry equipment, as well as related spare parts, accessories, and consumables to selfservice laundrettes, onpremise laundries, and multihousing and other laundries; and medical imaging equipment and disinfection, sterilizaÅ-tion, and surgical room equipment to hospitals, medical centers, physiotherapy and orthopedic centers, and specialist centers and clinics. It also distributes a range of medical devices, such as MRI systems, CT scanners, digital radiography systems, Xray systems, medical beds, various types of sterilizers, medical printing systems, and washers/disinfectors, as well as related spare parts, accessories. In addition, the company offers training, aftersales, repair and maintenance, and other services; and online laundry services. Further, it distributes healthcare products and clinical devices, such as blood pressure monitors, nebulizers, thermometers, etc. to pharmacies and dealers of medical equipment, as well as provides virus A enuaÅ-on devices and COVID19 tesÅ-ting kits. Additionally, the company offers yogurt, ice cream, milk, milk beverages, milk powder, health drinks, and cheese; launderers, cleaners, dry cleaners, and carpet beaters services; and sells and distributes healthy foods and supplements hair and body

care products. BCM Alliance Berhad was founded in 1978 and is headquartered in Seri Kembangan, Malaysia.

309 Beibu Gulf Port Co., Ltd. engages in the operation and management of Guangxi Beibu Gulf Port in China. It offers containers and bulk cargo loading and unloading services for various categories of goods, such as metal ore, coal, grain, non-metallic ore, sulfur, fertilizer, steel, wood, energy and chemical products, etc.; supply chain management and port tugboat services; ship leasing, maintenance, and management services; and crew, water transportation, and other waterway transportation assistance services. It is also involved in the ship and container tally; container loading and unpacking tally; cargo and ship water gauge measurement; supervision of loading and unloading; cargo and box damage inspection and identification; sampling, sample preparation, inspection, and loading supervision of solid bulk cargoes; issuances of tally documents and tally reports; and tally information consultation and other related activities. The company was formerly known as Beibuwan port Co., Ltd. Beibu Gulf Port Co., Ltd. was founded in 1989 and is based in Nanning, China.

310 Beijer Alma AB (publ), together with its subsidiaries, engages in component manufacturing and industrial trading businesses in Sweden, rest of Nordic Region, rest of Europe, North America, and Asia. The company operates in two segments, Lesjöförs and Beijer Tech. It offers industrial springs, as well as wire and flat strip components; replacement springs for cars and light trucks; industrial products, including technical components, consumables, and machinery; fluid technology products, such as hoses, hose fittings, hydraulics, rubber sheeting, seals, and other industrial rubber; and fire and industrial hoses, gaskets, and seals and plastic components. The company was formerly known as Beijer Alma Industri & Handel and changed its name to Beijer Alma AB (publ) in 1998. Beijer Alma AB (publ) was incorporated in 1983 and is headquartered in Uppsala, Sweden.

311 Beijer Electronics Group AB (publ), together with its subsidiaries, provides software, hardware, and services for the Industrial Internet of Things (IIoT). It operates through three segments: Westermo, Beijer Electronics, and Korenix. The company offers control systems; frequency inverters; human machine interface (HMI) panels and solutions; Web HMIs for machine and process systems; Web and dashboard apps; marine monitors and panel PCs; converters and IIoT gateways; servo drives and motors, and motion controllers; and power supplies. It also provides industrial panel PCs; display solutions; industrial automation software, including HMI, PLC control, data communications, cloud based IIoT platform and software tools for frequency inverters and servo systems under the iX HMI, CODESYS, WARP, and BCS Tools names; acirro, a cloud based IIoT platform; and CloudVPN gateway solutions. In addition, the company offers managed and unmanaged Ethernet switches with PoE, wireless LAN access points, cellular routers and gateways and solutions for remote access; and a range of distributed I/Os for smart solutions and CODESYS control. It markets its products to the manufacturing, energy, infrastructure, marine, water and wastewater, packaging, food and beverage, and aquaculture and fish farming industries; and electric vehicle chargers, buildings, and power generators under the Beijer Electronics, Westermo, and Korenix brand names. The company sells its products through system integrators, original equipment manufacturers, brand label customers, and distributors. It also operates in Sweden, rest of Nordics, Germany, the United Kingdom, France, Turkey, rest of Europe, the United States, China, Taiwan, rest of Asia, and internationally. The company was incorporated in 1926 and is headquartered in Malmö, Sweden.

312 Beijer Ref AB (publ), together with its subsidiaries, engages in the wholesale of refrigeration products for refrigeration installation

contractors, and service and contracting companies. It offers refrigeration and air conditioning units, heat pumps, and components, as well as spare parts. The company also focuses on the development and manufacture of refrigeration systems and heat pumps on an original equipment manufacturing basis. It operates in the Nordic countries, Southern Europe, Central Europe, Eastern Europe, Africa, and the Asia Pacific. The company was formerly known as G & L Beijer AB (publ) and changed its name to Beijer Ref AB (publ) in May 2014. Beijer Ref AB (publ) was founded in 1866 and is headquartered in Malmö, Sweden.

313 Beijing Beilu Pharmaceutical Co., Ltd. develops, produces, and sells pharmaceutical products. The company's products include contrast agents, central nervous system products, and oral antidiabetic drugs. Beijing Beilu Pharmaceutical Co., Ltd. also produces precision medicine. The company was founded in 1992 and is based in Beijing, China.

314 Beijing Capital Grand Limited, an investment holding company, engages in the development of commercial properties in the People's Republic of China. The company primarily focuses on the development, operation, and management of outlets-backed commercial integrated and non-outlets retail property projects. It develops residential, commercial, office buildings, and parking spaces; and invests in properties. The company is also involved in the property development, retail, and asset management activities. In addition, it offers guaranteed notes. The company was formerly known as Beijing Capital Juda Limited and changed its name to Beijing Capital Grand Limited in June 2017. The company is headquartered in Beijing, the People's Republic of China. Beijing Capital Grand Limited is a subsidiary of BECL Investment Holding Limited.

315 Beijing Capital International Airport Company Limited engages in the aeronautical and non-aeronautical businesses at the Beijing Capital Airport in the People's Republic of China. The company's aeronautical business is involved in the provision of aircraft landings and takeoffs; passenger service facilities; ground support services; and firefighting services for domestic and foreign air transportation enterprises. Its non-aeronautical business includes the franchise-based operation of ground handling agent services for domestic and foreign airliners; inflight catering services; duty free and other retail shops in the terminals, as well as restaurants and other catering businesses in terminals; leasing advertising spaces inside and outside the terminals; and other businesses. The company's non-aeronautical business also comprises the leasing of properties in the terminals; provision of car parking services; and provision of ground handling facilities for ground handling agent companies. As of December 31, 2021, the company had 85 airliners operating fixed commercial flights at the Beijing Capital Airport, including 26 domestic airliners and 59 airliners from foreign countries; and operated 208 flight points linking with the Beijing Capital Airport, including 133 domestic flight points and 75 international flight points. The company was incorporated in 1999 and is based in Beijing, the People's Republic of China. Beijing Capital International Airport Company Limited is a subsidiary of Capital Airports Holding Limited.

316 Beijing Centergate Technologies (holding) Co., Ltd. engages in the pharmaceutical production and sales, construction, real estate development, and property management businesses in China and internationally. The company offers huasu westground iodine, fesser phenylcycline hydrochloride, bosu fuma acid bisolol, yuanji beni flat hydrochloric acid, naloxone hydrochloride, five plus biochemical, and aramol quaramado tablets and capsules. It also provides mucous membrane repair and oral health care products, including toothpaste, mouthwash, spray, dental equipment, and other oral care products for ulcers, burns, mechanical damage, and postoperative repair; and fruit enzymes, imported

fungella enzymes, functional probiotics, and soda and other edible grade raw materials. In addition, the company invests in software technology, communications and electronic engineering, biomedicine, and life sciences and other fields. Beijing Centergate Technologies (holding) Co., Ltd. was founded in 1999 and is based in Beijing, China.

317 Beijing Changjiu Logistics Co.,Ltd engages in the provision of supply chain logistics solutions for the automotive industry in China. The company offers road, rail, and water freight services; and finished vehicle logistics, warehousing, parts logistics, and social vehicle logistics services. It also provides supply chain finance for automotive logistics providers and car dealers; and operates a mobile platform to connect customers with carriers. It offers its services to OEMs and suppliers. The company was founded in 2003 and is headquartered in Beijing, China. Beijing Changjiu Logistics Co.,Ltd is a subsidiary of Jilin Changjiu Industry Group Co., Ltd.

318 Beijing Chieftain Control Engineering Technology Co., Ltd. manufactures and sells production process automation systems for the biological and pharmaceutical industries in China. It provides powder equipment, such as dust free crushing and pulse air mixing systems, automatic lifting hopper mixers, dustfree feeding stations, ton bag unloaders, vacuum conveying equipment, metering and packing machines, CIP cleaning units, and agent equipmentdry granulators; aseptic isolation equipment, including aseptic isolation and packing, sterile isolation batching, restricted access isolation, negative pressure isolation operating, and reactor isolation feeding systems; gas chloride sterilization equipment; and smart packing equipment. The company also offers pharmaceutical and chemical equipment comprising Chinese medicine extraction, evaporation concentration, purification and separation, fermentation preparation, distillation, and drying equipment; value products, such as diaphragm valve, globe valve, diaphragm globe valve, and other biomedical products; and professional medical pumps. The company's products are used in the pharmaceutical, chemical, food, additive, power, and other fields. Beijing Chieftain Control Engineering Technology Co., Ltd. was founded in 2003 and is based in Beijing, China.

319 Beijing Dinghan Technology Group Co.Ltd engages in the research and development, production, sale, and service of rail transit equipment in China. The company's ground electrical equipment includes ground power supply solution, platform door system solution, and braking energy management solution; intelligent station solutions; and rolling stock electrical equipment, such as rolling stock special cable solution, rolling stock air conditioner system solution, CRH3 auxiliary power supply system for EMU, and DC600V power supply system solution for passenger train. It also offers HD video detection system for freight train loading state and rolling stock detection system solution; and aftersales and operation maintenance services. The company was formerly known as Beijing Dinghan Technology Co., Ltd. Beijing Dinghan Technology Group Co.Ltd was founded in 2002 and is based in Beijing, China.

320 Beijing ETechstar Co.,Ltd. provides big data integrated solutions in China. The company offers integrated monitoring solutions and software products in the fields of data acquisition; communication planning and design, and broadband power line carrier chip products in the field of data transmission; and intelligent control center solutions and comprehensive data in the field of data storage, management, and processing. It also provides big data visualization intelligent analysis platforms, such as VBI and Zhili V3C in the field of data analysis and application; realtime database platforms; and energy and intelligence services for big data value conversion, as well as power safety products, financial payment products, V3C, IcsBOX, screeate, and enviroental

monitoring products. The company's solutions comprise industry based applications, such as power, communication, and big data intelligence industries, as well as smart centers, integrated energy management, and intelligent environment management sectors. The company was founded in 2000 and is headquartered in Beijing, China.

321 Beijing Enterprises Water Group Limited, together with its subsidiaries, provides water treatment services. The company operates through Sewage and Reclaimed Water Treatment and Construction Services, Water Distribution Services, and Technical and Consultancy Services segments. It constructs sewage and reclaimed water treatment plants, and seawater desalination plants, as well as provides construction services for comprehensive renovation projects in the People's Republic of China, Malaysia, Australia, New Zealand, and the Republic of Botswana. The company also offers sewage and reclaimed water treatment services in Mainland China, the Republic of Singapore, the Portuguese Republic, Australia, and New Zealand; and distributes and sells piped water in Mainland China, the Portuguese Republic, and Australia. In addition, it provides technical and consultancy services; and sells machineries related to sewage treatment and construction services for comprehensive renovation projects in Mainland China and Australia. Further, the company is involved in the licensing of technical knowhow related to sewage treatment. Beijing Enterprises Water Group Limited is headquartered in Wan Chai, Hong Kong.

322 Beijing Hanbang Technology Corp. provides solutions for the radio and television monitoring, intelligent security, and intellectual property protection industries in China. The company offers DVR and NVR products, HDSDI cameras, IP cameras, infrared imaging cameras, and compression cards, as well as Internet application solutions. It also exports its products. Beijing Hanbang Technology Corp. was founded in 2004 and is based in Beijing, China.

323 Beijing Health (Holdings) Limited, an investment holding company, provides medical, health, and geriatric care related services and products in the People's Republic of China. The company also engages in owning and developing general health industrial park and incubator projects; the sports-related businesses, including construction of stadiums and winter theme parks; and the fund investment business in the field of the biotechnology, pharmaceutical, medical services, and medical travel. In addition, the company offers investment management consulting, and medical and logistic related property development services; and trades in geriatric related furniture. As of December 31, 2021, it operated 5 geriatric care institutions with a total of 1,055 beds, including 734 beds for medical care services in 3 medical institutions. The company was formerly known as Beijing Enterprises Medical and Health Industry Group Limited and changed its name to Beijing Health (Holdings) Limited in June 2021. Beijing Health (Holdings) Limited was founded in 1995 and is headquartered in Cheung Sha Wan, Hong Kong.

324 Beijing Hezong Science & Technology Co., Ltd. manufactures and distributes power distribution systems in China and internationally. The company offers network cabinets, column switches, box-type substations, transformers, other switches, cable accessories, etc. It also manufactures and sells lithium battery cathode material precursors, which include tetraoxide, tricobalt, cobalt hydroxide, and iron phosphate. In addition, the company offers power engineering design consulting services. Beijing Hezong Science & Technology Co., Ltd. was founded in 1997 and is based in Beijing, China.

325 Beijing Highlander Digital Technology Co., Ltd. primarily provides electronic navigation and communications equipment and automation systems for the marine industry. It also offers multisensor systems for

monitoring maritime and airport activity; and highend instrumentation and services for the oceanographic and hydrographic sectors. The company's products include ship navigation products, such as radars, electronic chart display information systems, steering and track control systems, voyage data recorders, integrated navigation systems, bridge navigational watch alarm systems, and rudder angle indicators; and sensor systems, including surveillance radar systems, wave measurement radar systems, and oil spill detection systems. In addition, its products comprise vessel monitoring systems and HiCloud connectivity products, as well as ship automation, and oceanology and hydrography products. The company was founded in 2001 and is headquartered in Beijing, China.

326 Beijing Hualian Department Store Co., Ltd engages in the operation and management of shopping malls. It also operates and manages theater, supermarkets, department stores, and international cooperation/brand franchises. It operates approximately 40 shopping malls in China. As of December 31, 2019, the company operated 15 cinemas and 115 screens. It also provides commercial factoring services, such as trade financing, accounts receivable management, and factoring consulting; leasing and property management services; and film projection services. The company was founded in 1998 and is based in Beijing, China.

327 Beijing Huayuanitong Thermal Technology Co., Ltd. engages in the heating business in China. It is involved in heating project investment, heating contracting operation, contract energy management, heating energysaving technology research and development activities, as well as provides heating management consulting services. The company was founded in 2002 and is based in Beijing, China.

328 Beijing Jetsen Technology Co., Ltd engages in the film and television business in China. It is also involved in the copyright digital distribution, advertising planning, creative production, film and television content production and distribution, and column production, as well as provision of audio and video technology solutions and industrial services; and operation of the digital education cloud platform. The company was founded in 2006 and is headquartered in Beijing, China.

329 Beijing Jiaxun Feihong Electrical Co., Ltd. supplies intelligent dispatching and command chain systems in China. It offers MDS6800, a new generation IP dispatching system that integrates IC and CT systems, merges traditional service scenarios and new ICT, and provides ideas and measures for dispatching and command development; and MDS3400, a dispatch commanding and communication system platform, which integrates voice and data application services. The company also provides tunnel emergency communication system designed for tunnel emergency communication; FH1000 interval optical system, a solution for interstation communication; IMS8000, a video surveillance system; and railway disaster prevention and monitoring solution, a railway security data analysis system that analyzes the date of monitoring sensors deployed along railways, and detects and predicts enviromental risks. In addition, it offers ZQJ05 turnout gap monitoring system; IMS5100 tunnel electrical and lighting monitoring system; GSMR network interface monitoring system; and intelligent operation and maintenance systems. The company's products are used in various industries, such as railway, petroleum and petrochemical, rail transit, electric power, and port industries. Beijing Jiaxun Feihong Electrical Co., Ltd. was founded in 1995 and is based in Beijing, China.

330 Beijing Jingneng Clean Energy Co., Limited generates gasfired power and heat energy, wind power, photovoltaic power, and hydropower in the People's Republic of China. As of December 31, 2019, the company had an installed capacity of 10,861 megawatt (MW), including seven gasfired power cogeneration plants with 4,702 MW; wind power generation capacity

of 2,797 MW; photovoltaic power generation installed capacity of 2,912 MW; and hydropower installed capacity of 450 MW. It sells electricity to local grid companies. It also offers repair and maintenance; investment management; and finance leasing services. The company was formerly known as Beijing Jingneng Energy Technology Investment Co., Ltd. and changed its name to Beijing Jingneng Clean Energy Co., Limited in August 2010. The company was founded in 2010 and is based in Beijing, the People's Republic of China. Beijing Jingneng Clean Energy Co., Limited operates as a subsidiary of Beijing Energy Group Co., Ltd.

331 Beijing Jingyuntong Technology Co., Ltd., together with its subsidiaries, manufactures and sells photovoltaic (PV) and semiconductor equipment in China. The company's products include monocrystal growers, multicrystalline directional solidification growers, and floatzone furnace. It also provides PV material products, such as mono and multi crystal ingots and wafers, as well as PV and wind power generation stations, and honeycomb medium and low temperature SCR flue gas denitrification catalyst. The company was founded in 2002 and is headquartered in Beijing, China.

332 Beijing Kaiwen Education Technology Co., Ltd operates schools in China. The company also offers education operation services, such as curriculum design, teaching management, school operation, logistics management, and other education guidance services, as well as training with physical education, arts, and technology education. In addition, it is involved in the education investment and consulting activities. The company was founded in 1999 and is based in Beijing, China.

333 Beijing Orient Landscape & Enviroent Co., Ltd. engages in the water enviroent and industrial hazardous waste disposal activities. It is also involved in the research, development, cultivation, marketing, and maintenance of garden plants; and sale of garden machinery and equipment, sporting goods, flowers, daily necessities, electronic products, computers, software and auxiliary equipment, handicrafts, toys, stationery and chemical products, rubber and plastic products, and building materials. In addition, the company engages in the enviroental landscape garden design; technology development; investment and asset management; automobiles exhaust and flue gas treatment; air pollution, waste gas treatment, water pollution, noise and light pollution, radiation pollution, and solid waste pollution treatment; sports event management; office space rental; market research; exhibitions; and organizational cultural and artistic exchange activities. Further, it provides tree seedlings, flower planting, surveying and mapping services, geological disasters treatment, engineering survey and design, scenic spot management, social and economic consulting, computer system, corporate planning, product design, computer graphic and computer animation design, technical consulting, engineering management services, enterprise management consulting, advertising, and tourist information consultation. The company was formerly known as Beijing Orient Landscape Co., Ltd. and changed its name to Beijing Orient Landscape & Enviroent Co., Ltd. in January 2015. Beijing Orient Landscape & Enviroent Co., Ltd. was founded in 1992 and is based in Beijing, the People's Republic of China.

334 Beijing Originwater Technology Co., Ltd. operates in the water and wastewater treatment industry in China and internationally. The company is involved in enviroental protection engineering design; investment, construction, and operation of urban water supply and sewage treatment projects; technical consultation; and reuse of reclaimed water. Its products and technologies include microfiltration membrane, ultrafiltration membrane, ultralow pressure selective nanofiltration membrane, and reverse osmosis, as well as highperformance lowenergy

membrane bioreactor, doublemembrane new water source process, doublemembrane new water source process, and other membraneintegrated urban sewage deep purification technologies. The company engages in municipal sewage and industrial wastewater treatment, tap water treatment, seawater desalination, civil water purification, wetland protection and reconstruction, sponge city construction, river comprehensive treatment, black and odorous water body treatment, municipal landscape construction, urban light enviroent construction, solid waste and hazardous waste treatment, enviroental monitoring, ecological agriculture, and circular economy. Beijing Originwater Technology Co., Ltd. was founded in 2001 and is based in Beijing, the People's Republic of China.

335 Beijing Shengtong Printing Co., Ltd. provides integrated printing services for publication activities in China. The company primarily print magazines, newspapers, periodicals, books, and commercial publicity materials products. It also provides binding, other printed matter printing, trademark printing, general cargo transportation, and advertising production, as well as papers and inks. The company was founded in 2000 and is based in Beijing, China.

336 Beijing SiTech Information Technology Co., Ltd. provide cloud, big data, internet of everything, artificial intelligence, and smart operation solutions in China. It also offers cloud network, 5G, and telecom services. In addition, the company provides goverent and enterprise end to end, smart store, radio and television 5G business support, virtual business cloud, and smart middle station solutions, as well as digital intelligent ecological platform support. The company was founded in 1995 and is based in Beijing, China.

337 Beijing SPC Enviroent Protection Tech Co., Ltd. provides industrial water treatment, energy saving, and resource utilization services. It provides technical research and development, engineering design, construction, and operation services. The company offers SPC single tower desulfurization and dedusting depth purification, dry flue gas purification, lignitetocoke, flue gas denigration, SPC flue gas dehydration, and zero wastewater discharge technologies. It is also involved in industrial flue gas desulfurization, denitrification and dedusting treatment, energy conservation, comprehensive utilization, sewage treatment, and solid waste disposal activities. The company was founded in 2001 and is based in Beijing, China.

338 Beijing Sports and Entertaient Industry Group Limited, an investment holding company, primarily operates in the sports and entertaientrelated industry in Mainland China and rest of Asian countries. The company engages in the construction, operation, and management of air domes; and materials processing for air dome construction. It also offers sports industry related consultation and management services. The company was formerly known as ASR Logistics Holdings Limited and changed its name to Beijing Sports and Entertaient Industry Group Limited in June 2016. Beijing Sports and Entertaient Industry Group Limited was founded in 1991 and is headquartered in Beijing, the People's Republic of China.

339 "Beijing StarNeto Technology Co., Ltd. provides navigation, measurement, and control products in China. The company offers inertial navigation products, such as MEMS and fiber combination products; gyro, satellite positioning, and guided products; attitude measurement products, including tilt sensors and electronic compass; smart driving test products, such as ETS, kao kao, practice and practice solutions, base stations, driving systems, and testable products; and photoelectric pods, photoelectric tracking devices, radar servo turntables, and photoelectric pod control units. It also provides satellite

communications solutions, including ship loading, car moving through, portable communication stations, and airborne transmission solutions, as well as system integration services; radar products, such as security systems, wireless communication systems, and miss distance measurement radars; and infrared cameras, meteorological and underwater sound detection products, Netherlands XSENS products, and MTi products. The company serves clients in defense, emergency communications, intelligent transportation, marine mapping, geographic mapping, and other industries. Beijing StarNeto Technology Co., Ltd. was founded in 2005 and is based in Beijing, China.

"

340 Beijing UniStrong Science&Technology CO.,LTD designs and manufactures highprecision products and services for the geospatial marketplace worldwide. The company offers a range of solutions for various fields of applications and industries, such as building and construction, land survey and cadastral survey, geographic information systems (GIS) data collection, 3D scanning, agriculture and smart farming, and land and structure monitoring. It provides its products and services for original equipment/design manufacturer, machine control and guidance, survey and mapping, GIS, Lband correction services, marine, field mobile worker, monitoring, and uanned systems markets. The company was founded in 1994 and is based in Beijing, China.

341 Beijing Water Business Doctor Co., Ltd. engages in water engineering and operation, solid waste treatment, enviroental protection, and equipment manufacturing businesses in China. It operates through four segments: Industrial Water Treatment, Waste Treatment Services, Financial Investment, and Chemical Materials Processing. The company constructs industrial water treatment plants; and provides solid waste and oilbased drilling cuttings waste services, as well as processes chemical materials and invests in funds. Beijing Water Business Doctor Co., Ltd. was founded in 1998 and is headquartered in Beijing, China.

342 Beijing Watertek Information Technology Co., Ltd. operates in the software and information technology service industry in China and internationally. The company offers industry digitization products, including data collection and conversion, data transmission, control and execution, and independent terminal products; embedded system testing; industry data intelligence products, such as equipment support, highspped data processing, cloud services and platform, digital twin, and intelligent equipment. It also provides encryption and password, equipmentoriented, communication, and computing products. The company serves aerospace, aviation, electronics, and information industries. The company was founded in 1997 and is headquartered in Beijing, China.

343 Beijing Zhidemai Technology Co., Ltd. engages in the Internet information promotion activities in China and internationally. 377 BioArctic AB (publ), a researchintensive biopharmaceutical company, develops biological drugs for patients with neurodegenerative disorders in Sweden. The company develops BAN2401, an immunotherapy, which is in Phase III clinical trials targeting the toxic amyloidbeta oligomers/prototofibrils in Alzheimerâ€™s disease; and is in preclinical trials for treating Downâ€™s syndrome with dementia and traumatic brain injury, as well as BAN2401 Backup, a disease modifying antibody treatment that is in late preclinical Phase for patients with early Alzheimerâ€™s

disease. It also develops ABBV0805, a monoclonal antibody for treating Parkinson's disease; and SC0806, a biodegradable device that is in Phase I/II clinical trial for spinal cord injuries. In addition, the company develops imaging and biochemical biomarkers for Alzheimer's and Parkinson's disease; and blood-brain barrier technology that enables the passage of antibodies and other substances into the brain through the blood brain barrier, as well as focuses on developing ND3014 antibodies for treating neurodegenerative disorders; AD1801, AD1502, AD1503, ADBT2802, ADBT2803, and AD2603 for the treatment of Alzheimer's disease; and PD1601 and PD1602 for the treatment of Parkinson's disease. It has research collaboration agreement with Eisai and AbbVie. The company was formerly known as BioArctic Neuroscience AB and changed its name to BioArctic AB (publ) in 2016. BioArctic AB (publ) was founded in 1992 and is based in Stockholm, Sweden.

378 BioLife Solutions, Inc. develops, manufactures, and supplies bioproduction tools and services for the cell and gene therapy industry in the United States, Canada, Europe, the Middle East, Africa, and internationally. The company's products are used in the basic and applied research, and commercial manufacturing of biologic-based therapies. It offers proprietary biopreservation media products, including HypoThermosol FRS and CryoStor that are formulated to mitigate preservation-induced, delayed-onset cell damage and death; and the ThawSTAR line that includes automated vial and cryobag thawing products that control the heat and timing of the thawing process of biologic materials. The company also provides evo shipping containers that are cloud-connected passive storage and transport containers for temperature-sensitive biologics and pharmaceuticals; liquid nitrogen laboratory freezers, cryogenic equipment, and accessories; and biological and pharmaceutical storage services. It markets and sells its products directly, as well as through third party distributors. BioLife Solutions, Inc. was incorporated in 1987 and is headquartered in Bothell, Washington.

379 Biolog Device Co., Ltd. engages in the manufacture and sale of camera module parts for smart phones in China and internationally. It also offers biometric solutions, including fingerprint verification and facial recognition sensors; and electronic dictionary and tablets for watching Internet lectures. The company was founded in 2008 and is headquartered in Hwaseongsi, South Korea.

380 Bionime Corporation designs, manufactures, and sells medical instruments in China, Switzerland, the United States, Algeria, Egypt, and internationally. The company offers blood glucose monitors, as well as accessories, such as test strips and lancing devices medical equipment companies, pharmacies, and hospitals. It is also involved in the provision of biotechnology services; examining of pharmaceuticals; and selling of precision instruments. The company was incorporated in 2003 and is based in Taichung, Taiwan.

381 Biotest Aktiengesellschaft develops, manufactures, and sells biological medicines in Germany and internationally. It operates through Therapy, Plasma & Services, and Other segments. The company offers its products in hematology, clinical immunology, and intensive care medicine areas. Its products include Haemoctin and Vihuma for the treatment of haemophilia A acute therapy and prophylaxis; and Haemonine for haemophilia B acute therapy and prophylaxis. The company's products also comprise Cytotect CP biotest for cytomegalovirus infections; Fovepta for hepatitis B prophylaxis in neonates; Hepatetect for prophylaxis of hepatitis B reinfection; Intratect and IgG Next Generation for primary immune and secondary antibody deficiency syndromes and autoimmune diseases, as well as neurological indications; Varitect for the treatment of varicella zoster virus infections; and Zutectra for hepatitis B

reinfection prophylaxis after liver transplantation. In addition, it provides Albiomin and Biseko to restore and maintain circulating blood volume; Cofact for the treatment of clotting factors deficiency; Fibrinogen to treat congenital fibrinogen deficiency; Trimodulin for the communityacquired pneumonia and COVID19; and Pentaglobin to treat bacterial infections. The company was formerly known as Biotest SerumInstitut GmbH and changed its name to Biotest Aktiengesellschaft in 1986. The company was founded in 1946 and is headquartered in Dreieich, Germany. As of January 21, 2022, Biotest Aktiengesellschaft operates as a subsidiary of Grifols, S.A.

382 BIOTON S.A., a biotechnology company, develops, manufactures, markets, and sells pharmaceutical ingredient and medicinal products in Poland and internationally. The company offers recombinant human insulin; oral diabetic drugs; strips for measuring sugar in blood, as well as Gensulin N, Gensulin R, and Gensulin M30; GensuPen 2, an automatic injection system; and GensuCare glucometer, a diabetes monitoring technology, as well as needles. The company was founded in 1989 and is based in Ozar³w Mazowiecki, Poland.

383 Bixolon Co., Ltd manufactures print solutions on mobile and stationary devices in South Korea. Its products include POS, label, and mobile printers; desktop label, thermal POS, mobile receipt, mobile label, and supplies, as well as carrying, charging, and case accessories; kiosk printing mechanisms, panels, and cable and cleaning accessories; and printing supplies, as well as software. The company provides its products under the BIXOLON brand. It also offers retail, healthcare, manufacturing, hospitality, transportation and logistics, and goverent solutions. The company was founded in 2002 and is headquartered in Seongnam, South Korea.

384 BK TOPS Co., Ltd. operates as an IT service company in South Korea. It offers system integration services in the areas of finance, public affairs, production, etc.; and IT outsourcing services, including integrated management, application operation, and infrastructure/computerized equipment management, as well as financial, big data, HR, and mobile and cloud solutions. 516 Century Group International Holdings Limited, an investment holding company, operates as a subcontractor to perform site formation works in the People s Republic of China and Hong Kong. It operates through Construction and Site Formation Business, and Trading Business segments. The company offers site formation works, including general earthworks comprising soil and rock excavation, disposal of construction and demolition materials, backfilling and compaction for forming a new site, and achieving designed formation level for later development; and tunnel excavation works, such as rock excavation works for construction of tunnels through drill, break and/or drill, and blast methods, as well as construction of associated temporary tunnel support structures. It is also involved in the foundation works, including excavation and lateral support works, and associated structural works for construction of pile caps for commercial and residential building projects; and road and drainage works. In addition, the company trades in liquefied natural gas and construction materials. It offers its services for various commercial and residential building projects. The company was formerly known as CHerish Holdings Limited and changed its name to Century Group International Holdings Limited in February 2019. Century Group International Holdings Limited was founded in 2001 and is based in Sha Tin, Hong Kong.

517 Century Properties Group Inc., together with its subsidiaries, operates as a real estate company in the Philippines. The company engages in the development, marketing, sale, and management of mid and highrise condominiums and single detached homes, as well as retail, medical, and office properties; and leasing of retail and office space. It offers property management services, such as facilities management, auction, lease, and secondary sales. The company was formerly known as East Asia Power Resources Corporation and changed its name to Century Properties

Group Inc. in September 2011. The company was incorporated in 1975 and is headquartered in Makati City, the Philippines. Century Properties Group Inc. is a subsidiary of Century Properties Inc.

518 Cepatwawasan Group Berhad, an investment holding company, engages in the oil palm cultivation, milling, quarrying, and sale of oil palm products in Malaysia. The company operates through four segments: Plantation, Mill, Power Plant, and All other. As of December 31, 2021, it owned and operated approximately 10,280 hectares of oil palm plantations in Sabah, Malaysia. The company also extracts and sells earth stones and other products; and sells biomass byproducts. In addition, it invests in and operates a 12 megawatt biomass power plant and a 4.0 megawatt biogas power plant in Sandakan, Sabah. In addition, the company engages in quarry operation, oil palm fresh fruit bunches collection center leasing, and investment property holding businesses. Cepatwawasan Group Berhad was incorporated in 2001 and is headquartered in Sandakan, Malaysia.

519 Cerence Inc. provides AI powered virtual assistants for the mobility/transportation market worldwide. The company offers edge software components; cloudconnected components and related toolkits and applications; and virtual assistant coexistence and professional services. It also provides conversational artificial intelligencebased solutions, including speech recognition, natural language understanding, speech signal enhancement, texttospeech, and acoustic modeling technology. Cerence Inc. is headquartered in Burlington, Massachusetts.

520 Certara, Inc., together with its subsidiaries, provides software products and technologyenabled services to customers for biosimulation in drug discovery, preclinical and clinical research, regulatory submissions, and market access. It offers medicines to patients using biosimulation software, technology, and services to transform drug discovery and development. The company also provides related technologyenabled services to guide its customersâ€™ new drugs through the regulatory submission process and into the market. Its technologyenabled services include mechanistic biosimulation, empirical biosimulation, drug development and regulatory strategy, clinical pharmacology, modelbased metaanalysis, regulatory writing and medical communications, regulatory operations, and market access. Further, company offers software, comprising mechanistic biosimulation platform, empirical PK/PD biosimulation platform, data standardization and compliance software, scientific informatics platform, clinical outcomes databases for biosimulation, authoring and management of regulatory submissions platform, and market access communication platform. The company serves biopharmaceutical companies, and academic and goverent institutions. It has operations in the United States, Australia, Canada, China, France, Germany, India, Italy, Japan, Luxembourg, the Netherlands, the Philippines, Poland, Portugal, Spain, Switzerland, and the United Kingdom. Certara Inc. was founded in 2008 and is headquartered in Princeton, New Jersey.

521 Cerveceria San Juan S.A. engages in the production, packaging, distribution, and sale of beer. It also offers malted beverages, soft drinks, liquors, and water. The company was incorporated in 1971 and is based in Pucallpa, Peru. Cerveceria San Juan S.A. operates as a subsidiary of ABI SAB Group Holding Limited.

522 CF Industries Holdings, Inc. manufactures and sells hydrogen and nitrogen products for energy, fertilizer, emissions abatement, and other industrial activities worldwide. Its principal products include anhydrous ammonia, granular urea, urea ammonium nitrate, and ammonium nitrate products. The company also offers diesel exhaust fluid, urea liquor, nitric acid, and aqua ammonia products; and compound fertilizer products with nitrogen, phosphorus, and potassium. It primarily serves

cooperatives, independent fertilizer distributors, traders, wholesalers, and industrial users. The company was founded in 1946 and is headquartered in Deerfield, Illinois.

523 CGG provides data, products, services, and solutions in Earth science, data science, sensing, and monitoring in North America, the Central and South Americas, Europe, Africa, the Middle East, and the Asia Pacific. It operates through two segments, Geology, Geophysics & Reservoir; and Equipment. The Geology, Geophysics & Reservoir segment develops and licenses multiclient seismic surveys; processes seismic data; and sells seismic data processing software under the Geovation brand. It also provides geoscience and petroleum engineering consulting services; and data management services and software to its clients, as well as collects, develops, and licenses geological data under the Robertson brand. The Equipment segment manufactures and sells seismic equipment used for land and marine seismic data acquisition, including seismic recording equipment, software, and seismic sources for land vibrators or marine sources under the Sercel, Metrolog, GRC, and DeRegt brands. It also provides customer support services, such as training. The company provides solutions for natural resources, environmental, infrastructure, energy transition, and digital applications. The company was formerly known as Compagnie G n rale de G ophysique   Veritas SA and changed its name to CGG in 2013. CGG was incorporated in 1931 and is headquartered in Massy, France.

524 CH Offshore Ltd., an investment holding company, provides marine support services to the offshore oil and gas industry. It is involved in the ownership and chartering of vessels. The company provides various services, including offshore construction support; support services to offshore drilling rigs and installations, such as towing, anchorhandling, and supply of dangerous goods, as well as supply of deck, liquid, and dry bulk cargoes; and field support services comprising emergency response, rescue, firefighting, antipollution, etc. It operates a fleet of six vessels that comprise anchor handling tugs, platform supply vessels, work boats, and liftboats. The company was formerly known as Mico Line Pte Ltd and changed its name to CH Offshore Ltd. in September 1990. The company was incorporated in 1976 and is based in Singapore. CH Offshore Ltd. is a subsidiary of BT Investment Pte. Ltd.

525 CHA Biotech Co., Ltd., together with its subsidiaries, engages in cell therapy development, cord blood, and stem cell banking services. The company operates a cord blood consignment storage business for the treatment of intractable diseases, as well as provides regenerative medicines, Immune and stem cell storage services, antiaging, and solutions for incurable diseases; medical wellness programs comprising fitness, spa, and supplements; and customized development, production, clinical, and commercialization services to customers with research and development, and clinical experience. It also offers optimized IT system construction and operation; consulting services for development, operation, and expansion of Chaum model; and solutions for maternalcentered genome testing and personalized healthcare. The company operates in South Korea, Singapore, Indonesia, the United States, Japan, Australia, and Vietnam. CHA Biotech Co., Ltd. was founded in 2002 and is headquartered in Seongnamsi, South Korea.

526 Champion Microelectronic Corporation designs, manufactures, and sells integrated power management ICs in Asia, the United States, and Europe. The company offers PFC/PWM controllers, high performance resonant controllers, high power density/high efficiency solutions, special chips, True No Standby solutions, gate drivers, and PFC diodes. Its products are primarily used for desktop computers, cloud servers, LED displays, and

others. The company was founded in 1998 and is headquartered in Hsinchu City, Taiwan.

527 Changhong Jiahua Holdings Limited, an investment holding company, distributes information and communication technology (ICT) consumer products, ICT corporate products, and other products in the People's Republic of China. The company's ICT Consumer Products segment distributes personal computers, digital products, and IT accessories. Its ICT Corporate Products segment distributes storage products, minicomputers, networking products, personal computer servers, intelligent building management system products, and unified communication and contact center products. The company's Others segment distributes smartphones; develops own brand products, such as intelligent terminals; sells warranty packages; and provides professional integrated ICT solutions and services. The company was formerly known as China Data Broadcasting Holdings Limited and changed its name to Changhong Jiahua Holdings Limited in January 2013. The company is headquartered in Central, Hong Kong. Changhong Jiahua Holdings Limited is a subsidiary of Sichuan Changhong Electronic Co., Limited.

528 Changjiang Pharmaceutical Group Co., Ltd., together with its subsidiaries, designs, researches, develops, produces, and sells turbochargers in China. It offers turbocharger housing, engine exhaust manifolds, and valve body auto parts, as well as engines. The company also produces and sells solar cell module equipment and photovoltaic modules, as well as engages in the solar energy, lithium batteries, energy storage, and other energy industry businesses. Its products are used in automobiles, construction machinery, agricultural machinery, ship power, generator sets, and other industries. Kangyue Technology Co., Ltd. also exports its products to Americas, Europe, East Asia, and internationally. The company was formerly known as Kangyue Technology Co., Ltd. and changed its name to Changjiang Pharmaceutical Group Co., Ltd. in March 2023. Changjiang Pharmaceutical Group Co., Ltd. was founded in 1963 and is based in Shouguang, China.

529 Changsha Broad Homes Industrial Group Co., Ltd. engages in the prefabricated concrete (PC) buildings and services business in the People's Republic of China. It operates through three segments: PC Unit Manufacturing, PC Equipment Manufacturing, and Modular Integrated Products Manufacturing. The PC Unit Manufacturing segment designs, manufactures, and sells PC units. The PC Equipment Manufacturing segment manufactures and sells PC equipment and provides related services. The Modular Integrated Products Manufacturing segment designs, manufactures and sells modular integrated products. The company also offers technological promotion; and engineering design and consultation services, as well as research, develops, and sells intelligent technology. In addition, it manufactures bathroom; intelligent equipment; and cement products and other construction materials. The company was founded in 1988 and is headquartered in Changsha, the People's Republic of China.

530 Changyuan Technology Group Ltd. researches and develops, manufactures, and services industrial and power systems in China. It offers power distribution, operation and maintenance, power grid protection control and automation, energy and power consumption, primary equipment, and platform foundation systems. The company also provides automation equipment, factory assembly, chip packaging equipment, computer interaction and automation detection, clothing equipment, medical and biological laboratory, mechanical three dimensional parking, and test solutions. Changyuan Technology Group Ltd. was founded in 1986 and is based in Shenzhen, China.

531 Changzhou Tenglong AutoPartsCo.,Ltd. researches, develops, manufactures, and sells auto parts in China and internationally. The company offers airconditioning pipelines, such as compressor suction and exhaust, expansion valve inlet and outlet, heater air conditioning, and condenser connecting pipe assemblies; automotive heat exchange connecting tubes, including heater and oil cooling inlet and outlet pipes, and evaporator imported tubes, inlet pipes; and automotive heat exchange systems comprising filling valves, connectors, pullovers, press plates, heat exchange system accessories, and brackets. It also provides liquid storage tanks; automotive sensors consisting of diesel engine exhaust temperature, water temperature, and sunlight sensors; EGR cooling parts; auto precision aluminum tubes, such as circular tubes, flat tubes, Dshaped tubes, coaxial tubes, round and KOMO pipes, elliptical tubes, cut the tubes, and coils; and reservoir package in master cylinder for automobile brake systems. The company also exports its products to North America, South America, Europe, Japan, and South Asia regions. Changzhou Tenglong AutoPartsCo.,Ltd. was founded in 1997 and is headquartered in Changzhou, China.

532 Charles River Laboratories International, Inc., a nonclinical contract research organization, provides drug discovery, nonclinical development, and safety testing services in the United States, Europe, Canada, the Asia Pacific, and internationally. It operates through three segments: Research Models and Services (RMS), Discovery and Safety Assessment (DSA), and Manufacturing Solutions (Manufacturing). The RMS segment produces and sells rodent research model strains and purposebred rats and mice for use by researchers. This segment also provides a range of services to assist its clients in supporting the use of research models in research and screening nonclinical drug candidates, including research models, genetically engineered models and services, insourcing solutions, and research animal diagnostic services. The DSA segment offers early and in vivo discovery services for the identification and validation of novel targets, chemical compounds, and antibodies through delivery of nonclinical drug and therapeutic candidates ready for safety assessment; and safety assessment services, such as toxicology, pathology, safety pharmacology, bioanalysis, drug metabolism, and pharmacokinetics services. The Manufacturing segment provides in vitro methods for conventional and rapid quality control testing of sterile and nonsterile pharmaceuticals and consumer products. This segment also offers specialized testing of biologics that are outsourced by pharmaceutical and biotechnology companies; and avian vaccine services that provide specificpathogenfree (SPF) fertile chicken eggs, SPF chickens, and diagnostic products used to manufacture vaccines. The company also provides contract vivarium operation services to biopharmaceutical clients. Charles River Laboratories International, Inc. was founded in 1947 and is headquartered in Wilmington, Massachusetts.

533 Chart Industries, Inc. manufactures and sells engineered cryogenic equipment for the industrial gas and clean energy markets in the United States and internationally. The company operates in four segments: Cryo Tank Solutions, Heat Transfer Systems, Specialty Products, and Repair, Service & Leasing. It provides bulk and packaged gas cryogenic solutions for the storage, distribution, vaporization, and application of industrial gases; cryogenic trailers, ISO containers, bulk storage tanks, loading facilities, and regasification equipment for delivering liquefied natural gas (LNG) into virtual pipeline applications; and large vacuum insulated storage tanks as equipment for purchasers of standard liquefaction plants. The company also offers natural gas processing solutions; process technology, liquefaction capabilities, and critical equipment for the LNG, include small to midscale facilities, floating LNG

applications, and large baseload export facilities; brazed aluminum heat exchangers, CoreinKettle heat exchangers, cold boxes, air cooled heat exchangers, pressure vessels, and pipe works; and air cooled heat exchangers and axial cooling fans for the HVAC, power, and refining applications. In addition, it provides highly engineered equipment that is used in specialty endmarket applications for hydrogen, LNG, biofuels, CO2 Capture, food and beverage, aerospace, lasers, cannabis, and water treatment; and cryogenic components, include vacuum insulated pipes, specialty liquid nitrogen, enduse equipment, and cryogenic flow meters. Further, it provides extended warranties, plant startup, parts, 24/7 support, monitoring and process optimization, repairing, maintenance, and upgrading services; plant services on equipment; and service locations that undertake installation, service, repair, maintenance, and refurbishment of cryogenic products, as well as equipment leasing solutions. Chart Industries, Inc. was founded in 1859 and is headquartered in Ball Ground, Georgia.

534 Charter Communications, Inc. operates as a broadband connectivity and cable operator company serving residential and commercial customers in the United States. The company offers subscriptionbased internet, video, and mobile and voice services; a suite of broadband connectivity services, including fixed internet, WiFi, and mobile; security suite that protects computers from viruses and spyware, and threats from malicious actors; inhome WiFi, which provides customers with high performance wireless routers and managed WiFi services to enhance their fixed wireless internet experience; outofhome WiFi; and Spectrum WiFi services. The company also offers voice communications services using voice over internet protocol technology; and broadband communications solutions, such as internet access, data networking, fiber connectivity, video entertaient, and business telephone services to cellular towers and office buildings for business and carrier organizations. In addition, it provides mobile services; video programming, static IP and business WiFi, and email and security services; sells local advertising across various platforms for networks, such as TBS, CNN, and ESPN; sells advertising inventory to local sports and news channels; and offers Audience App to create datadriven linear TV campaigns for local advertisers. Further, the company offers communications products and managed service solutions; data connectivity services to mobile and wireline carriers on a wholesale basis; and owns and operates regional sports and news networks. It serves approximately 32 million customers in 41 states. The company was founded in 1993 and is headquartered in Stamford, Connecticut.

535 Chempartner Pharmatech Co., Ltd. engages in the microecological nutrition and healthcare businesses worldwide. The company provides medical contract research organization, and contract development and manufacturing organization services for preclinical stages. It is also involved in the research, production, and sales of prebiotic fibers as a microecological fortification ingredient, ODM product, and food for special medical purposes product. The company was formerly known as Quantum HiTech (China) Biological Co., Ltd. and changed its name to Quantum HiTech (China) Biological Co., Ltd. in September 2020. Quantum HiTech (China) Biological Co., Ltd. was founded in 2000 and is headquartered in Guangzhou, China.

536 Chen Ke Ming Food Manufacturing Co., Ltd. engages in the research, development, production, and sales of rice and flour products in China. The company provides noodles under the Chen Keming, Jin Maichu, and Laiwan Noodles brnads; flour under the Chen Keming and Five Flavor Liangcang brand names; instant food products under the Wugu Daochang and Chen Keming brands; and other products. It also offers nonfried instant noodles, fresh mixed noodles, selfheating noodles, semidry noodles,

selfheating rice, etc. Chen Ke Ming Food Manufacturing Co., Ltd. was founded in 1984 and is based in Changsha, China.

537 Chengdu Xiling Power Science & Technology Incorporated Company produces and sells automotive engine components for hightech enterprises in China. The company offers camshafts, crankshaft torsional shock absorber, connecting rod assembly, camshaft assembly and turbocharger, damper pulleys, connecting rods, and casting and forging parts. It also exports its products. The company was founded in 1999 and is based in Chengdu, China.

538 Chengdu Xinzhu Road&Bridge Machinery Co.,LTD provides products and services for urban rail transit systems in China. It provides urban rail transit systems comprising embedded mediumlow speed maglev, modern tram, suspended monorail, and the imbedded and continuously supported track systems, as well as metro transports; and transportation functional components, including bridge supports, expansion joints, bridge inspection vehicle, prestressed anchorage devices, bridge dampers, and disaster reduction and prevention products. Chengdu Xinzhu Road&Bridge Machinery Co.,LTD was founded in 2001 and is headquartered in Chengdu, China.

539 Chengtun Mining Group Co., Ltd. engages in nonferrous metal mining activities in China. The company explores for copper, tin, tungsten, lead, zinc, and gold metals. The company was formerly known as Xiamen Eagle Mining Group Co., Ltd. Chengtun Mining Group Co., Ltd. is headquartered in Xiamen, China.

540 Chengxin Lithium Group Co., Ltd. engages in the mining, production, and sale of lithium salt, and rare earth products in China and internationally. The company is also involved in the lithium dressing; and forestry businesses. It also provides lithium concentrate, carbonate, hydroxide, chloride, and other lithium metals. Its products are used for applications in lithiumion battery cathode materials, energy storage, petrochemical, pharmaceutical, and other fields. The company was formerly known as Shenzhen Chengxin Lithium Group Co., Ltd. and changed its name to Chengxin Lithium Group Co., Ltd. in September 2021. Chengxin Lithium Group Co., Ltd. was founded in 1997 and is headquartered in Shenzhen, China.

541 Chengzhi Shareholding Co., Ltd. engages in the clean energy, functional materials, medical healthcare, and life science and technology related businesses in China. The company offers functional materials, such as liquid crystal material and other display chemical materials. It also offers daily and special chemical products; edible fats and oils; paper products, sanitary, and household paper products; auto parts, machinery, and electronics; and biological pharmaceuticals products, as well as provides consulting, property management, and hospital investment management services. The company was incorporated in 1998 and is based in Nanchang, China.

542 Cheniere Energy Partners, L.P., through its subsidiaries, provides liquefied natural gas (LNG) to integrated energy companies, utilities, and energy trading companies worldwide. It owns and operates natural gas liquefaction and export facility at the Sabine Pass LNG production terminal located in Cameron Parish, Louisiana. The company's regasification facilities include five LNG storage tanks with an aggregate capacity of approximately 17 billion cubic feet equivalent; two marine berths that accommodate vessels with capacity of up to 266,000 cubic meters; and vaporizers with regasification capacity of approximately 4 billion cubic feet per day. It also owns a 94mile pipeline that interconnects the Sabine Pass LNG terminal with various interstate pipelines. Cheniere Energy Partners GP, LLC serves as the general partner of the company. The company was founded in 2003 and is

headquartered in Houston, Texas. Cheniere Energy Partners, L.P. operates as a subsidiary of Cheniere Energy, Inc.

543 Chenzhou City Jingui Silver Industry Co., Ltd. engages in the research and development, production, and sale of silver and silver deepprocessed products in China. Its products include highpurity silver and silver, highpurity silver nitrate, electrolytic lead, crude lead, etc. The company was founded in 2004 and is headquartered in Chenzhou, China.

544 Cheryong Industrial Co.,Ltd. manufactures and sells transmission and distribution materials, underground wire materials, communication equipment, and railway material. Cheryong Industrial Co.,Ltd. was founded in 2011 and is headquartered in Seoul, South Korea.

545 Chewathai Public Company Limited develops and sells residential projects in Thailand. It develops and sells land, houses, townhomes, and residence condominium projects. The company was incorporated in 2008 and is headquartered in Bangkok, Thailand. Chewathai Public Company Limited operates as a subsidiary of Chartchewa Co., Ltd.

546 Chiang Mai Ram Medical Business Public Company Limited, together with its subsidiaries, operates a medical care center in Thailand. It offers medical services in the areas of internal medicine, cardiology, general practice, pediatric, orthopedic and general surgery, pediatric surgery, obstetricsgynecology, radiology, dentistry, anesthetic, ENT, and eye; and operates subspecialty clinics for urology, neurology, endocrinology, oncology, hematology, plastic surgery, GI tract, and dermatology, as well as infertile and gynecologic oncology clinics. The company also provides dental, Xray, CT colonoscopy, cardiac catheterization, gynecologic cancer, back pain, physical therapy, operating theatre, laboratory examination, realtime PCR, ambulance, and CRD and health checkup services; and insurance products. It operates a medical care center under the Lanna Hospital name. The company was founded in 1974 and is headquartered in Chiang Mai, Thailand. Chiang Mai Ram Medical Business Public Company Limited is a subsidiary of Vibhavadi Medical Center Public Company Limited.

547 Chifeng Jilong Gold Mining Co.,Ltd., operates as a gold acquisition, and integrated resource recovery and utilization company in China. Its products include rare and precious metals, such as gold, silver, bismuth, palladium, and rhodium. The company is also involved in the operation of three gold mines; and disposal of waste electrical and electronic products. The company was formerly known as Guangdong Oriental Brothers Investment Co., Ltd. and changed its name to Chifeng Jilong Gold Mining Co., Ltd. in December 2012. Chifeng Jilong Gold Mining Co., Ltd. is based in Chifeng, China.

548 Chiho Enviroental Group Limited, an investment holding company, engages in the metal recycling business in Asia, Europe, and North America. The company is involved in the recycling of mixed metal into copper, aluminum, and ferrous metals. It also recycles endoflife vehicles, wasted oil, and electrical and electronic equipment wastes; and produces secondary aluminum ingots from aluminum scraps. In addition, it wholesales metal scrap without processing; processes and sells metal scrap and lubricating oil; provides industrial and logistics services; and purchases and administers real estate properties. The company was formerly known as ChihoTiande Group Limited and changed its name to Chiho Enviroental Group Limited in June 2017. Chiho Enviroental Group Limited is headquartered in Central, Hong Kong. Chiho Enviroental Group Limited is a subsidiary of USUM Investment Group Hong Kong Limited.

549 Chimimport AD, through its subsidiaries, acquires, manages, and sells shares in Bulgarian and foreign companies. The company is also involved in the financing; provision of banking, finance, nonlife and

life insurance, and pension products and services; and extraction of oil and gas businesses. In addition, it engages in manufacturing, marketing, and trading of petroleum and chemical products, and natural gas; and production, processing, and trading of cereals and vegetable oil. Further, the company is involved in the aviation transport and ground activities on servicing and repairing of aircraft and aircraft engines; river and maritime transport, and port infrastructure businesses; commercial representation and mediation; and commissioning, logistics, and warehousing activities. Additionally, it engages in the engineering; and securitization of receivables and real estate businesses, as well as real estate activities. The company was founded in 1947 and is headquartered in Sofia, Bulgaria. Chimimport AD is a subsidiary of Invest Capital AD.

550 China Apex Group Limited, an investment holding company, designs, manufactures, sells, and trades in finished zippers and sliders, and other garment accessories for the original equipment manufacturers of clothing brands. It operates in the People's Republic of China, Hong Kong, Switzerland, Italy, India, Indonesia, Bangladesh, Germany, Korea, Vietnam, Tunisia, and Jordan. The company was formerly known as KEE Holdings Company Limited and changed its name to China Apex Group Limited in November 2019. China Apex Group Limited was founded in 1992 and is headquartered in Central, Hong Kong.

551 China Baoan Group Co., Ltd. engages in the research, development, production, and sale of lithiumion battery anode, graphene, and cathode materials. It also manufactures and sells precision metal parts, energy vehicles, AC and DC charging connectors, motors and controllers, automobile exhaust gas purifiers, and civil air purification products, as well as military products that include military vehicle-mounted communication equipment, military simulation training systems, beidou technology, and radar electronic countermeasure technology products. In addition, the company engages in the manufacture, retail, and wholesale of pharmaceuticals; provision of biological pesticides and fertilizers, and hospital diagnosis and treatment services; and cultivation, research, development, production, and sale of neem. Further, it is involved in real estate development; investment and financing; mining; and mineral resources selection activities. The company was founded in 1983 and is based in Shenzhen, China.

552 China Calxon Group Co., Ltd. engages in real estate development and commercial asset management business in China. It develops residential, commercial, and offices. The company provides theater management, business administration, and industrial investment management services. China Calxon Group Co., Ltd. was founded in 1998 and is based in Shanghai, China.

553 China Enviroental Technology Holdings Limited, an investment holding company, provides wastewater treatment plants construction and operation services, and trades in machinery and equipment in the People's Republic of China. The company operates through two segments, Wastewater Treatment and Healthcare. It is involved in the development of water purification technology and wastewater treatment equipment trading. The company also develops enviroental protection related projects; provides enviroental protection technology and equipment system integration, as well as offers enviroental consultancy services. In addition, it develops medical information systems; and provides healthcare related products and healthcare management consulting services. The company was incorporated in 2001 and is headquartered in Kowloon, Hong Kong. China Enviroental Technology Holdings Limited is a subsidiary of Gentle International Holdings Limited.

554 China Foods Limited, an investment holding company, manufactures, distributes, markets, and sells CocaCola series products in the People's Republic of China. The company offers sparkling drinks, juices, water, milk drinks, energy drinks, tea, coffee, functional nutrition drinks, sports and plantbased protein drinks, and alcoholic drinks. It is also involved in the production, sale, and distribution of beverage bottles; wholesale and retail of prepackaged foods, and raw and auxiliary materials; provision of supply chain information consultation, management, and other services; and wholesale of packaged foods. In addition, the company provides enterprise management and consulting, business information consulting, and marketing planning services, as well as computer information system development, consulting, promotion, and other services. Further, it engages in the food business and internet sale of food. The company was formerly known as COFCO International Limited. China Foods Limited was founded in 1990 and is headquartered in Causeway Bay, Hong Kong. China Foods Limited is a subsidiary of China Foods (Holdings) Limited.

555 China Fortune Land Development Co., Ltd. engages in the investment, development, construction, and operation of new industrial cities and commercial real estate in China, Indonesia, and internationally. The company was formerly known as China Fortune Real Estate Development Co., Ltd. and changed its name to China Fortune Land Development Co., Ltd. in December 2007. The company was founded in 1998 and is headquartered in Beijing, China.

556 China Gas Holdings Limited operates as a gas operator and service provider in the People's Republic of China. The company invests in, constructs, operates, and maintains city and town gas pipeline infrastructure facilities, gas terminals, storage and transportation facilities, and gas logistics systems; transmits natural gas and liquefied petroleum gas (LPG) to residential, industrial, and commercial users; constructs and operates compressed natural gas/liquefied natural gas refilling stations; and develops technologies related to natural gas and LPG. It is also involved in the investment in petrochemical facilities of storage and transportation; producing and storing LPG and chemical products, as well as propane and butane; CBM business; exploration and production of coal bed methane; and gas station administration, management, and consultancy services. In addition, the company offers treasury, management, consultancy, and procurement services; and smart home products and gas insurance broker services, as well as gas heaters and kitchen appliances under the Gasbo brand. Further, it is involved in the development and investment in clean energy; wholesale and trading of natural gas and liquefied natural gas; sale of electricity; and provides gas meters, pressure regulators, corrugated pipes, gas alarms, and bottled gas. Additionally, the company engages in the wholesale and retail of household equipment, electric appliances, and kitchen appliances. As of March 31, 2022, it served 19,808 industrial and 297,664 commercial customers; and 43,095,245 residential customers, as well as operates 533 CNG/LNG refilling stations. The company was incorporated in 1995 and is headquartered in Wan Chai, Hong Kong.

557 China Glass Holdings Limited, through its subsidiaries, engages in the production, marketing, and distribution of glass and glass products in Mainland China, Hong Kong, the Middle East, Italy, and internationally. It operates through five segments: Clear Glass Products, Painted Glass Products, Coated Glass Products, Energy Saving and New Energy Glass Products, and Design and Installation Service. The company's products include online sun reflective glass, lowE reflective glass, solar control thermal reflective glass, high

transmittance glass; online solar control thermal reflective glass and solar control reflective glass, offline solar control reflective glass, and offline lowE reflective glass; high transmittance float glass, high clear float glass, tinted float glass, and clear float glass. It also offers thermal insulation glass, sunshade glass, soundproof glass, high transmittance energysaving glass, antiUV glass, and passive house glass, as well as TCO glass, solar ultraclear patterned glass, amorphous silicon thin film solar cell, and amorphous silicon solar cell module. In addition, the company provides design, parts, and installation services for pharmaceutical glass production lines. The company was incorporated in 2004 and is headquartered in Central, Hong Kong.

558 China Greenland Broad Greenstate Group Company Limited, an investment holding company, provides landscape design and gardening, project management, and related services in the People's Republic of China. It offers investment and financing, planning and design, project construction, and commercial operation services. The company undertakes municipal and city level landscape projects. It primarily serves the goverents and stateowned enterprises. The company was formerly known as Broad Greenstate International Company Limited and changed its name to China Greenland Broad Greenstate Group Company Limited in November 2016. China Greenland Broad Greenstate Group Company Limited was founded in 2004 and is headquartered in Shanghai, the People's Republic of China. China Greenland Broad Greenstate Group Company Limited is a subsidiary of Broad Landscape International Company Limited.

559 China HighSpeed Railway Technology Co., Ltd. operates in the highspeed railway and urban rail transit operation maintenance equipment manufacturing industry. The company offers intelligent inspection robots on vehicle's bottom and roof area, EMU and locomotive online mobile rim spoke ultrasonic flaw detectors, double track ultrasonic flaw detection vehicles, intelligent permanent way disaster detecting systems, data repair systems, power supply system BIM platform, multichannel big data wireless transmission systems, dispatch emergency command systems, EMU bogie maintenance line system integration, EMU online mobile wheel rim and wheel spoke detection systems, fixed hollow shaft ultrasonic detecting machines, mobile hollow shaft ultrasonic detectors, EMU oil monitoring systems, EMU bogie dynamic load test stands, and EMU bogie static load test stands. It also provides system integration of EMU wheel axle and wheel set maintenance lines, wheel set dimension measuring machines, maglev train maintenance system integration, rolling stock wash plants, wheel malfunction online detection systems, rain running fault 3D image detecting systems, onboard test systems of contact line operation conditions, test and monitoring systems of contact line hanging, running preparation comprehensive information management systems, EMU shunting safety monitoring systems, computer interlocking systems, overload/unbalanced load detection devices, steel rail welding joint CNC milling machine tools, and model rail replacement devices. The company was formerly known as Beijing Sheenline Group Co., Ltd. and changed its name to China HighSpeed Railway Technology Co., Ltd. in 2014. China HighSpeed Railway Technology Co., Ltd. was founded in 1989 and is headquartered in Beijing, China.

560 China Huajun Group Limited, an investment holding company, manufactures and sells multicolor packaging products, carton boxes, books, brochures, and other paper products in the People's Republic of China, the United States, Hong Kong, European countries, and internationally. It operates through five segments: Printing, Trading and Logistics, Property Development and Investments, Solar Photovoltaic, and Financial Services. The company offers traffic solutions and services for the urban transportation, highway transportation, V2X networking, rail transportation, civil aviation, and other fields, as well as provides traffic signal control system, traffic management and control center, law enforcement system, video monitoring system, road network prevention and control management system, and safety management system. It also offers security solutions. The company was founded in 2000 and is based in Beijing, China.

600 China Tungsten And Hightech Materials Co.,Ltd researches, develops, produces, sells, and trades in nonferrous metals in China. The company's products include drill bit products, drilling tools, roll products, carbide chondrites, hard surface materials, and specialshaped products, as well as carbide tools. It also offers cemented carbide, cutting inserts and tools, compounds and powders, and other products for use in automobile manufacturing, CNC machine tools, aerospace, military industry, mechanical mold processing, IT industry processing, shipbuilding, and marine engineering equipment. The company was formerly known as Hainan Jinhai Co., Ltd. and changed its name to China Tungsten And Hightech Materials Co.,Ltd in 2000. The company was founded in 1993 and is headquartered in Zhuzhou, China.

601 China Union Holdings Ltd. engages in the development, operation, management, and brokerage of real estate properties. The company was founded in 1989 and is based in Shenzhen, China.

602 China Vanadium TitanoMagnetite Mining Company Limited, an investment holding company, engages in mining and ore processing activities in the People's Republic of China. It operates through three segments: HighFe Mining Operation; Trading; and Corporate and Others. The company engages in the operation of sale of selfproduced highgrade iron

concentrates, and trading steel. It is also involved in the provision of facilities management services for the mining operations; and management of strategic investments. In addition, the company engages in the iron ore and gypsum ore beneficiation activities, as well as provision of mining and construction consulting, and estate management services. Further, it sells equipment and materials; and leases real estate properties. The company was founded in 2004 and is based in Causeway Bay, Hong Kong.

603 China Vanke Co., Ltd., together with its subsidiaries, engages in the development and sale of properties in the Mainland China, Hong Kong, and internationally. The company operates through Property Development and Property Management segments. It develops residential buildings, commercial offices, and other ancillary facilities. The company also provides property management and related services to purchasers and tenants of its own developed residential properties, shopping arcades, and office buildings, as well as to properties developed by external property developers; and undertakes construction contracts. In addition, it is involved in logistics and warehousing, hotel and resort, education, and housing rental businesses. The company was incorporated in 1984 and is headquartered in Shenzhen, the People's Republic of China.

604 China Water Industry Group Limited, an investment holding company, provides water supply and sewage treatment services in the People's Republic of China. It operates through Provision of Water Supply, Sewage Treatment and Construction Services; Exploitation and Sale of Renewable Energy; and Property Investment and Development segments. The company also constructs water supply and sewage treatment infrastructure activities, including water meter installation, infrastructure and pipeline construction, and repair. In addition, it is involved in the installation of water supply facilities; and provision of information, environmental and product testing, renewable energy technology development, trading, water pipeline network design, glass recycling, and administrative services. Further, the company engages in the exploitation, production, generation, and sale of electricity and compressed natural gas from biogas power plants, as well as purified and drinking systems; and operation of landfill gas power generation plant. It develops and sells commercial and residential units. The company was formerly known as Sky Hawk Computer Group Limited and changed its name to China Water Industry Group Limited in November 2006. China Water Industry Group Limited is headquartered in Sheung Wan, Hong Kong.

605 China XLX Fertiliser Ltd., an investment holding company, engages in the development, manufacture, sale, and trade of urea primarily in Mainland China and internationally. It also offers compound fertilizers, methanol, liquid ammonia, dimethyl ether, melamine, furfuryl alcohol, furfural, humic acid, 2methylfuran, vehicles urea solutions, and related differentiated products, as well as pharmaceutical intermediates. In addition, it mines and sells coal; and distributes and sells electricity. Further, the company is involved in the manufacture and trading of gas, testing equipment, and intelligent equipment; and agricultural production, international business and trading, technological development, and consulting activities. China XLX Fertiliser Ltd. was founded in 1969 and is headquartered in Xinxiang, the People's Republic of China.

606 China ZhengTong Auto Services Holdings Limited, an investment holding company, engages in 4S dealership business in the People's Republic of China. The company operates through 4S Dealership Business, Supply Chain Business, Financial Services Business, and Comprehensive Properties Business segments. It is involved in the sale of motor vehicles and automobile parts; and provision of maintenance and repair

services. The company also provides motorrelated logistics services; and trades in lubricant oil and auto supplies. In addition, it focuses on the dealership of branded automobiles, including Porsche, BMW, MercedesBenz, Audi, Jaguar Land Rover, Hongqi, Volvo, Cadillac, and Infiniti; and operates dealership stores of middle market brands, such as DongfengNissan, Buick, DongfengHonda, FAWVolkswagen, Chevrolet, FAW Toyota, and Hyundai. Further, the company engages in the development and sale of real estate properties; property management; trading preowned automobiles; ecommerce platform; and provision of consulting and automobile trading agency services, as well as insurance agency services. The company was founded in 1999 and is headquartered in Beijing, the People's Republic of China.

607 China Zhonghua Geotechnical Engineering Group Co., Ltd. engages in the engineering, general aviation, cultural tourism, and investment businesses in China. The company provides geotechnical engineering services, including engineering survey, design consultation, engineering construction, monitoring and testing, engineering supervision, etc.; undertakes municipal engineering, which comprising roads, bridges, underground pipe networks; airport engineering includes engineering consulting, planning and design, engineering construction, airport maintenance, and other engineering construction; and underground engineering consist foundation pit support, underground diaphragm wall, shield tunnel, construction machinery manufacturing, etc. It also offers civil aviation engineering consulting, planning and design, project investment and management, engineering construction, operation, maintenance, and other related services for airports and general aviation. In addition, the company engages in the planning, design, investment, development, and construction of cultural tourism towns, theme parks, general aviation towns, and other projects. China Zhonghua Geotechnical Engineering Group Co., Ltd. was founded in 2001 and is headquartered in Beijing, China.

608 Chinasoft International Limited, together with its subsidiaries, develops and provides information technology (IT) solutions, IT outsourcing, and training services. It operates through Technical Professional Services Group and Internet IT Services Group segments. The company offers CloudEasy, a cloud management platform; Huaxia Cloud, a cloud brokerage platform; Tencent Cloud that provides cloud consultation, migration, operation and maintenance management, and application development and integration; enterprise cloud disk; and cloud shop O2O platform. It also provides IT application development and maintenance, IT testing, infrastructure management, product development and services, digital consulting and implementation, system integration and services, IT consulting and outsourcing, business process outsourcing, and other customer services. In addition, the company offers Internet IT services comprising software industry Internet platform for enterprises. The company serves financial institution, banks, telecommunications and Internet, insurance and securities, retail, hightechnology business, manufacturing, transportation, and other industries, as well as to the various goverent. Chinasoft International Limited was incorporated in 2000 and is headquartered in Beijing, the People's Republic of China.

609 Chindata Group Holdings Limited provides carrierneutral hyper scale data center solutions in China, India, Malaysia, and Southeast Asia. It offers artificial intelligence, cloud computing, smart cities and homes, online entertaient, and other ondemand services. The company also provides internet data center colocation and rental services; and technical and consulting services. Its integrated data center solutions include infrastructure, power supply, connectivity and operation and maintenance, tailor made to their scale and requirements throughout the

planning, design, construction, and operation process. The company was formerly known as BCPE Bridge Stack Limited and changed its name to Chindata Group Holdings Limited in April 2020. Chindata Group Holdings Limited was founded in 2015 and is headquartered in Beijing, China.

610 Chinese Universe Publishing and Media Group Co., Ltd. engages in the editing, printing, publishing, and distribution of books, newspapers, periodicals, electronic publications, and audio and visual materials in China and internationally. It also offers domestic and foreign trade and supply chain services, logistics and Internet of Things technology applications, and other industrial chain extension services; and media and online education services. In addition, it engages in online gaming and digital publishing; film and television production; artwork management; insurance brokerage; operating cultural complexes; and investment and financing businesses. The company was founded in 1993 and is based in Nanchang, China. Chinese Universe Publishing and Media Co., Ltd. operates as a subsidiary of Jiangxi Publishing Group Co., Ltd.

611 Chip Eng Seng Corporation Ltd, an investment holding company, engages in property development, construction, hospitality, property investment, and education businesses. The company constructs public housing projects and private projects, such as condominiums and executive condominiums, as well as industrial and commercial projects; develops residential, industrial, commercial, and mixeduse projects, as well as manages development projects. It also engages in leasing and management of investment properties; operates hotels; offers corporate services, treasury functions, and investments in marketable securities; construction and supply of equipment for water and wastewater treatment plants; acquisition of portable containers/structures for rent and provision of related services; building construction and construction project management services; wholesale of construction materials, hardware, plumbing, and heating equipment and supplies; modular building construction. In addition, the company manufactures and trades in precast concrete components. Further, it provides general building and related services; financial and treasury services; education, consultancy, and training management services; and childcare, nursery, kindergarten, and related services. The company operates in Singapore, Australia, China, Myaar, New Zealand, Vietnam, Cambodia, Hong Kong, Malaysia, Bangladesh, Saudi Arabia, Thailand, Indonesia, Mozambique, Maldives, and Nigeria. Chip Eng Seng Corporation Ltd was incorporated in 1998 and is headquartered in Singapore, Singapore.

612 Chipbond Technology Corporation, together with its subsidiaries, engages in the research, development, manufacture, and sale of metal, gold, and tinlead bumps; flip chips; and tape and reel bonding and packaging substrates in Taiwan, the United States, and internationally. The company offers turnkey services, which comprise bumping manufacturing services, including gold, solder, and copper bumping services; redistribution layer services; wafer surface processing services, such as back side metal and dielectric layer coating process services; wafer grinding, dicing, and picking and placing services; package and testing services comprising driver and nondriver IC testing, driver IC package, and wafer level chip scale packaging services; final inspection and failure analysis services; and chip tray design and manufacturing services. It also invests in, develops, manufactures, and sells electronic components; develops, produces, packages, tests, and sells integrated circuit products and semiconductorspecific materials, as well as provides aftersales services; and provides semiconductor components, semiconductor packaging and testing services, various electronics and computers, and communication circuit boards. Chipbond Technology Corporation was founded in 1997 and is headquartered in Hsinchu, Taiwan.

613 ChipMOS TECHNOLOGIES INC. engages in the research, development, manufacture, and sale of highintegration and highprecision integrated circuits, and related assembly and testing services in Taiwan, People's Republic of China, Japan, Singapore, and internationally. It operates through Testing; Assembly; Testing and Assembly for LCD, OLED and other Display Panel Driver Semiconductors; Bumping; and Other segments. The company provides a range of backend assembly and testing services, including engineering test, wafer probing, and final test of memory and logic/mixedsignal semiconductors, as well as leadframebased and organic substratebased package assembly services for memory and logic/mixedsignal semiconductors; and gold bumping, reel to reel assembly, and test services for LCD and other panel display driver semiconductors. Its semiconductors are used in personal computers; graphics applications, such as game consoles; communications equipment; mobile products comprising cellular handsets, tablets, and consumer electronic products; and automotive/industry and display applications, such as display panels. The company was incorporated in 1997 and is headquartered in Hsinchu, Taiwan.

614 Chipotle Mexican Grill, Inc., together with its subsidiaries, owns and operates Chipotle Mexican Grill restaurants. It offers burritos, burrito bowls, quesadillas, tacos, and salads. The company was founded in 1993 and is headquartered in Newport Beach, California.

615 Chips&Media, Inc. develops and sells ultralow power multicodec video IPs to semiconductor companies in South Korea and internationally. It provides video codec, image signal processing, and image processing video IP cores, as well as computational photography and object detection IPs for the surveillance, automotive, and electronic markets. The company was founded in 2003 and is headquartered in Seoul, South Korea.

616 Chongqing Mas Sci.&Tech.Co.,Ltd. provides safety technology equipment and safety information services in China. The company offers mining safety products, including personnel tracking, mining safety monitoring, gas mining monitoring, and wireless and broadcast communication products. It also provides municipal management products, such as manhole covers management, slope and retaining wall, bridge health, road and tunnel, underground pipe network, septic tank hazard, storm waterlogging, and street lamp products. In addition, the company offers flammable gas monitoring products; and environmental protection products comprising dust and noise, surface water, ambient air quality, VOCs, regional environment, and remote water operation products. Further, it provides urban pipeline safety products consisting of cloud data center, information management platform, emergency command, and gas hazard monitoring products, as well as software solutions. The company was founded in 2003 and is headquartered in Chongqing, China.

617 Chongqing road & bridge co.,ltd operates as an infrastructure and real estate development and operation company in China. The company engages in the operation of urban roads and bridges. It is also involved in the construction of roads, bridges, and urban infrastructure projects; and real estate development and construction activities. The company was founded in 1997 and is based in Chongqing, China.

618 Chongqing Sansheng Industrial Co.,Ltd. engages in the research and development, production, and sale of building materials and chemicals in China. The company offers commercial concrete, water reducing agents, and expansion agents for industrial and civil buildings, highways, railways, bridges, tunnels, airports, water conservancy and hydropower, etc.; and sulfuric acid for the production of fertilizers, chemicals, light industry, textile, steel, water reducer, and other nonfertilizer acid enterprises. It also provides pharmaceutical products comprising intermediates, such as procaine hydrochloride, cefoxitin acid

intermediates, chloramphenicol intermediates, aztreonam intermediates, orlistat intermediates, etc., which are used in antibiotic drugs, antihepatitis C drugs, diabetes drugs, benzathine penicillin and cefoxitin, procaine penicillin and cosmetics, etc.; API products, including acetaminophen, cloperidine hydrochloride, levofloxacin mesylate, benoate, procaine hydrochloride, diphenhydramine hydrochloride, etc.; and preparation products, such as compound paracetamol diphenhydramine, cloperidine hydrochloride, clarithromycin sustainedrelease, diclofenac sodium entericcoated, acetaminophen, famotidine tablets, etc., which are used in antipyretic and analgesic, antiviral, antibacterial, cough, allergy, local anesthesia, etc., as well as famotidine, diclofenac sodium, nifedipine, acetaminophen, furosemide, and norfloxacin drugs for clinical medicines. The company was formerly known as Chongqing Sansheng Special Building Materials Co., Ltd. and changed its name to Chongqing Sansheng Industrial Co.,Ltd. in October 2016. The company was incorporated in 2002 and is based in Chongqing, China.

619 Chongqing Three Gorges Water Conservancy and Electric Power Co., Ltd., together with its subsidiaries, primarily engages in the electricity production and supply in China. It owns hydropower stations with an installed capacity of 750,000 kilowatts. The company is also involved in the manganese ore mining; and electrolytic manganese production, processing, and sales. Chongqing Three Gorges Water Conservancy and Electric Power Co., Ltd. was founded in 1929 and is based in Chongqing, China.

620 Chongqing Yukaifa Co., Ltd operates as a real estate development company in China. It offers exhibition, house leasing, property, etc. services, as well as involved in the sale of commercial housing. The company was founded in 1978 and is based in Chongqing, China.

621 Chorokbaem Media Co., Ltd. develops and produces entertaiement content primarily in Asia. The company was formerly known as Konictech Co., Ltd. and changed its name to Chorokbaem Media Co., Ltd. in 2005. The company was founded in 2000 and is based in Seoul, South Korea.

622 Chorus Aviation Inc., through its subsidiaries, provides aviation solutions in the United States and Canada. It operates through Regional Aviation Services and Regional Aircraft Leasing segments. The Regional Aviation Services segment provides contract flying services, charter services, and specialized contract flying, such as medical, logistical, and humanitarian flights; aircraft leasing; and maintenance, repair and overhaul services, and part sales and technical services. The Regional Aircraft Leasing segment engages in asset management business comprising management of aircraft investment funds and provision of lease services to aircraft operators. In addition, the company provides aeronautical products, which includes component and sheet metal; and avionics repair support services for airlines, leasing companies, aviation maintenance organizations, and original equipment manufacturers. Further, it offers inhouse design and certification services including repair design and supplemental type certificate approvals for aircraft modifications, reconfigurations, and part replacements; and provides technical support, structural and system design, operational documentation, and project management. Chorus Aviation Inc. was formerly known as Jazz Air Income Fund. The company was founded in 2005 and is based in Dartmouth, Canada.

623 Chorus Limited, together with its subsidiaries, provides fixed line communications infrastructure services in New Zealand. It offers phone and broadband services for residential and business customers; and highspped digital subscriber line broadband services. The company builds and maintains a network of fibre and copper cables, local telephone

exchanges, and cabinets. It also provides colocation services. Chorus Limited was founded in 2008 and is based in Wellington, New Zealand.

624 Chr. Hansen Holding A/S, a bioscience company, develops natural ingredient solutions for the food, nutritional, pharmaceutical, and agricultural industries in Europe, the Middle East, Africa, North America, Latin America, and the Asia Pacific. The company operates through Food Cultures & Enzymes, and Health & Nutrition segments. The Food Cultures & Enzymes segment produces and sells various cultures, enzymes, and probiotic products that determine the taste, flavor, texture, shelf life, nutritional value, and health benefits of various consumer products in the food industry, primarily in the dairy industry. The Health & Nutrition segment produces and sells products for the dietary supplement, overthecounter pharmaceutical, infant formula, animal feed, and plant protection industries. It has a strategic collaboration with UPL Ltd. to develop and commercialize microbialbased bio solutions for sustainable agriculture. The company was founded in 1843 and is headquartered in Hørsholm, Denmark.

625 Christian Dior SE, through its subsidiaries, engages in the production, distribution, and retail of fashion and leather goods, wines and spirits, perfumes and cosmetics, and watches and jewelry worldwide. The company offers its fashion and leather goods under the Louis Vuitton, Christian Dior Couture, Loewe, Marc Jacobs, Celine, Kenzo, Givenchy, Pink Shirtmaker, Emilio Pucci, Berluti, Loro Piana, Rimowa brand names; wines and spirits under the Hennessy, Gleorangie, Ardbeg, a Belvedere, Volcán de mi Tierra, Moët & Chandon, Dom Pérignon, Veuve Clicquot, Krug, Châteaumeunier, Ruinart, Belvedere, Gleorangie, Newton Vineyards, Bodega Numanthia, and Châteaumeunier-Esclans brand names; and perfumes and cosmetics under the Parfums Christian Dior, Guerlain, Parfums Givenchy, Make Up For Ever, Benefit Cosmetics, Fresh, Acqua di Parma, KVD Vegan Beauty, Fenty, Ole Henriksen, and Maison Francis Kurkdjian brand names. It also provides watches and jewelry under the Tiffany, Bvlgari, TAG Heuer, Zenith, Hublot, Chaumet, and Fred brand names. In addition, the company operates retail stores under the DFS Galleria, Sephora, Le Bon Marché, and Ile de Beauté names; publishes Le Parisien Aujourd'hui en France, a daily newspaper; designs and builds yachts; and operates the Cova pastry shops. Further, it is involved in real estate activities under the La Samaritaine brand name; and hotel business. The company sells its products through store network, including ecommerce websites; and agents and distributors. As of December 31, 2021, it operated 5,556 stores. The company was incorporated in 1946 and is headquartered in Paris, France. Christian Dior SE was formerly a subsidiary of Semyrhamis SA.

626 CHTC Fong's International Company Limited, an investment holding company, manufactures and sells dyeing and finishing machines. It also manufactures, sells, and trades in stainless steel casting products, textile machinery, and technical parts; and trades in stainless steel supplies. In addition, the company invests in properties, as well as provides consultancy services. It operates in the People's Republic of China, Hong Kong, the rest of Asia Pacific, Europe, North and South America, and internationally. The company was formerly known as CHTC Fong's Industries Company Limited and changed its name to CHTC Fong's International Company Limited in January 2018. The company was founded in 1963 and is headquartered in Kwai Chung, Hong Kong.

627 CIE Automotive, S.A. designs, manufactures, and sells automotive components and subassemblies worldwide. It offers roof systems, including opening roof, shading, and glazing systems; BIW, chassis, and steering products, such as body in white, hubs, outer rings and spindles, steering column brackets, EPS main housings and components, steering nuts, airbag

frames, steering housings, brake boosters, steering column tubes, rear axles, and seat structures; and exterior/interior trim products comprising arm rests, storage compartments, central consoles, ashtrays, glove compartments, in mold decorations, trim parts, emblems, rearview mirrors, crossbeams, and front covers. The company also provides axle beams and spindles, brake camshafts, axle shafts, rear axle assemblies, pistons, levers, air suspension brackets, spindles, stabilizer bars, and sector shafts; and engine products, including crankshafts, crankshaft caps, diesel and gasoline common rails, ladder frames, camshaft covers and bearings, camshaft bearings housings, valve guides, brackets, exhaust air duct tubes, air tanks, and oil pans. In addition, the company offers transmission and gearbox products, such as mechanical and gearbox housings, clutch and transmission housings, pistons, gearbox components and oil pans, differential cases, planetary carriers, flanges, axle shafts, CVT and hybrid components, crowns, and forging parts for CVjoints. It offers its products to original equipment manufacturers and Tier1 suppliers. The company was founded in 1996 and is headquartered in Bilbao, Spain.

628 Cielo S.A., through its subsidiaries, provides payment services in Brazil. It is involved in the provision of services related to credit and debit cards, and other payment methods, including signing up of merchants and service providers; rental, installation, and maintenance of point of sale terminals; and data capture and processing of electronic and manual transactions. The company also offers services related to the processing means of payments that involve cards, maintenance services, and contacts with merchants for acceptance of credit and debit cards; data transmission services to load fixed or mobile phone credits, prepaid transportation, and mobile payment; software development and licensing of computer software; electronic transactions processing; IT services for collection and management of accounts payable and receivable through the Internet; and data processing services and support services to medical companies. The company was formerly known as Companhia Brasileira de Meios de Pagamento and changed its name to Cielo S.A. in December 2009. Cielo S.A. was founded in 1995 and is headquartered in Barueri, Brazil.

629 Ciena Corporation provides hardware and software services for delivery of video, data, and voice traffic metro, aggregation, and access communications network worldwide. The company's Networking Platforms segment offers convergence of coherent optical transport, open optical networking, IP routing, and switching services. Its products include 6500 PacketOptical Platform, 5400 Reconfigurable Switching System, Waveserver stackable interconnect system, and the 6500 Reconfigurable line system, and the 5400 family of PacketOptical platforms, as well as ZSeries PacketOptical Platform; 3000 family of service delivery switches and the 5000 family of service aggregation switches, as well as 8700 Packetwave Platform and 6500 Packet Transport System. This segment also sells operating system software and enhanced software features embedded in each of its products. The company's Blue Planet Automation Software and Services segment provides multidomain service orchestration, inventory, route optimization and analysis, network function virtualization orchestration, analytics, and related services. Its Platform Software and Service segment offers OneControl unified management system that support network solutions. The company's Global Services segment provides consulting and network design, installation and deployment, maintenance support, and training services. Ciena Corporation was incorporated in 1992 and is headquartered in Hanover, Maryland.

630 CIFI Ever Sunshine Services Group Limited provides property management services in the People's Republic of China. It offers services for residential and nonresidential properties, such as office buildings,

shopping malls, schools, hospitals, scenic spots, government-owned buildings, expressway service stations, rail transit, and ferry terminals. The company also provides value added services to non-property owners, including sales assistance, additional tailored, housing repair, pre-delivery inspection, and preliminary planning and design consultancy services. In addition, it offers community value-added services to property owners and residents, which comprise home living services, property agency services, and common area value-added services, as well as parking unit management and leasing services. Further, the company provides construction and maintenance, investment, and software and technology services. The company was formerly known as Ever Sunshine Lifestyle Services Group Limited and changed its name to CIFI Ever Sunshine Services Group Limited in July 2021. CIFI Ever Sunshine Services Group Limited was incorporated in 2018 and is headquartered in Shanghai, the People's Republic of China.

631 CII Bridges and Roads Investment Joint Stock Company, together with its subsidiaries, provides traffic toll collection services in Vietnam. It engages in the construction of railway and road works, building and other civil engineering works, and power transmission lines and substations. The company also invests in construction, exploitation, and trading of urban technical infrastructures by mode of build-operate-transfer and build-transfer contracts. In addition, it manufactures and trades in mechanical-electric equipment for lighting systems, traffic signal systems, and traffic signal devices; metal pillars and columns; and industrial and civil iron and steel components. Further, the company designs, constructs, and installs public lighting lamps, system of traffic signal lights, and traffic signaling equipment. Additionally, it installs single-pole electric power lines; involved in the housing business; and provides commercial services. The company was founded in 1978 and is headquartered in Ho Chi Minh City, Vietnam. CII Bridges and Roads Investment Joint Stock Company is a subsidiary of Ho Chi Minh City Infrastructure Investment Joint Stock Company.

632 CIMC Enric Holdings Limited provides transportation, storage, and processing equipment for the clean energy, chemicals, environmental, and liquid food industries worldwide. Its Clean Energy segment manufactures and operates equipment for the storage, transportation, processing, and distribution of compressed natural gas trailers, seamless pressure cylinders, liquefied natural gas trailers and storage tanks, liquefied petroleum gas tanks and trailers, natural gas refuelling station systems, and natural gas compressors; and offers engineering, procurement, and construction services for the natural gas industry, as well as internet of things intelligent operation and management platform under the Anjiehui brand. It offers its products under the Enric, Sanctum, Hongtu, CIMC Tank, Cryobest, Hashenleng, YPDI, CIMC SOE, and CIMC Hydrogen brands. The company's Chemical and Environmental segment offers tank containers for the storage and transportation of liquefied or gasified chemicals under the CIMC Tank and Tankmiles brands. Its Liquid Food segment engineers, manufactures, and sells stainless steel tanks for storage and processing liquid food, such as beer, fruit juice and milk; and provides EPC services for brewery and other liquid food industries under the Ziemann Holvrieka, Briggs of Burton, McMillan, and DME brands. The company also manufactures compressors and accessories, and pressure vessels; offers business solutions for gas equipment; researches and develops technology for natural gas equipment; cryogenic storage and transportation equipment design, manufacture, and technical services; collects, processes, and sells renewable resources; offers terminal and depot, and non-metallic scrap processing services; and repairs and maintains pressure vessels. The company was incorporated in 2004 and is

headquartered in Shenzhen, the People's Republic of China. CIMC Enric Holdings Limited is a subsidiary of China International Marine Containers (Hong Kong) Limited.

633 İmiztas Izmir İmizto Fabrikasi T rk A.S., together with its subsidiaries, produces and sells cement, and ready mix concrete in Turkey and internationally. The company is also engaged in fuel sales, fly ash, and waste management businesses. It also exports its products. The company was founded in 1947 and is headquartered in Izmir, Turkey. İmiztas Izmir İmizto Fabrikasi T rk A.S. is a subsidiary of Aalborg Portland Espa a S.L.

634 İmsa İmizto Sanayi ve Ticaret A.S. produces and sells cement, clinker, and readymix concrete in Turkey. The company's products include grey, white, and calcium aluminate cement. It also exports cement. The company was founded in 1972 and is headquartered in Istanbul, Turkey. İmsa İmizto Sanayi ve Ticaret A.S. operates as a subsidiary of Hacı Ėmer Sabancı Holding A.S.

635 Cineplex Inc., together with its subsidiaries, operates as an entertainment and media company in Canada and internationally. It operates through four segments: Film Entertainment and Content, Media, Amusement and Leisure, and LocationBased Entertainment. The company engages in theatre exhibition and theatre food service activities. It also provides alternative programming service; rents and sells movies in digital form; and operates cineplex.com, an entertainment site that offers streaming video, movie information, showtimes and ability to buy tickets online, entertainment news, and box office reports, as well as advertising and digital commerce opportunities. In addition, the company offers Cineplex mobile app for various devices; incorporates advertising mediums related to theatre exhibition, and digital placebased media that provides digital signage solutions; and designs, installs, maintains, and operates digital signage networks in various verticals, including digital out of home, quick service restaurants, financial institutions, and retailers. Further, it distributes and operates amusement, gaming, and vending equipment; and operates social entertainment destinations featuring gaming, entertainment, and dining under The Rec Room and Playdium names. As of December 31, 2021, the company owned, leased, or had interest in 1,652 screens in 160 theatres, as well as 13 locationbased entertainment venues in 6 provinces. Cineplex Inc. was founded in 1912 and is headquartered in Toronto, Canada.

636 Cineworld Group plc engages in the cinema business. It is also involved in financing, retail, cinema property leasing, ticket booking, film distribution, advertising, and gift promotion activities. The company operates its cinema sites under the Regal, United Artists, Edwards theatres, Cineworld, Picturehouse, Cinema City, Yes Planet, and RavChen brands. As of December 31, 2021, it operated 9,181 screens in 751 sites in the United States, the United Kingdom, Ireland, Poland, Israel, Hungary, Romania, the Czech Republic, Bulgaria, and Slovakia. The company was founded in 1995 and is headquartered in Brentford, the United Kingdom. On September 7, 2022, Cineworld Group plc along with its affiliates, filed a voluntary petition for reorganization under Chapter 11 in the U.S. Bankruptcy Court for the District of Southern District of Texas.

637 CIRCOR International, Inc. designs, manufactures, and distributes flow and motion control products in Europe, the Middle East, Africa, North America, and internationally. The company has a product portfolio of brands serving its customers' demanding applications. It operates through two segments, Aerospace & Defense and Industrial. The Aerospace & Defense segment manufactures and markets control valves, pumps, regulators, fluid controls, pneumatic valves and controls,

electromechanical controls, electric motors, and other flow control products and subsystems; propeller pumps; actuation systems; MILspec butterfly valves and actuators; brushless DC motors; switches; and actuation components and subsystems. Its products and services are used in the military and defense, commercial aerospace, business and general aviation, and general industrial markets, as well as serves aircraft manufacturers and tier 1 and tier 2 suppliers. This segment offers its products under the CIRCOR Aerospace, Aerodyne Controls, CIRCOR Bodet, CIRCOR Industria, CIRCOR Motors, Hale Hamilton, Leslie Controls, Portland Valve, and Warren Pumps brands. The Industrial segment provides 3 and 2 screw pumps, progressing cavity pumps, specialty centrifugal pumps, and gear metering pumps; automatic recirculation valves; engineered valves; positive displacement pumps; general service control valves; and top and bottom unheading devices and center feed devices for the endusers and original equipment manufacturers, as well as engineering, procurement, and construction companies. This segment offers its products under the Allweiler, DeltaValve, Houttuin, IMO Pump, IMO AB, Leslie Controls, RG Lawrence, RTK, Schroedahl, TapcoEnpro, Tushaco, and Zenith brands. The company markets its solutions directly and through various sales partners to approximately 14,000 customers in approximately 100 countries. CIRCOR International, Inc. was incorporated in 1999 and is headquartered in Burlington, Massachusetts.

638 Cirtek Holdings Philippines Corporation, through its subsidiaries, operates as an independent subcontractor for semiconductor assembly, test, and packaging services in Asia, Europe, and the United States. It primarily offers turnkey solutions, such as package design and development; wafer probing; wafer back grinding; assembly and packaging; final testing of semiconductor devices; and delivery and shipment to its end user customers. The company also provides protection products to protect electronic devices from damaging voltage or current spikes; light sensors that are optical devices, which sense the intensity of light and trigger the automatic switching on and off of headlights, and the automatic adjustment of air conditioning settings in cars; and real time clocks that are precision time keeping devices. In addition, it offers voltage control oscillators that are designed to be controlled in oscillation frequency by a DC voltage input; electronic relays, which are opto relays used in controlling voltage and power equipment; and power management devices that are used in a range of power management applications, including telecommunications, industrial equipment, portable devices, computers, and networks. Further, the company provides microwave and wireless solutions that are used in service provider, education, enterprise, goverent, municipalities, and healthcare applications, as well as carrier and private data networks catering mobile backhaul. Additionally, it offers antenna solutions for wireless cellular networks; and box build turnkey manufacturing solutions to radio frequency, microwave, and millimeter wave products used in the wireless industry, such as telecommunication, satellite, aerospace and defense, and automotive wireless devices. The company was founded in 1984 and is headquartered in Binan City, the Philippines. Cirtek Holdings Philippines Corporation is a subsidiary of Camerton, Inc.

639 CITIC Limited operates in the financial services, resources and energy, manufacturing, engineering contracting, advanced materials, consumption, and urbanization businesses worldwide. The company's Comprehensive Financial Services segment provides banking, trust, insurance and reinsurance, investment banking, wealth and asset management, financial markets, equity investment, financing, and other integrated financial services. Its Advanced Intelligent Manufacturing segment offers wheels and lightweight cast components, and chassis and

body systems; and mining and heavy machinery, specialized robots and intelligent equipment, new energy equipment, and special materials. The company's Advanced Materials segment offers special steel products; and highgrade chloride, as well as explores, develops, and produces oil. It also invests in coal and bauxite mining, import and export of commodities, electrolytic aluminum, and alumina smelting; and invests in and manages power plants. The company's New Consumption segment provides telecommunications services; and leases and sells satellite transponders. It also publishes books and digital books, as well as engages in bookstore retailing business. In addition, this segment deals and distributes with supporting services for automotive brands; and develops agricultural science and technology, as well as engages in the brand development, manufacturing, commodity trading, agency distribution, logistics, and retail in the food and fastmoving consumer goods, healthcare, and electrical products industries. The company's NewType Urbanisation segment provides environmental and infrastructure, contracting and design, healthcare, and general aviation services; and develops and invests in mixeduse and commercial properties, and residential properties. The company trades, rents, and operates real estate properties; wholesales equipment and furniture used in construction; and manages real estate properties. It also engages in the construction business. The company was formerly known as Dragon One Public Company Limited and changed its name to Country Group Development Public Company Limited in May 2010. Country Group Development Public Company Limited was incorporated in 1995 and is headquartered in Bangkok, Thailand.

728 Covestro AG supplies hightech polymer materials and related application solutions. It operates in two segments, Performance Materials, and Solutions & Specialties. The Performance Materials segment develops, produces, and supplies highperformance materials, such as polyurethanes and polycarbonates, and base chemicals, which include diphenylmethane diisocyanate (MDI), toluylene diisocyanate, longchain polyols, and polycarbonate resins for use in furniture and wood processing, construction, automotive, and transportation industries, as well as roof structures, insulation for buildings and refrigerators, mattresses, car seats, and other applications. The Solutions &

Specialties segment comprises a range of polymer products, including polycarbonates, precursors for coatings and adhesives, MDI specialties and polyols, thermoplastic polyurethanes, specialty films, and elastomers that are used in automotive and transportation, electrical, electronics and household appliances, construction, and healthcare industries, as well as composite resins for wind turbine rotor blades, laptop cases, and floodlights. The company markets its products through trading houses and distributors. It operates in Europe, the Middle East, Africa, Latin America, the United States, Canada, and the People's Republic of China. The company was founded in 1863 and is headquartered in Leverkusen, Germany.

729 Coway Co., Ltd. operates in the home wellness appliances industry in South Korea, the United States, Malaysia, China, Thailand, Indonesia, and Vietnam. It provides air purifiers, water purifiers, bidets, juicers, water softeners, and other home wellness appliances; and Internet of Things products and services to care for people's lives in a fundamental manner. The company is also involved in the provision of mattress rental and air conditioner disinfection cleaning services; and automatic matching services. In addition, it offers antiaging cosmetics under the Re:NK brand; fermented oriental herbal cosmetics under the Allvit brand; and functional healthy food under the Healthygru: brand. Further, the company provides water and sewage treatment, sewage and wastewater reuse, industrial water purification, and industrial wastewater treatment services; and rents water purifiers, bidets, etc. Coway Co., Ltd. was founded in 1989 and is headquartered in Seoul, South Korea.

730 COWELL FASHION Co.,Ltd manufactures and sells lifestyle products in South Korea and internationally. The company offers underwear, golf and sports apparel, and luxury products, as well as shoes. It provides its products through online and offline distribution channels. The company was founded in 2002 and is headquartered in Seongnam, South Korea. COWELL FASHION Co.,Ltd is a subsidiary of Dae Myung Chemical Co., Ltd.

731 CPFL Energia S.A., through its subsidiaries, generates, transmits, distributes, and commercializes electricity to residential, industrial, and commercial customers in Brazil. The company generates electricity through wind, biomass, solar, and hydroelectric power plants. As of December 31, 2021, the company distributed electricity to approximately 10.2 million customers; had 336,053 kilometers of distribution lines, which included 498,155 distribution transformers; and 565 transformer substations, from high to medium voltage, with total transformer capacity of 19,178 MVA. It also has an installed capacity of 4,385 megawatts. The company was founded in 1998 and is based in Campinas, Brazil. CPFL Energia S.A. is a subsidiary of State Grid Brazil Power Participações S.A.

732 CPMC Holdings Limited, an investment holding company, manufactures and sells packaging products for various consumer goods in the People's Republic of China. The company operates through Tinplate Packaging, Aluminum Packaging, and Plastic Packaging units. The Tinplate Packaging unit offers three-piece beverage cans; food cans, including milk powder cans; aerosol cans; metal caps; printed and coated tinplates; steel barrels; round and square shaped cans; and other metal packaging products. The Aluminum Packaging unit provides aluminum packaging products, such as two-piece beverage cans and one-piece bottles. The Plastic Packaging unit offers plastic packaging products for milk bottles, shampoo bottles, plastic devices of electronic products, daily use hardware, package printing, sports drink bottles, and related plastic-made products. In addition, the company offers packaging solutions, including packaging design, printing, logistics, and customer

services. CPMC Holdings Limited was incorporated in 2009 and is headquartered in Hangzhou, the People's Republic of China.

733 CPT Technology (Group) Co.,Ltd engages in the research and development, design, production, sale, and aftersales servicing of panel display components. It offers flat panel display devices, LCD, and liquid crystal modules and components. The company also provides glass products. Its products are used primarily in LCD TVs, notebook computers, monitors, smart phones, tablet PCs, car displays. The company was formerly known as Mindong Electric (Group) Co., Ltd., and changed its name to CPT Technology (Group) Co.,Ltd in January 2011. CPT Technology (Group) Co.,Ltd was founded in 1993 and is headquartered in Fuzhou, China.

734 CQV Co., Ltd. manufactures and sells pearlescent pigments worldwide. The company offers synthetic mica, natural mica, glass, and alumina pigments primarily under the Reflex, Reflex Natural, Reflex Color, Reflex Natural Color, Axion Color, Axion, Chaos, Multiorora, Ferrius, Kromax, Multiorora Axion, and Adamas brands for industrial use, as well as under the Automotive, Automotive Natural, Automotive Chaos, Automotive Axion, Automotive Kromax, Automotive Ferrius, and Adamas Exterior brands for automotive use. It also provides its products under the Cosmetics, Cosmetics Natural, Skolor, Skolor Natural, Skolor Glare, Glare, Soliens, Esorora, Esochroma, Hierro, Magchrom, Blondie, Econa S, Econa N, Esorora Glare, Spectra, Featheleve, Twinone, and Mirinae brands for cosmetic use. The company was formerly known as Sky Chemical Co., Ltd. and changed its name to CQV Co., Ltd. in March 2005. CQV Co., Ltd. was incorporated in 2000 and is based in Jincheoneup, South Korea.

735 Cre8 Direct (NingBo) Co., Ltd. designs, develops, produces, and sells paper based products. Its primary paper products include stationery, storage, office supplies, scrapbooking, paper crafting, party, D.I.Y., dated goods, card making, and childrens crafting. The company also produces journals, as well as paper based storage solutions. It serves retailers and large companies the United States, Japan, Australia, and Europe. The company was formerly known as Ningbo Chenglu Paper Products Manufacturing Co., Ltd. Cre8 Direct (NingBo) Co., Ltd. was founded in 2001 and is based in Ningbo, China.

736 Creas F&C Co.,Ltd provides golf wear and related supplies in South Korea. The company offers its products under the PING Golfwear, FANTOM SPORT, PEARLY GATES, MASTER BUNNY EDITION, St. ANDREWS, and GOKER brand names. Creas F&C Co.,Ltd was founded in 1998 and is based in Seoul, South Korea.

737 Creative & Innovative System Corporation manufactures and sells equipment for lithiumion batteries powering IT instruments, EV lithiumion batteries, fuel and solar cells, displays, etc. It offers electrode manufacturing equipment, such as coater, roll press, slitter, and tape laminators. The company was founded in 2002 and is headquartered in Daegu, South Korea.

738 Crescent Steel and Allied Products Limited, a conglomerate, engages in steel, cotton, investment and infrastructure development, and energy businesses primarily in Pakistan. Its Steel division manufactures large diameter spiral arc welded carbon steel pipes and applies pipeline coatings. This division also provides machinery fabrication services. The company's Investment and Infrastructure Development division manages a portfolio of equity investments and investment of properties. Its Cotton division produces carded cotton/synthetic yarn; carded compact cotton yarn; siro spun cotton yarn; and slub cotton yarn. The company also operates a bagasse fired thermal generation power plant; owns, builds, operates, and maintains a 100MW solar power project; a steel melt shop; and manufactures billet. Crescent Steel and Allied Products Limited was incorporated in 1983 and is headquartered in Karachi, Pakistan.

739 Creverse, Inc. engages in the education business in South Korea and internationally. It provides kindergarten and adult learning content services, as well as operates learning assessment centers. The company was formerly known as CHUNGDAHM Learning, Inc. and changed its name to Creverse, Inc. in March 2022. Creverse, Inc. was founded in 1998 and is based in Seoul, South Korea.

740 Crimson Wine Group, Ltd., through its subsidiaries, engages in the production and sale of wines. It operates through two segments, Wholesale and Direct to Consumer. It also sells bulk wines and grapes; provides custom winemaking; and offers other nonwine products, such as merchandise. It sells its products under the Pine Ridge Vineyards, Archery Summit, Chamisal Vineyards, Seghesio Family Vineyards, Double Canyon, Seven Hills Winery, and Malene Wines brand names. The company offers wines through wholesale distributor sales; retail channels, such as fine wine restaurants, hotels, specialty shops, supermarkets, and club stores; and directly to consumers, as well as through ecommerce sites and social media platforms in the United States and internationally. The company was formerly known as Leucadia Cellars, Ltd. and changed its name to Crimson Wine Group, Ltd. in November 2007. Crimson Wine Group, Ltd. was incorporated in 1991 and is headquartered in Napa, California.

741 Crown Point Energy Inc. explores for, develops, and produces petroleum and natural gas properties in Argentina. The company holds a 100% working interest in the Cerro de Los Leones concession located in the Neuqu n Basin, Argentina. It also holds interests in the Las Violetas, La Angostura, and Rio Cullen exploitation concessions in Tierra del Fuego; and Cha tares Herrados exploitation concession located in the Cuyano Basin. The company was formerly known as Crown Point Ventures Ltd. and changed its name to Crown Point Energy Inc. in July 2012. Crown Point Energy Inc. was incorporated in 1966 and is headquartered in Buenos Aires, Argentina. Crown Point Energy Inc. is a subsidiary of Liminar Energia S.A.

742 Cruzeiro do Sul Educacional S.A. provides education services in Brazil. It offers academic and professional education services, including elementary school, undergraduate, graduate, and extension courses in onsite and distance learning modalities through 14 higher education institutions and five basic education institutions. The company was founded in 1965 and is based in S o Paulo, Brazil.

743 Crystal Clear Electronic Material Co.,Ltd engages in the research and development, manufacturing, and sales of technological new materials in China. The company offers photoresist products for use in IC, TFT array, LED, Touch panel, advanced packaging, and other fields; ultrahigh purity reagents, such as H₂O₂, H₂SO₄, NH₄OH, NH₄F  HF, HNO₃, HCl, and C₄H₁₃NO; functional materials comprising developers, strippers, etching liquids, and cleaners; lithium battery materials, including modified and sodium carboxymethyl cellulose, conductive paste, P, silica materials, and electrolytes; and liquid SO₃, refine H₂SO₄, 104.5% and 105.6% smoke H₂SO₄, and industrial H₂SO₄. It also engages in the power generation, transmission, and supply business; investment management, asset management, venture capital, industrial investment, technology import and export, and import and export agency activities; and provision of marketing strategy, business information consulting, business management consulting, investment consulting, and market research services. The company was formerly known as Suzhou Crystal Clear Chemical Co.,Ltd. and changed its name to Crystal Clear Electronic Material Co., Ltd. in August 2021. Crystal Clear Electronic Material Co.,Ltd was founded in 2001 and is based in Suzhou, China.

744 CS Communication & Systemes SA designs, integrates, and operates mission critical systems worldwide. It offers surveillance and command

system, such as operation command and control, counterUAV system, perimeter security and maritime surveillance, geoinformation and image processing, and crisis management; and voice communication systems and tactical data links solutions. The company also provides cybersecurity, including consulting and expertise, integration, managed services, and cybersecurity products; safe industrial & embedded system comprising embedded systems, supervisory control system, and flight software; data intelligence; digitalization of industrial processes; and training and mission preparation, maintenance training, and training simulator solutions. It serves defense and homeland security, space, aerospace, transport, energy, industry, and finance and service sectors. The company is headquartered in Le PlessisRobinson, France.

745 CSC Holdings Limited, an investment holding company, trades in metal minerals, metals, coke products, and electronic components in Hong Kong and the People's Republic of China. It operates through Investment in Securities, Trading, Money lending, and Securities Brokerage segments. The company engages in trading iron ore, steel coils, and chrome ore, as well as electronic components, including LCD panels. It also invests in various securities, including listed equity shares, equity linked notes, equity convertible notes, and bonds. In addition, the company provides structured collateralized loans, and mortgage and personal loans; securities brokerage, margin financing, and placing and underwriting services; and management services. The company was formerly known as China Strategic Holdings Limited and changed its name to CSC Holdings Limited in November 2022. CSC Holdings Limited was incorporated in 1972 and is based in Wan Chai, Hong Kong.

746 CSD Water Service Co., Ltd. provides water services for small and medium-sized cities, industrial parks, and industrial customers in China. The company offers municipal wastewater treatment, sponge cities construction, and black and odorous water bodies' treatment services; handles sudden and potential surface water pollution accidents; and provides emergency services comprising rapid diagnosis of pollutants, traceability and control schemes of pollution sources, emergency expert group diagnostic services, water and sediment emergency services, and emergency safety reports. It also provides industrial park water environment management services, which include consulting services, sewage treatment plant operation services, and park environmental management services; and industrial enterprise sewage treatment services, as well as sludge treatment and disposal services. CSD Water Service Co., Ltd. is headquartered in Beijing, China.

747 CSH Alliance Berhad, an investment holding company, engages in the manufacturing, retail, trading, marketing, and exporting of pottery, porcelain products, and ceramics wares, and ornaments primarily in Malaysia, Europe, the United States, and internationally. The company operates through five segments: Ceramic, Construction and Property, Financial Services, Transportation and Logistics, and Others. It is also involved in the property investment, construction, development, and related businesses, as well as engages in the moneylending and hire purchase, and general trading activities. In addition, the company provides transportation and logistics services, including haulage and hub-to-hub delivery services; and information technology solutions and related services. Further, it is involved in marine construction and coastal reclamation works; styrofoam box and other packaging business; and sale and distribution of motor and electrical vehicles; as well as sales and trading of related spare parts and other related businesses. The company was formerly known as KTG Berhad and changed its name to CSH Alliance Berhad in September 2021. CSH Alliance Berhad was incorporated in 2000 and is headquartered in Subang Jaya, Malaysia.

748 CSI Compressco LP provides contract services for natural gas compression and treating in the United States, Latin America, Canada, Egypt, and internationally. The company offers natural gas compression services through low, medium, and highhorsepower compressor packages for oil and natural gas production, gathering, artificial lift, transmission, processing, and storage. It also provides treating services for natural gas producers and midstream companies, including providing equipment for lease or sale, equipment installation services, and the operation of equipment for removal of contaminants from a natural gas stream, and natural gas cooling to reduce the temperature of produced gas and liquids; well monitoring and sand separation services; and operation, maintenance, overhaul, and reconfiguration services for compression equipment. In addition, the company sells engine parts, compressor package parts, and other parts manufactured by thirdparty suppliers. CSI Compressco GP LLC serves as the general partner of CSI Compressco LP. The company was formerly known as Compressco Partners, L.P. and changed its name to CSI Compressco LP in December 2014. CSI Compressco LP was incorporated in 2008 and is headquartered in The Woodlands, Texas.

749 CSI Properties Limited, an investment holding company, engages in property development and investment activities in Hong Kong, the Peopleâ€™s Republic of China, and Macau. The company operates through four segments: Commercial Property Holding, Residential Property Holding, Macau Property Holding, and Securities Investment. The company was incorporated in 1991 and is headquartered in Central, Hong Kong.

750 CSW Industrials, Inc. operates as a diversified industrial company in the United States and internationally. It operates through three segments: Contractor Solutions, Engineered Building Solutions, and Specialized Reliability Solutions. The Contractor Solutions segment provides cements, diffusers, grilles, registers, solvents, thread sealants, traps, and vents for use in HVAC/R, plumbing, general industrial, architecturally, and specified building products. The Engineered Building Solutions segment offers architectural railings and associated services; fire and smoke protection solutions; and preengineered and custom architectural building components for use in architecturally specified building products. The Specialized Reliability Solutions segment provides compounds, lubricants, lubricant management products, and sealants; and contamination control, industrial maintenance and repair, and operations solutions for use in energy, general industrial, mining, and railing markets. The company was incorporated in 2014 and is headquartered in Dallas, Texas.

751 CT Vision S.L. (International) Holdings Limited, an investment holding company, engages in the building construction, renewable energy, ecommerce, building information modelling, and sale of piles businesses in Hong Kong, the Peopleâ€™s Republic of China, and Saipan. It undertakes foundation works, including minipiling, percussive piling, rock socketed in steel Hpile and bored pile, and construction of pile caps; and ancillary works, such as site formation and demolition. The company is also involved in various general building works comprising structural alteration and additional works, and development of superstructures, such as dwelling, office buildings, stores, public utility buildings, farm buildings, etc. In addition, it engages in engineering, procuring, and constructing electric power projects; leasing solar power systems; and the provision of procurement and related online and offline consultation services to ecommerce companies. The company was formerly known as CT

Vision (International) Holdings Limited and changed its name to CT Vision S.L. (International) Holdings Limited in March 2021. The company was founded in 1999 and is headquartered in Wan Chai, Hong Kong. CT Vision S.L. (International) Holdings Limited is a subsidiary of CT Vision Investment Limited.

752 CTEEP Companhia de Transmiss o de Energia El trica Paulista S.A. engages in the electric power transmission business in Brazil. As of December 31, 2021, it had a total installed transformation capacity of 71.7 thousand MVA together with transmission lines of 19 thousand kilometers; 26.1 thousand kilometers of circuits; and 131 substations. It operates in the states of Rio Grande do Sul, Santa Catarina, Paran , S o Paulo, Minas Gerais, Rond nia, Mato Grosso, Mato Grosso do Sul, Goi s, Tocantins, Maranh o, Piau , Para ba, Pernambuco, Alagoas, Esp rito Santo, and Bahia. The company was incorporated in 1999 and is headquartered in S o Paulo, Brazil.

753 CU Medical Systems, Inc. manufactures and sells defibrillators worldwide. The company offers automatic external defibrillators (AEDs), mechanical cardiopulmonary resuscitation systems, healthcare and rehabilitation products, AED trainers, and sterilizers/disinfectors. It also resells Apple products, including Mac, iPad, and iPod. The company was founded in 2001 and is headquartered in Wonju-si, South Korea.

754 Cube Entertain, Inc. engages in the album production and release activities in South Korea and internationally. It is involved in visual contents production, artist management, stage production, artist planning and marketing, and entertain marketing activities, as well as casting and developing artists and actors. The company was formerly known as Play Cube Co., Ltd. and changed its name to Cube Entertain, Inc. in 2011. Cube Entertain, Inc. was founded in 2006 and is headquartered in Seoul, South Korea.

755 Cubic Digital Technology Co., Ltd. manufactures and sells steel frame foamed cement composite boards in China. Its products include shaped plates, grid plates, light boards, slabs, industry wall boards, slabs, and composite core roof panel. Cubic Digital Technology Co., Ltd. was founded in 2000 and is based in Beijing, China.

756 Cuckoo Homesys Co., Ltd. engages in the manufacture, sale, and rental of household appliances. It sells and rents water purifiers, bidets, air purifiers, and water softeners. The company was founded in 2017 and is headquartered in Siheung, South Korea.

757 Cultural Investment Holdings Co., Ltd. engages in the film and television, and games businesses in China. The company is involved in the production and sales of film and television dramas; and film projection, theater distribution, and film promotion activities. It also engages in the planning consultation for the development of local cultural industries; cultural enterprise investment and IP resource introduction activities; operation and development of cultural industry parks; and cultural and entertain brokerage, artist brokerage, and model brokerage activities. The company was formerly known as Song Liao Automotive Co., Ltd. and changed its name to Cultural Investment Holdings Co., Ltd. in April 2016. Cultural Investment Holdings Co., Ltd. was founded in 1993 and is based in Shenyang, China.

758 Cumulus Media Inc., an audiofirst media company, owns and operates radio stations in the United States. It owns and operates 404 stations in 85 markets, as well as approximately 9,400 affiliated stations through Westwood One. solutions, website and microsite building, hosting, social media management, reputation management, and search engine marketing and optimization. The company serves advertisers through broadcast and ondemand digital, mobile, social, and voiceactivated platforms. Cumulus Media Inc. was founded in 2002 and is based in Atlanta, Georgia.

759 CUROHOLDINGS Co., Ltd. engages in the entertaint and coffee businesses in South Korea. The companyâ€™s entertaint business produces video contents, such as movies and dramas, as well as provides celebrity management, auxiliary performer supply agency, and other services. Its coffee business distributes coffee and coffee machines under the illy brand to hotels, cafes, and restaurants. The company was formerly known as SBTEK Co., Ltd. and changed its name to CUROHOLDINGS Co., Ltd. in March 2008. CUROHOLDINGS Co., Ltd. was founded in 1985 and is headquartered in Seoul, South Korea.

760 Curro Holdings Limited develops, acquires, and manages independent schools in South Africa, Namibia, and Botswana. The company operates through Curroa and Meridian segments. It operates Curro schools, Curro Select schools, Curro Academy, and Meridian schools that accommodate learners from grade R to grade 12, as well as from the age of 3 months to 5 years. The company also operates Curro Castle nursery schools; Assisted learning schools that offers academic intervention within a mainstream curriculum; Curro DigiEd schools, which provide elearning in classes and accommodates learners in grades 8 and 9; Curro online, an online learning program to learn from home; and Curro private colleges for nationally accredited qualifications. As of February 18, 2022, it operated 76 campuses with approximately 70,408 learners. The company was incorporated in 1998 and is based in Durbanville, South Africa. Curro Holdings Limited is a subsidiary of PSG Financial Services Ltd.

761 CurtissWright Corporation, together with its subsidiaries, provides engineered products, solutions, and services to the aerospace, defense, general industrial, and power generation markets worldwide. It operates through three segments: Aerospace & Industrial, Defense Electronics, and Naval & Power. The Aerospace & Industrial segment offers industrial and specialty vehicle products, such as electronic throttle control devices, joysticks, and transmission shifters; sensors, controls and electromechanical actuation components used in commercial and military aircraft; and surface technology services, including shot peening, laser peening, and coatings. The Defense Electronics segment provides commercial offtheshelf embedded computing boardlevel modules, data acquisition and flight test instrumentation equipment, integrated subsystems, instrumentation and control systems, and tactical communications solutions; turret aiming and stabilization products, and weapons handling systems; avionics and electronics; flight test equipment; and aircraft data management solutions. The Naval & Power segment offers hardware, pumps, pump seals, control rod drive mechanisms, valves, fastening systems, specialized contaient doors, airlock hatches, spent fuel management products, and fluid sealing products for nuclear power plants and nuclear equipment manufacturers; and naval propulsion and auxiliary equipment, including coolant pumps, powerdense compact motors, generators, steam turbines, valves, and secondary propulsion systems, as well as ship repair and maintenance services primarily to the U.S. navy. CurtissWright Corporation was founded in 1929 and is headquartered in Davidson, North Carolina.

762 Cvent Holding Corp. provides a cloudbased enterprise event marketing, management, and hospitality platform for marketers, meeting, and event planners in North America and internationally. It offers Event Cloud solutions consists of event marketing and management solutions that enables marketers and planners to maximize engagement and ROI from their

virtual impersonator or hybrid events. The company also provides Hospitality Cloud solutions provides hotels, venues, and destinations with online marketing solutions for marketing their events business to planners; and software solutions that automate the events sales cycle and enhancing collaboration with planners to design and manage events. In addition, it offers hospitality cloud online marketing solutions, which enables suppliers to advertise and market on venue sourcing networks, including CSN, SpeedRFP.com, and WeddingSpot.com; hospitality cloud software solutions, such as hotels, destinations, and venues software solutions to automate and enhance how they sell and execute events; and network effect. The company sells its platform primarily through a direct inside sales team. Cvent Holding Corp. was founded in 1999 and is headquartered in Tysons, Virginia.

763 Cybrid Technologies Inc. manufactures and sells thin film polymer functional materials in China. Its products include solar module backsheets, solar encapsulant films, insulation patches, repairing tapes, positioning tapes, C type high temperature products, single sided framing adhesive tapes, tapes for mobile graphite sheet heat dissipation, black shading PET doublesided tapes, protective films, tapes for speakers, dicing tapes, thin double side cotton tapes, insulation tapes, thermal conductive pads, electronic conductive tapes, and stiffener tapes. The company was founded in 2006 and is headquartered in Suzhou, China.

764 Cyfrowy Polsat S.A. provides digital satellite platform and terrestrial television (TV), and telecommunication services in Poland. The company offers satellite and Internet pay television, mobile and fixedline telephony, mobile and fixedline broadband Internet access, wholesale, and TV broadcasting and production services, as well as online content, news, and video sharing services. It offers approximately 150 TV channels, including terrestrial, general entertainment, sports and esports, music, lifestyle, news/information, children's, education, and movie channels; and over the top services, such as Cyfrowy Polsat GO, VOD/PPV, online video and music, catchup TV, and multiroom HD services. In addition, the company provides database of legal video content and live broadcasts; online TV channels; live coverages of sports events; and feature films, and TV series and programs. Further, it offers telecommunications, software, retail, radio and TV, media, call center and premium rate, technical, advertising, Web portals, monetary intermediation, sponsorship, broadcasting and signal transmission, premises and facilities leasing, and other financial services; produces broadcasting, television, and electronic equipment; produces, leases, and sells settop boxes; and sells licenses, sublicenses, and property rights, as well as STB hard disk drives, antennas, Internet modems, tablets, laptops, routers, TV sets, accessories, and other devices. The company was formerly known as Polsat Cyfrowy S.A. and changed its name to Cyfrowy Polsat S.A. in 2004. Cyfrowy Polsat S.A. was incorporated in 1996 and is headquartered in Warsaw, Poland.

765 Cypark Resources Berhad, an investment holding company, engages in the renewable energy, construction and engineering, greentech and environment, and waste management and wastetoenergy (WTE) businesses in Malaysia. It offers environmental engineering and integrated turnkey contract, management, and planning and design services; and specialist maintenance works on leachate treatment plants, biogas and biomass activities, and other related specialist or consultancy works. The company also provides landscape, project management, civil and structural works, and infrastructure development services; and environment and landscape maintenance services. In addition, it is involved in the solar business; and operation of waste management facilities. Cypark Resources Berhad was founded in 1999 and is based in Petaling Jaya, Malaysia.

766 D&C Media Co.,Ltd. publishes and distributes books and novels. It develops and supplies mobile games and ebook contents. The company was founded in 2012 and is headquartered in Seoul, South Korea.

767 DA Technology Co.,Ltd. provides manufacturing solutions for automated assembly of rechargeable batteries in South Korea and internationally. It also offers secondary battery and other equipment. The company was formerly known as Daesung FA System Co., Ltd. and changed its name to DA Technology Co.,Ltd. in July 2003. DA Technology Co.,Ltd. was founded in 1996 and is headquartered in Hwaseongsi,, South Korea.

768 Daehan Green Power Corporation engages in the bio diesel and bio heavy oil, solar and wind power generation, and fuel cell generation business in South Korea. The company was formerly known as Korea Renewable Power & Energy Corporation and changed its name to Daehan Green Power Corporation in August 2020. Daehan Green Power Corporation was founded in 1997 and is headquartered in Yeonggwangeup, South Korea.

769 Daejoo Electronic Materials Co., Ltd. develops and sells electronic materials in South Korea, China, Taiwan, the United States, Europe, and South East Asia. It offers high temperature type conductive pastes, including Pbfree resistor, chip component terminal electrode, chip component inner electrode, chip resistor electrode, metal glaze resistor, disc ceramic, and RF and microwave pastes; conductive pastes for drying type, gravure roll to roll type, medical electrode, and touch screen panel products; and conductive pastes for curing type designed for end termination electrodes of chip resistors and chip inductors, as well as conductive adhesives. The company also provides solar cell front Ag, rear Ag, and rear Al pastes; LED phosphor and phosphor in glass products; polymer materials, such as over glaze pastes for curing type applicable to chip resistors, insulation materials, and materials for LED; silicon based lithium ion battery anode materials; and metal powders, including silver powders, silver flakes, monodispersed silver powders, and precious metal powders. In addition, it offers glass materials comprising sealing glasses for low temperature type and laser sealing glasses, as well as glass materials for solar cell electrode pastes, electronic components, and LED applications; organic light emitting device materials; and graphene oxide and reduced graphene oxide products. The company was formerly known as Daejoo Fine Chemical Co., Ltd. and changed its name to Daejoo Electronic Materials Co., Ltd. in April 2003. The company was founded in 1981 and is headquartered in Siheungsi, South Korea.

770 Daemyung Sonoseason Co.,Ltd. provides daily comfort and life solutions. It offers mattresses, frames, and pillows under the SONO SEASON brand. The company also provides MRO services, such as B2B purchasing agency/purchasing comprehensive consulting for leisure, plant, golf, lodging, construction, food, etc. In addition, it operates retail distribution stores; gift shops; online shopping mall for kids; and 16 Good and Good Sono Hotel & Resort stores. Further, the company engages in the video performance investment business; and operates water parks and condominiums. The company was formerly known as Daemyung Corporation Co.,Ltd. and changed its name to Daemyung Sonoseason Co.,Ltd. in April 2020. Daemyung Sonoseason Co.,Ltd. was founded in 1972 and is headquartered in Hongcheoneup, South Korea.

771 Daesung Industrial Co., Ltd. engages in the retail sale and distribution of energy in South Korea. The company is involved in operating 40 petroleum stations and 15 LP gas filling stations; supplying various vehicle and industrial fuels, energy to heat houses, etc.; and heat absorption generating and oil field development activities. It also offers hydraulic and pneumatic pressure tools and appliances, geared motors, industrial robots, and industrial bearings; and computer systems,

and network construction and consulting. In addition, the company constructs apartment houses; and distributes food products, such as olive oil, honey, organic green tea and rice, coffee, baby food, sweet potato, etc. under the Nature's Food brand name. Daesung Industrial Co., Ltd. was founded in 1968 and is headquartered in Seoul, South Korea.

772 "Daewoo Engineering & Construction Co., Ltd. engages in construction business in South Korea and internationally. It constructs civil projects, including highways, roads and bridges, railways and subways, harbors and reclamation facilities, environmental projects, and leisure facilities; building works, such as office buildings, hotels and condominiums, commercial complexes, educational and medical facilities, and exhibition and sports centers; and plants comprising thermal power, cogeneration, tidal power, nuclear power plant, LNG storage, and other facilities. The company also constructs apartments, urban residential and commercial complexes, townhouses and villas, and studio apartments and urban lifestyle homes, as well as provides urban redevelopment, reconstruction, and remodeling services. Daewoo Engineering & Construction Co., Ltd. was founded in 1973 and is headquartered in Seoul, South Korea.

"

773 Daewoo Shipbuilding & Marine Engineering Co., Ltd. operates as a shipbuilding and offshore contractor in South Korea and internationally. The company offers commercial vessels, including tankers, container carriers, bulk carriers, ore carriers, liquefied natural gas (LNG) and liquefied petroleum gas carriers, LNG floating storage regasification units, roll-on/roll-off carriers, chemical carriers, product carriers, cruise ships, passenger ferries, and other vessels; specialty vessels comprising submarines, destroyers, battle ships, submarine rescue vessels, AUVs, and other specialty vessels; FLNG, fixed platforms, drilling rigs and drillships, and FPSO/FPU/FSOs for offshore oil and gas exploration and production; onshore plants, such as chemical plants, seawater treatment plants, and power plants; industrial facilities, including offloading facilities; and steel structures comprising steel bridges and steel cages. It is also involved in the research and development, manufacture, and sale of blocks, parts, and other related products; hatch covers, transverse bulkheads, side shells, LNGC trunk decks, cargo machinery rooms, lashing bridges, rudders, and other iron structures; and design, production, and installation of offshore/land plants, as well as other related businesses. In addition, the company manufactures and sells deck houses, engine casings, funnels, bow and stern blocks, living quarters, pontoon and columns, E & I buildings, modules, industrial machinery, environmental facilities, and iron and steel manufacturing facilities. Further, it offers IT consultation, system operation/establishment, maintenance, and training services, as well as supplies hardware/software products. The company was founded in 1973 and is headquartered in Geoje, South Korea. Daewoo Shipbuilding & Marine Engineering Co., Ltd. is a subsidiary of Korea Development Bank.

774 Daewoong Co., Ltd., together with its subsidiaries, manufactures and sells pharmaceuticals. It also engages in the leasing of real estates. The company was formerly known as Daewoong Pharmaceutical Co., Ltd. and changed its name to Daewoong Co., Ltd. in 2002. Daewoong Co., Ltd. was founded in 1961 and is headquartered in Seongnam-si, South Korea.

775 Dagang Holding Group Co., Ltd. engages in the research and development, manufacture, sale, and servicing of road construction and maintenance machineries and equipment in China. It offers pavement maintenance machines, including asphalt pavement maintenance trucks, pavement maintenance vehicles, binding agent spreaders, self-propelled road widening machines, crack sealing machines, asphalt crack sealing and

spraying machines, and asphalt pavement cold in-place recyclers. The company also provides asphalt distributors; synchronous chip sealers; and self-propelled, lift-type, and pull-type chip spreaders. In addition, it offers microsurfacing/slurry seal trucks and fiber microsurfacing/slurry seal trucks. Further, the company provides asphalt material production equipment, liquid asphalt truck series, and gravel sprinkling equipment. Additionally, it undertakes general contracting of housing construction and municipal infrastructure projects. The company offers pre-sales, sales, and after-sales services. It also exports its products. The company was founded in 2002 and is based in Xi'an, China.

776 Daido Group Limited, an investment holding company, provides cold storage and related services in the People's Republic of China and Hong Kong. The company operates through Cold Storage and Related Services; Trading of Food and Beverage; and Money Lending Services segments. It provides warehousing and logistics services, including storage, cold storage, freight, cargo delivery, towing, devanning and loading, packaging and repackaging, and related value-added services. The company also engages in food and beverage trading and distribution, including import, export, distribution, redistribution, and related value-added services. In addition, it operates Urban Mart, an online shopping platform for selling daily products; provides herbal tea under the Attitude Planet brand name; and money lending services. Daido Group Limited is headquartered in Kwai Chung, Hong Kong.

777 Daiwa Office Investment Corporation is a REIT focused on investment and management of office buildings in the Central 5 wards of Tokyo.

778 Dalian Friendship (Group) Co., Ltd. operates retail department stores in China. It also engages in the hotel management; and real estate development businesses. The company is headquartered in Dalian, China. Dalian Friendship (Group) Co., Ltd. operates as a subsidiary of Wuhan Development Investment Co., Ltd.

779 Dalian My Gym Education Technology Co., Ltd. provides education services to high school students, junior high school students, and senior elementary school students. The company offers early education services; scientific, systematic, and targeted training courses; professional test training and application services; and SAT, SSAT, TOEFL, and ACT training courses; and fun, music, and art classes, as well as series of thematic elective courses. It also provides sports, cognitive, language, and early social ability skills. The company was formerly known as Dalian Sunlight Machinery Co., Ltd. and changed its name to Dalian My Gym Education Technology Co., Ltd. in April 2019. Dalian My Gym Education Technology Co., Ltd. was founded in 1983 and is based in Beijing, China.

780 Dalian Sunasia Tourism Holding CO., LTD, together with its subsidiaries, operates theme parks in China. It engages in the construction and operation of aquariums, marine exploration artificial landscapes, amusement parks, marine life specimen exhibition halls, and ship model exhibition halls. It is also involved in the catering, commercial performances, aquatic wild animals' domestication and breeding, and national key protected wild animals domestication and breeding activities; and provision of information technology, animal feed sales, photography, and video services, as well as exhibition and display, conferences, marketing planning, advertising, etc. services. 781 Dalian Thermal Power Co., Ltd. engages in the generation of thermal power and heat in China. The company offers hot water for external

heating by burning coal raw materials in coalfired boilers. It also produces electricity, steam, and hightemperature water through power plants and heat source equipment. Dalian Thermal Power Co.,Ltd. was incorporated in 1993 and is based in Dalian, China.

782 Dan Hotels Ltd owns and operates a chain of hotels in Israel. It operates 19 hotels with a total of 4,050 rooms. The company also operates and manages five business lounges and a VIP lounge at Ben Gurion Airport; owns and manages commercial and apartments at "King David Towers" in Tel Aviv; and owns a third of the Panorama Mall commercial center in Haifa. In addition, it operates two vocational schools, which include hotel service and culinary schools; and provides catering services. The company was founded in 1947 and is based in Tel Aviv, Israel. Dan Hotels Ltd operates as a subsidiary of Federmann Enterprises Ltd.

783 Dangote Cement Plc, together with its subsidiaries, prepares, manufactures, distributes, and sells cement and related products in Nigeria. It operates in two segments, Nigeria and Pan Africa. The company is involved in manufacturing, bagging, grinding, distribution, and sale of cement; limestone mining; holding of other mining rights; selling and distribution of fuels; coal and power production activities; property investment activities; and manufacturing of ceramic products, as well as providing contracting services. It has operations in Cameroon, Congo, Ethiopia, Ghana, Senegal, Sierra Leone, South Africa, Tanzania, and Zambia. The company was formerly known as Obajana Cement Plc and changed its name to Dangote Cement Plc in July 2010. The company was founded in 1981 and is headquartered in Lagos, Nigeria. Dangote Cement Plc is a subsidiary of Dangote Industries Limited.

784 Dasheng Times Cultural Investment Co., Ltd. engages in the game development, education, and film and television investment and production activities in China. The company was formerly known as Baocheng Investment Co., Ltd. and changed its name to Dasheng Times Cultural Investment Co., Ltd. in June 2016. Dasheng Times Cultural Investment Co., Ltd. was founded in 1990 and is based in Shenzhen, China.

785 Datang International Power Generation Co., Ltd., together with its subsidiaries, engages in power generation and power plant development activities in the People's Republic of China. The company operates through Power and Heat Generation, Coal, and Other segments. It generates electricity through various sources, such as coalfired, thermal, hydro, wind, nuclear, and solar. As of December 31, 2021, the company managed an installed capacity of 68,770.03 MW. It also engages in heat supply; the import of power related fuel; coal mining and trading; silicon and aluminum smelting; production and sale of alumina; cargo shipping; sale of coal ash and integrated application of solid waste; power plant construction and operation; repair and testing of power equipment; research and development activities; and provision of power related technical services. The company was formerly known as Beijing Datang Power Generation Co., Ltd and changed its name to Datang International Power Generation Co., Ltd. in April 2004. The company was incorporated in 1994 and is based in Beijing, the People's Republic of China. Datang International Power Generation Co., Ltd. is a subsidiary of China Datang Corporation Limited.

786 Datronix Holdings Limited, an investment holding company, manufactures and trades in electronic components. The company designs, manufactures, and sells magnetics that are used in consumer electronics, data processing appliances, and other electronics systems for coupling, isolation, filtering, interfacing, and timing control applications. It offers standard and customized magnetic components for various products, including transformers, LAN filter modules, digital delay modules, inductors/chokes, and ASDL transformers; planar magnetics; magnetics for

aviation applications, hybrid network assemblies, power conversion, energy savings, medical devices/equipment, Internet equipment, and data acquisition/transmitter and signal conditioning; and magnetics components for DC/DC converters. The company also trades in electronic components; and holds properties. It serves telecommunications, communications, instrumentation, industrial equipment, computers and networking, Internet equipment, medical devices/equipment, and automotive markets. The company sells its products under the Datatronics brand name. It operates in the People's Republic of China, the United States, Vietnam, the European Union, and internationally. The company was incorporated in 2000 and is headquartered in North Point, Hong Kong. Datronix Holdings Limited is a subsidiary of Onboard Technology Limited.

787 Dawood Lawrencepur Limited, together with its subsidiaries, engages in trading and marketing renewable energy solutions, primarily wind and solar energy to the commercial and industrial consumers in Pakistan. It is also involved in the engineering, procurement, and construction of solar projects; and alternate energy business. The company was incorporated in 2004 and is headquartered in Karachi, Pakistan.

788 Daxin Materials Corporation provides engage in the research, development, production, and sale of LCD display and semiconductor related fine chemicals Taiwan. It offers semiconductor materials comprising laser release layers, temporary bonding adhesives, and photosensitive dielectrics; display materials, such as LCD, touch panel, and OLED/EPD materials; and anhydride monomers. The company was incorporated in 2006 and is headquartered in Taichung, Taiwan.

789 DB HiTek Co.,Ltd. operates as an system IC foundry company in South Korea. The company provides comprehensive foundry services; and designs and manufactures system ICs. It offers process technologies nodes ranging from 90 to 0.35um that enable the production of advanced ICs, such as power management ICs, display driver ICs, audio amplifiers, and sensors, which are deployed in mobile, drone, and medical devices, as well as automotive applications. The company's processing technologies include BCDMOS, analog CMOS, high voltage CMOS, mixed signal, CIS, flash, logic, and non volatile technologies. The company was formerly known as Dongbu HiTek Co., Ltd. and changed its name to DB HiTek Co.,Ltd. in November 2017. DB HiTek Co.,Ltd. was founded in 1997 and is based in Bucheon, South Korea.

790 De'Longhi S.p.A., together with its subsidiaries, manufactures and distributes coffee making products, food preparation and cooking machines, air conditioners and heaters, and home care products. The company provides its products primarily under the De'Longhi, Kenwood, Braun, Nespresso, Nutribullet, Magic Bullet, and Ariete brands. It has operation in Europe, the Middle East, India, Africa, the Asia/Pacific, and the Americas. The company is headquartered in Treviso, Italy. De'Longhi S.p.A. is a subsidiary of De Longhi Industrial S.A.

791 Deceuninck NV engages in the design, manufacture, recycling, and distribution of multimaterial window, door, and building solutions in Europe, North America, Turkey, and internationally. It offers PVC and aluminum windows and doors, as well as sliding doors; surfacemounted hightech window ventilation systems; roof finishing and cladding products; and terrace boards under the Twinson brand name. The company was founded in 1937 and is based in Gits, Belgium.

792 Defence Tech Holding Societa' Per Azioni provides solutions in the areas of cyber security, big data analytics, and big data intelligence in Italy. The company offers products and services to enhance the communications security of public and private organizations; and infologistics software systems for the military field. It also engages in the engineering activities, supply of components, obsolescence

management, refurbishing and modernization of systems; design of special components; and provision of design services, and physical integration and testing of transmission and communication systems in waveguide, radio frequency, fiber optic and copper, automation subsystems, access control, intrusion detection, and video surveillance. In addition, the company offers advanced systems, services, and products for defense, transportation, space, and cybersecurity sectors. Defence Tech Holding Societa' Per Azioni was founded in 2015 and is headquartered in Rome, Italy.

793 Del Monte Pacific Limited, an investment holding company, manufactures, processes, markets, and distributes food, beverages, and other related products in the Americas, the Asia Pacific, and Europe. The company is involved in growing, processing, and selling packaged fruit and vegetable products, including canned and fresh pineapples, and tropical mixed fruits, as well as canned beans, peaches, and corns; juices, juice drinks, and pineapple juice concentrates; fresh fruits; and tomatobased products, such as ketchup, tomato sauce, pasta sauce, recipe sauce, pizza sauce, pasta, broth, and condiments. It offers its products under the Del Monte, S&W, Today's, Contadina, and College Inn brand names. The company also produces and distributes private label food products, as well as offers UHP avocado and processed refrigerated fruit products; and provides administrative support and liaison services. In addition, it offers licensing, management, logistics, and marketing and support services, as well as holds real estate properties. The company was founded in 1886 and is based in Road Town, British Virgin Islands. Del Monte Pacific Limited is a subsidiary of NutriAsia Pacific Limited.

794 Delek Automotive Systems Ltd. imports and distributes cars and motorcycles in Israel. The company also operates technical training centers, garages, distribution centers for spare parts, and car supply centers. In addition, it offers insurance services for vehicles and car repair services. It operates through showrooms and subagencies, as well as operates approximately 60 service centers. The company was formerly known as Gal " Wisepiler and Karts Indsutiries Ltd. and changed its name to Delek Automotive Systems Ltd. in February 1994. Delek Automotive Systems Ltd. was founded in 1965 and is headquartered in Nir Tzvi, Israel.

795 Delek Group Ltd., an energy company, engages in the exploration, development, production, and marketing of oil and gas in Israel and internationally. The company operates through three segments: Energy in Israel, Foreign Energy, and Other Operations. It holds interests in the Tamar, Leviathan, and Aphrodite reservoirs in Cyprus; has rights to oil assets in the Gulf of Mexico and Canada, as well as oil and gas reserves in the North Sea off the coast of England; and owns production, treatment, and storage facilities. The company was founded in 1951 and is headquartered in Herzliya, Israel.

796 Delfi Limited, an investment holding company, manufactures, markets, distributes, and sells chocolate confectionery products in Indonesia, the Philippines, Malaysia, Singapore, and internationally. Its products include molded chocolates, dragees, enrobed wafers, biscuits, chocolate spreads, baking condiments, and beverages. The company also distributes a range of food, healthcare, and other consumer products, including agency brands; and provides management consulting and administrative services. It markets its products under the Delfi, SilverQueen, Van Houten, Ceres, TOP, Selamat, Goya, and Knick Knacks brand names through hypermarkets, supermarkets, wholesalers, and chain stores. The company was formerly known as Petra Foods Limited and changed its name to Delfi Limited in May 2016. The company was incorporated in 1984 and is based in Singapore.

797 Delong Composite Energy Group Co., Ltd. engages in the supply and distribution of natural gas through pipelines for households and industrial users in China. It also operates hotels; invests in, develops, and manages properties; and provides interior decoration services. The company was formerly known as Sichuan Datong Gas Development Co., Ltd. and changed its name to Delong Composite Energy Group Co., Ltd. in February 2022. Delong Composite Energy Group Co., Ltd. is headquartered in Chengdu, China.

798 Delta Electronics (Thailand) Public Company Limited, together with its subsidiaries, researches and develops, manufactures, and distributes electronic products. It operates through Power Electronics, Infrastructure, and Automation segments. It offers inductors, RF inductors, transformers, networking products, EMI filters, solenoids, current sensing resistors, and power modules; switching power supplies, standard power modules, and lighting ballasts and LED drivers; DC brushless fans and blowers, motors, thermal management products, cabinet thermal solutions, and indoor air quality and automotive fans; EV/HEV powertrain solutions and power electronics components comprise of onboard chargers and DC/DC converters; and display and visualization, mobile power, industrial power, and medical power products, as well as healthcare devices. The company also provides industrial automation products and solutions, including drives and power quality products, motion control solutions, control systems, robots, software systems, and manufacturing equipment, as well as field devices that include temperature controllers, machine vision systems, power meters, and smart and vision sensors. In addition, it offers building automation products comprising building management and control system, LED lighting, intelligent surveillance, and building energy management system products; telecom power systems, networking systems, and UPS and datacenter infrastructure solutions; and EV charging and energy storage systems, renewable energy, industrial battery charging, healthcare devices, industrial equipment, energy IoT, and display and visualization products. Further, the company rents properties. It operates in the United States, China, Germany, India, Ireland, Mexico, Singapore, Norway, Taiwan, the Netherlands, and internationally. Delta Electronics (Thailand) Public Company Limited was incorporated in 1988 and is based in Samut Prakan, Thailand.

799 Delta Electronics, Inc., together with its subsidiaries, provides power and thermal management solutions in Mainland China, the United States, Taiwan, Thailand, and internationally. It operates through Power Electronics, Automation, and Infrastructure segments. The Power Electronics segment offers inductors, transformers, networking products, EMI filters, solenoids, and current sensing resistors for use in portable devices, automotive electronics, and cloud computing, etc.; and switching power supplies, power modules, external and embedded power, industrial and medical power, and industrial battery charging products. This segment also provides DC brushless fans and blowers, motors, thermal management products, cabinet thermal solutions, indoor air quality solution, and automotive fans; and automotive electronics comprising EV/HEV powertrain solutions, onboard chargers, DC/DC converters, and traction inverters and motors. The Automation segment offers industrial automation products and solutions consisting of drives, motion control systems, industrial control and communication products, power quality improvement products, human machine interfaces, sensors, meters, and robot solutions; and information monitoring and management systems, such as SCADA and industrial EMS for smart manufacturing solutions. It also provides building automation solutions, which includes building energy management system, building management and control, LED lighting, video

surveillance, and UNOnext indoor air quality monitor technologies; and display and visualization products. The Infrastructure segment offers telecom power systems, networking systems, and uninterruptible power supplies and datacenter infrastructure products; and EV charging products, energy storage systems, renewable energy products, energy IoT, medium voltage drives, healthcare devices, and industrial and Xray equipment. Delta Electronics, Inc. was incorporated in 1971 and is headquartered in Taipei, Taiwan.

800 The Company was initially founded in March 2002 under the name of Tuffsan 89 Investment Holdings Proprietary. The Company made its first direct property investment with the acquisition of the Forum Building in Pretoria. With the management, expertise and dealmaking capabilities of the founding shareholders, further acquisitions followed, including NPA Cape Town building, 110 Hamilton building, SARS Kimberley building, Cooper House building, Tivoli building and SARS Springs building. Delta successfully listed on the JSE Limited on 2 November 2012. The portfolio at the time comprised on 20 properties valued at R2.1 billion and with a market capitalisation of R1.35 billion. Delta's portfolio as at 28 February 2018 comprises of 105 strategically located and high grade properties, valued at R11.5 billion and with a market capitalisation of around R4.3 billion.

801 DeNA Co., Ltd. develops and operates mobile and online services worldwide. The company operates through Game Business, Sports Business, Live Streaming Business, Healthcare Business, and New Businesses and Others segments. It operates Mobage, an entertainment platform; Yahoo! Mobage, which offers games for PC browsers; and AndApp, a platform that allows users to play mobile game apps on PC browsers under the same user account; Pococha, a social live streaming community; and IRIAM, an app which allows to livestream as an anime character. The company also operates SHOWROOM, a virtual stage where fans can watch their artists perform live while interacting with them in real time; MYCODE, a direct-to-consumer genetic testing service; kencom, which supports health insurance societies to manage their members' health data; Haretoke, a web service which provides support for millennial women; Caradamo that offers diet support; and ONSEI, an app that uses AI to check for changes in cognitive function. In addition, it operates MENKYO, which enables cognitive function test for elderly drivers seeking license renewal; SHINRIADAS, a cognitive functional test; MRITASEKI, a system that analyses brain DICOM images; Easiit, a brain performance app; and DENA SPORTS GROUP, Yokohama DeNA Baystars, Kawasaki Brave Thunders, S.C.SAGAMIHARA, and DeNA Athletics Elite sports teams. Further, the company operates Mobaoku, which allows users to manage their auction items and bids from mobile phones; Anyca, a mobile app for peer-to-peer car sharing; SOMPO DE NORU, a car leasing service; GO, a taxi dispatch app; DRIVE CHART, an accident reduction support service; Coopel, a cloud robotic process automation service; PLAYBACK 9, a NFT service; Easy Ride, a robovehicle mobility service; Manga Box, a weekly manga magazine app; and PICKFIVE, a NFT card game. The company was founded in 1999 and is headquartered in Tokyo, Japan.

802 Deoleo, S.A. engages in the production, transformation, and sale of vegetable oils, and other food and agricultural products in Spain, Italy, Northern Europe, North America, and internationally. The company offers olive oil; markets seed oils, table olives, vinegars, and sauces; purchases and sells, imports, exports, processes, prepares, and markets rice, and other food and agricultural products; and offers cogeneration power. It offers its products under the Azalea, Bertolli, Carapelli, Carbonell, Dolcemio, Elosol, Elosua, Figaro, Friol, Giglio Oro, happyday, Hojiblanca, KOIPE, KOIPE SOL, Louit, Lupi, Maya, SAN GIORGIO, SASSO, and

Sublime brands. Deoleo, S.A. was incorporated in 1955 and is headquartered in RivasVaciamadrid, Spain.

803 Deutsche Real Estate AG operates as a real estate investment corporation that invests in German real estates, both directly and indirectly. The principal activities of the group include expansion and optimization of its real estate portfolio, and the sale of individual properties. The real estate portfolio of the group includes 68 properties. The group invests primarily in retail, commercial, mixed commercial, and residential market segments. Deutsche Real Estate AG operates as a subsidiary of Summit Properties Limited.

804 Deutsche Telekom AG, together with its subsidiaries, provides integrated telecommunication services. The company operates through five segments: Germany, United States, Europe, Systems Solutions, and Group Development. It offers fixednetwork services, including voice and data communication services based on fixednetwork and broadband technology; and sells terminal equipment and other hardware products, as well as services to resellers. The company also provides mobile voice and data services to consumers and business customers; sells mobile devices and other hardware products; and sells mobile services to resellers and to companies that purchases and markets network services to third parties, such as mobile virtual network operators. In addition, it offers internet services; internetbased TV products and services; and information and communication technology systems for multinational corporations and public sector institutions with an infrastructure of data centers and networks under the TSystems brand, as well as call center services. Further, the company provides wireless communications services; and cloud services, digital solutions, security, and advisory solutions. The company has 248 million mobile customers and 22 million broadband customers, as well as 26 million fixednetwork lines. The company was incorporated in 1995 and is headquartered in Bonn, Germany.

805 Develia S.A., through its subsidiaries, buys, develops, rents, manages, and sells real estate properties in Poland. It undertakes the development of commercial and residential investment projects located in Warsaw, Wroclaw, KrakÅ³w, Katowice, Gdansk, and LÅ³dz. The company was formerly known as LC Corp S.A. and changed its name to Develia S.A. in September 2019. The company was incorporated in 2006 and is based in Wroclaw, Poland.

806 Devro plc, together with its subsidiaries, manufactures and supplies collagen casings primarily in the United Kingdom. It offers edible and nonedible collagen casings, films, and plastic casings for use in the production of a range of sausages and other meat products. The company sells its products to food manufacturers through distributors and agents. It also operates in Latin America, Russia and the East, the Middle East and Africa, South East Asia, China, North America, Continental Europe, Ireland, Japan, Australia, and New Zealand. Devro plc was incorporated in 1991 and is based in Chryston, the United Kingdom.

807 DFI Inc. designs, manufactures, and sells board and systemlevel products for embedded applications worldwide. It offers industrial motherboards; systemmodules, including mini and compact modules, basic and Qseven modules, carrier boards, and smart display modules; and industrial computers, including fanless, highperformance, medical computing, invehicle railway, and gaming embedded systems, as well as preconfigured systems and chassis and digital signage OPS/OPS+ computers. The company also provides industrial panel PCs and displays comprising fanless touch panel, highperformance touch panel, transportation touch panel, medical and industrial panel PCs, and displays, as well as bar type panel PCs and displays and industrial and touch displays. In addition, it provides OEM/ODM services; BIOS and operating system (OS)

customization services, and software customization services; and design manufacturing and reliable technical services. The company's products are used in industry automation, medical, gaming, transportation, energy, missioncritical, and intelligent retail industries. DFI Inc. was founded in 1981 and is based in New Taipei City, Taiwan.

808 DHC Software Co.,Ltd. provides software application, information technology, and computer information system integration services in China. It offers hospital digital information systems, medical insurance payment systems, smart health service platform, big data platform, commercial banking integration platform, supply chain finance platform, smart city super brain, intelligent logistics systems, budget management platform, etc. The company also provides various services, such as information system operation and maintenance, big data platform construction, big data exchange construction, cloud computing, network engineering, data center, data storage and disaster recovery, network and information security, building intelligence, video conferencing, and other services. In addition, it offers network software and hardware products, including network operation and maintenance, and network security products. The company was formerly known as Beijing Donghua Hechuang Digital Technology Co., Ltd. DHC Software Co.,Ltd. was founded in 2001 and is based in Beijing, China.

809 DHT Holdings, Inc., through its subsidiaries, owns and operates crude oil tankers primarily in Monaco, Singapore, and Norway. As of March 17, 2022, it had a fleet of 26 very large crude carriers with a capacity of 8,043,657 deadweight tons. The company was incorporated in 2005 and is headquartered in Hamilton, Bermuda.

810 Diagnósticos da América S.A. provides diagnostic tests and support services in Latin America. It offers medical and outpatient care services; and health management, medical assistance, and home paramedic and outpatient medical services, as well as operates hospitals. The company was formerly known as Laboratório Clínico Delboni Auriemo S.A. and changed its name to Diagnósticos da América S.A. in August 2000. The company was founded in 1966 and is headquartered in Barueri, Brazil.

811 Dialog Axiata PLC, together with its subsidiaries, provides communication and telecommunication infrastructure services to individuals and corporates in Sri Lanka. The company in through three segments: Mobile Operation, Fixed Telephony and Broadband Operation, and Television Operation. It offers communication services, such as mobile, fixed, broadband, and international gateway; telecommunication infrastructure services, including tower infrastructure and transmission; and media services comprising digital television services based on satellite, cable, and terrestrial media. The company also provides digital services, which include mobile and ecommerce; electronic payment services, such as mobile payment; digital health, education, navigation, enterprise, and financial; data center services; manpower services; and venture capital investment services, as well as hosted PABX, Internet data center, and converged ICT services. In addition, it offers data and backbone, fixed wireless and transmission infrastructure, television broadcasting, and directtohome satellite pay TV services; and operates approximately 129 standard definition and 10 high definition channels. Further, the company develops and operates electronic commerce infrastructure for the healthcare sector; and sells information technology enabled equipment. Additionally, it offers financing services, including acceptance of deposits, granting lease facilities, hire purchase, loan facilities, margin trading, cheque discounting, factoring, etc.; digital credit facilities; network development, operations, and maintenance services; and elearning products and services. The company was formerly known as Dialog Telekom PLC and changed its name to Dialog

Axiata PLC in July 2010. The company was incorporated in 1993 and is based in Colombo, Sri Lanka. Dialog Axiata PLC is a subsidiary of Axiata Investments (Labuan) Limited.

812 Dice Sport & Casual Wear manufactures and exports readymade garments. The company was founded in 1989 and is headquartered in Cairo, Egypt.

813 Diebold Nixdorf, Incorporated engages in the automating, digitizing, and transforming the way people bank and shop worldwide. It operates through two segments, Banking and Retail. The company offers cash recyclers and dispensers, intelligent deposit terminals, teller automation tools, and kiosk technologies, as well as physical security solutions; and frontend applications for consumer connection points and backend platforms that manage channel transactions, operations and integration, and facilitate omnichannel transactions, endpoint monitoring, remote asset management, customer marketing, merchandise management, and analytics. It also provides banking productrelated services comprising proactive monitoring and rapid resolution of incidents through remote service capabilities or an onsite visit; first and secondline maintenance, preventive maintenance, and ondemand services; managed and outsourcing services, such as business processes, solution management, upgrades, and transaction processing; and cash management services. In addition, the company offers DN Vynamic software suite to simplify and enhance the consumer experience; mobile point of sale and selfcheckout terminals; printers, scales, and mobile scanners; and banknote and coin processing systems. Additionally, it provides retail customerâ€™s productrelated services, such as ondemand and professional services; maintenance and availability services; implementation services; managed mobility services; monitoring and advanced analytics; and store lifecycle management services. The company was formerly known as Diebold, Incorporated and changed its name to Diebold Nixdorf, Incorporated in December 2016. Diebold Nixdorf, Incorporated was founded in 1859 and is headquartered in Hudson, Ohio.

814 Digi International Inc. provides business and missioncritical Internet of Things (IoT) products, services, and solutions in the United States and internationally. The company operates in two segments, IoT Products & Services and IoT Solutions. It offers cellular routers for missioncritical wireless connectivity; cellular modules to embed cellular communications abilities into the products to deploy and manage intelligent and secure cellular connected products; console servers to provide secure and remote access to network equipment in data centers and at edge locations; and radio frequency products, including embedded wireless modules, offtheshelf gateways, modems, and adapters under the Digi XBee brand. The company provides embedded system products under the Digi Connect, ConnectCore, and Rabbit brands; and infrastructure management products, comprising of serial servers, which offers serial porttoEthernet integration of devices into wired Ethernet networks; and universal serial bus solutions. In addition, it offers Digi Remote Manager and Lighthouse, a recurring revenue cloudbased service that provides a secure enviroent for customers to manage their connected device deployment and network devices; and SmartSense by Digi for monitoring wirelessly the temperature of food and other perishable or sensitive goods, monitor facilities or pharmacies by tracking the completion of operating tasks by employees, as well as quality control and incident management for food service, healthcare, and transportation/logistics industries. Further, the company provides professional services, such as site planning, implementation management, application development, and customer training; data plan subscriptions; and enhanced technical support services, as well as Digi Wireless Design

Services. Digi International Inc. was incorporated in 1985 and is headquartered in Hopkins, Minnesota.

815 DigiCAP Co., Ltd. provides digital content protection and rights management solutions. It offers security solutions, including Conditional Access System, a revenue security solution that allows broadcast reception only to authorized subscribers; Scrambler solution that encrypts digital broadcast contents; XCAS/iCAS, a downloadable conditional access solution that support and enables CAS module download and execution from the IPTV broadcast and digital cable broadcast interactive network; DRM, a solution that manages/protects digital contents throughout the digital content distribution process; and Smart Car Security solution for converged services that is linked across ServerMobileHeadUnit platform in the Phone Connectivity enviroent. The company also provides video on demand (VOD) solution for service providers to provide VOD service in various enviroents; Mobile IPTV solution that supports the use of data service, VOD, and broadcast; and streaming server solution that transmits VOD content and live channel to users. In addition, it big data analysis, smart remote controller, UI management server, PUSH system, software upgrade system, and UI/UX solutions; and UHD broadcast, MUX, signaling server, and ESG solutions. It is also involved in the design, construction, and operation of electrical engineering, industrial, and public lighting facilities, as well as heating networks; provision of collective catering engineering and energy renovation services; and technical management and optimization of energy installations. The company was founded in 1899 and is based in Strasbourg, France. Électricité de Strasbourg SociÉtÉ Anonyme is a subsidiary of EDF DÉveloppement Environnement SA.

907 Electricity Generating Public Company Limited, together with its subsidiaries, generates and sells electricity to government sector and industrial users primarily in Thailand, the Philippines, Australia, South Korea, Taiwan, the United States, Laos, and Indonesia. The company operates in two segments, Electricity Generation and Other Businesses. It generates electricity from various resources, such as natural gas, liquefied natural gas, coal, biomass, hydro, solar, wind, geothermal, and fuel cell. As of December 31, 2022, the company operated 31 domestic and overseas power plants with total capacity of 6,202 MW equity; operating power plants with a total capacity of 5,972 MW equity and projects under construction with total equity contracted capacity of 230 MW. It also provides operation, maintenance, engineering, and construction services to power plants, petrochemical plants, oil refineries, and other industries. The company was incorporated in 1992 and is headquartered in Bangkok, Thailand.

908 Electro Cable Egypt produces and sells power and telecommunication cables in Egypt. It offers enamelled copper wires; low, medium, and high voltage wires and cables; overhead transmission conductors; building wires; and telephone cables. The company also exports its products to Africa, Europe, and Arab countries. The company was founded in 1954 and is based in Cairo, Egypt.

909 Electro Dunas S.A.A. distributes and markets electricity in SouthMiddle region of Peru. The company also offers transformation centers; medium voltage lines; low voltage lines; transformations; and public lighting luminaires. The company was formerly known as Regional Public Electricity Service Sur Medio SAA Electro Sur Medio and changed its name to Electro Dunas S.A.A. in November 2009. Electro Dunas S.A.A. was founded in 1912 and is based in Ica, Peru.

910 Elektrociepłownia Bedzin S.A., through its subsidiaries, engages in the production and sale of electricity and heat in Poland. It operates through two segments, Energy Industry and Financial. The company produces electricity and heat through conventional sources; and steam and hot water. It also provides financial leasing and other financial services. The company was incorporated in 2001 and is based in Poznan, Poland.

911 Elementis plc operates as a specialty chemical company in the United Kingdom, North America, rest of Europe, and internationally. It operates through four segments: Personal Care, Coatings, Talc, and Chromium. The Personal Care segment produces and sells rheological modifiers and compounded products for antiperspirants/deodorants, bath and soap, color cosmetics, and hair and skin care products. The Coatings segment produces and sells rheological modifiers and additives for industrial finishes, architectural coatings, construction, adhesives and sealants, inks, colorant dispersions, and specialty applications; and bentonite and hectorite clays, as well as polymerbased additives used in drilling, simulation, and cementing applications. The Talc segment produces and supplies talc for use in plastics, paints and coatings, food and pharmaceuticals, ceramics, polyester putties, paper, and pulp sectors. The Chromium segment produces chromium chemicals, such as chromic oxide, chromic acid, chrome sulfate, sodium dichromate, and sodium sulfate for use in pigments, cosmetics, refractories, chrome metal production, metal and plastic finishing, wood treatment, leather tanning, trivalent metal finishing, coatings, and metal passivation, as well as for making detergents, glasses, papers, and starches. It also offers personal care products, waxes, additives and resins, organoclays, colourants, and other specialty additives. Elementis plc was founded in 1844 and is headquartered in London, the United Kingdom.

912 Elia Group SA/NV operates a transmission system operator for the electricity network in Belgium and internationally. It provides electricity transmission services; transmits electricity from generators; imports and exports electricity; and offers consultancy and engineering services. The company primarily serves electricity generators, distribution system operators, and industrial consumers. It operates 18,990 kilometers of highvoltage connections. Elia Group SA/NV is headquartered in Brussels, Belgium.

913 Elion Energy Company Limited manufactures and distributes chemical products in China. It offers polyvinyl chloride, caustic soda, ethylene glycol, methanol, compound fertilizer, etc. that are used in chemical, light, building material, agriculture, medicine, and other industries. The company also focuses on clean energy and enviroental protection businesses. Elion Energy Company Limited is based in Beijing, China.

914 Elisa Oyj provides telecommunications services in Finland, rest of Europe, and internationally. It operates in two segments, Consumer Customers and Corporate Customers. The company offers telecommunications and communications services, such as fixed and mobile subscription, digital, cabletv subscription, entertaient, and ereading services, as well as video conferencing services. It also provides solutions for automation of network management and operation for mobile operators; IoT solutions for industries; and ICT and online services. The company serves

consumers, corporates, and public administration organizations. Elisa Oyj was founded in 1882 and is headquartered in Helsinki, Finland.

915 Elkem ASA manufactures and sells metals and materials in Norway, the United Kingdom, Germany, France, Italy, Poland, Spain, the Netherlands, and other European countries. It operates through three segments: Silicones, Silicon Products, and Carbon Solutions. The Silicones segment produces and sells various silicone-based products across various subsectors, including release coatings, engineering elastomers, healthcare products, specialty fluids, emulsions, and resins. The Silicon Products segment produces various grades of metallurgical silicon, ferrosilicon, foundry alloys, and micro silica for use in various end applications. The Carbon Solutions segment produces carbon electrode materials, lining materials, and specialty carbon products for metallurgical processes to produce various metals. Elkem ASA also engages in the generation and sale of hydroelectric power, as well as supplies heat in the form of steam and hot water. The company was incorporated in 1904 and is headquartered in Oslo, Norway. Elkem ASA is a subsidiary of Bluestar Elkem International Co., Ltd. S.A.

916 Ellaktor S.A., through its subsidiaries, engages in the construction and quarrying, wind energy, concession, environment, and real estate development businesses in Greece, other European countries, Gulf countries, the Americas, and Australia. The company operates through five segments: Construction, Concessions, Renewable Energy Sources (RES), Environment, and Real estate Development. It constructs bridges, motorways, metro projects, biological treatment plants, natural gas pipelines, refineries, shopping centers, casinos, tourist and hotel units, cultural centers, hospitals, airports, Olympic and athletic complexes, railway projects, tunnels, dams, port projects, energy production stations, electromechanical projects, etc.; and logistics, office, residential, industrial, and educational buildings. The company is also involved in the waste management and energy production, which include design, construction, and operation of waste treatment plant, as well as offers alternative fuel production and biomass exploitation projects. In addition, it develops, constructs, and operates wind farms; provides real estate development and services, which consists of retail parks, entertainment centers, residential complexes, exhibition centers, and offices and mixed use buildings, as well as offers consultancy and services to third parties. The company was formerly known as ELLINIKI TECHNODOMIKI TEB SA and changed its name to Ellaktor S.A. in 2008. The company is headquartered in Athens, Greece.

917 Elos Medtech AB (publ) engages in the development and contract manufacturing of medical devices and components for dental, orthopedics, diagnostics, and hearing and other medical device markets. It offers implants, screws, plates, orthopedic and dental instruments, drills, pins and wires, dental prosthetics, disposable plastic products, and HPLC fittings, as well as other medical plastic parts. The company also provides design and development, regulatory, prototyping, testing, OEM, process validation, and supply and inventory management, as well as design for manufacturing and engineering services. It has operations in Sweden, Denmark, China, and the United States. The company was formerly known as Elos AB (publ) and changed its name to Elos Medtech AB (publ) in April 2015. Elos Medtech AB (publ) was incorporated in 1923 and is headquartered in Gothenburg, Sweden.

918 ELP Corporation engages in the manufacture and sale of AMOLED and LCD inspection and testing equipment in South Korea. Its products include AMOLED panel aging systems, inspection systems, test jigs, contactors, and PG products; AMOLED/LCD module aging systems, inspection systems, and

PG products; and display test systems and signal generators. The company was founded in 1999 and is headquartered in Hwaseong, South Korea.

919 Embotelladora Andina S.A., together with its subsidiaries, produces, markets, and distributes CocaCola trademark beverages in Chile, Brazil, Argentina, and Paraguay. It offers fruit juices, other fruitflavored beverages, sport drinks, flavored waters, and mineral and purified water; hard seltzers; polyethylene terephthalate (PET) bottles and preforms, returnable PET bottles, cases, and plastic caps; ice tea and mate beverages, as well as sells and distributes lactose free dairy products; and seedbased beverages. The company also distributes energy drinks, wine, cider, and spirits; ice cream and other frozen products under the Guallarauco brand; and beer under the Bavaria, Kaiser, Sol, Therez³polis, Estrella Gal³-cia, Tiger, and Eisenbahn brands. It offers its products primarily through small retailers, restaurants and bars, supermarkets, and distributors. Embotelladora Andina S.A. was incorporated in 1946 and is headquartered in Santiago, Chile.

920 Embracer Group AB (publ), together with its subsidiaries, develops and publishes PC, console, mobile, VR, and board games for the games market worldwide. The company has a catalogue of approximately 850 owned franchises, such as Saints Row, Goat Simulator, Dead Island, Darksidars, Metro, MX vs ATV, Kingdoms of Amalur, TimeSplitters, Satisfactory, Wreckfest, Insurgency, World War Z, and Borderlands, and others. It also publishes films and comics. It distributes games through retailers and digital distributors. The company was formerly known as THQ Nordic AB (publ) and changed its name to Embracer Group AB (publ) in October 2019. Embracer Group AB (publ) was incorporated in 1999 and is headquartered in Karlstad, Sweden.

921 EMC Instytut Medyczny SA owns hospitals and outpatient clinics in Poland. The company offers private medical care, specialist consultations, primary health care, outpatient rehabilitation, and longterm care services. It is also involved in research and development activities in the field of medical sciences and pharmacy. The company was founded in 2001 and is based in Wroclaw, Poland.

922 EMnI Co., Ltd. manufactures and sells automotive parts, plastic injections, and molds. It also engages in the liquid hazard and chemical carrier businesses. The company was formerly known as KJ Pretech Co., Ltd. EMnI Co., Ltd. was founded in 1994 and is headquartered in Yongin, South Korea.

923 Emova Group SA operates as a retail flower distribution company. It operates a network of own shops and franchise stores under the Monceau Fleurs, Coeur de Fleurs, and Au Nom de la Rose brands primarily in France. The company also offers decorative plants. The company was formerly known as Groupe Monceau Fleurs S.A. and changed its name to Emova Group SA in April 2015. The company was founded in 1965 and is based in IssyLesMoulineaux, France.

924 Emperor Entertaient Hotel Limited, an investment holding company, provides entertaient and hospitality services in Macau and Hong Kong. The company operates in Gaming and Hotel segments. It operates Grand Emperor Hotel located in Macau Peninsula; and the Inn Hotel Macau located at Taipa Island, Macau. The company also operates Emperor Hotel in Wan Chai; and the Unit Serviced Apartments and MORI MORI Serviced Apartments in Hong Kong. In addition, it provides travel agency and project financing services; catering services; and gamingrelated marketing, public relation, and promotion services, as well as agency services for gaming operation. The company was formerly known as Emperor (China Concept) Investments Ltd. and changed its name to Emperor Entertaient Hotel Limited in January 2005. The company is headquartered in Wan Chai, Hong

Kong. Emperor Entertaient Hotel Limited is a subsidiary of Emperor Entertaient Hotel Holdings Limited.

925 Empresa Constructora Moller y PÃ©rez Cotapos S.A. operates as a construction and real estate company in Chile. It develops house and apartment properties for mediumhigh segment; and constructs hospitals and clinics for third parties. The company was founded in 1961 and is based in Providencia, Chile. Empresa Constructora Moller y PÃ©rez Cotapos S.A. is a subsidiary of Inversiones 957 Spa.

926 Empresa Distribuidora y Comercializadora Norte Sociedad AnÃ³nima engages in the distribution and sale of electricity in Argentina. The company was incorporated in 1992 and is based in Buenos Aires, Argentina. Empresa Distribuidora y Comercializadora Norte Sociedad AnÃ³nima is a subsidiary of Empresa de EnergÃ­a del Cono Sur S.A.

927 Empresa Nacional de Telecomunicaciones S.A. operates as a telecommunications company in Chile and Peru. The company provides mobile phone services; and fixed network operations, including data, IT integration, internet, and local and long distance phone services. It also offers postpaid, prepaid, international roaming, and mobile internet services; carrier billing; wireless and fiber phone, internet, and television services; fixed and mobile international longdistance carrier services; smartphones, speakers, headphones, tripods, etc.; and financial and insurance services, including Entel visa cards, and handsets/travel/car insurances. In addition, the company provides multimedia and mobile broadband plans, and roaming services; wireless, local managed network, fixed telephony + internet, business pack, virtual platform, trunk IP, international long distance, data, firewall, and fixed wireless broadband services; cloud infrastructure, Entel secure cloud, and Azure services; cybersecurity solutions; various applications, such as office 365, G suite, mobile device management, and Facturanet; Internet of Things solutions, including fleet management and M2M connectivity; and data center solutions comprising housing, dedicated server, digital market, video analytics, and server hosting. Further, it leases fixed and mobile network infrastructure and services to national and international telecommunications operators; and offers call center services. It primarily operates through a network of suppliers, Contractors, and distributors under the Entel name. The company was incorporated in 1964 and is headquartered in Santiago, Chile. Empresa Nacional de Telecomunicaciones S.A. is a subsidiary of Inversiones Altel Ltda.

928 Empresa SiderÃ³rgica del PerÃ³ S.A.A. produces and sells steel products in Peru and internationally. It serves civil construction, industrial, and mining companies. The company was incorporated in 1971 and is based in San Isidro, Peru. Empresa SiderÃ³rgica del PerÃ³ S.A.A. operates as a subsidiary of Gerdau S.A.

929 Empresas AquaChile S.A. produces and distributes aquaculture products in Chile and internationally. It offers Atlantic and Coho salmon, Sea trout, Verlasso, and Tilapia products. The company owns 195 aquaculture concessions covering an area of 2,482.64.68 hectares. It also operates stores in Santiago, Puerto Montt, AysÃ©n, Antofagastia, Magallanes, Puerto Varas, and Pucon. The company was founded in 1979 and is based in Puerto Montt, Chile. Empresas AquaChile S.A. is a subsidiary of AGROSUPER S.A.

930 Empresas Gasco S.A. provides energy solutions based primarily based on gas in Chile and internationally. It distributes and commercializes liquefied gas and liquefied natural gas to residential, commercial, industrial, and real estate customers; distributes natural gas under the concession regime, as well as compressed natural gas; and develops gas

power generation projects. The company was founded in 1856 and is based in Santiago, Chile.

931 Empresas La Polar S.A. operates a chain of department stores. It operates through Retail and Financial Services segments. The company's department stores provide clothing products, electrical appliances, home furniture, electronic items, personal computers, and others. It also engages in the provision of financial services through the issuance and administration of credit cards for financing in La Polar stores and related businesses; intermediation of insurance policies; and insurance brokerage business. The company sells its products through a network of 40 stores, as well as online. Empresas La Polar S.A. was founded in 1920 and is based in Santiago, Chile.

932 En+ Group International public jointstock company, together with its subsidiaries, engages in the aluminum production and energy generation businesses worldwide. It operates in two segments, Metals and Power. The Metals segment engages in mining and refining of bauxite and nepheline ore into alumina; smelting of primary aluminum from alumina; and fabrication of aluminum and aluminum alloys into semifabricated and finished products. The Power segment is involved in the electric power generation, transmission, trading, and distribution activities, as well as coal production and supply. It also engages in the silicon production, and repair and maintenance activities; and provision of engineering, management, and financial services. The company was formerly known as En+ Group plc and changed its name to En+ Group International public jointstock company in July 2019. En+ Group International public jointstock company was founded in 2002 and is based in Kaliningrad, Russia

933 Enagás, S.A. develops, operates, and maintains gas infrastructures in Spain and internationally. It operates through Gas Transmission, Regasification, and Storage of Gas segments. The company provides gas transmission services through primary and secondary transmission pipelines; and natural gas regasification services, as well as operates underground storage facilities. It is also involved in the operation and technical management of the basic network and secondary transportation network for natural gas. In addition, the company engages in the financial management activities; development of industrial projects and activities relating to LNG terminals, and hydrogen production and transport infrastructures; development and implementation of facilities for the supply of natural gas as fuel for vehicles, including its design, construction, and maintenance; and provision of commercial services for the purpose of enhancing the daily operational management of gas shippers. Further, it is involved in the development and integrated management of energy projects to produce renewable gases from organic matter; development of projects to promote the role of renewable gases in the energy transition; and production of solar energy. Enagás, S.A. was incorporated in 1972 and is headquartered in Madrid, Spain.

934 EnBW Energie Baden-Württemberg AG operates as an integrated energy company in Germany, rest of Europe, and internationally. It operates through three segments: Smart Infrastructure for Customers, System-Critical Infrastructure, and Sustainable Generation Infrastructure. The company sells electricity and gas; provides energy industry services; and provides energy supply and energy solutions. It also transmits and distributes grids for electricity and gas; offers grid-related services; and supplies water, as well as engages in the provision and expansion of quick charging infrastructure and digital solutions for electromobility; and broadband activities in the telecommunications sector. In addition, the company generates power from renewable energy sources consisting of solar, wind, hydropower, biomass, coal, and geothermal energy power

plants. Further, it operates and dismantles nuclear power plants; stores gas; provides system services and waste management/environmental services; and engages in the project development, project planning, construction, and economic operation of power plants based on renewable energies. Additionally, the company is also involved in the electricity and gas trading, gas midstream, and district heating businesses; and direct distribution of renewable energy power plants. It supplies energy solutions and energy industry services to approximately 5.5 million customers. It primarily operates under the EnBW, Yello, GVS, Erdgas Südwest, ODR, ZEAG, NaturEnergie, Praeschk; energetika, Stadtwerke Düsseldorf, VNG, and goldgas brands. The company serves retail customers, small commercial enterprises, the housing industry and agriculture industries, and industrial customers, as well as redistributors, municipal utilities, local authorities, and public entities. EnBW Energie Baden-Württemberg AG was founded in 1997 and is based in Karlsruhe, Germany.

935 ENCE Energía y Celulosa, S.A., together with its subsidiaries, produces and sells eucalyptus pulp and renewable energy in Spain, Germany, Poland, Italy, France, the United Kingdom, Turkey, Sweden, Romania, Netherlands, Austria, and internationally. It offers bleached eucalyptus kraft pulp; and forest land management and forestry services, as well as produces renewable energy using forestry and agricultural biomass sources. The company also purchases and sells timber. It manages 61,631 hectares of forest. The company was formerly known as Grupo Empresarial ENCE, S.A. and changed its name to ENCE Energía y Celulosa, S.A. in April 2012. ENCE Energía y Celulosa, S.A. was founded in 1957 and is headquartered in Madrid, Spain.

936 Encorp Berhad, an investment holding company, engages in the property development business in Malaysia. The company operates through six segments: Investment Holding and the Provision of Management Services, Concessionaire, Construction Management, Property Development, Investment Property, and Others. It develops and sells residential and commercial properties. The company is also involved in the property investment; property and construction project management; general trading; trading of building materials; and facilities management, and food and beverage operations, as well as general management support services. In addition, it operates as a concessionaire to build and transfer teachers' quarters to the Government of Malaysia. The company was incorporated in 2000 and is based in Petaling Jaya, Malaysia. Encorp Berhad is a subsidiary of Felda Investment Corporation Sdn Bhd.

937 Endesa, S.A. engages in the generation, distribution, and sale of electricity in Spain, Portugal, France, Germany, Morocco, Italy, the United Kingdom, Holland, and internationally. The company generates electricity from various energy sources, such as hydroelectric, nuclear, thermal, wind, and solar. As of December 31, 2022, it had an installed capacity of 22,044 MW in Spain; operates 317,829 km of distribution and transmission networks; and distributes electricity to 10,545 thousands customers and gas to 1,799 thousands customers. The company also offers advisory services and technology relating to energy efficiency, distributed generation, and energy demand management; deploys structures for recharging electric vehicles, vehicle to grid, and second life services for batteries; develops integrated services for local administrations, such as public lighting, smart city development, energy efficiency services, and solutions for connectivity; and provides energy producers with financial solutions. The company was formerly known as Empresa Nacional de Electricidad, S.A. and changed its name to Endesa, S.A. in June 1997. The company was incorporated in 1944 and is headquartered in Madrid, Spain. Endesa, S.A. is a subsidiary of ENEL Iberia, S.L.U.

938 Endor AG develops and markets input devices in Germany. The company provides highend steering wheels and pedals for racing simulations on game consoles and PCs, as well as driving school simulators. It sells its products under the Fanatec brand primarily in Europe, the United States, Canada, Australia, and Japan through ecommerce channel and distribution partners. Endor AG was founded in 1997 and is based in Landshut, Germany.

939 Eneco Energy Limited, an investment holding company, provides logistics services in Singapore and Indonesia. The company offers logistics services, including inbound and outbound transportation, distribution management, and seaport and airport cargo handling, as well as warehousing services. It also explores for and produces oil and gas. The company was formerly known as Ramba Energy Limited and changed its name to Eneco Energy Limited in March 2019. Eneco Energy Limited was founded in 1992 and is based in Singapore.

940 Enel Am ricas S.A., together with its subsidiaries, generates and distributes electricity in Argentina, Brazil, Colombia, Costa Rica, Guatemala, Panama, and Peru. As of December 31, 2021, it had 15,926 megawatts of installed generation capacity and 26.2 million distribution customers. The company was formerly known as Enersis Am ricas S.A. and changed its name to Enel Am ricas S.A. in December 2016. Enel Am ricas S.A. was founded in 1889 and is headquartered in Santiago, Chile. Enel Am ricas S.A. operates as a subsidiary of Enel S.p.A.

941 Enel Chile S.A., an electricity utility company, engages in the generation, transmission, and distribution of electricity in Chile. The company operates through Generation Business and Distribution Business segments. It generates electricity through various sources, such as hydroelectric, thermal, wind, solar, and geothermal power plants. As of December 31, 2021, it had 8,054 megawatts of gross installed capacity, as well as distributed electricity to approximately 2.0 million customers with 2,105 square kilometers of transmission lines in 33 municipalities of the Santiago metropolitan region. The company also engages in the sale and transportation of natural gas; and provision of construction works, engineering, and consulting services. It serves residential, commercial, industrial, goverental, and other customers. The company was formerly known as Enersis Chile S.A. and changed its name to Enel Chile S.A. in October 2016. The company was incorporated in 2016 and is headquartered in Santiago, Chile. Enel Chile S.A. is a subsidiary of Enel S.p.A.

942 Enel Distribucion Chile S.A. distributes electricity to homes, industries, and businesses in Chile. It distributes electricity to approximately 1.9 million customers in 33 districts with a concession area of approximately 2,105 square kilometers in the Santiago metropolitan region. The company was formerly known as Chilectra S.A. and changed its name to Enel Distribucion Chile S.A. in October 2016. Enel Distribucion Chile S.A. was incorporated in 1996 and is based in Santiago, Chile. Enel Distribucion Chile S.A. operates as a subsidiary of Enel Chile S.A.

943 Enel Generaci n Chile S.A. engages in the generation, transmission, and distribution of electricity in Chile. The company generates electricity through hydro, thermal, and wind power sources. As of December 31, 2021, it had 6,000 megawatts of installed capacity and 109 generation units. It supplies electricity to distribution, unregulated, and other generation companies. The company was formerly known as Empresa Nacional de Electricidad S.A. and changed its name to Enel Generaci n Chile S.A. in November 2016. The company was incorporated in 1943 and is headquartered in Santiago, Chile. Enel Generaci n Chile S.A. is a subsidiary of Enel Chile S.A.

944 Enel Generaci n Costanera S.A. generates, transports, distributes, and commercializes electrical energy in Argentina. It owns and operates

six conventional turbo units with an installed capacity of 1,131 MW of power. The company is involved in engineering, consultancy, and management services for operation of power plants. Enel Generación Costanera S.A. was founded in 1992 and is based in Buenos Aires, Argentina. The company operates as a subsidiary of Enel Argentina S.A.

945 Enel Generación Peru S.A.A. generates and sells electricity in Peru. It operates 5 hydroelectric plants with a total capacity of 599.72 MW located in the basins of the Santa Eulalia and Rimac Rivers, Lima; two hydroelectric plants with a total capacity of 195.46 MW located in the department of Junín; and two thermoelectric generation plants with a total capacity of 412.1 MW located in the Cercado de Lima and 469.37 MW located in Ventanilla. The company was formerly known as Edegel S.A.A. and changed its name to Enel Generación Peru S.A.A. in October 2016. The company was founded in 1906 and is based in Lima, Peru. Enel Generación Peru S.A.A. is a subsidiary of Enel Perú S.A.C.

946 Enel Generación Piura S.A. produces and sells electricity in Peru. The company generates electricity from hydro, solar, and thermal resources. It also engages in natural gas business. The company was formerly known as Empresa Eléctrica de Piura S.A. and changed its name to Enel Generación Piura S.A. in October 2016. The company was incorporated in 1995 and is based in Lima, Peru. Enel Generación Piura S.A. operates as a subsidiary of Enel Perú S.A.C.

947 Enento Group Oyj, through its subsidiaries, provides digital business and consumer information services in the Nordic countries. The company's products and services are primarily used for risk management, finance and administration, and decision-making purposes; and to help consumers to understand and manage their finances, as well as protect them from identity theft and fraud. It also offers real estate and apartment information, information about buildings and their valuation, and compliance services to identify companies' beneficial owners and politically exposed persons, as well as solutions that help customers to automate their collateral management processes and digitalize the administration of housing purchases. In addition, the company provides enterprise solutions; premium solutions, which offers business information services for the needs of SMEs; and freemium solutions that develop freemium model business information websites. It serves finance, banking, e-commerce, and oil and energy sectors. The company was formerly known as Asiakastieto Group Oyj and changed its name to Enento Group Oyj in June 2020. Enento Group Oyj was founded in 1905 and is headquartered in Helsinki, Finland.

948 Energa SA, together with its subsidiaries, generates, distributes, trades in, and sells electricity and heat in Poland. It operates through Distribution, Generation, and Sales segments. The company generates electricity through hydropower, wind, biomass, and photovoltaic power plants. As of December 31, 2021, it had total installed generation capacity of approximately 1.4 gigawatt of electrical power, as well as 193 thousand kilometers of power lines. The company serves approximately 3.2 million customers. It also provides contracting and design, lighting, financing, repair and maintenance, logistics and supply, and property management services, as well as accounting, payroll, administrative, and security services; and information and communication technologies. The company was founded in 2006 and is headquartered in Gdansk, Poland. Energa SA is a subsidiary of Polski Koncern Naftowy ORLEN Spółka Akcyjna.

949 Energía Latina S.A. generates and sells electricity in Chile. The company was founded in 2007 and is based in Las Condes, Chile.

950 Energiedienst Holding AG, together with its subsidiaries, engages in the production, distribution, and sale of electricity under

NatureEnergie brand in Switzerland. It generates electricity from hydro, gas, sun, and wind sources. The company also provides heating solutions; car sharing with electric cars; and plans, installs, and implements photovoltaic systems for private customers. It serves commercial customers, such as housing associations, as well as district concepts, heating networks, and services for municipalities. The company was founded in 1998 and is based in Laufenburg, Switzerland. Energiedienst Holding AG is a subsidiary of EnBW Energie Baden-Württemberg AG.

951 Energizer Holdings, Inc., together with its subsidiaries, manufactures, markets, and distributes household batteries, specialty batteries, and lighting products worldwide. It offers lithium, alkaline, carbon zinc, nickel metal hydride, zinc air, and silver oxide batteries under the Energizer, Eveready, and Rayovac brands; primary, rechargeable, specialty, and hearing aid batteries; and handheld, headlights, lanterns, and area lights, as well as flashlights under the Hard Case, Dolphin, and WeatherReady brands. The company also licenses the Energizer and Eveready brands to companies developing consumer solutions in solar, automotive batteries, portable power for critical devices, generators, power tools, household light bulbs, and other lighting products. In addition, it designs and markets automotive fragrance and appearance products, including protectants, wipes, tire and wheel care products, glass cleaners, leather care products, air fresheners, and washes to clean, shine, refresh, and protect interior and exterior automobile surfaces under the brand names of Armor All, Nu Finish, Refresh Your Car!, LEXOL, Eagle One, California Scents, Driven, Bahama & Co, Carnu, Grand Prix, Kit, and Tempo; STP branded fuel and oil additives, functional fluids, and other performance chemical products; and doityourself automotive air conditioning recharge products under the A/C PRO brand name, as well as other refrigerant and recharge kits, sealants, and accessories. The company sells its products through direct sales force, distributors, and wholesalers; and various retail and business-to-business channels, including mass merchandisers, club, electronics, food, home improvement, dollar store, auto, drug, hardware, ecommerce, convenience, sporting goods, hobby/craft, office, industrial, medical, and catalog. Energizer Holdings, Inc. was incorporated in 2015 and is headquartered in Saint Louis, Missouri.

952 Energy Focus, Inc., together with its subsidiaries, designs, develops, manufactures, markets, and sells energy-efficient lighting systems, and controls and ultraviolet-C light disinfection products in the United States and internationally. It offers military maritime market light-emitting diode (LED) lighting products, such as Military-grade Intellitube retrofit TLED and the Invisitube ultralow EMI TLED; and Military-grade fixtures, including LED globe lights, berth lights; highbay fixtures and LED retrofit kits to serve the United States navy and allied foreign navies. The company also provides RedCap emergency battery backup TLEDs; EnFocus lighting platform, including dimming and color tuning; LED replacement fixtures for linear fluorescent lamps, downlights, and retrofit kits for lowbay, highbay and office applications; LED dock lights; and nUVo tower and nUVo traveler portable UVCD air disinfectors. It sells its products to military maritime, industrial, and commercial markets through direct sales employees, independent sales representatives, electrical and lighting contractors, and distributors, as well as via ecommerce. The company was formerly known as Fiberstars, Inc. and changed its name to Energy Focus, Inc. in May 2007. Energy Focus, Inc. was founded in 1985 and is headquartered in Solon, Ohio.

953 Energy Recovery, Inc., together with its subsidiaries, designs, manufactures, and sells various solutions for the seawater reverse osmosis desalination and industrial wastewater treatment industries

worldwide. The company operates through Water and Emerging Technologies segments. It offers a suite of products, including energy recovery devices, and highpressure feed and recirculation pumps; hydraulic turbochargers and boosters; and spare parts, as well as repair, field, and commissioning services. The company also offers a solution to reduce energy consumption in natural gas processing and in refrigeration systems that use carbon dioxide. It provides its products under the ERI, PX, Pressure Exchanger, PX Pressure Exchanger, Ultra PX, PX G, PX G1300, PX PowerTrain, AT, and Aquabold brands to large engineering, procurement, and construction firms; endusers and industry consultants; original equipment manufacturers; and aftermarket customers. The company was incorporated in 2001 and is headquartered in San Leandro, California.

954 Energy Transfer LP provides energyrelated services. The company owns and operates approximately 11,600 miles of natural gas transportation pipeline, and three natural gas storage facilities in Texas and two natural gas storage facilities located in the state of Texas and Oklahoma; and 19,945 miles of interstate natural gas pipeline. It also sells natural gas to electric utilities, independent power plants, local distribution and other marketing companies, and industrial endusers. The company owns and operates natural gas gathering and natural gas liquid (NGL) pipeline, processing plant, and treating and conditioning facilities in Texas, New Mexico, West Virginia, Pennsylvania, Ohio, Oklahoma, Arkansas, Kansas, and Louisiana; natural gas gathering, oil pipeline, and oil stabilization facilities in South Texas; and a natural gas gathering system in Ohio, as well as transport and supplies water to natural gas producer in Pennsylvania. It owns approximately 5,650 miles of NGL pipeline; NGL fractionation facilities; NGL storage facilities with working storage capacity of approximately 58 million barrels (MMBbls); and other NGL storage assets and terminal with an aggregate storage capacity of approximately 25 MMBbls. The company provides crude oil transportation, terminalling, acquisition, and marketing activities; and sells and distributes gasoline, middle distillate, and motor fuels and other petroleum product. It offers natural gas compression service; carbon dioxide and hydrogen sulfide removal service; and manages coal and natural resources properties, as well as sells standing timber, leases coalrelated infrastructure facilities, collects oil and gas royalty, and generate electrical power. The company was formerly known as Energy Transfer Equity, L.P. and changed its name to Energy Transfer LP in October 2018. Energy Transfer LP was founded in 1996 and is headquartered in Dallas, Texas.

955 ENF Technology Co., Ltd. produces and sells process chemicals, fine chemicals, and color pastes for use in semiconductor and display manufacturing processes in South Korea and internationally. The company offers process chemicals, such as etchants, strippers, thinners, developers, and cleaners. Its fine chemicals include monomers and polymers for photoresists, photo acid generators, anti reflective coating monomers and polymers, additives, raw materials for hard masks, monomers, and binders. The company also produces color pastes for use in note PCs, large TVs, and wOLED TVs. ENF Technology Co., Ltd. was founded in 2000 and is headquartered in Yongin, South Korea.

956 Engie Energia Chile S.A. engages in the generation, transmission, and supply of electricity to industrial, power distribution, and mining sectors in Chile. It generates power through thermal, wind, solar, and hydroelectric power plants. The company is also involved in the transportation of natural gas; and operation of two ports. It has an installed capacity of 2,201 megawatts; 2,293 kilometers (KM) of transmission lines; and 1,066 KM of natural gas pipelines networks. The

company was founded in 1981 and is headquartered in Las Condes, Chile. Engie Energia Chile S.A. operates as a subsidiary of ENGIE LATAM SA.

957 ENGIE SA engages in the power, natural gas, and energy services businesses. It operates through Renewables, Networks, Energy Solutions, Thermal, Supply, Nuclear, and Others segments. The Renewables segment comprises renewable energy generation activities, including financing, construction, operation, and maintenance of renewable energy facilities using various energy sources, such as hydroelectric, onshore wind, photovoltaic solar, biomass, offshore wind, and geothermal. The Networks segment comprises the electricity and gas infrastructure activities and projects, including the management and development of gas and electricity transportation networks and natural gas distribution networks in and outside of Europe, natural gas underground storage in Europe, and regasification infrastructure in France and Chile. The Energy Solutions encompasses the construction and management of decentralized energy networks to produce lowcarbon energy and related services. The Thermal segment encompasses power generation activities using thermal assets; operation of power plants fueled mainly by gas or coal, as well as pump operated storage plants; and financing, construction, and operation of desalination plants, as well as the development of hydrogen production. The Supply segment engages in the sale of gas and electricity to professional, individual, and residential clients. The Nuclear segment engages in the nuclear power generation activities. The others segment sells energy to companies and offers energy management services and solutions. The company was formerly known as GDF SUEZ S.A. and changed its name to ENGIE SA in April 2015. The company was founded in 1880 and is headquartered in Courbevoie, France.

958 Enjoy S.A. operates a chain of casinos and hotels in Chile and internationally. The company operates through Gaming, NonGaming, and Real Estate Investment segments. It operates 10 casinos, 6,550 slot machines, 383 table games, and 596 bingo positions; 11 hotels, 1,432 rooms and apartments, and 346,462 Noches de alojamiento; 58 restaurants and bars, 3 beach clubs under the OVO Beach name, and 10 convention centers; and 5 nightclubs. The company is also involved in the management and rental of real estate properties. Enjoy S.A. was founded in 1975 and is based in Santiago, Chile.

959 ENN Energy Holdings Limited, an investment holding company, engages in the investment, construction, operation, and management of gas pipeline infrastructures; and integrated energy, and vehicle and ship refueling stations in the People's Republic of China. It operates through five segments: Retail Gas Sales Business, Integrated Energy Business, Wholesale of Gas, Construction and Installation, and Value Added Business. The company also sells and distributes piped gas, liquefied natural gas, and other multienergy products; and provides other services in relation to energy supply. In addition, it is involved in the business of energy trading; retail of gas pipelines, and related materials and equipment; transportation of oil products and gas; and sourcing and sell of LNG, as well as wholesale and retail of LNG, CNG, gas equipment, appliances, and others; and provision of financial services. As of December 31, 2021, the company served approximately 25 million residential customers and 200,000 commercial/industrial customers. The company was formerly known as XinAo Gas Holdings Limited and changed its name to ENN Energy Holdings Limited in September 2010. ENN Energy Holdings Limited was founded in 1992 and is headquartered in Langfang, China.

960 ENN Natural Gas Co., Ltd. engages in the wholesale and retail of natural gas, energy chemical, chemical trading, and coal mining and washing businesses in China. It is involved in the engineering design and

equipment manufacturing related to natural gas, new chemical industry, energy conservation and environmental protection, etc.; technology research and development, consultation, design, equipment integration, and project management business; and manufacturing and integration, engineering construction and installation business. The company also produces and sells coal, methanol, dimethyl ether, and other products, as well as supplies bulk liquefied natural gas; and supplies various energy products comprising gas, electricity, cold energy, heat energy and steam, etc. In addition, it sells natural gas through pipelines to residential, commercial, and industrial customers; and gas appliances, such as stoves, water heaters, range hoods, and heating stoves to residential customers; and building materials and other energy products to industrial customers. The company was formerly known as ENN Ecological Holdings Co., Ltd. and changed its name to ENN Natural Gas Co., Ltd. in October 2020. ENN Natural Gas Co., Ltd. was founded in 1992 and is based in Langfang, China.

961 Ennakl Automobiles S.A. operates as an importer and dealer of vehicles in Tunisia. The company offers various brands of vehicles, including Volkswagen, Volkswagen Utilities, Audi, Porsche, Å KODA, and SEAT. It also provides spare parts and after sales services. The company was founded in 1965 and is headquartered in Tunis, Tunisia. Ennakl Automobiles S.A. is a subsidiary of PGIHolding. As of November 16, 2012, Ennakl Automobiles S.A. operates as a subsidiary of Poulina Group Holding S.A..

962 ENPLUS Co., Ltd. manufactures and sells fire trucks in South Korea. It offers firefighting chemical vehicles and pump cars; fire water tank cars, fireman ladder cars, and structural work vehicles; ambulances; and environmental and special vehicles, such as compressed cars, amrol trucks, road cleaning vehicles, sewer dredging cars, autoclaves, and rolling dumps. The company also provides smart air purification vehicles, smart air cleaner bus shelters, graphene powder, graphene solutions, and secondary battery and ESS for electric vehicles. The company was formerly known as NANOMEDICS Co., Ltd. and changed its name to ENPLUS Co., Ltd. in April 2020. ENPLUS Co., Ltd. was founded in 1966 and is headquartered in Hwaseong, South Korea.

963 Enshu Truck Co.,Ltd. provides logistics services in Japan. It is involved in the general freight vehicle and freight transportation; delivery; logistics consulting and management; supply chain management; warehousing; real estate buying and selling, brokerage, and leasing; civil engineering and construction; car maintenance; industrial waste treatment; worker dispatch; and customs clearance businesses, as well as in the research and development on information processing, and sale of software products. The company was founded in 1965 and is headquartered in Fukuroi, Japan. Enshu Truck Co.,Ltd. is a subsidiary of The Sumitomo Warehouse Co., Ltd.

964 Entain PLC operates as a sportsbetting and gaming company. The company provides online betting, casino, poker, and bingo services through mobile and web under the bwin; online and multichannel betting under the Ladbrokes; street and online betting under the Coral; sports betting, casino, game, and poker under the Sportingbet; online bingo, sportsbook, casino, and poker access under the Betboo; and sports betting, poker, and casino games under the Crystalbet brands, as well as Gamebookers, a fullservice sportsbook. It also offers software and technology for race book and sportsbook under the Stadium; online sports betting, casino, and gaming under the Eurobet; sports action and horse racing under the Neds; online bingo under the Gala Bingo; casino and live casino under the Gala Casino; virtual sports under the AGT brands, as well as partypoker, which provides online poker; PartyCasino that

provides online casino; and Gala Spins, a gaming application. In addition, the company provides Foxy Bingo that provides online bingo; Foxy Games, which offers slot games, jackpots, and various table games; casino and live casino games under the Casino Las Vegas brand; playtech casino under the Casino King brand; Ladbrokes.be, a shop and newsagent outlet; Ladbrokes.com.au, an online betting site; online betting and gaming under the Optibet; online casino and betting under the NinjaCasino brand; genderneutral mobilefirst casino and bingo under the Laimz brand; online sports, casino, and poker under the BetMGM brand; online sports and gaming under the Borgata brand; and Danske Spil that provides online gaming. Further, it operates an online casino website for Germanspeaking markets under the CasinoClub brand; Gioco Digitale, a gaming site; and Cheeky Bingo, a bingo platform. Additionally, the company offers PMU that offers online poker; betting in the shop estates; and telephone betting services. Entain PLC was founded in 2004 and is headquartered in London, the United Kingdom.

965 Entergy Corporation, together with its subsidiaries, engages in the production and retail distribution of electricity in the United States. The company operates in two segments, Utility and Entergy Wholesale Commodities. The Utility segment generates, transmits, distributes, and sells electric power in portions of Arkansas, Louisiana, Mississippi, and Texas, including the City of New Orleans; and distributes natural gas. The Entergy Wholesale Commodities segment engages in the ownership, operation, and decommissioning of nuclear power plants; and ownership of interests in nonnuclear power plants that sell electric power to wholesale customers, as well as provides services to other nuclear power plant owners. It generates electricity through gas, nuclear, coal, hydro, and solar power sources. The company sells energy to retail power providers, utilities, electric power cooperatives, power trading organizations, and other power generation companies. The company's power plants have approximately 24,000 megawatts (MW) of electric generating capacity, which include 5,000 MW of nuclear power. It delivers electricity to 3 million utility customers in Arkansas, Louisiana, Mississippi, and Texas. The company was founded in 1913 and is headquartered in New Orleans, Louisiana.

966 EnviroHub Holdings Ltd., an investment holding company, engages in the trading, recycling, and refining of ewaste/metals in Singapore, Hong Kong, China, Malaysia, the United Arab Emirates, and internationally. Its Property Investments and Management segment is involved in the investment in properties. The company's Trading, Recycling and Refining of eWaste/Metals segment engages in the trading, recycling, and refining of electronic waste and metals comprising the recycling, extraction, and refining of platinum group metals and copper. Its Piling Contracts, Construction, Rental and Servicing of Machinery segment is involved in the provision of piling services, as well as building and construction related engineering and technical services; and rental and sale of cranes and heavy machinery for the construction industry. The company's Manufacturing and Trading of Healthcare Products segment engages in the distribution, marketing, and sale of healthcare products and other related activities. Its Others segment is involved in the conversion of waste plastic to usable liquid hydrocarbon fuel oil. In addition, the company invests in and manages commercial and industrial properties; trades in ferrous and nonferrous metals; and sells, rents, and services engineering hardware. EnviroHub Holdings Ltd. was formerly known as Leong Hin Holdings Ltd. and changed its name to EnviroHub Holdings Ltd. in August 2005. The company was incorporated in 1998 and is based in Singapore.

967 EnWave Corporation designs, constructs, markets, licenses, installs, and sells vacuummicrowave machinery for the food, cannabis, and biomaterial dehydration industries in Canada and the United States. It offers radiant energy vacuum (REV) dehydration platforms, such as nutraREV and quantaREV to dehydrate fruits, vegetables, herbs, dairy products, readytoeat meals, instant baked goods, cannabis products, nutraceuticals, pharmaceuticals, and meats and seafood. The company also provides REV platforms for pharmaceutical industry, including powderREV; and freezeREV for the dehydration of biomaterial and pharmaceutical products. In addition, it manufactures and sells cheddar, gouda, bacon cheddar, parmesan garlic, black pepper, white cheddar, and pepper jack flavors. The company sells its products through various direct customer relationships, brokers, distributors, and retailers; its online store, mooncheese.com; and Amazon.com, Inc. EnWave Corporation was founded in 1999 and is headquartered in Delta, Canada.

968 Enwell Energy plc explores and produces oil and gas in Ukraine. The company owns and operates a 100% production license in gas and condensate fields in the Poltava region comprising the MekhediviskaGolotvschinska and Svyrydivske fields, as well as the Vasyschevskoye field located in the Kharkiv region. It also holds 100% interest in the SvystunivskoChervonolutskyi exploration license located in Poltava region of northeastern Ukraine. Enwell Energy plc was formerly known as Regal Petroleum plc and changed its name to Enwell Energy plc in May 2020. The company was incorporated in 2002 and is headquartered in London, the United Kingdom. Enwell Energy plc is a subsidiary of Smart Holding (Cyprus) Limited.

969 Epiroc AB (publ), together with its subsidiaries, develops and produces equipment for use in surface and underground applications in Sweden. It operates through Equipment & Service and Tools & Attachments segments. The Equipment & Service segment provides equipment and solutions for rock drilling, mechanical rock excavation, rock reinforcement, loading and haulage, and ventilation systems, as well as drilling equipment for water and energy; and related spare parts, services, and solutions. This segment also provides solutions for automation, digitalization, and electrification. The Tools & Attachments segment offers rock drilling tools and hydraulic attachments that are used primarily for drilling, deconstruction, recycling, and rock excavation. Epiroc AB (publ) was founded in 1873 and is headquartered in Nacka, Sweden.

970 eprint Group Limited, an investment holding company, provides printing services and solutions on advertisements, bound books, and stationeries in Hong Kong. The company operates through three segments: Paper Printing, Banner Printing, and Property Agency. It also provides digital printing services; information technology; and management services, as well property investment services. The company operates retail shops or the selfservice platform, as well as engages in the trading of optical products. It operates under the eprint and ebanner brands. 971 Equasens Societate anone provides various IT solutions for the healthcare sector in Europe. It offers LGPI global services and OffiCentral solutions for managing pharmacies and their networks; OffiMSS, OffiSecure, OffiProtect, OffiPass, OffiSeen, OffiCash, Offifizzy, and OffiLocker solutions for pharmacists' business processes; and solutions for energizing the customer relationship with pharmacists comprising OffiTag, OffiTouch, OffiMedia, OffiConnect, automation systems, and customer loyalty programs. The company also provides My Pilot, an analytics and management tool; OffiLearning, an elearning tool;

and solutions for patient support and advice, such as compliance monitoring software, Multimed, Automeds, and Offit@consult, as well as pharmaceutical record and shared medical record services. In addition, it offers a ULTIMATE, a system combining optimized pharmacy management and improved patient support; FARMAClick, a protocol for communications between pharmacies and wholesalersdistributors; DIFARM, a solution for wholesalersdistributors; PHARE, a retail management tool; SOPHIA, a pharmacy management application; OffiM@dia POS display; eNephro to enhance the care of chronic renal failure patients; and TPE Pilot, a webbased application that simplifies the management and sharing of patient education programs. Further, the company provides NOVIACARE; CARELIB Domicile; CARELIB EHPAD; KAPELSE solutions; TITAN solutions; ANTHADINE software and MOBISOINS mobile tool; MICROSOINS, an inhome nursing care solution; and LOGICLIC. Additionally, it offers AXIGATE solutions to manage the entire patient care pathway; CHORUS platform; medical telesecretarial services for healthcare professionals; and equipment lease financing solutions. The company was incorporated in 1996 and is based in VillerslesNancy, France. Equasens Soci@t@ anonyme is a subsidiary of Marque Verte Sante.

972 Equatorial Energia S.A., through its subsidiaries, distributes electricity in Brazil. It operates through Transmission sector, Sanitation sector, Energy Distribution, Transmission, Renewables, Distributed Generation, Sanitation, Energy Trading, Telecommunications, and Services segments. The company distributes electric energy in the 217 municipalities of Maranh@o State with a concession area of approximately 332,000 square kilometers serving approximately 2.5 million consumers; and 144 municipalities of Par@ State with a concession area covering 1,248,000 square kilometers serving approximately 2.6 million consumers. It also distributes electric energy to 224 municipalities of Piau@ State with a concession area covering 251,000 square kilometers serving approximately 1.3 million consumers; 102 municipalities of Alagoas State with a concession area covering 27,848 square kilometers serving approximately 1.2 million consumers; 16 municipalities of Amap@ State serving approximately 209,000 consumers; and 72 municipalities of Rio de Janeiro State serving approximately 1.8 million consumers. Equatorial Energia S.A. was founded in 1958 and is based in Bras@lia, Brazil.

973 Equital Ltd., through its subsidiaries, engages in the real estate, oil and gas, and residential construction businesses in Israel and internationally. The company operates in planning, developing, building, leasing, marketing, and sale of residential projects. It also rents and manages transportation complexes, commercial areas, office buildings, industrial and storage buildings, parking lots, gas stations, and land. In addition, the company also engages in the exploration, development, and production of oil and natural gas. Further, it manages and operates hotels. Equital Ltd. was incorporated in 1977 and is based in Petah Tikva, Israel.

974 Equitrans Midstream Corporation owns, operates, acquires, and develops midstream assets in the Appalachian Basin. It operates through three segments: Gathering, Transmission, and Water. The company operates dry gas gathering systems of highpressure gathering lines; FERCreregulated interstate pipelines and storage systems; and water pipelines and other facilities that deliver fresh water from local municipal water authorities, the Monongahela River, the Ohio River, local reservoirs, and several regional waterways. Equitrans Midstream Corporation was incorporated in 2018 and is headquartered in Canonsburg, Pennsylvania.

975 Eregli Demir ve @elik Fabrikalari T.A.S., together with its subsidiaries, produces and sells iron and steel rolled products, alloyed and nonalloyed iron, steel and pig iron castings, cast and pressed

products, coke, and byproducts in Turkey and internationally. Its flat products include hot rolled flat steel products, coldrolled flat steel products, and galvanized/galvanealed flat steel products; and tin/chrome coated flat steel products used in metal packaging industry. The company also provides various byproducts, including motor benzole, pure benzole, toluol, xylol, crude tar, ammonium sulphate, iron sulphate, and granulated high furnace slag. In addition, it offers port services, such as loading and unloading, maritime, third party, warehouse, liquid and solid waste collection, maritime police, and customs and customs enforcement services. Further, the company engages in renewable energy production, recycling, and trading activities, as well as provision of management and consultancy services. It primarily serves automotive, white goods, pipes and tubes, rolling, manufacturing, electricselectronics, mechanical engineering, energy, heating equipment, shipbuilding, defense, and packaging industries. The company was incorporated in 1960 and is headquartered in Istanbul, Turkey.

976 Ernest Borel Holdings Limited, an investment holding company, engages in the designing, manufacturing, marketing, and selling Swissmade mechanical and quartz watches for men and women in the Peopleâ€™s Republic of China, Hong Kong, Macau, Europe, and internationally. It also provides assembly and aftersales services. It sells its products under the Ernest Borel brand. The company was founded in 1856 and is headquartered in Mong Kok, Hong Kong. Ernest Borel Holdings Limited is a subsidiary of VGB Limited.

977 Ero Copper Corp. engages in the exploration, development, and production of mining projects in Brazil. The company engages in the production and sale of copper concentrate from the CaraÃ§a operations, located within the CuraÃ§a Valley, northeastern Bahia state, as well as gold and silver byproducts. It also holds a 99.6% interest in the TucumÃ¡ project, a copper development project located within southeastern ParÃ¡ state; and holds a 97.6% interest in the The Xavantina Operations located in Mato Grosso state. Ero Copper Corp. was incorporated in 2016 and is headquartered in Vancouver, Canada.

978 ES Cube Co., Ltd. designs, manufactures, and sells leisure tents in South Korea. The company was formerly known as Liveplex Co.,Ltd. and changed its name to ES Cube Co., Ltd. in April 2021. Cube Co., Ltd. was founded in 1977 and is headquartered in Seoul, South Korea.

979 ESCON JAPAN Ltd. engages in the real estate development business in Japan. It develops and sells condominiums and detached houses; commercial and logistics facility/largescale/mixeduse developments; and hotels. The company also offers real estate investment advisory, real estate leasing and planning, brokerage, consulting, and renovation services. In addition, it provides commercial facility/property management and condominium management/operation/residence services. The company was incorporated in 1995 and is headquartered in Tokyo, Japan.

980 ESAB Corporation engages in the formulation, development, manufacture, and supply of consumable products and equipment for use in cutting, joining, and automated welding; and control equipment. Its comprehensive range of welding consumables includes electrodes, cored and solid wires, and fluxes using a range of specialty and other materials; and cutting consumables comprising electrodes, nozzles, shields, and tips. The companyâ€™s equipment ranges from portable welding machines to large customized automated cutting and welding systems. It also offers a range of software and digital solutions to help its customers increase their productivity, remotely monitor their welding operations, and digitize their documentation. The company sells its products under the ESAB brand to various end markets, such as general industry, infrastructure, renewable energy, medical and life sciences,

transportation, construction, and energy. It offers its products through independent distributors and direct salespeople. The company operates in North America, South America, Europe, the Middle East, India, Africa, and the Asia Pacific. ESAB Corporation was founded in 1904 and is headquartered in North Bethesda, Maryland.

981 ESR Group Limited, together with its subsidiaries, engages in the logistics real estate development, leasing, and management activities in the People's Republic of China, Japan, South Korea, Singapore, Australia, and India. It operates through three segments: Investment, Fund Management, and Development. The company develops, constructs, invests in, and sells logistics real estate properties, as well as data centers and commercial assets. It is also involved in the fund management business; and warehousing business. In addition, the company invests in properties, coinvestments funds and investment vehicles, public REITs, and other investments. It serves ecommerce companies, 3PL providers, bricksandmortar retailers, manufacturers, coldchain logistics providers, and other enterprises in various industries. The company was formerly known as ESR Cayman Limited and changed its name to ESR Group Limited in June 2022. ESR Group Limited was incorporated in 2011 and is headquartered in Central, Hong Kong.

982 Essbio S.A. primarily engages in the catchment, decantation, filtration, disinfection, purification, storage, and distribution of water. It also provides sewage collection and treatment, sludge treatment, and liquid industrial waste treatment services; sewers maintenance services; and project management, advisory, and technical assistance for rural health services. The company serves agroindustrial, forestry, port, and mining sectors, as well as commercial and residential customers primarily in the regions of O'Higgins and Biobío in Chile. Essbio S.A. was founded in 1990 and is based in Concepción, Chile.

983 Essentra plc engages in components, packaging, and filters businesses worldwide. The Components segment offers caps and plugs, wire and cable management products, flange protection products, knobs, handles and grips, PCB and electronics hardware, and tools and precision instruments for a range of applications and industries that are used in protection and finish products. The Packaging segment provides folding cartons, printed literature, foils, and flexible packaging and labels focused on the pharmaceuticals and healthcare sectors. The Filter segment offers filters and related solutions to the tobacco industry. The company was formerly known as Filtrona plc and changed its name to Essentra plc in June 2013. Essentra plc was incorporated in 2005 and is based in Oxford, the United Kingdom.

984 ESTsoft Corp. engages in the software business in South Korea. It offers ALYac, a security solution; Dr.Capsule, an antivirus and total protection app for Android smartphones; RansomShield PC antiransomware solutions; SecureDisk, a document security solution that prevents internal data leaks; InternetDisk, a cloud storage for safe sharing and collaboration; ALYac Security Manager, an integrated corporate security management solution; and PICNIC, a camera application. The company also provides TeamUP, an integrated corporate communication service for small and medium-sized businesses; ALZip Mobile, a file browser that provides local file management features such as compression, deletion, copy, move, renaming, etc.; and ALSong Mobile, a smartphone music player. In addition, it offers online games under the Cabal and Cabal2 names, as well as mobile game under the Cat Cafe; and AI consulting services. Further, it operates ZUM.COM, an open portal site; Swing Browser for PC and mobile devices; Egloos, a blog service; rounz.com, an online glasses store; and a multialgorithm platform that integrates and manages various algorithms in a fund for offset order, performance analysis, and risk

monitoring. Additionally, the company provides A.I. Plus vision, language, security, and trend technologies. The company serves individual users, government agencies, educational institutions, and corporate customers. ESTsoft Corp. was founded in 1993 and is based in Seoul, South Korea.

985 Estun Automation Co., Ltd. engages in the research and development, production, and sale of intelligent equipment and its control and functional components in China. The company provides industrial automation products, such as motion, drive, and motor products; industrial robots, including articulated and welding robots; industrial digital products comprising enosis open industrial internet platform, PCS production line process master control system, and industrial software; and smart control units, as well as robot peripheral products. It also offers machine tool, robotic, packaging and printing machine, wood working machine, photovoltaic, semiconductor machine, entertainment facility, and materials handling equipment solutions. The company was founded in 1993 and is based in Nanjing, China.

986 eSun Holdings Limited, an investment holding company, primarily operates in the media and entertainment industry in Hong Kong, Mainland China, and internationally. It operates through Media and Entertainment, Film and TV Program, and Cinema Operation segments. The Media and Entertainment segment invests in and produces entertainment events, as well as provides related advertising and artist management services; sells and distributes albums; licenses music; and trades in gaming products. The Film and TV Program segment invests in, produces, sells, and distributes and licenses television programs and films, as well as provides advertising related services; and distributes video format products. The Cinema Operation segment operates cinemas. The company provides consultancy services for cultural, entertainment, and live performance projects; and management, performance agency, and video duplication services. It also translates and subtitles television programs; licenses film products and rights; and produces, publishes, and distributes music. As of July 31, 2022, the company operated 15 cinemas in Hong Kong, and 2 cinemas in Mainland China. The company was incorporated in 1996 and is headquartered in Central, Hong Kong. eSun Holdings Limited is a subsidiary of Lai Sun Development Company Limited.

987 Etalon Group PLC, together with its subsidiaries, primarily engages in residential development and construction business in Saint Petersburg metropolitan and Moscow metropolitan areas in Russia. It operates through three segments: Residential Development, Construction Services, and Other Operations. The Residential Development segment constructs residential real estate properties, including flats, built-in premises, and parking places. The Construction Services segment provides construction services for third parties. The Other Operations segment sells construction materials; constructs standalone premises for commercial use; and offers various services related to sale and servicing of premises. Etalon Group PLC was founded in 1987 and is based in Nicosia, Cyprus.

988 Etihad Etisalat Company, through its subsidiaries, establishes and operates mobile wireless telecommunication and fiber optic networks in the Kingdom of Saudi Arabia. It manages, installs, and operates telephone networks, terminals, and communication unit systems; and sells and maintains mobile phones and communication unit systems. The company also offers information technology, application, billing and testing support, product marketing, process management, support, call center, and financial services; and consultation and office administration services. In addition, it is involved in the establishment and operation of mobile wireless telecommunication networks, as well as provision of telecommunication services. Further, the company engages in the trading,

import, and export of computer systems; wholesale, retail, maintenance, and operation of computers and electronic equipment, as well as provision of related services. Additionally, it invests funds in shares, bonds, and other securities; and owns real estate, as well as owns and leases intellectual property rights, such as patents and trademarks, concessions, and other intangible rights. The company was incorporated in 2004 and is headquartered in Riyadh, the Kingdom of Saudi Arabia.

989 Etiler Gida Ve Ticari Yatirimlar Sanayi Ve Ticaret Anonim Sirketi operates fastfood spots. The company offers doners, versions, portions, snacks, burgers, toasts, cold and hot sandwiches, breakfast, cold drinks, freshly squeezed fruit juices, desserts, and salads. It operates a network of 43 branches in 10 provinces of Turkey. The company was founded in 1964 and is based in Istanbul, Turkey.

990 Etropal AD engages in the production and sale of disposable medical devices and dialysis consumables in Bulgaria. The company offers medical face masks; capillary dialyzers; arterialvenous(A/V) blood line sets; and A/V fistula needles. It also operates a dialysis clinic for the treatment of hemodialysis. The company was founded in 1976 and is headquartered in Etropole, Bulgaria. Etropal AD operates as a subsidiary of Synthetica AD.

991 EuKedos S.p.A. provides managed and longterm care services in Italy. The company offers residential social care services to elderly, selfsufficient, or incapacitated adults. It manages healthcare and assistance residences with 1,345 beds in the North and Central Italy, primarily located in Lombardy, Piedmont, Abruzzo, Valle D'Aosta, and Emilia Romagna. EuKedos S.p.A. is based in Florence, Italy.

992 Eumundi Group Limited engages in the hotel operation and property investment businesses in Australia. The company's Hotel Operations segment owns and operates public hotels with bar, bistro, and gaming facilities; and conducts commercial and retail liquor sales through owned and leased premises. It operates the Ashmore Tavern and Aspley Central Taverns hotels. The company's Investment Property Operations segment owns and leases investment property assets to retail tenants. Eumundi Group Limited was incorporated in 1989 and is headquartered in Ashmore, Australia.

993 Eureka Group Holdings Limited, together with its subsidiaries, owns and manages senior independent living communities in Australia. The company operates through two segments, Rental Villages and Property Management. 1007 Evolution Mining Limited engages in the exploration, mine development, mine operations, and sale of gold and goldcopper concentrates in Australia and Canada. It also explores for copper and silver deposits. As of June 30, 2022, the company operated five gold mines, such as Cowal in New South Wales; Ernest Henry and Mt Rawdon in Queensland; Mungari in Western Australia; and Red Lake in Ontario. It also holds a 100% interest in the Kundana Operations; a 51% interest in the East Kundana Joint Venture; a 100% interest in the certain tenements comprising the Carbine project; and a 75% interest in the West Kundana Joint Venture. The company was formerly known as Catalpa Resources Limited and changed its name to Evolution Mining Limited in November 2011. Evolution Mining Limited was incorporated in 1998 and is based in Sydney, Australia.

1008 Evonik Industries AG engages in the specialty chemicals business. It operates through Specialty Additives, Nutrition & Care, Smart Materials, Performance Materials, and Technology & Infrastructure segments. The Specialty Additives segment provides polyurethane additives, organically modified silicones, isophorones, epoxy curing agents, oil additives, fumed silicas, matting agents, and acetylenic diolbased surfactants for consumer goods and specialized industrial applications. The Nutrition & Care segment offers amphoteric surfactants, ceramides, phytosphingosines, oleochemicals, quaternary derivatives, amino acids and amino acid derivatives, synthesis products, drug delivery, and DLmethionine for use in consumer goods, animal nutrition, and healthcare products. The Smart Materials segment provides hydrogen peroxide, peracetic acid, activated nickel catalysts, precious metal powder catalysts, oil and fat hydrogenation catalysts, regeneration of desulfurization catalysts, amorphous polyalphaolefins, polybutadienes, polyester resins, thermoplastic and reactive methacrylate resins, PEEK, polyamide 12, organosilanes, chlorosilanes, fumed silicas, fumed metal oxides, and precipitated silicas for the automotive, paints, coatings, adhesives, construction, and various other sectors. The Performance Materials segment produces polymer materials and intermediates, including butenel, DINP, isononanol, cyanuric chloride, alkoxides, and superabsorbent for rubber, plastics, and automotive industries. The Technology & Infrastructure segment provides site management, utilities and waste management, technical, process technology, engineering, and logistics services. It operates in the AsiaPacific, Europe, the Middle East, Africa, Central and South America, and North America. The company was founded in 1873 and is headquartered in Essen, Germany. Evonik Industries AG is a subsidiary of RAGStiftung.

1009 Evoqua Water Technologies Corp. provides water and wastewater treatment systems and technologies, and mobile and emergency water supply solutions and contract services for industrial, commercial, and municipal water treatment markets in the United States and internationally. It

operates through two segments, Integrated Solutions and Services, and Applied Product Technologies. The Integrated Solutions and Services segment offers outsourced water service contracts, capital systems and related recurring aftermarket services, parts and consumables, and emergency services for treating process water, utility water, and wastewater. This segment also provides odor and corrosion control services and drinking water treatment systems for municipalities. It serves manufacturing, healthcare, pharmaceuticals, biotech, power, microelectronics, chemical processing, food and beverage, and refining industries. The Applied Product Technologies segment provides advanced filtration and separation products, such as VAF selfcleaning filters, Ionpure electrodeionization systems, and Vortisand filtration systems, as well as filter presses and related consumables, and aftermarket products for customers in the microelectronics, pharmaceutical, and power end markets. It also offers disinfection solutions, including chemical and nonchemical disinfection technologies comprising low and medium pressure ultraviolet, ozone, onsite hypochlorite generation, and chlorine and chlorine dioxide systems for municipal drinking water, industrial, light manufacturing, commercial, and aquatics markets. In addition, this segment provides wastewater technologies, including biological treatment, clarification, filtration, nutrient removal, biosolid, and fielderected biological wastewater treatment plant solutions; and aftermarket and retrofit solutions. Further, it offers aquatics and electrochlorination solutions. The company was incorporated in 2013 and is headquartered in Pittsburgh, Pennsylvania.

1010 EVRAZ plc, together with its subsidiaries, engages in the production and distribution of steel and related products in Russia, the Americas, Asia, Europe, CIS, Africa, and internationally. It operates through four segments: Steel; Steel, North America; Coal; and Other Operations. The company offers steel and valueadded products, including infrastructure steel, rails, largediameter pipes, and oil country tubular goods. It also extracts vanadium ores; processes and produces vanadium products; and mines and enriches iron ore and coal. In addition, the company engages in the energygenerating, shipping, and railway transportation businesses. It offers its products for use in infrastructure and construction projects; and rail, energy, and industrial enduser markets, as well as coke and steel producers. The company was formerly known as Project Savannah PLC and changed its name to EVRAZ plc in October 2011. EVRAZ plc was founded in 1992 and is based in London, the United Kingdom.

1011 Exelon Corporation, a utility services holding company, engages in the energy distribution and transmission businesses in the United States and Canada. The company is involved in the purchase and regulated retail sale of electricity and natural gas, transmission and distribution of electricity, and distribution of natural gas to retail customers. It also offers support services, including legal, human resources, information technology, supply management, financial, engineering, customer operations, distribution and transmission planning, asset management, system operations, and power procurement services. It serves distribution utilities, municipalities, cooperatives, and financial institutions, as well as commercial, industrial, goverental, and residential customers. Exelon Corporation was incorporated in 1999 and is headquartered in Chicago, Illinois.

1012 ExlService Holdings, Inc. operates as a data analytics, and digital operations and solutions company in the United States and internationally. It operates through Insurance, Healthcare, Analytics, and Emerging Business segments. The company provides digital operations and solutions and analyticsdriven services, such as claims processing,

premium and benefit administration, agency management, account reconciliation, policy research, underwriting support, new business acquisition, policy servicing, premium audit, surveys, billing and collection, commercial and residential survey, and customer service using digital technology, artificial intelligence, machine learning, and advanced automation; digital customer acquisition services using a software-as-a-service delivery model through LifePRO and LISS platforms; subrogation services; and Subrosource software platform, an end-to-end subrogation platform. It also offers health care services related to care management, utilization management, disease management, payment integrity, revenue optimization, and customer engagement. The company provides financial planning and analysis, management reporting, forecasting and decision support, data management, regulatory reporting and risk, and compliance services; reservations, customer, and fulfillment services; freight billing, collections, claims management, freight audit, freight scheduling, supply chain management, and revenue assurance services; residential mortgage lending, title verification and validation, retail banking and credit cards, trust verification, commercial banking, and investment management; merchandising, pricing, and demand forecasting; and digital operations and solutions. It offers predictive and prescriptive analytics in the areas of customer acquisition and lifecycle management. The company was founded in 1999 and is headquartered in New York, New York.

1013 Expedia Group, Inc. operates as an online travel company in the United States and internationally. The company operates through Retail, B2B, and trivago segments. Its brand portfolio includes Brand Expedia, a full-service online travel brand with localized websites; Hotels.com for marketing and distributing lodging accommodations; Vrbo, an online marketplace for the alternative accommodations; Orbitz; Travelocity; Wotif Group; CheapTickets; ebookers; Expedia; Hotwire; CarRentals.com; Classic Vacations; and Expedia Cruise. The company's brand portfolio also comprises Expedia Partner Solutions, that offers private label and co-branded products through third-party websites; and Egencia that provides travel services to businesses and corporate customers. In addition, its brand portfolio consists of Trivago, a hotel metasearch website, which send referrals to online travel companies and travel service providers from hotel metasearch websites. Further, the company provides loyalty programs, hotel accommodations and alternative accommodations, and advertising and media services. It serves leisure and corporate travelers, that includes travel agencies, tour operators, travel supplier direct websites and call centers, consolidators and wholesalers of travel products and services, online portals and search websites, travel metasearch websites, mobile travel applications, and social media websites, as well as traditional consumer ecommerce and group buying websites. The company was formerly known as Expedia, Inc. and changed its name to Expedia Group, Inc. in March 2018. Expedia Group, Inc. was founded in 1996 and is headquartered in Seattle, Washington.

1014 Expro Group Holdings N.V. engages in the provision of energy services in North and Latin America, Europe and Sub-Saharan Africa, the Middle East and North Africa, and the Asia-Pacific. The company provides well construction services, such as technology solutions in drilling, tubular running services, and cementing and tubulars; and well management services, including well flow management, subsea well access, and well intervention and integrity services. It serves exploration and production companies in onshore and offshore environments in approximately 60 countries. The company was founded in 1938 and is based in Houston, Texas.

1015 Extrawell Pharmaceutical Holdings Limited, an investment holding company, develops, manufactures, markets, distributes, and sells pharmaceutical products in the People's Republic of China. The company operates through Manufacturing, Trading, and Gene Development segments. It offers transfer factor oral solution, a dual immune regulator for the treatment of diseases caused by virus infection and weak cellular immune system; and Wisk for the treatment of III degree of radioinjury of skin, normal common burn, actinic dermatitis, various infectious ulcers, and oral ulcers, as well as for trauma and post operation wound healing. The company also provides ZhouBang, a thromboxane synthetase inhibitor to prevent the coagulation of platelets and facilitate relaxation of blood vessels. In addition, it is involved in the marketing and distribution of imported pharmaceutical products, including Millibar for the treatment of high blood pressure; and development of oral insulin. Further, the company engages in the commercial exploitation and development of genomelated technology; provision of agency services; property investment business; and holding of gene invention rights. Extrawell Pharmaceutical Holdings Limited is headquartered in Quarry Bay, Hong Kong.

1016 Exxaro Resources Limited engages in coal, iron ore investment, pigment manufacturing, and renewable energy businesses in South Africa, Europe, Australia, and Asia. It produces thermal coal, metallurgical coal, and semisoft coking coal products primarily in the Waterberg and Mpumalanga regions; offers gasatomised ferrosilicon for use in separation plants, as well as iron ore; and operates two wind farms. The company was formerly known as Kumba Resources Limited and changed its name to Exxaro Resources Limited in November 2006. Exxaro Resources Limited was incorporated in 2000 and is based in Centurion, South Africa.

1017 Eyesvision Corp. engages in the mobile business in South Korea and internationally. It operates a network that leases and resells network equipment, frequency, etc. of a networkowned mobile communication service provider. The company was founded in 1992 and is headquartered in Seoul, South Korea.

1018 Fabryki Mebli FORTE S.A. designs, manufactures, and exports furniture worldwide. The company offers furniture for dining room, living room, youth room, office, hallway, and bedroom. It markets its products through retail chains and furniture stores in Europe. The company was founded in 1992 and is based in Ostrów Mazowiecka, Poland.

1019 Fagron NV, a pharmaceutical compounding company, provides personalized medicine care to hospitals, pharmacies, clinics, and patients in Belgium and internationally. The company also innovates concepts, vehicles, and formulations for pharmaceutical compounding. Its products include DiluCap, compounds every capsule formulation; Imuno TF Complex helps in regulation of immune responses; Pigmerise, a natural phytocomplex, for repigmentation treatment for hypopigmentation disorders; Pentravan used for avoiding firstpass metabolism, preventing gastrointestinal erosion; Nourisil MD, a first line therapy for both prevention and treatment of scars and keloids; Neogen, a new line of hair care; TrichoConcept used to treat alopecia; Fagron Advanced Derma for basic skincare, and individualized dermatological care; SyrSpend SF, provides pharmaceutical stability, dosage consistency, and patient comfort. Further, the company offers education and training program to prescribers and pharmacists through the Fagron Academy. The company was formerly known as Arseus NV and changed its name to Fagron NV in January 2015. Fagron NV was founded in 1990 and is based in Nazareth, Belgium.

1020 Falabella S.A. engages in the physical and online retail trade business in Chile, Peru, Colombia, Argentina, Brazil, Uruguay, and Mexico. The company operates department stores that offer fashion,

decoration, and electronics through 111 stores; home improvement stores that provide a range of solutions for home construction, decoration, and maintenance through 254 stores; and hypermarkets, supermarkets, and other convenience price formats with 146 stores. Ferrari N.V. was founded in 1947 and is headquartered in Maranello, Italy.

1029 Ferretti S.p.A. engages in the design, construction, and sale of luxury yachts and pleasure vessels worldwide. The company owns and operates six shipyards across Italy. It offers products under the Ferretti Yachts, Pershing, Riva, Itama, Custom Line, Wally, and CRN brands. The company also the provision of yacht brokerage, chartering, and management services, as well as aftersales and refitting; brand extension activities, such as lounges; and manufacturing and installation of wooden furnishings for nautical interiors. The company was founded in 1968 and is headquartered in ForlÃ-, Italy. Ferretti S.p.A. is a subsidiary of Ferretti International Holding S.p.A.

1030 Ferrexpo plc, together with its subsidiaries, mines for, develops, processes, produces, markets, exports, and sells iron ore pellets to the metallurgical industry. It operates two mines and a processing plant near

Kremenchug in Ukraine; a port in Odessa; a fleet of vessels operating on the Rhine and Danube waterways; and an oceangoing vessel, which provides toff services. The company also offers finance, management, procurement, transportation, marketing, shipping, barging, and port services. It has operation in Europe, North East Asia, China, South East Asia, Turkey, the Middle East, North Africa, and internationally. The company was incorporated in 2005 and is headquartered in Baar, Switzerland. Ferrexpo Plc is a subsidiary of Fevamotinic S.a.r.l. 1031 FERRO S.A. manufactures and sells sanitary and installation fittings and heating equipment in Poland and internationally. It offers mixers, showers, sinks, accessories, bathroom accessories, shower trays, and sanitary ware and bathroom accessories for public services. The company also provides heating solutions, such as water systems, measurement and gas fittings, control and expansion vessels, PEX systems, clamp couplings, brass fittings, pumps, heat controls, manifolds, accessories for radiators, radiators and thermostatic valves, and service accessories, as well as exchangerpumping sets, plate exchangers, and differential and mixing valves. It offers its products under the FERRO, Metalia, Novaservis, Nobless, FDesign, and Titania brands. The company was founded in 1992 and is headquartered in Skawina, Poland.

1032 Ferrovial, S.A., together with its subsidiaries, develops transport infrastructure, mobility solutions, civil works, and buildings projects in Spain and internationally. It operates in four segments: Construction, Toll Roads, Airports, and Energy Infrastructures and Mobility. The company designs and builds various public and private works; and develops, finances, and operates toll roads. Its construction activities include highways, tunnels, bridges, and airports; designs, constructs, operates and maintains potable water treatment plants, urban and industrial waste water treatment plants, and desalination plants. In addition, the company manufactures and markets asphalt and bitumen products; develops, operates, and manages airports; and promotes, constructs, and operates energy generation and transmission infrastructures. Further, it provides mobility services, include ZITY, an electric carsharing service application; invests in electric vehicle sector, including cars and associated charging infrastructures; and sells, rents, and maintains hydraulic equipment, jacks, and floating caisson equipment. The company was founded in 1952 and is based in Madrid, Spain.

1033 Ferrum S.A. engages in manufacture and sale of pipes for transmission media in Poland. It offers high frequency weldedinduction steel pipes; square, rectangular, and circular hollow sections; and helically and longitudinally submerged arcwelded steel pipes. The company also provides extruded threelayer polyethylene and polypropylene coatings on steel pipes; internal protective cement lining for steel pipes and fittings; and internal epoxy lining for steel pipes. Its pipes are used in heating, gas, and water and sewages systems, as well as in construction applications. The company was formerly known as Huta Ferrum S.A. and changed its name to Ferrum S.A. in 2004. Ferrum S.A. was founded in 1874 and is headquartered in Katowice, Poland.

1034 FGV Holdings Berhad engages in the agribusiness in Malaysia and internationally. The company's Plantation segment cultivates, harvests, produces, and processes fresh fruit bunches into crude palm oil (CPO) and palm kernel (PK); refines CPO; fractionates refined bleached deodorized palm oil and olein; crushes PK; processes and sells biodiesel products; and produces fatty acids and glycerin, graphene and nanotubes, and consumer bulk and packed products. It is also involved in trading CPO and security services; rubber processing; research and development activities; processing fertilizers; and selling planting materials. The

company's Sugar segment refines, sells, and markets refined sugar and molasses. The company's Logistics and Others segment provides bulking and transportation facilities and services, engineering, travel, and information technology. It also operates residential properties; provides shared, treasury, commodity trading, property and project management, development, and security services; procures, processes, and supplies fatty acids; produces, exports, and sells rubber blocks and other processed rubber, rubber cuplump, and other agriculture products. In addition, the company operates, manages, and maintains railroads; provides management and consulting, travel and tour agency; provision of liquid general cargo transportation, courier and forwarding services, and jetty operation services; automation and mechanization; and stores, handles, and exports oil, oleochemical, latex concentrate, and vegetable oil. It manages a land bank of 439,725 hectares with a planted area of 343,399 hectares. The company was formerly known as Felda Global Ventures Holdings Berhad and changed its name to FGV Holdings Berhad in June 2018. FGV Holdings Berhad was incorporated in 2007 and is headquartered in Kuala Lumpur, Malaysia. FGV Holdings Berhad operates as a subsidiary of Lembaga Kemajuan Tanah Persekutuan.

1035 Fiamma Holdings Berhad engages in the distribution and servicing of electrical home appliances primarily in Malaysia. It operates through three segments: Trading and Services, Property development, and Investment Holding and Property Investment. The company distributes and serves electrical home appliances and fittings, sanitaryware, kitchen and wardrobe system and builtin furniture, household products, bathroom accessories, home furniture, medical devices, and healthcare products through its inhouse brands including Elba, Faber, Rubine, MEC, Tuscani, Haustern, Ebac, Tuttnauer, Spirit, and Charder as well as through its international brands, such as Braun, Speed Queen, Omron, and Beurer. In addition, the company develops residential and commercial properties. Further, it is involved in the letting of investment properties; provision of warehousing and logistics services; and provision of after sales services of electrical home appliances. In addition, the company engages in the operation, maintenance, and management of data centers and other data processing facilities and equipment in relation to blockchain technologies; operation of digital assets trading platform; provision of blockchain strategic advisory services; and research, cultivation, and extraction of hemp seed, cannabidiol, and industrial hemp. The company was formerly known as SHIS Limited and changed its name to Grandshores Technology Group Limited in August 2018. Grandshores Technology Group Limited was incorporated in 2016 and is based in Tsim Sha Tsui, Hong Kong.

1189 Granite is a Canadianbased REIT engaged in the acquisition, development, ownership and management of logistics, warehouse and industrial properties in North America and Europe. Granite owns 108 investment properties representing approximately 45.3 million square feet of leasable area.

1190 Graphex Group Limited engages in the processing and sale of graphite and graphene products in Mainland China, Hong Kong, and internationally. It provides spherical graphite to produce LiIon battery anodes; coated spherical graphite that is used to form the LiIon battery anode; and synthetic graphite. The company also offers related graphene products comprising highpurity graphite for magnesia carbon bricks, high grade refractories, stabilizers, carbon brushes, and fireresistant composite materials; and micronized graphite for corrosionresistant coating, lubricants, and other new composite materials. In addition, it provides landscape architecture and catering management services. The company was formerly known as Earthasia International Holdings Limited and changed its name to Graphex Group Limited in April 2021. Graphex Group Limited was founded in 1981 and is headquartered in Causeway Bay, Hong Kong.

1191 Great Chinasoft Technology Co.,Ltd. operates as a chemical company in China. The company offers fine chemicals, including papermaking chemicals and pesticide intermediates. It also engages in the supply chain management business that primarily focuses on the field of enterprise mobile information services, which provides ICT product supply, mobile solution consulting, implementation, operation, and maintenance management, technical training, and full life cycle services of mobile devices. The company was formerly known as Suzhou Tiaa Specialty Chemicals Co., Ltd. and changed its name to Great Chinasoft

Technology Co.,Ltd. in June 2018. Great Chinasoft Technology Co.,Ltd. was founded in 1999 and is headquartered in Suzhou, China.

1192 Greatek Electronics Inc. engages in the packaging and testing of various integrated circuits (IC) in Taiwan, the United States, Europe, Asia, and Africa. The company offers packaging products, such as traditional lead frame, quad flat nolead, ball grid array, flip chip, 8 wafer level chip scale, bumping technology, backend integration for wafer level chip scale, flash memory, BGA/LGA production, FC/CSP, automotive packages, and security IC assembly. It also offers wafer and final testing services, including testing program development, platform conversion, devices correlation, engineering, test peripheral equipment, and spare parts development service for logic, mix mode, and analog devices; IC semiconductor package assembly services; and package design services for electrical and thermal characterization. In addition, the company provides leadframe base packages, including PDIP, transistor outline/small outline transistor/thin small outline transistor packages, smalloutline packages (SOP), miniSOP, shrink SOP, thin shrink SOP, small outline Jleaded and plastic leaded chip carrier packages, quad flat package (QFP), low profile QFP, and thin QFP. The company was formerly known as He Teh Integrated Circuit Co. Ltd. Greatek Electronics Inc. was founded in 1972 and is headquartered in Miaoli, Taiwan.

1193 Greatime International Holdings Limited, an investment holding company, manufactures and sells innerwear products and knitted fabrics for infants and adults in the People's Republic of China, Japan, the United States, Africa, Italy, Taiwan, Hong Kong, and Myaar. The company operates through Innerwear Products and Knitted Fabrics segments. It is involved in the provision of functional and customized fabrics for lingerie and apparel brands; and a range of innerwear for men, women, toddlers, and infants, including Tshirts, vests, longsleeves pullovers, men's briefs and boxers, women's panties, long johns, and toddlers' and infants' body suits and bibs. It also provides logistics services; engagement and digital management of football clubs; and organizing races and sporting events under the Xterra and Uphill brands. The company offers its products through physical stores and ecommerce channels. Grupo SBF S.A. was founded in 1981 and is headquartered in São Paulo, Brazil.

1220 GTG Wellness Co., Ltd. provides beauty care solutions. The company offers medical devices and body analyzers; and aesthetic, home care, and cosmetic equipment. It exports its products to the United States, Europe, the Middle East, and Oceania. GTG Wellness Co., Ltd. was founded in 1999 and is headquartered in Yongin, South Korea.

1221 Guangdong Hong Kong Greater Bay Area Holdings Limited, together with its subsidiaries, develops, operates, and sells residential properties, and commercial trade and logistics centers in the Mainland China. It operates in two segments, Property Development and Related Services; and Trading Business. The Property Development and Related Services segment provides develops and sells properties; and valueadded business, such as property management and rental services. The Trading Business segment engages in the trading of nonferrous metals and chemical products. The company develops trade centers under the YOUNGO and HYDOO brand names. It also provides investment management and finance leasing services. The company was formerly known as Hydoo International Holding Limited and changed its name to Guangdong Hong Kong Greater Bay Area Holdings Limited in August 2020. The company was founded in 1995 and is headquartered in Shenzhen, the People's Republic of China. Guangdong Hong Kong Greater Bay Area Holdings Limited is a subsidiary of China Guangdong " Hong Kong Greater Bay Area Holdings Limited.

1222 Guangdong Aofei Data Technology Co., Ltd. engages in the data center and communication integrated operation businesses in China. It offers server hosting and rental, professional cloud computing and big data application, and BGP interconnection services. The company is based in Guangzhou, China.

1223 Guangdong Baolihua New Energy Stock Co., Ltd. engages in the power and finance business in China. The company generates power using coal and wind sources. It also provides financial investment services; and constructs houses, as well as provides highway and bridges, and municipalities engineering contracting services. Guangdong Baolihua New Energy Stock Co., Ltd. is based in Guangzhou, China.

1224 Guangdong Chant Group Inc. engages in the environmental thermal energy business in China. It engages in the agricultural and forestry biomass, domestic waste, and coalfired power generation activities; and produces heat for industrial parks and residential buildings. The company was founded in 1985 and is headquartered in Zhongshan, China.

1225 GUANGDONG CHJ INDUSTRY CO.,LTD. produces and sells jewelries and fashion consumer goods. It offers rings, necklace, pendant, ear studs, earring, bracelet, ornaments, and other jewelry products made of gold, diamond, platinum, pearl, and jackpot materials. The company was founded in 1996 and is based in Shantou, China.

1226 Guangdong Create Century Intelligent Equipment Group Corporation Limited, together with its subsidiaries, engages in the research, development, production, and sale of highend intelligent equipment business in China. The company offers CNC machine tool products, including drilling and tapping machines, vertical machining centers, horizontal machining centers, gantry machining centers, CNC lathes, engraving and milling machines, and precision processing equipment, such as laser cutting, hot bending, and walking machines. Its products used in 3C consumer electronics, 5G industry chain, machinery manufacturing, medical equipment, new energy vehicles, auto parts, rail transit, aerospace, petrochemical, wind power, shipbuilding, and engineering machinery industries. The company was formerly known as Guangdong Create Century Intelligent Equipment Corporation Limited and changed its name to Guangdong Create Century Intelligent Equipment Group Corporation Limited in December 2020. Guangdong Create Century Intelligent Equipment Group Corporation Limited was founded in 2003 and is based in Dongguan, China.

1227 Guangdong Dongfang Precision Science & Technology Co., Ltd. engages in the research and design, development, production, sale, and servicing of corrugated packaging equipment in China and internationally. The company offers corrugator lines used for the production of corrugated boards; intelligent corrugated packaging machinery used to produce and process corrugated boards into corrugated boxes; intelligent plant platform to help the customers realise a digital and networkbased equipment layer, connect business, cash, and information flows; and outboard motor products used in water recreation, fishing, water traffic, emergency rescue, shore landing, and maritime patrol. The company was founded in 1996 and is headquartered in Foshan, the People's Republic of China.

1228 Guangdong Failong Crystal Technology Co.,Ltd. engages in the research and development, manufacture, and sale of surface mounted quartz crystal components and oscillators in China. Its products are used in electronics, such as consumer electronics, intelligent terminals, network equipment, industrial equipment, intelligent security, automotive electronics, etc. The company was formerly known as Dongguan Youlian Electronics Co., Ltd. Guangdong Failong Crystal Technology Co.,Ltd. was founded in 2002 and is headquartered in Dongguan, China.

1229 Guangdong Highsun Group Co.,Ltd. owns and operates urban complexes for leased property operations and selfbuilt real estate projects in China. It owns various themed shopping malls, professional wholesale markets, commercial complexes, and shopping centers. The company also offers intelligent warehousing and logistics services, industrial parks, cloud data, hotel services, new energy vehicles, and charging operations. In addition, it provides Internet microfinance, financial leasing, commercial factoring, and thirdparty payment services. The company was founded in 1991 and is based in Guangzhou, China.

1230 Guangdong Homa Group Co., Ltd. manufactures, sells, and exports refrigerators in China and internationally. It is also involved in various activities, such as Internet lending platform, commercial factoring loans, Internet small loans, loan assistance, as well as bank Internet financial platform technology development services, etc. The company was incorporated in 2002 and is based in Zhongshan, China.

1231 Guangdong Huafeng New Energy Technology Co.,Ltd. processes, manufactures, and sells new energy vehicle electric control and drive systems, and electronic aluminum foils in China and internationally. The company was formerly known as Zhaoqing Hua Feng Electronic Aluminium Foil Co., Ltd. and changed its name to Guangdong Huafeng New Energy Technology Co.,Ltd. in November 2018. Guangdong Huafeng New Energy Technology Co.,Ltd. was founded in 1995 and is headquartered in Zhaoqing, China.

1232 Guangdong Huatie Tongda Highspeed Railway Equipment Corporation engages in the research and development, design, manufacture, sale, and service of highspeed rail transit parts in the People's Republic of China. It offers water treatment, sanitary, backup power, braking, sand dispensing, gear, emergency battery, fire alarm, HAVC, and door systems; air conditioners; and highspeed rail and motor car seats. The company also provides brake pads, sand spreading devices, couplers and drafts, and large road maintenance machinery. It serves railway transportation and EMU, intercity transportation, locomotive, and freight transport industries. The company was formerly known as Guangdong Kaiping Chunhui Co., Ltd. and changed its name to Guangdong Huatie Tongda Highspeed Railway Equipment Corporation in October 2017. Guangdong Huatie Tongda Highspeed Railway Equipment Corporation was incorporated in 1993 and is based in Beijing, the People's Republic of China.

1233 Guangdong Land Holdings Limited, an investment holding company, engages in property development and investment businesses primarily in

Mainland China. The company was formerly known as Kingway Brewery Holdings Limited and changed its name to Guangdong Land Holdings Limited in September 2013. The company was incorporated in 1997 and is headquartered in Central, Hong Kong. Guangdong Land Holdings Ltd. is a subsidiary of Guangdong Investment Limited.

1234 Guangdong Paisheng Intelligent Technology Co.,Ltd produces and sells precision aluminum alloy castings for automobile engines in China. Its products include oil pan assembly, lower cylinder block, gearbox extension chamber assembly, engine front cover assembly, and other traditional auto parts aluminum alloy die castings, as well as shock towers, battery trays, motor shells, inverter housing, cooling housing, cooling cover, motor cover, DC/DC housing, fender bracket, other automotive structural parts, and new energy vehicle parts. The company also engages in design, research and development, production, and sales of precision molds, precision parts, and large hardware structural parts. The company also exports its products to Europe and the United States. In addition, it provides front and rear side panels, motor and charger housing, shock tower, fender bracket, etc. The company was formerly known as Guangdong Hongteo Technology Co., Ltd. and changed its name to Guangdong Paisheng Intelligent Technology Co., Ltd. in February 2019. The company was founded in 2003 and is based in Zhaoqing, China.

1235 Guangdong Senssun Weighing Apparatus Group Ltd. manufactures health measurement and management solutions primarily in China. The company offers electronic kitchen, personal, nutritional, baby scale, and price computing products. It also provides body fat/hydration and mechanical personal scale products. In addition, the company offers wireless body height meter, digital weighing, weighing indicator, dial spring, and platform scale products. Further, the company provides electronic luggage, pocket scale, hand dynamometer, and measuring tape. The company offers product under SENSSUN, CAMRY, and Golden Leaf brands. It also exports products to approximately 80 countries and regions on five continents worldwide. Guangdong Senssun Weighing Apparatus Group Ltd. was founded in 1975 and is based in Zhongshan, China.

1236 Guangdong ShaoNeng Group Co., Ltd. engages in hydropower and biomass power generation activities in China. It has a total installed capacity of approximately 1.04 million kilowatts. The company was founded in 1993 and is based in Shaoguan, China.

1237 Guangdong Shirongzhaoye Co., Ltd., together with its subsidiaries, engages in the development and operation of real estate properties in China. The company also operates in engineering construction, landscaping, property management, real estate marketing, bulk commodity trade, supply chain services, public utilities, and other related fields. Guangdong Shirongzhaoye Co., Ltd. was founded in 1998 and is headquartered in Zhuhai, China.

1238 Guangdong Songfa Ceramics Co.,Ltd. designs, produces, and sells ceramic products worldwide. The company offers resin products, ceramic pigments, packaging products, sanitary ware, gifts, handicrafts, daily necessities, porcelain clay, enamel and iron products, table clocks, stainless steel, aluminum, mango, wood products and other ceramic related accessories, such as rattan, bamboo, wood, cloth, wax, glass, plastic, hardware, stainless steel, electrical appliances, and plumbing devices. It also engages in the wholesale and retail of leather and leather products, daily utensils and groceries, kitchen equipment and supplies, textiles, knitwear, ceramics, glassware, household appliances, furniture, daily necessities, and raw materials; retail of ceramic decoration materials; and Internet commodity retail. In addition, the company provides ceramic matching products for lamps, rattan, bamboo, wood, cloth, wax, and packaging; conference and exhibition services; technology

development, technology transfer, technology consulting, and technical services; computer system integration; computer technology research and experimental development; technical promotion services; sales of hotel supplies, ceramic products, handicrafts, and furniture; undertaking exhibitions; enterprise management; import and export of goods, technology import and export, agency import and export; and economic information consultation. Further, it offers entrusted management of equity investment funds; equity investment; equity investment management; investment consulting services; and investment management services. The company was founded in 1985 and is headquartered in Chaozhou, China.

1239 Guangdong Taiantang Pharmaceutical Co., Ltd. engages in the research, development, production, and sale of Chinese patent medicines in China. It offers medicines in the forms of creams, ointments, tablets, capsules, pills, and solutions for the areas, including reproductive health, skin health, cardiovascular, cerebrovascular, dermatology, antiinflammatory, and other areas, as well as acquires, cultivates, processes, and sells Chinese medicinal materials. The company was founded in 1995 and is headquartered in Shantou, China.

1240 Guangdong Tloong Technology Group Co., Ltd. researches, develops, and sells various printing ink products in China and internationally. The company offers waterbased, solvent, and offset printing inks for chemical industry; and disproportionated rosin, turpentine, pinene, disproportionated rosin acid potassium soap, etc. for forest chemical industry. It also provides marketing planning, advertising, software, corporate image planning, public relations, creative planning, etc. services. The company was formerly known as Guangdong Sky Dragon Printing Ink Group Co., Ltd. and changed its name to Guangdong Tloong Technology Group Co., Ltd. in November 2020. Guangdong Tloong Technology Group Co., Ltd. was founded in 1993 and is headquartered in Zhaoqing, China.

1241 Guangdong Vanward New Electric Co., Ltd. provides solutions for kitchen and bathroom appliances and hot water thermal energy systems in China and internationally. It offers gas water heaters, gas boilers, and electric water heaters; heat pumps and electric fireplaces; and range hoods, ovens, hobs, outdoor gas products, and small home appliances. The company was founded in 1993 and is headquartered in Foshan, China.

1242 Guangdong Xianglu Tungsten Co., Ltd. manufactures and sells tungsten products in China. It offers tungsten carbide powder, tungsten powder and trioxide, and blue tungsten oxide products, as well as carbide alloy products. The company also exports its products. Guangdong Xianglu Tungsten Co., Ltd. was founded in 1997 and is based in Chaozhou, China.

1243 Guangdong Xinhui Meida Nylon Co., Ltd. engages in the manufacture and sale of nylon products in China. The company offers nylon6 chips and spinning materials, multifilaments, elastic yarns, polyamide and nylon fibers, and fabrics. Guangdong Xinhui Meida Nylon Co., Ltd. was founded in 1984 and is based in Jiangmen, China.

1244 Guangdong Zhengye Technology Co., Ltd. engages in the research and development, production, sale, and aftersale servicing of precision inspection equipment and electronic materials in China. The company develops and produces Xray machines, UV laser cutting machines, automatic reinforcement machines, UV laser drilling machines, PCB cutting machines, hole checkers, TDR impedance testers, ionic contamination testers, thermal resistance testers, and other precision equipment for use in PCBs and lithium batteries. It also offers lab testing machines, laser marking machines, and PCB manufacturing machines. In addition, the company provides consumable materials, such as filtration purification, precision photosensitive, dedicated plastics, and precision positioning products, as well as other electronic materials for use in PCB, Lithium battery, flat panel display, semiconductor, and other manufacturing industries.

Guangdong Zhengye Technology Co., Ltd. also exports its products. The company was founded in 1997 and is headquartered in Dongguan, China.

1245 Guanghui Energy Co., Ltd. operates in the energy development business in China. Its principal products include coal, LNG, coal tar, alcohol ether, and petroleum. The company involved in natural gas liquefaction, coal mining, coal chemical conversion, and oil and gas exploration and development activities, as well as energy logistics services. It also trades in crude oil. The company was formerly known as Xinjiang Guanghui Industrial Co., Ltd. and changed its name to Guanghui Energy Co., Ltd. in June 2012. Guanghui Energy Co., Ltd. was founded in 1994 and is headquartered in Urumqi, China.

1246 Guangxi Bossco Enviroental Protection Technology Co.,Ltd. provides enviroental management, professional technical, and operations services in China and internationally. The company operates water plants, sewage treatment plants, smart sanitation, sludge, and contaminated soil disposal terminals, etc. It also provides urban and rural enviroental services, including urban black odor water treatment services; water supply and drainage integration projects; and sewage treatment system equipment. In addition, the company offers water enviroent treatment technology that provides quantitative treatment and resource utilization of highconcentration organic wastewater such as landfill leachate, chemical, and pharmaceutical waste, as well as provides key equipment and technology for cleaning pulp bleaching, largescale chlorine dioxide preparation system, and related chemical technology. Further, it provides sodium hypochlorite generator disinfection equipment and chlorine dioxide solid disinfectant series for water supply/tap water disinfection, sewage treatment, sanitation disinfection, customs epidemic prevention, breeding and disinfection, food processing, fruit and vegetable preservation, air disinfection, enviroental disinfection, etc., and consulting services for the enviroental protection project consulting, enviroental impact assessment, testing, and design. The company also exports its technologies and products. Guangxi Bossco Enviroental Protection Technology Co.,Ltd. was founded in 1999 and is headquartered in Nanning, China.

1247 Guangxi Guidong Electric Power Co., Ltd. together with its subsidiaries, engages in the power generation and supply business in China. It is also involved in the oil trading and other businesses, as well as sells building and decorative materials. The company was incorporated in 1998 and is based in Hezhou, China.

1248 Guangxi Wuzhou Zhongheng Group Co., Ltd. researches, develops, manufactures, and sells pharmaceuticals in China. The company offers pills, capsules, and injections and tablets for cardiovascular and cerebrovascular diseases, bruises, gynecological diseases, and respiratory diseases. It also produces health food products under the DOUBLE MONEY brand, as well as healthcare functional beverages, smokable turtle pastes, jellytype turtle paste, etc. The company is based in Wuzhou, China.

1249 GuangYuYuan Chinese Herbal Medicine Co., Ltd. manufactures and sells Chinese medicinal products. The company offers traditional and fine Chinese medicines, as well as health wines. It provides its products in the form of pills, powders, tablets, hard capsules, granules, oral liquids, decoctions, and wines. The company was formerly known as Topsun Science And Technology Co Ltd. and changed its name to GuangYuYuan Chinese Herbal Medicine Co., Ltd. in July 2013. GuangYuYuan Chinese Herbal Medicine Co., Ltd. is based in Xi'an, China.

1250 Guangzhou Development Group Incorporated engages in the integrated energy business in China. The company generates and sells thermal electricity with an installed capacity of 4.03 million kilowatts;

distributes natural gas through pipeline network; supplies coal; and constructs oil depots. It also generates electricity using photovoltaics, wind power, and charging piles. Guangzhou Development Group Incorporated was founded in 1997 and is based in Guangzhou, China. Guangzhou Development Group Incorporated operates as a subsidiary of Guangzhou Industrial Investment Holding Group Co. Ltd.

1251 Guangzhou Goaland Energy Conservation Tech. Co., Ltd. develops and supplies pure water cooling equipment for power electronic devices in China and internationally. It offers water cooling equipment for HVDC converters; flexible AC transmission and distribution thyristor valves; and renewable energy converters. The company was founded in 2001 and is headquartered in Guangzhou, China.

1252 Guangzhou Hangxin Aviation Technology Co., Ltd. operates as a technology-oriented aviation company in the People's Republic of China. The company offers heavy and light maintenance, and component maintenance services; asset management services, such as aircraft project evaluation, asset disposal, aircraft teardown, design and manufacturing, engineering services, technical training, etc.; airborne equipment research and development; and aviation test equipment research and development. Guangzhou Hangxin Aviation Technology Co., Ltd. was founded in 1994 and is based in Guangzhou, the People's Republic of China.

1253 Guangzhou Risong Intelligent Technology Holding Co., Ltd. engages in the research and development, manufacture, and sale of robots, intelligent technology equipment, and other solutions in China and internationally. It offers industrial robots, intelligent robot equipment, and intelligent technology equipment for welding applications in automobile, automotive, elevator, motorcycle, and 3C electronic industries. The company was founded in 1995 and is based in Guangzhou, China.

1254 Guangzhou Seagull Kitchen and Bath Products Co., Ltd. researches, develops, produces, and sells kitchen, bathroom, residential and commercial products in the People's Republic of China and internationally. It offers faucet components, sanitary ware, ceramics, bathtubs, shower rooms, bathroom cabinets, integral cabinets, tiles, and other parts and components, as well as smart homes, ceramic toilet and sink, smart toilet, and sintered stone. Guangzhou Seagull Kitchen and Bath Products Co., Ltd. was founded in 1958 and is based in Guangzhou, China.

1255 Guangzhou Shangpin Home Collection Co., Ltd. engages in the production and sale of customized wholehouse furniture in China and internationally. It offers wardrobes, cabinets, bookcases, TV cabinets, beds, and other wholehouse panelstyle customized furniture products; and supporting home products, prefabricated background walls, soft accessories, electrical appliances, and other home furnishings. The company also provides design software and informatization services, including information systems and software tools used for decoration, furniture, and other spaces and home product design for home furnishing industry; and interior design, online marketing, O2O drainage, and packaging services, as well as engages in the import and export of goods. It offers its products through directly-operated stores and franchised stores, as well as online. The company was formerly known as Guangzhou Shangpin Zhaipei Household Products Co., Ltd. and changed its name to Guangzhou Shangpin Home Collection Co., Ltd. in August 2012. Guangzhou Shangpin Home Collection Co., Ltd. was founded in 2004 and is headquartered in Guangzhou, China.

1256 Guangzhou TechLong Packaging Machinery Co., Ltd. engages in the research, development, production, and sales of liquid packaging machinery and automation equipment. It offers water treatment and

pretreatment systems, blow molding machines, filling machines, container filling machines, blowingfillingcapping monoblock machines, labelling machines, conveying systems, packaging machines, blow molds, spare parts, industrial automation solutions, and industrial software. The company was founded in 1998 and is headquartered in Guangzhou, China.

1257 Guanhao Biotech Co.,Ltd. develops, manufactures, and markets regenerative medicine in China. It offers NormalGEN, a type of biological dura repair patch manufactured from animal tissue; GrandNeuro, an artificial dura patch for dura repairing; ThormalGEN, a biological surgical patch manufactured from animal tissue for surgical repairs; DermalGEN, a wound dressing product manufactured from animal tissue for use on burns, scalds, and wounds due to skin loss or trauma; and IREAL breast patch. The company was founded in 1999 and is based in Guangzhou, China.

1258 Guideline Group Information Technologies Ltd provides information services and professional tools for business users in Israel. The company offers BusinessTech solutions, including customized CRM system, credit solutions, auditor services, business information websites, and other solutions; InvestTech that provides stock market information for professionals and investors in the capital markets; FinTech that offers digital accounting system and solutions in the taxation, labor law, pensions, and financial data for the business; and LegalTech, a system for managing law firms, legal databases, and professional textbooks in the field of law and information sites. The company was formerly known as Trendline Information and Communication Services Ltd. and changed its name to Guideline Group Information Technologies Ltd in September 2022. Guideline Group Information Technologies Ltd was incorporated in 1981 and is based in Tel AvivYafo, Israel.

1259 Guinness Nigeria Plc engages in brewing, packaging, marketing, and selling whisky, vodka, liqueur, gin, spirits, beers, readytodrink products, and nonalcoholic drinks primarily in Nigeria. The company offers its products under the Guinness Foreign Extra Stout, Guinness Smooth, Malta Guinness, Guinness Gold, Harp Lager, Smirnoff Ice, Satzenbrau Lager, Dubic Malt, Snapp, Orijin Spirit Mixed Drink, Orijin Bitters, Smirnoff Ice Double Black with Guarana, Orijin Zero and Orijin Herbal Gin, Baileys Delight, Gordons Moringa, Smirnoff Xl, MrDowellâ€™s, Royal Challenge, Orijin Ready To Drink, Orijin Bitters, Orijin Gin, Guinness Africa Special, Malta Guinness Herbs Lite, Masterâ€™s Choice, Tappers, and Royal Kingdom Lager brands, as well as MrDowells, Royal Challenge, Baileys, Captain Morgan, Tanqueray, Ciroc, Singleton brnads; and Johnnie Walker Red Label, Black Label, Gold Label Reserve, Platinum Label, and Blue Label scotch whisky brands. It also exports its products. The company was incorporated in 1950 and is headquartered in Lagos, Nigeria. Guinness Nigeria Plc is a subsidiary of Guinness Overseas Limited.

1260 Guiyang Xintian Pharmaceutical Co.,Ltd. engages in the research and development, production, and sale of Chinese medicines for various diseases in China. The company offers formulation products, which include hard capsules, gels, mixtures, granules, and tablets. Its products are used for the treatment of antitumor, gynecological, urinary, breast thyroid, blood, heat, oral, anticold, and cardiovascular diseases. The company was founded in 1995 and is based in Guiyang, China.

1261 Guizhou Bailing Group Pharmaceutical Co., Ltd. researches, develops, produces, and sells Chinese medicines in China. The company provides medicines in the form of tablets, capsules, granules, syrups, pills, powders, tinctures, sprays, and ointments for cardiovascular and cerebrovascular diseases, cough, cold, pediatric, and gynecologic

diseases. Guizhou Bailing Group Pharmaceutical Co., Ltd. was founded in 2005 and is based in Anshun, China.

1262 Guizhou Chanhen Chemical Corporation engages in mining and beneficiation of phosphate and processing phosphorus in China. The company offers raw materials, including merchant phosphoric acid, purified phosphoric acid, anhydrous hydrogen fluoride, rock phosphate, and phosphorus ore concentrates; feed additives, such as feed monocalcium phosphates used for pigs, aquaculture, and poultry; fertilizers comprising ammonium polyphosphate, NPK, monoammonium phosphate, and monopotassium phosphate grade fertilizers; and fire protective ammonium phosphate. It also provides animal and crop nutrition, and aquatic water improvement services. The company was founded in 2002 and is based in Fuquan, China.

1263 Guizhou Gas Group Corporation Ltd. operates as a gas enterprise in China. It constructs, supplies, and manages facilities, such as natural gas pipeline, urban gas transmission and distribution systems, liquefied natural gas receiving and reserve supply stations, and gas filling stations. The company was founded in 1995 and is based in Guiyang, China.

1264 Guizhou Salvage Pharmaceutical Co.,Ltd. produces and sells urea, methanol, and compound fertilizers in China. The company offers urea fertilizers under the Chi brand; synthetic ammonia and ammonium sulfate; basic chemical products, such as sulfuric acid, industrial nitrogen, industrial ammonia, and industrial hydrogen, as well as their byproducts. It also produces and sells medicines, medical devices, and health products for diabetes, cardiovascular, dermatology, gynecological, digestive system, endocrine, and psychotropic diseases. The company was formerly known as Guizhou Chitianhua Co., Ltd. Guizhou Salvage Pharmaceutical Co.,Ltd. was founded in 1998 and is based in Guiyang, China.

1265 GuiZhouYongJi Printing Co.,Ltd engages in the packaging and printing business in China and Australia. The company offers support services for cigarette materials, such as cigarette boxes and wrapping papers. It also engages in the paper packaging design, plate making, gravure and offset printing, laser transfer printing, hot stamping, holographic anticounterfeiting, and other printing processes. The company was founded in 1997 and is based in Guiyang, China.

1266 Gulf Keystone Petroleum Limited engages in the exploration, evaluation, and production of oil and gas properties in the Kurdistan Region of Iraq and the United Kingdom. The company operates Shaikan field that covers an area of 280 square kilometers, which is located northwest of Erbil. It also provides management, support, geological, geophysical, and engineering services. The company was incorporated in 2001 and is based in Hamilton, Bermuda.

1267 Gulf Marine Services PLC, together with its subsidiaries, operates selfpropelled selfelevating support vessels (SESVs) in the United Arab Emirates, Saudi Arabia, Qatar, the United Kingdom, and rest of Europe. It operates through KClass Vessels, SClass Vessels, EClass Vessels, and Other Vessels segments. The company offers offshore construction and heavy lifting, accommodation and hotel, well intervention and work over operations, and manpower services for oil and gas industry; and platform maintenance and commissioning, turbine maintenance and commissioning, hotel, crane, and offshore crew transfer services to renewables industry. It operates a fleet of 13 SESVs. The company was founded in 1977 and is headquartered in Abu Dhabi, the United Arab Emirates.

1268 Gulf Petroleum Investment Company K.P.S.C., together with its subsidiaries, provides oil field services to the oil, gas, and petrochemical sectors in Kuwait. The company offers advisory, economic, and technical services to goverents, and oil and petrochemical companies

operating in the fields of marketing, refining, production, investment, finance, planning, marine shipping, and training, as well as other fields. In addition, it conducts and publishes market research, as well as provides information related to the oil and petrochemical industry; owns facilities, equipment, machinery, and various devices used in the oil and petrochemical industry, including manufacturing plants, transportation products, and others; acts as agents and representatives for goverents, and oil and petrochemical companies; and owns and manages gas stations, as well as provides related services. Gulf Petroleum Investment Company K.P.S.C. was incorporated in 1998 and is based in Kuwait City, Kuwait.

1269 GungHo Online Entertaient, Inc. plans, develops, operates, and distributes online computer games, smartphone applications, and console games. The company was formerly known as ONSale Co., Ltd. and changed its name to GungHo Online Entertaient, Inc. in August 2002. GungHo Online Entertaient, Inc. was founded in 1998 and is based in Tokyo, Japan.

1270 GuoCheng Mining CO., Ltd. engages in the mining of nonferrous and ferrous metals. The company's products include zinc concentrates, lead concentrates, copper concentrates, and sulfur concentrates, as well as pyrite powders, industrial sulfuric acid, and secondary iron concentrates. It also engages in the trading of nonferrous metal mineral products; and precious and rare metals, such as gold and silver products. The company was formerly known as Jianxin Mining Co., Ltd. and changed its name to GuoCheng Mining Co., Ltd. in August 2018. The company is based in Chengdu, China.

MUE, TOM GREYHOUND, and FOURM names. The company was founded in 1987 and is based in Seoul, South Korea.

1298 Hangjin Technology Co., Ltd. manufactures and sells chloralkali chemical products and electronic products in China. Its products include caustic soda, liquid chlorine, chlorinated phenylene oxide, propylene oxide, and propane. The company also offers memory chips, interface chip simulation, graphics, special PG FPGA, multichip components, RF chips, communication antennas, and other electronic products; and communication radio frequency products. The company was formerly known as Fangda Jinhua Chemical Technology Co., Ltd and changed its name to Hangjin Technology Co., Ltd. in April 2018. Hangjin Technology Co., Ltd. was founded in 1939 and is based in Wuhan, China.

1299 Hangzhou Advance Gearbox Group Co., Ltd. designs and manufactures transmission and powder metallurgical products in China. The company offers marine gearboxes, hydraulic clutches, hydraulic transmissions and CPPs, FPPs, and tunnel and azimuthing thrusters for use in fishing, transport, working, special boats, ocean largepower vessels, etc. It also provides transmissions, torque converters, constructional vehicle axles, etc. for earthmoving, compacting, excavating, transport, concrete, railway track, coal mine machinery, etc.; and industrial vehicle applications. In addition, the company develops automobile transmissions, such as light bus, car, and commercial vehicle transmission technologies; HC and T series transmissions for heavy trucks, large or medium city buses, and highway passenger and commercial cars; pureelectric and hybrid vehicle transmissions for use in pure electric and public buses, smallsize fourwheeled electric vehicles, large electric city buses, and hybrid drive cars; and AMT transmissions for large and medium city buses. Further, it offers windenergy gearboxes; industrial products for building material, food processing, petrochemical engineering, electric power, mining, coal, transportation, rubber and plastic, hoisting, test rig, railway and ocean engineering, and new energy applications; and agricultural transmissions for harvester and baler applications. Additionally, the company provides friction materials and P/M structural parts for use in clutching and braking applications on ship, construction, agricultural, mining machineries, heavy and special vehicles, and universal machineries, as well as large highprecision gears. It also exports products to Southeast Asia, Europe, the Middle East, and other regions. Hangzhou Advance Gearbox Group Co., Ltd. was founded in 1960 and is headquartered in Hangzhou, China.

1300 Hangzhou Anysoft Information Technology Co., Ltd. provides mobile reading, information, and other valueadded telecommunications services in China. The company offers mobile reading services for online literature, published books, magazines, newspapers, radio broadcasts, quyi talks, and teaching through its reading platform, thirdparty platforms, and telecom operatorsâ€™ reading platforms. It also engages in the research, development, manufacture, and sale of broadband network terminal equipment that provides multiple service network interfaces, such as data access, WiFi access, multimedia audio and video, and voice; electronic vacuum device; intelligent network settop boxes; DVB digital settop boxes; smart home gateways; smart networking and optical fiber access equipment; smart routers; IoT pansmart terminal equipment; IoT panintelligent terminal devices, including cloud video terminals, smart security devices, and smart home devices; and cloud video terminals, security cameras, smart doorbells, walkietalkies, smart speakers, smart robots, home AR and VR devices, etc. In addition, it is involved in equipment repair, electronic components retail, software development, and power electronic components and Integrated circuit chip sale business.

Hangzhou Anysoft Information Technology Co., Ltd. was founded in 2002 and is based in Hangzhou, China.

1301 Hangzhou Century Co., Ltd. provides electronic article surveillance (EAS) and radio frequency identification system (RFID) solutions in the People's Republic of China and internationally. It offers RFID products, such as inlays and tags, apparel tags, laundry tags, asset tracking tags, and hardware; EAS products comprising theft prevention systems, round or pencil tags, fireproof ink tags and bottle tags, function tags, alarming tags, RF labels, safers; electronic shelf label products, including labels, handheld readers, base stations, and accessories; and display security solution and smart shelf counters. Its products are used in the retail industries, such as apparel and fashion, hypermarkets and supermarkets, beauty and personal care, food and beverage, and digital and DIY stores; and supply chain and logistics, healthcare, hospitality, and manufacturing industries. The company was founded in 2003 and is headquartered in Hangzhou, the People's Republic of China.

1302 Hanil Iron & Steel Co., Ltd manufactures and sells steel products in South Korea. The company offers steel plates and pipes, section steels, and others; and construction materials, as well as hotrolled products used in automobiles, marine machinery, construction, and boilers and structures. It also engages in warehousing; marine freight transport; and construction and civil engineering equipment rental and sales businesses. The company was founded in 1957 and is headquartered in Seoul, South Korea.

1303 Hanil Vacuum Co., Ltd. designs, manufactures, and sells vacuum coating systems in South Korea, China, the United States, and internationally. The company's vacuum coating systems are used for manufacturing mobile phone, precision optics, ophthalmic lens, and case and accessories products. It also provides also provides repair and refurbishment services; spare parts and consumables; and components, such as hanil optical monitoring systems, and electron and ion beam sources. The company was founded in 1988 is headquartered in Incheon, South Korea.

1304 Hanjin Transportation Co., Ltd. provides transportation and logistics services in South Korea and internationally. The company provides inland transportation services; and stevedoring services for cargoes, including containers, steel products, grains, and automobiles. It is also involved in the shipping of heavy cargoes, such as containers, steel products, coal, etc.; provision of warehousing, freight forwarding, express courier, and small package delivery services; and commercial vehicle, rail carriage, and industrial heavy equipment maintenance services. In addition, the company offers packaging and moving services, such as industrial packing, and office and factory relocation; transportation for sports events, exhibitions and performances/packing, customs clearance, and air/ocean transport/delivery; and migration of emigrants and residents, and trunk room. The company was founded in 1945 and is headquartered in Seoul, South Korea.

1305 Hankook Tire & Technology Co., Ltd. manufactures, distributes, and sells tires worldwide. The company provides tires for electric vehicles, passenger cars, SUVs, light trucks, buses, and trucks. It provides its products under the Hankook, Laufenn, and Kingstar brands. The company was formerly known as Hankook Tire Co., Ltd. and changed its name to Hankook Tire & Technology Co., Ltd. in May 2019. Hankook Tire Co., Ltd. was founded in 1941 and is headquartered in Seoul, South Korea.

1306 Hai Science Co., Ltd., through its subsidiaries, manufactures and sells pharmaceutical products in Korea and internationally. It develops drugs in the areas of diabetes and anticancer. The company also offers drug substances, general medicines, health functional foods, and

nutrition and health products and services. In addition, it operates an online pharmacy; and offers pharmaceutical management automation systems. The company was formerly known as Hai Holdings Co., Ltd. and changed its name to Hai Science Co., Ltd. in March 2012. Hai Science Co., Ltd. was founded in 1973 and is based in Seoul, South Korea.

1307 HAI Semiconductor Co., Ltd. manufactures and sells semiconductor equipment in South Korea and internationally. The company offers vision placement equipment; flip chip, TSV dual stacking, TC, flip chip, jumbo panel flip chip, and die flip chip bonders; and EMI shield vision attach and detach, EMI shield vision placement, EMI shield tape mounter, EMI shield tape laser cutting, EMI shield tape demounter, vision inspection, and converlay attach equipment. It also provides power ECU auto, test handler, vision placement, trim, and form/singulation devices, as well as 3D vision inspection equipment; auto mold, compression auto mold, mechanical mold press, and hydraulic mold press equipment; laser marking, laser wafer marking, laser ablation, laser cutting, and laser cutting/deflash equipment. In addition, the company offers cam press trim and form, micro cam press, CSP singulation, pick and place, die soater, strip mounter, and test equipment. HAI Semiconductor Co., Ltd. was founded in 1980 and is based in Incheon, South Korea.

1308 HannStar Board Corporation produces and sells print circuit boards in Taiwan. Its products are used in game consoles, television, personal computers, networking equipment, automotive electronics, liquid crystal displays, set top boxes, servers, wireless stereo, smart home appliances, white appliances, etc. The company also engages in the development and leasing of residential and buildings; real estate sale; manufacturing of mechanical equipment and electronic parts; waste recycling; sale and waste water treatment; property management; industrial plant rental; production and sales of auto electronic parts; and mold assembly and manufacturing. The company was formerly known as Pacific Science and Technology Industrial Co., Ltd. and changed its name to HannStar Board Corporation in December 1998. HannStar Board Corporation was incorporated in 1989 and is based in Taoyuan City, Taiwan.

1309 HannsTouch Solution Incorporated manufactures and sells touch panels in Taiwan, South Korea, China, and Europe. The company offers touching solutions for AMOLED and LCD monitors, wearable devices, cellphones, tablets, laptops, onepiece forming PC and industrial monitors, etc.; and TFT backplane solutions for RFID, ebook, eboard, etc. It also engages in the leasing of properties; hotel business; and food and beverage services. The company was incorporated in 1999 and is based in Tainan City, Taiwan.

1310 Hanon Systems manufactures, distributes, and sells automotive thermal and energy management solutions for conventional, electric, hybrid, fuel cell, and autonomous vehicles in South Korea, Europe, Asia, and the Americas. The company offers heating ventilation, and air conditioning (HVAC) systems; and radiators, compressors and clutches, charge air coolers, exhaust gas recirculation modules, electronic coolant pumps and valves, electronic waste gate actuators, cold storage evaporator, and electronic throttle bodies. It also provides fluid transport products, including refrigerant lines, coolant lines, transmission oil cooler lines, accumulators, receiver driers, internal heat exchangers, and metal seal fittings. In addition, the company offers automatic and manual front and rear temperature controls that operate the HVAC systems; cluster ion generators; and cooling modules, such as radiators, condensers, fans, and shrouds. Further, it is involved in the development, technology consultation, import, and export of auto parts. The company was formerly known as Halla Visteon Climate Control Corporation and changed its name to Hanon Systems in August 2015. Hanon

Systems was founded in 1986 and is headquartered in Daejeon, South Korea. Hanon Systems is a subsidiary of Hahn & Co. Auto Holdings Co., Ltd.

1311 Hans Energy Company Limited, an investment holding company, provides terminal, jetties, storage tanks, and warehousing and logistic services for petroleum, liquid chemical, and gas products in the People's Republic of China. The company operates through three segments: Terminal Storage, Trading, and Retail. It owns and operates a liquid product terminal. The company also engages in the wholesale and trading of oil and petrochemical products, as well as operation of a filling station. In addition, it provides various value-added services in its ports and storage tank farms, as well as offers administrative services. The company was formerly known as Wisdom Venture Holdings Limited and changed its name to Hans Energy Company Limited in 2005. The company was founded in 1993 and is based in Wan Chai, Hong Kong. Hans Energy Company Limited is a subsidiary of Vand PetroChemicals (BVI) Company Limited.

1312 Hansen Technologies Limited develops, integrates, and supports billing systems software for the energy and utilities, and communications and media sectors. It provides CreateDeliverEngage suite, a set of software applications; and consulting services related to billing systems, as well as sells billing applications. The company also offers various professional services in relation to customer billing systems and IT outsourced services covering facilities management, systems and operations support, network services, and business continuity support; license, support, and maintenance services; and sells hardware and software. In addition, it provides software products services, such as architecture consulting, solution delivery, systems integration, managed, software learning and training, and product support services; cloud and hosting services; and data protection and disaster recovery services. The company operates in Australia, New Zealand, Asia, North America, Central America, Latin America, Europe, the Middle East, and Africa. Hansen Technologies Limited was founded in 1971 and is headquartered in Melbourne, Australia.

1313 Hanshang Group Co., Ltd. primarily engages in the retail business. It is also involved in medicine, medical equipment, assisted reproduction, healthy drinks, and exhibition operations. The company was founded in 1990 and is based in Wuhan, China.

1314 Hansol IONES Co., Ltd. engages in the manufacture and sale of precision parts for semiconductors and display products in South Korea. It is involved in the design and manufacture of machining equipment, special coating of spare parts, and remodeling of equipment; and cleaning and coating of semiconductor parts. The company also provides TFT carriers, backing plates, plating masks, ground shields, mask cases, outer masks, gate valves, hot plates, spin chucks, dark space shields, susceptors, probe frames, exposure stages, coater trays, laser sealing masks, TI and graphite crucibles, inner plates, and TI nozzles for LCD and OLED applications; and mini-environmental cleaner systems. In addition, it offers optical bonding machines and OCA film attach machines; and other display equipment that includes gross test, glass unpacking equipment, PCB cleaning jigs, rubbing rollers, glass scribes, particle inspecting equipment, vacuum stickers, and visual jigs. Further, the company provides chemical air filters, absorption materials, and indoor air purifier filters for semiconductor and display equipment to protect from particulate pollutants, such as NO_x and SO_x; and LED lighting products and pump parts. The company was formerly known as IONES CO., Ltd. and changed its name to Hansol IONES Co., Ltd. in August 2022. Hansol IONES Co., Ltd. was founded in 1993 and is based in Anseongsi, South Korea.

1315 Hansongneotech Co.,Ltd. manufactures and sells fine metal mask equipment and inspection equipment related to the organic material deposition process in South Korea. The company is involved in the organic lightemitting diode (OLED) mask process equipment, OLED thin film encapsulation process equipment, OLED module process equipment, white OLED mask tensioner, and flexible laminator businesses. It also provides AMOLED products, such as OLED mask line and films; and energy products, including color glass spray coating line, solar cell tabbing machines, and solar laminators, as well as batteries. The company was founded in 1990 and is headquartered in Gumi, South Korea.

1316 Hanssem Co., Ltd. manufactures and distributes kitchen furniture and interiorrelated products in the United States and China. It also focuses on home interior field related products. The company offers furniture, appliances, household accessories, fabric products, etc. for kitchen, bedroom, living room, and bathroom. In addition, the company provides home remodeling solutions for kitchen and bathrooms. Further, the company offers construction, remodeling/kitchen, and furniture/living good services. Additionally, the company is involved in the distribution of imported interior furniture. The company was founded in 1970 and is based in Ansansi, South Korea.

1317 Hanwha Aerospace Co., Ltd. engages in the development, production, and maintenance of aircraft engines for civil aircraft, combat planes, helicopters, and vessels worldwide. The company also offers fan parts, such as inlet cases, outer guided vanes, and fan blades; compressor parts, including blisks/blades, cases and structures, integrally bladed rotors; combustor modules, cases, and structures; and low pressure turbine modules/blades to original engine manufacturers, as well as repairs, exchanges, and commissions parts. In addition, it provides aero mechanical systems that include flight control systems, hydraulic systems, fuel systems, etc. for fixed and rotary wing aircraft; and thrust vector control systems, reaction control systems, and liquid propellant supply systems for space launch vehicles, as well as offers military aircraft maintenance services. The company was founded in 1977 and is headquartered in Changwonsi, South Korea.

1318 Hanwha Solutions Corporation operates in the chemicals, energy solutions, and advanced materials business areas in South Korea and internationally. The company engages in the manufacturing and commercialization of synthetic resins, such as caustic soda, PVC, and LLDPE, as well as other petrochemical products and photovoltaic modules; operation of photovoltaic power plants and department stores; and real estate development and sales, industrial park development, asset securitization, EPC construction, restaurants, energy management system, and oil and gas exploration businesses. In addition, it manufactures and sells packaging materials, automobile parts, bearings, and silicon ingots; sells machine tools; and provides lightweight composite materials, photovoltaic materials, and electronic materials; and investment advisory services. The company was incorporated in 1974 and is headquartered in Seoul, South Korea.

1319 Haohua Chemical Science & Technology Corp., Ltd. researches, develops, produces, supplies, and sells fluorine materials, special gases, special rubber, plastic products, and fine chemicals in China and internationally. The company offers polytetrafluoroethylene resin, fluororubber and fluorine compound rubber, tetrafluoropropanol, perfluoropropylene, tetrafluoroethylene monomer, etc. used in electronic communications, aerospace, petrochemical, automotive, textile, and other industries. It also provides nitrogen trifluoride, carbon tetrafluoride, sulfur hexafluoride, tungsten hexafluoride, phosphine, arsine, boron trifluoride, green nitrous oxide, hydrogen selenide, hydrogen sulfide,

helium gas, VOCs standard gas, standard mixed gas, etc. used in semiconductor integrated circuits, display panels, solar cells, LED chips, optical fibers, power equipment manufacturing, medical health, environmental monitoring and other industries. In addition, the company offers special rubber products and polyurethane materials; rubber sealing products and profiles, rubber hoses, tape products, aviation tires, aviation plexiglass, etc.; rubber seals for water expansion, supply, and drainage pipes and cement roof pipes, etc.; and selected and modified composite, and casting system materials. Further, it provides marine coatings, functional coatings for aerospace, and industrial anticorrosion coatings; engine oil pipes, air pipes, shells, and blades; air-drying repair paints, and temperature indicating and transparent coatings, as well as coatings for aircraft fuel tanks, aircraft interior and exterior skins, and structural parts; and natural gas conversion and fuel cell catalysts, as well as offers technical services. The company was formerly known as Sichuan Tianyi Science & Technology Co., Ltd. and changed its name to Haohua Chemical Science & Technology Corp., Ltd. in June 2019. The company was founded in 1999 and is headquartered in Chengdu, the People's Republic of China.

1320 Hap Seng Consolidated Berhad, an investment holding company, engages in the plantation, property investment and development, credit financing, automotive, trading, and building materials businesses in Malaysia and internationally. The company cultivates oil palm, and harvests and processes fresh fruit bunches into crude palm oil. As of December 31, 2021, it had a total planted area of 35,434 hectares out of a total area of 39,727 hectares. It holds and develops residential, commercial, and industrial properties; and offers financial services, including hire purchase, leasing, and term loan for small and medium enterprises. The company operates as a dealer for Mercedes-Benz vehicles that include logging and general-purpose trucks, buses, and passenger vehicles, as well as spare parts; supplies various fertilizers comprising muriate of potash, ammonium sulphate, kieserite, rock phosphate, and other NPK fertilizers; trades in building materials, such as steel bars, cement, tiles, iron and metal, building chemicals, interior fittings, plywood, sanitary ware, and petroleum products, as well as ceramic tiles, stones, mosaic, and wood flooring products. It produces and sells quarry and asphalt products for infrastructure and construction industry; clay bricks, facing and double bricks, and clay pavers; and agrochemicals. The company provides management and maintenance services, treasury management functions, and recreational facilities services; leases vehicles; trades in marketable securities; operates hotels and resort; and deals in stone and wood for home furnishing. It engages in intellectual property holding and management; storage and warehousing of furniture and related products; and grocery stores, and food and beverage businesses. The company was formerly known as The East Asiatic Company (Malaysia) Berhad. The company was incorporated in 1976 and is based in Kuala Lumpur, Malaysia. Hap Seng Consolidated Berhad is a subsidiary of Gek Poh (Holdings) Sdn Bhd.

1321 Hapag-Lloyd Aktiengesellschaft, together with its subsidiaries, operates as a liner shipping company worldwide. Its vessel and container fleets are used for dry and special cargo, various dangerous goods, and coffee, as well as reefer cargo. The company also offers bilateral EDI, a directly connected electronic data interchange; API Developer portal for directly connected with internal systems; operates portal that manage customer's supply chain data and connect to their carriers through one interface; and provides email and security information services. In addition, it provides inland container transportation services through truck and train. As of December 31, 2022, the company's fleet comprised

251 container ships with a total capacity of 1.8 million twentyfoot equivalent unit (TEU); and a container capacity of approximately 3.0 million TEU. HapagLloyd Aktiengesellschaft was founded in 1847 and is headquartered in Hamburg, Germany.

1322 Happytuk Co., Ltd. provides PC, mobile, and other online game services. The company was founded in 2012 and is based in New Taipei City, Taiwan. Happytuk Co., Ltd. is a subsidiary of HANBIT SOFT Inc.

1323 Harbin Boshi Automation Co., Ltd. engages in the research and development, production, and sale of automatic packaging and palletizing equipment in China. It offers industrial robots, smelting robot equipment, weighing equipment, packaging system, palletizing system, conveyor testing equipment, intelligent logistics system, rubber postprocessing equipment, and energy saving and environmental protection equipment. The company provides solutions for chemical, rubber, smelting, feed, medicine, building materials, tobacco, tire sorting, smart logistics, energy saving and environmental protection industries. It also exports its products to approximately ten countries in Europe, Asia, the United States, and Africa. The company was formerly known as Harbin BOSHI Automation Equipment Co., Ltd. Harbin Boshi Automation Co., Ltd. was founded in 1997 and is based in Harbin, China.

1324 Harbin Hatou Investment Co.,Ltd produces and supplies heat and thermal power in the People's Republic of China. The company engages in the industrial and equity investment, and investment consulting; production and supply of electricity; and futures businesses. It is also involved in securities underwriting and sponsorship, securities asset management, securities brokerage, securities proprietary, securities investment consulting, margin financing and securities lending, and securities investment businesses, as well as operates agencies for financial products. The company was formerly known as Harbin Sui Bao Re Dian Co., Ltd. and changed its name to Harbin Hatou Investment Co.,Ltd in November 2007. Harbin Hatou Investment Co.,Ltd was incorporated in 1994 and is headquartered in Harbin, the People's Republic of China.

1325 Harbin Pharmaceutical Group Co., Ltd. engages in the research, development, manufacture, and trade of pharmaceuticals in China and internationally. The company operates through seven segments: Antibiotics, SmallMolecular Drug Preparations, OTC and Healthcare Products, Modern Chinese Medicines, Biopharmaceuticals, Animal Vaccines, and Medicine Circulations. It offers a series of penicillin and cephalosporin products, as well as intermediates. The company's lead products include Shuang Huanglian freeze-dried injection; Danshen freeze-dried injection; Shuang Huanglian powder for injection; roxithromycin dispersible tablets; belladonna, sulfamethoxazole, and trimethoprim tablets; pediatric paracetamol, artificial cow bezoar, and chlorphenamine maleate granules; Shuanghuanglian oral liquid; and ceftriaxone sodium for injection. Its lead products also comprise amoxicillin capsules, cefotiam hydrochloride for injection, panax ginseng extract, cefepime hydrochloride for injection, cefoperazone sodium for injection, and amoxicillin sodium and clavulanate potassium for injection; cefuroxime sodium, ceftazidime, cefotaxime sodium, and ceftriaxone sodium for injections; and ampicillin capsules. In addition, the company offers medical protective and disposable surgical masks, medical disposable protective gowns, and isolation gowns. It offers its products under the Hongyan Yaopin, Guangwei, Rein Tongtai, Hayao Shengwu, Baohulu, Manshanhong, Hutong, Hayaoliu, Gaizhonggai, Sanchine, Shiyitang, and Hayao brands. The company is based in Harbin, China.

1326 Harvard Bioscience, Inc. develops, manufactures, and sells technologies, products, and services for life science applications in the United States and internationally. The company offers cellular and

molecular technology products, such as syringe and peristaltic infusion pump products; electroporation and electrofusion instruments, amino acid analyzers, spectrophotometers, and other equipment for molecular level testing and research; and precision scientific measuring instrumentation and equipment, including data acquisition systems for cellular analysis, complete micro electrode array solutions for in vivo recordings, and in vitro systems for extracellular recordings. It also provides preclinical products that includes platform to assess physiological data from organisms for research, drug discovery, and drug development services comprising implantable and externally worn telemetry systems for use in research to collect cardiovascular, central nervous system, respiratory, and metabolic data; behavioral products; isolated organ and surgical products, instruments and accessories for tissue, and organbased lab research, including surgical products, infusion systems, and behavior research systems; turnkey respiratory system solutions, including plethysmograph chambers, data acquisition hardware, physiological signal analysis software, and final report generation; inhalation and exposure systems; and GLPcapable data acquisition and analysis systems. The company markets its products through sales organizations, websites, and distributors to research scientists in pharmaceutical and biotechnology companies, universities, hospitals, and goverent laboratories; and contract research organizations and academic labs. It primarily sells its products under Harvard Apparatus, DSI, Buxco, Biochrom, BTX, Heka, Hugo Sachs, Multichannel Systems MCS GmbH, and Panlab brands. The company was founded in 1901 and is based in Holliston, Massachusetts.

1327 Harvia Oyj, through its subsidiaries, manufactures and distributes traditional, steam, and infrared saunas. It provides electric heaters, sauna controls, and wood burning heaters; bathroom and indoor saunas; backyard paradise and sauna benches; doors and glass products; hot tubs; infrared cabins and infrared heating devices; steam rooms, SPA modules, and steam generators; and water purifying solutions. The company also offers accessories, such as pails and ladles, scents, textiles, indicators, sound and lighting products, stones, maintenance products, neck and back rests, and other accessories, as well as safety solutions. It operates in Finland, other European countries, North America, Germany, Russia, Scandinavia, and internationally. The company was founded in 1950 and is headquartered in Muurame, Finland.

1328 Havila Shipping ASA, together with its subsidiaries, engages in the shipping business. It manages and operates offshore service vessels primarily in Norway, the United Kingdom, Deark, Belgium, Netherlands, Iceland, and the Republic of Chile. The company operates a fleet of 22 vessels, including 5 anchor handling vessels, 13 platform supply vessels, 1 rescue recovery vessel, and 3 subsea vessels. Its anchor handling tug and supply vessels are used for moving rigs and putting out anchors, as well as for supply services; platform supply vessels are used to carry goods, water, drilling mud, chemicals, etc. to and from the offshore installations; subsea vessels are used for under water construction work, as well as for support for under water operations; and rescue recovery vessels are used to offer security services, such as oil spill preparedness, fire protection, rescue operation, and recovery at oil installations. The company was founded in 2003 and is headquartered in FosnavÅg, Norway. Havila Shipping ASA is a subsidiary of Havila Holding AS.

1329 Hawaiian Electric Industries, Inc., together with its subsidiaries, engages in the electric utility, banking, and nonregulated renewable/sustainable infrastructure investment businesses in the state of Hawaii. It operates in three segments: Electric Utility, Bank, and Other. The Electric Utility segment engages in the production, purchase,

transmission, distribution, and sale of electricity in the islands of Oahu, Hawaii, Maui, Lanai, and Molokai. Its renewable energy sources and potential sources include wind, solar, photovoltaic, geothermal, wave, hydroelectric, municipal waste, and other biofuels. This segment serves suburban communities, resorts, the United States armed forces installations, and agricultural operations. The Bank segment operates a community bank that offers banking and other financial services to consumers and businesses, including savings and checking accounts; and loans comprising residential and commercial real estate, residential mortgage, construction and development, multifamily residential and commercial real estate, consumer, and commercial loans. This segment operates branches in Oahu, Maui, Hawaii, Kauai, and Molokai. The Other segment invests in nonregulated renewable energy and sustainable infrastructure in the State of Hawaii. The company was incorporated in 1891 and is headquartered in Honolulu, Hawaii.

1330 Hayleys PLC operates in the manufacturing, agriculture, and services sectors worldwide. It offers coconut fiber products, such as brush ware, floor coverings, and coir fibers; gloves for industrial, household, and medical use; erosion control, growing media, and horticulture products; mattresses in rubberized coir, spring, and foam shape; coconutshell based activated carbon and environmental engineering solutions; knitted fabrics under the INNO brand name; and aluminum extrusion products. It also owns and manages 41 tea and rubber estates covering approximately 19,000 hectares; and provides crop production and protection products, processed vegetables and fruits, animal health products, fertilizers, agricultural machinery and equipment, and pest management products, as well as landscaping solutions, hybrid flower seeds, and horticultural tissue culture products. In addition, the company offers consumer durable, FMCG, and lighting products; travel agency and destination management services; operates and manages resorts, as well as The Kingsbury, a fivestar city hotel; and provides life sciences, medical, analytical, scientific, and testing equipment, as well as consumables and services. Further, it operates hydro, wind, and solar plants; manufactures and assembles sawing machines and home appliances; and offers transportation related services, such as freight management, integrated logistics, projects and engineering, marine, and energy services, as well as acquires, develops, leases, and sells properties and contractors for constructions. Additionally, the company provides business process outsourcing services; insurance brokering services; aviation services; and solutions for building systems and information communication technology infrastructure. It also manufactures and supplies architectural aluminum joinery systems; and offers consumer financing, investment, and marketing services. Hayleys PLC was founded in 1878 and is headquartered in Colombo, Sri Lanka.

1331 Haynes International, Inc. develops, manufactures, markets, and distributes nickel and cobalt based alloys in sheet, coil, and plate forms in the United States, Europe, China, and internationally. The company offers hightemperature resistant alloys (HTA) and corrosion resistant alloys (CRA). Its HTA products are used by manufacturers of equipment, including jet engines for the aerospace market; gas turbine engines for power generation; waste incineration; and industrial heating equipment. The company's CRA products are used in various applications, including chemical processing, power plant emissions control, and hazardous waste treatment. Its products also have applications in flue gas desulfurization, oil and gas, waste incineration, industrial heat treating, automotive, thermocouples, sensors and instrumentation, biopharmaceuticals, solar, and nuclear fuel. In addition, the company produces products as seamless and welded tubulars, as well as in slab,

bar, billet, and wire forms. It sells its products primarily through direct sales organizations, and network of independent distributors and sales agents. Haynes International, Inc. was founded in 1912 and is headquartered in Kokomo, Indiana.

1332 HB Technology CO., LTD. develops, produces, and sells display equipment and component materials in South Korea. The company offers automated optical inspection equipment for display test; encapsulation inspection systems and edge crack testing machines; laser repair equipment for performance of displays; PCB thickness gauges for display test; and highspeed die matching meters. It also provides light guide and diffusion plates for back light units for LCD and LED TVs, and monitors. The company was founded in 1997 and is headquartered in Asan, South Korea.

1333 HC SemiTek Corporation researches, develops, produces, and sells light emitting diode (LED) epitaxial wafers and chips in China. It also offers sapphire, sapphire substrate, and sapphire window material, as well as integrated circuit and sensor. The company was formerly known as Wuhan HC SemiTek Co., Ltd and changed its name to HC SemiTek Corporation. HC SemiTek Corporation was founded in 2005 and is based in Wuhan, China.

1334 HCA Healthcare, Inc., through its subsidiaries, provides health care services in the United States. It operates general and acute care hospitals that offers medical and surgical services, including inpatient care, intensive care, cardiac care, diagnostic, and emergency services; and outpatient services, such as outpatient surgery, laboratory, radiology, respiratory therapy, cardiology, and physical therapy. The company also operates outpatient health care facilities consisting of freestanding ambulatory surgery centers, freestanding emergency care facilities, urgent care facilities, walkin clinics, diagnostic and imaging centers, rehabilitation and physical therapy centers, radiation and oncology therapy centers, physician practices, and various other facilities. In addition, it operates psychiatric hospitals, which provide therapeutic programs comprising child, adolescent and adult psychiatric care, adolescent and adult alcohol, drug abuse treatment, and counseling services. The company was formerly known as HCA Holdings, Inc. HCA Healthcare, Inc. was founded in 1968 and is headquartered in Nashville, Tennessee.

1335 HCK Capital Group Berhad, an investment holding company, provides property development, investment, letting, management, and trading services in Malaysia. It operates through two segments, Properties and Others. The company also operates food and beverage outlets, including a cafe outlet under the name of Jamaicablue Fine Coffees, as well as franchises cafes and restaurants. In addition, it offers management, training and education, project and property management consultancy, video and commercial production, digital content, hospitality management, and construction services, as well as engineering consultancy, information technology value engineering, and development and technology services. Further, the company engages in the advance technology development, and projects advisory and related engineering works; development of software and information technology related services; and research, maintenance, implementation, and other information technology activities. Additionally, it provides ebranding, emarketing, and referral solutions; value engineering app; and acts as a sales agent for financial institution to market and sell bank products. The company was formerly known as Golsta Synergy Berhad and changed its name to HCK Capital Group Berhad in June 2014. The company is headquartered in Petaling Jaya, Malaysia. HCK Capital Group Berhad is a subsidiary of HiiChiiKok Equities Sdn. Bhd.

1336 HeadHunter Group PLC, together with its subsidiaries, operates an online recruitment platform in Russia, Kazakhstan, Belarus, and internationally. The company offers employers and recruiters paid access to its curriculum vitae database and job postings platform; and job seekers and employers with valueadded services. It provides its services for businesses that are looking for job seekers to fill vacancies inside their organizations. The company was formerly known as Zemenik Trading Limited and changed its name to HeadHunter Group PLC in March 2018. The company was founded in 2000 and is headquartered in Moscow, Russia.

1337 Healius Limited provides specialty diagnostic services to consumer and practitioners in Australia. The company operates through four segments: Pathology, Imaging, Day Hospitals, and Others. It offers diagnostic imaging services, private medical laboratory, and pathology services. It also provides cataract surgery, colonoscopy, gastroscopy, plastic and cosmetic surgery, skin cancer removal, IVF egg collection, and gynaecological surgery services under the Laverty Pathology, Dorevitch Pathology, QML Pathology, Western Diagnostic Pathology, Genomic Diagnostic, Vetpath Laboratory, Vetnostics, QML Vetnostics, TML Vetnostics, ASAP Laboratory, Abbott Pathology, TML Pathology, IQ, Pathology, Kossard, Gastrolab, and Agilex Biolabs; Lumus Imaging; and Montserrat brands. It operates 2,105 pathology sites; 11 day hospital sites; and 134 imaging sites. The company was formerly known as Primary Health Care Limited and changed its name to Healius Limited in December 2018. Healius Limited was incorporated in 1994 and is based in Sydney, Australia.

1338 Healthcre Co., Ltd. research, develops, produces, and sells memory foam, beds, and other household products in China. It offers mattresses, adjustable bases, mattress protectors, and pillows. The company sells its products under the MLILY brand through companyowned retail shops. It also exports its products to North America, Europe, Asia, Australia, and Africa. The company was formerly known as Nantong Hengkang Sponge Products Co., Ltd. Healthcare Co., Ltd. was incorporated in 2003 and is based in Rugao, China.

1339 Healthcare Realty Trust is a real estate investment trust that integrates owning, managing, financing and developing incomeproducing real estate properties associated primarily with the delivery of outpatient healthcare services throughout the United States. As of September 30, 2020, the Company owned 211 real estate properties in 24 states totaling 15.5 million square feet and was valued at approximately \$5.5 billion. The Company provided leasing and property management services to 11.9 million square feet nationwide.

1340 Healthcare Trust, Inc. is a publicly registered real estate investment trust focused on acquiring a diversified portfolio of healthcare real estate, with an emphasis on seniors housing and medical office buildings, located in the United States.

1341 Healthway Medical Corporation Limited, an investment holding company, provides healthcare management services primarily in Singapore. The company operates in two segments, Primary Healthcare and Specialist Healthcare. The Primary Healthcare segment offers services in family medicine, dentistry, podiatry, and healthcare benefit management areas, as well as invests in strategic medical related business. The Specialist Healthcare segment provides services in the areas of pediatrics, orthopedics, aesthetic medicine, obstetrics, and gynecology; and cardiology, gastroenterology, psychiatry, ophthalmology, otorhinolaryngology, and general surgery, as well as speech therapy services. The company was founded in 1990 and is based in Singapore.

1342 Heba Fastighets AB (publ) develops, owns, and manages housing and community properties in Sweden. The company was incorporated in 1952 and is based in Stockholm, Sweden.

1343 Hebei Huijin Group Co., Ltd. engages in the research and development, manufacture, marketing, and service of banking and financial equipment in China and internationally. The company offers banknote processing systems, banding machines, banknote strapping machines, tube binding machines, cash transit boxes, banknote shrink and packing machines, automatic debit card issuing machines, automatic check machines, stamp management systems, banknote sorters and counters, office equipment, etc., as well as consumables, such as strapping belts, security seals, banding tapes, and binding tubes. Its products are used in banks, government departments, insurance companies, securities firms, organizations, communities, schools, enterprises, and institutions. The company is also involved in sheetmetal processing, banking business process outsourcing, software development, etc. The company was formerly known as Hebei Huijin Electromechanical Co., Ltd. and changed its name to Hebei Huijin Group Co., Ltd. in February 2021. Hebei Huijin Group Co., Ltd. was founded in 2005 and is headquartered in Shijiazhuang, China.

1344 HeidelbergCement AG, together with its subsidiaries, produces and distributes cement, aggregates, readymixed concrete, and asphalt worldwide. It provides cement products, natural stone aggregates, such as sand and gravel; crushed aggregates comprising stone chippings and crushed stones; and concrete/readymixed concrete for use in the construction of tunnels or bridges, office buildings, or schools, as well as to produce precast concrete parts consisting of stairs, ceiling elements, or structural components. In addition, it provides asphalt primarily used as a top layer in road construction, as well as trades in cement, clinker, secondary cementitious materials, and solid and alternative fuels. HeidelbergCement AG was founded in 1873 and is headquartered in Heidelberg, Germany.

1345 Heilongjiang Interchina Water Treatment Co., Ltd. engages in the construction and operation of water treatment and other related projects in China. It also offers sewage and drainage treatment, tap water supply, and environmental protection engineering and technical services; investment, management, and related services for water and environmental protection projects; project and investment management services; energy saving and environmental protection technology development and services; technical consultation, and technology exchange and transfer services; engineering design and consulting, and environmental engineering consulting services; and agricultural machinery and production trusteeship services. In addition, the company engages in the installation and construction of water supply and drainage projects; sale of equipment and accessories; operation of environmental pollution control facilities; development of environmental equipment; import and export of goods and technologies; and provision of general cargo warehousing services. Further, it is involved in sale of agricultural and sideline products, livestock, agricultural machinery, grains, beans and potatoes, cotton and hemp, and prepackaged health foods; leasing of agricultural machinery; agricultural scientific research and experimental development services; purchase of primary agricultural products; primary processing of edible agricultural products; grain, beans, potato, and cotton planting services; purchase of food, aquatic, livestock and poultry, and cotton products; and retailing of aquatic products. The company was founded in 1998 and is headquartered in Shanghai, China.

1346 Heilongjiang ZBD Pharmaceutical Co., Ltd. engages in the research, development, production, and sale of Chinese medicines in China. It offers cardiovascular and cerebrovascular, respiratory system,

orthopedics, tumors, digestive system, antiinfection, mental nerve, genitourinary, and other disease fields. The company was founded in 1996 and is based in Hulin, China.

1347 Heineken Holding N.V., through its subsidiaries, engages in brewing and selling beer and cider in the Netherlands and internationally. The company's portfolio consists of approximately 300 international, regional, local, and specialty beers and ciders. The company was founded in 1864 and is based in Amsterdam, the Netherlands. Heineken Holding N.V. is a subsidiary of L'Arche Green N.V.

1348 Heiwa Corporation develops, manufactures, and sells pachinko and pachislot machines in Japan. It is also involved in the golf course business. The company was formerly known as Heiwa Kogyo Co., Ltd. Heiwa Corporation was founded in 1949 and is based in Tokyo, Japan.

1349 Helix Energy Solutions Group, Inc., together with its subsidiaries, an offshore energy services company, provides specialty services to the offshore energy industry in Brazil, the Gulf of Mexico, the East Coast of the United States, North Sea, the Asia Pacific, and West Africa regions. The company operates through Well Intervention, Robotics, Production Facilities, and Shallow Water Abandonment segments. It engages in the installation of flowlines, control umbilicals, and manifold assemblies and risers; trenching and burial of pipelines; installation and tie-in of riser and manifold assembly; commissioning, testing, and inspection activities; and provision of cable and umbilical lay, and connection services. The company also provides well intervention, intervention engineering, and production enhancement services; inspection, repair, and maintenance of production structures, trees, jumpers, risers, pipelines, and subsea equipment; and related support services. In addition, it offers reclamation and remediation services; well plug and abandonment services; pipeline, cable and umbilical abandonment services; and site inspections. Additionally, the company offers oil and natural gas processing facilities and services; and fast response system, as well as site clearance and subsea support services. Further, it provides offshore oilfield decommissioning and reclamation, project management, engineered solutions, intervention, maintenance, repair, heavy lift, and commercial diving services. It serves independent oil and gas producers and suppliers, pipeline transmission companies, renewable energy companies, and offshore engineering and construction firms. The company was formerly known as Cal Dive International, Inc. and changed its name to Helix Energy Solutions Group, Inc. in March 2006. Helix Energy Solutions Group, Inc. was incorporated in 1979 and is headquartered in Houston, Texas.

1350 HELLA GmbH & Co. KGaA, together with its subsidiaries, develops, manufactures, and sells lighting systems and electronic components for automotive industry worldwide. It operates through three segments: Automotive, Aftermarket, and Special Applications. The Automotive segment offers headlamps, rear combination lamps, car body and interior lighting products, and radomes; and body electronics, energy management, lighting electronics, and power steering solutions, as well as driver assistance systems and components, including sensors and engine compartment actuators. The Aftermarket segment produces and sells automotive parts and accessories primarily in the areas of lighting, electrics, and electronics; and provides workshop solutions in the areas of diagnostics and calibration, as well as various services for wholesalers and workshops. The Special Applications segment develops, manufactures, and markets lighting technology and electronic products for special vehicles comprising construction and agricultural machinery, buses, caravans, and marine vessels. The company was formerly known as HELLA KGaA Hueck & Co. and changed its name to HELLA GmbH & Co. KGaA in October 2017. HELLA GmbH

& Co. KGaA was founded in 1899 and is headquartered in Lippstadt, Germany. HELLA GmbH & Co. KGaA is a subsidiary of Faurecia S.E. 1351 Hellenic Telecommunications Organization S.A., together with its subsidiaries, provides telecommunications and related services to businesses and individuals primarily in Greece and Romania. It operates through OTE, COSMOTE Group, and Other segments. The company offers fixedline, Internet access, ICT, and TV production services; and international carrier services. It also provides mobile and satellite telecommunication, electronic money, ecommerce, financing, consultancy and security, real estate, insurance brokerage, training, wholesale telephony, retail, marketing, overdue accounts management, wholesale broadband, and infrastructure services. The company was incorporated in 1949 and is based in Athens, Greece.

1352 Helloworld Travel Limited operates as a travel distribution company in Australia, New Zealand, and internationally. The company provides international and domestic travel products and services, as well as operates a franchised network of travel agents. It also operates retail travel brands, including Helloworld Travelâ€”the Travel Professionals; and a network of retail outlets, such as Helloworld Travel Associate, Helloworld Business Travel, Magellan Travel, Mobile Travel Agent, My Travel Group, and The Travel Brokers; and distributes travel products and provides services under the Viva Holidays, Sunlover Holidays, Territory Discoveries, Asia Escape Holidays, Skiddoo, GO Holidays, Ready Rooms, Seven Oceans Cruises, and Willimonts Travel brands, as well as operates needitnow.com.au. In addition, the company provides inbound travel management services through AOT Inbound, AOT NZ, ATS Pacific, and Experience Tours Australia brands; and international airfare distribution and ticketing services through Air Tickets brand, and travel consultant services through SmartTickets technology platform. Further, it offers access to a database of various ocean and river cruise products, including itineraries, cruise lines, ocean and river cruise vessels, and information on various ports, as well as cruise packaging and services. The company was formerly known as Helloworld Limited and changed its name to Helloworld Travel Limited in April 2017. Helloworld Travel Limited was incorporated in 2000 and is based in Melbourne, Australia.

1353 Hemisphere Energy Corporation acquires, explores for, develops, and produces petroleum and natural gas interests in Canada. It primarily owns a 100% working interest in 9,440 net acres of land in the Atlee Buffalo property located in southeastern Alberta; and a land position of 7,009 net acres in the Jenner property situated in southeastern Alberta. The company was formerly known as Northern Hemisphere Development Corp. and changed its name to Hemisphere Energy Corporation in April 2009. Hemisphere Energy Corporation was founded in 1977 and is headquartered in Vancouver, Canada.

1354 Hemnet Group AB (publ) operates a property platform in Sweden. Its platform gathers various property buyers, sellers, and real estate agents in one place. The company was founded in 1998 and is based in Stockholm, Sweden.

1355 Henan Dayou Energy Co., Ltd. engages in raw coal mining activities in China. The company is involved in mining, washing, processing, and wholesale of coal. It offers long flame, coking, lean, and cleaned coal for use in various industries, including chemical, power generation, building material, and other industries, as well as in industrial boilers and coking coal. The company was formerly known as Nanjing Xinwang Telecom Tech Co.,Ltd and changed its name to Henan Dayou Energy Co., Ltd. in 2010. Henan Dayou Energy Co., Ltd. was founded in 1998 and is based in Yima, China. Henan Dayou Energy Co., Ltd. is a subsidiary of Yima Coal Industry Group Co., Ltd.

1356 Henan Huanghe Whirlwind Co., Ltd. engages in the manufacture and sale of carbonbased new materials in China and internationally. The company is involved in the production of super hard materials, such as synthetic diamonds; and electric motors, synthetic diamond accessories, electric control systems, construction machinery, tower cranes, communication towers, diamond grinding blocks, diamond drill bits, drill pipes, and abrasive tools. It also offers diamond composite sheet series, pick series, PcBN composite sheet and cBN polycrystalline series, super hard grinding wheel series, etc.; and diamond and other super hard and precision material tools. In addition, the company produces super hard abrasives; and prealloyed powder for super hard material tools, alloy powder for diamond synthesis, powder for fluxcored wire, stainless steel powder, bronze powder for oilimpregnated bearings, and powder for thermally conductive materials. Further, it offers diamond beads, diamond wire saws, and diamond saw blades; and provides graphene, intelligent manufacturing, alloy powder, 3D printing metal consumables and parts, etc. in Japan, the United States, Europe, and Southeast Asian markets. Henan Huanghe Whirlwind Co., Ltd. was founded in 1998 and is based in Zhengzhou, China.

1357 Henan Taloph Pharmaceutical Stock Co., Ltd. researches, produces, and sells Chinese and western medicines in China. It primarily offers its products in the forms of oral liquids, tablets, capsules, fluids, and other forms. The company's principal products include Huperzine A tablets, phenoxybenzamine hydrochloride tablets, pazufloxacin mesylate sodium chloride injections, and various infusion products. It serves hospitals, pharmacies, and patients. The company was formerly known as Henan Joyline & Joysun Pharmaceutical Stock Co., Ltd. Henan Taloph Pharmaceutical Stock Co., Ltd. is based in Zhengzhou, China.

1358 Henan Xinning Modern Logistics Co., Ltd., together with its subsidiaries, provides integrated logistics and supply chain management services in China. The company offers frontend logistics services, including vendor managed inventory, distribution centers, full and bulk/semi bulk services; factory logistics services, such as online warehouse management and raw material distribution services, finished products warehouse management services, etc.; backend logistics, comprising finished products, funding mode, customer service spare parts; and support services, which include domestic and international freight, bank supervision warehouses, and supply chain financial services. It also provides vehicle navigation satellite positioning, transportation, and telecommunication services; trades in commodities; sells hardware products; and develops software. The company was formerly known as Jiangsu Xinning Modern Logistics Co., Ltd and changed its name to Henan Xinning Modern Logistics Co., Ltd. in July 2022. Henan Xinning Modern Logistics Co., Ltd. was founded in 1997 and is headquartered in Kunshan, China.

1359 Henderson Investment Limited, an investment holding company, engages in the operation of department stores in Hong Kong. It operates five department stores under the Citistore name; five household specialty stores under the name Citilife; two department storescumsupermarkets under the APITA name; and two supermarkets under the UNY name. The company is based in Central, Hong Kong. Henderson Investment Limited is a subsidiary of Henderson Land Development Company Limited.

1360 Hengbao Co., Ltd. provides smart products and solutions in China and internationally. The company offers card payment and security services; blockchain finance, digital asset wallet, and supply chain finance services; mobile communications and the internet of things; smart password key, electronic token, Bluetooth USBKEY, mobile smart terminal mobile phone shield, and other products; tax security products;

Bluetoothtype secure reading and writing terminal; brush face payment terminal; and one card cloud and mobile payment platform services. it provides its services for industrial solutions, including financial industry, communications industry, mobile payment cloud platform, automotive, and composite solutions. The company was incorporated in 1996 and is headquartered in Danyang, China.

1361 Hengdian Group DMEGC Magnetics Co., Ltd manufactures and sells hard ferrite magnets and ferrite cores in China, the European Union, the United States, Japan, South America, Southeast Asia, and internationally. It offers ferrite magnet products, including ring, segment, microwave oven, square, and isotropic magnets; ferrite cores comprising MnZn ferrite power, NiZn ferrite, MnZn high permeability ferrite, iron powder, and magnetic powder cores; and NdFeB magnets, such as bonded square, segment, and ring magnets. The company also provides motor housing and assembly products consisting of seamless steel tube cutting, rolling steel, and deep drawn motor housings; sintered powder for hard ferrite magnet and bonded powder for hard ferrite; solar cells and modules; and alkaline Zn dry batteries. In addition, it offers purifying home appliances, such as water and air purifiers; and hard alloy products, such as tungsten powder, carbonized tungsten powder, mold and anisotropic hard alloys, and mining tools, as well as anvil and compound sheet products. Further, the company provides EV/EB and power tool series cells; and battery packs for electric vehicles, small automotive battery systems, and battery pack for power tools. Additionally, it provides flexible copper clad laminates, including polyimide FCCL and polyimide cladding; and rare earth materials, such as fluorescent level europium, terbium, dysprosium, lanthanum, praseodymiumneodymium, and other oxide products. The company also invests in, develops, constructs, and operates solar gridconnected and BIPV projects; operates a tourism business hotel; and engages in international trade activities. Its products are used in the electronic appliance, automotive, communication, and other markets. The company was founded in 1980 and is based in Dongyang, China.

1362 Hengtong OpticElectric Co., Ltd. operates in fiber optic communications industry in China and internationally. It offers fiber optic network, quantum security communication, and ocean observation network products; power transmission products; smart ocean system solutions; rail transit solutions; smart city solutions; and big data systems. Hengtong OpticElectric Co., Ltd. was founded in 1993 and is based in Suzhou, China.

1363 HENSOLDT AG, together with its subsidiaries, provides defense and security electronic sensor solutions worldwide. It offers air surveillance, airborne, ground based, security, naval and coastal, and space radars; identification friend or foe and secure data links; and commercial shipping solutions. The company also provides airborne, vehicle, surveillance, and maritime optronics; space optics; optronic sensor devices; and sights, scopes, and nightvision attachments. In addition, it offers electronic support/SIGINT products, receivers, direction finders, electronic attackers/jammers, selfprotection EW software suites and ground support stations, and electronic warfare systems. Further, the company provides avionics, including airborne computing, flight and mission data recording and management, connectivity, mission management/pilot assistance, video management, uanned, mission planning support, data analysis and evaluation, and cloud solutions, as well as integrated airborne solutions; and counter UAV solutions, and command and control software products. Additionally, it offers products and system support, simulation, and training services; and antenna, cabling, shelter, and tester solutions. The company is headquartered in Taufkirchen, Germany.

1364 HEP Tech Co., Ltd. manufactures and sells electronic lighting control gears for industrial and commercial purposes worldwide. The company provides LED drivers comprising wireless control LED drivers, constant current (CC) track lights, CC dimmable and nondimmable, and constant voltage dimmable and nondimmable products; PSE, UL, flooding light, and outdoor LED drivers; and accessories. It also offers track light systems and lamps, including UV light, spotlight, modeling lamp, and audio products; and fluorescent and HID/HPS ECG products, as well as emergency products. The company was founded in 2002 and is headquartered in Taichung, Taiwan.

1365 Herbalife Nutrition Ltd. offers health and wellness products in North America, Mexico, South and Central America, Europe, the Middle East, Africa, China, and rest of Asia Pacific. The company provides products in the areas of weight management; targeted nutrition; energy, sports, and fitness; outer nutrition; and literature and promotion items. It offers weight management products, including meal replacement products, protein shakes, drink mixes, weight loss enhancers, and healthy snacks; targeted nutrition products, which comprise functional beverages, and dietary and nutritional supplements that contain herbs, vitamins, minerals, and other natural ingredients; outer nutrition products, such as facial skin, body, and hair care products; and energy, sports, and fitness products, including NRG tea and energy drink products. The company also provides literature, promotional, and other materials that comprise startup kits, sales tools, and educational materials. It offers its products through sales representatives and independent service providers, as well as through company-operated retail platforms. The company was formerly known as Herbalife Ltd. and changed its name to Herbalife Nutrition Ltd. in April 2018. Herbalife Nutrition Ltd. was founded in 1980 and is headquartered in Los Angeles, California.

1366 Hermès International Société en commandite par actions engages in the production, wholesale, and retail of various goods. The company offers leather goods and saddlery, such as bags for men and women, clutches, briefcases, luggage, small leather goods, diaries and writing objects, saddles, bridles, and a range of equestrian products and clothing; ready-to-wear garments for men and women; and accessories, including jewelry, belts, hats, gloves, the Internet of Things products, and shoes. It also provides silk and textiles for men and women; art of living and tableware products; perfumes; and watches. In addition, the company is also involved in weaving, engraving, printing, dyeing, finishing, and producing textiles; and purchasing, tanning, dyeing, finishing, and selling precious leathers. It sells its products through a network of 303 stores worldwide. The company also sells watches, perfumes, and tableware through a network of specialized stores. Hermès International Société en commandite par actions was founded in 1837 and is based in Paris, France. Hermès International Société en commandite par actions operates as a subsidiary of H51 SAS.

1367 Hermes Transportes Blindados S.A. offers money and securities transfer, custody, and processing services to mining, and financial and commercial sectors in Peru. The company provides transfer services for bills, banknotes, coins, precious metals, and jewels. It also offers vault management services in mining units; metal transportation services; and automatic teller machine time management services. In addition, the company manages agencies and commercial premises. Further, it offers document processing, corporate messaging, and logistic services. The company was founded in 1985 and is based in Chorrillos, Peru. Hermes Transportes Blindados S.A. is a subsidiary of Zeus Investments Peru SRL.

1368 Hersha Hospitality Trust (HT) is a self-advised real estate investment trust in the hospitality sector, which owns and operates high

quality upscale and lifestyle hotels in urban gateway markets and resort destinations. The Company's 49 hotels totaling 7,774 rooms are located in New York, Washington, DC, Boston, Philadelphia, South Florida and select markets on the West Coast. The Company's common shares are traded on The New York Stock Exchange under the ticker "HT."

1369 HeungA Shipping Co.,Ltd operates as a shipping company in South Korea and internationally. The company also provides container liner and chemical tanker services. It operates through a fleet of 20 chemical tanker ships. The company was founded in 1961 and is based in Seoul, South Korea.

1370 Hexagon Composites ASA, together with its subsidiaries, produces and sells composite pressure cylinders and fuel systems in Norway, Europe, North America, SouthEast Asia, the Middle East, and internationally. The company operates through Hexagon Agility & CNG LDV, Hexagon Purus, Hexagon Digital Wave, and Hexagon Ragasco LPG segments. The Hexagon Agility & CNG LDV segment provides clean fuel solutions for commercial vehicles, passenger vehicles, and gaseous energy transportation. Hexagon Purus segment provides high pressure cylinders, vehicle systems, and battery backs for fuel cell and battery electric vehicles. The Hexagon Digital Wave segment offers cylinder testing and monitoring technology solutions that reduce downtime and inspection costs while improving inspection accuracy. The Hexagon Ragasco LPG segment manufacturers composite liquefied petroleum gas (LPG) cylinders for leisure, household, and industrial applications. Hexagon Composites ASA was incorporated in 1985 and is headquartered in Ålesund, Norway.

1371 Hexaware Technologies Limited provides information technology consulting, software development, and business process services in the Americas, Europe, and the Asia Pacific. It offers application transformation management solutions, including cloudify application, API and integration, delivery, and application managed services; business intelligence and analytics services, such as AMAZE for data and artificial intelligence (AI), data modernization, decision science lab, data visualization, and Internet of things; and business process services covering HIPASintelligent process automation, customer experience, finance and accounting transformation, translation, marketing operation, revenue cycle management, banking and financial, insurance, and healthcare. The company also provides digital assurance services consisting of autonomous testing, BOT and AI testing, cloud quality assurance, data centric testing, test automation, managed testing, performance engineering, test advisory and consulting, application security assurance, and usability testing; enterprise solutions comprising business process management, Oracle ebusiness suite, Oracle Cloud, Peoplesoft, SAP, and Workday services; and infrastructure management services, which include digital workplace, hybrid cloud, enterprise service management, software asset management, cyber security resilience, automation as a service, consulting, DevOps, and RAISE IT platform. It serves the banking, capital market, education, healthcare, insurance, hospitality, logistics, manufacturing, professional service, and travel; hitech, platform, and information service; retail and CPG; telecom, media, and entertaient; and transportation industries. The company was founded in 1990 and is headquartered in Navi Mumbai, India. Hexaware Technologies Limited is a subsidiary of CA Magnum Holdings.

1372 Hexcel Corporation develops, manufactures, and markets carbon fibers, structural reinforcements, honeycomb structures, resins, and composite materials and parts for use in commercial aerospace, space and defense, and industrial applications. It operates through two segments, Composite Materials and Engineered Products. The Composite Materials segment manufactures and markets fabrics, multiaxials, specialty

reinforcements, prepregs and other fiberreinforced matrix materials, structural adhesives, molding compounds, tooling materials, polyurethane systems, and laminates that are used in military and commercial aircraft, wind turbine blades, recreational products, and other industrial applications, as well as in automotive, marine, and rail transportation. The Engineered Products segment manufactures and markets aircraft structures and finished aircraft components, including wing to body fairings, wing panels, flight deck panels, door liners, rotorcraft blades, spars, and tip caps; and aircraft structural subcomponents and semifinished components used in rotorcraft blades, engine nacelles, and aircraft surfaces, such as flaps, wings, elevators, and fairings; and RF interference control products for military and aerospace applications. This segment also provides interference control materials, structural composites, and services; dielectric absorber foams; magnetic absorbers; and thermoplastics for commercial and defense applications. The company sells its products directly through its managers, product managers, and sales personnel, as well as through independent distributors in the Americas, Europe, the Asia Pacific, India, and Africa. Hexcel Corporation was founded in 1946 and is headquartered in Stamford, Connecticut.

1373 Hextar Healthcare Berhad manufactures and sells test kits and other healthcare related products and services. The company was formerly known as Rubberex Corporation (M) Berhad. The company was founded in 1987 and is based in Ipoh, Malaysia. Hextar Healthcare Berhad is a subsidiary of Hextar Rubber Sdn Bhd.

1374 Hextar Technologies Solutions Berhad, an investment holding company, provides shipping and land transportation services primarily in Malaysia. It operates through Logistics, Warehousing, Trading, and Others segments. The Logistics segment is involved in the provision of lorry transportation services, which include tanker, general cargo, and side curtain; project logistics; and door to door delivery services. Its Warehousing segment operates rents warehouses at Port Klang Free Zone and Pulau Indah. The Trading segment involved in the trading of building materials. Its Others segment trades in goods, as well as provides insurance agency services. The company also involved in the provision of management services, technology related services, and financial services; ecommerce services; and trades in general items. The company was formerly known as Complete Logistic Services Berhad and changed its name to Hextar Technologies Solutions Berhad in July 2022. The company was incorporated in 2005 and is headquartered in Port Klang, Malaysia.

1375 Hiconics Ecoenergy Technology Co., Ltd. produces and sells industrial automation control and energy equipment in China and internationally. The company offers high/medium/low voltage VFD products, elevator servo motor drives, and control systems; automotive powertrain systems, motor controllers, EV chargers, auxiliary power systems, and components; and energy conservation and enviroent protection products. Its products are used in electric power, metallurgy, mining, cement, petroleum, municipal, elevator, machine tools, plastics, nuclear industry, aerospace, wind tunnel, new energy vehicles, rail transportation, enviroental protection, photovoltaic, and other industries. The company was formerly known as Hiconics Drive Technology Co., Ltd. and changed its name to Hiconics Ecoenergy Technology Co., Ltd. in December 2016. Hiconics Ecoenergy Technology Co., Ltd. was founded in 2003 and is based in Beijing, China.

1376 Highlight Communications AG operates as a strategic and financial holding company worldwide. It operates through Film, Sportsand EventMarketing, and Sports segments. The Film segment is involved in the film production/procurement of rights, film distribution, home entertaient, license trading/TV exploitation, and TV production;

production and distribution of films, television, and video formats; and production of event specials, primetime shows, comedy, reality shows, scripted reality, and docusoaps, as well as provision of services for entertainment media. This segment also engages in the distribution of theatrical, DVD/Bluray, and TV movies; and exploitation of its video rights for inhouse and licensed films. The Sports and Event Marketing segment markets various international sports events, including the UEFA Champions League, the UEFA Europa League, and the UEFA Super Cup; and international music, culture, and entertainment projects. 1377 Highlight Event and Entertainment AG, through its subsidiaries, engages in the event marketing business. The company operates through Film, Sports, and Sports and Event Marketing segments. The Film segment engages in the production of films; exploitation of film rights; and acquisition and distribution of theatrical, DVD/Bluray, and television movies. The Sports segment conducts the World Boxing Super Series, an annual boxing event; television and digital activities with the umbrella brand SPORT1 and in the areas of production, content solutions services, and content marketing with PLAZAMEDIA; and betting, poker, and casino games. In addition, the sports segment engages in the sporting preparation of professional teams and athletes, as well as the implementation of sporting events and brand activation measures. The Sports and Event Marketing segment markets the UEFA Champions League, UEFA Europa League, UEFA Super Cup, Eurovision Song Contest, and the Vienna Philharmonic. The company was formerly known as Escor Casinos & Entertainment SA and changed its name to Highlight Event and Entertainment AG in May 2012. Highlight Event and Entertainment AG is based in Pratteln, Switzerland.

1378 Hillenbrand, Inc. operates as a diversified industrial company in the United States and internationally. It operates through three segments: Advanced Process Solutions, Molding Technology Solutions, and Batesville. The Advanced Process Solutions segment designs, engineers, manufactures, markets, and services process and material handling equipment and systems comprising compounding, extrusion, and material handling equipment, as well as offers equipment system design services; and provides screening and separating equipment for various industries, including plastics, food and pharmaceuticals, chemicals, fertilizers, minerals, energy, wastewater treatment, forest products, and other general industrials. The Molding Technology Solutions segment offers injection molding and extrusion equipment; hot runner systems; process control systems; and mold bases and components for various industries, including automotive, consumer goods, medical, packaging, construction, and electronics. The Batesville segment designs, manufactures, distributes, and sells funeral services products and solutions, such as burial caskets, cremation caskets, containers and urns, other personalization and memorialization products, and webbased technology applications. The company was founded in 1906 and is headquartered in Batesville, Indiana.

1379 Hilong Holding Limited, an investment holding company, provides oil field equipment and services worldwide. The company operates through Oilfield Equipment Manufacturing and Services, Line Pipe Technology and Services, Oilfield Services, and Offshore Engineering Services segments. The Oilfield Equipment Manufacturing and Services segment produces and sells oilfield equipment; and offers oil country tubular goods (OCTG) coating services. The Line Pipe Technology and Services segment provides services related to oil and gas pipeline; and produces coating materials

for anticorrosive and antifriction purposes. The Oilfield Services segment offers well drilling services; integrated comprehensive services; and OCTG trading and related services to oil and gas producers. The Offshore Engineering Services segment provides offshore engineering and design services. The company is also involved in the manufacture, trading, and distribution of oil and gas equipment; the manufacture and distribution of hardbanding materials and special steel; the research and development related to technology of manufacturing oil and gas equipment, as well as coating services; the research, inspection, and repairment of oil and gas equipment; and the provision of offshore oilfield services. Hilong Holding Limited was founded in 2002 and is headquartered in Shanghai, the People's Republic of China. Hilong Holding Limited is a subsidiary of Hilong Group Limited.

1380 Hilton Grand Vacations Inc., a timeshare company, develops, markets, sells, manages, and operates the resorts, plans and ancillary reservation services under the Hilton Grand Vacations brand. It operates through Real Estate Sales and Financing, and Resort Operations and Club Management segments. Real Estate Sales and Financing segment market and sells the VOIs, and source VOIs through fee-for-service agreements with thirdparty developers; and provides consumer financing and services loans. Resort Operations and Club Management segment manages and operates the clubs and timeshare properties, which offers exchange, leisure travel, and reservation services, as well as engages in the rental of inventory made available due to ownership exchanges through its club programs, and provides ancillary services including food and beverage, retail and spa at timeshare properties. The company was founded in 1992 and is headquartered in Orlando, Florida.

1381 Hilton Worldwide Holdings Inc., a hospitality company, engages in managing, franchising, owning, and leasing hotels and resorts. It operates through two segments, Management and Franchise, and Ownership. The company engages in the hotel management and licensing of its brands. It operates luxury hotels under the Waldorf Astoria Hotels & Resorts, LXR Hotels & Resorts, and Conrad Hotels & Resorts brand; lifestyle hotels under the Canopy by Hilton, Curio Collection by Hilton, Tapestry Collection by Hilton, Tempo by Hilton, and Motto by Hilton brand; full service hotels under the Signia by Hilton, Hilton Hotels & Resorts, and DoubleTree by Hilton brand; service hotels under the Hilton Garden Inn, Hampton by Hilton, and Tru by Hilton brand; allsuite hotels under the Embassy Suites by Hilton, Homewood Suites by Hilton, and Home2 Suites by Hilton brand; and premium economy hotel under the Spark by Hilton brand, as well as Hilton Grand Vacations. The company operates in North America, South America, and Central America, including various Caribbean nations; Europe, the Middle East, and Africa; and the Asia Pacific. The company was founded in 1919 and is headquartered in McLean, Virginia.

1382 Hitachi Construction Machinery Co., Ltd., together with its subsidiaries, manufactures and sells construction machineries worldwide. The company operates through two segments, Construction Machinery Business and Solution Business. It offers excavators and wheel loaders, compaction equipment, hydraulic excavators, and rigid dump trucks. The company also provides ICT construction solutions; ConSite that monitors machines' operational status and alarms by sending monthly operational reports, as well as notifies emergency alarms; Fleet management system, which offers realtime monitoring of dump truck for optimizing vehicle operations; and autonomous haulage system for autonomous operation of mining dump trucks. In addition, it provides parts and services; used equipment under the PREMIUM USED brand; machinery rental services under the PREMIUM RENTAL and REC brand names; and parts remanufacturing services. The company was incorporated in 1951 and is headquartered in

Tokyo, Japan. Hitachi Construction Machinery Co., Ltd. is a subsidiary of Hitachi, Ltd.

1383 HITEJINRO Co., Ltd. operates as a liquor company in South Korea. It provides beer, soju, whisky, wine, sake, and other products. It also exports its products to 50 countries. The company was formerly known as Jinro Ltd and changed its name to HITEJINRO Co., Ltd. in September 2011. HITEJINRO Co., Ltd. was founded in 1924 and is headquartered in Seoul, South Korea.

1384 Hitejinro Holdings Co., Ltd., through its subsidiaries, manufactures and sells beer/shochu and soju primarily in South Korea. The company also manufactures and sells packaging glass containers and bottled water. In addition, it is involved in the golf course operations and investment business. The company was formerly known as Hite Holdings Co., Ltd. and changed its name to Hitejinro Holdings Co., Ltd. in April 2012. Hitejinro Holdings Co., Ltd. was founded in 1933 and is based in Seoul, South Korea.

1385 HL Global Enterprises Limited, an investment holding company, engages in the hospitality operations and property development activities in Singapore, Malaysia, and the People's Republic of China. It operates in three segments: Investments and Others, Hospitality and Restaurant, and Property Development. The company operates and manages hotels and restaurants; and develops, sells, and rents properties. It also provides property and development project management services. The company was formerly known as HLG Enterprise Limited and changed its name to HL Global Enterprises Limited in April 2008. HL Global Enterprises Limited was incorporated in 1961 and is based in Singapore.

1386 HL Holdings Corporation engages in the automobile, construction, and education/sports businesses in South Korea and internationally. The company offers automobile parts. It also operates a port terminal; a university; an ice hockey club; and a golf club. The company was formerly known as Halla Holdings Corp. and changed its name to HL Holdings Corporation in October 2022. HL Holdings Corporation was founded in 1962 and is based in Seoul, South Korea.

1387 Hla Group Corp., Ltd. engages in the manufacture and sale of menswear, womenswear, kids, professional, and home furnishing products in China. It offers Tshirts, shirts, pants, suits, jackets, and other products under the HLA and HLA JEANS brands; customized professional dressing products, such as men's and women's suits, trousers, vests, skirts, shirts, jackets, coats, and windbreakers under the SANCANAL brand for financial institutions, utilities and telecommunications companies, post services companies, government, and other state institutions. The company was formerly known as HLA CORP., Ltd. and changed its name to Hla Group Corp., Ltd. in March 2021. The company was founded in 1997 and is based in Jiangyin, China.

1388 HLB GLOBAL Co., Ltd. focuses on the extraction and supply of marine sand and minerals. It collects, transforms, and supplies aggregates for readymixed concrete companies. The company is also involved in the construction of ecofriendly green walls; and production and sale of fermented beverages. In addition, it offers color cosmetics and hair care products. Further, the company develops various drugs for infectious diseases, including sepsis, influenza, and viral hepatitis; and

immunological diseases, such as rheumatoid arthritis, etc. The company was formerly known as NEXT SCIENCE Co., Ltd. and changed its name to HLB GLOBAL Co., Ltd. in 2022. HLB GLOBAL Co., Ltd. was founded in 1962 and is headquartered in SabukEup, South Korea.

1389 HLB Life Science Co., Ltd. engages in the wholesaling and distribution of pharmaceuticals in South Korea and internationally. It also develops Rivoceranib, a smallmolecule tyrosine kinase inhibitor for the treatment of various cancers, including gastric cancer, colorectal cancer, hepatocellular carcinoma, nonsmall cell lung cancer, esophageal cancer, thyroid cancer, mesothelioma, and neuroendocrine tumors; Seclidemstat, a novel epigenetic oral small molecule for target therapy to normalize gene expression and suppress tumor growth in various solid tumors, such as lung, breast, and prostate cancer; and Tegavivint, inhibitor of the Wnt/β-catenin for the treatment of desmoid tumors, acute myeloid leukemia, osteosarcoma, and a range of solid tumor types. In addition, the company develops LifeLiver, an extracorporeal bioartificial liver system; HepaStem, a heterologous human adult liverderived progenitor cell therapy; and HLBLS200, a biocompatible polysaccharidebased powders that forms adhesive hemostasis upon contact with blood. Further, it is involved in the waste heat recovery, cogeneration power generation, facility installation, solar energy, photovoltaic power generation, bioenergy, geothermal energy, waste energy, wind power, and fuel cell businesses. The company also undertakes energy efficiency projects; and builds heating/heating system improvement projects. The company was formerly known as Energy Solutions Co., Ltd. and changed its name to HLB Life Science Co.,Ltd. in December 2015. HLB Life Science Co.,Ltd. was founded in 1998 and is headquartered in Hwaseong, South Korea.

1390 HLB Therapeutics Co.,Ltd. develops pharmaceutical products in South Korea and internationally. It is developing GBT201 using Thymosin beta for the treatment of ophthalmologic diseases, such as dry eye syndrome and neurotrophic keratopathy; GBT101 for treating epidermolysis bullosa dermal disease; and OKN007 for the treatment of glioblastoma brain cancer. It is also involved in the wholesale of vaccines, as well as manufactures electrical and electronic components such as motors, pumps, and trances. The company was formerly known as GtreeBNT Co., Ltd. and changed its name to HLB Therapeutics Co.,Ltd. in December 2021. HLB Therapeutics Co.,Ltd. was founded in 2000 and is headquartered in Seongnam, South Korea.

1391 HMM Company Limited, an integrated logistics company, provides shipping and logistic services worldwide. The company transports commodities, such as crude oil, coal, iron ore, and various special cargoes, as well as import/export goods. It also operates container terminals for loading, unloading, and storing containers at ports, as well as transporting and warehousing cargoes; container ships; bulk carriers; tankers, such as crude and product tankers; and trampers that include Cape, Panamax, and Supramax/Handy; heavy lifts and special product carriers. In addition, the company engages in ebusiness. The company was formerly known as Hyundai Merchant Marine Co.,Ltd. and changed its name to HMM Company Limited in March 2020. HMM Company Limited was founded in 1976 and is headquartered in Seoul, South Korea.

1392 HNA Investment Group Co., Ltd. engages in the real estate development and investment, fund, medical care, health, insurance, and pension businesses in China. The company was founded in 1993 and is based in Beijing, China.

1393 HNT Electronics Company Ltd. produces and sells camera modules primarily in China and Vietnam. It also provides car camera solutions and

fingerprint recognition modules. The company was founded in 2006 and is headquartered in Seongnam, South Korea.

1394 Ho Chi Minh City Infrastructure Investment Joint Stock Company engages in the investment, construction, and exploitation of infrastructure business in Vietnam. The company operates under build-operate-transfer (BOT) contracts; build-transfer (BT) contracts; collects road traffic toll fees; trades in real estate floors; and water distribution networks. It is also involved in the production and sale of specialized equipment related to traffic toll collection and construction; construction of civil, industrial, traffic and road works, and drain pipes; undertakes bridge and residential infrastructure projects, as well as real estate projects; and provision of clean water. Ho Chi Minh City Infrastructure Investment Joint Stock Company was incorporated in 2001 and is headquartered in Ho Chi Minh City, Vietnam.

1395 Ho Hup Construction Company Berhad, an investment holding company, engages in foundation and civil engineering, and building contracting works in Malaysia. It operates through Construction, Property Development, Building Materials, and Others segments. The company's construction activities include building construction, engineering, earthworks, highway and road works, railway, bridges, dams, steel pipelines, reservoirs, water treatment plants, sports complexes, drainage works, foundation and engineering projects, building works, quarry operations, manufacturing, and oil and gas works. It also engages in the development of residential and commercial properties; management of properties; letting of shop lots, food courts, and promotional areas; manufacture and distribution of ready-mixed concrete; and manufacture and trading of building materials. In addition, the company engages in the provision of trading services; project management services, such as consultancy and infrastructure development; engineering, procurement, construction, and commissioning of pipeline systems; and the provision of asset and retail management. Ho Hup Construction Company Berhad was founded in 1960 and is based in Kuala Lumpur, Malaysia.

1396 Hoa Binh Construction Group Joint Stock Company provides industrial and civil construction services in Vietnam. It undertakes various construction projects, such as residential, culture-hospital-education, commercial, infrastructure-airport, and industrial projects. The company also provides surface levelling, construction consulting, house renovation, and interior decoration services; and engages in manufacturing and trading of construction materials and interior decoration products. It also trades in real estate; and develops and trades industrial zones. The company was formerly known as Hoa Binh Construction & Real Estate Corporation and changed its name to Hoa Binh Construction Group Joint Stock Company in June 2017. Hoa Binh Construction Group Joint Stock Company was founded in 1987 and is headquartered in Ho Chi Minh City, Vietnam.

1397 Hoang Anh Gia Lai Joint Stock Company, together with its subsidiaries, engages in the agriculture business in Vietnam, Laos, Cambodia, and internationally. The company operates through Manufacturing, Trading and Services, Construction, and Agriculture segments. It is involved in the trading of materials, and machinery and equipment for cultivation and animal husbandry; gas and hotel business; and processing of agricultural products, as well as provides warehousing, agricultural, and mechanical services; and sports and entertainment card activities. The company also engages in the planting and trading of rubber latex, rubber, palm oil, fruit, and other crops; raising and trading pigs and cows; production and sale of seedlings; and planting and harvesting fruit trees. In addition, it is involved in the asset management activities; purchase and sale of goods; and construction of

building brands activities. Further, the company produces and sells fertilizers, plastic pipes, and other tools and tools used in agriculture. Hoang Anh Gia Lai Joint Stock Company was founded in 1993 and is headquartered in Pleiku, Vietnam.

1398 Hojeon Limited, a clothing company, produces and sells garments in South Korea, Indonesia, and Vietnam. It offers woven sportswear, special functional outdoor clothing, and sports team's uniforms. The company was founded in 1985 and is headquartered in Seoul, South Korea.

1399 Holcim Philippines, Inc. manufactures, sells, distributes, and exports cement and cementitious products in the Philippines and internationally. It operates through two segments, Clinker and Cement, and Other Construction Materials and Services. The company offers Holcim 4X, an American Society for Testing and Materials (ASTM) C150 Portland cement for ready mix concrete applications; Holcim Premium cement, an ASTM type I Portland cement; Holcim Solido, an ASTM Type IP cement for roads and general concrete applications; Holcim Excel, an ASTM type IP cement for general concrete construction; and Holcim WallRight cement, an ASTM C91 type S Masonry cement for block laying, plastering, and finishing use. It also provides clinkers; SF Crete, a solution for one day concrete pavement; aggregates for various construction applications; Holcim Tile Adhesive, a cement-based adhesive for tiles; Holcim skim coat, a cementitious plaster for indoor and outdoor use; and Holcim Multifix, a polymer modified mortar for internal and external wall plastering, floor screed, and tile installation; Holcim Aqua X, a general purpose cement; and Holcim Ecoplanet, a cement for structural applications. In addition, the company purchases, leases, and sells real estate properties; mines, processes, and sells quarry resources; manufactures, uses, and sells admixtures; and provides business process outsourcing and other information technology enabled services, as well as construction-related training, consultancy, testing, and other technical services. It offers its products to traders, wholesalers, retailers, contractors serving private and public projects, real estate developers, and concrete producers. The company was formerly known as Union Cement Corporation and changed its name to Holcim Philippines, Inc. in November 2004. The company was incorporated in 1964 and is headquartered in Taguig City, the Philippines. Holcim Philippines, Inc. is a subsidiary of Union Cement Holdings Corporation.

1400 Holitech Technology Co., Ltd. produces and sells components for smart terminals in China. It offers liquid crystal display modules, touch control modules, camera and fingerprint identification modules, cover glasses, and flexible printed circuit boards, electronic paper ecochain modules, backlight modules, and 5G materials, as well as components of wireless charging modules. The products are used in various fields, such as communication equipment, consumer electronics, household appliance, digital products, automotive electronics and electric vehicles, finance, industrial control, medical device, smart wearable equipment, smart retail, and smart home products. The company was formerly known as Shandong Liahed Chemical Industry Co., Ltd. and changed its name to Holitech Technology Co., Ltd. in May 2014. Holitech Technology Co., Ltd. was founded in 2004 and is based in Putian, China.

1401 Holley Inc. designs, manufactures, and markets automotive aftermarket products for car and truck enthusiasts in the United States, Canada, Europe, and China. The company's products include carburetors, fuel pumps, fuel injection systems, nitrous oxide injection systems, superchargers, exhaust headers, mufflers, distributors, ignition components, engine tuners, automotive performance plumbing products, and exhaust products as well as shifters, converters, transmission kits, transmissions, tuners, and automotive software. It also offers wheels,

chassis and suspension products, helmets, head and neck restraints, seat belts, fire suits, and electronic control and monitoring systems. The company sells its products under the Holley, Holley EFI, APR, MSD, Flowmaster, Powerteq, Accel, and Simpson brands to retailers directly, as well as through distributors and online platform. The company was founded in 1903 and is headquartered in Bowling Green, Kentucky.

1402 Holly Energy Partners, L.P. provides petroleum product and crude oil transportation, terminalling, storage, and throughput services to the petroleum industry in the United States. It operates through two segments, Pipelines and Terminals; and Refinery Processing Unit. The company operates refined product pipelines that transport conventional gasolines, reformulated gasolines, and lowoctane gasolines for oxygenate blending, as well as sulfur diesel and jet fuels, and liquefied petroleum gases; intermediate product pipelines that transport intermediate feedstocks and crude oils; and oil trunk, gathering, and connection pipelines that delivers crude oil. Holly Energy Partners, L.P. was incorporated in 2004 and is based in Dallas, Texas.

1403 Hollsys Automation Technologies Ltd. provides automation control system solutions in the People's Republic of China, Southeast Asia, India, and the Middle East. The company offers a suite of industrial automation systems, including hardwarecentric products, such as instrumentation and actuators; proprietary softwarecentric distributed control systems/programmable logic controllers; and valuedadded software packages comprising simulation training system, HolliAS asset management system, advanced process control, and manufacturing execution system, as well as HOLLiAS MACSN DCS, a proprietary nuclear power nonsafety automation and control system. It also provides train control center, an onground control center that monitors route condition, track status, train schedules, distance between trains, and the working status of other function devices, as well as generates control instructions and commands. In addition, the company offers automation train protection that operates as a train overspeed protection mechanism; other signaling products, including automatic train operation system, track circuit, lineside electronic unit, balise transmission module, temporary speed restriction server, radio block center, and computerbased interlocking; and supervisory control and data acquisition system, an open software platform. Further, it offers integrated automation control system solutions, mechanical and electrical solutions, including design, engineering, procurement, project management, construction and commissioning, and maintenance related services, and installation services. The company serves manufacturing, banks, hospitals, airports, power plants, commercial centers, hotels, and infrastructure works. The company was formerly known as HLS Systems International Ltd. and changed its name to Hollsys Automation Technologies Ltd. in July 2009. Hollsys Automation Technologies Ltd. was founded in 1993 and is headquartered in Beijing, the People's Republic China.

1404 Hollywood Bowl Group plc operates tenpin bowling and minigolf centers in the United Kingdom. The company also supplies and installs bowling equipment. As of December 16, 2022, it operated 75 centers under the Hollywood Bowl, Puttstars, and Splitsville brands. The company was incorporated in 2016 and is based in Hemel Hempstead, the United Kingdom.

1405 Honeywell International Inc. operates as a diversified technology and manufacturing company worldwide. Its Aerospace segment offers auxiliary power units, propulsion engines, integrated avionics, enviroental control and electric power systems, engine controls, flight safety, communications, navigation hardware, data and software applications, radar and surveillance systems, aircraft lighting, advanced systems and instruments, satellite and space components, and aircraft

wheels and brakes; spare parts; repair, overhaul, and maintenance services; and thermal systems, as well as wireless connectivity and management services. The company's Honeywell Building Technologies segment provides software applications for building control and optimization; sensors, switches, control systems, and instruments for energy management; access control; video surveillance; fire products; and installation, maintenance, and upgrades of systems. Its Performance Materials and Technologies segment offers automation control, instrumentation, and software and related services; catalysts and adsorbents, equipment, and consulting; and materials to manufacture end products, such as bullet-resistant armor, nylon, computer chips, and pharmaceutical packaging, as well as provides materials based on hydrofluoroolefin technology. The company's Safety and Productivity Solutions segment provides personal protection equipment, apparel, gear, and footwear; gas detection technology; cloud-based notification and emergency messaging; mobile devices and software; supply chain and warehouse automation equipment, and software solutions; custom-engineered sensors, switches, and controls; and data and asset management productivity software solutions. The company was founded in 1885 and is headquartered in Charlotte, North Carolina.

1406 Hong Kong Aerospace Technology Group Limited, an investment holding company, provides electronics manufacturing services in the People's Republic of China, the United States, India, South Korea, Austria, Hong Kong, Brazil, Mexico, the United Kingdom, Germany, Vietnam, and Australia. The company provides design enhancement and verification; technical advice and engineering solutions; raw materials selection and procurement; quality control; logistic and delivery; and after-sale services for assembling and production of printed circuit board assemblies and fully assembled electronic products for banking and finance, telecommunication, and smart device industries. Its fully assembled electronic products include mobile phones, mobile point-of-sale, photovoltaic inverters, tablets, and street lamp controllers. It is also engaged in the sales of electronic products, satellite manufacturing, and satellite tracking and controlling services. Hong Kong Aerospace Technology Group Limited has a strategic cooperation agreement with the College of Engineering of City University of Hong Kong for the research and development of advanced satellite technology and related applications, such as communication systems, antenna technology, advanced materials, data processing, and energy management in Hong Kong. The company was formerly known as Eternity Technology Holdings Limited and changed its name to Hong Kong Aerospace Technology Group Limited in June 2021. The company was incorporated in 2003 and is based in Tseung Kwan O, Hong Kong. Hong Kong Aerospace Technology Group Limited is a subsidiary of Hong Kong Aerospace Technology Holdings Limited.

1407 Hong Kong Ferry (Holdings) Company Limited, an investment holding company, primarily engages in the property development and investment business in Hong Kong. The company operates in four segments: Property Development; Property Investment; Ferry, Shipyard and Related Operations; and Securities Investment. It develops and sells residential units, commercial arcades, and car parking spaces; invests in and leases real estate properties; and offers property management services. The company also provides dangerous goods vehicular ferry, and ship repair and maintenance services, as well as sells goods on cruise vessels. In addition, it invests in debt and equity securities; provides property finance; and engages in the trading and floating restaurant business. The company was formerly known as The Hongkong and Yaumati Ferry Company Limited and changed its name to Hong Kong Ferry (Holdings) Company

Limited in 1989. Hong Kong Ferry (Holdings) Company Limited was incorporated in 1923 and is headquartered in Tsing Yi, Hong Kong.

1408 Hongda Xingye Co., Ltd. manufactures and sells chemical products in China. The company offers PVC construction boards and ecohouses, prefabricated homes, PVC sheets and films, and PVCbased woodplastics composites; pharmaceutical packaging materials, including rigid PVC sheets, high barrier rigid compound sheets based on PVC, PVDC and PE, rigid PVC/PE compound sheets, rigid coldformed aluminum sheets, and PTP aluminum foils; and interior and exterior decoration materials comprising interior decorative plates, exterior hanging boards, interior floor, hanging decorations, faux stone wall, cabinets, and other products. It also provides soil remediation, desulfuration, and denitration services; rare earth new materials, such as rare earth heat stabilizers and catalysts; and electronic spot trading, logistics and warehousing, procurement, and Ecommerce services. The company was formerly known as Jiangsu Golden Material Technology Co., Ltd. and changed its name to Hongda Xingye Co., Ltd. in June 2013. The company was founded in 1995 and is based in Guangzhou, China.

1409 Hongfa Technology Co., Ltd. manufactures and supplies relays, medium and low voltage electrical appliances, high and low voltage complete equipment, connectors, capacitors, precision parts, and automation equipment worldwide. It offers a range of relays, including signal relays, automotive relays and modules, power relays, industrial relays, latching relays, new energy relays, etc. The company also provides lowvoltage devices, such as intelligent circuit breakers, contactors, motor protectors, automatic transfer switching breakers, etc. In addition, the company offers film capacitor application, such as reactive compensation, AC filter, lighting, telecommunication, home appliance, power supply, and industrial controls. Further, the company provides vacuum interrupters, transformers, and electronic modules. The company was formerly known as WuHan LiNuo Solar Energy Group Co., Ltd. Hongfa Technology Co., Ltd. was founded in 1984 and is headquartered in Xiamen, China.

1410 Hoa Golf Limited, an investment holding company, designs, develops, manufactures, and sells a range of golf club equipment in Asia, North America, Europe, and internationally. It offers driver, fairway wood, utility, iron, wedge, and putter clubs; golf balls, golf bags, golf club head covers, gloves, shoes, belts and socks, and other golfrelated accessories; and apparel for men and women under the BERES, TOUR WORLD, Be ZEAL, and HOA brands. The company distributes its products through HOAbranded selfoperated stores; thirdparty retailers, including sports megastores; and wholesale distributors that onsell to other third parties. As of March 31, 2022, it had 80 HOAbranded selfoperated stores. The company was founded in 1959 and is headquartered in Tokyo, Japan.

1411 Honworld Group Limited, an investment holding company, manufactures and sells cooking wine and other condiment products under the Lao Heng He brand in the People's Republic of China. The company offers soy sauce, vinegar, soybean paste, sesame oil, and fermented bean curd products. It also engages in the wholesale of condiment products. The company was incorporated in 2012 is headquartered in Huzhou, the People's Republic of China.

1412 Honz Pharmaceutical Co., Ltd. engages in the research and development, manufacture, and sale of pediatric medicines in China. It offers medicines for children and adults in the areas of antianaphylaxis, antidiarrheal and digestive, cough, antifu, antipyretic, antiinfection, antifungal, antipyreticanalgesic, and endocrine. The company markets its products through a network of agents and sales terminals. The company was formerly known as HaiNan Honz Pharmaceutical Co.,Ltd. and changed its

name to Honz Pharmaceutical Co., Ltd. in November 2016. Honz Pharmaceutical Co., Ltd. is headquartered in Guangzhou, China.

1413 Horizon Therapeutics Public Limited Company, a biotechnology company, focuses on the discovery, development, and commercialization of medicines that address critical needs for people impacted by rare, autoimmune, and severe inflammatory diseases. Its portfolio comprises 12 medicines in the areas of rare diseases, gout, ophthalmology, and inflammation. It markets TEPEZZA (teprotumumabtrbw) for intravenous infusion; KRYSTEXXA (pegloticase injection) for intravenous infusion; RAVICTI (glycerol phenylbutyrate) oral liquid; PROCYSBI (cysteamine bitartrate) delayedrelease capsules and granules for oral use; ACTIMMUNE (interferon gammalb) injection for subcutaneous use; BUPHENYL (sodium phenylbutyrate) tablets and powder for oral use; QUINSAIR (levofloxacin) solution for inhalation; and UPLIZNA (inebilizumabcdon) injection for intravenous use. The company also markets PENNSAID (diclofenac sodium topical solution) for topical use; DUEXIS (ibuprofen/famotidine) tablets for oral use; RAYOS (prednisone) delayedrelease tablets for oral use; and VIMOVO (naproxen/esomeprazole magnesium) delayedrelease tablets for oral use. It has collaboration agreements with HemoShear Therapeutics, LLC; Alpine Immune Sciences, Inc.; Halozyne Therapeutics, Inc.; Arrowhead Pharmaceuticals, Inc.; Q32 Bio Inc.; and Xeris Biopharma Holdings, Inc. The company was formerly known as Horizon Pharma Public Limited Company and changed its name to Horizon Therapeutics Public Limited Company in May 2019. Horizon Therapeutics Public Limited Company was founded in 2005 and is headquartered in Dublin, Ireland.

1414 Hortifrut S.A., together with its subsidiaries, produces and sells berries in Chile. It offers blueberries, strawberries, raspberries, blackberries, rough bindweed fruit, physalis, cherries, and mixed berries, as well as fresh, frozen, and dehydrated fruits and its derivatives, marmalades, etc. The company sells its products in North America, Latin America, Asia, and Europe. Hortifrut S.A. was founded in 1980 and is based in Santiago, Chile.

1415 Hoshine Silicon Industry Co., Ltd. engages in the production and sale of siliconbased materials in China and internationally. It offers silicon metals and metal powders, and graphite carbon electrodes. The company also provides silicone products comprising hydroxyl terminated polydimethylsiloxane linears, tetramethyldisiloxane, silicone oil, precipitated silica, acetic silicone and neutral silicone sealants, methyl hydrogen silicone fluids, polydimethylsiloxane, vinyl terminated silicone fluids, methyltrichlorosilane, dimethyldichlorosilane, trimethylchlorosilane, methyldichlorosilane, dimethylcyclotrisiloxane, hexamethylcyclotrisiloxane, octamethylcyclotetrasiloxane, decamethylcyclopentasiloxane, fumed silica, room temperature vulcanized silicone rubber, methyl vinyl silicone rubber, and liquid silicone rubber. Its products are used in aerospace, military, electronic communications, photovoltaic new energy, health care, automobile, and other fields. The company was founded in 2005 and is headquartered in Cixi, China.

1416 Hotel Properties Limited, an investment holding company, owns, manages, and operates hotels in Singapore and internationally. It operates through Hotels, Properties, and Others segments. The company owns and operates 39 hotels under the Four Seasons Hotels & Resorts, COMO Hotels & Resorts, InterContinental Hotels Group, Six Senses Hotels & Resorts, Marriott International, Hard Rock Hotels, and Concorde Hotels & Resorts brands, as well as resorts and shopping galleries primarily in Singapore, Malaysia, Thailand, Maldives, Indonesia, Seychelles, the United Kingdom, the United States, Vanuatu, Bhutan, Tanzania, South Africa, Vietnam, Italy, and Sri Lanka. It also engages in the rental and

sale of residential properties and commercial units; property development and project management activities; trading in quoted investments and share dealing; card service operations; casino operations; and provision of administrative and information services. The company was incorporated in 1980 and is based in Singapore.

1417 Hotelest Limited, through its subsidiary, Constance Hotels Services Limited, owns and operates a group of hotels and resorts in Mauritius, the Maldives, the Seychelles, and Madagascar. It offers services in the areas of gastronomy, golf, diving, spa, activities, constance kids club, wedding, and honeymoon. The company was incorporated in 1995 and is based in Port Louis, Mauritius. Hotelest Limited is a subsidiary of BMH Ltd.

1418 HPF Co.,Ltd provides integrated logistics services primarily in China. Its integrated logistics services include lean land transportation, warehousing, and international freight forwarding services. The company also provides financial and valueadded services, including money collection, advance payment, warehouse receipts pledging, and supply chain commodity sales services, as well as product packaging and barcode, insurance agency, sorting and combination, and product quality inspection services for shippers. In addition, it offers agency procurement services of consumer electronic core components; supply chain services; geographic information surveying and mapping services; and mobile IoT operation services comprising research and development of customized mobile terminals, mobile computing, and other technical models. The company was formerly known as Shenzhen Huapengfei Modern Logistics Co., Ltd. and changed its name to HPF Co.,Ltd in July 2017. HPF Co.,Ltd was incorporated in 2000 and is headquartered in Shenzhen, China.

1419 HT&E Limited, together with its subsidiaries, operates as a media and entertaient company in Australia and Hong Kong. The company operates through three segments: Australian Radio Network, HK Outdoor, and Investments. It owns and operates Australian Radio Network under the KIIS, Pure Gold, iHeartRadio, and The Edge brands. The company also engages in audio and digital businesses. It operates a network of approximately 370 outdoor advertising panels across Hong Kong tunnels and the tram shelters on Hong Kong Island, as well as provides mobile messaging technology services. The company was formerly known as APN News & Media Limited and changed its name to HT&E Limited in May 2017. HT&E Limited was incorporated in 1988 and is based in Sydney, Australia.

1420 Hua Hong Semiconductor Limited, an investment holding company, manufactures and sells semiconductor products. The company provides embedded nonvolatile memory, standard logic and mixedsignal, radio frequency, power management integrated circuits, power discrete, and automotive solutions. It also offers foundry services; and design services comprising standard and customized IP development, fullcustom layout design, and customerspecific integrated solutions, as well as design support and tape out services. In addition, the company provides multiproject wafer services; mask making services; and backend services, such as inhouse testing, backside processing and dicing, and backend turnkey services, as well as wafer probing, assembly, and testing. Its products are used in consumer electronics, communications, computing, industrial, and automotive markets in the People's Republic of China, North America, Europe, Japan, and other Asian countries. The company was founded in 1997 and is headquartered in Shanghai, the People's Republic of China. Hua Hong Semiconductor Limited is a subsidiary of Shanghai Alliance Investment Ltd.

1421 Huabao International Holdings Limited, an investment holding company, researches, develops, produces, distributes, and sells flavours and fragrances, aroma and tobacco raw materials, and condiment products primarily in the People's Republic of China. The company operates

through four segments: Flavours and Fragrances, Tobacco Raw Materials, Aroma Raw Materials, and Condiment. It offers papermaking reconstituted tobacco leaves and new materials products for the tobacco industry. The company is also involved in the production and sale of natural extracts; tobacco flavours and fragrances; filter materials; synthetic perfumes; and food flavours and fragrances. Huabao International Holdings Limited was founded in 1996 and is headquartered in Wan Chai, Hong Kong.

1422 Huafa Property Services Group Company Limited, an investment holding company, provides property management services in Hong Kong and Mainland China. It also offers property management related valueadded services, including municipal supporting and other services; hotel advisory services; and exhibition planning and organization services. The company was formerly known as HJ Capital (International) Holdings Company Limited and changed its name to Huafa Property Services Group Company Limited in March 2021. Huafa Property Services Group Company Limited was founded in 2000 and is headquartered in Central, Hong Kong.

1423 Huagong Tech Company Limited manufactures and sells laser equipment, optical communication devices, laser holographic anticounterfeiting products, and sensors and information tracing in North America, the European Union, East Asia, South Asia, and Central and West Asia. The company offers laser smart equipment, such as laser marking, laser cutting, laser surface treatment, laser welding, and plasma cutting equipment, as well as specialized equipment; and hologram products, including hologram stickers, hot stamping foils, security hologram, packing hologram, metalized paper, and barcode products. It also provides optical communication transreceivers; automotive electronic products; PTC motor starting thermistors; NTC series temperature sensors; and PTC series thermistors, heating components and devices, heaters, and heating chips. In addition, the company offers omnichannel marketing management systems; traceability systems; smart agriculture products; goverent traceability and supervision platform; WMS and intelligent logistics distribution systems; data acquisition systems; and transferring and laminating films, and cold stamping foils. It offers its products for applications in home appliance, automobile, OA, medical, consumer electronics, and aerospace fields. Huagong Tech Company Limited was founded in 1999 and is headquartered in Wuhan, China.

1424 Huaihe Energy (Group) Co.,Ltd operates as a logistics company in China. It is also involved in railway transportation, power generation production, coal trading, and electricity sales activities. The company was formerly known as Anhui Wanjiang Logistics (Group) Co., Ltd and changed its name to Huaihe Energy (Group) Co.,Ltd in September 2019. Huaihe Energy (Group) Co.,Ltd was founded in 2000 and is based in Wuhu, China.

1425 Huasu Holdings Co.,Ltd manufactures and distributes construction materials in China. The company engages in the development and production of computer software; development, production, and sales of electronic products and components; production, sales, import, and export of feather (velvet) products and clothing; raw and auxiliary materials; technical services and consultation on konjac products and feather products; and shipping services. It is also involved in the wholesale and retail of knitted textiles, agricultural, sideline products, ordinary machinery and accessories, daily sundries, metal materials, department stores, meters, instruments and accessories, and palm oil; property management business; production and sale of plastic and aluminum alloy profiles, doors, and windows; and selfowned commercial housing rental services. The company is based in Chengdu, China.

1426 Huawen Media Group operates in the media business in China. It engages in the provision of information transmission, software, and

information technology; labor services; and develops Automotive professional technology. In addition, the company provides advertising services; purchases and sells commodities; and publishes newspapers and magazines. The company was formerly known as China Media Group and changed its name to Huawen Media Group in June 2018. Huawen Media Group is based in Haikou, China.

1427 Huayi Brothers Media Corporation operates as an entertainment media company in China. It is involved in film and television entertainment, including film production, distribution, and derivative business; production, distribution and derivative business of TV series; artist agency and related service business; cinema investment, management, operation and other businesses; movie ticket online business; and digital projection equipment sales business, etc. The company also engages in Internet entertainment, such as new media, internet games, fan economy, VR technology, and its entertainment applications; brand licensing; live entertainment; and industrial investment activities. The company was founded in 1994 and is based in Beijing, China.

1428 Huayi Tencent Entertainment Company Limited, a media company, engages in the entertainment and media business in the People's Republic of China, Hong Kong, and internationally. It operates through four segments: Entertainment and Media Businesses; Healthcare and Wellness Services; Online Prescription, Circulation and Marketing of Pharmaceutical Products, and Internet Healthcare Management Platform. The company produces films, animations, and TV dramas, as well as invests in international entertainment companies. It is also involved in the licensing of films and TV dramas; advertising agency activities; and the provision of health and wellness services through operation of wellness center. In addition, the company engages in the hotel management business; providing management services; and trading and supply chain management of pharmaceutical products. The company was formerly known as China Jiu hao Health Industry Corporation Limited and changed its name to Huayi Tencent Entertainment Company Limited in May 2016. Huayi Tencent Entertainment Company Limited was incorporated in 2002 and is based in Hong Kong, Hong Kong.

1429 Huayuan Property Co., Ltd. engages in the development and sale, and leasing of real estate properties in China. The company develops housing units, senior apartments, villas, business apartments, office buildings, hotels, shopping malls, and others. It is also involved in land development, property management, hotel management, etc. activities. Huayuan Property Co., Ltd. was founded in 1983 and is headquartered in Beijing, China.

1430 Hubei Energy Group Co., Ltd., together with its subsidiaries, engages in the power generation business in China. The company generates electric energy using hydro, thermal, nuclear, wind, and photovoltaic resources; and operates coal-fired and gas turbine cogeneration plants. It also engages in the transmission and distribution of natural gas; and storage and distribution of coal. Hubei Energy Group Co., Ltd. was founded in 2005 and is based in Wuhan, the People's Republic of China.

1431 Hubei Forbon Technology Co., Ltd. researches, develops, produces, and sells fertilizer additives worldwide. It offers anticaking agents, multifunctional wrappers, granulation modifiers, phosphate rock flotation agents, slow-release materials, defoamers, settling agents, flocculants, evaporation aids, scale inhibitors, etc. Hubei Forbon Technology Co., Ltd. was founded in 2007 and is based in Wuhan, China.

1432 Hubei Guangji Pharmaceutical Co., Ltd. manufactures and sells pharmaceutical raw materials, medicinal feed additives, fine chemicals, and preparations in China. The company also exports its products to approximately 30 countries and regions worldwide. Hubei Guangji

Pharmaceutical Co., Ltd. was founded in 1969 and is based in Wuxue, China.

1433 Hubei Huitian New Materials Co., Ltd. researches, develops, manufactures, and sells adhesives and new materials in China and internationally. It offers silicone, polyurethane glue, acrylic glue, anaerobic glue, epoxy resin and other engineering adhesives, and solar battery back films that are used in automobile manufacturing and maintenance, communication electronics, home appliances, rail transit, LED, new energy, construction machinery, flexible packaging, highend buildings, etc. The company was formerly known as Hubei Huitian Adhesive Enterprise Co., Ltd. and changed its name to Hubei Huitian New Materials Co., Ltd. in April 2014. Hubei Huitian New Materials Co., Ltd. was founded in 1977 and is based in Xiangyang, China.

1434 Hubei Sanxia New Building Materials Co., Ltd. researches, produces, and sells float glass, glass deepprocessing products, and building materials in China. It offers titanium dioxide film selfcleaning, tempered, laminated, and hollow glasses, as well as tempered glass covers. The company is headquartered in Dangyang, China.

1435 Hubei Xingfa Chemicals Group Co., Ltd. develops, produces, and sells phosphoric products and fine chemicals in Asia, Europe, the Americas, and Africa. It offers phosphoric products, such as dicalcium phosphate, phosphoric acid, sodium tripolyphosphate and hexametaphosphate, monosodium phosphate, trisodium phosphate and disodium phosphate food grade, sodium hypophosphite, sodium monofluorophosphate, tetrapotassium pyrophosphate, tetrasodium pyrophosphate, sodium trimetaphosphate, sodium acid pyrophosphate, trisodium acid pyrophosphate, monopotassium phosphate, dipotassium and tricalcium phosphate, tetrakis hydroxymethyl phosphonium sulfate, tetrakis hydroxymethyl phosphonium sulfateurea, tetrakis hydroxymethyl phosphonium chloride, tetrakis hydroxymethyl phosphonium chlorideurea, triethylphosphate, TRIS(1chloro2propyl) phosphate, and TRIS(hydroxymethyl) phosphine oxide. The company also provides compound food additives; herbicides; organosilicone; fertilizers; and electronic chemicals, including phosphoric and sulfuric acids EL grade, etchants, strippers, developers, and dimethyl sulfoxide. In addition, it offers basic chemicals comprising glycine, calcium and sodium hypochlorite, anhydrous calcium chloride, sodium hydroxide, phosphoric acid, phosphorus pentasulphide, yellow phosphorus, methylal, methyl chloride, phosphorus oxychloride, phosphorus trichloride, sodium hydroxide, calcium chloride dihydrate, liquid chlorine, hydrochloric and phosphorous acid, dimethyl sulfoxide, dimethyl sulfone, phosphate rocks, methyl disulfide, sodium methyl mercaptide, sodium fluorosilicate, ferrophosphorus, and dimethyl dichlorosilane. Hubei Xingfa Chemicals Group Co., Ltd. was founded in 1994 and is headquartered in Yichang, the People's Republic of China.

1436 Hufvudstaden AB (publ) engages in the ownership, development, and management of commercial properties in Stockholm and Gothenburg, Sweden. The company operates through three segments: Property Management, NK Retail, and Other Operations. It offers office and retail properties, residential properties, restaurants, department stores, parking facilities, and shopping centres. The company operates its properties primarily under the NK, Bibliotekstan, Femman, Norrmalmstorg 1, Birger Jarlspassagen, Fredstan, Cecil Coworking, Parkaden, and Nordstan brands. It owns properties with rentable floor spaces. Hufvudstaden AB (publ) was founded in 1915 and is headquartered in Stockholm, Sweden.

1437 Hugel, Inc. operates as a biopharmaceutical company in South Korea and internationally. It offers Botulinum Toxin, a white injectable dry powder in a transparent glass vial for use in the treatment of positive essential eyelid convulsion in adults over 18 years of age; improvement

of severe lasso wrinkles associated with corrugator muscles and/or procerus muscle activities in adults aged between 18 and 65; treatment of upper limb stroke; and treatment of dynamic equinus foot deformity in children with cerebral palsy over 2 years of age, as well as improvement of external angles of secondary ideals related to orbicularis oculi muscle activity in adults aged between 19 and 65 under the Botulax, Regenox, Zentox, Reage, Magnion, Hugel Toxin, Juvenlife, Botulim, and Botoshot brands. The company also provides hyaluronic acid filler under the Dermalax, Hyalsense, Revigance, and The Chaeum brand names; cosmetics under the Wellage brand; and medical devices. Hugel, Inc. was founded in 2001 and is headquartered in Chuncheon, South Korea.

1438 Hugo Boss AG, together with its subsidiaries, provides clothes, shoes, and accessories for men and women worldwide. It also offers licensed products comprising of fragrances, eyewear, watches, children's fashion, and dog related accessories. The company markets and sells its products under the BOSS and HUGO brand names through freestanding stores, shopinshops, factory outlets, multibrand stores, and franchise business, as well as online retailers, distribution, and stores. Hugo Boss AG was founded in 1924 and is headquartered in Metzingen, Germany.

1439 Humansoft Holding Company K.S.C.P., together with its subsidiaries, establishes and operates universities and colleges in Kuwait and internationally. The company operates through Higher Education and Others segments. It provides computer programming, advertisement, publication and distribution, selling and purchasing of shares and bonds; and technology, ecommerce, and media services. The company also offers diploma degrees in business administration, information technology, and engineering; contentbased programs and elearning solutions. In addition, it operates foster fledgling educational institutions; offers technical, application, and business skill courses; cyclical pedagogical syllabus learning system; and provides career development and job placements, and management and training services to schools. The company was founded in 1994 and is based in Kuwait City, Kuwait.

1440 Humasis Co. Ltd. develops, manufactures, and markets invitro diagnostics for the detection of cardiac marker, fertility hormone, infectious disease, tumor marker, and cotinine for home and laboratory use in South Korea and internationally. It offers pregnancy and ovulation selftest products; HubiQuan Pro, a selfcontained and cartridge reader to provide rapid quantitative results for membranebased lateral flow immunochromatographic assays; and various rapid test kits. The company was founded in 2000 and is based in Anyang, South Korea.

1441 Humble Group AB (publ) refines, develops, and distributes fastmoving consumer products in Sweden and internationally. It operates through Food & Snacks, Personal & Home Care, Sports Nutrition & Ingredients, and Other segments. The company provides oral care, baby and feminine care, bath and body care, and household cleaning products; cosmetics, beauty, and wellness products; medical devices and dermatological products; fitness clothing, tools, supplements, and sports nutrition products; chocolate and sugar confectionery products; sauces, jams, and syrups; plantbased gums and lozenges, sweets, organic staples, natural remedies, spices and spice mixtures, sweetened fibres, and groceries, as well as bars and granolas and candles; and snacks, such as protein bars and protein chips, functional drinks, and dietary supplements. Brands, Jalofoods, PÅndy, Tweek, The Eco Gang, Green Star, Vitargo, Golden Athlete, Body Science, Go Superfoods, La Praline, and Lev trademarks; and through grocery stores, distributors, and online. The company was formerly known as Bayn Group AB

(publ) and changed its name to Humble Group AB (publ). Humble Group AB (publ) was incorporated in 2009 and is headquartered in Stockholm, Sweden.

1442 Hunan Development Group Co.,Ltd engages in the development and operation of hydropower generation in China. The company generates hydroelectric power with an installed capacity of 230,000 kilowatts. It also engages in the oldage care and healthcare business; and medical business. In addition, it is involved in the investment business; and development and operation of land and mineral resources. The company was founded in 1993 and is headquartered in Changsha, China.

1443 Hunan Kaimeite Gases Co., Ltd. produces and sells industrial gases in China. It also engages in the research, development, production, and sale of dry ice, food additive, liquid carbon dioxide, methane, oxygen, nitrogen, hydrogen, argon, helium, neon, krypton, xenon, and other industrial gases that are widely used in beverage, metallurgy, food, tobacco, petroleum, agriculture, chemical, electronics, and other fields. The company was founded in 1991 and is based in Yueyang, China.

1444 Hunan Mendale Hometextile Co.,Ltd engages in the production and sale of clothing, apparel, and home textile products in China. It offers kits, quilts, pillows, and other products. The name was formerly known as Changsha Mengjie Quilted Products Industry Co., Ltd and its changed name to Hunan Mendale Hometextile Co.,Ltd in January 2001. Hunan Mendale Hometextile Co.,Ltd was founded in 1956 and is headquartered in Changsha, China.

1445 Hunan New Wellful Co.,Ltd. primarily engages in the breeding and supplying of pigs. The company is also involved in feed, raw material trade, slaughter, cold chain logistics, pig trading, cold meat processing and sale, and breeding equipment businesses. It offers its products under the U fresh and Chenfeng brand names in China, Macau, and Hong Kong. The company was founded in 2001 and is headquartered in Changsha, China.

1446 Hunan Valin Steel Co., Ltd. engages in the production and sale of ferrous metal products in China. It offers billets, seamless steel pipes, wire rods, rebars, hotrolled ultrathin strip coils, coldrolled coils, galvanized sheets, small and medium sized bars, and hotrolled medium plates. Hunan Valin Steel Co., Ltd. was founded in 1999 and is based in Changsha, China.

1447 Hunas Holdings PLC owns and operates hotels in Sri Lanka. The company operates the Hunas Falls Hotel that include superior, deluxe balcony, and deluxe garden; camp site; and cardamom, katura, highlander suite. It primarily serves leisure travelers market. The company was formerly known as Hunas Falls Hotels PLC and changed its name to Hunas Holdings PLC in February 2022. The company was incorporated in 1989 and is based in Kandy, Sri Lanka. Hunas Holdings PLC is a subsidiary of Serenity Lake Leisure (Pvt) Ltd.

1448 Hunesion Co.,Ltd develops and supplies IT security solutions. The company offers ioneNet, a secure data transmission solution; ioneNet DD, a oneway network connectivity solution; ioneNet DX, a dual unidirectional network connection solution; and iSpector, a network traffic collection and analysis solutions. It also provides TresDM, an intelligent malware detection solution; NGS, a system access control and account management solution; CampASS, a CCTV password management solution; MoBiCa, an enterprise mobile device management solution; and ViSiCa, a visit and safety management solution. Hunesion Co.,Ltd was founded in 2003 and is based in Seoul, South Korea.

1449 Hung Hing Printing Group Limited, an investment holding company, engages in book and package printing, consumer product packaging, corrugated box, and paper trading in the People's Republic of China, the United States, Hong Kong, the United Kingdom, and internationally. It

produces corrugated packaging; prints and produces cards and social stationery items, including diaries, gift sets and bags, and greetings cards; and produces children's and conventional books. The company also offers litholam packaging; novelty items, such as popups, paper mechanisms, pull tabs, and novelty additions or reactive inks; luxury packaging comprising chocolate boxes, cosmetics, fine bone china, and spirits; printed corrugate cartons, flat packs, POS, and POP; prepress services, including film, and color separation and proof production services for packaging, books, magazines, posters, and other paper products; and paper trading services, as well as operates BELUGA, a boutique digital service provider. In addition, it trades in corrugated carton boxes; prints and manufactures paper cartons; and provides professional services, as well as selling and purchasing agency services. Hung Hing Printing Group Limited was founded in 1950 and is headquartered in Tai Po, Hong Kong.

1450 Huntington Ingalls Industries, Inc. engages in designing, building, overhauling, and repairing military ships in the United States. It operates through three segments: Ingalls, Newport News, and Mission Technologies. The company is involved in the design and construction of nonnuclear ships comprising amphibious assault ships; expeditionary warfare ships; surface combatants; and national security cutters for the U.S. Navy and U.S. Coast Guard. It also provides nuclearpowered ships, such as aircraft carriers and submarines, as well as refueling and overhaul, and inactivation services of nuclearpowered aircraft carriers. In addition, the company offers naval nuclear support services, including fleet services comprising design, construction, maintenance, and disposal activities for inservice the U.S. Navy nuclear ships; and maintenance services on nuclear reactor prototypes. Further, it provides lifecycle sustaint services to the U.S. Navy fleet and other maritime customers; highend information technology and missionbased solutions for Department of Defense (DoD), intelligence, and federal civilian customers; nuclear management and operations and enviroental management services for the Department of Energy, DoD, state and local goverents, and private sector companies; fleet sustaint; nuclear and enviroental services; and uanned systems. Huntington Ingalls Industries, Inc. was founded in 1886 and is headquartered in Newport News, Virginia.

1451 Huntsman Corporation manufactures and sells diversified organic chemical products worldwide. The company operates through three segments: Polyurethanes, Performance Products, and Advanced Materials. The Polyurethanes segment offers polyurethane chemicals, including methyl diphenyl diisocyanate, polyether and polyester polyols, and thermoplastic polyurethane. The Performance Products segment manufactures amines and maleic anhydrides. The Advanced Materials segment offers epoxy, phenoxy, acrylic, polyurethane, and acrylonitrilebutadienebased polymer formulations; and high performance thermoset resins, curing and toughening agents, and carbon nanotubes additives. The company's products are used in a range of applications, including adhesives, aerospace, automotive, construction products, durable and nondurable consumer products, electronics, insulation, medical, packaging, coatings and construction, power generation, and refining. Huntsman Corporation was founded in 1970 and is based in The Woodlands, Texas.

1452 Husqvarna AB (publ) produces and sells outdoor power products, watering products, and lawn care power equipment. It operates through three divisions: Husqvarna Forest & Garden, Gardena, and Husqvarna Construction. The Husqvarna Forest & Garden division offers handheld products, such as chainsaws, brush cutters, trimmers, and leaf blowers; wheeled products, such as front riders and zeroturn mowers; robotic lawn mowers; and accessories and spare parts. The Gardena division provides

residential and smart watering; robotic mowers; garden hand tools; electric powered gardening tools; and smart garden systems. The Husqvarna Construction division offers power cutters, light compaction and concrete placement equipment, floor grinding machines, dust and slurry solutions, diamond tools for construction and stone industries, surface preparation equipment, floor saws, and demolition robots. The company sells its products and solutions to forestry, tree care, landscaping, commercial lawn, and garden services sectors, as well as home and garden owners, and light construction and stone industries primarily under the Husqvarna, Gardena, Orbit, Flymo, RedMax, Zenoah, and McCulloch brands through dealers and retailers. It operates in Germany, France, Sweden, Austria, rest of Europe, the Asia/Pacific, Canada, the United States, Latin America, and internationally. Husqvarna AB (publ) was founded in 1689 and is headquartered in Stockholm, Sweden.

1453 Hutchison Telecommunications Hong Kong Holdings Limited, an investment holding company, provides mobile communication services. It offers 5G, 4G long term evolution, 3G, and GSM dualband mobile telecommunications under the 3 brand. The company also provides mobile telecommunications services and products include local voice, SMS, MMS, international direct dialing, and international roaming; and data services and applications, such as direct carrier billing offerings, mobile device security management, eBooks, music downloads, movies on demand, mobile social networking applications, and FinTech, as well as WiFi and other value added services. In addition, the company is involved in the provision of marketing, advertising, and promotional services; and telecommunications retail operations. The company was incorporated in 2007 and is headquartered in Central, Hong Kong. Hutchison Telecommunications Hong Kong Holdings Limited operates as a subsidiary of CK Hutchison Group Telecom Holdings Limited.

1454 Hwaseung Enterprise Co., Ltd. manufactures and sells shoes for sporting goods. It also purchases and sells natural rubber, synthetic rubber, recycled rubber, and EVA; and pepper and chemical materials, as well as supplies water to shoe manufacturing companies. The company sells its natural rubber to shoes, tires, and adhesive tapes production factories. It exports its products to Korea, Indonesia, and China. The company was founded in 2015 and is based in Seoul, South Korea. Hwaseung Enterprise Co., Ltd. is a subsidiary of Hwaseung Industries Co., Ltd.

1455 Hybio Pharmaceutical Co., Ltd. engages in the research and development, manufacture, and sale of therapeutic peptides API and polypeptide drugs in China and internationally. The company provides liraglutide, semaglutide and exenatide for diabetes; terlipressin, desmopressin and linaclotide for digestive tract and metabolic system; ganirelix, cetorelix and atosiban for obstetrics and gynecology, etc; customized peptides; working standards for the peptide APIs and related impurities, to facilitate your project in an allround way; CRO services; and platform for CDMO services, which includes peptide API synthesis and purification process development, finish dosage form development, reference standard preparation and qualification, impurity and product quality study and analysis, GMP system meeting EU and FDA standard, international and Chinese regulatory and dossier support, etc. Hybio Pharmaceutical Co., Ltd. was founded in 1998 and is headquartered in Shenzhen, China.

1456 Hybrid Software Group PLC, together with its subsidiaries, develops software and hardware technology solutions for graphics and industrial inkjet printing in the United Kingdom, rest of Europe, North and South America, and Asia. The company offers Harlequin Host Renderer, a raster image processor (RIP) software that converts text and image data from various file formats, including PDF, TIFF, and JPEG files; ScreenPro, a

software that converts tone image data into readytoprint halftone in realtime; and Mako SDK, a software that creates, RIPs, converts, analyses, and optimizes various page description languages, as well as allows print software developers to control over colour, fonts, text, images, vector content, and metadata. It also provides Direct, a software that drives print data directly to the printer electronics instead of buffering them on mass storage devices; SmartDFE, a turnkey digital front end based on harlequin direct, cloudflow, and meteor for digital printing of labels and packaging; Navigator Harlequin RIP and Workflow, a software that offers prepress environments to interpretation of PostScript, PDF, and EPS format files; Navigator DFE, a software that helps to prepare jobs, manage colour, and the workflow to drive electronics; and Output Device Interfaces, a hardware and software solutions to connect RIPs to computertoplate devices, imagesetters, proofers, digital presses, highspeed copiers, and inkjet printers. The company was formerly known as Global Graphics PLC and changed its name to Hybrid Software Group PLC in October 2021. Hybrid Software Group PLC was founded in 1986 and is headquartered in Cambridge, the United Kingdom.

1457 Hycroft Mining Holding Corporation, together with its subsidiaries, operates as a gold and silver development company in the United States. The company holds interests in the Hycroft mine that covers an area of approximately 70,671 acres located in the state of Nevada. As of December 31, 2021, its Hycroft mine had measured and indicated mineral resources of 9.6 million ounces of gold, and 446.0 million ounces of silver. Hycroft Mining Holding Corporation is headquartered in Winnemucca, Nevada.

1458 Hydro One Limited, through its subsidiaries, operates as an electricity transmission and distribution company in Ontario. The company operates through three segments: Transmission, Distribution, and Other. It owns and operates highvoltage transmission lines and primary lowvoltage distribution network. The company serves residential, small business, commercial, and industrial customers, as well as municipal utilities. It also provides telecommunications support services for its transmission and distribution businesses; and information and communications technology services and solutions. The company was incorporated in 2015 and is headquartered in Toronto, Canada.

1459 Hydrotek Public Company Limited, together with its subsidiaries, engages in the construction and management of water treatment and wastewater treatment system, waste management system, and sale of related supplies in Thailand. It is involved in the engineering, procurement, construction, installation, operation, and maintenance of water treatment plants, such as portable water, desalination, and demineralization plants; wastewater recycle and wastewater treatment plants; desalination plants; and solid waste treatment plants for sanitary landfills, secure landfills, and production of refuse derived fuel. The company was incorporated in 1982 and is headquartered in Bangkok, Thailand.

1460 Hytc Co.,Ltd manufactures and sells highprecision parts in South Korea. It offers secondary battery equipment modules; precision parts and molds of production equipment for lithiumion batteries; parts and molds of air conditioning equipment and semiconductors; and medical devices/cosmetic case molds. The company was founded in 2000 and is based in Gunposi, South Korea.

1461 Hytera Communications Corporation Limited provides communications technologies and solutions under the Hytera brand name in China and internationally. The company offers digital radio and trunking systems, LTEbroadband and smart radio systems, 4G/5G systems, body worn cameras, command and dispatch systems, PMRIoT and emergency response systems, communication command vehicles, satellite communications systems, and

antenna subsystems, as well as smart accessories, such as audio, batteries, chargers, carrying cases, carkits, cables, antennas, and others. It serves public safety, oil and gas, mining, industrial and commercial, emergency response communication, and electric power industries. The company was formerly known as Shenzhen Haoyitong Technology Co., Ltd. and changed its name to Hytera Communications Corporation Limited in March 2010. Hytera Communications Corporation Limited was founded in 1993 and is headquartered in Shenzhen, China.

1462 Hyulim Networks Co., Ltd. designs, manufactures, and markets antennas. It offers inbuilding, base station, stadium, outdoor DAS link, and street cell antennas. The company was formerly known as The HQ Co.,Ltd. and changed its name to Hyulim Networks Co., Ltd. in August 2022. Hyulim Networks Co., Ltd. was founded in 1997 and is headquartered in Hwaseong, South Korea.

1463 Hyulim ROBOT Co.,Ltd. develops, manufactures, and sells robots in South Korea. It offers industrial robots, including cartesian, combination, clean cartesian, linear, desktop, scara, motion controller, glass transfer, and wafer transfer robots. The company also provides service robots, including HerkuleX Servo series, mobile platform, HOVIS series, Genibo series, and professional robots; and accessories, as well as original development and design manufacturing services. In addition, it offers robot applied systems for soldering, marking, depandeling, cutting, and welding laser applications. The company was formerly known as DST Robot Co., Ltd. and changed its name to Hyulim ROBOT Co.,Ltd. in March 2019. Hyulim ROBOT Co.,Ltd. was founded in 1999 and is headquartered in Cheonan, South Korea.

1464 HYUNDAI BIOLAND Co.,Ltd manufactures and sells raw materials for cosmetics, nutraceuticals, and regenerative medicines. It offers antiaging, moisturizing, whitening, skin protection, and other cosmetic ingredients; functional food ingredients and general food raw materials; and active pharmaceutical ingredients. The company was formerly known as SKbioland Co., Ltd. and changed its name to HYUNDAI BIOLAND Co.,Ltd in October 2020. HYUNDAI BIOLAND Co.,Ltd was incorporated in 1995 and is based in Cheongju, South Korea.

1465 Hyundai Bioscience Co., Ltd., a biotechnology company, develops and commercializes biofusion technology for delivering active ingredients to human body. The company provides Vitabrid C12, a newconceptual vitamin C product that delivers active vitamin C into the skin. It also develops organicinorganic hybrid technology, a drug delivery system technology that allows the selective and effective delivery of active substances on the target area in combination with biofriendly minerals, as well as in anticancer drug carrier technology. The company was founded in 2000 and is based in Seoul, South Korea.

1466 Hyundai Doosan Infracore Co., Ltd. engages in the production and sale of construction equipment and engines in South Korea and internationally. The company offers excavators, wheel loaders, articulated dump trucks, specialized equipment, attachments, and backhoe loaders. It also provides generator, industrial, automotive, and marine engines, as well as parts and services. The company was formerly known as Doosan Infracore Co., Ltd. Hyundai Doosan Infracore Co., Ltd. was founded in 1937 and is headquartered in Incheon, South Korea.

1467 Hyundai Elevator Co., Ltd. designs, manufactures, installs, maintains, and modernizes elevators, escalators, and moving walks in South Korea and internationally. The company offers ultrahigh speed elevators under the THE EL and THE EL DUO names; highspeed elevators under the iXEL name; and low and midspeed elevators under the LUXEN, NEW YZER, NEO, and VIVALDI names, as well as observation, hospital, freight and automobile, and marine elevators. It also provides auto parking

systems and services; and advanced remote maintenance systems. In addition, the company engages in the real estate leasing, tourist accommodation, travel, construction, and finance businesses. Hyundai Elevator Co., Ltd. was founded in 1984 and is headquartered in Icheon, South Korea.

1468 Hyundai Engineering & Construction Co., Ltd. engages in the civil engineering and construction business in South Korea, Middle Asia, rest of Asia, Africa, and internationally. It operates through Building/House, Infra/Enviroent, Plant/Power, and Others segments. The company constructs highways and railways; bridges; water resource and enviroental systems; and underground spaces, as well as undertakes marine, offshore, and dredging works. It also builds medical facilities; manufacturing and logistics facilities; hotels and residential buildings; public and commercial office buildings; transportation, culture, and sport facilities; data center, education, and research facilities; and mixeduse developments and special projects, as well as undertakes housing projects. In addition, the company constructs oil refinery, gas processing, and refinery plants; petrochemical and fertilizer plants; liquefied natural gas and gastoliquid facilities; and nuclear power plants. Further, it constructs power and desalination plants; renewable energy facilities; and transmission lines and substations. Additionally, the company is involved in the real estate leasing business. Further, it offers architectural design and facility maintenance; agricultural management and livestock; real estate development and supply; condominium resort management; steam, cold, hot water, and air conditioning production; equipment maintenance; electricity production; and heavy equipment rental services. Hyundai Engineering & Construction Co., Ltd. was founded in 1947 and is headquartered in Seoul, South Korea.

1469 Hyundai Mobis Co.,Ltd manufactures and sells automotive parts worldwide. The company offers advanced driver assistance systems, including lane keeping assist systems, smart cruise controls, autonomous emergency braking systems, highway driving assist systems, and auto parking systems; and head, rear, and small lamps, as well as lamp electronics. It also provides electrification products, including power converters, driving systems, electric energy systems, 48V mild hybrid systems, and fuel cell electric vehicles; and airbag modules and electronics. In addition, the company offers infotaintent; centreinfotaintentdisplay systems; digital cluster products; windshield, combiner, and AR HUDs; sound systems; iMEB, a combined master cylinder; MEB, a device that combines ABS, an electronic braking system; EPB, a brake system that operates the parking brake through switch operation; EPS, an electronic steering system; and suspension systems. Further, it supplies aftermarket service parts, automobile accessories, and automotive system solutions. The company was formerly known as Hyundai Precision Industry Co., Ltd and changed its name to Hyundai Mobis Co.,Ltd in November 2000. Hyundai Mobis Co.,Ltd was founded in 1977 and is headquartered in Seoul, South Korea.

1470 Hyundai Steel Company, together with its subsidiaries, manufactures and sells steel and other industrial metal products in Korea, Asia, the United States, and Europe. The company offers hot and cold rolled steel sheets, steel plates, ERW and steel pipes, reinforcing bars, Hsections, special steel bars, cold rolled stainless steel sheets, heavy machinery, and automotive parts; angle, channel, I beam, steel sheet pile, and railway rail sections; and rolling, steel plate, and rodtype steel rolls for shipbuilding, automobile, and construction industries. The company was formerly known as INI Steel Company and changed its name to Hyundai Steel Company in March 2006. Hyundai Steel Company was founded in 1953 and is headquartered in Seoul, South Korea.

1471 hyungji Elite Co., Ltd. engages in the production and sale of school uniforms primarily under the Elite brand in South Korea. It also produces and supplies corporate uniforms for the Samsung Group. In addition, the company provides shoes/handbags/accessories under the Young Age, Portfolio, Esquire, and Sonobi brands; and clothing for women under the RAGELLO brand. Further, it engages in sewing trading business. The company was formerly known as Elite Basic Inc. and changed its name to hyungji Elite Co., Ltd. in October 2015. hyungji Elite Co., Ltd. was founded in 1969 and is based in Incheon, South Korea.

1472 HyUnion Holding Co., Ltd. engages in the special purpose vehicle, auto parts, frequency conversion motor, precision mold, steel plate processing, and other businesses primarily in China. It offers tapes, steel reels, fixed scale materials, fuel tank entrance cover stiffening plate continuous molds, front anticollision beams, C column connection plates, and rear floor and cross beams. The company also provides passenger vehicle parts, including skylight stiffening plates, front/rear door assemblies, rear body welding assemblies, dangerous chemicals transportation semitrailers, construction trucks, wagon transport semitrailers, and refrigerated trucks. In addition, it offers inverter air and ice compressors, fixed frequency ice compressors, fixed frequency GW commercial machines, electric tool pumps, and voltmeter and reactor laminations, as well as ring pump, new energy automobile, electric air conditioner, vehicle refrigerator, and iron stator core of motors; and mobile information, third party payment, large data, billing and clearing, and crossborder ecommerce services. The company was formerly known as Qingdao Haili Metal One Co., Ltd. and changed its name to HyUnion Holding Co., Ltd. in August 2017. HyUnion Holding Co., Ltd. was founded in 2004 and is based in Qingdao, China.

1473 Hyve Group Plc engages in in the organization of trade exhibitions, conferences, and related activities. The company operates through Ed Tech and Natural Resources; Retail, Manufacturing, and Engineering; and RetailTech and FinTech segments. It offers its services in the United Kingdom, Asia, Central Asia, Easter and Southern Europe, Russia, the United States, and internationally. The company was formerly known as ITE Group plc and changed its name to Hyve Group Plc in September 2019. Hyve Group Plc was incorporated in 1985 and is based in London, the United Kingdom.

1474 iCABLE Communications Limited, an investment holding company, provides integrated communications services in Hong Kong. The company operates through Media and Telecommunications segments. The Media segment offers television subscription, domestic free television program, advertising, channel carriage, television relay, program licensing, theatrical release, and other related services. The Telecommunications segment includes operations related to broadband internet access, portal operations, telephony, network leasing, network construction, and mobile agency services, as well as other related businesses. The company owns and operates wireline telecommunications network, which provides media and telecommunications services to approximately two million households. The company also produces television and multimedia content focusing on news, information, sports, and entertainment. In addition, it provides technical services; and film production, distribution, and licensing services. The company was incorporated in 1999 and is based in Tsuen Wan, Hong Kong.

1475 iSENS, Inc. provides diagnostic biosensors in South Korea. The company offers point of care testing devices, such as HbA1c, blood gas, electrolyte, and PT/INR analyzers; CareSens blood glucose monitoring systems; and lancing and other ancillary devices, as well as diabetes management services. It exports its products to approximately 110

countries, including the United States, Japan, and Europe. The company was founded in 2000 and is headquartered in Seoul, South Korea.

1476 I.E.S Holdings Ltd primarily engages in the real estate investment business in Israel. The company is involved in the rental and leasing of land; development of real estate properties; and establishment of the airpark in the Ovda military base, as well as the power station in Palmachim Park. It also provides precast concrete products for the construction industry. The company was formerly known as I.E.S Saar Ltd. and changed its name to I.E.S Holdings Ltd. in February 2005. I.E.S Holdings Ltd was incorporated in 1987 and is based in Tel Aviv, Israel.

1477 IAA, Inc. operates a digital marketplace that connects vehicle buyers and sellers. It operates in two segments, United States and International. The company's platform facilitates the marketing and sale of total loss, damaged, and lowvalue vehicles for a range of sellers. It provides buyers with various bidding/buying digital channels, vehicle merchandising, evaluation services and online bidding tools, and replacement part inventory. The company serves a buyer base and spectrum of sellers, including insurance companies, dealerships, fleet lease and rental car companies, and charitable organizations. It has approximately more than 210 facilities in the United States and internationally. The company was founded in 1982 and is headquartered in Westchester, Illinois.

1478 IAMGOLD Corporation, through its subsidiaries, explores, develops, and operates gold mining properties in North America and West Africa. The company owns 100% interest in the Westwood mine, covers an area of 1,925 hectare and located in Quebec and the CÃ'tÃ© gold project, which covers an area of 596 square kilometer located in Ontario, Canada; and 90% interests in the Essakane mine situated in Burkina Faso and Boto gold project located in Senegal, West Africa. Its exploration and development projects include the 100% owned DiakhaSiribaya project that covers an area of approximately 600 square kilometres situated in Mali; the Monster Lake projects located in Quebec, Canada; and the Karita project that covers an area of approximately 100 square kilometres located in Guinea, as well as Pitangui project in Brazil, and 75% owned the Nelligan located in QuÃ©bec. IAMGOLD Corporation was incorporated in 1990 and is headquartered in Toronto, Canada.

1479 Iberdrola, S.A. engages in the generation, transmission, distribution, and supply of electricity in Spain and internationally. It generates and markets electrical power using renewable sources, such as onshore and offshore wind, hydro, solar photovoltaic, combined cycle gas, nuclear, and biomass, as well as through installation of batteries. The company is also involved in the purchase and sale of electricity and gas on wholesale markets; development of green hydrogen projects; and distribution and sale of gas. It has a total installed capacity of 58,320 MW, including 38,138 MW of renewable installed capacity; and operates 1.2 million kilometers of electricity transmission and distribution lines, as well as serves 36.11 million consumers. In addition, the company offers energy storage, heat pumps, selfconsumption, and electric vehicles for residential customers; and management of energy facilities, as well as supplies green H2, industrial heat, etc. to industrial customers. Iberdrola, S.A. was founded in 1840 and is headquartered in Bilbao, Spain.

1480 iCatch Technology, Inc. designs and sells fabless IC. The company researches and develops advanced digital imaging SoC solutions for image signal processor, advanced video codec, and system integration. It also offers automotive grade sensing camera module image signal processor for use in ADAS front cameras, rear view cameras, and blind spot detection; and an automotive grade SoC for use in digital video recorders, and

camera and driver monitoring systems. In addition, the company provides SoC for consumer imaging devices for use in digital, action, video conferencing cameras, drone, and VR headsets; and smart door locks, security cameras, 3D sensing, and single board cameras. iCatch Technology, Inc. was founded in 1998 and is headquartered in Hsinchu City, Taiwan.

1481 ICL Group Ltd, together with its subsidiaries, operates as a specialty minerals and chemicals company worldwide. It operates in four segments: Industrial Products, Potash, Phosphate Solutions, and Growing Solutions. The Industrial Products segment produces bromine out of a solution that is a byproduct of the potash production process, as well as brominebased compounds; produces various grades of potash, salt, magnesium chloride, and magnesia products; and produces and markets phosphorousbased flame retardants and other phosphorusbased products. The Potash segment extracts potash from the Dead Sea; mines and produces potash and salt; produces polysulphate; produces, markets, and sells magnesium and magnesium alloys, as well as related byproducts, including chlorine and sylvinite; and sells salt. The Phosphate Solutions segment uses phosphate commodity products to produce specialty products; produces and markets phosphatebased fertilizers, as well as sulphuric acid, green phosphoric acid, and phosphate fertilizers; and manufactures thermal phosphoric acid for various industrial end markets, such as oral care, cleaning products, paints and coatings, water treatment, asphalt modification, construction, and metal treatment. It also develops and produces functional food ingredients and phosphate additives for use in the processed meat, poultry, seafood, dairy, beverage, and baked goods markets; and produces milk and whey proteins for the food ingredients industry. The Growing Solutions segment develops, manufactures, markets, and sells fertilizers based primarily on nitrogen, potash, and phosphate, including water soluble specialty, liquid, soluble, and controlledrelease fertilizers. It sells its products through marketing companies, agents, and distributors. The company was formerly known as Israel Chemicals Ltd. and changed its name to ICL Group Ltd in May 2020. The company was founded in 1968 and is headquartered in Tel Aviv, Israel.

1482 ICO Group Limited, an investment holding company, provides IT application services to institutions and enterprises in Hong Kong and internationally. It operates through IT Application and Solution Development Services, IT Infrastructure Solutions Services, IT Secondment Services, IT Maintenance and Support Services, and Property Leasing and Ecommerce Business segments. The company engages in the design and implementation of IT applications; and procurement of thirdparty hardware and software. It also provides IT infrastructure solutions; and sells IT infrastructure solutionrelated hardware and software. In addition, the company offers IT secondment, maintenance, and support services; and property leasing and online trading platform services. It serves various industries, such as banking, finance and insurance, goverent departments, exchanges and regulatory bodies, telecommunication, distribution and retail, logistics and media, universities and schools, construction, manufacturing, and others. The company was founded in 1992 and is headquartered in Kowloon, Hong Kong.

1483 Icon Offshore Berhad, an investment holding company, provides offshore support vessels to the oil and gas related industries in Malaysia and Brunei. The company operates through two segments, Offshore Support Vessels and Drilling Rig Operation. It offers vessel chartering and ship management services to oil and gas industries. The company also provides drilling rig services. In addition, it offers towing, anchor handling, construction support, and firefighting services, as well as marine transportation of mud, transport equipment, cargo pipe, drilling

fluids, cement, and fuel and fresh water. Further, the company owns, operates, and leases vessels. It operates various types of vessels, including anchor handling tug and supply, and anchor handling tug; straight supply; platform support; accommodation workboat; and utility vessels. The company was formerly known as Kota Bayu Ekuiti Berhad and changed its name to Icon Offshore Berhad in October 2012. Icon Offshore Berhad was founded in 1994 and is headquartered in Kuala Lumpur, Malaysia. Icon Offshore Berhad is a subsidiary of Hallmark Odyssey Sdn. Bhd.

1484 IDICO Corporation JSC invests in and develops urban infrastructure, economic zone, and concentrated residential projects in Vietnam. It engages in the provision of industrial zones/parks development, investment, hydropower, transportation, housing and urban area, and construction and installation services. The company was formerly known as Vietnam Urban and Industrial Zone Development Corporation. IDICO Corporation JSC was founded in 2000 and is headquartered in Ho Chi Minh City, Vietnam.

1485 IDOX plc, through its subsidiaries, provides software and services for the management of local government and other organizations. The company operates in two segments, Public Sector Software and Engineering Information Management. It offers onpremise and cloud software solutions for the management of planning, building control, land charges and gazetteer managements, estates, street numbering, environmental health, trading standards, licensing, address management, and other geospatial information services. The company also provides specialist software to support inspection and enforcement of standards, including environmental health, licensing, trading standards, public sector housing, elections, management of sexual health clinics, social directory services, grants funding, management of municipal transport, facilities management, assets and records management, and management of education, health, and care plans. In addition, it engages in the provision of online information, advice and guidance, information portals, and selfservice tools to support delivery of adult social care, children's services, and special educational needs and disabilities services; and in delivery of online funding information and advice services. Further, the company offers computer aided facilities management solution that enables property directors to manage property portfolios; command and control traffic management systems; realtime passenger information systems; fleet management systems; and electoral registration and management systems, including postal vote checking, tablet canvassing, election count reporting and boundary management. It has operations primarily in the United Kingdom, the United States, Europe, and Australia. The company was incorporated in 2000 and is based in Reading, the United Kingdom.

1486 IGG Inc, an investment holding company, engages in the development and operation of mobile and online games in Asia, North America, Europe, and internationally. The company offers mobile, browser, PC, and clientbased online games in 23 languages. It also licenses online games; and provides customer support and technical support services. IGG Inc was founded in 2006 and is headquartered in Singapore.

1487 iHeartMedia, Inc. operates as a media and entertainment company worldwide. The company operates through three segments: Multiplatform Group, Digital Audio Group, and Audio & Media Services Group. The Multiplatform Group segment offers broadcast radio stations, sponsorship, and live and virtual events; and operates Premiere Networks, a national radio network that produces, distributes, or represents syndicated radio programs and services to radio station affiliates. It also delivers realtime traffic flow and incident information, and weather updates, sports, and news. The Digital Audio Group segment provides podcasting,

digital sites, newsletters, digital services, and programs; and iHeartRadio, a mobile app and webbased service for radio stations, digitalonly stations, custom artist stations, and podcasts. The Audio and Media Services Group segment engages in the media representation business. This segment also provides RCS, a cloud and onpremises broadcast software, such as radio and television automation, music scheduling, newsroom automation, advertising sales management, disaster recovery solutions; and realtime audio recognition technology to radio and television stations, cable channels, record labels, advertisers, and agencies, as well as media streaming and research services. The company was formerly known as CC Media Holdings, Inc. and changed its name to iHeartMedia, Inc. in September 2014. iHeartMedia, Inc. is headquartered in San Antonio, Texas.

1488 IHH Healthcare Berhad, an investment holding company, provides healthcare services in Malaysia, Singapore, Turkey, India, and internationally. It provides primary care services, such as treatment of basic health care services, outpatient treatment, routine checkups, vaccinations, preventive care, and patient education services. The company also offers secondary services, including specialist consultation, local surgeries, emergency care, laboratory, diagnostics, and acute treatment services; tertiary care services comprising specialist consultative care, advanced treatment or complex surgery, and inpatient care services; and quaternary care services, such as organ transplants, neurosurgery, cardiac surgery, and reconstructive plastic surgery. In addition, it provides ancillary services, including diagnostics, analytical laboratory testing, therapeutic radiology, physiotherapy, and integrated rehabilitation and advanced molecular diagnostics services. Further, the company offers medical education; train and develop nurses, doctors, allied healthcare professionals; real estate investment trust services; operates dialysis centers; operates educational institutions, colleges, schools and other centers of learning, research, and education; and provides catering, laundry, and cleaning services for hospitals, as well as import and wholesales drug and medical materials. It operated approximately 15,000 licensed beds across 80 hospitals in 10 countries. IHH Healthcare Berhad was incorporated in 2010 and is based in Kuala Lumpur, Malaysia.

1489 IHQ Inc. operates as an entertaint company in Korea. It produces content in various fields, such as drama, entertaint, and record. The company is also involved in the star management activities; and operation of Comedy TV and Cube TV. IHQ Inc. was founded in 1962 and is based in Seoul, South Korea. IHQ Inc. operates as a subsidiary of KH Media Co., Ltd.

1490 IJM Corporation Berhad engages in the construction, property development, manufacturing and quarrying, and infrastructure concessions businesses in Malaysia, India, Indonesia, the United Kingdom, and internationally. The company undertakes civil engineering works; highways, roads, and bridges; water supply projects, gas turbine facilities, and hydroelectric power stations; railways and metro systems; hospitals, hotels, and schools; commercial and cultural complexes, including shopping malls and other public buildings; and restoration and refurbishment works for local authorities and commercial property owners. It also provides project and construction management, marketing, and sale services; and develops land into vacant lots, residential, and commercial and/or industrial buildings. In addition, the company manufactures and sells pretensioned spun concrete piles; readymixed concrete; and prestressing steel bars that are used in the manufacture of pretensioned spun concrete piles for civil structural and building foundations. Further, it rents scaffoldings used in the construction of bridges

infrastructure works, highrise buildings, and shipyards; designs, constructs, operates, and maintains tolls and highways; operates a port concession in Kuantan; and builds water treatment facilities, as well as operates power plant facility. Additionally, the company offers consulting and installation of electrical systems and mechanical systems; insurance agency services; and port supporting services, as well as operates resorts, marinas, and golf courses. Furthermore, it engages in the trading of construction materials; soil investigation and testing foundation, laying, treatment, and piling activities; and sale of electricity. The company was incorporated in 1983 and is headquartered in Petaling Jaya, Malaysia.

1491 Ildong Holdings Co., Ltd. develops, manufactures, and supplies pharmaceutical products in South Korea and internationally. It develops new drugs against resistant bacteria, malignant tumors, Alzheimer's disease, obesity, and ageing; and raw vitamins, probiotics, and antimicrobials, as well as offers Biovita, a lactobacillus product; and Aronamin, a multivitamin product. It also engages in the research and manufacture of health foods and ingredients, as well as offers hyaluronic acid for use in drugs, medical devices, and cosmetics; and various medical devices for beauty, cosmetic surgery, and antiaging applications. In addition, the company distributes medical devices, quasi drugs, health supplements, food products, beverages, cosmetics, sanitary ware, and other healthcare products through online. Further, it offers beauty and cosmetic surgery services; and pharmaceutical SI consulting, system development and deployment, RFID and barcode systems, and other solutions, as well as engages in advertising business. The company was formerly known as Ildong Pharmaceutical Co., Ltd. and changed its name to Ildong Holdings Co., Ltd. in August 2016. Ildong Holdings Co., Ltd. was founded in 1941 and is based in Seoul, South Korea.

1492 ILJIN Hysolus Co., Ltd. manufactures and sells composite tanks in South Korea. It offers hydrogen tanks for use in forklifts, ships, trains, passenger cars, and commercial vehicles; tube trailers for use in hydrogen transport and mobile refueling stations; CNG storage tanks for CNG passenger and commercial vehicles; and ultrafine and fine particles NOx reduction systems for diesel cars. The company was founded in 1999 and is based in Bongdonggeup, South Korea. ILJIN Hysolus Co., Ltd. operates as a subsidiary of ILJIN Diamond Co. Ltd.

1493 ILJIN Materials Co., Ltd. produces and sells elecfoils in Korea and internationally. Its elecfoils are used as core material for electronic products. The company offers I2B that creates the anode current collector of lithium secondary battery; and IHT, a high bending low illuminance elecfoil for FPCB; and UTC, a very thin elecfoil developed suitable for microcircuiting, high density, high integration, and high multilayering of PCBs. The company also provides I2K, an elecfoil used as a negative electrode collector for small lithium secondary batteries; VLP, a special elecfoil with low illuminance and high strength characteristics used for integrated circuit packaging substrates for semiconductor mounting; ICS, a generalpurpose product used as the main material for printed circuit board and copper clad laminate; and I2S to expand the capacity of the secondary battery. In addition, it offers ISS a higher tensile item that is being considered for application of nextgeneration secondary batteries; HVLP elecfoil suitable for highspeed transmission; and TRT/HRT elecfoils used for base station antennas. The company was formerly known as Iljin Elecfoil Co., Ltd. and changed its name to ILJIN Materials Co., Ltd. in 2010. ILJIN Materials Co., Ltd. was founded in 1987 and is headquartered in Seoul, South Korea.

1494 Illumina, Inc. develops, manufactures, and markets life science tools and integrated systems for largescale analysis of genetic variation

and function. It operates through Core Illumina and GRAIL segments. The company offers sequencing and arraybased instruments and consumables, which include reagents, flow cells, and library preparation; and wholegenome sequencing kits, which sequence entire genomes of any size and complexity, and targeted resequencing kits, which sequence exomes, specific genes, and RNA or other genomic regions of interest. Further, it provides wholegenome sequencing, genotyping, NIPT, and product support services; and Galleri, a multicancer early detection test. The company serves genomic research centers, academic institutions, goverent laboratories, and hospitals, as well as pharmaceutical, biotechnology, commercial molecular diagnostic laboratories, and consumer genomics companies. Further, it markets and distributes its products directly to customers in North America, Europe, Latin America, and the AsiaPacific region, as well as sells through lifescience distributors in various markets within Europe, the AsiaPacific region, Latin America, the Middle East, and Africa. Illumina, Inc. was incorporated in 1998 and is headquartered in San Diego, California.

1495 IM Co.,Ltd engages in the manufacture and sale of optical technologybased electronic parts in South Korea, China, and the Philippines. It offers camera and lens modules, AF actuators, and other products for use in smartphones, automobile electronic systems, biometrics, medical equipment, and others; smart films that blocks UV rays and heating for use in glasses and windows of automotive and buildings, lighting of ships, refrigerators and winecellars, and other TSP products available to display; and Optical Pick Up, an optical device that records information, such as voice, video, and general data to an optical disc. The company is was founded in 2006 and is headquartered in Hwaseongsi, South Korea.

1496 Imerys S.A. provides mineralbased specialty solutions for various industries worldwide. The company operates in Performance Minerals and High Temperature Solutions segments. It provides additives for interior decorative paints, as well as marine protection, facade coating, can coating, etc.; rubber, tires, medical rubber, and cables; and adhesives and sealants. The company also offers minerals for technical ceramics and traditional ceramics comprising floor and wall tiles, large slabs, sanitaryware, and tableware; and components for the production of high purity silicon metal for used to manufacture aluminum alloys, electronics, and solar panels, as well as for construction industry, such as insulation ceiling tiles. In addition, it provides functional additives for plastics and thermoset for use in automotive, construction, packaging, and hygiene industries; fillers and coatings for graphic paper, as well as board and packaging applications; filtration agents for liquids and blood plasma; and graphite and carbonbased solutions for lithiumion and alkaline batteries, polymers, fuel cells, carbon brushes, and others. Further, the company offers refractory minerals and solutions for hightemperature industrial processes; bentonite for foundry molds; alumina and zirconia for abrasives; and highperformance binders for dry mix mortars and floor screeds in the construction industry. It serves construction, paper and board, mobile energy, steelmaking, agriculture, food, automotive, and cosmetics industries. The company was incorporated in 1880 and is headquartered in Paris, France. Imerys S.A. is a subsidiary of Belgian Securities BV.

1497 Immsi S.p.A. operates in industrial, property and holding, and marine sectors in Italy, rest of Europe, India, the United States, and internationally. The company manufactures twowheeled motor vehicles, including scooters, mopeds, and motorcycles under the Piaggio, Vespa, Gilera, Aprilia, Moto Guzzi, Derbi, and Scarabeo brand names; and threeand fourwheeled light transport vehicles under the Ape and Porter

names, as well as offers engines, spare parts, and accessories. It also operates a tourist and holiday resort; and invests in real estate development projects. In addition, the company constructs high speed ships, such as hydrofoils and fast ferries comprising monohulls and catamarans, yachts, and minehunters and fast patrol boats for military marines. Immsi S.p.A. was founded in 2000 and is based in Mantua, Italy.

1498 Impact HD Inc. provides field marketing services to consumer goods manufacturers, distribution stores, and agencies in retail stores. It provides HR solutions that include onestop instore sales promotion services, such as outsourcing of store operations, POP furniture production, novelty production, logistics, etc.; IoT solutions comprising Digital Signage, MarketWatcher, and Store DB; and MR solutions consisting of exit and compliance surveys, masking, research, staff education/training, and consulting. Impact HD Inc. was founded in 2004 and is headquartered in Tokyo, Japan.

1499 Impala Platinum Holdings Limited engages in the mining, processing, refining, and marketing platinum group metals (PGMs). The company produces platinum, palladium, rhodium, nickel, and byproducts. It has operations on the PGMbearing ore bodies, including the Bushveld Complex located in South Africa; and the Great Dyke situated in Zimbabwe. The company also owns and operates the Lac des Iles Mine located northwest of Thunder Bay, Ontario, Canada. Impala Platinum Holdings Limited is based in Sandton, South Africa.

1500 Imperial Riviera d.d. engages in hotel and catering activities in Croatia. It provides accommodation, food and beverage, sports and recreational, excursion, and wellness services. The company also owns accommodation facilities consisting of seven hotels, three tourist resorts, and two camps. In addition, it operates a hotel in Porec. The company was founded in 1965 and is headquartered in Rab, Croatia.

1501 Imperium Technology Group Limited, an investment holding company, manufactures and sells household furnishing products and accessories. The company operates through six segments: Game Publishing, Cloud Computing and Data Storage, Esports, Household Products, Property Investment, and Money Lending. It produces stainless steel home furnishing products for kitchens and bathrooms; and offers diversified financial products, including personal loans, home mortgages, equity financing and mortgage, and corporate finance. The company is also involved in cryptocurrency mining and rental of machines to customers to engage in cryptocurrency mining; and participating in esports competitions, streaming and marketing events, and merchandise sales. In addition, it invests in properties; and designs and develops mobile and computer games in Hong Kong, the People's Republic of China, East and South Asia, and internationally. The company was formerly known as Imperium Group Global Holdings Limited and changed its name to Imperium Technology Group Limited in July 2021. Imperium Technology Group Limited was founded in 1999 and is based in Kwun Tong, Hong Kong. Imperium Technology Group Limited is a subsidiary of Diamond State Holdings Limited.

1502 Improve Medical Instruments Co., Ltd. provides technologies, products, and services for clinical laboratory and clinical nursing in China and internationally. Its principal products include IMPROVACUTER evacuated blood collection systems, IMPROMINI capillary blood collection systems, IMPROSWAB microbiological transportation systems, IMPRONURSE infusion pumps and syringe pumps, LONGX urine analysis systems, invitro diagnostic reagents, etc. The company also provides blood collection needles, pulsewave blood pressure monitors, thrombosis viscoelastic analysis systems, feces analysis systems, blood collection tube preparation systems, graphic user interface devices, intelligent sorters, multifunction blood collection tables, intelligent queue systems, urine

collection tube preparation systems, automatic tube packer systems, and consumable labels. The company was formerly known as Guangzhou Improve Medical Instruments Co., Ltd. Improve Medical Instruments Co., Ltd. was founded in 1996 and is headquartered in Guangzhou, China.

1503 INAIndustrija nafte, d.d., together with its subsidiaries, explores for, produces, refines, and sells oil and gas. The company operates through three segments: Exploration and Production, Refining and Marketing, and Corporate and Other. The company imports and sells natural gas to industrial consumers and municipal gas distributors; refines and produces oil products; provides services related to onshore and offshore oil extraction; distributes fuels and associated products through a chain of service stations; and trades in petroleum products. The company's products include motor gasoline and diesel fuels, LPG, fuel oil extra light and fuel oils, petrol coke and bitumen, lubricants, and aviation and marine fuels. The company leases drilling platform; and provides oilfield, asset management, tourism, technical, accounting, firefighting, and foreign trading services, as well as operates pipeline project companies and trade agency. As of December 31, 2021, the company distributed fuels and associated products through a chain of service stations, including in Croatia and internationally. INAIndustrija nafte, d.d. was founded in 1964 is based in Zagreb, Croatia.

1504 INBIOGEN CO.Ltd manufactures and sells footwear for children, youth, and adults in South Korea and internationally. The company markets its products under the ARTIS, SPECS, WANGJA, NEOSPEC, and CHAMPION brands. The company was formerly known as BTONE CO.,Ltd. INBIOGEN CO.Ltd was founded in 1949 and is based in Pyeongtaek, South Korea.

1505 "Incon Co., Ltd. provides integrated surveillance solutions in South Korea. The company offers traffic services, such as traffic information collection, analysis, and expectation, as well as illegal parking crackdown and delinquent vehicle detention; surveillance services, including smart police, GIS map radar tracking, and CCTV video extraction management; facility management services, such as asset management, error monitoring, and control management; disaster prevention services, including disaster prevention monitoring that consists of fire, flood, and accident, as well as realtime disaster report and alarm; and eco service, such as water pollution monitoring and food waste management based on RFID. It also provides Internet of Things, big data, system integration, and video security services. The company was formerly known as Win4net Co., Ltd. and changed its name to Incon Co., Ltd. in March 2015. Incon Co., Ltd. was founded in 2000 and is based in Seoul, South Korea.

"

1506 Incross Co., Ltd. engages in mobile advertising business in South Korea. It offers Dawin, a video and mobile display ad network; China AD, a platform that provides integrated marketing optimization solutions; and digital ad service through the online/mobile ad solution and platform. It also provides ad products and platform planning, technological support for development and maintenance, and other services, as well as managing services for ONE store and T freemium plus. Incross Co., Ltd. was founded in 2007 and is based in Seoul, South Korea.

1507 IIndluplace is a proud South African property investor owning a portfolio primarily focused on the affordable end of the residential rental market. The company was listed on the Main Board of the JSE in June 2015 and currently owns a portfolio of 9,668 residential units and 18, 870m2 of associated retail space. The portfolio is valued at R 3,8 billion. By utilising specialist outsourced property managers for the different portfolios, Indluplace ensures that its portfolio remains professionally managed to provide positive investment returns, while

providing value for money accommodation and service to all its tenants. Indulplace is mindful of the increasing role and impact of Environmental, Social, and Governance (ESG) on sustainability as well as the societal impact of an investment in the company.

1508 vertically integrated agribusiness company in Singapore and internationally. The company operates in two segments: Plantations, and Edible Oils and Fats. It engages in the research and development of oil palm seed breeding, crude palm oil production and refining, cultivates and markets palm plantations, rubber, sugar cane, cocoa, tea, and industrial timber plantation activities. The Plantations segment develops and maintains oil palm, rubber, and sugar cane plantations, and other business activities relating to processing, marketing, and selling. The Edible Oils and Fats segment produces, markets, and sells edible oil, margarine, shortening, and other related and derivative products. It offers cooking oil under the Bimoli, Bimoli Spesial, Delima, Amanda, and Happy brands; and margarine and shortening products under the Amanda, Palmia, Royal Palmia, Simas, Malinda, and Delima brands. Indofood Agri Resources Ltd. was incorporated in 2001 and is headquartered in Singapore. Indofood Agri Resources Ltd. is a subsidiary of Indofood Singapore Holdings Pte. Ltd.

1509 Indra Sistemas, S.A. operates as a technology and consulting company worldwide. It designs, develops, produces, integrates, operates, maintains, repairs, and markets systems, solutions, and services based on the use of information technologies, electronics, and communication; and for surveillance and security control of facilities. It also researches, engineers, designs, develops, manufactures, markets, installs, maintains, and repairs devices, equipment, and systems for data communication, encryption systems, encryption, beacon, and command and control center; manages, executes, commercializes, and sells system engineering services for the defense industry; and provides engineering and maintenance services for air defense systems and other related systems, as well as architectural and engineering technical services. In addition, it offers systems to aid navigation and landing, and air traffic control systems; outsources business processes; delivers document management services and mortgage management; realizes measures for the settlement and registration; and manages digitalization and data capture. Further, it provides business consulting, technology and solutions consulting, administration, management, support, advisory, telecommunications, mobile telephony, credit card processing, and energy transport and distribution network manufacture services; engineering and consultancy services for environment, transport, construction, water, and industry areas; and digital agency, web communication and marketing, securities, computer programming, aerodrome air traffic, radio communication security, port infrastructure, airline training and coaching, and project services. Additionally, it researches and develops autonomous air systems and solutions in unmanned systems; and develops and produces aircraft, tactical communication systems, and toll and traffic control and management systems. Indra Sistemas, S.A. was founded in 1921 and is headquartered in Alcobendas, Spain.

1510 Industria de Dise o Textil, S.A. engages in the retail and online distribution of clothing, footwear, accessories, and household textile products through various commercial concepts. Its retail concepts include Zara, Pull & Bear, Massimo Dutti, Bershka, Stradivarius, Oysho, Zara Home, and Uterq e. It is also involved in textile, logistics, design, financial services, insurance, construction, and real estate businesses. The company operates in Spain, rest of Europe, the Americas, and internationally. Industria de Dise o Textil, S.A. was founded in 1963 and is based in A Coru a, Spain.

1511 Industrial Holding Bulgaria AD, through its subsidiaries, engages in maritime transport, ship building and repair, port operations, and machine building businesses in Bulgaria. It is involved in ship repair and reconstruction of vessels; production of castings; and providing engineering services in the areas of marine engineering, naval architecture, and retrofit and conversion, as well as providing technical supervision services. The company also provides ports services, such as loading, unloading, and warehousing services; transport and forwarding services; and ancillary services, including electricity, water, acceptance of household and hazardous waste, sweeping, washing of cargo spaces, strengthening of cargo, etc. In addition, it engages in repair and storage of small vessels; rental of storage space, premises for production activity, warehouses and office; and production of universal lathes and CNC lathes. Further, the company designs and manufactures parts for metal cutting and woodworking machines, technological lines, general mechanical engineering machines and products, and spare parts, as well as offers repairs and services; and provides components for metalcutting machines, housings, support boards, bodies, columns tailstocks, foundations, gearboxes, etc. Additionally, it offers technical supervision and classification services; and insurance and reinsurance intermediation services, as well as provides loans and consulting services.. The company was formerly known as Privatization Fund Bulgaria AD and changed its name to Industrial Holding Bulgaria AD in 1998. Industrial Holding Bulgaria AD was founded in 1950 and is headquartered in Sofia, Bulgaria. Industrial Holding Bulgaria AD is a subsidiary of Bulls AD.

1512 Industrie De Nora S.p.A., through its subsidiaries, provides catalytic coatings and insoluble electrodes for electrochemical and industrial applications worldwide. The company offers analyzers and detectors; anodes for chlorine and oxygen evolution; cathodes for hydrogen evolution; disinfection systems; electro chlorination systems; electrodes and accessories for cathodic protection; filtration solutions; gas diffusion electrodes, MEA, and catalysts; membrane technologies; and contaminant removal systems. It also provides remote support, repair, training, electrode recoat and repair, and spare and replacement parts. The company's products are used in various applications, which include ballast water management, battery, cathodic protection, chloralkali processes, cooling water treatment, copper foil electrodeposition, fire protection water treatment, fuel cells, h2 production by water electrolysis, HCL electrolysis, marine wastewater treatment, offshore wastewater treatment, pool disinfection, printed circuit board production, salt splitting processes, sodium chlorate processes, surface disinfection, surface finishing, plating and galvanizing, wastewater treatment, water reuse, and reclamation water treatment. It serves commercial and institutional, energy transition, engineering, construction, OEM, food and beverage, industrial, marine, mining and metal recovery, municipal drinking water and wastewater, municipal reuse, offshore and onshore oil and gas, power generation, pulp and paper, steel manufacturing, utilities and services, and NGO and relief organizations, as well as surface finishing, plating, and galvanizing markets and industries. The company was founded in 1923 and is based in Milan, Italy. Industrie De Nora S.p.A. operates as a subsidiary of Federico De Nora S.P.A.

1513 Indutrade AB (publ) manufactures, develops, and sells components, systems, and services to various industries worldwide. It operates through eight segments: Benelux, DACH, Finland, Flow Technology, Fluids & Mechanical Solutions, Industrial Components, Measurement & Sensor Technology, and UK. The company also provides components and systems for

controlling, measuring, monitoring, and regulating flows, as well as for industrial production and maintenance; medical technology equipment; measurement instruments and systems, sensors, control and regulating technology, and monitoring equipment; and custommanufactured products, design solutions, aftermarket and assembly services, and customization services. In addition, it provides valves, hydraulic and industrial equipment, measurement technology, construction materials, filters, pipes and pipe systems, auto repair, tools and transmission, industrial springs, water and wastewater, lighting, chemical technology, fasteners, electronics, vehicles, energy, springs, piston rings, press work, and valve channels. The company was incorporated in 1919 and is based in Kista, Sweden.

1514 Infinity Logistics and Transport Ventures Limited, an investment holding company, provides logistics services in China, Indonesia, Malaysia, the Netherlands, Singapore, South Korea, Thailand, Vietnam, and internationally. The company operates through Integrated Freight Forwarding Services; Logistics Centre Services and Related Service; Land Transportation Services; Flexitank Solution and Related Services; and 4PL Services segments. The Integrated Freight Forwarding Services segment offers nonvessel operating common carrier and freight forwarding services. The Logistics Centre Services and Related segment provides warehousing services and container depot services, as well as container storing, maintenance, ad repair services. This segment also offers value added services, such as labelling and repackaging services. The Land Transportation Services segment offers railroad and land transportation services. The Flexitank Solution and Related Services segment provides flexi tank solution and related services, such as advisory, installation, and emergency response services to customers for bulk nonhazardous liquid transportation. The 4PL Services segments offers 4PL services and 4PL handling services, as such as handling order management, legal compliance, warehousing, and supplier management. It also provides packing and crating, and haulage services. The company was founded in 2003 and is headquartered in Klang, Malaysia. Infinity Logistics and Transport Ventures Limited is a subsidiary of 2926 Holdings Limited.

1515 Infomedia Ltd, a technology company, develops and supplies electronic parts catalogues, service quoting software, and ecommerce solutions for the automotive industry worldwide. The company offers parts solutions, including Microcat EPC, an electronic parts catalogue; Microcat PartsBridge for collision parts ordering; Microcat Market for mechanical parts ordering; Microcat CRM, an online CRM for wholesale parts; Microcat Messenger, an instant messaging tool; and Microcat EPC Origins. It also provides service solutions, such as Superservice Platform; Superservice Menus, a service quoting software; Superservice Triage, an electronic vehicle health check software; Superservice Connect, an online selfserve booking and quoting system; and Superservice Register, an online VINspecific central database. In addition, the company offers oil industry solutions comprising Netlube Data, a lubricant recommendation database; and Netlube CRM, a frontline sales transformation solution; and SimplePart, an online store to reach new customers, as well as data management, performance insights, forecasting, customer experience, and dealer optimization services. Infomedia Ltd was incorporated in 1987 and is headquartered in Sydney, Australia.

1516 INFOvine co., Ltd. operates in the mobile, security, gaming, and entertaient fields in South Korea. The company offers UBIKey, a mobile phone certificate storage service; and Superpass, a login service. It is also involved in the planning and sale of music albums; development and management of rookie singers and actors; engagement and production of OSTs; management of actors; engagement in TV programs, movies,

commercials, entertainment programs, etc.; investment and production of movies; and investment in the multimedia industry, as well as performance and broadcast content production activities. The company was founded in 2000 and is based in Seoul, South Korea.

1517 Infracore Limited owns and operates infrastructure businesses and investments primarily in New Zealand, Australia, the United States, Asia, the United Kingdom, and Europe. The company supplies electricity to commercial and industrial customers; develops, owns, and generates renewable energy; develops utility-scale wind and solar generation throughout North America; develops wind, solar PV energy projects, and storage solutions; and provides outsourced data center services to government and commercial entities, as well as develops and operates data centers. It also owns and manages a portfolio of commercial real estate properties; operates retirement living units and apartments; operates airport; and provides finance services. In addition, the company offers mobile subscription, broadband connection, TV connection services; and diagnostic imaging, a service for various health applications, including x-rays, ultrasound, CT scans, PET scans, and MRIs which are used to prevent, diagnose, and treat a range of diseases and other health issues, such as cardiovascular, musculoskeletal, respiratory, hearing/vision, neurological, kidney, gastrointestinal, and cancer. It owns and operates 27 hydro power stations with a total installed capacity of 498 MW. The company was incorporated in 1994 and is based in Wellington, New Zealand.

1518 InfuSystem Holdings, Inc., through its subsidiaries, provides infusion pumps, and related products and services in the United States and Canada. The company operates in two segments, Integrated Therapy Services (ITS) and Durable Medical Equipment Services (DME Services). It supplies electronic ambulatory infusion pumps and associated disposable supply kits to oncology, infusion, and hospital outpatient chemotherapy clinics for the treatment of various cancers, including colorectal cancer, pain management, and other disease states. The company also sells, rents, and leases new and preowned pole-mounted and ambulatory infusion pumps, and other durable medical equipment; sells treatment-related consumables; and provides biomedical recertification, maintenance, and repair services for oncology practices, as well as other healthcare site settings comprising hospitals, home care and home infusion providers, skilled nursing and acute care facilities, pain centers, and others. In addition, it offers local and field-based customer support, as well as operates pump service and repair centers. The company was incorporated in 2005 and is headquartered in Rochester Hills, Michigan.

1519 Ingdan, Inc. operates as an e-commerce company serving the integrated circuit chips (ICs) and artificial intelligence of things (AIoT) industry in China and Hong Kong. It sells digital signal processing, microcontroller, field programmable gate array, sensor/converter, memory, signal/interface, data converters, wireless, radio frequency, processor, and toolkit related products. The company also offers amplifier, capacitance, inductor, resistors, light-emitting diode, timer, clock, connector, switch, relays, filter, and power management related products. In addition, the company provides development tools/system, multimedia IC, dedicated IC, and motor control IC, as well as circuit protection, complex programmable logic, optoelectronic, and discrete devices. Further, the company offers its products through its e-commerce platform, cogobuy.com, as well as supply chain financing services. Additionally, it operates the ING DAN.com platform, which develops and sells proprietary AIoT products, hardware, software, and services. It serves electronics manufacturers. The company was formerly known as Cogobuy Group and changed its name to Ingdan, Inc.

in June 2022. The company was founded in 2000 and is headquartered in Shenzhen, the People's Republic of China. Ingdan, Inc. is a subsidiary of Envision Global Investments Limited.

1520 Ingersoll Rand Inc. provides various missioncritical air, fluid, energy, specialty vehicle, and medical technologies in the United States, Europe, the Middle East, India, Africa, and the Asia Pacific. It operates through two segments, Industrial Technologies and Services, and Precision and Science Technologies. The Industrial Technologies and Services segment designs, manufactures, markets, and services air and gas compression, vacuum, and blower products; fluid transfer equipment and loading systems; and power tools and lifting equipment, including associated aftermarket parts, consumables, air treatment equipment, controls, other accessories, and services under the under the Ingersoll Rand, Gardner Denver, Nash, CompAir, Elmo Rietschle, Robuschi, Emco Wheaton, and Runtech Systems brands. The Precision and Science Technologies segment designs, manufactures, and markets diaphragm, piston, waterpowered, peristaltic, gear, vane, progressive cavity, and syringe pumps; and gas boosters, hydrogen compression systems, automated liquid handling systems, odorant injection systems, controls, software, and other related components and accessories for liquid and gas dosing, transfer, dispensing, compression, sampling, pressure management, and flow control in specialized or critical applications under the Air Dimensions, Albin, ARO, Dosatron, Haskel, LMI, Maximus, Milton Roy, MP, Oberdorfer, Seepex, Thomas, Welch, Williams, YZ, and Zinnser Analytic brand names. This segment's products are used in medical, life sciences, industrial manufacturing, water and waste water, chemical processing, energy, food and beverage, agriculture, and other markets. It sells through an integrated network of direct sales representatives and independent distributors. The company was formerly known as Gardner Denver Holdings, Inc. and changed its name to Ingersoll Rand Inc. in March 2020. Ingersoll Rand Inc. was founded in 1859 and is headquartered in Davidson, North Carolina.

1521 Ingevity Corporation manufactures and sells specialty chemicals and activated carbon materials in North America, the Asia Pacific, Europe, the Middle East, Africa, and South America. It operates through two segments, Performance Materials and Performance Chemicals. The Performance Materials segment engineers, manufactures, and sells hardwoodbased and chemically activated carbon products primarily for use in gasoline vapor emission control systems in cars, motorcycles, trucks, and boats. This segment also produces other activated carbon products for use in various applications, including food, water, beverage, and chemical purification. The Performance Chemicals segment comprises of pavement technologies, industrial specialties, and engineered polymers. It manufactures products derived from crude tall oil and lignin extracted from the kraft pulping process, as well as caprolactone monomers and derivatives derived from cyclohexanone and hydrogen peroxide. This segment's products are used in various applications comprising warm mix paving, pavement preservation, pavement reconstruction and recycling, road striping, oil well service additives, oil production, and downstream applications; and adhesives, agrochemical dispersants, lubricants, printing inks, industrial intermediates and oilfield, coatings, resins, elastomers, bioplastics, and medical devices. The company was founded in 1964 and is headquartered in North Charleston, South Carolina.

1522 Ingredion Incorporated, together with its subsidiaries, produces and sells sweeteners, starches, nutrition ingredients, and biomaterial solutions derived from wet milling and processing corn, and other starchbased materials to a range of industries in North America, South America, the Asia Pacific, Europe, the Middle East, and Africa. The

company offers starch products for use in a range of processed foods; cornstarch; specialty paper starches for enhanced drainage, fiber retention, oil and grease resistance, improved printability, and biochemical oxygen demand control; starches and specialty starches for textile industry; industrial starches are used in the production of construction materials, textiles, adhesives, pharmaceuticals, and cosmetics, as well as in mining and water filtration; and specialty industrial starches for use in biomaterial applications, including biodegradable plastics, fabric softeners and detergents, hair and skin care applications, dusting powders for surgical gloves, and in the production of glass fiber and insulation. It provides sweetener products comprising glucose syrups, high maltose syrup, high fructose corn syrup, dextrose, polyols, maltodextrin, glucose syrup solids, and nongenetically modified organism syrups for use in food and beverage products, such as baked goods, snack foods, canned fruits, condiments, candy and other sweets, dairy products, ice cream, jams and jellies, prepared mixes, table syrups, soft drinks, fruitflavored drinks, and others. carcinoid syndrome; Cometriq for medullary thyroid cancer; Smebiocta/SmectaFlora Protect, a food supplement; SmectaGas, a medical device used in the symptomatic treatment of gasrelated gastrointestinal disorders and relief of gasrelated symptoms; and Etiasa for inflammatory bowel diseases. Further, the company offers other consumer healthcare products in the gastrointestinal area, including Buscopan, Clin4000, Prontalgine, Suppositoria Glycerini, Mucothiol, Floractin, and Mucodyne. Ipsen S.A. has agreements with Debiopharm; Exelixis; Galderma; Blueprint Medicines; TerSera Therapeutics; Rhythm Pharmaceuticals; Teijin; Braintree Laboratories; Ethypharm; Schwabe; BAKX Therapeutics Inc.; and Exicure. The company was founded in 1929 and is headquartered in BoulogneBillancourt, France.

1567 IRC Limited, an investment holding company, develops, produces, and sells industrial commodities products in the Russia, Peopleâ€™s Republic of China, and internationally. The company operates through four segments: Mines in Production, Mines in Development, Engineering, and Other. The Mines in Production segment comprises iron ore projects in production phase, which include the Kimkan and Sutara project located in the Obluchenskoye district of the Jewish Autonomous Region in the Russian Far East. The Mines in Development segment consists of iron ore projects in the exploration and development phase comprising the Garinskoye project that focuses on iron ore deposits in the Amur region; Kostenginskoye project; and the Bolshoi Seym project that explores for ilmenomagnetite, magnetite, and ilmenite located in the located in the Tynda district of Amur region in the Russian Far East region. The Engineering segment provides technical mining research and consultancy services. The Other segment engages in the production of vanadium pentoxides and related products, and other projects. It is also involved in the provision of general trading, financing, engineering, and procurement services; and development of titanium sponge. The company was incorporated in 2010 and is headquartered in Central, Hong Kong.

1568 Iren SpA, together with its subsidiaries, operates as a multiutility company in Italy. It operates through Networks, Waste Management, Energy, Market, and Other Services segments. The company produces and distributes electricity primarily from hydroelectric, thermoelectric, cogeneration, and other renewables, as well as distributes natural gas. It distributes electrical energy through 7,849 kilometers of medium and low voltage networks to approximately 725,000 connected users; and natural gas through its network of approximately 8,115 kilometers of high, medium, and lowpressure pipes to approximately 741,000 customers. The company also operates integrated water cycle, which includes 20,088 kilometers of pipeline networks that serve 2.8 million residents; 11,291 kilometers of sewerage networks; and operates treatment plants. In addition, it is involved in the provision of services related to street lighting systems, traffic light systems, heating systems, and electrical and special systems; collection and disposal of waste; snow clearing services; and analysis laboratories, telecommunications, and other services. It operates 23 hydroelectric plants, 7 thermoelectric cogeneration systems, and 1 thermoelectric plant, as well as 95 photovoltaic production plants with an installed capacity of 18 MW. Iren SpA is based in Reggio Emilia, Italy.

1569 Iress Limited engages in the designing and developing software and services for the financial services industry in Australia, New Zealand, Asia, the United Kingdom, Europe, South Africa, and North America. It offers client management, business automation, portfolio data, research, financial planning tools, scaled advice journeys, digital client solutions, datadriven compliance and analytics, and regulatory obligations management solutions; and market data, trading interfaces,

order and execution management, smart order routing, FIX services, portfolio management, securities lending, analytical tools, algorithmic trading, market making, CFD clearing, post trade solutions, and trading and market data APIs. The company also provides connectivity, client relationship management, wealth management, funds registry, digital advice, digital member portal, fund administration services, automated workflow, application processing, connectivity, mortgage comparison and advice, lender connectivity, quoting, comparison, and application processing solutions. It offers its solutions to institutional and independent advisory clients; institutional sellside, retail, and online brokers; investment, fund, private client, and wealth managers; custodians; retail and investment platforms; superannuation funds; and mortgage lenders and intermediaries. The company was formerly known as IRESS Market Technology Limited and changed its name to IRESS Limited in May 2012. Iress Limited was incorporated in 1993 and is headquartered in Melbourne, Australia.

1570 Irish Continental Group plc operates as a maritime transport company. It operates through two segments, Ferries, and Container and Terminal. The Ferries segment engages in the provision of passenger and roll on roll off freight shipping, and container lift on lift off freight services on routes between Ireland, Britain, and Continental Europe. The Container and Terminal segment provides doortodoor and feeder lift on lift off freight services, stevedoring, and other related terminal services, as well as operates container terminals in the ports of Dublin and Belfast. The company also provides ship chartering, shipping and forwarding agency, ship leasing, and administration services. Irish Continental Group plc was founded in 1972 and is based in Dublin, Ireland.

1571 ISC Co., Ltd. develops, manufactures, and sells semiconductor test sockets worldwide. It offers memory test, logic test, burn in, RF, and camera module sockets, as well as test fixtures, probe heads, special pins, interposers, connectors, and board savers. The company was founded in 2001 and is headquartered in Seongnamsi, South Korea.

1572 ISDN Holdings Limited, together with its subsidiaries, provides motion control, industrial computing, and other specialized engineering solutions in Singapore and internationally. The company offers conceptualization, design, development, prototyping, production, testing, installation, and aftersales technical support services for motion control systems; and design, engineering, production, integration, and services to manufacturing, advanced agriculture, renewable energy, and civil transportation industries. It also manufactures linear motors, positioning stages, precision gearboxes, and transmission elements; and hinges and locks under the Dirak brand for data centers, telecommunications, transportation, and 3C market. In addition, the company provides connectivity, intelligence, and analysis services to support industrial processes; industrial software platforms to automation, intelligence, analytics, and control software; and engineering and technology solutions for solar energy, energy storage, advanced agriculture, industrial disinfectants, building energy management, and energy smart grids. Further, it provides property holding and management, corporate training and motivational course provider, professional training to organizations, and public and human resource consultancy services; technical, software, artificial intelligence application software, network, and information development services; and industrial automation and control solutions by supplying machinery and mechanical components, as well as industrial software to robotics, machine vision, motion control, and related technologies. Additionally, it sells and markets bioscience products; sells electronic products;

carries out hydroponic growing with the application of its inhouse motion control solution; and constructs a mini hydropower plant. The company has strategic partnership with Whizpace Pte Ltd. ISDN Holdings Limited was founded in 1986 and is headquartered in Singapore.

1573 ISE Commerce Company Limited engages in the fashion business in South Korea, China, the United States, Japan, and internationally. It develops EDGE N2N, an ecommerce services platform, which enables consumers to meet mono/retail brands; and provides modular or integrated services for ecommerce, including the enhancement of product information, securing sales channels, and marketing, as well as logistics services. The company offers BP SERVICE, a service that enables earlystage brands to grow with startup creators; B2Bi SERVICE for sourcing and sales; CP SERVICE, a logistics based service; and CX&D SERVICE, which includes integrated marketing communications and content production for the marketing activity. It provides its products primarily under the WIZWID, WCONCEPT, JINNYKIM, and JUST JINNY brands. ISE Commerce Company Limited was founded in 2001 and is based in Seoul, South Korea.

1574 ISEC Healthcare Ltd., an investment holding company, provides medical care, consultancy, treatment, and surgery services in the field of ophthalmology in Singapore, Malaysia, and Myaar. The company operates through two segments, Specialised Health Services and General Health Services. It offers a range of eye care services, including cataract and intraocular lens implant surgeries; refractive surgeries; cornea, external eye disease, and anterior surgeries; adult strabismus and paediatric ophthalmology, glaucoma diagnostics and therapeutics, medical retinal diseases, uveitis, oculoplastics, facial cosmetics, and aesthetics surgeries, as well as optometry and orthoptics. In addition, the company offers general medical services. It operates eye care centers in Kuala Lumpur, Malacca, Penang, Johor, and SibU. ISEC Healthcare Ltd. was incorporated in 2014 and is headquartered in Singapore. ISEC Healthcare Ltd. is a subsidiary of Aier Eye Hospital Group Co., Ltd.

1575 Iskandar Waterfront City Berhad, an investment holding company, engages in the property development, property landbanking, and construction activities in Malaysia. The company develops residential and commercial properties. It also constructs infrastructure projects and buildings. The company was formerly known as Tebrau Teguh Berhad and changed its name to Iskandar Waterfront City Berhad in July 2014. Iskandar Waterfront City Berhad was incorporated in 1968 and is based in Johor Bahru, Malaysia.

1576 ISP Global Limited, an investment holding company, sells sound and communication systems and related services for various building systems in Singapore, Hong Kong, Malaysia, and the People's Republic of China. The company sells sound and communication systems; provides integrated services of sound and communication systems with a focus on customization, installation of sound and communication systems; technical services; and alert alarm system services, as well as involved in ecommerce business. It serves goverent agencies, private organizations, and ultimate users. The company was founded in 2002 and is headquartered in Wan Chai, Hong Kong.

1577 Israel Corporation Ltd, through its investee companies, operates in the specialty minerals and chemical businesses in Asia, Europe, South America, North America, and internationally. The company offers bromine and brominebased compounds; magnesias, calcium carbonate, salt, and phosphorousbased products; potash; phosphatebased products; and controlled release fertilizers, water soluble fertilizers, liquid fertilizers and straights, FertilizerspluS range products, soil and foliar micronutrients, secondary nutrients, biostimulants, soil conditioners, seed treatment products, and adjuvants. It also produces

fuel products; raw materials for the petrochemical industry; and materials for the plastics industry, as well as provides power and water services to various industries in Haifa. The company was founded in 1968 and is based in Tel Aviv, Israel.

1578 Issuer Direct Corporation operates as a communications and compliance company, provides solutions for both public relations and investor relations professionals in the United States and internationally. The company provides press release distribution, media databases, media monitoring, and newsrooms through media advantage platform; ACCESSWIRE, a news dissemination and media outreach service; and VisualWebcaster Platform, a cloudbased webcast, webinar, and virtual meeting platform that delivers live and ondemand streaming of events to audiences of various sizes, as well as allows customers to create, produce, and deliver events. It also offers professional conference and events software, a mobile app that offers organizers, issuers, and investors to register, request, and approve oneonone meetings, as well as manage schedules, perform event promotion and sponsorship, print attendee badges, and manage lodging; and investor relations content network, a series of data feeds, which include news feeds, stock feeds, fundamentals, regulatory filings, corporate governance, and other components. In addition, the company provides whistleblower hotline, a system that delivers secure notifications and basic incident workflow management processes that align with a company's corporate governance whistleblower policy; stock transfer module, which offers access to realtime information about their shareholders, stock ledgers, and reports, as well as issues new shares; and proxy module, a realtime voting platform for customers and their shareholders of record. It serves public and private companies, mutual funds, law firms, brokerage firms, investment banks, individuals, and other institutions. Issuer Direct Corporation was incorporated in 1988 and is headquartered in Raleigh, North Carolina.

1579 Iteris, Inc. provides intelligent transportation systems technology solutions in North America, Europe, South America, and Asia. The company offers smart mobility infrastructure solutions include traveler information systems, transportation performance measurement software, traffic analytics software, transportation operations software, transportationrelated data sets, advanced sensing devices, managed services, traffic engineering services, and mobility consulting services. Its products include ClearGuide, ClearRoute, Commercial Vehicle Operations, BlueArgus, TrafficCarma, Vantage Apex, Vantage Fusion, Vantage Next, VantagePegasus, VantageRadius, Vantage Vector, Velocity, SmartCycle, SmartCycle Bike Indicator, SmartSpan, VersiCam, PedTrax, and PSeries products. The company also sells original equipment manufacturer products for the traffic intersection markets, such as traffic signal controllers and traffic signal equipment cabinets. In addition, it offers traffic management centers design, staffing, and operations services; traffic engineering and mobility consulting services include planning, design, development, and implementation of software and hardwarebased ITS systems that integrate sensors, video surveillance, computers, and advanced communications equipment; distributes realtime information about traffic conditions; and surface transportation infrastructure systems implementation, and operation and management. Further, the company provides travel demand forecasting and systems engineering, and identify mitigation measures to reduce traffic congestion; ClearMobility platform; and ClearMobility Cloud that enables mobility data management engine, application programming interface framework, and microservices ecosystem. It serves public transportation agencies, municipalities, commercial entities, goverent agencies, and other transportation infrastructure

providers. The company was founded in 1969 and is headquartered in Austin, Texas.

1580 Ithaca Energy plc, together with its subsidiaries, engages in the exploration, development, and production of oil and gas in the North Sea. The company own a portfolio of assets located in Northern and Central North Sea and Moray Firth areas. As of December 31, 2021, it had proved and probable reserves, and resources of 5.6 millions of barrels of oil equivalent. The company was incorporated in 2004 and is based in London, the United Kingdom. Ithaca Energy plc is a subsidiary of Delek North Sea Limited.

1581 Itissalat AlMaghrib (IAM) S.A., together with its subsidiaries, provides various telecommunication services in Morocco and internationally. It offers mobile, fixedline, Internet, and fixedline broadband telecommunication services, as well as sells mobile terminals, broadband equipment, and connected objects and accessories. The company was founded in 1998 and is based in Rabat, Morocco. As of October 28, 2021, Itissalat AlMaghrib (IAM) S.A. operates as subsidiary of Emirates Telecommunications Group Company PJSC.

1582 Ituran Location and Control Ltd., together with its subsidiaries, provides locationbased telematics services and machinetomachine telematics products. The companyâ€™s Telematics services segment provides stolen vehicle recovery and tracking services, which locate, track, and recover stolen vehicles for its subscribers; fleet management services that enable corporate and individual customers to track and manage their vehicles in real time; and locator services that allow customers to protect valuable merchandise and equipment. It also offers ondemand navigation guidance, information, and assistance, including the provision of traffic reports and directions, as well as information on the location of gas stations, car repair shops, post offices, hospitals, and other facilities; and Connected Car, a service platform that includes a backoffice application, a telematics device installed in the vehicle, mobile apps for IOS and Android users, and interface using the car infotainment screen, as well as usage based insurance and auto financing. This segment serves insurance companies and agents, car manufacturers, dealers and importers, cooperative sales channels, and private subscribers. Its Telematics Products segment provides Base Site, a radio receiver that includes a processor and a data computation unit to collect and send data to and from transponders, and to control centers; Control Center, a center consisting of software used to collect data from various base sites, conduct location calculations, and transmit location data to various customers and law enforcement agencies; navigation and tracking devices installed in vehicles; and SMART, a portable transmitter installed in vehicles that sends a signal to the base site enabling the location of vehicles, equipment, or an individual. The company was incorporated in 1994 and is headquartered in Azor, Israel.

1583 ITV plc, an integrated producer broadcaster, creates, owns, and distributes content on various platforms worldwide. It operates through Media & Entertainment, and ITV Studios segments. The Media & Entertainment segment broadcasts various contents on its family of free-to-air channels, including ITV, ITV2, ITV3, ITV4, ITVBe, ITV Encore, CITV, ITV Breakfast, CITV Breakfast, and various related +1 and HD equivalents; and offers television advertising services. It also delivers content through linear television broadcasting, as well as on the ITV Hub, catch up services on pay platforms, and through direct content deals. It serves various industry sectors comprising financial services, publishing, retail, communications, property, clubs and associations, notforprofit, utilities, manufacturing, education, and government. IVE Group Limited was founded in 1921 and is based in Homebush, Australia.

1585 IVS Group S.A., together with its subsidiaries, operates vending machines. It operates through five segments: Italy, France, Spain, Swiss, and Coin. It sells a range of products, including hot and cold beverages, inbetween meals, snacks, and confectionary through its automated vending machines and office coffee service machines. As of December 31, 2021, the company managed a network of approximately 232,117 vending machines, of which 123,971 fully automatic vending machines and 108,146 office coffee service machines, located at corporate offices, institutions, and public places. It also provides coin services, such as the management of metallic money comprising the collection, packaging, and delivery of coins for various customers that include banks, massretailers, third party vending operators, parking operators, train stations, and highway toll stations. The company is headquartered in Seriate, Italy. IVS Group S.A. is a subsidiary of IVS Partecipazioni S.p.A.

1586 J D Wetherspoon plc owns and operates pubs and hotels in the United Kingdom and the Republic of Ireland. It operates 852 pubs. The company was founded in 1979 and is based in Watford, the United Kingdom.

1587 J Steel Company Holdings Inc. manufactures and sells rolling steel products in South Korea. It offers mild steel wire rods, deformed bars, hard steel wire rods, and reinforced steel bars to construction companies. The company was formerly known as Jeil Steel Mfg Co., Ltd. and changed its name to J Steel Company Holdings Inc. in March 2022. J Steel Company Holdings Inc. was founded in 1964 and is headquartered in Ansan, South Korea.

1588 J way Co., Ltd. operates in the media industry in Korea. The company purchases movie contents copyrights from movie investments distributors and distributes to DVD viewing rooms, motels, digital small theaters, personal computer (PC) rooms, spas, car theaters, hotels, and condominiums; and digital movie contents services. It also engages in

manufacturing and selling of automobile parts, such as automatic thermostat and other SMT products; accommodation and PC room appliances; equipment rental and sales; and advertising services, as well as manufacturing of metal structures, windows, and hardware. The company was formerly known as SQN Co., Ltd. and changed its name to J way Co., Ltd. in July 2011. J way Co., Ltd. is headquartered in Gwangju, South Korea.

1589 Jadran d.d. operates hotels, resorts, and campsites in the Republic of Croatia. It provides accommodation services through 2,454 accommodation units and 5,772 bedplaces. The company also operates apartments, beaches, inter caf   bars, and swimming pools. In addition, it is involved in the preparation of food; provision of food services; and preparation and serving of drinks and beverages. Jadran d.d. was founded in 1964 and is headquartered in Crikvenica, the Republic of Croatia.

1590 Jaguar Mining Inc., a junior gold mining company, engages in the acquisition, exploration, development, and operation of gold producing properties in Brazil. Its principal assets include the Turmalina Gold Mine Complex, Caet   Gold Mine Complex, and the Paci  ncia Gold Mine Complex located in the Iron Quadrangle in the state of Minas Gerais. The company also holds an option agreement to acquire a package of 28 exploration tenements. It currently holds 32,000 hectares of mineral rights in Brazil. Jaguar Mining Inc. is headquartered in Toronto, Canada.

1591 Jangho Group Co., Ltd. manufactures and sells curtain wall products in Mainland China, Hong Kong, Macau, Taiwan, and internationally. The company provides various services, including interior decoration, ophthalmology treatment, thirdparty inspections, and community hospitals, as well as green building system services. It offers its products and services under the Jangho, Sundart, Gang Yuan, Steve Leung Designers, and Vision brands. Jangho Group Co., Ltd. was founded in 1999 and is headquartered in Beijing, China.

1592 JangWonTech Co., Ltd. manufactures and sells mobile phone, IT, and automotive components in South Korea, Vietnam, and internationally. The company offers builtin brackets for smartphones and tablets, and smartphone exterior parts; automotive components, such as car engine parts, smart key exterior parts, and automotive ECU cases; head lamp heat sink for SUVs and passenger cars, and heat sinks for audio products; portable infrared cameras, telescopic lens barrels, audio front panels, amplifier cases, etc.; and precision press parts. It also provides communication parts, including antenna and repeater parts; automotive body parts, frying pans, telephoto lens, and inline parts; UV/urethane coating, MFC, metal painting, and encoating solutions; medical instruments consisting of parts for portable Xray detectors and portable ultrasonic diagnostic equipment parts; and camera parts. JangWonTech Co., Ltd. was founded in 2000 and is headquartered in Gumisi, South Korea.

1593 Jardine Matheson Holdings Limited, through its subsidiaries, engages in the motor vehicles and related operations, property investment and development, food retailing, health and beauty, home furnishings, engineering and construction, and transportation businesses. It is also involved in the restaurants and hotels, financial services, heavy equipment, mining, and agribusinesses. It is also involved in the Pizza Hut and KFC franchise restaurants operations; designing, engineering, installation, maintenance, and modernization of escalators, and moving walkways; and supplying aseptic packaging materials. In addition, the company provides automobile and motorcycle products, as well as sells and services motor vehicles; invests in, owns, develops,

and manages office and retail properties; operates outlets, including supermarkets, hypermarkets, convenience stores, health and beauty stores, and home furnishings stores; and invests in and manages a portfolio of deluxe and first class hotels, resorts, and residences. Further, it engages in the motor dealerships, dairy, and cement businesses. Additionally, the company is involved in the energy, infrastructure, logistics, insurance brokerage, and information technology businesses. It operates in China, Southeast Asia, the United Kingdom, and internationally. The company was founded in 1832 and is based in Hamilton, Bermuda.

1594 Jasmine International Public Company Limited engages in the telecommunications business in Thailand. The company provides content for internet protocol television services; satellite telecommunications services; internet and international calling card services; online movie and internet protocol television services; computer system integration, software development, and cloud computing services; and highspeed data communication services. It also offers circuit leasing, local and international data communication, and Bitcoin mining services; fixedline services and data communication network services; and cloud AI, internet of things, and fintech and engineer design and consultancy services in energy management and clean energy systems. In addition, it engages in the rental of office building; distribution of computer products; design, installation, and testing of telecommunications systems; survey, design, and construction for civil work of telecommunications projects; and development, distribution, and provision of various types of software. The company was founded in 1982 and is based in Nonthaburi, Thailand.

1595 Jasmine Technology Solution Public Company Limited engages in the design and installation of telecommunication systems, and telecom service and other businesses in Thailand. The company also provides computer systems integration and cloud computing services; smart closedcircuit camera and hyperconverged infrastructure systems; and maintenance services for computer hardware and other peripheral equipment, as well as develops and distributes software. In addition, it offers server and client computer, firewall and data security, smart building management, cloud infrastructureasaservice, and cloud softwareasaservice systems; backup solutions for preventing ransomware; and data, fiber optic, and LAN networks. The company serves goverent agencies, state enterprises, private companies converted from state enterprises, private small and medium enterprises, and large private companies. The company was formerly known as Jasmine Telecom Systems Public Company Limited and changed its name to Jasmine Technology Solution Public Company Limited in October 2021. Jasmine Technology Solution Public Company Limited was founded in 1995 and is headquartered in Nonthaburi, Thailand.

1596 Jason Furniture (Hangzhou) Co.,Ltd. engages in the design, development, production, and marketing of home furnishing products in China and internationally. It offers motion and stationary sofas, accent and home office chairs, recliners, dining chairs, barcounter stools, foam and spring mattresses, ottomans, and beds. The company sells its products under the KUKA HOME brand name. It operates through approximately 6000 brand stores. The company was formerly known as Hangzhou Zhuangsheng Furniture Manufacturing Co., Ltd. and changed its name to Jason Furniture (Hangzhou) Co.,Ltd. in December 2011. Jason Furniture (Hangzhou) Co.,Ltd. was founded in 1982 and is headquartered in Hangzhou, China.

1597 Jayjun Cosmetic Co., Ltd. manufactures and sells various cosmetic products in South Korea. The company offers facial care products, including mask pack, eigel patch, skincare, cleansing, and suncare products; makeup; collagen jelly and other relates products; skin cells, moisture moisturizing, whitening brightening, and sensitive calm moisture

care products; nutritional elasticity and antiaging nutritional care products; and trouble and UV protection care products. It serves its products in China, the Southeast Asia, the Americas, and Europe. The company was formerly known as Jayjun Co., Ltd. and changed its name to Jayjun Cosmetic Co., Ltd. Jayjun Cosmetic Co., Ltd. was founded in 1972 and is headquartered in Incheon, South Korea.

1598 JCET Group Co., Ltd. provides integratedcircuit manufacturing and technology services worldwide. The company offers wafer level packaging, systeminpackaging, flip chip, and wire bonding products for various semiconductor applications, such as mobile, communication, compute, consumer, automotive, industry, etc. It also provides design and characterization, research and development, wafer probe, water bump, package assembly, shipment, and test services. The company was formerly known as Jiangsu Changjiang Electronics Technology Co., Ltd. and changed its name to JCET Group Co., Ltd. in November 2019. JCET Group Co., Ltd. was founded in 1972 and is based in Jiangyin, China.

1599 JCHX Mining Management Co.,Ltd. engages in mine engineering, development, and construction activities in the Peopleâ€™s Republic of China and internationally. It is also involved in contract mining activities; and the research and development of nonferrous, ferrous, and chemical industries. JCHX Mining Management Co.,Ltd. was incorporated in 1997 and is based in Beijing, China.

1600 Jeju Semiconductor Corp. provides memory semiconductor solutions worldwide. The company offers multi chip package (MCP) products, such as NAND MCP/eMCP and NOR MCP; low power and commodity DRAM products; OctaRAM and CellularRAM/pSRAM products; and parallel and serial Nand flash, and eMMC products. It serves automotive, IoT, network, mobile, and consumer markets. The company was founded in 2000 and is headquartered in Jeju, South Korea.

1601 Jenoptik AG engages in the optics and photonics business in Germany and internationally. The company operates through Light & Optics, Light & Production, and Light & Safety divisions. It offers imaging solutions and cameras, including microscope and thermographic camera, imaging modules, polymerbased camera modules, and digital microscope subsystem; laser and laser technology, such as laser ablation, scoring, cutting, welding, and distance meters and sensors, as well as laser OEM solutions comprising diode laser and disk laser technology, diode pumped disk lasers, laser systems, and LK heat sink; and optical modules and components for light detection and ranging sensors. The company also provides optics and optical systems, including objective lenses for laser material processing, system partner for optics, customized and standardized objective lenses, optical measuring systems, and precision optical components; optical shaft measuring systems, optical 3D measurement technology, optical inline inspection, visionsystems, and ultrafast optoelectronic probe card; and optoelectronics and optoelectronic systems comprising system partner for optoelectronic systems, customizedspecific optoelectronic systems, optoelectronics assemblies and subsystems, light modulation, and photodiodes and LEDs. In addition, it offers road safety solutions, such as speed enforcement, average speed cameras, red light cameras, evaluation software, and traffic services; and civil security solutions, including automatic number plate recognition and data analysis software, border security, combating organized crime, protecting public places, and monitoring suspect vehicles. The company serves automotive, defense and security, electronics and information technology, healthcare and life science, industry and mechanical engineering, semiconductor equipment, and public safety sectors. Jenoptik AG was founded in 1846 and is headquartered in Jena, Germany.

1602 JEP Holdings Ltd., an investment holding company, engages in the precision machining, equipment manufacturing, and trading and other businesses in Singapore, the People's Republic of China, Malaysia, the United States, Canada, and internationally. Its Precision Machining segment provides precision machining services for aerospace, oil and gas, electronics, and automotive industries. The company's Trading and Other segment sells machines; and offers customized cutting tools. Its Equipment Manufacturing segment provides large format precision engineering and equipment fabrication services. JEP Holdings Ltd. also manufactures, imports and exports, trades in, and repairs precision machineries, carbide cutting tools, hardware, and industrial equipment, as well as undertakes engineering works. The company was formerly known as Alantac Technology Ltd. and changed its name to JEP Holdings Ltd. in May 2010. JEP Holdings Ltd. was incorporated in 1994 and is headquartered in Singapore. JEP Holdings Ltd. is a subsidiary of UMS Holdings Limited.

1603 Jeudan A/S operates as a real estate and services company in Denmark. It invests in and develops, leases, and operates office, residential, and retail properties. The company also provides project and construction management; engineering, architecture, and design assistants; renovation and maintenance of leases and properties; work environment and energy advice; and operation and maintenance tasks, as well as emergency tasks within carpentry, joinery, masonry, painting, construction, plumbing, sewer, ventilation, electricity, security, glazier, and lock services. In addition, it offers interior cleaning of leases, stairwells, and other common areas; technical management of installations; snow removal and slippery control; guard patrol; office cleaning; conference rooms; craft and plant; and interior design, planning, and remodeling services, as well as car parking services. The company was founded in 1898 and is based in Copenhagen, Denmark.

1604 JFE Holdings, Inc., through its subsidiaries, engages in steel, engineering, and trading businesses in Japan and internationally. Its Steel segment produces and sells various steel products, processed steel products, and raw materials, as well as operates in the transportation, facility maintenance, and construction businesses. The company's Engineering segment engages in the engineering of energy, urban environment, steel structures and industrial machinery, recycling, and electricity retailing projects. Its Trading segment purchases, processes, and distributes steel products, raw materials for steel production, nonferrous metal products, food, etc. The company was incorporated in 2002 and is headquartered in Tokyo, Japan.

1605 Ji Yao Holding Group Co., Ltd. engages in the research and development, production, and wholesale of pharmaceutical products. It offers Chinese and western medicines in the areas of pediatrics, cough, gynecology, cardiovascular, antiviral, urology, anti-inflammatory, gastrointestinal, tonic, and rheumatology diseases. Ji Yao Holding Group Co., Ltd. was founded in 2000 and is headquartered in Meihou, China.

1606 Jia Yao Holdings Limited, an investment holding company, designs, manufactures, prints, and sells paper cigarette and social product paper packages in the People's Republic of China. The company operates through: Paper Cigarette Packages, Social Product Paper Packages, Electronic Cigarettes, and Trading Goods segments. It offers paper cigarette packages, including hard and soft cigarette packets; cigarette cartons; and gift sets to pack and carry various sets of cigarette packets. The company also provides social product paper packages, such as colored boxes, labels, gift sets, and paper bags for packaging drugs and medicines, liquor and alcoholic beverages, and food and other social products. In addition, it engages in the trading of goods, which includes mainboards for cell phones; and technology research and development,

production, and sale of ecigarettes, ecigarettes vaping devices, and other electronic products. The company was formerly known as Tourism International Holdings Limited and changed its name to Jia Yao Holdings Limited in July 2019. Jia Yao Holdings Limited was founded in 1992 and is headquartered in Yichang, the People's Republic of China.

1607 JiaChen Holding Group Limited, an investment holding company, manufactures and sells access flooring products and provides related installation services in the People's Republic of China, Hong Kong, and internationally. It operates through Steel Access Flooring Plates and CalciumSulfate Access Flooring Plates segments. The company offers steel and calcium sulfate access flooring plates for use in office buildings, industrial office buildings, data centers, classrooms, libraries, etc. It also exports its products to Thailand, Malaysia, Taiwan, and Singapore. JiaChen Holding Group Limited was founded in 1991 and is headquartered in Changzhou, the People's Republic of China.

1608 Jiangsu Akcome Science and Technology Co., Ltd. manufactures photovoltaic solar accessories in the People's Republic of China. It also operates photovoltaic power stations. Jiangsu Akcome Science and Technology Co., Ltd. was founded in 2006 and is headquartered in Zhangjiagang, the People's Republic of China.

1609 Jiangsu Amer New Material Co., Ltd. produces and sells glass fiber yarn, fabrics, and FRP products in China. It offers corner protection and walls, warp knitting, fiber tapes, yarns, plaids, glass fiber mesh fabrics, drywall joint tapes, nonalkali glass fiber wheel and cloth, high silica mesh and plain cloth, nonalkali glass fiber, high silica satin cloth and chopped strands, alkalifree glass fiber yarns, aluminum water filter fabric, FRP rectangular and square tubes, FRP rods and channels, FRP round tubes, grating, profile, general, FRP vertical tank/horizontal, FRP reactor and storage tanks, wind power, FRP smoke exhaust inner tube, fiberglass desulfurization, FRP composite and small storage tank, and FRP smoke towers under the Ding brand. The company also exports its products to approximately 50 countries, including North America, Europe, Southeast Asia, Japan, and South Korea. The company was formerly known as Jiangsu Jiuding New Material Co., Ltd. and changed its name to Jiangsu Amer New Material Co., Ltd. in October 2021. Jiangsu Amer New Material Co., Ltd. was founded in 1994 and is based in Rugao, China.

1610 Jiangsu Azure Corporation engages in lithium battery, LED chips, and metal logistics and distribution businesses in China. It is involved in the research and development, production, and sale of lithium battery products that are used in small power systems, electric bicycles/motorcycles, cleaning appliances, portable energy storage, and other products. The company also engages in the research and development, and manufacture of LED epitaxial wafers and chips. In addition, it engages in the warehousing, sorting, nesting, packaging, distribution, and processing of steel and aluminum plates, as well as provides supply chain management services. The company was formerly known as Jiangsu Aucksun Co., Ltd. Jiangsu Azure Corporation is based in Zhangjiagang, China.

1611 Jiangsu Baoli International Investment Co., Ltd. engages in research and development, production, and sale of asphalt and other road materials in China. It offers generalpurpose SBS modified, SBR modified, EVA modified, PE modified, ordinary emulsified, modified emulsified, highspeed railway special emulsified, high viscosity modified, high elastic modified, waste rubber and plastic modified, epoxy modified, road petroleum, highstrength structural, colored, and other asphalt products. The company also provides forest escort and emergency rescue services; and rents and sells aircrafts. Its products are used in expressways, high speed railways, highways, bridges, municipal roads, airport runways,

bridges, and ships. The company was formerly known as Jiangsu Baoli Asphalt Co., Ltd. and changed its name to Jiangsu Baoli International Investment Co., Ltd. in June 2015. Jiangsu Baoli International Investment Co., Ltd. is based in Jiangyin, China.

1612 Jiangsu Boamax Technologies Group Co., Ltd. researches, develops, designs, manufactures, and sells industrial equipment. It provides general contracting services for the development, design, procurement, and construction of photovoltaic power generation projects; replacement stations for heavy trucks; and integrated energy project to distribute energy, as well as high voltage electrode boilers and heat storage tanks. The company also offers rubber cutting robots, agricultural insurance UAV, and wet process equipment; and precision sheet metal structural parts, air detection equipment, and water treatment equipment. In addition, it engages in the sheet metal business. The company was formerly known as Suzhou Boamax Technologies Group Co., Ltd. Jiangsu Boamax Technologies Group Co., Ltd. was founded in 2001 and is based in Suzhou, China.

1613 Jiangsu ChengXing PhosphChemicals Co., Ltd. produces and sells fine phosphorous chemicals in China. Its products include yellow phosphorus, phosphoric acid, and phosphate. The company also offers dental, food, pharmaceutical, and technical grades phosphorous chemicals, such as dicalcium phosphate, dipotassium phosphate, disodium dihydrogen pyrophosphate, calcium hydrogen phosphate, disodium phosphate dihydrate, monosodium phosphate monohydrate, phosphoric acid, potassium pyrophosphate, sodium hexametaphosphate, sodium pyrophosphate, sodium tripolyphosphate, tricalcium phosphate, and trisodium phosphate. It also provides petrochemical products. Jiangsu ChengXing PhosphChemicals Co., Ltd. was founded in 1984 and is headquartered in Jiangyin, China.

1614 Jiangsu Hoperun Software Co., Ltd. provides financial technology and the Internet of Things solutions in China, Japan, Southeast Asia, North America, and internationally. The company offers chips, hardware, software, and application platforms. It provides financial software solutions for IT, banking, insurance, and testing sectors; and Internet of Things solutions, including smart home and retail, smart IoT, and cloud computing. Jiangsu Hoperun Software Co., Ltd. was founded in 2006 and is based in Nanjing, China.

1615 Jiangsu JIXIN Wind Energy Technology Co., Ltd. engages in the research, development, production, and sale of wind turbine castings. It offers hubs, rotor shafts, pitch bearings, gear boxes, bearing housings, and main frames for the use in wind turbines. The company was founded in 2003 and is based in Jiangyin, China.

1616 Jiangsu Leike Defense Technology Co., Ltd. researches, develops, manufactures, and sells satellite applications, radar systems, intelligent control, secure storage, intelligent networking, and other products. The company offers remote sensing observation radar series, area surveillance radar series, safety monitoring radar series, car radars, signal processing series, and radar simulation test verification series; and smart ammunition products. It also provides multifrequency satellite navigation baseband processing chips, signal processing chips, satellite navigation modules, special satellite navigation terminals, civil satellite navigation terminals, and satellite navigation simulators; storage disks, storage devices, and storage systems; and intelligent roadside perception systems and advanced driving assistance systems. The company was formerly known as Jiangsu Changfa Refrigeration Co., Ltd. and changed its name to Jiangsu Leike Defense Technology Co., Ltd. in November 2015. Jiangsu Leike Defense Technology Co., Ltd. was founded in 2002 and is based in Beijing, China.

1617 Jiangsu Lianyungang Port Co., Ltd. engages in the port operations in China. It is involved in the transportation of iron ore, coal, nonferrous ore, laterite nickel ore, steel, plywood, machinery and equipment, grain, alumina, coke, etc.; leasing and maintenance of facilities and equipment; manufacturing, installation, maintenance, and repair of mechanical and electrical equipment; and manufacture and sale of tool rigging. The company also offers facilities and services for passengers on and off ships; and port cargo loading and unloading, warehousing, general freight, bulk packaging, stockpiling, and port management services. It owns 28 general and specialized berths. The company was founded in 2001 and is based in Lianyungang, China. Jiangsu Lianyungang Port Co., Ltd. is a subsidiary of Lianyungang Port Group Co., Ltd.

1618 Jiangsu Nonghua Intelligent Agriculture Technology Co.ltd, a power equipment company, researches, develops, produces, and sells agricultural machinery. The company's agricultural machinery includes fullfeed harvesters, rice transplanters, and wheel tractors. It also provides singlecylinder diesel engines; multicylinder diesel engines, such as two, three, and four cylinder diesel engines; and gasoline engines, as well as various parts and components. In addition, the company offers forestry equipment comprising lawn mowers and washing machines; and water pump units and generator sets. It exports its products to Southeast Asia, the Middle East, Africa, South America, North America, and other regions. The company was formerly known as Jiangsu Jianghuai Engine Co., Ltd. and changed its name to Jiangsu Nonghua Intelligent Agriculture Technology Co.ltd in June 2015. The company was founded in 1945 and is based in Yancheng, China.

1619 Jiangsu Phoenix Publishing & Media Corporation Limited engages in the editing, publishing, and distribution of books, newspapers, periodicals, electronic publications, and audiovisual products in China. The company also engages in the distribution of teaching materials and general books, and teaching equipment; and the cultural and commercial real estate operation and other businesses. In addition, it operates a chain of bookstores; and sells its products through ecommerce, direct sales, and other methods of distribution. Further, the company provides data related IT services, including computer room leasing, bandwidth operation, and cloud services to goverent and enterprises customers; film and television related production, distribution, and related services, as well as artist brokerage services; and teaching software, such as early childhood, basic, and vocational education, as well as virtual training software and network platform. Additionally, it engages in the research, development, and sale of educational apps; development and operation of mobile games; and agency operation of products of other mobile game companies. Jiangsu Phoenix Publishing & Media Corporation Limited was founded in 2011 and is headquartered in Nanjing, China.

1620 Jiangsu Rainbow Heavy Industries Co., Ltd. engages in equipment manufacturing, and energy conservation and enviroental protection businesses worldwide. It provides a range of material handling equipment, offshore wind power equipment, ship supporting equipment, car parking equipment, engineering vessels, and other related products. The company offers its cranes under the GEA brand. It also provides hazardous waste and medical waste treatment and disposal services, and sludge treatment and disposal services, as well as renewable energy thermal power, etc. The company was founded in 2003 and is based in Nantong, China.

1621 Jiangsu Sanfame Polyester Material Co.,Ltd. engages in the production and sale of bottlegrade polyester chips and PTA in China. It offers polyester fibers, including polyester staple fibers and polyester filaments for use in textile industry; bottlegrade polyester chips that

are used in soft drinks, dairy products, edible oils, condiments, alcohol, daily chemicals, electronic products, medical and pharmaceutical fields; and polyester films for use in packaging, printing, optoelectronics, and other applications. The company was founded in 1994 and is based in Jiangyin, China.

1622 Jiangsu Shentong Valve Co., Ltd. researches, develops, produces, and sells special valves in China and internationally. The company primarily offers butterfly valves, ball valves, gate valves, globe valves, check valves, special valves, etc. Its products are used in the fields of metallurgy, nuclear power, thermal power, coal chemical, petroleum and petrochemical, desalination, etc. The company was founded in 2001 and is based in Qidong, China.

1623 Jiangsu Skyray Instrument Co., Ltd. researches, develops, produces, and sells analytical and measuring instruments worldwide. The company primarily offers instruments in spectroscopy and chromatography fields. Its products are used in various applications, including jewelry, electronics, mineral metallurgy, coating thickness, toy safety, petroleum enviroent, building, food safety, archaeology, medicine, glass, alloy, and refractory. The company is headquartered in Kunshan, China.

1624 Jiangsu Tiau Lake Tourism Co.,Ltd. operates a tourism resort in China. Its resort has three sightseeing and leisure facilities with hotel and food facilities under the names of Tiau Lake Landscape Park Scenic Spot, Tiau Lake Nanshan Bamboo Sea Scenic Spot, and Tiau Lake Yushui Hot Spring. The company is based in Liyang, China.

1625 Jiangsu Wanlin Modern Logistics Co., Ltd. provides wood logistics and wood import agency services in China and internationally. It offers wood agency procurement logistics services; and shipping agency, customs clearance, inspection declaration, agency charter booking, insurance, freight forwarding services, etc., as well as port loading and unloading stockpiling logistics services; and warehousing and logistics services. The company also provides wood processing and logistics services; professional logistic information services; and wood drying, material fumigation, and recycled process waste reuse services. Jiangsu Wanlin Modern Logistics Co., Ltd. was founded in 2011 and is headquartered in Jingjiang, China.

1626 Jiangsu Yangnong Chemical Co., Ltd. engages in the research and development, production, and sale of pesticides in China. It also offers herbicides, fungicides, plant growth regulators, etc. The company also exports its products. Jiangsu Yangnong Chemical Co., Ltd. was founded in 1999 and is based in Yangzhou, China.

1627 Jiangsu Yoke Technology Co., Ltd. engages in the production and sale of electronic materials, liquefied natural gas (LNG) insulation boards, and flame retardants. The company offers semiconductor precursor materials/spinon insulating dielectric (SOD), electronic special gas, semiconductor material delivery system (LDS), photoresist, and silicon powder products. It also provides polyurethane flame retardants, foaming agents, catalysts and plastic flame retardants, polyurethane foams, and cryogenic composite energysaving thermal insulation materials. Jiangsu Yoke Technology Co., Ltd. was founded in 1997 and is based in Wuxi, China.

1628 Jiangsu Yueda Investment Co., Ltd., together with its subsidiaries, engages in the automobilereLATED and intelligent manufacturing business in China and internationally. The company manufactures selfloading and unloading garbage trucks, passenger cars, tractors, and agricultural machineries; garbage collection and transportation, cleaning and cleaning, and logistics and transportation equipment; and specialpurpose machine tools, generalpurpose machine tools, machining production lines, and machine tools. It also offers yarns and fabrics, as well as cotton

combed yarn under the Yueda brand. In addition, the company is involved in the road toll management; Thermoelectricity power generation; capital leasing; and Machine tool upgradation activities. Jiangsu Yueda Investment Co., Ltd. is based in Yancheng, China.

1629 Jiangsu Zhenjiang New Energy Equipment Co., Ltd. engages in the manufacture, processing, and sale of steel structural parts for energy power generation equipment in China. It offers wind power equipment, such as nacelle covers, rotor rooms, stators, and towers; and photovoltaic equipment products including fixed/adjustable and tracking photovoltaic brackets, which are primarily used for automobiles, wind power photovoltaic, railway, construction machinery, electronics, and other industries. The company was founded in 2004 and is based in Jiangyin, China.

1630 Jiangsu Zhongchao Holding Co., Ltd. manufactures and sells wires and cables in China. The company's products include power cables, wires and cables for electrical equipment, bare wires, flameretardant ultrahigh voltage crosslinked cables, aluminum alloy overhead lines, and computer cables. Its products are primarily used in the construction and reconstruction of urban and rural power grids. The company also exports its products to India, Vietnam, Australia, Oman, Sudan, Tanzania, Nigeria, Kenya, Sri Lanka, Mauritius, South Africa, Brazil, Cyprus, and other countries. The company was formerly known as Jiangsu Zhongchao Cable Corporation and changed its name to Jiangsu Zhongchao Holding Co., Ltd. in September 2015. Jiangsu Zhongchao Holding Co., Ltd. is based in Yixing, China.

1631 Jiangsu Zhongli Group Co., Ltd manufactures and sells cables and photovoltaic products in China and internationally. It provides power, wind, control, data, marine, mine, rail transit, photoelectric composite, electronic line of certification, automobile, board coaxial, communication, and aluminum alloy cables, as well as overhead conductors and steel core aluminum standard wires. The company also offers distribution, dielectric selfsupported fiber optic, feeder, and home segment cable products, as well as outdoor central beam tubed optical fiber and outdoor selfsupporting optical fiber cable products; polymer materials; solar products; and optical fiber and packaging products. In addition, it provides WLAN, smart grid, shipboard cable, highspeed railway cable, rail transit, new energy cable, and automobile cable solutions, as well as FTTX opticalfiber network integrated and solar roof solutions. Further, the company operates solar power stations. It serves communication, equipment manufacturing, rail transit, power, mining, ship and ocean engineering, and solar new energy industries. The company was formerly known as Zhongli Science and Technology Group Co., Ltd. and changed its name to Jiangsu Zhongli Group Co., Ltd. in February 2017. Jiangsu Zhongli Group Co., Ltd was founded in 1988 and is headquartered in Changshu, China.

1632 Jiangsu Zhongsheng Gaoke Enviroental Co., Ltd. research, develops, produces, and sells lubricants and greases in China. The company offers transformer oil, hydraulic oil, internal combustion engine oil, gear oil, metal processing oil, and special solvents, etc. Its products used in electric appliances, engineering machinery, industrial machinery, metallurgy and transportation and other fields. It also engages in ecoenviroental protection business includes planning, design, investment and development of equipment manufacturing, engineering construction, and operation management, and other integrated system solutions. The company was formerly known as Jiangsu Gaoke Petrochemical Co., Ltd and changed its name to Jiangsu Zhongsheng Gaoke Enviroental Co., Ltd. in June 2021. The company was founded in 1992 and is headquartered in Yixing, China.

1633 Jiangsu Zongyi Co.,LTD engages in the clean energy, advanced technology, and integrated finance businesses. It constructs and manages photovoltaic power stations in Czech Republic, Italy, the United States, Germany, Bulgaria, Romania, the Xinjiang region, Jiangsu, and other regions in China. The company also engages in the research and development, design, manufacture, marketing, and service of smart cards and related application technology, system integration, and handheld and selfservice terminal equipment; research and development of ultralowpower digitalanalog hybrid hearing aid chips and highend digital voice processing technology; and provision of digital hearing aid chips and solutions for hearing aids, other health industry groups, and consumer electronics headset manufacturers. In addition, it is involved in the equity investment activities. The company was founded in 1987 and is based in Nantong, China.

1634 Jiangxi Firstar Panel Technology Co.,Ltd. develops, produces, and sells various sight glass protective screens, touch screens, touch display modules, display devices, and relevant materials and modules in China and internationally. It also offers covers, touch panels, fingerprint identification modules, and precision components. The company was formerly known as Zhejiang Firstar Panel Technology Co., Ltd. Jiangxi Firstar Panel Technology Co.,Ltd. was founded in 2003 and is headquartered in Taizhou, China.

1635 Jiangxi Fushine Pharmaceutical Co., Ltd. engages in the research, development, manufacture, and sale of APIs and pharmaceutical intermediates in China and internationally. The company offers penicillin, carbapenem, and other products. It also provides contract research, development, and manufacturing services. The company was formerly known as Jingdezhen Fuxiang Pharmaceutical Co., Ltd and changed its name to Jiangxi Fushine Pharmaceutical Co., Ltd. in August 2012. Jiangxi Fushine Pharmaceutical Co., Ltd. was founded in 2002 and is based in Jingdezhen, China.

1636 Jiangxi Hongcheng Enviroent Co.,Ltd. engages in the production and supply of tap water in China. The company is also involved in the operation of sewage treatment plants and solid waste. In addition. it engages in the production and supply of natural gases, provision of engineering services, and other businesses. The company was formerly known as Jiangxi Hongcheng Waterworks Co.,Ltd. and changed its name to Jiangxi Hongcheng Enviroent Co., Ltd. in February 2021. The company was founded in 2001 and is based in Nanchang, China.

1637 Jiangxi Qixin Group Co., Ltd. provides architectural decoration design and construction services in China. It undertakes public buildings, such as stadiums, exhibition venues, general offices, highend hotels, bank headquarters, large hospitals, comprehensive schools, and hardcover residences; construction general contracting; interior decoration creative design and construction; building curtain wall construction; integrated solutions for the Internet of Things; and integrated solutions for healthy enviroent, as well as engineering design and construction, and aftersales service. The company was formerly known as Shenzhen Qixin Group Co., Ltd. and changed its name to Jiangxi Qixin Group Co., Ltd. in December 2021. Jiangxi Qixin Group Co., Ltd. was founded in 1995 and is headquartered in Shenzhen, China.

1638 Jiayou International Logistics Co.,Ltd, together with its subsidiaries, engages in the provision of domestic and international multimodal transportation, logistics infrastructure investment, and operation and supply chain trade. The company is involved in crossborder multimodal transportation, project and mining products logistics, bonded warehousing, and supply chain trade solutions. It has operations in

approximately 60 countries and regions in Asia, Europe, and North America. The company was founded in 2005 and is based in Beijing, China. 1639 Jiayu Holding Co., Ltd. focuses on providing energy-saving door and window curtain walls in China. The company offers door and window, and curtain wall products. It is also involved in the photovoltaic light and heat, intelligent equipment, photothermal, industrial park investment management, and retail businesses. The company was formerly known as Beijing JIAYU Door, Window and Curtain Wall Joint Stock Co., Ltd. The company is headquartered in Beijing, China.

1640 Jihua Group Corporation Limited manufactures and distributes military clothing products in China and internationally. The company offers military and industry uniform, professional tooling, branded clothing, special functional clothing, and supporting products; military rubber shoes, ordinary labor rubber shoes, protective functional rubber shoes, and rubber outsoles; and cotton yarns, cotton cloth products, cotton threads, knitted fabrics and garments, apparel products, dyed cloth products, canvas, etc. It also researches, develops, produces, and sells functional protective products and equipment, environmental protection filter materials, and other products; and operates a life service experience center that provides brand shopping, fashion sports and entertainment, tourism, vacation and leisure, and special catering services. In addition, the company offers medical protective products and services, such as medical protective clothing products, isolation gowns, KN95 masks, disposable medical surgical masks, sanitation and disinfection products, goggles, breathing masks, and medical gloves; and industrial protection products and services comprising helmets, personal accident prevention devices, body armors, radiation and fire protection clothing products, acid and alkali resistant clothing products, functional gloves, shoes and boots, etc. Jihua Group Corporation Limited was founded in 1927 and is based in Beijing, China.

1641 Jilin Chemical Fibre Stock Co., Ltd. produces and sells chemical fiber in China. The company offers biobased rayons, bamboo fibers, acrylic fibers, carbon fibers, chemical fiber pulps, and yarns. It also exports its products to approximately 30 countries and regions, including Asia, Europe, the United States, and Africa. The company was founded in 1960 and is based in Jilin, China.

1642 JILIN JINGUAN ELECTRIC Co., Ltd. engages in the research and development, design engineering, manufacture, construction, operation, and maintenance of power supply solutions for cities and communities in China. The company offers full gas insulated intelligent, semi gas insulated, and solid insulated ring main units, as well as outdoor ring main unit switching stations; fixed and movable high voltage switchgears; vacuum circuit breaker and column switch series medium voltage switchgears; box type substations; and fixed, drawer, and fixed partitioned low voltage switchgears. It also provides power cables and accessories, such as cold shrinkable crosslinked cable accessories, crosslinked cable silicone rubber GIS terminals, full cold shrinkable crosslinked cable silicone insulated joints and straight joints, and pull type cable plug terminals. In addition, the company offers grid systems, municipal engineering systems, energy and chemical systems, rail transit systems, and international cooperation solutions. JILIN JINGUAN ELECTRIC Co., Ltd. was founded in 2006 and is headquartered in Changchun, China.

1643 Jin Tong Ling Technology Group Co., Ltd. engages in the research, development, and sale of fluid machinery and compressors in China and internationally. The company's fluid machinery products include industrial fans, centrifugal and hydrogen fuel cell air compressors, small steam turbines, industrial boilers, slurry ice units, and supercritical carbon dioxide (CO₂) expanders. It also provides system

integration products for air system reconstruction, pressure air station, biomass gasification cogeneration, waste heat and gas cogeneration, cold and heat storage energy source, solar photothermal power island, hydrogen energy distributed energy, seawater ice maker, pressure power generation and ice making system, compressed air to energy storage power generation, geothermal power generation, and supercritical CO2 power generation. The company was formerly known as JiangSu Jin Tong Ling Fluid Machinery Technology Co., Ltd. And changed its name to Jin Tong Ling Technology Group Co., Ltd. in August 2019. Jin Tong Ling Technology Group Co., Ltd. was founded in 1993 and is headquartered in Nantong, China.

1644 Jinan Hightech Development Co., Ltd., together with its subsidiaries, engages in the investment, development, and operation of industrial parks and real estate in China. The company also engages in the exploration and development of precious metals comprising gold. In addition, it is involved in department store sales; property management; wholesale of metals and metal ores; development and promotion of mining technology; engineering and construction of gardens; equity investment; construction project quality inspection; agricultural machinery and equipment and car leasing; investment; business management consulting; and real estate consulting and leasing business. Further, the company engages in the sale of afforestation seedlings, urban greening seedlings, economic forests, and mixed materials, as well as building materials, wires, and cables; greening, landscaping, municipal, and building decoration engineering; and garden design and maintenance. Additionally, it provides technical development, consultation, and services for mining of mineral products; park management services; hotel management and accommodation services; investment consulting and management; and labor services. Jinan Hightech Development Co., Ltd. was founded in 1993 and is based in Jinan, China.

1645 Jinghua Pharmaceutical Group Co., Ltd. engages in the research and development, manufacture, and sale of APIs and pharmaceutical intermediates in China. Its primary products include Phenylbutazone, Primidone, Phenobarbital, Fluorouracil, Propylthiouracil, Piroxicam, and Flucytosine APIs. The company was formerly known as Nantong Jinghua Pharmaceutical Co., Ltd. Jinghua Pharmaceutical Group Co., Ltd. was founded in 1957 and is based in Nantong, China.

1646 Jinhai International Group Holdings Limited, an investment holding company, primarily provides manpower outsourcing and ancillary services to building and construction contractors in Singapore. It also provides dormitory services; information technology services; and construction ancillary services comprising warehousing, cleaning, and building maintenance works. The company was formerly known as Kakiko Group Limited and changed its name to Jinhai International Group Holdings Limited in October 2019. Jinhai International Group Holdings Limited was incorporated in 2017 and is headquartered in Sheung Wan, Hong Kong. Jinhai International Group Holdings Limited is a subsidiary of Full Fortune International Co., Ltd.

1647 Jinhui Shipping and Transportation Limited, an investment holding company, engages in ship chartering and owning activities worldwide. The company provides ship management and shipping agent services. As of December 31, 2021, it owned a fleet of 24 dry bulk vessels, which include 2 PostPanamax and 22 grab lifted Supramax. The company was founded in 1987 and is based in Hong Kong, Hong Kong. Jinhui Shipping and Transportation Limited operates as a subsidiary of Jinhui Holdings Company Limited.

1648 Jinke Property Group Co., Ltd. engages in the real estate development business in China. The company also provides intelligent service solutions to residential and commercial buildings, industrial

parks, public buildings, rail transit, colleges and universities, hospitals, cultural tourism attractions, enterprises, and institutions; invests and operates in science and technology sector; and offers commerce, cultural tourism, and health care services. In addition, it is involved in the construction of houses, municipal, and ecological garden, as well as decoration, door and window production activities; construction and management of hotels; investment, development, operation, and technical management of wind power projects; and financial services, such as equity funds, mergers and acquisition, securitization, and asset and wealth management. The company was formerly known as Chongqing Dongyuan Industrial Development Co., Ltd. and changed its name to Jinke Property Group Co., Ltd. in June 2011. Jinke Property Group Co., Ltd. was founded in 1994 and is based in Chongqing, China.

1649 Jinlong Machinery & Electronic Co., Ltd engages in the research, production, and sale of motors in China and internationally. The company provides micro, vibration motors, silicone plastic structural parts, cover glass, touch screens, and display modules, etc. It offers its products for use in wearable devices, smart phones, smart homes, automobiles, and other fields. The company was founded in 1993 and is based in Dongguan, China.

1650 Jinyuan EP Co., Ltd. engages in the cement, concrete, and environmental businesses. It offers cement, cement clinker and readymixed concrete; and cement kiln codisposal of hazardous solid waste, as well as rare metals recycling services. The company was formerly known as Jinyuan Cement Co., Ltd. and changed its name to Jinyuan EP Co., Ltd. in May 2018. Jinyuan EP Co., Ltd. was founded in 1992 and is headquartered in Hangzhou, China.

1651 Jinzhou Port Co., Ltd. operates the Jinzhou Port in Liaoning Province, China. Its port has 27 berths, including a 300,000ton oil berth, 100,000ton bulk cargo berths, and 100,000ton container specific berths. It provides oil products, chemicals, bulk cargo, general cargo loading and unloading, warehousing, transportation, service and bulk filling and packaging functions. The company handles oil, grain, building materials, metal ore, steel, coal, and containers. Jinzhou Port Co., Ltd. was founded in 1990 and is based in Jinzhou, China.

1652 Jizhong Energy Resources Co., Ltd. engages in the mining, production, processing, and wholesale of coal in China. The company operates through Coal Business, Electricity Business, Building Materials Business, Chemical Business, Trade Business, and Other segments. It also produces and sells cement, glass fiber, and related products; coke, PVC and related products; and electricity. In addition, the company engages in trading PVC products, chemicals, and building materials, as well as provides consulting services. It also exports its products. The company was founded in 1999 and is based in Xingtai, China.

1653 JM AB (publ) develops and sells housing and residential areas in the Nordic region. The company operates JM Residential Stockholm, JM Residential Sweden, JM International, JM Property Development, and JM Construction segments. It also engages in the acquisition of development properties; planning, preconstruction, production, and sale of residential units; development of rental units, residential care units, and commercial properties; and contract works primarily in the Greater Stockholm area. The company was incorporated in 1945 and is headquartered in Solna, Sweden.

1654 John Keells Holdings PLC operates in the transportation, consumer foods, retail, leisure, property, and financial services businesses in Sri Lanka, rest of Asia, Europe, and internationally. Its Transportation segment provides ports and shipping, integrated logistics, and airline and aviation services; operates container terminal in the Port of

Colombo; and marine bunkering business, domestic airline, joint venture/associations with shipping, and logistics and air transportation multinationals, as well as travel and airline services. The company was founded in 1996 and is based in Seoul, South Korea.

1704 Keysight Technologies, Inc. provides electronic design and test solutions to commercial communications, networking, aerospace, defense and government, automotive, energy, semiconductor, electronic, and education industries in the Americas, Europe, and the Asia Pacific. Its Communications Solutions Group segment provides electronic design automation (EDA) software; radio frequency and microwave test solutions, and related software; hardware and virtual network test platforms and software applications, including data center, routing and switching, software defined networking, security, and encryption; oscilloscopes, logic and serial protocol analyzers, logic signal sources, arbitrary waveform generators, and bit error rate testers; and optical modulation analyzers, optical component analyzers, optical power meters, and optical laser source solutions, as well as resells refurbished used Keysight equipment. The company's Electronic Industrial Solutions Group segment offers design tools; design verification tools; and digital multimeters, function generators, frequency counters, data acquisition systems, audio analyzers, LCR meters, thermal imagers, source measure units, ultrahigh precision device current analyzers, and test executive software

platforms, as well as various power supplies comprising AC/DC modular supplies and electronically programmable loads. This segment also provides printedcircuitboardassembly testers, integrated circuit parametric testers, and subnanometer positioning subassemblies; and test and measurement products and software. The company offers product support, technical support, and training and consulting services. It sells its products through direct sales force, distributors, resellers, and manufacturer's representatives. Keysight Technologies, Inc. was founded in 1939 and is headquartered in Santa Rosa, California.

1705 KG Eco Technology Services Co., Ltd. produces and sells energy using waste in South Korea. It offers copper oxide, an electroplating grade solution used for the plating of printed circuit boards and catalysis; copper sulfate pentahydrate for electroplating, chemical plating, electronic materials, chemical reagent, and other solutions; copper oxide, an industrial grade solution used as an additive or catalyst in the production of copper compounds; copper carbonate basic, an industrial solution for wood preservation, plating, catalysis, and others; and tungsten oxide, a powder used for hard metal tools and tungsten alloys in the munitions industry. The company also provides general and harmful industrial waste treatment, wastewater treatment, and scrap metal recycling services, as well as collects and transports general wastes, classified wastes, and wastewater to treatment or final treatment plants. In addition, it produces biofuel oils for power generation; and produces and supplies steam renewable energy from waste heat. The company was founded in 1999 and is based in Siheungsi, South Korea.

1706 KG Mobilians Co., Ltd provides electronic payment services. It develops and supplies system software; and provides online courses, textbook, and elearning and collective training services, as well as operate schools. The company was formerly known as Mobilians Co., Ltd and changed its name to KG Mobilians Co., Ltd in April 2012. KG Mobilians Co., Ltd was founded in 2000 and is headquartered in Seoul, South Korea.

1707 KH Construction Co., Ltd provides construction services. The company was founded in 2004 and is based in Seoul, South Korea.

1708 KH Electron Co.,Ltd produces and sells devices for earphones and headphones in South Korea. The company was formerly known as Sambon Electronics Co.,Ltd and changed its name to KH Electron Co.,Ltd in March 2021. KH Electron Co.,Ltd was founded in 1988 and is based in Bucheonsi, South Korea.

1709 KH Feelux Co., Ltd. engages in the research, design, engineering, manufacturing, and sale of electronic ballast and lighting systems in Asia, Europe, and North America. It offers FLX, FLXible, AC, MonoRail, FLT track system, Luxfeel, and B2C collection products, as well as dimming systems for use in hotels, department stores, restaurants, offices, residences, schools, leisure clubs, stage sets, retail areas, etc. The company was formerly known as Feelux Co., Ltd and changed its name to KH Feelux Co., Ltd. in March 2021. KH Feelux Co., Ltd. was founded in 1975 and is headquartered in Yangju, South Korea.

1710 Kinder Morgan, Inc. operates as an energy infrastructure company in North America. The company operates through four segments: Natural Gas Pipelines, Products Pipelines, Terminals, and CO2. The Natural Gas Pipelines segment owns and operates interstate and intrastate natural gas pipeline, and underground storage systems; natural gas gathering systems and natural gas processing and treating facilities; natural gas liquids fractionation facilities and transportation systems; and liquefied natural gas gasification, liquefaction, and storage facilities. The Products Pipelines segment owns and operates refined petroleum products, and crude oil and condensate pipelines; and associated product terminals

and petroleum pipeline transmix facilities. The Terminals segment owns and/or operates liquids and bulk terminals that stores and handles various commodities, including gasoline, diesel fuel, renewable fuel stock, chemicals, ethanol, metals, and petroleum coke; and owns tankers. The CO2 segment produces, transports, and markets CO2 to recovery and production crude oil from mature oil fields; owns interests in/or operates oil fields and gasoline processing plants; and operates a crude oil pipeline system in West Texas, as well as owns and operates RNG and LNG facilities. It owns and operates approximately 83,000 miles of pipelines and 140 terminals. The company was formerly known as Kinder Morgan Holdco LLC and changed its name to Kinder Morgan, Inc. in February 2011. Kinder Morgan, Inc. was founded in 1936 and is headquartered in Houston, Texas.

1711 King Stone Energy Group Limited, an investment holding company, engages in oil and gas and financing businesses in Hong Kong, the United States, and Mainland China. It operates through seven segments: Silver Mining, Oil and Gas, Asset Financing, LNG, Tourism, Photovoltaic, and Trading. The company explores for, drills, produces, and sells oil and natural gas in the United States. It is also involved in mining and selling silver; the provision of finance leasing and factoring services; the trading of liquefied natural gas; provision of tourism agency services in the People's Republic of China; and operation of photovoltaic power generation project with a power generation capacity of 4.085 megawatts located in Hebei Province, the People's Republic of China. In addition, the company owns and operates the Fuâ€™an Silver mine covering an area of 2.1 square kilometers located in Fuâ€™an City; and the Zherong Silver mine covering an area of 4.97 square kilometers located in Zherong County, the People's Republic of China. Further it trades in commodities, such as medical supplies, wood, and metals in Hong Kong. The company was formerly known as Yun Sky Chemical (International) Holdings Limited and changed its name to King Stone Energy Group Limited in February 2010. King Stone Energy Group Limited was incorporated in 1981 and is based in Central, Hong Kong.

1712 Kingdee International Software Group Company Limited, an investment holding company, engages in the enterprise resource planning business. The company operates through ERP Business and Others, Cloud Services Business, and Investment Properties Operating Business segments. The ERP Business and Others segment sells software and hardware products; and provides software solution consulting, maintenance, upgrade, and other supporting services, as well as software implementation services. The Cloud Services Business segment provides enterprise, finance, industry, and other cloud services. The Investment Properties Operating Business segment invests in properties. The company also designs, develops, manufactures, and sells software and hardware products; provides software related and online financial services; and develops Internet and online pay technologies. It serves enterprises, government agencies, and other organizations worldwide. The company was founded in 1993 and is headquartered in Shenzhen, the People's Republic of China.

1713 Kingkey Intelligence Culture Holdings Limited, an investment holding company, provides recruitment advertising services in Hong Kong. It operates through two segments, Advertising; and Sales Of Medical and Health Products. The Advertising segment provides advertisement services on various publications and magazines, and other advertising media products. The Sales of Medical and Health Products segment sells various types of medical and health products, including reagents for health checks. The company also provides tutoring and education, publishing and investment trading, and website development and information technology services. The company was formerly known as KK Culture Holdings Limited

and changed its name to Kingkey Intelligence Culture Holdings Limited in August 2021. Kingkey Intelligence Culture Holdings Limited was founded in 1992 and is headquartered in Wan Chai, Hong Kong.

1714 Kingland Technology Co.,Ltd. provides solutions for the ecological enviroent in China. It operates through Ecological Water Saving Operation Service Business; Garden Enviroent Technology Service Business; Soil Remediation Operation Services Business; and Others segments. The company is involved in provision of enviroental remediation and restoration engineering services; solid waste enviroental pollution control and operation; river basin and farmland soil enviroent comprehensive treatment; mine ecological enviroent management; desertification control; and other enviroental restoration business. It also engages in water ecological restoration, irrigation area watersaving integrated system engineering, sewage treatment, riverside ecological landscape engineering, smart water affairs, etc; and garden engineering construction and landscape design, as well as provides landscape design, engineering construction, and nursery stock maintenance management services for various municipal, real estate landscape, leisure and vacation, ecological wetland, and other garden projects. In addition, the company develops and sells network equipment, computer software and hardware, communication products, electronic products, and digital products. The company was formerly known as Heilongjiang Kingland Technology Co., Ltd. and changed its name to Kingland Technology Co.,Ltd. in July 2016. Kingland Technology Co.,Ltd. was founded in 1993 and is headquartered in Beijing, China.

1715 Kingsignal Technology Co., Ltd. researches and develops, produces, and markets standard voice signal cables, connectors, components, and accessories in the Peopleâ€™s Republic of China and internationally. It offers RF cables, including semirigid and flexible, military standard RG series, corrugated coaxial, KSR and FLL low loss, micro coaxial, MS2 low loss, tricoaxial, CATV coaxial, test, multiple core coaxial, and stable cables, as well as commercial wires; and RF connectors, such as DIN, N, TNC, BMA, SMA, SMK, APC3.5, SMC, SAA, SSMA, etc. The company also provides circular electrical connectors, micro rectangular electrical connectors, and power cables; optical transceivers, assemblies, cables, and passive connectors; LAN cables and jumpers, and multipair cables; circuit boards; and chip modules. Its products are used in the rail transit, new energy, industrial automation, and medical wiring harness industries. Kingsignal Technology Co., Ltd. was founded in 2002 and is headquartered in Shenzhen, the Peopleâ€™s Republic of China.

1716 Kingsoft Corporation Limited, an investment holding company, engages in the design, research and development, sale, and marketing of the office software products and services of WPS Office in Mainland China, Hong Kong, and internationally. It operates in two segments, Office Software and Services, and Entertaient Software and Others. The company is also involved in the research and development of games, and the provision of PC games and mobile games services. In addition, it engages in the research, development, operation, and distribution of games; marketing and operation of SMS, and wireless service of online games and application software; sale and operation of office application software; marketing and operation of entertaient software products; and research, development, and distribution of consumer application software. The company was founded in 1988 and is headquartered in Tsim Sha Tsui, Hong Kong.

1717 Kingworld Medicines Group Limited, an investment holding company, distributes branded imported pharmaceutical and healthcare products. The company also supplies pharmaceutical, healthcare, general foodstuffs, and medical products. It offers products for various functional categories,

such as cough and phlegm relieving, gastrointestinal, vitamin, orthopedics, cardiovascular, influenza, and other categories under the Nin Jiom Chuan Bei Pei Pa Koa, Taiko Seirogan, Kawai Product Range, Flying Eagle Wood Lok Medicated Oil, Kyushin Pill, and Mentholatum Product Range brands. The company also manufactures and sells electrotherapeutic and physiotherapeutic devices, and general medical examination devices. It serves in the People's Republic of China, Hong Kong, the United States, the United Kingdom, Germany, Italy, Spain, Mexico, and internationally. The company was founded in 1996 and is headquartered in Shenzhen, the People's Republic of China.

1718 Kinross Gold Corporation, together with its subsidiaries, engages in the acquisition, exploration, and development of gold properties principally in the United States, Brazil, Chile, and Mauritania. It is also involved in the extraction and processing of gold-containing ores; reclamation of gold mining properties; and production and sale of silver. Kinross Gold Corporation was founded in 1993 and is headquartered in Toronto, Canada.

1719 KION GROUP AG provides industrial trucks and supply chain solutions worldwide. The company operates through Industrial Trucks & Services, and Supply Chain Solutions segments. It offers forklift trucks, counterbalance trucks with electric drive and internal combustion engine, ride-on and hand-operated warehouse trucks, and towing vehicles under the Linde, Fenwick, STILL, Baoli, and OM brand names. The company also manufactures and sells spare parts; leases industrial trucks and related items; and offers maintenance and repair, and fleet management services, as well as provides finance solutions. In addition, it provides integrated technology and software solutions, including conveyors, sorters, storage and retrieval systems, picking equipment, palletizers, and automated guided vehicle systems under the Dematic brand. The company was formerly known as KION Holding 1 GmbH. KION GROUP AG was founded in 2006 and is based in Frankfurt am Main, Germany.

1720 Kirby Corporation operates domestic tank barges in the United States. Its Marine Transportation segment provides marine transportation service and towing vessel transporting bulk liquid product, as well as operates tank barge throughout the Mississippi River System, on the Gulf Intracoastal Waterway, coastwise along three United States coasts, and in Alaska and Hawaii. It also transports petrochemicals, black oils, refined petroleum products, and agricultural chemicals by tank barges; and operates offshore drybulk barges and tugboat units that are engaged in the offshore transportation of drybulk cargoes in the United States coastal trade. As of December 31, 2022, it owned and operated 1,037 inland tank barge, approximately 277 inland towboat, 29 coastal tank barge, 27 coastal tugboat, 4 offshore drybulk cargo barge, 4 offshore tugboat, and 1 docking tugboat. Its Distribution and Services segment sells aftermarket service and genuine replacement parts for engines, transmissions, reduction gears, electric motors, drives, and controls, electrical distribution and control systems, energy storage battery systems, and related oilfield service equipment; rebuilds component parts or diesel engines, transmissions and reduction gears, and related equipment used in oilfield services, marine, power generation, on-highway, and other industrial applications; rents generators, industrial compressors, high capacity lift trucks, and refrigeration trailers; and manufactures and remanufactures oilfield service equipment, including pressure pumping units, as well as manufacturers electric power generation equipment, specialized electrical distribution and control equipment, and high capacity energy storage/battery systems. It serves to various companies and the United States government. The company was formerly known as Kirby Exploration Company, Inc. and changed its name to

Kirby Corporation in 1990. Kirby Corporation was founded in 1921 and is headquartered in Houston, Texas.

1721 KLA Corporation designs, manufactures, and markets process control, process enabling, and yield management solutions for the semiconductor and related electronics industries worldwide. It operates through four segments: Semiconductor Process Control; Specialty Semiconductor Process; PCB, Display and Component Inspection; and Other. The company offers integrated circuit (IC) manufacturing products that comprises wafer inspection and review, and metrology; wafer and substrate defect inspection and metrology; reticle defect inspection and metrology; chemical/materials quality analysis; in situ process management and wafer handling diagnostics for IC and original equipment manufacturer (OEM) manufacturing; software products to provide runtime process control, defect excursion identification, process corrections, and defect classification; and refurbished and remanufactured products. It also provides specialty semiconductor manufacturing, benchtop metrology, surface characterization, and electrical property measurement services for general purpose/ lab applications; etch, plasma dicing, deposition, and other wafer processing technologies and solutions for the semiconductor and microelectronics industry. In addition, the company offers direct imaging, inspection, optical shaping, additive printing, and computeraided manufacturing and engineering solutions for the PCB market; inspection and electrical testing systems to identify and classify defects, as well as systems to repair defects for the display market; and inspection and metrology systems for quality control and yield improvement in advanced and traditional semiconductor packaging markets. The company was formerly known as KLA-Tencor Corporation and changed its name to KLA Corporation in July 2019. KLA Corporation was incorporated in 1975 and is headquartered in Milpitas, California.

1722 Klépierre is the European leader in shopping malls, combining property development and asset management skills. The Company's portfolio is valued at €20.6 billion at June 30, 2022, and comprises large shopping centers in more than 10 countries in Continental Europe which together host hundreds of millions of visitors per year. Klépierre holds a controlling stake in Steen & Ström (56.1%), Scandinavia's number one shopping center owner and manager. Klépierre is a French REIT (SIIC) listed on Euronext Paris and is included in the CAC Next 20 and EPRA Euro Zone Indexes. It is also included in ethical indexes, such as MSCI Europe ESG Leaders, FTSE4Good, Euronext Vigeo Europe 120, and features in CDP's "A-list". These distinctions underscore the Group's commitment to a proactive sustainable development policy and its global leadership in the fight against climate change.

1723 KMD Brands Limited, together with its subsidiaries, designs, markets, wholesales, and retails apparel, footwear, and equipment for surfing and the outdoors under the Kathmandu, Rip Curl, and Oboz brands in New Zealand, Australia, North America, Europe, Southeast Asia, and Brazil. The company was formerly known as Kathmandu Holdings Limited and changed its name to KMD Brands Limited in March 2022. KMD Brands Limited was founded in 1987 and is based in Christchurch, New Zealand.

1724 K Group Berhad provides project management, engineering, manufacturing, and maintenance services in Asia, Oceania, Europe, and America. The company manufactures process equipment and modular systems; provides EPCC and integrated solutions for downstream oil, gas and petrochemical plants, renewable energy, power and utilities, and infrastructures and buildings; and offers repairs, modification, inspection, maintenance, assembly, trouble shooting, and spare parts supply services. Its products include quench coolers, scraped surface exchangers, process gas waste heat recovery systems, process and pressure

vessels, membrane technology systems, heat transfer equipment, sour gas and sulfur technology, compression systems, process skid packages and modules, and fired and heat recovery boilers. The company also provides storage facilities, such as horizontal mounded bullets, storage tanks, process tanks, spheres, silos, and hoppers; and industrial and power plant services. In addition, it offers management, technical advisory, license and trademark, funding and treasury, nondestructive testing, project management and technical, financing, marketing, business development, consultancy, turnkey, administration, system engineering, industrial fabrication, and assembly services; designs, engineers, constructs, commissions, and operates waste to energy plants; constructs compressors, containers, silo, and conveyor technique; and provides machines, assets, apparatuses, and miscellaneous components. Further, the company offers air cooled, shell and tube, and heavy duty heat exchangers, columns, towers, reactors, and other pressure vessels; alcohol/ethanol or fuel; fully welded plate type heat exchanger plates, bundle exchangers, and jacketed pressure vessels; process technology for the biofuels and seeds extraction plants; and invests in renewable energy industries. The company was founded in 1990 and is based in Seri Kembangan, Malaysia.

1725 KNOTUS Co.,Ltd provides various test services. It offers platform technology services, such as cellenzymebased screening, xenograft assay, mitogenic effect test, vaccine antigen, antibody titration, cytokine, MRNA expression, trachea relaxation assay, carrageenan, adjuvant induced paw edema, antipyretic, antipain test, isolated blood vessel screening, fibrin plate lysis screening, ferric chloride induced model, food diet induced model, gastric acid secretion, emesis model, MIC test, post antibody effect, enzyme assay, systemic, local infection model, PK study, chemical, transgenic animal, osteoblastlike cell line screening, bone formation marker, and biomarker. The company also provides pharmacokinetic/toxicology study, toxicology study, and biological drug; and toxic/clinical pathology services. The company is based in Guri, South Korea.

1726 Knowles Corporation offers microacoustic microphones and balanced armature speakers, audio solutions, high performance capacitors, and radio frequency products for the consumer electronics, medtech, defense, electric vehicle, industrial, and communications markets. It operates through three segments: Precision Devices (PD); Medtech & Specialty Audio (MSA); and Consumer MEMS Microphones (CMM). The PD segment is involved in the design and delivery of highperformance capacitor products, electromagnetic interference filters, and RF filtering solutions that are used in applications, such as defense, medtech, and electric vehicle, as well as for communications applications. The MSA segment designs and manufactures microphones and balanced armature speakers used in applications that serve the audio, hearing health, and True Wireless Stereo markets. The CMM segment designs and manufactures microelectromechanical systems (MEMS) microphones and audio solutions used in applications that serves the ear, Internet of Things, computing, and smartphones markets. The company sells its products directly to original equipment manufacturers and to their contract manufacturers and suppliers, as well as through sales representatives and distributors. It has operations in Asia, the United States, Europe, other Americas, and internationally. Knowles Corporation was founded in 1946 and is headquartered in Itasca, Illinois.

1727 K benhavn's Lufthavne A/S owns, develops, and operates Roskilde Airport at Roskilde and Copenhagen Airport at Kastrup in Denmark. The company offers infrastructure and air trafficrelated services, including route development, baggage systems, and security checks; operation and

development of technology, terminals, IT, shuttle buses, aircraft stands, and runways. It engages in the nonaeronautical business, which includes activities, such as parking, shops, food outlet in the terminals; hotel operation and leasing of premises, including buildings, premises, and land; and the provision of taxi management services, and consulting services concerning airport operation and other services. The company was incorporated in 1990 and is based in Kastrup, Denmark. København Lufthavne A/S is a subsidiary of Copenhagen Airports Denmark ApS.

1728 Kofola ČeskoSlovensko a.s., together with its subsidiaries, produces and distributes nonalcoholic beverages in the Czech Republic, Slovakia, Slovenia, Croatia, Poland, and internationally. It provides carbonated and noncarbonated beverages, water, syrups, jams, energy and isotonic drinks, fresh juices, fresh and salad bars, herbal teas, and coffee bean mixtures. The company offers its products primarily under the Kofola, Vinea, Radenska, Studenac, Korunná-, Rajec, Ondrářovka, Klášterská; Kalcia, Jupá-, Jupá-k, Semtex, UGO, Leros, Café Reserva, Trepallini, Rauch, Evian, Badoit, Vincentka, and Dilmah brand names, as well as under private labels for third parties, such as retail chains. It is also involved in the provision of road cargo transport services; trademark licensing business; marketing activities; and operation of a chain of fresh bars. The company was founded in 1887 is headquartered in Ostrava, the Czech Republic. Kofola ČeskoSlovensko a.s. is a subsidiary of AETOS a.s.

1729 Kogan.com Ltd operates as an online retailer in Australia. The company offers various brands across a range of categories, including electronics, appliances, homewares, hardware, toys, and others; and owns and operates 20 private label brands. It also provides prepaid mobile phone plans online; and directly sourced holiday packages and travel bookings. In addition, the company offers general insurances, including home, contents, landlord, car, and travel insurances, as well as pet and life insurance; NBN internet plans; and home loans. Further, it provides superannuation funds, credit cards, telecommunications services, and power and gas services, as well as trades in cars. The company provides its products under the company's brands, such as Kogan, Ovela, Fortis, Vostok, and Komodo, as well as products sourced from imported and domestic third party brands comprising Apple, Canon, Swann, and Samsung. The company was founded in 2006 and is based in Melbourne, Australia.

1730 "Kolmar BNH Co., Ltd. engages in the research and development of cosmetics, health functional foods, and functional ingredients in South Korea and internationally. It also provides vitamins and minerals, weight control, sports/nutrition, intestinal health, and other products, as well as products for men/women. The company was formerly known as Sun Bio Tech and changed its name to Kolmar BNH Co., Ltd. in 2013. The company was founded in 2004 and is based in Sejong, South Korea. Kolmar BNH Co., Ltd. is a subsidiary of Kolmar Korea Holdings Co., Ltd.

"

1731 Kolmar Korea Holdings Co., Ltd. manufactures and sells cosmetics, pharmaceuticals, and health functional foods in South Korea and internationally. It offers skin care, makeup, hair care, body care, and baby products, as well as functional cosmetics and perfumes. The company also provides quasidugs and health supplements. Kolmar Korea Holdings Co., Ltd. was founded in 1990 and is headquartered in Sejong City, South Korea.

1732 Komipharm International Co., Ltd. manufactures and sells veterinary vaccines, veterinary pharmaceuticals and disinfectants, and biofertilizers internationally. It also develops anticancer drugs and painrelieving agents, which include Kominox, an arsenicbased oral drug; and Panaphix, a nonnarcotic cancer pain reliever, as well as provides

clinical pathological experiment, test, and analysis services. The company was formerly known as Korea Microbiological Laboratories Co., Ltd. and changed its name to Komipharm International Co., Ltd. in September 2004. The company was founded in 1972 and is headquartered in Siheung, South Korea.

1733 Konecranes Plc manufactures, sells, and services lifting equipment. It operates through three segments: Service, Industrial Equipment, and Port Solutions. The company offers specialized maintenance services and spare parts for industrial cranes and hoists. In addition, it provides a range of industrial cranes for general manufacturing and various process industries, as well as involved in design and manufacture of crane components. Further, the company offers container, bulk, and shipyard handling equipment, as well as mobile harbor cranes, lift trucks. Additionally, it engages in port services comprising of retrofits, inspection, spare parts, training, and digital services. Furthermore, the company is involved in consulting and engineering, ecolifting, safety assist, servicing, and maintenance of ports, and cores for lifting. The company serves automotive, container handling, general manufacturing, intermodal, metal production, mining, nuclear, paper and forest, petroleum and gas, power, shipyards, waste to energy and biomass sectors. Konecranes Plc was founded in 1910 and is headquartered in Hyvinkää, Finland.

1734 Koninklijke KPN N.V. provides telecommunications and information technology (IT) services in the Netherlands. It operates through Consumer; Business; Wholesale; and Network, Operations & IT segments. The company offers fixed and mobile telephony, fixed and mobile broadband internet, and television services to retail and business consumers; infrastructure and network related IT solutions to business customers; and wholesale network services to third parties. It also provides IT services, includes connectivity, cloud, security, workspace, and cybersecurity services; interconnect traffic, visitor roaming, and digital products; and NLix, an interconnect exchange, as well as sells handsets and peripheral equipment, and software licenses. The company was founded in 1881 and is headquartered in Rotterdam, the Netherlands.

1735 Kontafarma China Holdings Limited, an investment holding company, engages in the manufacture and sale of prescription drugs and laboratory related products in Mainland China, Singapore, Taiwan, and the United States. The company operates in Pharmaceutical Business and Fitness Business segments. It also offers chemical drugs and prescribed traditional Chinese medicines; operates fitness centers; operates in the franchise business; and provides consultation services for fitness and health activities. The company trades in laboratory related products; researches and develops medical products; and offers corporate advisory services. As of December 31, 2021, it operated 12 fitness centers and 2 yoga center in Taiwan; and 10 fitness centers in Singapore. The company was formerly known as Tongfang Kontafarma Holdings Limited and changed its name to Kontafarma China Holdings Limited in September 2022. The company was founded in 1993 and is headquartered in Wan Chai, Hong Kong. Kontafarma China Holdings Limited is a subsidiary of China Health Management Investment Limited.

1736 Kontron AG engages in the development, implementation, and marketing of hardware and software solutions, and IT services. It operates through three segments: IT Services, IoT Solutions Europe, and IoT Solutions America. The company offers consulting, integration, and outsourcing services in the areas of workplace, data centers, cloud, and application support and development; and consults and sells thirdparty hardware and software products. It also develops hardware and software products and solutions for Internet of Things and Industry 4.0

applications, including the associated implementation and operating services for industrial automation, medical technology, rail infrastructure, communications, and smart energy markets. In addition, the company offers inflight entertainment systems, digital signage solutions for public transport, carriergrade servers for telecommunication companies, and autonomous driving solutions. It operates in Germany, Austria, North America, Hungary, Poland, Russia, Romania, Czech Republic, Slovenia, China, Croatia, France, Switzerland, Great Britain, Bulgaria, and internationally. The company was formerly known as S&T AG and changed its name to Kontron AG in June 2022. Kontron AG was founded in 1990 and is headquartered in Linz, Austria.

1737 Korea Aerospace Industries, Ltd. manufactures and sells fixed and rotary wing aircrafts, and airframe components in South Korea. The company develops supersonic jets; airfield controlled and basic trainer aircrafts; utility, medical, police, maritime police, coast guard, forestry, and firefighting helicopters; uanned air vehicles; light civil aircrafts; and aero structures. It also provides aircraft maintenance, repair, and overhaul services; aircraft training systems; and multipurpose satellites, as well as space launch vehicles. The company was founded in 1999 and is headquartered in Sacheon, South Korea.

1738 Korea Arlico Pharm Co.,Ltd. engages in the research and development, production, and sale of medicines in South Korea. The company provides ETC, OTC, health functional, and other products; and active ingredients. It offers products in the areas of circulatory system, antiplatelet, dementia, muscle relaxants, diabetes, nsoids and analgesics, antibiotic and chemotherapy, allergy and respiratory disease, ointment/cream, health functional food, vitamin and health supplements, antiinflammatory analgesic, digestive system, and metabolic disease. The company is based in Seoul, South Korea.

1739 Korea Business News Co., Ltd. engages in broadcasting, internet, media, and education businesses in South Korea and internationally. It operates Korea Economic TV that broadcasts securities economy related content; wownet.co.uk, a securities portal that offers economic securities professional content through Korea Economic TV; and wowfa.co.uk portal, which provides training in economics and finance. The company also provides securities economy content services utilizing data broadcasting, mobile, IPTV, smart TV, etc. In addition, it is involved in program and eventsupporting, and advertising/partnership businesses. The company was formerly known as Wow TV Ltd. and changed its name to Korea Business News Co., Ltd. in 2004. Korea Business News Co. was founded in 1999 and is based in Seoul, South Korea.

1740 Korea Cable T.V ChungBuk System Co., Ltd. provides digital cable TV, digital type TV, cable TV, data broadcasting, music broadcasting, regional broadcasting CH2, video on demand, ultrafast Internet, and Internet call services. The company was founded in 1997 and is based in Chungjusi, South Korea.

1741 Korea Electronic Certification Authority, Inc. provides digital certification services in the AsiaPacific region. The company offers Blockchain database solutions using the Ethereum platform; CloudSign, a digital signature service that authenticates the user when signing in online; and FIDO certified biometric authentication solutions. It also provides various types of certificates, which include Symantec, DigiCert, Thawte, GeoTrust, and Rapid SSL certificates. In addition, the company offers domain name services; and PKI and managed PKI based authentication services, as well as adaptive interactive cognitive reasoning engine services. Korea Electronic Certification Authority, Inc. was founded in 1999 and is based in Seoul, South Korea.

1742 Korea Information Certificate Authority, Inc. provides certification and authentication services worldwide. It offers security solutions, SSL certification, device certificates, digital signatures, electronic documents, and biometric authentication services, as well as public key infrastructure consulting services. The company was founded in 1999 and is based in Seongnam, South Korea.

1743 Korea Line Corporation provides merchant carrier services for energy resources in marine transportation industry worldwide. The company transports various types of cargo, including LNG, LPG, oil, iron, ore, coal, grain, cement, fertilizer, steel, scrap metal, etc. Its owned fleets consist of 37 vessels, which include 23 bulkers, 10 LNGs, 3 tankers, and 1 PCTC with a total of 4,009,518 DWT. Korea Line Corporation was founded in 1968 and is headquartered in Seoul, South Korea. Korea Line Corporation operates as a subsidiary of Samra Midas Group.

1744 Korian provides a range of medical and noedical care and support services for the elderly and people with short or longerterm health issues. The company operates longterm care nursing homes, specialized clinics, and assisted living and shared housing facilities for seniors, as well as offers home care, support, and hospitalization services. As of December 31, 2021, it operated with 91,808 beds. The company operates approximately 850 care facilities and networks in France, Germany, Italy, Spain, the Netherlands, and Belgium. The company was formerly known as Koriaedica S.A. and changed its name to Korian in July 2015. Korian was founded in 2001 and is based in Paris, France.

1745 KPC Pharmaceuticals, Inc., a pharmaceutical company, engages in the research and development, production, marketing, and commercial wholesale of botanical drugs in the People's Republic of China and internationally. It offers artemether, panax notoginseng, and gastrodine series drugs, as well as Chinese medicines and ethnic drugs under the Luotai, Tianxuanqing, Artemedine, Artem, and Arco brand names for treating cardiocerebrovascular and nervous system diseases, as well as malaria. for customer service via email. The company was founded in 2002 and is based in Wroclaw, Poland.

1837 Livent Corporation manufactures and sells performance lithium compounds primarily used in lithiumbased batteries, specialty polymers, and chemical synthesis applications in North America, Latin America, Europe, the Middle East, Africa, and the Asia Pacific. The company offers lithium compounds for use in applications that have specific performance requirements, including batterygrade lithium hydroxide for use in high performance lithiumion batteries; and butyllithium, which is used in the production of polymers and pharmaceutical products, as well as a range of specialty lithium compounds, including high purity lithium metal, which is used in nonrechargeable batteries and the production of lightweight materials for aerospace applications. It also provides lithium phosphate, pharmaceuticalgrade lithium carbonate, high purity lithium chloride, and specialty organics; and lithium carbonate and lithium chloride for use as feedstock in the process of producing performance lithium compounds. The company was founded in 1940 and is headquartered in Philadelphia, Pennsylvania.

1838 LiveRamp Holdings, Inc., a technology company, provides enterprise data connectivity platform solutions in the United States, Europe, and the AsiaPacific. The company offers RampID, a true peoplebased identifier; Safe Haven, an enterprise data enablement platform; LiveRamp Data Marketplace, a solution that seamlessly connects data ownersâ€™ audience data across the marketing ecosystem; and AbiliTec, an offline identity resolution platform. It serves financial, insurance and investment services, retail, automotive, telecommunications, high tech, consumer packaged goods, healthcare, travel, entertainment, nonprofit, and goverent industries. The company was formerly known as Acxiom Holdings, Inc. and changed its name to LiveRamp Holdings, Inc. in October 2018. LiveRamp Holdings, Inc. was incorporated in 2018 and is headquartered in San Francisco, California.

1839 Lock&Lock Co., Ltd. manufactures and sells kitchen products in South Korea. The company offers plastic, heat resistant glass, and fermentation food containers; cookware, including frying pans/woks and pots; thermal/cold insulation products, such as bottles, mugs/kettles, and lunchboxes; and plastic and heat resistant glass water bottles. It also provides outdoor products comprising lunch boxes, cooler bags, and picnic tableware; kitchen goods, such as seasoning containers/canisters, antibacterial chopping boards, kitchen knives, and food trash bins; and household goods, including fabric storage boxes, baskets, storage closets, dressers, drawers, compression bag, etc. Lock&Lock Co., Ltd. sells its products through various distribution channels, including 87 directly managed stores; and department stores and large retail stores. The company also exports its products to 120 countries worldwide. Lock&Lock Co., Ltd. was founded in 1978 and is based in Seoul, South Korea.

1840 Login LogÃstica Intermodal S.A. provides integrated logistics solutions for handling and transporting containers doortodoor. It operates in Integrated Logistics Solutions, Port terminal, and Road Cargo Transport segments. The Integrated Logistics Solutions segment offers container transport services all around the Brazilian coast and in Mercosu; shuttle services that connect the ports of Santos, Rio de Janeiro, and VitÃria; vehicle transport services; and warehousing, separation, and crossdocking services. The Port Terminal segment offers container loading and unloading operations, as well as cargo and vehicle handling. The Road Cargo Transport segment provides road transport solutions; and distribution and storage centers. The company was incorporated in 1973 and is headquartered in Rio de Janeiro, Brazil.

LogIn Logística Intermodal S.A. operates as a subsidiary of Sas Shipping Agencies Services S.ºA.

1841 Logistec Corporation, together with its subsidiaries, provides cargo handling and other services to marine, industrial, and municipal customers in Canada and the United States. It operates in two segments, Marine Services and Environmental Services. The company provides specialized cargo handling services, which include container, bulk, breakbulk, and project cargo, as well as other services through the operation of 80 terminals in 54 ports in North America. It also stevedoring, cargo loading and unloading, container stuffing and destuffing, ship dockage, road transportation, and storage services, as well as tailgating, including truck loading and discharging services; and marine agency services to foreign shipowners and operators serving the Canadian market. In addition, the company is involved in the renewal of underground water mains, dredging, dewatering, contaminated soils and materials management, site remediation, and risk assessment, as well as manufacturing of fluid transportation products. Further, it offers turnkey solutions for the environmental assessment of properties and the remediation of impacted soils, groundwater, and lagoons; and services for proper handling of hazardous materials in buildings and the replacement of underground hydrocarbon storage infrastructure, including the characterization and remediation of sites and risk assessment, as well as contaminated soils and materials management. The company was formerly known as Quebec Terminals Ltd. and changed its name to Logistec Corporation in April 1969. Logistec Corporation was incorporated in 1952 and is headquartered in Montreal, Canada.

1842 Logo Yazılım Sanayi ve Ticaret A.º. develops and markets software solutions in Turkey and Romania. The company provides ERP solutions, which include Logo jPlatform, Logo Tiger Wings Enterprise, Logo Tiger 3 Enterprise, Logo Tiger Wings, Logo Tiger 3, Logo Netsis Wings Enterprise, Logo Netsis 3 Enterprise, Logo Netsis Wings, and Logo Netsis 3 Standard; and business analytics solutions, such as Logo Mind Insight, Logo Mind Navigator, and Logo Mind Budget. It also offers eInvoice, eArchive, eLedger, eDispatch, eProducer Receipt, eReconciliation, eExtract, Connect Bank, Connect B2b, and LogoPay; Logo İsbasi, Logo Start 3, Logo GO Wings, Logo GO 3, Logo Netsis Wings Entegre, Logo Netsis 3 Entegre, and Logo Mali Muvazir 3; warehouse management system solutions, consisting of Logo WMS Platform and Logo WMS; and Logo Mobile Sales. In addition, the company provides human resources solutions, consisting of Logo jHR, Logo Tiger HR, Logo Bordro Plus, Logo Netsis HR, Logo Netsis 3 Bordro, and Logo Payroll; retail solutions, including Logo Diva Retail, Logo Diva Service, Logo Diva Channel, and Logo Diva Shop; ecosystem solutions; CRM solutions, which includes Logo CRM; and project solutions that comprises of Logo Treasury Wizard and Logo B2B. Further, it offers workflow management solutions, such as Logo Flow; occupational health and safety, consisting of eLogo OHS; and digital transformation services, including digital transformation consultancy, project management, project implementation, custom software development, customization and integration, postproject support services, and system management, as well as support services. The company was founded in 1984 and is headquartered in Gebze, Turkey.

1843 Lohde Oyj, through its subsidiaries, provides digital development and security solutions in Finland. The company offers services in digital development and business intelligence; strategy consulting, planning, and architectural services, as well as change and project management; analytics solutions; security systems and locking solutions; identity and access management services; and alarm transmission systems that safeguard the transmission of a fire or burglary alarm. Lululemon Athletica Inc. was founded in 1998 and is based in Vancouver, Canada.

1866 Lumen Technologies, Inc., a facilitiesbased technology and communications company, provides various integrated products and services under the Lumen, Quantum Fiber, and CenturyLink brands to business and residential customers in the United States and internationally. The company operates in two segments, Business and Mass Markets. It offers compute and application services, such as edge cloud services, IT solutions, unified communication and collaboration solutions, colocation and data center services, content delivery services, and managed security services; and IP and data services, including VPN data network, Ethernet, internet protocol (IP), and voice over internet protocol. The company also provides fiber infrastructure services comprising high bandwidth optical wavelength networks; and unlit optical fiber and related professional services. In addition, it offers voice and other services, including private line services, a direct circuit or channel specifically dedicated for connecting two or more organizational sites; a portfolio of traditional time division multiplexing voice services; and synchronous optical networkbased ethernet, legacy data hosting services, and conferencing services. The company was formerly known as CenturyLink, Inc. and changed its name to Lumen Technologies, Inc. in September 2020. Lumen Technologies, Inc. was incorporated in 1968 and is headquartered in Monroe, Louisiana.

1867 Lumentum Holdings Inc. manufactures and sells optical and photonic products in the Americas, the AsiaPacific, Europe, the Middle East, and Africa. The company operates in two segments, Optical Communications (OpComms) and Commercial Lasers (Lasers). The OpComms segment offers components, modules, and subsystems that enable the transmission and transport of video, audio, and data over highcapacity fiber optic cables. It offers tunable transponders, transceivers, and transmitter modules; tunable lasers, receivers, and modulators; transport products, such as reconfigurable optical add/drop multiplexers, amplifiers, and optical channel monitors, as well as components, including 980,

multimode, and Raman pumps; and switches, attenuators, photodetectors, gain flattening filters, isolators, wavelengthdivision multiplexing filters, arrayed waveguide gratings, multiplex/demultiplexers, and integrated passive modules. This segment also provides Super Transport Blade, which integrates optical transport functions into a singleslot blade; verticalcavity surfaceemitting lasers; directly modulated and electroabsorption modulated lasers; and laser illumination sources for 3D sensing systems. It serves customers in telecommunications, data communications, and consumer and industrial markets. The Commercial Lasers segment offers diodepumped solidstate, fiber, diode, directdiode, and gas lasers, such as argonion and heliumneon lasers for use in original equipment manufacturer applications. It serves customers in markets and applications, such as sheet metal processing, general manufacturing, biotechnology, graphics and imaging, remote sensing, and precision machining. Lumentum Holdings Inc. was incorporated in 2015 and is headquartered in San Jose, California.

1868 Lundin Mining Corporation, a diversified base metals mining company, engages in the exploration, development, and mining of mineral properties in Brazil, Chile, Portugal, Sweden, and the United States. It primarily produces copper, zinc, nickel, and gold, as well as lead, silver, and other metals. The company holds 100% interests in the Chapada mine located in Brazil; the NevesCorvo mine located in Portugal; the Eagle mine located in the United States; and the Zinkgruvan mine located in Sweden. It also holds 80% interests in the Candelaria and Ojos del Salado mining complex located in Chile. The company was formerly known as South Atlantic Ventures Ltd. and changed its name to Lundin Mining Corporation in August 2004. Lundin Mining Corporation was incorporated in 1994 and is headquartered in Toronto, Canada.

1869 Lushang Health Industry Development Co.,Ltd. develops and operates real estate properties in China. The company offers property management services, such as order maintenance, greening, public area maintenance, and other property related services. It also develops residences, commercial complexes, hospitals, schools, kindergartens, industrial parks, office buildings, and aviation related business. In addition, the company is involved in cosmetics, raw materials, and additive businesses. Lushang Health Industry Development Co.,Ltd. is a subsidiary of Shandong Freda Biological Co., Ltd.

1870 Lux Island Resorts Ltd invests in and operates hotels and resorts in Mauritius, Reunion Island, and Maldives. It operates resorts and hotels under the LUX* Grand Baie, LUX* Le Morne, LUX* Grand Gaube, LUX* Belle Mare, LUX* Saint Gilles, LUX* South Ari Atoll, LUX* Tea Horse Road Lijiang, LUX* Tea Horse Road Benzilan, LUX* Tea Horse Road Peach Valley, LUX* Tea Horse Road Sangushui, LUX* Tea Horse Road Stone Town, LUX* Tea Horse Road Daju Village, LUX* Tea Horse Road Shangri La, and LUX* Chongzuo names, as well as Tamassa Bel Ombre, Emba Filao, HÃ´tel Le RÃ©cif, and Ile des Deux Cocos names. The company was formerly known as NaÃ¢de Resorts Ltd and changed its name to Lux Island Resorts Ltd in December 2011. The company was incorporated in 1987 and is headquartered in Floreal, Mauritius. Lux Island Resorts Ltd is as a subsidiary of IBL Ltd.

1871 Luxshare Precision Industry Co., Ltd., together with its subsidiaries, designs, manufactures, and sells cable assembly and connector system solutions worldwide. The company primarily offers cable assemblies, connectors and structural parts, power cables and chargers, antennas, acoustic components, headsets and speakers, power cords, test fixtures, VM/VCM, dongles, optic products, telecom products, harness products, smart wearables, electronic cigarettes, mechanical components, routers, and casing and radio frequency products. It also provides

photoelectric conversion and optic transmission application products, cooling and transmission modules, RCU, etc.; base station filters, tower mounted amplifiers, duplexers, combiners, RRU, AAU, small base stations, etc.; and computer peripherals and plastic hardware products. Its products are used in enterprise, cloud, automotive, communication, auto electronics, and medical applications, as well as consumer electronics. The company was founded in 2004 and is based in Dongguan, China.

1872 Luye Pharma Group Ltd., an investment holding company, develops, produces, markets, and sells pharmaceutical products worldwide. The company offers Lipusu for ovarian and breast cancer; CMNa, a chemical sensitizer for cancer radiotherapy; Tiandida for ovarian or nonsmall cell lung cancer; Boyounuo, an injection for the treatment of various types of cancers and other solid tumors; and Xuezhikang, a lipid regulating drug for the treatment of hypercholesterolaemia. It also provides Maitongna for cerebral edema swelling by trauma or surgery, and for venous reflux disorders; Beixi, an acarbose capsule for Type 2 diabetes; Rivastigmine Transdermal Patch for the treatment of Alzheimer's disease; Fentanyl Transdermal Patch for cancer pain; Buprenorphine Transdermal Patch for chronic pain; and Seroquel and Seroquel XR for the treatment of schizophrenia and manic episodes of bipolar affective disorders. In addition, the company offers Rykindo, an injection for the treatment of schizophrenia; Tiandixin used as an adjuvant therapy for malignant tumors, hydrothorax and ascites, and respiratory infections; Yitaida for acute promyelocytic leukemia and liver cancer; Lutingnuo, a glutathione injection for toxicity and injuries caused by ionizing radiation; and Beitangning, a pioglitazone hydrochloride capsule to control blood glucose. Further, it offers Nuosen for acute upper digestive tract hemorrhage; Sailimai for the treatment of diarrhea; Apleek Transdermal Patch for contraception; Sidinuo for osteoporosis; Glucosamine hydrochloride tablets for osteoarthritis; Oulai, a compound sodium aescinate gel for local swelling; Oukai for the treatment of soft tissue swelling and venous edema; and Fengshiye for patients who have pains in bones, joints, and limbs. The company distributes and sells pharmaceutical drugs; and manufactures and sells biopharmaceutical products. Luye Pharma Group Ltd. was founded in 1994 and is headquartered in Yantai, the People's Republic of China.

1873 Luyin Investment Group Co., Ltd. is primarily involved in the powder metallurgy and products business. It also engages in the equity investment, salt and salt chemicals, cashmere textiles, economic and trade business, etc. The company was founded in 1993 and is based in Jinan, China.

1874 LVMH Moët Hennessy Louis Vuitton, Société Européenne operates as a luxury goods company worldwide. The company offers champagnes, wines, and spirits under the Clos des Lambrays, Chateau d'Yquem, Dom Pérignon, Ruinart, Moët & Chandon, Hennessy, Veuve Clicquot, Chateau Galoupet, Ardbeg, Chateau Cheval Blanc, Gleorangie, Krug, Mercier, Chandon, Cape Mentelle, Joseph Phelps, Newton Vineyard, Cloudy Bay, Belvedere, Terrazas de los Andes, Bodega Numanthia, Cheval des Andes, Woodinville, Ao Yun, Clos19, Volcan de mi Tierra, and Eminent brands; and fashion and leather products under the Loewe, Moynat, Louis Vuitton, Berluti, RIMOWA, Patou, Loro Piana, FENDI, Celine, Christian Dior, Emilio Pucci, Givenchy, Kenzo, and Marc Jacobs brands. In addition, it provides financial intermediary services. The company was founded in 1993 and is based in Chester, the United Kingdom.

2011 Montea is a developing investor in logistics real estate in Belgium, France, Germany and the Netherlands. Our team of passionate specialists creates the ideal real estate solution together with the customer.

2012 Monument Mining Limited operates as a gold producer and mining asset developer in Canada, Australia, and Malaysia. The company holds 100% interest in the Selinsing gold mine, including the Selinsing, Buffalo Reef, Felda Land, Peranggih, and Famehub projects that are located in Pahang State within the Central Gold Belt of Western Malaysia; and the Murchison gold project portfolio comprising the Burnakura, Tuckanarra, and Gabanintha projects, which are located in the Murchison region of Western Australia. The company is headquartered in Vancouver, Canada.

2013 Moorim P&P Co., Ltd. engages in the production and sale of paper and pulp products in South Korea and internationally. The company produces and sells bleached chemical pulp and magnesium hydroxide. It also manufactures and sells printing papers, including art and white papers; and engages in the provision of credit and forestry businesses. The company was founded in 1974 and is headquartered in Ulsan, South Korea.

2014 Mosel Vitelic Inc. manufactures and sells power semiconductor components and power management ICs in Taiwan. It primarily offers trench power metal oxide semiconductor field effect transistors, trench insulated gate bipolar transistors, analog ICs, and diodes that are used in computers, LCD screens and televisions, mobile phone batteries, machine tools, LED lighting, power supplies, and automotive electronics. The company was founded in 1987 and is based in Hsinchu City, Taiwan.

2015 Moso Power Supply Technology Co., Ltd. engages in the provision of power supply solutions primarily in China. It offers consumer electronics power supplies for use in settop boxes, network communications, security, medical beauty, drones, 3D printers, laser printers, power tools, low and mediumspeed electric vehicles, industrial control, 5G communications, and other applications. The company also provides LED intelligent driving power supply products for smart pole power supply system solutions, outdoor road lighting, industrial lighting, landscape lighting, urban rail transit, LED display, intelligent driving of highpower lighting, and other applications. In addition, it offers photovoltaic inverters. The company has operations in China, the United States, Japan, South Korea, Singapore, Europe, Hong Kong, Taiwan, and internationally. Moso Power Supply Technology Co., Ltd. was founded in 2006 and is headquartered in Shenzhen, China.

2016 Mount Gibson Iron Limited, together with its subsidiaries, engages in the mining, crushing, processing, transportation, and sale of hematite iron ore in Australia. The company primarily holds interests in the Extension Hill mine and Shine mine deposit in the MidWest region of Western Australia, as well as operates haulage of the ore through road and rail for export from the Geraldton Port. It is also involved in the mining and direct shipment of hematite iron ore at the Koolan Island mine site in the Kimberley region of Western Australia; and the treasury management activities. Mount Gibson Iron Limited was incorporated in 1938 and is headquartered in West Perth, Australia.

2017 Mountain Province Diamonds Inc. focuses on the mining and marketing of rough diamonds worldwide. Its primary asset is its 49% interest in the Gahcho KuÃ© diamond mine comprising mining leases covering an area of 5,216 hectares; and holds a 100% interest in the Kennady North project consisting of 22 federal leases and 97 claims covering an area of 107,000 hectares located in the Northwest Territories, Canada. The company was formerly known as Mountain Province Mining Inc. and changed its name to Mountain Province Diamonds Inc. in October 2000. Mountain Province Diamonds Inc. was incorporated in 1986 and is headquartered in Toronto, Canada.

2018 Mowi ASA, a seafood company, produces and supplies farmed salmon products worldwide. The company operates through three segments: Feed, Farming, and Sales and Marketing. It is involved in the salmon feed production, salmon farming and primary processing, and seafood secondary processing activities. The company offers whole gutted fish, including Label Rouge and organic salmon; and white fish and other seafood products, as well as fillets, steaks, cutlets, portions, loins, kebabs, and steak combos. It also provides value added products, such as breaded, prefried, dusted, marinated, grilled, battered, topped, filled with sauce, delicatessen, fresh fish ready meal, and smoked fish products. The company offers its products under the Mowi, Mowi Salmon, Donegal Silver, Admiral's, Pieters, Laschinger, Kritsen, Ducktrap River, Harbour Salmon Co., Rebel Fish, Supreme Salmon, Olav's, Northern Harvest, and Mowi Nutrition brand names. The company was formerly known as Marine Harvest ASA and changed its name to Mowi ASA in December 2018. Mowi ASA was founded in 1964 and is headquartered in Bergen, Norway.

2019 Mpact Limited engages in the paper and plastic packaging and recycling business in South Africa. It operates through Paper and Plastics segments. The company manufactures recycledbased packaging and industrial paper grades, such as containerboards and carton boards; and a range of printed and unprinted converted corrugated products, including boards for use in the manufacture of corrugated packaging, corrugated boxes, diecut cases, folded glued cases, trays, and pointofsale displays, cups, lids, and bags. It also sells Mondi ProVantage Baywhite white top kraftliner and Mondi ProVantage BayKraf kraftliner products; and recycles paper through various recovered paper sources comprising preand postconsumer materials. In addition, the company manufactures various plastic packaging products, such as polyethyleneterephthalate (PET) preforms, bottles, and jars; closures for food and beverage, household, and chemical markets; plastic jumbo bins, wheelie bins, and pallets and crates; FMCG rigid plastic packaging products; polystyrene and PET trays; and vinyl films. It offers packaging and industrial paper products to corrugated board and box producers, and other containerboard converters; carton boards to folding carton and other producers of industrial products, as well as users of cards and book covers; corrugated products to producers of agricultural, fast moving consumer goods, and other durable and nondurable goods; and plastic packaging products to food, beverage, personal care, home care, pharmaceutical, agricultural, and

retail markets. The company is headquartered in Johannesburg, South Africa.

2020 Mphasis Limited operates as an information technology solutions provider that specializes in cloud and cognitive services worldwide. The company operates through Banking and Financial Service; Logistics and transportation; Technology Media and Telecom; Insurance; and Others segments. It offers application, blockchain, business process, cognitive, cyber security, DevOps, digital, enterprise automation, design, infrastructure, modernization, data, product engineering, and cloud, as well as governance, risk, and compliance services. The company serves banking and capital markets, asset management, corporate banking, investment banking, mortgage, retail banking, and wealth management and brokerage industries, as well as insurance, healthcare and life sciences, payments, hospitality, travel and transportation, communications, energy and utilities, logistics, manufacturing, oil and gas, and public sectors. Mphasis Limited was incorporated in 1992 and is based in Bengaluru, India.

2021 Mueller Water Products, Inc. manufactures and markets products and services for the transmission, distribution, and measurement of water used by municipalities, and the residential and nonresidential construction industries in the United States, Israel, and internationally. The company operates in two segments, Water Flow Solutions and Water Management Solutions. The Water Flow Solutions segment provides iron gate and specialty valves, and service brass products; and valves for water systems, such as iron gate, butterfly, tapping, check, knife, plug, and ball valves, which are used to control distribution and transmission of potable water and nonpotable water, as well as in water transmission or distribution, water treatment facilities, or industrial applications. The Water Management Solutions segment offers drybarrel and wetbarrel fire hydrants for water infrastructure development, fire protection systems, and water infrastructure repair and replacement projects; pipe repair products, such as couplings, grips, and clamps used to repair leaks; residential, fire line, and commercial water metering products, systems, and services; water leak detection and pipe condition assessment products and services; machines and tools for tapping, drilling, extracting, installing, and stoppingoff; gas valve products for use in gas distribution systems; and intelligent water solutions, including pressure control valves, advanced pressure management, network analytics, event management, and data logging. It sells its products under the Canada Valve, Centurion, EzMax, Hydro Gate, HydroGuard, HYMAX, HYMAX VERSA, Jones, Krausz, Milliken, Mueller, Pratt, Pratt Industrial, Repamax, Repaflex, Singer, Echologics, Echoshore, ePulse, Hersey, i2O Water Ltd, LeakFinderRT, LeakFinderST, LeakListener, LeakTuner, Mi.Echo, Mi.Data, Mi.Hydrant, Mi.Net, Mueller Systems, Sentryx, and U.S. Pipe Valve and Hydrant brands. The company was founded in 1857 and is headquartered in Atlanta, Georgia.

2022 Mulberry Group plc, through its subsidiaries, designs and manufactures fashion accessories and clothing in the United Kingdom, Asia Pacific, and internationally. It provides briefcases, messenger bags, and backpacks; wallets, and purses and pouches; sunglasses, scarves, gloves and hats, belts, cufflinks, keyrings, and shoes; jewelry, organisers, leather care, and care products; gifts; and luggage, holdalls, bag, and other travel accessories for men and women, as well as readytowear and eyewear products. The company sells its products through its retail shops, concessions, and wholesale distribution channels under the Mulberry brand, as well as sells its products online. Mulberry Group plc was founded in 1971 and is based in Bath, the United Kingdom. Mulberry Group plc is a subsidiary of Challice Limited.

2023 Multiconsult ASA provides engineering design, consultancy, and architecture services in Norway and internationally. The company offers multidisciplinary consultancy, design, planning, project supervision and management, geotechnical site survey, verification and control, analysis and due diligence, construction management, geological investigations, environmental services and HSE, river basin management, hydrometry, and hydrological field work services. It serves buildings and properties, cities and society, industry, oil and gas, renewable energy, rail and transportation, and water and environment sectors. Multiconsult ASA was founded in 1908 and is headquartered in Oslo, Norway.

2024 Munters Group AB (publ) provides climate solutions in Sweden and internationally. The company operates through three segments: AirTech, Data Center Technologies, and FoodTech. It offers air intakes/air inlets, combined temperature and humidity control products, dehumidifiers, heat exchangers, mass transfer solutions and equipment, pollution control and VOC abatements, air cleaners for agriculture, climate and irrigation controllers for agriculture, coolers and humidifiers, fans and light traps, heaters, and mist eliminators. The company also provides installation support, startup and commissioning, service agreement and maintenance, and training solutions, as well as rotor performance check, reconditioning and repair, spare parts, controls upgrade, munters remote assist, rotor replacement, munters rotor energy recovery, and fan motor upgrade services. It serves agriculture, automotive, battery, chemical processing, construction, data centers, defense and aerospace, electronics, food and beverage, general industry/production, greenhouse, healthcare, pharmaceutical, power generation and distribution, recreation and leisure, shipbuilding and marine, steel, temporary structures, and water and wastewater; oil, gas, and petroleum; pulp, paper, and printing; and storage, preservation, and archives industries. Munters Group AB (publ) was founded in 1955 and is headquartered in Kista, Sweden.

2025 MVV Energie AG, together with its subsidiaries, provides electricity, heat, gas, water, and waste treatment and disposal products primarily in Germany. The company operates through five segments: Customer Solutions, New Energies, Supply Reliability, Strategic Investments, and Other Activities. The Customer Solutions segment engages in the energy and water retail and wholesale, direct marketing of renewable energy, commodities, and service and trading businesses. This segment also offers services to thirdparty customers. The New Energies segment operates waste, biomass power, biomethane, and biogas plants; and photovoltaics systems and wind turbines. This segment also engages in the national and international project development, and operation and management of windfarms and solar parks. The Supply Reliability segment engages in the conventional generation activities; and operates electricity, district heating, gas, and water grid facilities with a total length of approximately 19,300 kilometers. The Strategic Investments segment engages in operation of energy generation plants and grid facilities. The Other Activities segment provides metering, billing, and information technology services. It serves industrial, retail, private households, real estate, commercial, and business customers. The company was founded in 1974 and is based in Mannheim, Germany. MVV Energie AG operates as a subsidiary of MVV Verkehr AG.

2026 Mycronic AB (publ), together with its subsidiaries, develops, manufactures, and sells production equipment for electronics industry in Sweden, rest of Europe, the United States, other Americas, China, South Korea, rest of Asia, and internationally. The company operates through four segments: Pattern Generators, High Flex, High Volume, and Global Technologies. The Pattern Generators segment develops, manufactures, and markets mask writers and measuring machines for production of advanced

photomasks for manufacturing of screens for TVs, cars, mobile phones, tablets, and computers, as well as the semiconductor components. The High Flex segment develops, manufactures, and markets surface mount technology (SMT) and inspection equipment for flexible printed circuit board (PCBs) assembly. This segment offers MYPro Line, which integrates advanced jet printing and dispensing, pickandplace, advanced process control solutions, and 3D inspection systems; MYTower material handling systems; and MYSmart dispensing and coating solutions. The High Volume segment develops, manufactures, and markets equipment for dispensing and conformal coating of circuit boards for manufacturers of mobile phones, tablets, computers, and electronics for electric vehicles, as well as automated screen printers. The Global Technologies segment offers diebonding services for microelectronics and optoelectronic applications; advanced electrical measurement of bare board PCBs and substrates; flying probe test system, an automated electrical measurement system for low to mid quantities and complex boards; and grid test systems for volume bare board verification. It sells its products through agents and distributors. The company serves industrial, aerospace, defense, automotive, energy, medical, and telecom sectors. The company was formerly known as Micronic Mydata AB (publ) and changed its name to Mycronic AB (publ) in June 2014. Mycronic AB (publ) is headquartered in TÅsby, Sweden.

2027 Myers Industries, Inc. engages in distribution of tire service supplies in Ohio. It operates through two segments, The Material Handling and Distribution. The Material Handling segment offers pallets, small parts bins, bulk shipping containers, and OEM parts, as well as storage and organization, and custom plastic products; and injection molded, rotationally molded or blow molded products, consumer fuel containers and tanks for water, fuel, and waste handling. It serves industrial manufacturing, food processing, retail/wholesale products distribution, agriculture, automotive, recreational and marine vehicles, healthcare, appliance, bakery, electronics, textiles, consumer markets, and other markets under AkroMils, Jamco, Buckhorn, AmeriKart, Scepter, Elkhart Plastics, and Trilogy Plastics brands directly to endusers, as well as through distributors. The Distribution segment engages in the distribution of tools, equipment, and supplies for tire, wheel, and undervehicle service on passenger, heavy truck, and offroad vehicles; and manufacture and sale of tire repair materials and custom rubber products, as well as reflective highway marking tapes under the Myers Tire Supply, Myers Tire Supply International, Tuffy Manufacturing, Mohawk Rubber Sales, Patch Rubber Company, Elrick, Fleetline, MTS, Seymoure, Advance Traffic Markings, and MXP brands. This segment serves retail and truck tire dealers, commercial auto and truck fleets, auto dealers, general service and repair centers, tire retreaders, truck stop operations, and goverent agencies. The company was founded in 1933 and is headquartered in Akron, Ohio.

2028 MYUNGMOON Pharm co.,Ltd engages in the research, development, production, distribution, and sale of pharmaceuticals in South Korea and internationally. It offers prescription drugs, including anti osteoarthritis, antiinflammatory analgesics, antiphlogistic enzymes, muscle relaxant, anti rheumarthritis, antibiotics and antifungal, respiratory agents, GI therapeutics, circulation agents, antihypertension agents, antidiabetic drugs, narcotics, anesthetic agents, central nervous system products, female hormone products, osteoporotic therapeutics, urogenital agents, adrenocortical hormone products, oncology agents, other preparations, fillers, and antiobesity agents for pharmacotherapy. The company also provides OTC products, such as antinausants, genitourinary system products, anti gum disease products, hepatics,

parasiticides, cathartic, oral disease products, antidiarrheal agents, digestive system products, cold drugs, calcium products, nasal sprays, multiple vitamin products, eye nutrition products, eye drops, blood circulation products, circulatory solvents, skin external preparations, and topical analgesic products. In addition, it offers health supplements, quasi drugs, and blended juices. MYUNGMOON Pharm co.,Ltd was founded in 1983 and is headquartered in Seoul, South Korea.

2029 N Citron, Inc. engages in the manufacture and sale of semiconductor products that process digital audio signals. It offers digital audio amplifier chips for digital TV and AC direct LED drivers, as well as for healthcare sector. The company was founded in 2000 and is headquartered in Seongnam, South Korea.

2030 N.R. Spuntech Industries Ltd. produces nonwoven fabrics in Israel. The company offers dry, disinfecting, hard surface scrubbing, window, bathroom, automobile, and glass wipes for use in household applications; medical swabs and gauzes, bleach wipes, bandages and tapes, germicidal wipes, and medicated wipes for medical applications; pads, face masks, makeup removal, soap impregnated facial, and feminine hygiene wipes for cosmetic and feminine care applications; baby wipes; commercial multipurpose wipes for use in industrial facilities and restaurants; and HVAC filters and hard surface scrubbing wipes for industrial applications. The company markets its products in approximately 30 countries worldwide. N.R. Spuntech Industries Ltd. was incorporated in 1996 and is based in Tiberias, Israel.

2031 Nagarro SE, a digital engineering company, provides digital engineering and technology solutions in North America, Central Europe, rest of Europe, and internationally. The company offers agile; API management; application development and management; application manages services; accelerated quality and test engineering; artificial intelligence, data and analytics, blockchain, clous, CRM, customer communications, digital commerce solutions, digital marketing and personalization, digital ventures, ECM and portals, emedded systems, enterprise architecture consulting, ERP, identity and access management, internet of things, process consulting, mainframe and legacy, mobility solutions, trainings, product engineering, resilience engineering, security, technical communications, and transformation and modernization services. It serves customers in automotive, banking and financial services, energy and utilities, gaming and entertaient, industry and automation, insurance, ISV, life sciences and healthcare, media and publishing, nonprofits and education, public sector, retail and CPG, telecom, and travel and logistics industries. The company was founded in 1996 and is based in Munich, Germany.

2032 Najran Cement Company manufactures and sells cement products in the Kingdom of Saudi Arabia. The company offers ordinary Portland and cement resistant to salt. It also sells its products online, as well as engages in the land transportation of goods. Najran Cement Company was founded in 2005 and is based in Najran, the Kingdom of Saudi Arabia.

2033 Nam Long Investment Corporation engages in the real estate business in Vietnam. The company is involved in the civil and industrial construction; housing renovation and interior decoration; construction and renovation of houses for sale or lease; harbour and road bridge construction; ground levelling and construction of drainage systems; installation and repair of electrical systems under 35KV; housing brokerage; and sale and purchase of construction materials. It also invests in the construction and trade of urban areas; infrastructures for industrial zones and hitech parks; and office buildings, supermarkets, schools, swimming pools, hotels, restaurants, golf courses, sports facility zones, and resorts. In addition, the company offers project

management advisory; real estate brokerage; real estate valuation; yard repair; real estate exchange; real estate consulting; real estate auction; and real estate advertising services. The company was formerly known as Nam Long Company Ltd. and changed its name to Nam Long Investment Corporation in 2005. Nam Long Investment Corporation was founded in 1992 and is headquartered in Ho Chi Minh City, Vietnam.

2034 Namkwang Engineering & Construction Co., Ltd. provides various construction services in South Korea and internationally. The company constructs apartments, commercial/business facilities, public/leisure facilities, factories/plants, and culture/history/other projects; and roads, bridges/tunnels, subways/railroads, water/sewerage works, and harbors/dams/ ports. Namkwang Engineering & Construction Co., Ltd. was founded in 1947 and is headquartered in Yonginsu, South Korea.

2035 Namsun Aluminum Co., Ltd. produces and sells aluminum extruded products in South Korea and internationally. It offers aluminum windows and doors, curtain walls, industrial structure materials, and bomb blast mitigated windows, as well as chassis for windows and doors. The company was formerly known as Namsun Light Metals Co., Ltd. and changed its name to Namsun Aluminum Co., Ltd. in 1990. Namsun Aluminum Co., Ltd. was founded in 1947 and is headquartered in Daegu, South Korea.

2036 Nan Pao Resins Chemical Co., Ltd. engages in the manufacture, wholesale, and retail sale of synthetic resins and plastics, adhesives, resin coatings, dyes, and pigments in Taiwan, Mainland China, and Southeast Asia. The company offers footwear adhesives, including cleaners, primers, hardeners, and shoe adhesives; and adhesives and specialties, such as textile, woodworking and furniture, construction, graphic arts, tape and label, paper converting, rigid packaging, leather coating, specialty, flexible package, construction and decoration, nonwoven, pressure sensitive, and other adhesives, as well as product assemblies. It also provides hot melt adhesives; building and construction, flooring and concrete, heavy duty anti rust, industrial, eco green, functional, and indoor and outdoor powder coatings, as well as coatings for special applications; and construction materials, which include grouts, waterproof products, sealants, deadeners, and bituminous products. The company was incorporated in 1963 and is headquartered in Tainan City, Taiwan.

2037 Nanfang Zhongjin Enviroent Co., Ltd., through its subsidiaries, engages in the general equipment manufacturing business. It manufactures stainless steel centrifugal pumps, water supply equipment, sewage pump, HVAC pump, split pump, fire pump, metering pump, oil pump, deep well pump, and other products for use in pipeline pressurization, industrial water, building water supply, HVAC system, fire protection system, water treatment, medicine and electronic cleaning, and other fields. The company also offers integrated consulting and design services for water conservancy engineering, municipal engineering, construction engineering, and other infrastructure construction; and enviroental consulting, including project enviroental impact assessment, planning enviroental impact assessment, soil and water insurance supervision monitoring, soil and water conservation plan, regional enviroental impact tracking assessment, social stability assessment, postenviroental impact assessment, and other businesses. In addition, it engages in the hazardous waste disposal activities. The company was formerly known as Nanfang Pump Industry Co., Ltd. and changed its name to Nanfang Zhongjin Enviroent Co., Ltd. in March 2016. Nanfang Zhongjin Enviroent Co., Ltd. was founded in 1991 and is headquartered in Hangzhou, China.

2038 Nanjing Central Emporium (Group) Stocks Co., Ltd. operates department stores. The company operates a chain of department stores, as well as an ecommerce online shopping platform. It is also involved in the

development of commercial properties. Nanjing Central Emporium (Group) Stocks Co., Ltd. was founded in 1936 and is based in Nanjing, China.

2039 Nanjing Red Sun Co., Ltd. engages in the research, manufacture, and sale of pesticides and other chemicals in China. The company offers herbicides, insecticides, fungicides, plant growth regulators, rodenticides, sanitary insecticides, and threedrug intermediates, as well as fine chemicals. It also provides technical consultation services. Nanjing Red Sun Co., Ltd. was founded in 1991 and is based in Nanjing, China.

2040 Nanjing Sinolife United Company Limited, an investment holding company, engages in the manufacture, processing, and sale of nutritional supplements in the People's Republic of China, Australia, New Zealand, Vietnam, and internationally. The company is also manufactures and sale of cosmetics and skin care products; and trading, retail, and testing of packaged health food products. It sells its products under the Good Health, Zhongsheng, Hejian, and Cobayer series through a network of retail stores. The company also sells its products through distributors, TV shopping, and ecommerce platforms; and chain pharmacies, health goods supermarkets, and tourist souvenir shops. Nanjing Sinolife United Company Limited was incorporated in 1999 and is headquartered in Nanjing, China.

2041 Nanjing Xinjiekou Department Store Co., Ltd. operates department stores in China. It also provides health and elderly care, property rental, and hotel and catering services, as well as develops and sells real estate properties. The company was founded in 1952 and is headquartered in Nanjing, China.

2042 Nano Chem Tech Inc. develops, manufactures, and sells organic conducting polymers and related products in Korea. The company offers conducting sheets for thermoforming package, and electrical/electronic/telecommunication part applications; conducting coating solutions; advanced materials; antistatic films for mobile LCD and keypad process applications; and metal PCB and Tpreg for MCCL, inverter, converter, rectifier, and power supply, as well as TV PDP, LED, and regulator applications. It also provides conducting EPP for LCD module transfer tray, flat display LCD glass transfer tray, and electric products buffer transfer tray applications; conducting PU resins and printer rollers; antibacterial/antifinger print protection products for LCD and touch screen protection films, as well as notebook computer, smart phone, PDA, and navigation applications; and flat flexible cables for stereo audio, video component, video and audio composite, CCTV, LAN, and display monitor applications. The company was founded in 1999 and is headquartered in Yongin, South Korea.

2043 NanoEnTek Inc. engages in the research and development, production, and sale of lifescience lab equipment, in vitro diagnostic medical devices, point of care diagnostic devices, and related consumables and solutions in Korea and internationally. It provides FRENDS system, a quantitative fluorescence immunoassay analyzer; BUDDI, a rapid diagnostic test analyzer; rapid diagnostic test items; ADAMrWBC, an analytical device for counting the residual white blood cells; ADAMII, a fluorescence stem cell counter; EVE, a benchtop counter to measure cell count and viability; Arthur/fluorescence cell counters; automated somatic cell counters; livecell imaging system; and disposable hemocytometers. The company was founded in 2000 and is headquartered in Seoul, South Korea.

2044 Nantong Jiangshan Agrochemical & Chemicals Co., Ltd. produces and markets agrochemicals, resins, chlorinecaustic sodium, and fine chemicals in China. The company offers herbicides, including glyphosate, alachlor, acetochlor, butachlor, butachlor+propanil, quizalofopethyl, and metolachlor; insecticides, such as dichlorvos, trichlorphon, diazion,

nitenpyram, and imidaclothiz; and fungicides comprising prochloraz and prochloraz manganese complex products. It also provides intermediate products consisting of chloral, phosphorus acid, trimethyl and dimethyl phosphite, phosphorus trichloride, PMIDA, paraformaldehyde, and chlormethane; microporous insulating board and nanometer aluminum oxide materials; and flame retardant products. The company also exports its products to 40 countries and regions in Asia, Europe, the United States, and Africa. Nantong Jiangshan Agrochemical & Chemicals Co., Ltd. was founded in 1990 and is based in Nantong, China.

2045 NARI Technology Co., Ltd., together with its subsidiaries, provides power intelligence solutions in China and internationally. It offers smart substation, smart power distribution, smart electricity, information and communication, energy, intelligent inspection, industrial control, municipal environmental protection, rail, intelligent regulation and power generation, smart power transmission, and water conservancy and affair solutions. NARI Technology Co., Ltd. was founded in 2001 and is headquartered in Nanjing, China.

2046 Nasdaq, Inc. operates as a technology company that serves capital markets and other industries worldwide. It operates in three segments: Market Platforms, Capital Access Platforms, and AntiFinancial Crime. The Market Platforms segment trading services, including equity derivative trading and clearing, cash equity trading, fixed income and commodities trading and clearing, and trade management service businesses. This segment operates various exchanges and other marketplace facilities across various asset classes, which include derivatives, commodities, cash equity, debt, structured products, and exchange traded products; and provides broker, clearing, settlement, and central depository services. 2050 National Instruments Corporation provides a softwarecentric platform to engineers and scientists worldwide. Its programming environments software includes NI LabVIEW, a graphical software platform to visualize hardware configuration, measurement data, and debugging; NI LabWindows/CVI, an ANSI C integrated development environment and engineering toolbox; and NI Measurement Studio, a suite of .NET tools for building engineering applications in Microsoft Visual Studio. The company's application software comprises NI TestStand that is used for automated test and measurement applications in manufacturing environment; NI VeriStand, a software environment for configuring realtime testing applications; Flexlogger for sensor configuration and data logging of mixed signals. Its operations management and analytic enterprise software include NI DIAdem, which is configurationbased technical data management, analysis, and report generation tools to mine and analyze engineering and measurement data; NI SystemLink, a systems management and data collection software that enables the mass coordination of connected devices, software deployments, and data communications throughout a distributed system; and NI Optimal Plus. The company also offers PXI and NI Cseries hardware; NI PXI modular instrument platform; and NI semiconductor test systems, as well as software and hardware maintenance, and training and certification services. It serves semiconductor and electronics, transportation, aerospace, and defense industries; and government agencies. The company sells its products through direct sales, independent distributors, original equipment manufacturers, resellers, and system integrators and consultants. National Instruments Corporation was incorporated in 1976 and is headquartered in Austin, Texas.

2051 National Mobile Telecommunications Company K.S.C.P. provides telecommunications services in Kuwait, Algeria, Tunisia, Maldives, and Palestine. The company offers mobile services, such as airtime usage, messaging and data, and connection services; fixed services comprising of installation and configuration, internet connectivity, television, and telephony services; interconnection and roaming services; and valueadded

services that consist of music and video streaming, and SMS. It is also involved in the purchase, supply, installation, management, and maintenance of wireless sets and equipment, mobile telephone services, pager systems, and other telecommunication services. The company was incorporated in 1997 and is based in Kuwait City, Kuwait. National Mobile Telecommunications Company K.S.C.P. is a subsidiary of Ooredoo International Investments L.L.C.

2052 National Petroleum Services Company (K.S.C.P.) provides various oilfield and nonoilfield services in Kuwait. The company's upstream oilfield services comprises well cementing, well intervention, downhole tools, filtration, and casing hardware services; and downstream and energy services, such as safety and risk consultancy, health consultancy, environmental consultancy, environmental monitoring and analytical laboratory, geo technical and material testing, leak detection and repair, waste management, fire suppression systems and services, halon management systems, training, design, project and, engineering services, as well as sells industrial products and services. National Petroleum Services Company (K.S.C.P.) was incorporated in 1993 and is based in Al Ahmadi, Kuwait. National Petroleum Services Company K.S.C.P. is a subsidiary of Qurain Petrochemical Industries Company K.S.C.P.

2053 National Storage is the largest selfstorage provider in Australia and New Zealand, with 194 centres providing tailored storage solutions to over 70,000 residential and commercial customers. NSR is the first independent, internally managed and fully integrated owner and operator of selfstorage centres to be listed on the Australian Securities Exchange (ASX).

2054 Natural Food International Holding Limited, an investment holding company, engages in the manufacturing, processing, and sale of natural health food products in the People's Republic of China. The company also offers management and administration services. It markets its products through a network of concessionary counters; and ecommerce platforms. The company was founded in 2007 and is headquartered in Shenzhen, China.

2055 Nature & Enviroent Co.,Ltd. engages in the precast concrete, greening construction, and landscaping businesses in South Korea and internationally. The company is also engaged in ecological restoration, soil and groundwater remediation, soil enviroent assessment, landscaping, rainwater storage tank, enviroental plant, greentech construction, and other businesses. In addition, it provides water treatment, recycling, and civil work services; and enviroentalfriendly materials, air purification systems, and PC modulars. Further, the company offers afforestation, gardening, and enviroental restoration product manufacturing services. Nature & Enviroent Co.,Ltd. was founded in 1991 and is headquartered in Gongju, South Korea.

2056 Naturgy Energy Group, S.A., together with its subsidiaries, engages in the supply, liquefaction, regasification, transport, storage, distribution, and sale of natural gas. It operates through Energy and Network Management, Renewables and New Business, Supply, and Rest segments. The company engages in the regulated gas and electricity distribution; sale of liquefied natural gas and the sea transport business; management of the gas pipelines and conventional thermal generation facilities; and generation and sale of electricity through wind, minihydro, solar, and cogeneration sources, as well as provision of supply management services. It serves in Spain, Argentina, Brazil, Chile, Mexico, Panama, the rest of Latin America, and internationally. The company was formerly known as Gas Natural SDG, S.A. and changed its name to Naturgy Energy Group, S.A. in June 2018. Naturgy Energy Group, S.A. was incorporated in 1843 and is based in Madrid, Spain.

2057 Navigator Holdings Ltd. owns and operates a fleet of liquefied gas carriers worldwide. The company provides international and regional seaborne transportation services of liquefied petroleum gas, petrochemical gases, and ammonia for energy companies, industrial users, and commodity traders. As of April 14, 2022, it operated a fleet of 53 semi or fully refrigerated liquefied gas carriers. The company was founded in 1997 and is based in London, the United Kingdom.

2058 NBTM New Materials Group Co., Ltd. produces and sells pressed formed powder metallurgy mechanical structural parts worldwide. The company provides press and sinter components, soft magnetic composite materials, and metal injection molding products. It serves consumer electronics, new energy, and automobile industries. The company was formerly known as Ningbo Tongmuo new materials Group Co., Ltd. and changed its name to NBTM New Materials Group Co., Ltd. in March 2007. NBTM New Materials Group Co., Ltd. is based in Ningbo, the People's Republic of China.

2059 NCC Group plc engages in the cyber and software resilience business in the United Kingdom, the Asian Pacific, North America, and Europe. It operates in two segments, Assurance and Software Resilience. The company offers assessment and advisory services, which include risk management, supply chain risk, cloud and infrastructure, application and security software, mobile, managed vulnerability scanning, hardware and embedded systems, and cryptography, as well as calibrator and cyber security review solutions. It also provides detection and response services, including managed detection and response, incident response, and threat intelligence; compliance services, such as data privacy, government security, and payments; and remediation and big bounty services. In addition, the company provides software resilience services, such as cloud software escrow solutions, on-premises software escrow agreements, on-premises software escrow verification, virtual and physical escrow vaults, software security testing, and software risk assessment tools, as well as offers training services to developers and other security teams. The company serves customers in various industries that include finance and professional, transport and manufacturing, public, retail, and energy and utilities, as well as technology, media, telecommunications sectors. NCC Group plc was founded in 1999 and is headquartered in Manchester, the United Kingdom.

2060 NCXX Group Inc. operates metaverse digital content, IoT solutions, and crypto asset and blockchain business in Japan. It also engages in the planning, development, and sale of nursing care and rehabilitation robots; and agricultural ICT business. The company primarily focus on metaverse and digital content, such as VR contract development, services, and develop and sell digital content including games and ebooks. It also provide services through cryptocurrency using blockchain technology. In addition, the company engages in M2M solution business, which develop, sell, and provide maintenance services for communication equipment on mobile internet device and M2M modules. Further, it offers travel quotation services, manufacture and sale of ethic clothing and miscellaneous products, financial services, system development business, and sale of software. The company was incorporated in 1984 and is headquartered in Hanamaki, Japan.

2061 NDFOS Co., Ltd. manufactures and sells tapes and films in South Korea. The company offers adhesive tapes that are used in mobile phones, as well as devices, such as cams, OLED TV cars, tablet PCs, EBook smart watches, notebooks, wireless earphones, and AI speakers; and films that are used in automotive, architecture, and paint and windshield protection industries. It also engages in the development of bio diagnostic kit; and provides wireless communication solutions. The company was founded in 2010 and is headquartered in Eumseongeup, South Korea.

2062 Nedap N.V., together with its subsidiaries, develops and supplies smart technological solutions worldwide. The company develops software services that allow healthcare professionals to interconnect; hardware and software solutions for vehicle identification systems; and technological solutions for the dairy farming and pig farming industries. It also provides lighting solutions and UV lamp driver technologies; develops and markets RFID solutions for retailers. In addition, the company develops access control and security systems for public sector institutions. Further, it focuses on workforce management software that facilitates timesheet processing, employee scheduling, and access control. Nedap N.V. was founded in 1929 and is headquartered in Groenlo, the Netherlands.

2063 Nederman Holding AB (publ) operates as an environmental technology company in Sweden and internationally. The company operates through four segments: Nederman Extraction & Filtration Technology; Nederman Duct & Filter Technology; Nederman Process Technology; and Nederman Monitoring & Control Technology. It offers industrial air filtration products for heavy process industries, including metal fabrication, power generation, mineral processing, chemical, and other industries, as well as for fiberbased production, process industry operations, and auto industry aftermarket sectors. The company also provides air filtration products, such as gas turbine inlet air filtration systems, and filters and related media products for the power generation and textile industries under the Nederman Pneumafil brand. In addition, it offers metal chip processing and ash handling systems to metal machining plants, metal recyclers, solid fuel-fired power plants, and others under the Nederman National Conveyors brand name; and designs and engineers components and systems, as well as provide manufacturing, assembling, installation, and after-sales services. Further, the company offers technologies for evaporation, drying, and filtration of liquids; and extrusion, spheronization, feeding, and pelleting in the chemical industry under the LCI brand name. Additionally, it supplies gas and dust analyzers based on tuneable diode laser absorption spectroscopy; and provides particulate monitors and intelligent controls for filtration systems and related material flow processes. The company also develops, manufactures, and markets solutions for monitoring industrial emissions and portable instruments. It sells its products through its own sales organization, agents, and resellers. The company was founded in 1944 and is headquartered in Helsingborg, Sweden.

2064 Neo Cremar Co., Ltd produces and sells functional food ingredients and additives in South Korea and internationally. It offers amino acids, vitamins, minerals, sugar substitutions, organic products, sweeteners, functional materials, sweetness/taste enhancers, premixes, active solutions, and antimicrobials and deodorizers. The company was founded in 1999 and is headquartered in Seoul, South Korea.

2065 Neo Performance Materials Inc. manufactures and sells rare earth, magnetic powders, magnets, and rare metal-based functional materials in Canada and internationally. The company operates in three segments: Magnequench, Chemicals and Oxides, and Rare Metals. The Magnequench segment produces magnetic powders that are used in bonded and hot deformed fully dense neodymium-iron-boron magnets. Its powders are used in the production of bonded permanent magnets that are components in automotive motors, micro motors, traction motors, sensors, and other applications. The Chemicals and Oxides segments manufactures and distributes a range of industrial materials for use in auto catalysts, petroleum refining and other chemical catalysts, magnets, hybrid and electric vehicles, water treatment, consumer electronics, and other applications. The Rare Metals segment sources, produces, reclaims,

refines, and markets hightemperature metals that include tantalum, niobium, hafnium, and rhenium; and electronic metals, such as gallium and indium. Its products are applied in super alloys for jet engines, medical imaging, wireless technologies, and LED lightings, as well as flat panel displays, solar, steel additives, batteries, and electronic applications. The company was founded in 1994 and is headquartered in Toronto, Canada.

2066 Neobo Fastigheter AB (publ) operates as a real estate company that manages and refines rental properties in Sweden. It offers services in the areas of vacant apartments, parking lots, and premises. Neobo Fastigheter AB (publ) was formerly known as Amasten Fastighets AB (publ) and changed its name to Neobo Fastigheter AB (publ) in December 2022. The company was incorporated in 1999 and is based in Stockholm, Sweden.

2067 NeoPharm CO., LTD. manufactures and sells skin care products in South Korea. The company offers Atopalm, a nonsteroid product for sensitive and dry skin; skin dermocosmetic products under the Real Barrier brand; products for sensitive, dry, oily, or troubleprone skin under the ZEROID brand; body moisturizers under the DermaB brand; and sport care products for athletes under the MISSION ATHELETICARE brand. NeoPharm CO., LTD. was founded in 2000 and is headquartered in Daejeon, South Korea.

2068 NEOWIZ develops and publishes games for PCs and mobiles in South Korea. The company was founded in 1997 and is headquartered in Seongnam, South Korea.

2069 NetaGo Technology Company Limited, an investment holding company, provides enviroental maintenance services in Hong Kong and Mainland China. The company offers janitorial services on streets and public areas, as well as waste and facility maintenance management services. It also leases properties; and trades in securities. The company was formerly known as U Banquet Group Holding Limited and changed its name to NetaGo Technology Company Limited in August 2021. NetaGo Technology Company Limited was incorporated in 2013 and is headquartered in Taikoo Shing, Hong Kong.

2070 Netcall plc engages in the design, development, sale, and support of software products and services in the United Kingdom and internationally. It offers Liberty Create, a lowcode development platform for producing applications that automate and transform the business and customer experience; Liberty RPA, an AIpowered robotic process automation; Liberty Connect, a cloud messaging and bot platform; and Liberty Converse, an omnichannel contact center and customer engagement management solution. The company also provides consultancy, implementation, and training services. Netcall plc was incorporated in 1984 and is headquartered in Bedford, the United Kingdom.

2071 Netcare Limited, an investment holding company, operates private hospitals in South Africa. The company operates through Hospital and Emergency Services, and Primary Care segments. The Hospital and Emergency Services segment engages in the hospital and pharmacy operations. Its operations covers its private acute hospital network and day clinics; and nonacute services, including emergency medical services, private mental health clinics operation, diagnostics support services, and cancer care services, as well as sells healthcare products and vouchers. The Primary Care segment offers healthcare services, and employee health and wellness services, as well as administrative services to medical and dental practices. The company also engages in the financing, property owing, and pharmaceutical services. It operates through a network of 51 hospitals; 2 publicprivate partnership hospitals; 10,605 registered hospital beds; 422 theaters; 10 cancer care centers; 63 renal dialysis units with 860 dialysis stations; 95 primary healthcare centers; 15 medicross day theaters; 79 netcare 911 emergency sites; 7 netcare training campuses;

and 12 mental health and psychiatric clinics with 841 beds. Netcare Limited was incorporated in 1996 and is headquartered in Sandton, South Africa.

2072 NetSol Technologies Limited develops and sells computer software and allied services in Pakistan, China, Thailand, Japan, Taiwan, Korea, Australia, New Zealand, the United States, the United Kingdom, the Middle East, and South Africa. The company operates through Product Based Solutions and Ancillary Services, Professional Services, and Business Process Outsourcing segments. It offers NFS Ascent comprising Omni Point of Sale, a webbased application that enables rapid data capture; Contract Management System, an application for managing and maintaining detailed credit contracts throughout their lifecycle; and Wholesale Finance Solution for automating and managing the lifecycle of wholesale finance. The company also provides NFS Digital, including Mobile Point of Sale, a web and mobileenabled platform that comprises of menu selling, application submission, loan calculator, work queues, and detailed reporting; Web Point of Sale; Mobile Collector to carry out collection related tasks; Mobile Field Investigator for verification of applicant details; Mobile Auditor, which enables business partners to schedule visits, record audit exceptions, and track assets, as well as auditors to conduct audits and submit results in realtime through quick audit processing tools; and Mobile Dealer, a mobile platform for business partners that delivers visibility and control over their inventories. In addition, it offers business intelligence, IT consulting and business process reengineering, technology and business process outsourcing, and application development and maintenance services. The company was incorporated in 1996 and is based in Lahore, Pakistan. NetSol Technologies Limited is a subsidiary of NetSol Technologies Inc.

2073 Netweek S.p.A. engages in the drafting, production, distribution, and sale of local information. The company operates iNetweek, which is a local media circuit with 68 local newspapers in northern Italy, as well as offers an online edition of newspapers. It also provides contract outsourcing services; multichannel integrated communication services on various media and channels for small and mediumsized businesses; and print and digital advertising services. The company was formerly known as Dmail Group S.p.A. Netweek S.p.A. was founded in 1979 and is based in Merate, Italy. Netweek S.p.A. operates as a subsidiary of D.Holding S.r.l.

2074 Neurosoft Software Production S.A., a software production and ICT company, designs, develops, customizes, and maintains integrated software systems in the areas of Fintech and analytics, systems engineering, and cyber security operations in Greece and internationally. The company offers Proxima+, a sales and supply chain finance platform; Angel that secures vessel's business and crew networks by providing oversight, security threat alerting, and control of the vessel's network; and Illicium, a cyberdeception platform. It also provides Neutrify, a cyber security defense center that monitors, detects, responds, and analyses cyber threats and attacks; RedyOps, which assists in evaluating the security of organization and helps to defend from attacks combining targets such as people, technology, and physical security; and Enterprise Link that provides centralized management with security, applicationaware policies, segmentation, and optimization for cloud connectivity. The company was founded in 1994 and is headquartered in Athens, Greece.

2075 Neusoft Corporation provides software and information technology solutions and services worldwide. The company offers healthcare solutions, such as hospital management, medical study cloud platform, and automated medical analysis solutions; automotive solutions, including intelligent cockpit systems, vehicle computing platform, invehicle

infotainment systems, cluster instruments, and navigation and connectivity solutions; and data integration, automated testing, data analysis, IT monitoring operation, cloud operation management, enterprise mobility management, and application performance management platforms. It also provides enterprise applications comprising human capital management, archives management, financial management, knowledge management, video surveillance, ecommerce, and supply chain management solutions; and enterprise intelligent products, such as service robots, selfservice terminals, enterprise grade terminals, allinone service platform, and network security solutions. The company serves healthcare, transportation, intellectual property, intelligent venues, telecom, education, environmental protection, energy, manufacturing, food and drug safety, finance, media, and science and technology industries. The company was founded in 1991 and is headquartered in Shenyang, the People's Republic of China.

2076 New Fortress Energy Inc. operates as an integrated gastopower energy infrastructure company that provides energy and development services to endusers worldwide. The company operates in two segments, Terminals and Infrastructure, and Ships. The Terminals and Infrastructure segment engages in the natural gas procurement and liquefaction; and shipping, logistics, facilities and conversion, or development of natural gasfired power generation. The Ships segment offers floating storage and regasification units (FRSU), and liquefied natural gas (LNG) carriers which are leased to customers under longterm or spot arrangements. The company operates LNG storage and regasification facility at the Port of Montego Bay, Jamaica; marine LNG storage and regasification facility in Old Harbour, Jamaica; landed microfuel handling facility in San Juan, Puerto Rico; FRSU in Sergipe, Brazil; and LNG receiving facility in La Paz, Mexico, as well as Miami facility. New Fortress Energy Inc. was founded in 1998 and is based in New York, New York.

2077 New Huo Technology Holdings Limited, an investment holding company, manufactures and sells powerrelated and electrical/electronic products in The People's Republic of China, the United Kingdom, the United States, Japan, Russia, and internationally. The company also provides data center and cloudbased services to customers in blockchain, virtual assets, fintech, and big data, as well as other technology sectors; Software as a service; and aftersales support, management, management consultancy, and asset management services, as well as operates virtual asset trading platform. The company holds interests in the Leviathan project, which covers an area of 500 km² located to the west of the shores of Haifa; the Block 12 that covers an area of approximately 386 km² located in Cyprus; and the Yam Tethys project, which covers an area of 500 km² located to the west of the shores of Ashkelon. It also holds interests in the New Ofek license that covers an area of approximately 344 km² located in Israel; the New Yahel license, covering an area of 397.5 km² located in Israel; and the Tanin and Karish leases covering an area of approximately 500km² located to the west of the shores of Nahariya. The company serves independent power producers and various industrial enterprises. NewMed Energy Management Ltd. serves as the general partner of the company. The company was formerly known as Delek Drilling Limited Partnership and changed its name to NewMed Energy

Limited Partnership in February 2022. NewMed Energy Limited Partnership was incorporated in 1993 and is based in Herzliya, Israel. NewMed Energy Limited Partnership is a subsidiary of Delek Energy Systems Ltd.

2089 Newmont Corporation engages in the production and exploration of gold. It also explores for copper, silver, zinc, and lead. The company has operations and/or assets in the United States, Canada, Mexico, Dominican Republic, Peru, Suriname, Argentina, Chile, Australia, and Ghana. As of December 31, 2022, it had proven and probable gold reserves of 96.1 million ounces and land position of 61,500 square kilometers. The company was founded in 1916 and is headquartered in Denver, Colorado.

2090 Newpark Resources, Inc. provides products, rentals, and services primarily to the oil and natural gas exploration and production (E&P) industry. It operates through two segments, Fluids Systems and Industrial Solutions. The Fluids Systems segment provides drilling, completion, and stimulation fluids products and related technical services to customers primarily in the North America, Europe, the Middle East, and Africa, as well as other countries in the Asia Pacific and Latin America. The Industrial Solutions segment offers composite matting system rentals utilized for temporary worksite access; related site construction and services to customers in various markets, including power transmission, E&P, pipeline, renewable energy, petrochemical, construction, and other industries primarily in the United States and Europe; recyclable composite mats to customers worldwide; and access road construction, site planning and preparation, environmental protection, fluids and spill containment, erosion control, and site restoration services. The company was incorporated in 1932 and is headquartered in The Woodlands, Texas.

2091 Nexa Resources Atacocha S.A.A. operates as a mining company worldwide. The company's mining portfolio comprises copper, zinc, lead, silver, and gold ores. It is also involved in the smelting of zinc and zamac alloys. The company was formerly known as Compañía Minera Atacocha S.A.A. Nexa Resources Atacocha S.A.A. was founded in 1936 and is based in Lima, Peru. Nexa Resources Atacocha S.A.A. operates as a subsidiary of Nexa Resources El Porvenir S.A.C

2092 Nexa Resources Perú S.A.A., together with its subsidiaries, engages in the exploration, exploitation, production, and commercialization of metals in Peru. It primarily explores for zinc, copper, lead concentrates, gold, and silver metals. The company holds 83.48% interest in the Cerro Lindo Mining Unit located in Ica, 83.48% interest in the El Porvenir unit situated in Pasco, and 75.96% interest in the Atacocha Mine located in Pasco. It also holds 62.61% interest in the Shalipayco project, 83.48 % interest in the Hilarián project, 50.93% interest in the Florida Canyon project, 83.48% interest in the Magistral project, and 83.48% interest in the Pukaqaqa project. The company was formerly known as Compañía Minera Milpo S.A.A. and changed its name to Nexa Resources Perú S.A.A. in September 2018. Nexa Resources Perú S.A.A. was founded in 1949 and is based in Santiago de Surco, Peru. Nexa Resources Perú S.A.A. operates as a subsidiary of Nexa Resources Cajamarquilla S.A.

2093 Nexen Tire Corporation engages in the production, sale, and rental of tires in South Korea and internationally. The company offers passenger car, SUV, van and light truck, and solid tires, as well as tubes and flaps; and tire finder and warranty services. It also provides services in the nontire sector, including transport and storage, and molding, as well as confectionery and baking. The company was founded in 1942 and is headquartered in Yangsansi, South Korea.

2094 Next BT Co., Ltd. manufactures, retails, imports, and exports health functional foods in South Korea. It is also involved in

biotechnology business, as well as manufacture of cosmetics. The company was founded in 1995 and is headquartered in Yongin, South Korea.

2095 Next Re SIIQ S.p.A. operates as a real estate investment company in Italy. It manages a portfolio of office, hotel, and commercial properties. The company was formerly known as Nova Re SIIQ S.p.A. and changed its name to Next Re SIIQ S.p.A. in November 2021. Next Re SIIQ S.p.A. was incorporated in 1977 and is headquartered in Rome, Italy.

2096 NextEye Co., Ltd. develops and supplies machine vision systems for semiconductor, automotive, mobile phone, and household industries. The company offers FPD glass testing, polarized film testing, BLU detection system, and prism film testing; food container inspection, can joint detection, bottle appearance detection, packing box assembly detection, and date printing detection products. It also provides mobile phones and electronic machines, such as cover case threedimensional measurement, PCB inspection of machine plate parts, mobile rear assembly's detection, and appearance detection products. In addition, the company offers vision lighting for testing equipment; indoor and outdoor lighting; and industrial and special lighting, and light panels, as well as operates an Internet based purchasing platform. The company was founded in 1998 and is headquartered in Anyang, South Korea.

2097 NFC Public Company Limited, together with its subsidiaries, engages in the sale of chemical products and other chemical related services in Thailand. The company produces and sells ammonia, ammonium hydroxide, and sulfuric acid. It also offers wharf frontage, warehousing, logistics and liquid storage, yard, and port services. The company was formerly known as NFC Fertilizer Public Company Limited and changed its name to NFC Public Company Limited in June 2017. NFC Public Company Limited was incorporated in 1982 and is headquartered in Bangkok, Thailand.

2098 NH Hotel Group, S.A. operates hotels in Spain, Benelux, Italy, Germany, Latin America, and internationally. It is also involved in procurement platform, call center, and catering services. The company was formerly known as NH Hoteles, S.A. and changed its name to NH Hotel Group, S.A. in June 2014. The company was incorporated in 1881 and is headquartered in Madrid, Spain. NH Hotel Group, S.A. is a subsidiary of MHG Continental Holding (Singapore) Pte. Ltd.

2099 NHN Corporation, an IT company, provides gaming, payment, entertainment, IT, and advertisement solutions in South Korea and internationally. It offers PAYCO, a payment service for online and offline stores; and NHN KCP, an integrated payment service. The company also provides comico, a Webtoon platform; Bugs, a music portal operating music streaming and online music distribution business; Ticketlink, a concert, culture, and sports ticket booking service; and Doctortour, a travel service that offers various travel packages. In addition, it offers Shop by, an online shopping mall solution, Godomall 5, an ecommerce solution for small and medium sized markets, TOAST, an integrated cloud solution; TOAST Cam, a smart cloud IP camera; TOAST File, a personal cloud service that helps file storage and management; and TOAST Cloud Center, a cloud data center. Further, the company provides NHN ACE, an integrated advertisement and marketing platform; OPEN Ads, a marketing data curation service; More, an onsite marketing solution; I am School, an education management platform; and Pink Diary, a female health care app for Korean society of obstetricians and gynecologists developed based on consultation by doctors. The company was formerly known as NHN Entertainment Corp. and changed its name to NHN Corporation in April 2019. NHN Corporation was founded in 2013 and is headquartered in Seongnam, South Korea.

2100 Nick Scali Limited, together with its subsidiaries, engages in sourcing and retailing of household furniture and related accessories

primarily in Australia and New Zealand. It offers sofas and armchairs; TV and entertainment units; coffee, side, and console and hallway tables; dining tables and chairs, and buffet tables and sideboards; mattresses, bed frames, bedside tables, tallboy, and dressers; and rugs, mirrors, and lighting. The company provides its products through a network of 63 stores in Australia and 5 stores in New Zealand, as well as online. Nick Scali Limited was incorporated in 1962 and is based in North Ryde, Australia.

2101 Nickel Industries Limited engages in nickel ore mining and nickel pig iron production operations in Singapore and Indonesia. It holds an 80% interest in the Hengjaya Mine that covers an area of 5,983 hectares located in the Morowali Regency of Central Sulawesi; 80% interest in the Ranger Nickel project; 80% interest in the Angel Nickel project; and 70% interest in the Oracle Nickel project. The company was formerly known as Nickel Mines Limited and changed its name to Nickel Industries Limited in June 2022. Nickel Industries Limited was incorporated in 2007 and is based in Sydney, Australia.

2102 Nidec ChaunChoung Technology Corporation provides thermal management products worldwide. It offers server/DT, NB/tablet, and LED modules; thermal components, including vapor chambers and heat pipes; and heatsinks and heatpipes. The company was formerly known as ChaunChoung Technology Corp. and changed its name to Nidec ChaunChoung Technology Corporation in January 2021. Nidec ChaunChoung Technology Corporation was incorporated in 1973 and is headquartered in New Taipei City, Taiwan.

2103 Nien Made Enterprise Co., LTD. engages in the research, development, design, manufacture, and sale of various types of window coverings and related components in the United States, Europe, and internationally. The company operates through two segments, Window Coverings and Other. It offers various types of blinds, shutters, shades, and related components; wood blinds and shutter semiproducts; smart drape; cellular, roman, and roller shades; plastic blinds and accessories; and chair covers. The company also designs, manufactures, and sells automated appliances and PVC tubes. In addition, it engages in manufacturing and selling dehumidifiers and air purifiers; the provision of logistics support services and window coverings documentation processing services; and trading and servicing in window coverings. The company was formerly known as Huan Qiu Shi Jing Co., Ltd. and changed its name to Nien Made Enterprise Co., LTD. in March 2008. Nien Made Enterprise Co., LTD. was founded in 1974 and is headquartered in Taichung, Taiwan.

2104 Nilfisk Holding A/S develops, manufactures, and sells cleaning solutions and services worldwide. It operates through five segments: Europe, Americas, APAC, Consumer, and Private Label and Other. The company offers commercial vacuum cleaners, such as upright, wet and dry, and dry vacuum cleaners, as well as industrial vacuum cleaners; floor cleaning machines, including scrubber dryers, sweepers, combination machines, carpet extractors, burnishers, steam cleaners, and autonomous floor cleaning machines; mobile, stationary, and petrol/diesel driven pressure washers; and industry, floorcare, textile, vehicle, and surface detergents, as well as care and maintenance products, and disinfectants. It also offers spare parts, accessories, and consumables. The company serves agriculture, automotive, building and construction, contract cleaners, education, food and beverage, healthcare, hospitality, iron and metal, manufacturing, offices and public buildings, pharma, retail, and warehousing and logistics industries through a network of dealers and distributors. Nilfisk Holding A/S was founded in 1906 and is headquartered in Brøndby, Denmark.

2105 Nine Entertainment Co. Holdings Limited engages in the broadcasting and program production businesses across free to air television, video on demand, and metropolitan radio networks in Australia. It operates through Broadcasting, Digital and Publishing, Domain Group, and Stan segments. The company provides television services under the brands, including 9Network, Channel 9, 9Gem, 9Go!, 9Life, and 9Rush; video on demand platform under 9Now brand; radio stations under 2GB, 3AW, 4BC, and 6PR brands; and publishes newspapers, newsinserted magazines, digital, and events, as well as nine.com.au, a site of news, lifestyle, sport, and entertainment content. It also offers mastheads under The Sydney Morning Herald, The Age, The Australian Financial Review, Brisbane Times, WAtoday, The SunHerald, and The Sunday Age brands. In addition, the company provides real estate media and technology services. Nine Entertainment Co. Holdings Limited was founded in 1956 and is headquartered in North Sydney, Australia.

2106 Ninestar Corporation operates as an imaging products and service provider. Its principal products include laser printers, copiers, integrated circuit chips, replacement print consumables, and cartridge core components. The company was formerly known as Apex Technology Co., Ltd. and changed its name to Ninestar Corporation in May 2017. The company was founded in 2000 and is based in Zhuhai, the People's Republic of China. Ninestar Corporation was formerly a subsidiary of Zhuhai Seine Printing Technology Co., Ltd.

2107 Ningbo Exciton Technology Co., Ltd. engages in the research and development, manufacture, and marketing of optical films and functional films in China. The company's products primarily include BritNit diffusion, brightness enhancement, reflection, LED, decorative, and protection films. It also provides laminated enhancement films, quantum dot films, laminated silvered reflectors, 3D grating films, and explosionproof films for multimedia teaching machines. In addition, the company offers photovoltaic film products, such as solar back sheets and ribbon reflective films; surface protection products for applications, such as photoelectricity automobiles, decorative materials, mobile phones, computers, and semiconductor wafer processing; reflective safety products for drivers and pedestrians; mobile phones; and composite films and bags for pharmaceuticals foodstuffs and daily chemical products. The company offers its products for application in new energy fields, including electrooptic display and LED lighting. Ningbo Exciton Technology Co., Ltd. was founded in 2007 and is based in Ningbo, China.

2108 Ningbo Heli Technology Co., Ltd. designs, develops, manufactures, and sells casting molds in China and internationally. It offers diecasting molds, gravity low pressure casting molds, gravity casting molds, molding lines, hot and cold core box molds, and hot forming stamping molds. The company also develops and manufactures aluminum alloy materials. The company was formerly known as Ningbo Heli Mould Technology Co., Ltd. and changed its name to Ningbo Heli Technology Co., Ltd. in June 2021. Ningbo Heli Technology Co., Ltd. is based in Ningbo, China.

2109 Ningbo Joyson Electronic Corp. engages in the research and development, manufacturing and sale of automotive components in China, and internationally. It offers intelligent cockpit, intelligent driving, mobility, automotive safety, etc. products. The company was founded in 1992 and is headquartered in Ningbo, China.

2110 Ningbo Marine Company Limited, a shipping company, provides marine transportation services in China and internationally. It operates in two segments, Shipping and Transportation; and Road Operation. The company involved in the international and domestic dry bulk transportation; general cargo transportation; repair and construction of ships and auxiliary machinery; sea cargo transfer and combined transportation;

warehousing and cargo collection; interior and exterior decoration; retailing; domestic labor service; house leasing; property management; and industrial investment activities. It also engages in the operation of toll road. Ningbo Marine Company Limited was founded in 1997 and is based in Ningbo, China. Ningbo Marine Company Limited is a subsidiary of Zhejiang Provincial Energy Group Company Ltd.

2111 Ningbo Menovo Pharmaceutical Co., Ltd. research, develops, produces, and sells pharmaceutical products. It offers APIs, intermediates, and formulations for the treatment of cardiovascular, central nervous, respiratory, antitumor, antiinfection, digestive, and geriatric diseases, as well as antiviral. The company was founded in 2004 and is headquartered in Ningbo, China.

2112 Ningbo Shuanglin Auto Parts Co.,Ltd. manufactures and sells auto parts in China. It offers automotive interior and exterior trim system parts; wheel hub bearings; precision injection molding products; seat system parts; transmissions; electric drives for new energy vehicles, etc. The company was founded in 2006 and is based in Shanghai, China. Ningbo Shuanglin Auto Parts Co.,Ltd. is a subsidiary of Shuanglin Group Co., Ltd.

2113 Ningbo Techmation Co.,Ltd. offers industrial automation solutions to the plastic machinery industry in China and internationally. It provides industrial automation products, including plastic machinery control systems, other control systems, intelligent controllers, etc.; and drive system products, which consists hydraulic servo systems, electric servo system assemblies, and other servo drives and inverters, as well as other related components. The company also offers Internet of Things software, such as the plastic machine network management system iNet, plastic processing information management cloud platform, and intelligent agricultural management system; and renewable new energy solutions. Ningbo Techmation Co.,Ltd. was founded in 1984 and is headquartered in Ningbo, China.

2114 Ningxia Jiaze Renewables Corporation Limited invests in, constructs, develops, operates, and manages energy projects. It operates wind power, photovoltaic, solar power, and microgrid projects. The company has an installed capacity of 1,827.875 megawatts, including 1,791.5 megawatts of wind power, 6.375 megawatts of smart microgrid, and 30 megawatts of photovoltaic power. The company was formerly known as Ningxia Jiaze Power Generation Co., Ltd. and changed its name to Ningxia Jiaze Renewables Corporation Limited in August 2015. Ningxia Jiaze Renewables Corporation Limited was founded in 2010 and is based in Yinchuan, China.

2115 Nippon Gas Co., Ltd. engages in the supply and sale of LP gas and natural gas in Japan. It operates through LP Gas Business, Electricity Business, and City Gas Business segments. The company supplies LP gas through pipelines to homes built for sale, company dormitories, apartment buildings, other residential apartment complexes, as well as for commercial, industrial, agricultural, and automotive use; and highpressure gas for commercial and industrial use. It also sells glasstop stoves, builtin stoves, gas oven ranges, gas rice cookers, dishwashers; gas water heaters, instant water heaters, floor heating products, bathroom heater/ventilation/dryer combo systems, and mist saunas; and commercial and industrial gas appliances. In addition, the company sells airconditioning equipment, including gas and absorption heat pumps, cogeneration systems, and gas infrared heaters; remodelingrelated equipment; and household equipment, as well as offers accident insurance agency services. Further, it engages in residential remodeling and consulting business; and the construction of gas, water supply, drainage, and air conditioning/heating equipment. Additionally,

the company is involved in the electric power and gas business. Nippon Gas Co., Ltd. was founded in 1955 and is based in Tokyo, Japan.

2116 Nippon Paint Holdings Co., Ltd. engages in the paint and fine chemicals businesses. The company offers automotive coatings, including paints for use in bumpers and plastic components; tradeuse paints for homes, buildings, and bridges; and industrial coatings that are used in a range of products, including construction and farming machinery, exterior construction materials, office equipment, and electric home appliances. It also provides marine coatings, such as antifouling paints; and paints for automobiles refinish, DIY, and road surface markings. In addition, the company offers surface treatment products comprising hydrophilic surface treatment and ecofriendly surface treatment agents; and fine products that include functional interlayer coatings, as well as coatings for display films. It has operations in Japan, Asia, the Americas, Oceania, and internationally. The company was formerly known as Nippon Paint Co., Ltd. and changed its name to Nippon Paint Holdings Co., Ltd. in October 2014. The company was founded in 1881 and is headquartered in Osaka, Japan.

2117 Nippon Sanso Holdings Corporation engages in the gas business in Japan, the United States, Europe, Asia, and Oceania. It operates through five segments: Gas Business in Japan; Gas Business in the United States; Gas Business in Europe; Gas Business in Asia and Oceania; and Thermos Business. The company offers oxygen, nitrogen, argon, carbon dioxide, helium, hydrogen, and acetylene; specialty gases, such as electronic material gases, pure gases, etc.; and gasrelated and electronicsrelated equipment. It also provides installation, semiconductor manufacturing equipment, cutting and welding equipment, welding materials, plants and machinery, liquefied petroleum gas, and related equipment, as well as medicaluse gases, medical equipment, and stable isotopes. In addition, it offers houseware products, such as stainlesssteel vacuum bottles. The company was formerly known as Taiyo Nippon Sanso Corporation and changed its name to Nippon Sanso Holdings Corporation in October 2020. Nippon Sanso Holdings Corporation was founded in 1910 and is headquartered in Tokyo, Japan. Nippon Sanso Holdings Corporation is a subsidiary of Mitsubishi Chemical Holdings Corporation.

2118 Nippon Steel Corporation engages in steelmaking and steel fabrication, engineering and construction, chemicals and materials, and system solutions businesses in Japan and internationally. The company's steelmaking and steel fabrication business offers steel plates, sheets, and slabs; bar and rod materials; structural steel; pipes and tubes; titanium and stainless products; and railway, automotive, and machinery parts for applications in automotive, energy, infrastructure, and consumer electronics markets. Its engineering and construction business cover steelmaking and other technologies; environment and energy; and urban infrastructure. The company's chemicals and materials comprise the electronics materials, such as display materials, epoxy resins, circuit board materials, and organic EL materials; coke, diverse aromatic products, and other diverse carbonrelated original products; and components for semiconductors and electronic parts. Its system solutions business includes IT consulting, IT outsourcing, DX promotion, and other services. The company was formerly known as Nippon Steel & Sumitomo Metal Corporation and changed its name to Nippon Steel Corporation in April 2019. Nippon Steel Corporation was incorporated in 1950 and is headquartered in Tokyo, Japan.

2119 Nirvana Daii Public Company Limited, together with its subsidiaries, develops and sells real estate properties. It also provides construction services; and distributes precast concrete products. The company was formerly known as Daii Group Public Company Limited and

changed its name to Nirvana Daii Public Company Limited in May 2017. The company is headquartered in Bangkok, Thailand.

2120 Nixu Oyj operates as a cybersecurity services company in Finland, Sweden, Dearth, Benelux, Norway, and internationally. The company offers services in the areas of business digitalization, cyber defense, cybersecurity outsourcing, security engineering, digital identity, cybersecurity exercises and training, IoT, cloud transformation, compliance and certification, and connected devices, as well as cloud security, safety, and reliability. It provides services and sells licenses to business enterprises and the public sector. Nixu Oyj was founded in 1988 and is headquartered in Espoo, Finland.

2121 Noble M&B Co., Ltd. operates as a precision lens company in South Korea. The company provides phone camera lens, automotive camera lens, projector optical engines, and in vitro eddyed systems. It also offers measuring instruments, such as interferometers, MTF and 3D coordinate measurement equipment, microscopes, spectro photometers, and focal length meters. The company was formerly known as Digital Optics Co., Ltd. and changed its name to Noble M&B Co., Ltd. in February 2022. Noble M&B Co., Ltd. was founded in 2000 and is based in Seoul, South Korea.

2122 Nokia Oyj provides mobile, fixed, and cloud network solutions worldwide. The company operates through four segments: Network Infrastructure, Mobile Networks, Cloud and Network Services, and Nokia Technologies. It offers products and services for radio access networks and microwave radio links for transport networks, and solutions for network management, as well as network planning, optimization, network deployment, and technical support services. The company provides fixed networking solutions, such as fiber and copperbased access infrastructure, WiFi inhome solutions, and cloud and virtualization services; IP networking solutions, including IP access, aggregation, and edge and core routing for residential, business, mobile, cloud, and digital industry applications, as well as softwaredefined WAN solutions; a portfolio of optical networks comprising portfolio coherent optical transponders, optical transport network switchers, wavelengthdivision multiplexers, reconfigurable optical adddrop multiplexer solutions, and optical line systems for metro access and aggregation, data center interconnect, regional, and longhaul/ultralonghaul applications; and submarine networks. In addition, it offers cloud and network services, including core network solutions, such as voice and packet core; business applications, which covers security, automation, and monetization; cloud and cognitive services; and enterprise solutions covering private wireless and industrial automation. Further, the company provides hardware, software, and services, as well as licensing of intellectual property, including patents, technologies, and the Nokia brand. It serves communications service providers, webscales, hyperscalers, digital industries, and government. Nokia Oyj was founded in 1865 and is headquartered in Espoo, Finland.

2123 Nokian Renkaat Oyj develops and manufactures tires in Finland, Nordics, Russia, the rest of Europe, Asia, the Americas, and internationally. It operates through Passenger Car Tyres, Heavy Tyres, and Vianor segments. The Passenger Car Tyres segment develops and produces summer and winter tires for cars and vans. The Heavy Tyres segment offers tires for forestry machinery; and special tires for agricultural machinery, tractors, and industrial machinery, as well as retreading materials and truck tires. The Vianor segment sells car and van tires, as well as truck tires under the Nokian brand, and other tire brands; and other automotive products and services. The company offers its products through its own Vianor service centers and service centers run by partners, the Nokian Tyres Authorized Dealer (NAD) partners, the

NTyre retailers, and other tire and vehicle retailers, as well as online stores. As of December 31, 2021, it operated 1,047 Vianor service centers; 2,282 NAD stores; and 110 NTyre stores. Nokian Renkaat Oyj was founded in 1898 and is headquartered in Nokia, Finland.

2124 Nokwon Commercials & Industries, Inc. offers silk screen printing inks. It also offers binders, hardeners, and aluminum pastes; precision stop cylinder presses, industrial stop cylinder presses, sheetfed cylinder presses, feeder detachable flat beds, and automatic presses; compact multifunction pressure and vacuum forming machines; and heating plate type pressure forming machines; and plastic filmmetal sheet composite coil, environmental protection materials, and silicone rubber films. Nokwon Commercials & Industries, Inc. was formerly known as Nokwon C.I., Inc. and changed its name as Nokwon Commercials & Industries, Inc. in February, 2018. The company was founded in 1987 and is based in Paju, South Korea.

2125 Nomura Research Institute, Ltd. provides consulting, financial information technology (IT) solution, industrial IT solution, and IT platform services in Japan. Its Consulting segment offers management and system consulting services for enterprise and government. This segment also offers policy proposals, strategic consulting, business consulting to support business reforms; and system consulting for IT management. The company's Financial IT Solutions segment provides system consulting, development, and management solutions, as well as shared online services for the financial institutions, including the securities, insurance, banking, asset management, and other financial sectors, as well as BPO services. Its Industrial IT Solutions segment offers system consulting, development, and operation solutions primarily for the distribution, manufacturing, service, and public sectors. The company's IT infrastructure Services segment engages in the data center operation activities and construction of platforms and networks to the Financial IT and Industrial IT Solutions segments, as well as provides IT platform solutions and information security services to external clients. This segment is also involved in research related to advanced IT; BC/DR services, including consulting on planning, creating backup systems, and office management; and cloud integration solutions. The company was founded in 1965 and is headquartered in Tokyo, Japan.

2126 Nongwoobio Co., Ltd. develops and distributes seeds for various vegetables primarily in South Korea. The company offers seeds for tomato, pepper, kohlrabi, broccoli, cauliflower, Chinese cabbage, radish, cucumber, watermelon, melon, squash, gourd, carrot, onion, bunching onion, lettuce, pak choi, spinach, and sweet corn. It also distributes bed soil, fertilizer, and soil conditioner. The company was formerly known as Nongwoo Seed and changed its name to Nongwoobio Co., Ltd. in 2000. The company was founded in 1967 and is based in Suwon, South Korea. Nongwoobio Co., Ltd. is a subsidiary of NongHyup Agribusiness Group Inc.

2127 Noodles & Company, a restaurant concept company, develops and operates fast-casual restaurants. It offers cooked-to-order dishes, including noodles and pasta, soups, salads, and appetizers. It operates company-owned locations and franchise locations. The company was founded in 1995 and is based in Broomfield, Colorado.

2128 Noratis AG invests in, develops, manages, and sells residential property portfolios in Germany. The company primarily focuses on a portfolio of apartments, residential areas, and housing estates. Noratis AG was founded in 2002 and is based in Eschborn, Germany.

2129 Norcros plc, together with its subsidiaries, designs, manufactures, and distributes bathroom and kitchen products in the United Kingdom and South Africa. The company manufactures and distributes electric and mixer showers, and accessories under the Triton brand name; shower enclosures

and trays to the residential, commercial, and hospitality sectors under the Merlyn brand; taps, mixer showers, bathroom accessories, and valves under the Vado brand name; and accessories and furniture for the bathroom, such as toilet seats, wallmounted cupboards, vanity units, shower rods, rails, and curtains to retail and trade customers under the Croydex brand name. It also offers kitchen taps, sinks, and instant hot water taps under the Abode brand name; ceramic wall and floor tiles under the Johnson Tiles brand name; and adhesives, grouts, and surface preparation products under the Norcros Adhesives brand name for fixing ceramic and porcelain tiles, mosaics, natural stones, and marbles. In addition, the company provides tile adhesives, pourable floor coverings, and tiling tools for various types of ceramic, porcelain, or natural stone tiles; and various products for the preparation of floors before the installation of hard and soft floor coverings, including primers, additives, patching and repair compounds, and screeds and selflevelling screeds, as well as waterproofing systems under the TAL brand name, as well as specialist plumbing materials under the House of Plumbing brand name. Further, it manufactures waterproof decorative bathroom wall panels under the Home of Multipanel brand name; and retails wall and floor tiles, adhesives, showers, sanitaryware, and bathroom fittings under the Tile Africa brand name. The company serves consumers, architects, designers, developers, retailers, and wholesalers. Norcros plc was incorporated in 1999 and is headquartered in Wilmslow, the United Kingdom.

2130 Nordic American Tankers Limited, a tanker company, acquires and charters doublehull tankers in Bermuda and internationally. It operates a fleet of 24 Suezmax crude oil tankers. The company was formerly known as Nordic American Tanker Shipping Limited and changed its name to Nordic American Tankers Limited in June 2011. The company was incorporated in 1995 and is based in Hamilton, Bermuda.

2131 Nordic Fibreboard AS engages in the production and sale of building materials. The company operates through Fibreboard Manufacturing and Sale; and Real Estate Management segments. It offers insulation boards, wind barrier boards, roof boards, and underlays under the ISOPLAAT trademark, as well as interior panels, including ceiling and wall panels under the Isotex name; and industrial boards. The company is also involved in the and rental and property development business, as well as real estate management activities. It markets its products in the Nordic, Russia, and the Baltics region. The company was formerly known as Skano Group AS and changed its name to Nordic Fibreboard AS in December 2019. Nordic Fibreboard AS is headquartered in Pärnu, Estonia.

2132 Nordic Lights Group Oyj manufactures and sells lighting solutions for heavyduty equipment in Europe, the Middle East, Africa, AsiaPacific, North America, and South America. It offers work, driving, and signal lights for mining, construction, forestry, agriculture, and material handling, as well as halogen and high intensity discharge lights. The company offers its products through sales representatives. Nordic Lights Group Oyj was founded in 1992 and is headquartered in Pietarsaari, Finland.

2133 Norfolk Southern Corporation, together with its subsidiaries, engages in the rail transportation of raw materials, intermediate products, and finished goods in the United States. The company transports agriculture, forest, and consumer products comprising soybeans, wheat, corn, fertilizers, livestock and poultry feed, food products, food oils, flour, sweeteners, ethanol, lumber and wood products, pulp board and paper products, wood fibers, wood pulp, beverages, and canned goods; chemicals consist of sulfur and related chemicals, petroleum products comprising crude oil, chlorine and bleaching compounds, plastics, rubber,

industrial chemicals, chemical wastes, sand, and natural gas liquids; metals and construction materials, such as steel, aluminum products, machinery, scrap metals, cement, aggregates, minerals, clay, transportation equipment, and military-related products; and automotive, including finished motor vehicles and automotive parts, as well as coal. It also transports overseas freight through various Atlantic and Gulf Coast ports; provides commuter rail passenger transportation services; and operates an intermodal network. As of December 31, 2022, the company operated approximately 19,100 route miles in 22 states and the District of Columbia. Norfolk Southern Corporation was incorporated in 1980 and is headquartered in Atlanta, Georgia.

2134 Noritz Corporation engages in the development, manufacture, and sale of household appliances and equipment, and related services worldwide. The company offers heating ventilation and air conditioning (HVAC) equipment, such as water heaters, hydronic heating systems, gas fan heaters, gas cogeneration systems, water tank units for use with fuel cells, solar water heaters, and industrial-use photovoltaic power generation systems. It also provides kitchen appliances, including built-in and countertop gas stoves, gas ovens, and range hoods. In addition, the company offers product repair, installation, after-sales, and regulatory compliance and safety inspection services. Noritz Corporation was incorporated in 1951 and is headquartered in Kobe, Japan.

2135 NORMA Group SE, together with its subsidiaries, manufactures and sells engineered joining technology solutions in Europe, the Middle East, Africa, the Americas, and the Asia-Pacific. The company provides quick connectors, hose clamps, retaining clamps, and pipe couplings. The company sells its products to distributors, original equipment manufacturer aftermarket customers, technical wholesalers, and hardware stores under the ABA, Breeze, ClampAll, CONNECTORS, FISH, Gemi, Kimplas, NDS, NORMA, Raindrip, R.G.RAY, Serflex, TORCA, and TRUSTLENE brand names through its distribution network, sales representatives, retailers, and importers. The company also provides water management, mobility thermal management, and commercial and passenger vehicles solutions. NORMA Group SE was founded in 1896 and is headquartered in Maintal, Germany.

2136 Norstar Holdings Inc., through its subsidiaries, acquires, develops, rents, and manages real estate properties in Israel, North America, Brazil, Northern Europe, and Central and Eastern Europe. It develops commerce, commercial centers, offices, housing units, and residential properties. The company was formerly known as Gazit Inc. and changed its name to Norstar Holdings Inc. in May 2011. Norstar Holdings Inc. was incorporated in 1962 and is based in Ramat Gan, Israel.

2137 North American Construction Group Ltd. provides equipment maintenance, and mining and heavy construction services in Canada, the United States, and Australia. Its Heavy Construction & Mining division offers constructability reviews, budgetary cost estimates, design-build construction, project management, contract mining, prestripping/pit pioneering, overburden removal and stockpile, muskeg removal and stockpile, site preparation, air strip construction, site dewatering/perimeter ditching, tailings and process pipelines, haulage and access road construction, tailings dam construction and densification, mechanically stabilized earth walls, dyke construction, and reclamation services; and Equipment Maintenance services. As of December 31, 2022, the company operated a heavy equipment fleet of 637 units. It serves resource development and industrial construction sectors. The company was formerly known as North American Energy Partners Inc. and changed its name to North American Construction Group Ltd. in April 2018. North American Construction Group Ltd. was founded in 1953 and is headquartered in Acheson, Canada.

2138 North China Pharmaceutical Company Ltd. operates as a chemical pharmaceutical company in China. It primarily offers anti-infective drugs, comprising APIs, and intermediates and their preparations; biotechnology drugs; cardiovascular and immunomodulators; vitamins health consumer products; and bioagricultural and veterinary drugs. North China Pharmaceutical Company Ltd. was founded in 1953 and is based in Shijiazhuang, China.

2139 Northam Platinum Holdings Limited, through its subsidiary, Northam Platinum Limited, produces and sells platinum group metals in South Africa, Europe, Japan, Asia, and North America. The company explores for platinum, palladium, rhodium, gold, iridium, ruthenium, silver, nickel, copper, cobalt, chrome, and UG2 ore deposits. It holds interests in the Booysendal mine located on the eastern limb of the Bushveld complex; the Zondereinde mine located in the northern end of the western limb of the Bushveld complex; and the Eland mine located in the southeastern portion of the western limb of the Bushveld complex. The company also offers recycling services. Northam Platinum Holdings Limited was founded in 2020 and is based in Johannesburg, South Africa.

2140 Northeast Pharmaceutical Group Co., Ltd. provides chemical synthetic and biofermentation APIs, and medicinal and microecological preparation products in China. It offers various nutritional products, such as Vitamin C, L-Carnitine, and other products; API products comprising fosfomycin, anti-aids, and other products; and chemical products, including chemical and pharmaceutical intermediates, chiral separation reagent products, etc. The company also provides digestives, narcotic medicines, cardiovascular, cerebrovascular medicines, etc. In addition, it engages in medical distribution business. Northeast Pharmaceutical Group Co., Ltd. was founded in 1993 and is based in Shenyang, China.

2141 NorthWestern Corporation, doing business as NorthWestern Energy, provides electricity and natural gas to residential, commercial, and various industrial customers. The company operates through three segments: Electric Utility Operations; Natural Gas Utility Operations; and Other. It generates, purchases, transmits, and distributes electricity; and produces, purchases, stores, transmits, and distributes natural gas, as well as owns municipal franchises to provide natural gas service in the communities. The company operates 6,597 miles of electric transmission and 18,534 miles of electric distribution lines with approximately 121 transmission and distribution substations; and 2,235 miles of natural gas transmission and 5,099 miles of natural gas distribution lines with approximately 135 city gate stations in Montana. It also operates 1,308 miles of electric transmission and 2,342 miles of electric distribution lines in South Dakota with approximately 121 transmission and distribution substations; and 55 miles of natural gas transmission and 2,545 miles of natural gas distribution lines in South Dakota and Nebraska. The company serves approximately 764,200 customers in Montana, South Dakota, Nebraska, and Yellowstone National Park. NorthWestern Corporation was incorporated in 1923 and is based in Sioux Falls, South Dakota.

2142 Nova Ltd. designs, develops, produces, and sells process control systems used in the manufacture of semiconductors in Israel, Taiwan, the United States, China, Korea, and internationally. Its product portfolio includes a set of metrology platforms for dimensional, films, and materials and chemical metrology measurements for process control for various semiconductor manufacturing process steps, including lithography, etch, chemical mechanical planarization, deposition, electrochemical plating, and advanced packaging. The company serves various sectors of the integrated circuit manufacturing industry, including logic,

foundries, and memory manufacturers, as well as process equipment manufacturers. Nova Ltd. was formerly known as Nova Measuring Instruments Ltd. and changed its name to Nova Ltd. in July 2021. Nova Ltd. was incorporated in 1993 and is headquartered in Rehovot, Israel.

2143 Novartis AG researches, develops, manufactures, and markets healthcare products in Switzerland and internationally. The company operates through two segments: Innovative Medicines and Sandoz. The Innovative Medicines segment offers prescription medicines for patients and physicians. It also provides cardiovascular, ophthalmology, neuroscience, immunology, hematology, and solid tumor products. The Sandoz segment develops, manufactures, and markets finished dosage forms of small molecule pharmaceuticals to third parties. It also provides protein or other biotechnology-based products, including biosimilars; and biotechnology manufacturing services; and anti-infectives, such as active pharmaceutical ingredients and intermediates primarily antibiotics. Novartis AG has a license and collaboration agreement with Alnylam Pharmaceuticals to develop, manufacture, and commercialize inclisiran, a therapy to reduce LDL cholesterol. Novartis AG was incorporated in 1996 and is headquartered in Basel, Switzerland.

2144 Novita S.A. engages in the production and distribution of household, medical and sanitary, clothing, footwear, and technical nonwovens worldwide. The company provides spunlace and needlepunched products. Its products are also used in the personal care and automotive industries; and production of disposable materials. Novita S.A. is also involved in rental activities. The company was incorporated in 2001 and is headquartered in Zielona G3ra, Poland. Novita S.A. is a subsidiary of Tebesa Sp. z o.o.

2145 NRG Energy, Inc., together with its subsidiaries, operates as an integrated power company in the United States. It operates through Texas, East, and West segments. The company is involved in producing and selling electricity and related products and services to approximately residential, commercial, industrial, and wholesale customers. It generates electricity using natural gas, coal, oil, solar, nuclear, and battery storage. The company also provides system power, distributed generation, renewable products, backup generation, storage and distributed solar, demand response, and energy efficiency and advisory services, as well as carbon management and specialty services. In addition, it trades in electric power, natural gas, and related commodities; environmental products; weather products; and financial products, including forwards, futures, options, and swaps. Further, the company procures fuels; and sells energy, services, and products and services under the NRG, Reliant, Direct Energy, Green Mountain Energy, Stream, and XOOM Energy. NRG Energy, Inc. was founded in 1989 and is headquartered in Houston, Texas.

2146 NSI N.V. is a specialist commercial property investor and the only listed real estate investment trust (REIT) focused on well-located offices in economic growth regions in The Netherlands. The NSI team aims to maximise returns for its shareholders through proactive management of its investment portfolio, value-add initiatives and disciplined asset rotation. The portfolio, with a value of over one billion euros, is underpinned by a strong balance sheet, with significant capacity to fund both internal and external growth. By investing in attractive space and a high level of services for its customers, NSI can generate sustainable and growing revenues to support an attractive level of dividend.

2147 NSL Ltd, an investment holding company, engages in the manufacture and sale of building materials, oil and petroleum related products business, and provision of environmental services in Singapore, Malaysia, the United Arab Emirates, Finland, Norway, Germany, and internationally.

It operates through three segments: Precast & Prefabricated Bathroom Unit, Environmental Services, and Chemicals. The company offers precast concrete components and prefabricated bathroom units; manufactures and sells of refractory materials and roadstone products; trades in oil products; and provides oil and chemical wastes disposal services. It also manufactures lifting equipment, and process technology and special purpose machines; and owns and manages Raffles Marina Club. The company was incorporated in 1961 and is headquartered in Singapore. NSL Ltd is a subsidiary of 98 Holdings Pte. Ltd.

2148 NSN Co., Ltd., a medical company, develops and sells brain disease treatment devices based on image guided low intensity focused ultrasound technology in the brain neuromodulation market. Its product includes NEUROSONA, a treatment device for brain disease. The company was formerly known as Amotion Co., Ltd. and changed its name to NSN Co., Ltd. in January 2017. NSN Co., Ltd. was founded in 1979 and is based in Seoul, South Korea.

2149 nTels Co., Ltd. provides solutions and services to energy, smart city, telecommunications, and manufacturing industries. It offers energy management systems; NTELS Smart Building, an integrated building management solution that facilitates automation and individual building systems; industrial safety management solution that minimizes safety risks for workers and asset loss by tracking their location and movement in industrial facilities in real time; and NTELS Digital Signage, a cloudbased IoT-enabled information display solution that provides converged media services. The company also provides NTELS Smart Healthcare solutions, which offers patients and healthcare providers with interactive and customized healthcare services, such as online access to medical records, and disease diagnosis and treatment. In addition, it offers platform that enables IoT services; business support systems, IoT business support systems, power business support systems, and white label billing systems; and network solutions, such as 5G network solutions, and virtualization and cloud services. nTels Co., Ltd. was founded in 2000 and is headquartered in Seoul, South Korea.

2150 Nuintek Co., Ltd. manufactures and sells film capacitors and metallized capacitor films worldwide. It provides highvoltage power factor correction capacitors for high voltage electrical system, as well as lowvoltage power factor correction capacitors for low voltage electrical system applications; and motor start/motorrunning capacitors for use in air conditioners, refrigerators, washing machines, motors, etc. The company also offers AC filter power electronics capacitors for used in wind power generation, sunlight generation, etc; and metallized polyester, polypropylene, and segmented films. In addition, it provides DC link power electronics capacitors for use in hybrid, electric, hydrogen fueled, and railroad cars, as well as heavy equipment, military equipment, ESS, photovoltaic power generators, wind and water power generators, inverters, converters, drive inverters, medical devices, wireless chargers, charge and discharge equipment, etc; energy discharge capacitor for medical devices, including cell proliferative stage, cardioverter, XRAY detector, etc; and metallized films. The company was formerly known as KUKKWANG Electric Co., Ltd. and changed its name to Nuintek Co., Ltd. in 2000. Nuintek Co., Ltd. was founded in 1968 and is headquartered in Asan, South Korea.

2151 Nuode New Materials Co., Ltd. engages in the research and development, production, and sale of electrolytic copper foils for lithium battery in China and internationally. Its products include 3.58 micron lithium copper foils, microporous and ultrathick copper foils, and 5g highfrequency standard copper foils for communication. The company was formerly known as Nuode Investment Co., Ltd and changed its name to Nuode

New Materials Co.,Ltd. in October 2022. Nuode New Materials Co.,Ltd. was founded in 1987 and is headquartered in Shenzhen, China.

2152 Nutrien Ltd. provides crop inputs and services. The company operates through Retail, Potash, Nitrogen, and Phosphate segments. The Retail segment distributes crop nutrients, crop protection products, seeds, and merchandise products. The Potash segment provides granular and standard potash products. The Nitrogen segment offers ammonia, urea, urea ammonium nitrate, industrial grade ammonium nitrate, and ammonium sulfate. The Phosphate segment provides solid fertilizer, liquid fertilizer, and industrial and feed products. In addition, it provides services directly to growers through a network of farm centers in North America, South America, and Australia. The company was incorporated in 2017 and is headquartered in Saskatoon, Canada.

2153 NuVasive, Inc., a medical technology company, develops, manufactures, and sells procedural solutions for spine surgery. It provides surgical access instruments, including Maxcess integrated splitblade retractor system that enable lessinvasive surgical techniques by minimizing soft tissue disruption during spine surgery; specialized spinal implants to advance spinal fusion by enhancing the osseointegration and biomechanical properties of implant materials, including porous titanium and porous polyetheretherketone; and fixation system that facilitates the preservation and restoration of patient alignment. The company also offers cervical total disc replacement technology for cervical spinal fusion surgery; neuromonitoring systems, which use proprietary software-driven nerve detection and avoidance technology, and its intraoperative neuromonitoring services and support; and Pulse platform, a software ecosystem that integrates multiple hardware technologies into a single, condensed footprint in the operating room. In addition, it provides expandable growing rod implant systems for the treatment of early-onset scoliosis; various biologics that are used to aid in the spinal fusion or bone healing process; Precice, an intramedullary device that utilizes the MAGEC technology to noninvasively lengthen the femur and tibia; and on-site and remote monitoring of the neurological systems of patients undergoing spinal and brain-related surgeries. The company sells its products to patients, surgeons, hospitals, and insurers through independent sales agents, directly employed sales personnel, and distributors in the United States and internationally. NuVasive, Inc. was incorporated in 1997 and is headquartered in San Diego, California.

2154 Nuvo Pharmaceuticals Inc., doing business as Miravo Healthcare, provides prescription and nonprescription products for pain, allergy, neurology, and dermatology worldwide. The company operates in three segments: Commercial Business, Production and Service Business, and Licensing and Royalty Business. It offers Blexten, an antihistamine drug for the symptomatic relief of allergic rhinitis and chronic spontaneous urticaria; Cambia, a nonsteroidal antiinflammatory drug for migraine; Suvexx/Treximet, a migraine medicine; NeoVisc, an injectable viscosupplement for osteoarthritis; and Resultz, FullMarks, and LAUSBUB for head lice infestations. The company also provides Bezalip SR for patients with high cholesterol or high levels of triglycerides; Proferin, an iron supplement for the prevention and treatment of iron deficiency; Fiorinal 1 and Fiorinal C1 for the relief of tension-type headaches; Collatamp G for surgical implantation during surgery; PegaLAX, a laxative for the treatment of occasional constipation and irregularity; Mutaflor, a probiotic for the management and relief of chronic constipation and associated abdominal pain and cramps; MoviPrep for the cleansing of the colon in preparation for colonoscopy; and Soriatane to treat psoriasis and other keratinization disorders. In addition, it

offers Pennsaid and Pennsaid 2% topical treatments for osteoarthritic pain; Vimovo for relief of arthritis symptoms; SYNERA and ROPYDAN topical patches used to help prevent pain associated with needle sticks and other superficial skin procedures; Yosprala for the prevention of heart attacks and strokes; and Heated Lidocaine/Tetracaine Patch, a topical patch applied prior to painful medical procedures. The company was formerly known as Nuvo Research Inc. and changed its name to Nuvo Pharmaceuticals Inc. in March 2016. Nuvo Pharmaceuticals Inc. was incorporated in 1983 and is headquartered in Mississauga, Canada. As of March 14, 2023, Nuvo Pharmaceuticals Inc. operates as a subsidiary of Searchlight Pharma Inc. 2155 NVC International Holdings Limited, together with its subsidiaries, engages in the manufacture and sale of lamps, luminaires, lighting electronic products, and related products in China, the United States, Japan, the Netherlands, the United Kingdom, and internationally. It offers interior lighting products, including strips, spotlights, downlights, track lights, panel lights, fluorescent luminaires, ceiling and wall lights, lamps, linear lights, and drivers; and exterior lighting products, such as flood lights, inground lights, underwater lights, bollard lights, post top lights, surface and recessed wall lights, undercanopy lights, and lighting controllers and drivers. Its products are used for commercial, emergency, industrial, office, traditional, and residential lighting applications. The company was formerly known as NVC Lighting Holding Limited and changed its name to NVC International Holdings Limited in January 2020. NVC International Holdings Limited was founded in 1998 and is headquartered in Tai Po, Hong Kong.

2156 nVent Electric plc designs, manufactures, markets, installs, and services electrical connection and protection products worldwide. The company operates through three segments: Enclosures, Electrical & Fastening Solutions, and Thermal Management. The Enclosures segment provides solutions to connect and protect critical electronics, communication, control, and power equipment; physical infrastructure solutions to host, connect, and protect server and network equipment; indoor and outdoor protection for test and measurement and aerospace and defense applications in industrial, infrastructure, commercial, and energy verticals; and metallic and nonmetallic enclosures, cabinets, sub racks, and backplanes. The Electrical & Fastening Solutions segment offers fastening solutions to connect and protect electrical and mechanical systems, and civil structures; and engineered electrical and fastening products. The Thermal Management segment offers electric thermal solutions that connect and protect buildings, infrastructure, industrial processes, and people; and provides thermal management systems comprising heat tracing, floor heating, fired and specialty wiring, sensing, and snow melting and deicing solutions. It sells its products under the CADDY, ERICO, HOFFMAN, RAYCHEM, SCHROFF, and TRACER brands. The company markets its products through electrical distributors, data center contractors, original equipment manufacturers, and maintenance contractors. It serves the energy, industrial, infrastructure, and commercial and residential sectors. The company was founded in 1903 and is based in London, the United Kingdom.

2157 NXP Semiconductors N.V. offers various semiconductor products. The company's product portfolio includes microcontrollers; application processors, including i.MX application processors, and i.MX 8 and 9 family of applications processors; communication processors; wireless connectivity solutions, such as near field communications, ultrawideband, Bluetooth lowenergy, Zigbee, and WiFi and WiFi/Bluetooth integrated SoCs; analog and interface devices; radio frequency power amplifiers; and security controllers, as well as semiconductor-based environmental and inertial sensors, including pressure, inertial, magnetic, and gyroscopic

sensors. The company's products are used in various applications, including automotive, industrial and Internet of Things, mobile, and communication infrastructure. The company markets its products to various original equipment manufacturers, contract manufacturers, and distributors. It operates in China, the Netherlands, the United States, Singapore, Germany, Japan, South Korea, Taiwan, and internationally. The company was formerly known as KASLION Acquisition B.V and changed its name to NXP Semiconductors N.V. in May 2010. NXP Semiconductors N.V. was incorporated in 2006 and is headquartered in Eindhoven, the Netherlands.

2158 NZME Limited, together with its subsidiaries, engages in the integrated media and entertainment business in New Zealand. It operates through Audio, Publishing, and OneRoof segments. The company operates terrestrial radio stations, digital iHeartRadio, podcasts, and radio brand websites; digital news websites including nzherald.co.nz. and BusinessDesk; and oneroof.co.nz website. It offers its products through audio brands, print publications, and real estate publications. The company was formerly known as Wilson & Horton Limited. NZME Limited was incorporated in 2001 and is based in Auckland, New Zealand.

2159 NZX Limited operates a stock exchange in New Zealand. The company operates through five segments: Capital Markets Origination, Secondary Markets, Data & Insights, Funds Management, and Wealth Technologies. The Capital Markets Origination segment provides issuer services for current and prospective customers. The Secondary Markets segment provides trading and posttrade services for securities and derivatives markets, as well as provides central securities depository; and acts as a market operator for Fonterra CoOperative Group, the Electricity Authority, and the Ministry for the Environment. The Data & Insights segment offers information services for the securities and derivatives markets; and analytics for the dairy sector. The Funds Management segment provides superannuation and KiwiSaver, and Smartshares exchange traded funds. The Wealth Technologies segment offers funds administration and custodian services. It also offers NZX Wealth Technologies, a platform that enables advisers and brokers to manage client investments. NZX Limited was founded in 1866 and is headquartered in Wellington, New Zealand.

2160 Obrascón Huarte Lain, S.A. engages in the construction and concessions development businesses in the United States, Canada, Mexico, Chile, Peru, Colombia, Spain, Central and Eastern Europe, and internationally. It operates through Construction, Industrial, and Services segments. The company provides civil engineering works and building construction services for public and private sector customers; and designs, constructs, maintains, and operates industrial plants and systems, including oil and gas, renewable energy, mining and cement, solids engineering, and firefighting systems. It also offers property and infrastructure maintenance services for homes and offices, urban green areas, road networks, and social and health services, as well as develops real estate projects, and develops and operates mixed use hotels. The company was formerly known as Sociedad General de Obras y Construcciones Obrascón, S.A. Obrascón Huarte Lain, S.A. was incorporated in 1911 and is headquartered in Madrid, Spain.

2161 Oceana Group Limited operates as a fishing company in South Africa, Namibia, rest of Africa, North America, Europe, the Far East, and internationally. It engages in catching, processing, and procuring various marine species, including pilchard, anchovy, redeye herring, Gulf menhaden, tuna, lobster, squid, horse mackerel, and hake. The company also markets and sells canned fish, fishmeal, and fish oil. In addition, it provides refrigerated warehouse facilities for cold storage, and logistical support services. The company was incorporated in 1918 and is headquartered in Cape Town, South Africa.

2162 Oceanbridge Co., Ltd manufactures and sells semiconductor materials and equipment. It also operates in chemical business. The company's products include precursors for semiconductor devices, gases, chemical and slurry supply systems, N2 side storage equipment, ion implant parts, Orings, and boards, as well as through silicon via technology. It serves the semiconductor industry. The company was founded in 2012 and is headquartered in Anseongsi, South Korea.

2163 OCI Company Ltd., together with its subsidiaries, manufactures and sells basic chemical products in Korea, the United States, China, Asia, Europe, and internationally. The company operates through Basic Chemicals, Carbon Chemicals, Energy Solutions, City Development Projects, and Others segments. It provides basic chemicals, such as polysilicon used for solar power generation and semiconductors; phosphoric acid, which is used in semiconductor wafer etchant material, and LCD etchant material; hydrogen peroxide used as an environmentally friendly oxidant; fumed silica that is used in construction, automobile, semiconductors, etc.; and vacuum insulation panels. The company also offers petrochemical and carbon materials, including carbon black used as reinforcing the rubber elasticity, as well as ink, paint, and electrical conductive materials; benzene, toluene, and xylene used as a base material; pitch used as a binder in anodes for aluminum smelting, and other binding applications; plasticizers that enhance flexibility, lowtemperature resistance, and processability of PVC products; and TDI used in foam type products, such as the components of vehicles, shoes, furniture, beds, paints, and adhesives. In addition, it provides develops and operates solar PV energy and cogeneration power plants. Further, the company manufactures and sells percarbonate, solar tracker and panels, pesticides, coal tar, and carbon black, as well as solar generation equipment and related materials. Additionally, it develops real estate; invests in and operates information system; supplies steam and hot water; and offers manpower and jobs for business support services. The company was formerly known as DC Chemical Co., Ltd. and changed its name to OCI Company Ltd. in April 2009. The company was incorporated in 1959 and is headquartered in Seoul, South Korea.

2164 Octodec, a real estate investment trust (REIT) listed on the Johannesburg Stock Exchange and one of the largest owners of property in the Tshwane and Johannesburg CBDs, is committed to delivering longterm stakeholder value through an innovative and visionary perspective on property investment.

2165 Odel PLC operates as a fashion and lifestyle retailer in Sri Lanka. It provides winterwear, formalwear, casualwear, sportswear, maternity wear, swimwear, nightwear, underwear and socks, lingerie, beauty products, accessories, jewelleries, watches and sunglasses, bags, travel bag accessories, and footwear for men, women, and kids. The company also offers bath and baby care, bedding, baby apparels, nursery, feeding, and baby proofing and safety products, as well as push chairs, accessories, car and travel, toys, and entertainment products for kids. In addition, it provides home and lifestyle products, including bath, bed, dining, living, kitchen, garden, books, stationery, and seasonal products; food and beverage products, such as tea, beverages, brews, chocolate, condiments, health and wellbeing, snacks, and sweet treats; and souvenirs and gift products. Further, the company is involved in letting retail space; manufacturing and supplying garments; manufacturing and retailing fashion items; managing restaurants; and importing and retailing branded apparels. The company provides its products through 80 stores, as well as online. The company was incorporated in 1990 and is based in Rajagiriya, Sri Lanka. Odel PLC is a subsidiary of Softlogic Retail Holdings (Pvt) Limited.

2166 Odfjell Drilling Ltd. owns and operates mobile offshore drilling units in Norway, the United Kingdom, Europe, Asia, Africa, and internationally. It operates through Mobile Offshore Drilling Units business (MODU), Energy business (Energy), and Well Services business (OWS) segments. The MODU segment offers management services to other owners of drilling units; and operational management, regulatory requirements management, marketing, contract negotiations and client relations, and operation and mobilization preparation services. The Energy segment provides integrated drilling and maintenance services for fixed platform drilling rigs in the North Sea, as well as engineering services, including design, project management, and operation and support services. The OWS segment offers casing and tubular running services; wellbore cleaning; and drilling tool and tubular rental services for exploration wells and production purposes. The company was founded in 1914 and is headquartered in Aberdeen, the United Kingdom. Odfjell Drilling Ltd. operates as a subsidiary of Odfjell Partners Ltd.

2167 Odfjell SE engages in the transportation and storage of bulk liquid chemicals, acids, edible oils, and other special products. The company operates Chemical Tankers and Tank Terminals segments. It owns and operates chemical tankers that offers global and regional transportation; and tank terminals, which provides storage of various chemical and petroleum products. As of December 31, 2021, it operated a chemical tanker fleet of 93 vessels, including 50 owned, six bareboat chartered, 13 time chartered vessels, and 24 pool vessels. The company's terminal network comprises of 469 tanks with 1.3 million cubic meters of storage capacity. It operates in Norway, the Netherlands, rest of Europe, North America, South America, the Middle East, Asia, Australasia, and Africa. Odfjell SE was founded in 1914 and is headquartered in Bergen, Norway.

2168 ODTech Co., Ltd. manufactures and sells semiconductors in South Korea. The company's products include silicon chips, such as zener diodes, submounts, power transistors and diodes, fast recovery diodes, photo transistors and diodes, and photo diode arrays, as well as semiconductor packaging products; quantum dots; and opto devices, such as emitters, detectors, photo interrupters, and optical sensors. It also offers tiny photoelectric sensors, area sensors, photomicrosensors, bubble sensors, position detection sensors, distance detection sensors, bead detection sensors, H₂O detection sensors, and UV sensors; and LED dot matrix products, including indoor, semi outdoor, and outdoor products, as well as lighting products, such as living lighting, landscape lighting, and agricultural and life application lighting products. The company's products are used in office and industrial appliance, automotive, medical equipment, consumer, lighting and other applications. ODTech Co., Ltd. was founded in 1999 and is headquartered in Wanjugun, South Korea.

2169 OEL (Holdings) Limited, an investment holding company, engages in the healthcare services, medical equipment, supplies and distribution, and childcare education businesses in Singapore. The company is also involved in the rental of properties; research and development of medical technologies; and manufacture and repair of irradiation and electromedical of high intensity focused ultrasound machines and other medical equipment. In addition, it offers management consultancy services for healthcare organizations, and childcare services for preschool children; and engages in the hospital management, nursery and kindergarten, medical technology, biotechnology, and technology development businesses. The company was formerly known as Oakwell Engineering Limited and changed its name to OEL (Holdings) Limited in November 2013. OEL (Holdings) Limited was incorporated in 1984 and is based in Singapore.

2170 Oeneo SA operates in the wine industry worldwide. The company manufactures and sale of cork closures. It also provides solutions in wine making and spirits. Oeneo SA is headquartered in Bordeaux, France. Oeneo SA is a subsidiary of Caspar SAS.

2171 Officina Stellare S.p.A. designs, produces, and sells opticalmechanical instruments for ground and spacebased applications worldwide. The company also offers telescopes. It serves aerospace, defense, earth observation, science research, space situation awareness, optomechanical systems, and laser communication sectors. The company was founded in 2009 and is headquartered in Sarcedo, Italy.

2172 OFILM Group Co., Ltd. manufactures and sells optic and photoelectric products. Its products include compact camera modules, touch panel modules, fingerprint recognition module, and electronic products of intelligent vehicles. The company's products are used in consumer electronics, as well as smart phones, tablets, PCs, smart cars, and wearable electronics. It operates in China, the United States, Japan, South Korea, and Europe. The company was formerly known as Ofilm Tech Co., Ltd. and changed its name to OFILM Group Co., Ltd. in March 2019. OFILM Group Co., Ltd. was founded in 2002 and is based in Shenzhen, China.

2173 Oil and Gas Exploration and Production AD, together with its subsidiaries, engages in the prospecting, exploration, development, and exploitation of oil and gas fields in Bulgaria and internationally. It also processes crude oil to final products. The company is involved in the designing and conducting of 2D and 3D seismic data acquisition; processing and interpreting of geological and geophysical data; designing and drilling of deep wildcat, as well as exploration, appraisal, and production oil and gas wells; mud logging activities; and designing and drilling of exploration and production wells for mineralized water and geothermal energy, as well as underground water for human consumption, households, and industrial purposes. It also designs and conducts maintenance works on wildcat, exploration and production wells for oil and gas, underground and mineral water, and geothermal energy; offers well logging services; provides geological and geophysical services for prospecting and exploring oil and gas, ores, and minerals; and constructs oil and gas pipelines, and installs and assembles highpressure operations equipment. In addition, the company provides a range of oil products, such as solvents for the lacquerdyeing industry, diluents, lighting kerosene, leadfree automobile gasoline grades, diesel fuel grades, industrial gasoil, fuel for stationary burner installations, oil fuel, and boiler fuel. Further, it trades in specialized equipment, spare parts, and materials for prospecting, exploration, and production of oil and gas; and publishes and distributes periodical magazine covering scientific works and monographs in areas of regional geological research, exploration and production of mineral resources, legal acts, and trade information and advertisements. The company was founded in 1991 and is headquartered in Sofia, Bulgaria.

2174 Oishi Group Public Company Limited, together with its subsidiaries, operates Japanese restaurant in Thailand and internationally. It operates in two segments, Food and Beverage. The company also offers ramen, and snack and frozen foods; readytocook and readytoeat products; produces and distributes green tea, fruit juice flavored drinks, herbal drinks, and drinking water; and distributes food and beverage products under the OISHI brand. In addition, it provides brand and marketing management; consulting; and food delivery services, as well as sells food online in Thailand. The company was founded in 1999 and is based in Bangkok, Thailand. Oishi Group Public Company Limited is a subsidiary of Thai Beverage Public Company Limited.

2175 OKH Global Ltd., an investment holding company, provides property development and investment property rental services in Singapore. It operates through Property Investment, Construction Services, and Property Development segments. The Property Investment segment leases investment properties. The Construction Services segment provides general engineering services, as well as operates as a general builder and construction contractor; and sells construction materials. The Property Development segment develops industrial properties. OKH Global Ltd. was founded in 1998 and is based in Singapore.

2176 OKWAVE, Inc. operates question and answer (Q and A) community websites in Japan. The company's services include OKWAVE, a free Q and A service that can solve different types of problems and questions; OKWAVE Plus, a Q and A community that solves the complex issues of the IoT / 5G era; GRATICA, a free thanks card service that conveys gratitude through the card; and CTRAX that allows to trade crypto assets through your smartphone. It also provides URwallet that allows you to send and receive four types of crypto assets; BCVote, an online voting system based on the blockchain technology; and Davia that provides birthday reminder and sending of greeting cards services. The company was founded in 1999 and is headquartered in Tokyo, Japan.

2177 Olympus Corporation manufactures and sells precision machineries and instruments worldwide. It operates through: Endoscopic Solutions Business, Therapeutic Solutions Business, Scientific Solutions Business, and Others segments. The Endoscopic Solutions Business segment offers gastrointestinal and surgical endoscopy system, surgical microscopes, endoscope reproprocessors, operating rooms, repair and maintenance services. The Therapeutic Solutions Business segment provides urology, gynecology, respiratory, ear, nose, and throat products; GI endotherapy and energy devices; and surgical singleuse devices. The Scientific Solutions Business segment offers biological and industrial microscopes, industrial videoscopes, nondestructive testing equipment, and X-ray fluorescence (XRF) analyzers. The Others segment offers biomedical materials and orthopedic equipment. The company was formerly known as Olympus Optical Co., Ltd. and changed its name to Olympus Corporation in October 2003. Olympus Corporation was incorporated in 1919 and is headquartered in Tokyo, Japan.

2178 Oman Cables Industry SAOG develops, manufactures, and markets electrical cables and conductors in the Sultanate of Oman and internationally. The company operates through Utilities, Building & Construction, Oil, Gas & Petroleum, Industrial Mining & Processing Plant, Transportation & Infrastructure, and Renewables segments. It offers medium and low voltage cables, overhead line conductors, building wires and cables, fire resistant cables, oil and gas cables, renewables, and special cables. In addition, the company is involved in processing aluminum and copper. Oman Cables Industry SAOG was founded in 1984 and is headquartered in Rusayl, the Sultanate of Oman.

2179 Oman Cement Company SAOG manufactures and sells cement and related products in the Sultanate of Oman and other GCC countries. Its products comprise sulphate resistant, ordinary Portland, moderate sulphate resistant, crystal, and oil well cement, as well as clinker. The company was incorporated in 1978 and is based in Ruwi, the Sultanate of Oman. Oman Cement Company SAOG is a subsidiary of Oman Investment Authority.

2180 Oman Investment & Finance Co. SAOG, an investment and services company, provides billing, collection, and debt factoring services for the electricity, water, and telecom services in the Sultanate of Oman and other GCC countries. The company invests in real estate, equity securities, and other investments; and offers meter reading, bill printing, bill delivery, disconnection/reconnection, and bill collection

services for electricity, water, telecommunication, and other sectors. Further, the company offers swabbing, predeparture and preevent testing, and laboratory testing services, as well as sells test kits; and higher education programmes to dentists, as well as trades in dental surgery materials and equipment; and develops dental healthcare software and equipment. As of December 31, 2021, it operated 97 dental outlets, 5 medical outlets, and 1 dental college in Singapore; 38 dental outlets in Malaysia; and 1 dental outlet in People's Republic of China. The company was founded in 1996 and is headquartered in Singapore. Q & M Dental Group (Singapore) Limited is a subsidiary of Quan Min Holdings Pte. Ltd.

2498 QFree ASA supplies intelligent transportation system products and solutions worldwide. It offers tolling products, such as dedicated shortrange communication onboard units, roadside transceivers/antennas, handheld transceivers/digital tachographs, and automated license plate recognition (ALPR) cameras/imaging systems. The company also provides Intrada ALPR, an automatic license plate recognition and vehicle analytics solution; Intrada Insight, an image processing and review solution; and Intrada Synergy Server, an image processing solution for videobased passages, such as tolling and parking/access control. In addition, it offers traffic management products, including Urban hardware, such as ATC controllers and cabinets; urban software comprising central and local traffic control software systems, as well as ramp meter, analytics, adaptive, and connected vehicle software enhancements; interurban software, such as Statewide ATMS, a statewide freeway traffic management software system, as well as software enhancements for work zone and event management; and infomobility hardware products, including high and lowspeed weighstation systems, as well as traffic counting and classification products for vehicles, bicycles, and pedestrians. The company also provides maintenance services. QFree ASA was founded in 1984 and is headquartered in Trondheim, Norway.

2499 QANTM Intellectual Property Limited provides intellectual property services for startup technology businesses, multinationals, public research institutions, and universities in Australia, New Zealand, Singapore, Malaysia, and Hongkong. The company offers services related to patents, designs, and trademarks. It also provides legal and litigation services, platformbased services, as well as softwarebased attorney tools. The company offers its services under the Davies Collison Cave, FPA Patent Attorneys, Cotters Patent and Trade Mark Attorneys, Advanz Fidelis IP, and Sortify.tm Ltd brands. QANTM Intellectual Property Limited was founded in 1877 and is based in Melbourne, Australia.

2500 Qatar Gas Transport Company Limited (Nakilat) (QPSC), together with its subsidiaries, operates as a shipping and maritime company in Qatar. The company is involved in the chartering of vessels; ship repair and offshore construction activities; fabrication, construction, and assembly of offshore and onshore structures; and provision of pipe fabrication and solutions, module fabrication and assembly, and onshore field and modular construction services. It also offers towage services through owned and operated tug boats, pilot boats, line boats, crew boats, and other harbor crafts, as well as towing, escorting, berthing, pilot support, afloat and ashore line handling services, emergency response, and marine maintenance support. In addition, the company provides agency and logistic support services, custom formalities, husbandry services, bunker coordination services, crew change and administration services, spare and supply services, and drydocking support services; and various support services to vessels, such as chandlery services, storage facilities, and logistics and related services. Its fleet consists of 29 whollyowned and 40 jointlyowned vessels; 4 LPG carriers; 1 floating storage regasification unit vessel; and 25 tugs and marine support vessels. Qatar Gas Transport Company Limited (Nakilat) (QPSC) was incorporated in 2004 and is headquartered in Doha, Qatar.

2501 QIAGEN N.V. offers sample to insight solutions that transform biological materials into molecular insights worldwide. The company provides primary sample technology consumables, such as nucleic acid stabilization and purification kits for primary sample materials, manual and automated processing for genotyping, gene expression, and viral and bacterial analysis, as well as silica membranes and magnetic bead technologies; secondary sample technology consumables, including kits and components for purification of nucleic acids from secondary sample materials; and instruments for nucleic acid purification and accessories. It also provides interferon-gamma release assay for TB testing, and assays for posttransplant testing and viral load monitoring; assays for prenatal testing and detection of sexually transmitted diseases and HPV, as well as assays for analysis of genomic variants, such as mutations, insertions, deletions, and fusions; and sample to insight instruments, including onestep molecular analysis of hardtodiagnose syndromes, and integrated PCR testing. In addition, it offers PCR consumables, such as quantitative PCR, reverse transcription, and combinations kits for analysis of gene expression, genotyping, and gene regulation instruments and technologies; human ID and forensics assay consumables, including STR assays for human ID, and assays for food contamination; PCR instruments consist of digital PCR solutions; and developed and configured OEM consumables. Further, the company provides predefined and custom NGS gene panels, library prep kits and components, and whole genome amplification; QIAGEN consumables and instruments, as well as bioinformatics solutions; and custom laboratory and genomic services. It serves molecular diagnostics, academia, pharmaceutical, and applied testing customers. The company was founded in 1986 and is headquartered in Venlo, the Netherlands.

2502 Qibu Co., Ltd. design, develops, produces, and sells children shoes, wear, and clothing accessories under the ABC KIDS brand name primarily in China. Qibu Co., Ltd. was founded in 2009 and is headquartered in Lishui, China.

2503 Qijing Machinery Co., Ltd. researches and develops, manufactures, and sells washing machine gear cases, home appliance parts, auto parts, and power tools. The company was founded in 1996 and is headquartered in Ningbo, China. Qijing Machinery Co., Ltd. is a subsidiary of Ningbo Qijing Holdings Co., Ltd.

2504 Qilu Expressway Company Limited, together with its subsidiaries, operates expressways in the People's Republic of China. The company constructs, maintains, operates, and manages the Jihe Expressway that has a total length of approximately 153.6 kilometers, which runs from Jinan City to Heze City in Shandong Province; Deshang Expressway that has a total length of approximately 68.942 kilometers in Henan Province; and Shennan Expressway that has a total length of approximately 18.267 kilometers in Henan Province. It also produces and distributes outdoor advertising; and sells construction materials, as well as provides construction contracting services. The company was formerly known as Shandong Jihe Expressway Company Limited. Qilu Expressway Company Limited was incorporated in 2004 and is headquartered in Jinan, the People's Republic of China.

2505 QinetiQ Group plc operates as a science and engineering company primarily in the defense, security, and infrastructure markets in the United States, Australia, Europe, and internationally. The company operates through EMEA Services and Global Products segments. It offers advanced materials and manufacturing products; artificial intelligence, analytics, and advanced computing technologies; cyber and electromagnetic technologies; human protection and performance systems; novel systems, and weapons and effects; maritime platform, and system design and assessment products; power sources, and energy storage and distribution products; robotics and autonomy services; secure communications and navigation systems; and sensing, processing, and data fusion systems. The company also provides testing and evaluation, training and simulation, and cyber and digital resilience services, as well as unmanned air, land, and surface targets. It serves defense, aviation and aerospace, energy and utility, financial services, government, law enforcement, marine, space, and telecommunications sectors. The company was founded in 2001 and is based in Farnborough, the United Kingdom.

2506 Qingdao Huijintong Power Equipment Co., Ltd. manufactures and sells various galvanized and painted steel structures primarily in China. The company offers lattice steel towers, UHV towers, steel tubular towers, microwave communication towers, steel poles, substation structures, electrified railway structures, wind power generation equipment, photovoltaic power generation equipment, etc. It also provides electric power tower parts, fasteners, and electric power line accessories; offshore drilling platform, production platform, marine floating structure, equipment and fittings of marine engineering, tower, metal structure R & D, ocean engineering technology R & D, technology services; and inspection and testing services for steel structures and metal materials. In addition, the company offers new material technology R&D, technology promotion and transfer, and technical consultation services; professional contracting, labor subcontracting, project management, technology development, consultation, service, promotion, and import and export of goods; international trade; and sale of transmission line steel towers. It serves State Grid, China Southern Grid, and power generation companies. The company also exports its products to Canada, Myanmar, Pakistan, Kyrgyzstan, Australia, Italy, Sri Lanka, Laos, France, Israel,

Mongolia, and internationally. Qingdao Huijintong Power Equipment Co.,Ltd. was founded in 2004 is based in Qingdao, China.

2507 Qingdao Kingking Applied Chemistry Co., Ltd. engages in the manufacture and sale of cosmetics and scented candles in China and internationally. The company provides cosmetics products under the ALLL Beauty brand. It also sells through online channel. The company was founded in 1993 and is based in Qingdao, China.

2508 Qingdao TGOOD Electric Co., Ltd. provides the electrical transmission and distribution solutions in China and internationally. The company offers kiosks, trailer, modular, and skip substations; electrical components, including HV gas insulated, HV hybrid gas insulated, and medium voltage switchgears; and transformers, such as dry type, oil filled, and amorphous alloy core transformers. It serves mining, oil and gas, railway, utilities, and renewables industries. The company was founded in 2004 and is based in Qingdao, China.

2509 Qingdao Tianneng Heavy Industries Co.,Ltd manufactures and sells wind turbine towers and related equipment in China and internationally. The company offers onshore wind power towers, offshore wind power towers; offshore wind power foundations comprising single piles, cages, and high pile caps; and onshore wind power anchors. It also invests, develops, constructs, and operates new energy projects, such as wind and photovoltaics farms. Qingdao Tianneng Heavy Industries Co.,Ltd was incorporated in 2006 and is headquartered in Jiaozhou, China.

2510 Qingdao Zhongzi Zhongcheng Group Co.,Ltd. engages in the research and development, manufacturing, and innovation of power and harmonic pollution control equipment in China and internationally. It offers green power grid products, such as high voltage shunt and filter capacitors; and magnetically controlled static var compensation devices. The company also invests in the construction of power plants, and grid transmission and distribution facilities; and invests in, develops, and operates industrial parks. In addition, it develops and operates in various industries, such as ap water, natural gas, expressway, port, wharf, and fishery through BOT, IBO, and PPP. Further, the company is involved in financial investment; EPC general contracting; property services; mining services; production and sales of coal; and domestic and foreign trade. The company was formerly known as Qingdao Hengshun Zhongsheng Group Co., Ltd. and changed its name to Qingdao Zhongzi Zhongcheng Group Co., Ltd. in February 2019. Qingdao Zhongzi Zhongcheng Group Co.,Ltd. was founded in 1998 and is based in Qingdao, China.

2511 Qingling Motors Co., Ltd., together with its subsidiaries, produces and sells Isuzu trucks in the People's Republic of China. The company offers light, medium, and heavyduty trucks; pickup trucks; and chassis, automobile parts, engines, accessories, and others. It is also involved in the production of moulds for manufacturing automobile parts; and automobile retailing and aftersales service business. In addition, it exports its products. The company was founded in 1946 and is based in Central, Hong Kong. Qingling Motors Co., Ltd. is a subsidiary of Qingling Motors (Group) Company Limited.

2512 Qinqin Foodstuffs Group (Cayman) Company Limited, an investment holding company, manufactures, sells, and distributes food and snacks products in the People's Republic of China. The company operates through four segments: Jelly Products, Crackers and Chips, Seasoning Products, and Confectionery and Other Products. It offers jelly products, crackers and chips, seasoning products, sesame candy, chocolate, dried fruits, nuts, biscuits, bakery, dried meat, vegetarian snacks, and other food and snacks products under the Qinqin, Shangerry, and A Snack Shop brands. The company also manufactures, sells, and distributes rice wine and beverage products. In addition, it is involved in the trading and online trading

activities. The company was founded in 1990 and is headquartered in Jinjiang, China.

2513 QITIAN Technology Group Co., Ltd. develops, produces, and sells plastic lenses in China. The company was founded in 1996 and is based in Shanghai, China.

2514 Qiwi plc, together with its subsidiaries, operates electronic online payment systems primarily in the Russia, Kazakhstan, Moldova, Belarus, the United Arab Emirates, and internationally. The company operates through Payment Services, Consumer Financial Services, and Rocketbank segments. It offers payment services across online, mobile, and physical channels through a network of approximately 75,000 kiosks and 18,000 terminals. The company also provides Qiwi Wallet, which is an online and mobile payment processing, and money transfer system that allows customers to pay for the products and services of merchants, as well as perform peertopeer money transfers through a virtual wallet; and Visa prepaid cards. In addition, it offers paymentby installments card systems under the SOVEST brand name. Further, it provides digital banking services to retail customers under the Rocketbank name; and to small and medium businesses under the Tochka name. The company was incorporated in 2007 and is based in Nicosia, Cyprus.

2515 QTC Energy Public Company Limited manufactures and sells electric transformers in Thailand and internationally. It also provides various services, such as scheduled checks and maintenance, transformer repairs and maintenance, transformer oil fill, transformer rental services, etc. In addition, the company invests in the renewable energy business; and produces and distributes electricity from solar energy. It offers its products under the QTC name, as well as under customer specific brands. The company was formerly known as QTC Transformers Co., Ltd. and changed its name to QTC Energy Public Company Limited in August 2010. QTC Energy Public Company Limited was founded in 1996 and is based in Bangkok, Thailand.

2516 Qu Mei Home Furnishings Group Co.,Ltd. research, develops, designs, manufactures, and sells household products in China. It offers upholstered furniture, such as sofas, electric chairs, and softpack dining chairs. Qu Mei Home Furnishings Group Co.,Ltd. was founded in 1993 and is based in Beijing, China.

2517 QUA Granite Hayal Yapi ve ĖzerĖnleri Sanayi Ticaret A.S. manufactures, exports, and sells ceramics, floor tiles, tile materials, and granite in Turkey, Europe, the United States, and internationally. The company also offers bathroom, kitchen, outdoor, and wall tiles; and toilets, luminaires, sinks, reservoirs, and shower systems. It sells its products through dealers, distributors, and DIY market chains. The company was incorporated in 2015 and is based in Aydin, Turkey.

2518 QUALCOMM Incorporated engages in the development and commercialization of foundational technologies for the wireless industry worldwide. It operates through three segments: Qualcomm CDMA Technologies (QCT); Qualcomm Technology Licensing (QTL); and Qualcomm Strategic Initiatives (QSI). The QCT segment develops and supplies integrated circuits and system software based on 3G/4G/5G and other technologies for use in wireless voice and data communications, networking, application processing, multimedia, and global positioning system products. The QTL segment grants licenses or provides rights to use portions of its intellectual property portfolio, which include various patent rights useful in the manufacture and sale of wireless products comprising products implementing CDMA2000, WCDMA, LTE and/or OFDMAbased 5G standards and their derivatives. The QSI segment invests in earlystage companies in various industries, including 5G, artificial intelligence, automotive, consumer, enterprise, cloud, IoT, and extended reality, and investments,

including noarketable equity securities and, to a lesser extent, marketable equity securities, and convertible debt instruments. It also provides development, and other services and related products to the United States goverent agencies and their contractors. The company was incorporated in 1985 and is headquartered in San Diego, California.

2519 Quality Construction Products Public Company Limited, together with its subsidiary, produces and distributes autoclaved aerated concrete blocks, reinforced wall panels, floor panels, and lintels for construction uses in Thailand and internationally. It also offers readymade counters, plastering mortar, bed adhesive mortar, aerated stair system, and tools and accessories. The company was founded in 1994 and is based in Phra Nakhon Si Ayutthaya, Thailand. Quality Construction Products Public Company Limited is a subsidiary of SCG Building Materials Company Limited.

2520 Quorum Information Technologies Inc., an information technology company, focuses on the automotive retail business in Canada and the United States. The company develops, markets, implements, and supports XSellerator, a dealership management system that automates, integrates, and streamlines processes across departments in a dealership; and DealerMine CRM, a sales and service customer relationship management system, as well as a set of business development center services. It also offers Autovance, a retailing platform that helps dealerships attract more business through digital retailing, and enhances instore profits and closing rates through its desking tool; and Accessible Accessories, a digital retailing platform that allows franchised dealerships to increase vehicle accessories revenue. In addition, the company offers software technology solutions and services to traditional and electric vehicle dealerships, and original equipment manufacturers. Quorum Information Technologies Inc. was founded in 1996 and is headquartered in Calgary, Canada.

2521 R Systems International Limited provides information technology and business process outsourcing (BPO) services worldwide. It offers AWS powered, campaign to closure, customer experience analytics, and TOP testing suite solutions. The company also provides technology solutions, such as cloud enablement, digital platforms and solutions, Internet of Things, product engineering, and QA testing; automation and AI data and analytics services, including advanced analytics, AI machine learning, business analytics, intelligent automation, data monetization and modernization, and modern data management; and design services, including reengineering, UX engineering, mobile user experience, and visual design services. It serves finance and insurance, healthcare and life science, telecom, technology, media and entertaient, retail and ecommerce, and public sectors. The company was incorporated in 1993 and is headquartered in Noida, India.

2522 R. STAHL AG, through its subsidiaries, develops, manufactures, assembles, and distributes devices and systems for measuring, controlling, and distribution of energy, securing, and lighting explosive enviroents worldwide. The company offers luminaires, including linear luminaires, tubular light fittings, emergency luminaires, floodlights, pendant light fittings, wall and ceilingmounted bulkhead light fittings, helideck systems, and hand lamps; junction and terminal boxes; and control boxes, such as temperature controllers and limiters, and thermostat solutions. It also provides control systems and distribution boards comprising lighting and heating circuit distribution boards, load disconnect switches, motor protection circuit breakers, safety switches, uninterrupted power supply products, machine controls, and battery boxes, as well as directonline motor, star delta, and soft starters. In addition, the company offers operating and monitoring systems; automation

interfaces and solutions for safety barriers, isolators, remote I/O, fieldbus technology, Ex p products, grounding systems and monitoring devices, and network technology products; cable glands, components, and enclosures; cameras and CCTV equipment; visual and audible signalling devices, and control devices; and plugs and sockets, and connectors. Further, it provides automation and container system, power distribution, lighting, and machine control solutions. The company serves oil and gas, chemical, marine and shipbuilding, pharmaceutical, machine, food and beverage, and other industries. R. STAHL AG was founded in 1876 and is headquartered in Waldenburg, Germany.

2523 R.A.K. Ceramics P.J.S.C. engages in manufacture and sale of various ceramic products in the Middle East, Europe, Asian countries, and internationally. The company operates through four segments: Ceramics Products, Faucets, Other Industrial, and Others segments. It offers ceramic wall and floor tiles, gres porcellanato, and bathware and table ware; taps and faucets. The company also manufactures and distributes power, paints, plastics, mines, and chemicals; and provides security, material movement, utility, and real estate services. In addition, it engages in manufacturing, processing, importing, and exporting of industrial minerals; general trading activities; and manufacturing of pipes. Further, the company undertakes construction projects and civil works; leases investment properties; provides wastewater treatment works; trades in ceramic tiles and sanitary ware; extracts, distributes, and exports clay and other minerals; and offers adhesives. R.A.K. Ceramics P.J.S.C. was incorporated in 1989 and is headquartered in Ras Al Khaimah, the United Arab Emirates.

2524 RadNet, Inc., together with its subsidiaries, provides outpatient diagnostic imaging services in the United States. The company operates in two segments: Imaging Centers and Artificial Intelligence. Its services include magnetic resonance imaging, computed tomography, positron emission tomography, nuclear medicine, mammography, ultrasound, diagnostic radiology, fluoroscopy, and other related procedures, as well as multimodality imaging services. The company also develops and sells computerized systems that distribute, display, store, and retrieve digital images; offers picture archiving communications systems and related services; and develops and deploys AI suites to enhance radiologist interpretation of breast, lung, and prostate images, as well as AI solutions for prostate cancer screening. RadNet, Inc. was founded in 1981 and is headquartered in Los Angeles, California.

2525 Rai Way S.p.A. owns and manages television and radio transmission and broadcasting networks in Italy. The company provides terrestrial and satellite transmission of television and radio signals through the network infrastructure, as well as through radio links, satellite, and fiber optic networks. It also offers tower rental services, which include hosting of third party transmission and broadcasting equipment; management and maintenance services; and other complementary services. In addition, the company provides network services that include heterogeneous services; digital broadcasting networks; transmission networks and management systems; DTT, multimedia communications, and value added services; project management, organization, and processes; and maintenance of transmission network services. It primarily serves broadcasters, telecommunications operators, public administrations, and corporates. The company was incorporated in 1999 and is based in Rome, Italy. Rai Way S.p.A. is a subsidiary of Rai Radiotelevisione italiana S.p.A.

2526 Raimon Land Public Company Limited, together with its subsidiaries, engages in the property development activities in Thailand. It develops and sells land, houses, and residential condominiums. The company is also

involved in the rental of office buildings, residential condominiums, and community malls; and hospitality, and food and beverage businesses. In addition, it offers property rental, lease, and resale agency services. Raimon Land Public Company Limited was founded in 1987 and is headquartered in Bangkok, Thailand.

2527 Rajthanee Hospital Public Company Limited, together with its subsidiaries, offers healthcare services in Thailand. The company operates medical centers, including trauma emergency and neurosurgery, nontrauma emergency, cardiology, minimally invasive surgery, surgery, orthopedic, wellness and occupational health, radiology, MRI, ophthalmology, hemodialysis, sleep lab, dental, physical therapy, and laboratory centers; and medical clinics, such as hematology, nephrology, arthritis and rheumatic, dermatology, allergy and immunology, oncology and chemotherapy, stroke, endocrinology, pulmonary, gastrointestinal and liver diseases, pediatrics, maternal and fetal medicine, obstetrics and gynecology, otolaryngology, psychiatric, and screening clinic for respiratory diseases. Rajthanee Hospital Public Company Limited was incorporated in 1990 and is headquartered in Phra Nakhon Si Ayutthaya, Thailand.

2528 Ramada Investimentos e Industria, S.A. primarily engages in the manufacture and commercialization of steel products in Portugal and internationally. The company operates through Industry and Real Estate segments. It offers steel for use in the construction of machines and components; and production of tools, including dies, cutters, and molds for industrial markets, such as plastic mould manufacturing, automotive industry components, capital goods, and components for household appliances and electronics. The company also manufactures and sells steel wires for the industrial, agriculture, and civil construction markets. In addition, it manages and leases real estate properties comprising forestry assets; and manages financial investments. The company was formerly known as F. Ramada Investimentos, SGPS, S.A. Ramada Investimentos e Industria, S.A. was founded in 1935 and is headquartered in Porto, Portugal.

2529 Ramboda Falls PLC engages in hoteliering and leisure related activities in Sri Lanka. The company was founded in 1994 and is based in Tsim Sha Tsui, Hong Kong.

2591 Robertet SA produces and sells perfumes, aromas, and natural products. The company operates in three segments: Raw materials, Fragrances, and Flavors. It also produces organic essential oils and active ingredients. The company operates in North America, Europe, the Asia Pacific, South America, Caribbean, Africa, and the Middle East. Robertet SA was founded in 1850 and is headquartered in Grasse, France.

2592 Robostar Co., Ltd. manufactures and sells industrial robots, FPD equipment, IT parts manufacturing, and semiconductor equipment in South Korea, China, Japan, Europe, and the United States. It offers cartesian, linear, SCARA, desk top, picker, servopress, and articulated robots, as well as controllers, telescopes, standard brackets, and UVW stage products. The company also provides transfer robots for transferring and loading the main roles of FPD manufacturing processes. In addition, it offers semiconductor robot and equipment for transferring wafers in various semiconductor processes, as well as in FPD production fields; precision stage; and system equipment. The company was founded in 1999 and is headquartered in Ansan, South Korea.

2593 Rockwell Automation, Inc. provides industrial automation and digital transformation solutions in North America, Europe, the Middle East, Africa, the Asia Pacific, and Latin America. The company operates through three segments, Intelligent Devices, Software & Control, and Lifecycle Services. Its solutions include hardware and software products and services. The Intelligent Devices segment offers drives, motion, safety, sensing, industrial components, and configured-to-order products. The Software & Control segment provides control and visualization software and hardware, information software, and network and security infrastructure solutions. The Lifecycle Services segment provides consulting, professional services and solutions, and connected and maintenance services. The company sells its solutions primarily through independent distributors in relation with its direct sales force. It serves discrete end markets, including automotive, semiconductor, and warehousing and logistics, as well as general industries comprising printing and publishing, marine, glass, fiber and textiles, airports, and aerospace; hybrid end markets, such as food and beverage, life sciences, household and personal care, and tire, as well as eco industrial, including water/wastewater, waste management, mass transit, and renewable energy; and process end markets comprising oil and gas, mining, metals, chemicals, pulp and paper, and others. Rockwell Automation, Inc. was founded in 1903 and is headquartered in Milwaukee, Wisconsin.

2594 Rocky Mountain Chocolate Factory, Inc., together with its subsidiaries, operates as a confectionery franchisor, manufacturer, and

retail operator. It operates through five segments: Franchising, Manufacturing, Retail Stores, USwirl Operations, and Other. The company produces approximately 400 chocolate candies and other confectionery products, including clusters, caramels, creams, toffees, mints, and truffles; and offers 15 varieties of caramel apples and other products that are prepared in individual stores, as well as provides ice cream, coffee, and other sundries. As of March 31, 2022, it operated two companyowned, 99 licenseeowned, and 159 franchised Rocky Mountain Chocolate Factory stores operating in 37 states in South Korea, Panama, and the Philippines; three companyowned, and 63 franchised and licensed caf  s located in 22 states and Qatar; and selfserve frozen yogurt caf  s under the USwirl, Yogurtini, CherryBerry, Yogli Mogli Frozen Yogurt, Fuzzy Peach Frozen Yogurt, Let  s Yo!, and Aspen Leaf Yogurt brand names. The company has strategic alliance with Edible Arrangements, LLC and its affiliates to provide branded chocolate products. Rocky Mountain Chocolate Factory, Inc. was founded in 1981 and is headquartered in Durango, Colorado.

2595 Rogers Communications Inc. operates as a communications and media company in North America. It operates through three segments: Wireless, Cable, and Media. The company offers mobile Internet access, wireless voice and enhanced voice, device financing, device protection, global voice and data roaming, wireless home phone, bridging landline, machinetomachine and Internet of Things solutions, and advanced wireless solutions for businesses, as well as device shipping services; and postpaid and prepaid services under the Rogers, Fido, and chatr brands. It also provides internet and WiFi services; and smart home monitoring services, such as monitoring, security, automation, energy efficiency, and smart control through a smartphone app. In addition, the company offers local and network TV; ondemand television; cloudbased digital video recorders; voiceactivated remote controls, and integrated apps; personal video recorders; linear and timeshifted programming; digital specialty channels; 4K television programming; and seasonal games through television, smartphones, tablets, personal computers, and other streaming devices, as well as operates Ignite TV and Ignite TV app. Further, it provides residential and small business local telephony services; calling features, such as voicemail, call waiting, and long distance; voice, data networking, Internet protocol, and Ethernet services; private networking, Internet, IP voice, and cloud solutions; optical wave and multiprotocol label switching services; information technology (IT) and network technologies; cable access network services; and telecommunications technical consulting services. Additionally, the company owns Toronto Blue Jays and the Rogers Centre event venue; and operates Sportsnet ONE, Sportsnet 360, Sportsnet World, Citytv, OMNI, FX (Canada), FXX (Canada), and OLN television networks, as well as 54 AM and FM radio stations. Rogers Communications Inc. was founded in 1960 and is headquartered in Toronto, Canada.

2596 Rogers Corporation engages in the design, development, manufacture, and sale of engineered materials and components worldwide. It operates through Advanced Electronics Solutions (AES), Elastomeric Material Solutions (EMS), and Other segments. The AES segment offers circuit materials, ceramic substrate materials, busbars, and cooling solutions for applications in electric and hybrid electric vehicles (EV/HEV), wireless infrastructure, automotive, telematics and thermal solutions, aerospace and defense, mass transit, clean energy, connected devices, and wired infrastructure. This segment sells its products under the curamik, ROLINX, RO4000, RO3000, RT/duroid, CLTE Series, TMM, AD Series, DiClad, CuClad Series, Kappa, COOLSPAN, TC Series, 92ML, IsoClad, MAGTRES, XTremeSpeed RO1200, IM Series, 2929 Bondply, 3001 Bondply Film, Radix,

and SpeedWave names. The EMS segment provides engineered material solutions, including polyurethane and silicone materials used in cushioning, gasketing, sealing, and vibration management applications; customized silicones used in flex heater and semiconductor thermal applications; and polytetrafluoroethylene and ultrahigh molecular weight polyethylene materials used in wire and cable protection, electrical insulation, conduction and shielding, hose and belt protection, vibration management, cushioning, gasketing and sealing, and venting applications. This segment sells its products under the PORON, BISCO, DeWAL, ARLON, eSorba, XRD, Silicone Engineering, and R/bak names. The Other segment provides elastomer components; and elastomer floats for level sensing in fuel tanks, motors, and storage tanks for applications in the general industrial and automotive markets under the ENDUR and NITROPHYL names. The company was founded in 1832 and is headquartered in Chandler, Arizona.

2597 Ronglian Group Ltd. provides IT solutions in China and internationally. It provides infrastructure and data center solutions, such as IT planning, application and system integration, professional operation and maintenance, and specialized services; virtualization, and private and hybrid cloud services; and B2B, smart city, and operation services. The company also offers enterprise cloud services, such as cloud planning and design, service migration, resource management, integration development, and operation monitoring services, as well as industry cloud solutions, such as insurance, exploration, and education. In addition, it provides Internet of Vehicles ecosystem through specialized hardware and software products, business platforms, and data services; Internet of Water solution to control leakage and venting, and ensure water quality safety; big data storage, data application, and data visualization solutions; and smart news solutions. Further, the company offers biodata platform and biological cloud, and hospital and healthcare management solutions. It serves the energy, transportation, telecom, media, finance, insurance, government, education, manufacturing, biological, and healthcare industries. The company was formerly known as UEC Group Ltd. Ronglian Group Ltd. was founded in 2001 and is based in Beijing, China.

2598 Roshow Technology Co., Ltd. primarily engages in the research, development, manufacture, sale of electromagnetic products in China. The company's principal products include composite enameled copper round wires, variable frequency enameled copper round wires, selfadhesive enameled copper round wires, corona enamelled copper round wires, enameled round aluminum wires, and various ultrafine enameled wires. Its products are used in the electric power, motor, home appliance, automobile, electronics, communication, transportation, power grid, aerospace, and other fields. The company also offers CNC motors, automotive and marine parts, new energy vehicle accessories, and solar power generation related products. In addition, it invests in, designs, constructs, operates, services, and distributes photovoltaic power plants. The company also exports its products to the United States, Brazil, Japan, Italy, Mexico, Slovakia, and other countries. Roshow Technology Co., Ltd. was founded in 1989 and is headquartered in Zhuji, China.

2599 Rosseti Kuban PJSC, a grid company, engages in the transmission and distribution of electricity in Russia. The company operates 90 thousand km of electricity transmission lines; and serves 5.5 million people in the Krasnodar region and the Republic of Adygea. It is also involved in the organization of vacations, and recreation and health improvement facilities for children and adults; design, assembling, construction, and installation of metering stations for electric energy, gas, and

technological equipment; and supply of hot and cold water. The company was formerly known as Kuban power and electrification public joint stock company and changed its name to Rosseti Kuban PJSC in October 2020. The company is based in Krasnodar, Russia. Rosseti Kuban PJSC is a subsidiary of PJSC Rosseti.

2600 Rotshtein Realestate Ltd develops and constructs residential projects in Israel. It also undertakes engineering works. The company was formerly known as D. Rothstein Company and changed its name to Rotshtein Realestate Ltd in February 2013. Rotshtein Realestate Ltd is based in Petah Tikva, Israel. Rotshtein Realestate Ltd is a subsidiary of Avnei Shoham Yizum Ltd.

2601 Rovio Entertainent Oyj creates, develops, and publishes mobile games in North America, Latin America, Europe, the Middle East, Africa, and the Asia Pacific. It operates live games; and develops new games based on Angry Birds characters and new intellectual properties (IPs); and licenses the Angry Birds brand to product manufacturers and content producers, and characters to third parties, as well as consumer products, movies, animations, and other entertainent products; and IPs for tangible goods, promotional campaigns, and locationbased entertainent, including activity parks. The company is also involved in the animation broadcasting and distribution, and advertising businesses; and provision of animated series. Rovio Entertainent Oyj was incorporated in 2003 and is headquartered in Espoo, Finland.

Thai Culinary School name; and real estate activities. The company was incorporated in 1973 and is based in Bangkok, Thailand.

2615 S. Pack & Print Public Company Limited, together with its subsidiaries, manufactures and sells corrugated and duplex board packaging products in Thailand. It also engages in the offset printing

business. The company was incorporated in 1994 and is headquartered in Songkhla, Thailand. S. Pack & Print Public Company Limited is a subsidiary of Oji Holdings Corporation Company Limited.

2616 S.C. Promateris S.A. manufactures and sells biobased packaging solutions primarily to retailers and retail chains in Romania and internationally. The company offers biodegradable and compostable singlelayer and doublelayer films, biodegradable and compostable tubular films, biodegradable and compostable gusseted tubular films, shopper bags and tearoff liasses, bottom seal tearoff bags, diecut handle tear off bags, fruit and vegetables shopper bags on a roll, gusseted sacks on a roll, fruit and vegetables shopper sacks on a roll, and starsealed and wave top opening bags on a roll. It also provides bin liners and bin liners with handle; compostable mulching films; and compostable construction films. Promateris S.A. was founded in 1957 and is headquartered in Buftea, Romania.

2617 S.T. Dupont S.A. designs, manufactures, and sells luxury products in France and internationally. The company offers lighters, pens, and leather goods; accessories, such as belts, watches, jewelries, and cufflinks; cigar accessories; office accessories; and fragrances. It also sells its products through online. S.T. Dupont S.A. was incorporated in 1934 and is based in Faverges, France. S.T. Dupont S.A. is a subsidiary of D and D International B.V.

2618 Saab AB (publ) provides products, services, and solutions for military defense, aviation, and civil security markets worldwide. The company operates through five segments: Aeronautics, Dynamics, Surveillance, Kockums, and Combitech. The company develops military and civil aviation technology, as well as conducts studies on manned and unmanned aircraft systems. It also provides ground combat weapons, missile systems, torpedoes, unmanned underwater vehicles, training and simulation systems, and signature management systems for armed forces; and niche products for the civil and defense market, such as underwater vehicles for the offshore industry. In addition, the company offers solutions for safety and security, surveillance and decision support, and threat detection, location, and protection, including airborne, groundbased and naval radar, electronic warfare, and combat systems, as well as C4I solutions. Additionally, it provides submarines with the Stirling system for air independent propulsion, surface combatants, mine hunting systems, and autonomous vessels; and systems development, systems integration, information security, systems security, communications, mechanics, and technical product information and logistics. Saab AB (publ) was founded in 1937 and is headquartered in Stockholm, Sweden.

2619 Sabaf S.p.A. designs, manufactures, and sells components for household cooking appliances. It operates through Gas Parts, Hinges, and Electronic Components segments. The company offers taps with or without a flame failure device that are used in freestanding cookers or in builtin hobs; thermostats with or without a flame failure device used in freestanding cookers and builtin ovens; valves; and burners, as well as gas burners for ovens and grills. It also provides hinges for builtin ovens, freestanding cookers, washing machines, dishwashers, and microwave ovens; electronic controls for ovens, hoods, hobs, vacuum cleaners, refrigerators, and freezers; electronic control boards, timers, display, and power supply units for ovens, kitchen hoods, vacuum cleaners, refrigerators, and freezers; and a range of accessories, including electrodes, micro switch harnesses, injectors, spark plugs, micro switches, fittings and plugs, thermocouples, and screws and brackets. The company offers its products to customers in Europe, Turkey, North America, South America, the Middle East, Africa, Asia, and Oceania. Sabaf S.p.A. was founded in 1950 and is headquartered in Ospitaletto, Italy.

2620 SAFARI is a property investment company listed on the JSE as a Real Estate Investment Trust that specialises in quality commercial investments. Through selective investments in property we create value for all our stakeholders as we strive for sustainable growth and earnings.

2621 Safestay plc operates and develops traveller accommodation under the Safestay brand in the United Kingdom. The company provides overnight hostel accommodation services and owns properties. It also provides ancillary goods and services, such as food and beverage, and merchandise. Safestay plc was incorporated in 2014 and is based in London, the United Kingdom.

2622 Sahacogen (Chonburi) Public Company Limited produces and distributes electricity and steam in Thailand. It operates a cogeneration power plant with a capacity to produce approximately 215 megawatts of electricity and 96 tons of steam per hour. The company was incorporated in 1996 and is headquartered in Chonburi, Thailand.

2623 Sai Gon Thuong Tin Real Estate Joint Stock Company primarily engages in the real estate investment and development business in Vietnam. The company engages in the residential, commercial, and industrial real estate construction activities. It also trades in real estate; invests in and constructs infrastructure of industrial parks and urban areas; provides financial, consultancy, broker, property auction, and land use rights auction services; constructs other civil engineering works; offers management consulting services; conducts market and public opinion surveys; manufactures building materials from clay soil; warehouses, factory and office leasing; and provides architecture and related technology consultancy, as well as specialized design services. The company was incorporated in 2004 and is headquartered in Ho Chi Minh City, Vietnam.

2624 Saigon Beer Alcohol Beverage Corporation, together with its subsidiaries, produces and sells beer, alcohol, beverages, and related products and packaging materials in Vietnam. The company also produces and trades in canned food and accessories; soft drinks; yeasty malt, mineral water, and bottled purified water; tin lid rings and metal packaging products; and packaging products for the food and beverage industry. In addition, it offers transportation and warehousing services; provides cargo transportation services by car, road, and waterway; manufactures equipment used in food manufacturing; and manufactures, installs, and maintains machinery systems and equipment, as well as constructs and offers real estate services. Further, the company is involved in the trading and wholesale of beer, alcohol, beverages, and nonalcohol drinks; structural steel construction business; and trading of packaging products. The company was founded in 1875 and is headquartered in Ho Chi Minh City, Vietnam. Saigon Beer Alcohol Beverage Corporation is a subsidiary of Vietnam Beverage Company Limited.

2625 Saigon Water Infrastructure Corporation invests in, and provides technological solutions and operational services for water supply and wastewater treatment facilities for industrial and urban civil works in Vietnam. The company also offers specialized services, including design and construction, implementation package, and management and management consultancy. In addition, it provides operation and maintenance services. The company is based in Ho Chi Minh City, Vietnam. Saigon Water Infrastructure Corporation is a subsidiary of Ho Chi Minh City Infrastructure Investment Joint Stock Company.

2626 Sajo Industries Company Limited operates as a food company. It provides marine, food, livestock, and leisure products under the Sajo brand. The company was founded in 1971 and is headquartered in Seoul, South Korea.

2627 Sajodongaone Co.,Ltd. engages in milling business. The company manufactures and sells cotton and wheat; and engages in the biological resources business, which manufactures and sells animal feeds for livestock, pig farming, and fish farming. It also offers bakery and confectionery products, flour, premixes, buckwheat products, and other agricultural products. The company was formerly known as Dongaone Co., Ltd. and changed its name to Sajodongaone Co.,Ltd. in April 2016. Sajodongaone Co.,Ltd. was founded in 1953 and is headquartered in Seoul, South Korea.

2628 Sakata Seed Corporation produces and sells vegetable and flower seeds, bulbs, plants, and agricultural and horticultural materials in Japan and internationally. It also engages in the publication of gardening literature; plant breeding; research and development, and technical consultation of consigned seed production; and designing, management, and contract construction of landscaping, greenhouse, and horticultural facilities. The company was formerly known as T. Sakata & Company and changed its name to Sakata Seed Corporation in January 1986. Sakata Seed Corporation was founded in 1913 and is headquartered in Yokohama, Japan.

2629 Sally Beauty Holdings, Inc. operates as a specialty retailer and distributor of professional beauty supplies. The company operates through two segments, Sally Beauty Supply and Beauty Systems Group. The Sally Beauty Supply segment offers beauty products, including hair color and care products, skin and nail care products, styling tools, and other beauty products for retail customers, salons, and salon professionals. This segment also provides products under thirdparty brands, such as Wella, Clairol, OPI, Conair, and L'Oréal, as well as exclusivelabel brand merchandise. The Beauty Systems Group segment offers professional beauty products, such as hair color and care products, skin and nail care products, styling tools, and other beauty items directly to salons and salon professionals through its professionalonly stores, ecommerce platforms, and sales force, as well as through franchised stores under the Armstrong McCall store name. This segment also sells products under thirdparty brands, such as Paul Mitchell, Wella, Matrix, Schwarzkopf, Kenra, Goldwell, Joico, and Olaplex. It operates stores and franchised units in the United States, Puerto Rico, Canada, Mexico, Chile, Peru, the United Kingdom, Ireland, Belgium, France, the Netherlands, Spain, and Germany. It also distributes its products through fullservice/exclusive distributors, openline distributors, direct sales, and megasalon stores. Sally Beauty Holdings, Inc. was founded in 1964 and is headquartered in Denton, Texas.

2630 SalMar ASA, an aquaculture company, produces and sells farmed salmon in Asia, the United States, Canada, Norway, rest of Europe, and internationally. It is involved in the broodfish, lumpfish, and smolt production activities; and marinephase farming, harvesting, packaging, processing, and selling farmed salmon. The company sells its products to importers/exporters, processing companies, and retail chains through inhouse sales force and/or through partners. SalMar ASA was founded in 1991 and is headquartered in Kverva, Norway.

2631 SAM Engineering & Equipment (M) Berhad, an investment holding company, engages in the aerospace and equipment manufacturing businesses. The company is involved in the designing and assembling of modular or complete machines and equipment. It also designs, develops, and manufactures trims and form dies, and suspension tooling for hard disk drive parts; metal and noetal ergonomic workstations and electronic products; automation equipment with equipment control software; and aircraft and other related equipment parts, spares, components, and precision engineering components. In addition, the company offers dies,

jigs and parts, and cutting tools for the disk drive, electronics, and semiconductors; and fabricates precision tools and machinery parts. It operates in Malaysia, the rest of Asia, North America, Latin America, and Europe. The company was formerly known as LKT Industrial Berhad and changed its name to SAM Engineering & Equipment (M) Berhad in September 2010. The company was incorporated in 1994 and is headquartered in Bayan Lepas, Malaysia. SAM Engineering & Equipment (M) Berhad is a subsidiary of Singapore Aerospace Manufacturing Pte. Ltd.

2632 Samhwa Crown & Closure Co., Ltd manufactures and sells bottle caps used in the packaging of beverages, alcohols, and foods in South Korea and internationally. It offers crown, roll on pilfer proof, plastic, white, press on twist off, and injection caps. The company also provides metal printing services for caps. It also exports its products. The company was founded in 1965 and is headquartered in Seoul, South Korea.

2633 Samkee Automotive Co., Ltd. develops, manufactures, and sells automotive diecast parts for OEMs worldwide. It offers transmission parts, such as converter housing, rear cover and clutch housing, transmission case, oil pump cover, and retainer bearing assemblies; and valve body sets, rail support brackets, and transmission cases, as well as parts for automotive bodies/chassis. The company also provides engine parts, including cylinder head cover, oil pan, timing chain case, cam carrier, and ladder frame assemblies, as well as oil filter housings. In addition, it recycles aluminum alloys. The company was formerly known as Samkee Technology Co., Ltd. and changed its name to Samkee Automotive Co., Ltd. in August 2008. Samkee Automotive Co., Ltd. was founded in 1978 and is headquartered in Pyeongtaeksi, South Korea.

2634 Sammakorn Public Company Limited, together with its subsidiaries, engages in the real estate development business in Thailand. The company operates through Real Estate Development, Rental, Restaurant and Bakery, and Service segments. It also develops land into community malls; and offers real estate management and other related services. In addition, the company engages in the food and beverage restaurant business. The company was founded in 1970 and is headquartered in Bangkok, Thailand.

2635 SAMPYO Cement Co., Ltd. manufactures and distributes cement in South Korea. The company offers Portland, crude Portland, low heat Portland, blast furnace slag, and special cement products. It also exports its products to the United States, Japan, and other countries. The company was formerly known as TONGYANG Cement & Energy Corporation and changed its name to SAMPYO Cement Co., Ltd. in April 2017. SAMPYO Cement Co., Ltd. was founded in 1957 and is headquartered in Samchok, South Korea.

2636 Samsonite International S.A. engages in the design, manufacture, sourcing, and distribution of travel luggage bags in North America, Asia, Europe, and Latin America. It offers luggage, business, computer, outdoor, casual, and women's bags; and travel accessories and slim protective cases for personal electronic devices primarily under the Samsonite, Tumi, American Tourister, Speck, High Sierra, Gregory, Lipault, Kamiliant, Hartmann, and eBags brands, as well as other owned and licensed brand names. The company sells its products through various wholesale distribution channels, as well as through company operated retail stores and ecommerce. Samsonite International S.A. was founded in 1910 and is based in Luxembourg, Luxembourg.

2637 Samsung C&T Corporation engages in the engineering and construction, trading and investment, fashion, and resort businesses in South Korea, rest of Asia, Europe, and the Americas. Its engineering and construction business cover building, civil infrastructure, plant, and housing construction activities. The company trades in chemicals and industrial materials, such as polymers, fertilizers, methanol, electronic

components, and precision materials; hot and coldrolled, and stainless steel products; natural resources comprising coal and copper, and raw material metal; palm oil; and living industrial materials, including textiles, food, and wood pellets. It also organizes projects, such as power plant, renewable energy, and infrastructure development; and operates palm plantations. In addition, the company provides men's and casual clothing under the GALAXY and BEANPOLE brands; accessories, children's and outdoor clothing lines, and women's clothing under the KUHO and LEBEIGE brands; and fastfashion (SPA) products under the 8seconds brand. Further, it engages in golf course, landscaping, and food and beverage business. The company was formerly known as Cheil Industries Inc. and changed its name to Samsung C&T Corporation in September 2015. Samsung C&T Corporation was founded in 1938 and is headquartered in Seoul, South Korea.

2638 Samsung Electronics Co., Ltd. engages in the consumer electronics, information technology and mobile communications, and device solutions businesses worldwide. The company offers smartphones, tablets, watches, and accessories; TVs, projectors, and sound devices; home appliances, including refrigerators, washing machines and dryers, vacuum cleaners, cooking appliances, dishwashers, air conditioners, and air purifiers; monitors, and memory and storage products; displays, and smart and LED signages; and other accessories. It also engages in technology, venture capital investments, cloud services, network devices installation and optimization, semiconductor equipment services, digital advertising platforms, marketing, consulting, connected services, logistics, financing, and software design activities; toll processing of display panels and semiconductors; development and sale of network solutions; manufactures semiconductors and food; provision of repair services for electronic devices and enterprise automation solutions; and development and supply of semiconductor process defect and quality control software. The company serves various industries, including education, retail, and finance, as well as government and corporate customers. Samsung Electronics Co., Ltd. was founded in 1938 and is based in Suwon, South Korea.

2639 Samsung SDS Co., Ltd. provides various software solutions and IT services in South Korea and internationally. It offers artificial intelligence (AI) based solutions, including Brightics AI, an optimized AI platform for business, such as machine learning, deep learning, data preparation, data hub, visual search, analytics services, and AI accelerator; Brightics IoT that connects IoT devices to big data solutions and preexisting legacy systems, as well as creates smart applications on top of a connected data pipeline. The company also provides Nexledger Universal, an enterpriseready blockchain platform; Nexledger Accelerator to accelerate enterprise blockchain transactions; cloud enterprise network services; and cloud application services, including Brity RPA, an AIenabled intelligent automation productivity software. In addition, it offers smart logistics products comprises global supply chain products, including logistics outsourcing, logistics assessment and consulting, global risk management, operation optimization and strategic planning, and valueadded services; freight forwarding, which include air freight/express, sea freight, multimodal transport, local transport, and special cargo transport services; warehousing and distribution, which include logistics network design, warehouse design and operation strategy planning, and warehouse operation and fulfillment; ecommerce logistics services; project logistics; Cello, a logistics service platform; Cello square, a digital forwarding platform; Cello trust, a blockchainbased platform for supply chain traceability; and Cello digital services, such as ITbased logistics services. It also offers Nexfinance, an integrated digital finance platform; digital

identity platform; digital health products; Nexplant 3D eXcellence platform; enterprise mobility management, products; wearable EMM; video conferencing services; and IP telephony services. The company was founded in 1985 and is headquartered in Seoul, South Korea.

2640 Samyang Optics Co., Ltd. engages in the manufacture and sale of optical lenses and other accessories in South Korea. The company offers interchangeable camera lenses, CCTV lenses, and other products. It serves photographers and videographers. The company was formerly known as Korea WAKO Co., Ltd and changed its name to Samyang Optics Co., Ltd. in 1979. The company was incorporated in 1972 and is based in Seoul, South Korea. Samyang Optics Co., Ltd. is a subsidiary of LKA2 Holdings Co., Ltd.

2641 San Miguel Corporation engages in food and beverage, packaging, energy, fuel and oil, infrastructure, cement, and banking businesses worldwide. Its Food and Beverage segment is involved in feeds production; poultry and livestock farming; processing and selling poultry and meat products and refrigerated processed and canned meat products; milling, producing, and marketing of flour, flour mixes, bakery ingredients, butter, margarine, cheese, milk, ice cream, jellybased snacks and desserts, oils, salad aids, biscuits, and condiments; importing and marketing of coffee and coffeereLATED products; and grain terminal handling. This segment also produces, markets, and sells fermented, maltbased, and nonalcoholic beverages; and hard liquor in the form of gin, Chinese wine, brandy, rum, and vodka. Its Packaging segment produces and markets packaging products, such as glass containers and molds, polyethylene terephthalate (PET) bottles and preforms, PET recycling, plastic and metal closures, corrugated cartons, woven polypropylene, kraft sacks and paperboards, pallets, flexible packaging, aluminum cans, woven products, industrial laminates, and radiant barriers; and plastic crates, floorings, films, trays, pails, and tubs. This segment also engages in the crate and plastic pallet leasing, PET bottle filling graphics design, packaging research and testing, packaging development and consultation, and contract packaging and trading activities. Its Energy segment generates, sells, retails, and distributes power. Its Fuel and Oil segment refines and markets petroleum products. Its Infrastructure segment constructs and develops infrastructure projects, such as toll roads, airports, railways, and bulk water. The company also develops, manages, and sells real estate properties; and manufactures and sells cement. The company was founded in 1890 and is headquartered in Mandaluyong City, the Philippines. San Miguel Corporation is a subsidiary of Top Frontier Investment Holdings, Inc.

2642 Sanan Optoelectronics Co., Ltd. engages in the research, development, production, and marketing of LED epitaxial wafers and chips, compound solar cells, compound semiconductors, semiconductor and communication chips, and sapphire substrates in China and internationally. Its LED lighting products include bulbs, tube lamps, down lights, spot lights, floodlights, fill lights, tunnel lights, and smart and horticulture lighting products primarily used in homes, shopping malls, hotels, office buildings, vertical farm, greenhouse, and public streets. The company also offers silicon carbide power diodes and siliconbased gallium nitride power devices; DFB lasers, photodiodes, avalanche photodiodes, and other optical communication products; and visible and infrared VCSELs, and edgeemitting lasers, as well as other products for 3D sensing, LiDAR, and other consumer applications. The company was founded in 2000 and is headquartered in Xiamen, China.

2643 Sandvik AB (publ), an engineering company, provides products and solutions for mining and rock excavation, rock processing, and metal cutting worldwide. The company offers mining and rock excavation equipment, including drill rigs and bolters, underground loaders and

trucks, mechanical cutting equipment, rock tools and rock drills, and mining automation; rock processing equipment, such as crushers, screens, hydraulic breakers, demolition tools, and breaker booms. It also provides metalcutting tools and tooling systems, and digital solutions and software; metal powder for additive manufacturing, and components made from controlled expansion alloys; and tungsten powders, as well as recycling services of secondary tungsten raw materials. It serves aerospace, automotive, energy, general engineering, infrastructure, and mining industries. The company was founded in 1862 and is headquartered in Stockholm, Sweden.

2644 Sanford Limited engages in farming, harvesting, processing, storing, and marketing of seafood products. It operates through Wildcatch and Aquaculture segments. The company catches and processes inshore and deepwater fish species, as well as farms and processes mussels and salmon. Its seafood products include antarctic toothfish, arrow squid, barracouta, blue mackerel, gemfish, ghost shark, greenshell mussels, hake, hapuku, hoki, jack mackerel, john dory, kahawai, king salmon, lemon sole, ling, monkfish, new zealand sole, orange roughy, patagonian toothfish, red cod, scampi, silver warehou, smooth oreo dory, snapper, southern blue whiting, trevally, and yellowbelly flounder. It operates in New Zealand, North America, China, Australia, Europe, Other Asian countries, Japan, the Middle East, South Korea, Hong Kong, Central and South America, Africa, and Pacific. The company was founded in 1881 and is headquartered in Auckland, New Zealand.

2645 Sangsangin Industry Co., Ltd. manufactures and sells marine and offshore equipment, and structure modules in South Korea. It offers offshore, deck, floating, marine, hydraulic hose handling, knuckle, provision, and engine room cranes; engine casings and funnels; special davit and deck machinery; material handling equipment and burner booms; and spare parts. The company was formerly known as Dongnam Marine Crane Co., Ltd. and changed its name to Sangsangin Industry Co., Ltd. in April 2019. Sangsangin Industry Co., Ltd. was founded in 1988 and is based in Gimhae, South Korea.

2646 Sangshin Electronics Co., Ltd. engages in the research, development, production, and sale of noise filters and reactors to attenuate the electromagnetic waves of electric and electronic devices. Its noise filters are used in white household appliances, such as washing machines, air conditioners, refrigerators, dryers, stylers, microwaves, cleaners, and water purifiers; and reactors are used in energy saving white goods, solar power, ESS, selfregenerative braking devices, and electric vehicles. The company also provides coils for use in electrical appliances, including rice cookers, electric ranges, air cleaners, power supply devices, etc. Sangshin Electronics Co., Ltd. was founded in 1982 and is headquartered in Gimhaesi, South Korea.

2647 Sanlorenzo S.p.A. designs, builds, and sells yachts and pleasure boats in Europe, the AsiaPacific, the Americas, the Middle East, and Africa. The company operates through three divisions: Yacht, Superyacht, and Bluegame. It provides maintenance and charter services, as well as sells its own and other preowned yachts; and sport utility yachts under the Sanlorenzo and Bluegame brands. The company was formerly known as Cantieri Navali San Lorenzo SpA and changed its name to Sanlorenzo S.p.A in 2005. Sanlorenzo S.p.A was founded in 1958 and is based in Ameglia, Italy.

2648 Santos Limited explores for, develops, produces, transports, and markets hydrocarbons in Australia and the Asia Pacific. Its five principal assets are located in the Cooper Basin, Queensland and NSW, Papua New Guinea, Northern Australia and TimorLeste, and Western Australia. The company also holds an asset in Alaska; and engages in the

development of carbon capture and storage technologies. In addition, it produces natural gas, liquefied petroleum gas, ethane, methane, coal seam gas, liquefied natural gas, shale gas, and condensate, as well as oil. The company was incorporated in 1954 and is headquartered in Adelaide, Australia.

2649 Sany Heavy Industry Co., Ltd. engages in the research and development, manufacture, and sale of construction machinery worldwide. The company operates through Concrete Machinery, Excavation Machinery, Lifting Machinery, PileWorking Machinery, Pavement Machinery, and Financial Service segments. The Concrete Machinery segment research, develops, produces, and sells products, such as concrete pump trucks, concrete conveying pumps, concrete mixing stations, concrete mixer trucks, and concrete truckmounted pumps. The Excavation Machinery segment research, develops, produces, and sells large, medium, and small excavators, and other excavation machinery products. The Lifting Machinery segment research, develops, produces, and sells truck cranes, allterrain truck cranes, crawler and tower cranes, and other lifting machinery products. The PileWorking Machinery segment research, develops, produces, and sells products, such as rotary drilling rigs, electrohydraulic pile drivers, and diaphragm wall grabs. The Pavement Machinery segment research, develops, produces, and sells road machinery product including road rollers, graders, pavers, milling machines, and asphalt mixing plants. The Financial Service segment offers mortgage loans and financial leasing services. It also offers concrete machinery, excavators, hoisting machinery, pile driving machinery, and road construction machinery. In addition, the company provides concrete pump trucks, concrete trailer pumps, concrete mixing trucks, and stations. The company was founded in 1994 and is based in Beijing, China.

2650 S o Martinho S.A., together with its subsidiaries, engages in the production and sale of sugar, ethanol, and other sugarcane byproducts in Brazil. The company operates through Sugar, Ethanol, Electric Power, Real Estate Business, Yeast, and Other Products segment. It offers a range of raw sugar; hydrated ethanol, which is used in tanks of cars; anhydrous ethanol that is used as a gasoline additive in gasolinepowered vehicles; and industrial ethanol, which is primarily used in the production of paints, cosmetics, and alcoholic beverages. The company also generates electricity from sugarcane bagasse; and provides byproducts, including yeast used in animal feed, as well as fusel oil, which is used as a solvent and pure amyl ethanol. In addition, it is involved in the cultivation of sugarcane; development, rental, and sale of real estate properties; import and export of goods, products, and raw materials; development of land through agricultural lease and partnerships; exploitation of real estate and mining enterprises; and provision of general product storage services. The company was founded in 1914 and is based in S o Paulo, Brazil. S o Martinho S.A. is a subsidiary of LJM Participa  es S.A.

2651 Sapiens International Corporation N.V. provides software solutions for the insurance and financial services industries in North America, the European Union, the United Kingdom, Israel, and internationally. The company offers Sapiens CoreSuite and Sapiens IDITSuite for personal, commercial, and specialty lines; and Sapiens CoreSuite, Sapiens UnderwritingPro, Sapiens ApplicationPro, Sapiens IllustrationPro, and Sapiens Consolidatioaster for life, pension, and annuities. It also provides Sapiens DigitalSuite for customers, agents, brokers, risk managers, customer groups and thirdparty service providers; Sapiens ReinsuranceMaster and Sapiens ReinsurancePro reinsurance solutions; and Sapiens Platform, Sapiens CoreSuite, Sapiens PolicyPro, and Sapiens ClaimsPro, as well as Sapiens PolicyGo, and Sapiens ClaimsGo for

workersâ€™ compensation. In addition, the company offers financial and compliance solutions, which comprise Sapiens FinancialPro, Sapiens Financial GO, Sapiens StatementPro, Sapiens CheckPro, and Sapiens Reporting Tools; and Sapiens Decision, an enterprisescale platform that enables institutions to centrally author, store, and manage various organizational business logics. Further, it provides tailormade solutions based on its Sapiens eMerge platform; and program delivery, business, and managed services. The company markets and sells its products and services through direct and partner sales. Sapiens International Corporation N.V. was founded in 1982 and is headquartered in Holon, Israel.

2652 Sapporo Holdings Limited engages in alcoholic beverages, foods and soft drinks, restaurants, and real estate businesses in Japan and internationally. It operates through Alcoholic Beverages, Food & Soft Drinks, and Real Estate segments. The company manufactures and sells beer, wine, other alcoholic beverages, foods, sundries, shochu, and other food products; operates restaurants and factories; and offers soft drinks, soups, and soybeans and chilled products, as well as provides consigned freight forwarding, cargo handling, warehousing, packaging, and distribution services. It also manufactures, markets, and sells beverages and food products; operates vending machines and caf  chain; serves tea; and manufactures and sells ice cream, miso, instant miso soup, and freezedried products. In addition, the company engages in the development, leasing, rental, and sale of real estate properties. As of December 31, 2021, it operated 162 restaurant outlets. The company sells its beer products under the Black label, Yebisu, GOLD STAR, SAPPORO PREMIUM BEER, ANCHOR, and Mugi to Hop brand names. Sapporo Holdings Limited was founded in 1876 and is headquartered in Tokyo, Japan.

2653 Sapura Energy Berhad, an investment holding company, offers integrated energy services and solutions in Malaysia, Australia, Africa, Turkey, the Americas, the Middle East, rest of Asia, and internationally. It operates through Engineering and Construction, Operations and Maintenance, Drilling, Exploration and Production, and Corporate segments. The company provides engineering, procurement, construction, and commissioning services. It offers installation of offshore platforms, submarine pipelines, subsea facilities, umbilicals, risers, and flowlines; transportation and installation services for heavy lift, pipeline installation, jacket launch, floatover, and deepwater projects; diving and related underwater works; subsea engineering and construction services; and hookup and commissioning services for new and existing facilities in the oil and gas industry. The company also explores, produces, and supplies crude oil and natural gas; provides well intervention and decommissioning services; and offers operates and maintenance services comprising topside maintenance, subsea, brownfield rejuvenation, geosurvey and geotechnical, and other services, as well as owns and operates a fleet of offshore support vessels. In addition, it owns and operates tender assist drilling and semitender rigs. Further, the company charters and hires vessels and barges; provides manpower, treasury management, and marine vessel transportation services; and offers hydrographic survey, soil investigation, offshore geotechnical, and geophysical services, as well as develops and produces petroleum resources. Additionally, it engages in the development of marine technology and marine chartering activities; and provision of technical consulting services, and subsea and floating systems. The company was formerly known as SapuraKencana Petroleum Berhad and changed its name to Sapura Energy Berhad in March 2017. Sapura Energy Berhad was incorporated in 2011 and is headquartered in Seri Kembangan, Malaysia.

2654 Sarawak Plantation Berhad, an investment holding company, cultivates oil palm plantations in Malaysia. The company operates through

three segments: Investment Holding, Oil Palm Operations, and Management Services and Rental. It is involved in processing oil palm into crude palm oil and palm kernel; processing fresh fruit bunches; the provision of management, marketing, agronomic, and consultancy services; and provision of cattle integration services. The company also operates seed production unit; provides laboratory services; and engages in the rental of investment properties. It has 16 oil palm estates with total land bank of 43,481 hectares. The company was incorporated in 1997 and is based in Miri, Malaysia.

2655 Saudee Group Berhad, an investment holding company, produces and sells processed poultry, beef products, frozen foods, and bakery products in Malaysia. The company offers burger patties, nuggets, sausages, meatballs, fried chicken, minced meat, bratwursts, frankfurter, and other products primarily under the Saudi Gold and Farm's Gold brand names. It also engages in the wholesale and dealership of fresh and frozen foods. The company was formerly known as Sinaria Corporation Berhad and changed its name to Saudee Group Berhad in December 2013. The company was founded in 1985 and is headquartered in Sungai Petani, Malaysia.

2656 Saudi Basic Industries Corporation engages in the manufacture, marketing, and distribution of chemicals, polymers, plastics, agrinutrients, and metal products worldwide. The company operates through Petrochemicals, Specialties, AgriNutrients, and Metals (Hadeed) segments. It offers polymers, such as acrylonitrile butadiene styrene, acrylonitrile styrene acrylate, carbon black, ethylene vinyl acetate, polyamide, polybutylene terephthalate, polycarbonate, polycarbonateacrylonitrile butadiene styrene, polycarbonatepolybutylene terephthalate, polyethylene, polyethylene terephthalate, polymethyl methacrylate, polyoxymethylene, polypropylene, polystyrene, polyvinyl chloride, and synthetic rubbers, as well as resins. The company also provides engineering thermoplastic resins and compounds, composites, thermosets and additives, dielectric films, copolymers, and additive manufacturing solutions. In addition, it offers chemicals, including aromatics, butyl glycol ether, chloralkali, ethanolamines, ethoxylates, ethyleneamines, glycols, linear alpha olefins, natural detergent alcohol, olefins and gases, OXO alcohols and performance monomers, and oxygenates. Further, the company provides fertilizers comprising urea, ammonia, and a portfolio of nitrogenbased inorganic products; produces steel products, such as hot and cold rolled flat, concrete reinforcing bars, wire rod coils, light sections, and steel billets products; operates ebusiness portal for sales; and offers color services under the ColorXpress name, as well as engineering services. It serves agriculture, automotive, building and construction, consumer, electrical and electronics, healthcare, industrial, mass transportation, and packaging industries. The company was incorporated in 1976 and is headquartered in Riyadh, Saudi Arabia. Saudi Basic Industries Corporation operates as a subsidiary of Aramco Chemicals Company.

2657 Saudia Dairy & Foodstuff Company engages in the production and distribution of dairy products, beverages, and various foodstuffs in the Kingdom of Saudi Arabia, rest of Gulf Cooperation Council countries, Poland, and internationally. Its office furniture fittings also include hot melt glues, pencil trays, glass holders, trimmers, wax sticks, and colour recovery makers. In addition, the company manufactures home fittings comprising kitchen wall seal profiles, door seals, glass gaskets and rails, shoe rack holders, cabinet cornice and top profiles, and PVC skirting profiles. Further, it is involved in the manufacture and sale of vinyl tiles; wholesale of fittings and fixtures; trading of industrial consumables; and property development activities. Scanwolf Corporation Berhad was founded in 1984 and is headquartered in Ipoh, Malaysia.

2665 Scatec ASA, together with its subsidiaries, operates as a renewable power producer worldwide. The company operates through Power Production; Services; and Development and Construction segments. It develops, builds, owns, and operates solar, wind, and hydro power plants and storage solutions. The company is also involved in the engineering, procurement, construction, operation, maintenance, and asset management of power plants. It has a total of 15 GW in operation and under construction. The company was formerly known as Scatec Solar ASA and changed its name to Scatec ASA in November 2020. Scatec ASA was incorporated in 2007 and is headquartered in Oslo, Norway.

2666 SCD Co., Ltd. provides electronic components, motors, and timers. The company offers various products for home appliances, such as easy door open products, twist and heating ice makers, ice shutters and selectors, refrigerant valves, dampers, motors, defrosting timers, fan motors, valve controller units, pumping units, duct damper units, and BLDC motors; and door locks, detergent pumps, twostage drain motors, clutch/drain motors, BLDC pumps, and various other products used in refrigerators, airconditioners, washing machines, air purifiers, boilers, heat exchangers, and microwave ovens. It also provides car parts, such as

CPMs, inpanel switches, headlines, door switches, steering wheels, seat and armrests, dashboard and engine motors, intake/exhaust motors, stepping motors, linear actuators, and builtin gear reduction mechanisms. The company was founded in 1987 and is headquartered in Yongin, South Korea. SCD Co., Ltd. is a subsidiary of Nidec Sankyo Corporation.

2667 SCG Ceramics Public Company Limited manufactures, distributes, sells, and installs ceramic tiles in Thailand and internationally. Its products include ceramic floor and wall tiles. The company offers its ceramic tiles under the COTTO, SOSUCO, and CAMPANA brands. It is also involved in the development of industrial estate; and installation of solar equipment, as well as real estate business. The company was incorporated in 2018 and is headquartered in Bangkok, Thailand. SCG Ceramics Public Company Limited is a subsidiary of SCG Building Materials Co., Ltd.

2668 Schaltbau Holding AG, together its subsidiaries, provides safetyrelated components and systems for the railway sector in Germany and Internationally. The company offers safetycritical components, such as contactors, connectors, and switching systems under the Schaltbau brand name; door and boarding systems for rolling stock, buses, and utility vehicles under the Bode brand name. It also provides level crossing technology, signaling and safety technology, interlocking and conveying technology, axle counting technology, and point machines; and assembling, testing and commissioning, maintenance, spare parts supply, and training services under the Pintsch brand name. In addition, the company offers systems and components, and services for the modernization of trains, and charging infrastructure solutions for emobility vehicle fleets under the SBRS brand name. Further, it offers electromechanical and power electronic components, and intelligent solutions for energy management. Schaltbau Holding AG was founded in 1929 and is based in Munich, Germany.

2669 Schlumberger Limited engages in the provision of technology for the energy industry worldwide. The company operates through four divisions: Digital & Integration, Reservoir Performance, Well Construction, and Production Systems. The company provides field development and hydrocarbon production, carbon management, integration of adjacent energy systems; reservoir interpretation and data processing services for exploration data; and well construction and production improvement services and products. It also offers subsurface geology and fluids evaluation information; open and cased hole services; exploration and production pressure, and flowrate measurement services; and pressure pumping, well stimulation, and coiled tubing equipment solutions. In addition, the company offers mud logging, directional drilling, measurementwhiledrilling, and loggingwhiledrilling services, as well as engineering support services; supplies drilling fluid systems; designs, manufactures, and markets roller cone and fixed cutter drill bits; bottomholeassembly and borehole enlargement technologies; well cementing products and services; well planning, well drilling, engineering, supervision, logistics, procurement, and contracting of third parties, as well as drilling rig management solutions; and drilling equipment and services, as well as land drilling rigs and related services. Further, it provides artificial lift production equipment and optimization services; supplies packers, safety valves, sand control technology, and various intelligent well completions technology and equipment; designs and manufactures valves, chokes, actuators, and surface trees; and OneSubsea an integrated solutions, products, systems, and services, including wellheads, subsea trees, manifolds and flowline connectors, control systems, connectors, and services. The company was formerly known as

Société de Prospection Électrique. Schlumberger Limited was founded in 1926 and is based in Houston, Texas.

2670 ScinoPharm Taiwan, Ltd., together with its subsidiaries, researches and develops, produces, and sells cGMP active pharmaceutical ingredients (API) to pharmaceutical companies in Taiwan, the United States, Europe, India, rest of Asia, and internationally. The company offers custom synthesis services for biochemistry molecules, such as peptides and nucleic acids; generic API manufacturing services; and outsourcing services. It also provides CDMO services, such as chemistry skill, analytical and regulatory, chemical process development, clinical drug substance, and consulting services for the development and manufacturing of clinical, smallscale, and commercialstage APIs and intermediates. In addition, the company develops peptide synthesis technologies. Further, it develops and manufactures western medicines and other chemical materials, albumin medicines, oligonucleotide medicines, injections, and new small molecule drugs, as well as provides biological technology services and technical services. It has a strategic alliance with Baxter International Inc. to develop, manufacture, and commercialize of antiemetic drug in chemotherapy for cancer. ScinoPharm Taiwan, Ltd. was incorporated in 1997 and is headquartered in Tainan City, Taiwan.

2671 SciPlay Corporation develops, markets, and operates a portfolio of social games for mobile and web platforms in North America and internationally. It offers social casino games, such as Jackpot Party Casino, Gold Fish Casino, Quick Hit Slots, 88 Fortunes Slots, MONOPOLY Slots, and Hot Shot Casino, as well as casual games comprising Bingo Showdown, Solitaire Pets Adventure, and Backgammon Live. The company's social casino games include slotsstyle game play, as well as table gamesstyle game play; and casual games blend slotsstyle or bingo game play with adventure game features. It also offers titles and content from thirdparty licensed brands. The company was formerly known as SG Social Games Corporation and changed its name to SciPlay Corporation in March 2019. SciPlay Corporation was founded in 1997 and is based in Las Vegas, Nevada. SciPlay Corporation is a subsidiary of Scientific Games Corporation.

2672 SDIC Zhonglu Fruit Juice Co.,Ltd. produces and sells concentrated fruit and vegetable juices in China. The company offers apple, sweet potato, pear, cucumber, and yacon juice products. It also exports its products. The company was founded in 1991 and is based in Beijing, China.

2673 SDN Company., Ltd. manufactures and sells photovoltaic products in Korea. It offers solar modules, inverters, structures, and monitoring systems, as well as invertors, connections, structures, switches, sensors, etc. The company was formerly known as Seoul Marine Co., Ltd. and changed its name to SDN Company., Ltd. in April 2010. SDN Company., Ltd. was founded in 1994 and is headquartered in Seongnam, South Korea.

2674 Se Gyung Hi Tech Co.,Ltd produces and sells various optical films for LCD and mobile phones. The company's products include deco films, deco pattern, special optical films, and mobile protect films and tapes. It primarily sells its products in South Korea, Vietnam, Japan, and China. Se Gyung Hi Tech Co.,Ltd was founded in 2006 and is headquartered in Suwon, South Korea.

2675 SeaBird Exploration Plc, together with its subsidiaries, provides marine 2D and 3D seismic data for the oil and gas industry in Europe, Africa, the Middle East, North and South America, and the Asia Pacific. The company offers 2D seismic, and 3D and 3D shallow water acquisition services; and source vessels that provide conventional undershoot, 4D repeat survey, wide azimuth, push reverse, longterm charter and vessel management, inhouse source modelling and environmental decay analysis, and

spot charter services. It also engages in the marine minerals business. The company was founded in 1996 and is based in Nicosia, Cyprus.

2676 Seadrill Limited provides offshore contract drilling services to the oil and gas industry worldwide. It operates in three segments: Harsh Enviroent, Floaters, and Jackups Rigs. The company owns and operates drillships, semisubmersible rigs, and jackup rigs for operations in shallow and ultradeepwater in benign and harsh enviroents. It offers operation support and management services to third parties, as well as related and nonrelated companies. As of April 8, 2022, the company owned a fleet of 21 offshore drilling units consisting of two harshenviroent rigs, two benignenviroent semisubmersible rigs, six drillships, and 11 jackup rigs. It serves oil supermajors, stateowned national oil companies, and independent oil and gas companies. Seadrill Limited was incorporated in 2005 and is headquartered in London, the United Kingdom.

2677 Seaway 7 ASA, together with its subsidiaries, engages in the provision of marine services worldwide. The company offers cable laying services, including submarine cable and subsea umbilical installation, repair, and maintenance; marine cable route survey and route engineering; unexploded ordinance detection, identification, and removal; prelay grapnel runs and route clearance; boulder clearance and relocation; ROV intervention and dive support; rock bag and concrete mattress installation; and scour protection services, as well as cable storage solutions. It also provides installation of wind turbine generators (WTG), WTG foundations, and offshore substation jackets and topsides. In addition, the company transports substations, lift boats, cranes, power and cablelay barges, jacket foundations, dredgers, modules, ship sections, offshore wind foundations, floating drydocks, and other floating/nonfloating cargoes, as well as jackup and semisubmersible drilling rigs. The company owns and operates semisubmersible heavy transportation vessels, cablelaying vessels, installation support vessels, and heavy Lift vessels. It serves oil and gas, offshore, heavy construction, and other industries, as well as offshore renewables. The company was formerly known as OHT ASA and changed its name to Seaway 7 ASA in October 2021. Seaway 7 ASA was founded in 2006 and is headquartered in Oslo, Norway. Seaway 7 ASA operates as a subsidiary of Subsea 7 S.A.

2678 SeaWorld Entertaient, Inc., together with its subsidiaries, operates as a theme park and entertaient company in the United States. It operates SeaWorld theme parks in Orlando, Florida; San Antonio, Texas; and San Diego, California, as well as Busch Gardens theme parks in Tampa, Florida, and Williamsburg, Virginia. The company also operates water park attractions in Orlando, Florida; San Antonio, Texas; San Diego, California; Chula Vista, California; Tampa, Florida; and Williamsburg, Virginia. In addition, it operates a reservationonly theme park in Orlando, Florida and a park in Langhorne, Pennsylvania. The company operates a portfolio of twelve theme parks under the SeaWorld, Busch Gardens, Aquatica, Discovery Cove, Water Country USA, Adventure Island, and Sesame Place brands. The company was formerly known as SW Holdco, Inc. and changed its name to SeaWorld Entertaient, Inc. in December 2012. SeaWorld Entertaient, Inc. was founded in 1959 and is headquartered in Orlando, Florida.

2679 Seazen Group Limited, together with its subsidiaries, engages in the investment, development, and sale of properties in the Peopleâ€™s Republic of China. It primarily develops and sells residential properties and mixeduse complexes, as well as provides commercial property management and other services. As of December 31, 2021, the company had total land bank of approximately 138 million square meters. It also provides asset operation and management, information technology, and

children entertainment, and cinema management services. The company's products include radiator caps, automotive air conditioning system parts, seat motor BRKT assemblies, crank arms, end and dust shields, end caps, and retaining BRKT products. Sewon Co.,Ltd was founded in 1985 and is based in Wonju, South Korea.

2703 SEWON E&C CO., Ltd. engages in the process equipment and mechatronics system businesses worldwide. The company manufactures and sells petrochemical, oil refining, gas, and power plant equipment, as well as exports plant equipment to the Middle East countries region. It also manufactures and sells hydraulic and pneumatic pressure equipment for use in the fields of automobile, steel and iron manufacture, nonferrous metal facilities and machine tools, catapult, press, construction equipment, industrial vehicles, and marine shipbuilding; and products for glass lining equipment and centrifugal separators. The company was formerly known as SEWONCELLONTECH Co., Ltd. and changed its name to SEWON E&C CO., Ltd. in April 2021. SEWON E&C CO., Ltd. was founded in 1971 and is headquartered in Changwon, South Korea.

2704 SFA Semicon Co., Ltd. provides semiconductors in Korea. The company offers packaging products, such as fan out wafer level packages, chip on chip and chip on wafers, flip chip products, laminates, lead frames, micro secure digital cards, secure digital cards, and solid state drives; and bumping products. It also provides turnkey process, and wafer and final test services; full backend solutions for laser marking, visual mechanical inspection, bake, tape and reel, dry packing for tested ICs; finished goods storage and dropshipment services; test engineering services; and IT services for customized test data. The company was formerly known as STS Semiconductor & Telecommunications Co., Ltd. and changed its name to SFA Semicon Co., Ltd. in April 2016. SFA Semicon Co., Ltd. was founded in 1998 and is headquartered in Cheonan, South Korea.

2705 Sfinks Polska S.A. operates and franchises restaurants in the casual dining sector in Poland. The company operates a network of 117 restaurants under the Sphinx, WOOK, and Chlopskie Jadlo brand names. Sfinks Polska S.A. was founded in 1995 and is based in Zalesie Górne, Poland.

2706 SFL Corporation Ltd., a maritime and offshore asset owning and chartering company, engages in the ownership, operation, and chartering out of vessels and offshore related assets on medium and longterm charters. The company operates in various sectors of the maritime, and shipping and offshore industries, including oil transportation, dry bulk shipments, chemical transportation, oil products transportation, container transportation, car transportation, and drilling rigs. As of December 31, 2022, the company owned 10 crude oil tankers, 15 dry bulk carriers, 32 container vessels, three car carriers, one jackup drilling rig, one ultradeepwater drilling unit, two chemical tankers, and six oil product tankers. It primarily operates in Bermuda, Cyprus, Liberia, Norway, Singapore, the United Kingdom, and the Marshall Islands. The company was formerly known as Ship Finance International Limited and changed its name to SFL Corporation Ltd. in September 2019. SFL Corporation Ltd. was incorporated in 2003 and is headquartered in Hamilton, Bermuda.

2707 SG Fleet Group Limited provides motor vehicle fleet management, vehicle leasing, shortterm hire, consumer vehicle finance, and salary packaging services in Australia, New Zealand, and the United Kingdom. The

company offers fleet management services, including pricing and quoting, funding, procurement and delivery, fuel and toll management, maintenance and accident management, roadside assistance, registration and infringement management, reporting and invoicing, contract revision, changeover consulting, and vehicle disposal services. It also provides Fleetintelligence, a fleet management tool; Bookingintelligence, a resource management application; Electronic Logbook; Inspect365; eStart, a zeroemission vehicle transition plan; REVS; carsharing; safety solution; and Fleetcoach. In addition, the company offers fleet funding services; fleet management and leasing services to local, state, and federal government; and small fleet services, as well as fleet vehicle accessories, which include 4WD equipment, vehicle safety kits, rubber tree interior protection products, and in-car communications. Further, it provides commercial vehicle and truck leasing services, including multiple leasing options; initial commissioning, sourcing, and acquisition; maintenance and registration; asset disposal; and regular reviews, as well as offers novated lease, online car trade-in, and driver support services. The company was founded in 1986 and is based in Pymble, Australia. SG Fleet Group Limited operates as a subsidiary of Bluefin Investments Limited.

2708 SGL Carbon SE, together with its subsidiaries, engages in the manufacture and sale of carbon fiber and specialty graphite products in Germany, rest of Europe, the United States, China, Asia, Latin America, Africa, and Australia. The company operates in Graphite Solutions; Process Technology; Carbon Fibers; and Composite Solutions segment. It offers products for automotive industries, including body and main parts; carbon ceramic brake discs; battery solutions; friction materials; chassis components; gas diffusion layers and bipolar plates; vanes and rotors; sealing materials; bearing seals; and miscellaneous products, as well as materials for thermal management. The company also provides composite solutions that include energy storage systems, lead springs, and friction materials; fuel cells for energy conversion, as well as for passenger cars and trains or ferries for zero emission mobile applications; and carbon fibers and semifinished products based on glass and carbon fibers. In addition, it offers isostatic graphite to produce compound semiconductor layers; silicon carbide coatings for semiconductor production; and heat exchangers, columns, quenchers, pumps, and pipings, as well as sealing materials for process technology. SGL Carbon SE was founded in 1878 and is headquartered in Wiesbaden, Germany.

2709 SGS SA provides inspection, verification, testing, certification, and quality assurance services in Europe, Africa, the Middle East, the Americas, and the Asia Pacific. It operates in five segments: Connectivity & Products, Health & Nutrition, Industries & Environment, Natural Resources, and Knowledge. The company provides laboratory testing, product inspection and consulting, process assessment, technical and transactional assistance; and automotive, connectivity, and softlines and accessories, as well as hardgoods, toys, and juvenile products. In addition, it offers a range of testing, inspection and certification solutions for the crop science, food, health science, and cosmetics and hygiene industries; field services, technical assessment, and advisory services; and services related to industrial, public health and safety, environmental testing, and public mandates. Further, it provides certification, assessment, auditing, supply chain assurance, training, technical consulting, and sustainability assurance services; agricultural commodities, geochemistry, laboratory testing petroleum and chemicals, metallurgy and consulting, mineral and metal commodities, and oil, gas, and chemical commodities; and sustainability solutions. The company serves the agriculture and food, chemical, construction, consumer and

retail, energy, industrial manufacturing, life sciences, mining, oil and gas, public, and transportation sectors. SGS SA was founded in 1878 and is headquartered in Geneva, Switzerland.

2710 SGSG Science&Technology Co., Ltd. Zhuhai engages in software designing, system integration, installation and debugging, technical support, training, and other activities in Mainland China. The company primarily offers professional services for bank business operations and outlet constructions, as well as solutions for cash notes, precious metals, and seal management needs. It also develops bank selfservice device cash replenishment and distribution management systems, bank physical/electronic seal management systems, intelligent bank outlet solutions, bank cash flow physical internal control systems, bank treasury management solutions, and other products, as well as supplies internal control risk management solutions for the financial industry. In addition, the company offers banking selfservice equipment bill allocation management solutions; banking stamp management solutions; banking material circulation management solutions; and baking vault management solutions. Its products are primarily used in Chinese and foreign banks. The company was founded in 2005 and is headquartered in Zhuhai, the People's Republic of China.

2711 Shaanxi Broadcast & TV Network Intermediary(Group)Co.,Ltd. engages in planning, shooting, and production of radio and television programs in China. It is also involved in cable and wireless digital tv operation, TV shopping, mobile TV, and advertising management. The company was founded in 1992 and is based in Xi'an, the People's Republic of China.

2712 Shaanxi Jinye Science Technology and Education Group Co.,Ltd, together with its subsidiaries, engages in the production and sales of printed products in China. The company operates in seven segments: tobacco supporting industry, other printing industry, education industry, Internet business, trade, real estate industry, and others. It is involved in the production and sales of cigarette label printing, tobacco tows, and mouth sticks; printing and sales of other products; domestic and international commercial trade activities; development and sales of real estate properties, as well as property management activities. The company also offers general higher education at the undergraduate level; and wireless network services; and design and construction of computer network engineering. In addition, it operates Mingde College of Northwestern Polytechnical University, a fulltime undergraduate college. Shaanxi Jinye Science Technology and Education Group Co.,Ltd was founded in 1992 and is headquartered in Xi'an, China.

2713 Shaanxi Provincial Natural Gas Co.,Ltd., a natural gas company, engages in the planning, construction, operation, management, and distribution of natural gas in Shaanxi Province, China. It operates Jingbian to Xi'an, Xianyang to Baoji, Xi'an to Weinan, Baoji to Hanzhong, Hanzhong to Ankang, etc. pipelines with a total mileage of approximately 3,300 kilometers. The company was founded in 1995 and is headquartered in Xi'an, China. Shaanxi Provincial Natural Gas Co.,Ltd. is a subsidiary of Shaanxi Gas Group Co.,Ltd.

2714 Shandong Airlines Co., Ltd. engages in the air passenger and cargo transportation business in China and internationally. It is also involved in the aircraft maintenance; civil aviation personnel training; airline agency; sale of aviation materials, general merchandise, food, health foods, handicrafts, souvenirs, etc.; and leasing of aviation materials, as well as provision of ground, business, hotel accommodation and ticket agency, conference, transport agency, air cargo storage, and labor services. In addition, the company provides hotel catering and insurance agency services; retails tobacco; leases premises; and rents houses.

Shandong Airlines Co., Ltd. was founded in 1994 and is headquartered in Jinan, China.

2715 Shandong Bohui Paper Industry Co., Ltd. researches, develops, produces, sells, imports, and exports paper products in China. The company offers food card series, such as doublesided coated food cards, paper cups, coated paper cups; tobacco card series, which includes highgrade coated cigarette cards and king color fiber anticounterfeiting cigarette pack; white card series redcrowned crane, including red crowned crane doublesided coated white cards and doublesided coated white cards; and copper card series, such as doublesided copper cards, copper cards, business card, and poker special papers used for clothing tags, desk calendars, highend brochures, book covers, business cards, playing cards, etc. It also provides whiteboard series; offset printing papers, coated papers, book papers, electrostatic copy papers used in teaching materials, books, student books, and other purposes.; printing papers; and bull card series, such as kraft cardboards, enviroental protection kraft cardboards, and whitefaced cattle cards for use in daily necessities, hardware and electrical appliances, and other packaging box surface paper purposes; and gypsum facial papers. The company was founded in 1994 and is headquartered in Zibo, China.

2716 Shandong Cheing Paper Holdings Limited engages in the pulp production and paper making in Mainland China and internationally. It operates through Machine Paper, Financial Services, Hotels and Property Rentals, and Other segments. The company offers cultural paper, white paper board, coated paper, household paper, copy paper, industrial paper, thermal paper, and glassine paper; and paper making raw materials and machinery. It also generates and sells electric and thermal power; engages in the forestry, saplings growing, processing and sale of timber; manufactures, processes, and sells wood products; provides wall materials, panels, and coal; and purchases and sells waste, as well as offers financial leasing services. In addition, the company is involved in the provision of catering services; hotel services; and marketing, transportation, logistics, arboriculture, customs declaration, property management and investment, trading, investment, machinery manufacturing, printing and packaging, business factoring, port, capital market, business, wholesale and retail, funding, and investment management activities. Shandong Cheing Paper Holdings Limited was incorporated in 1993 and is headquartered in Shouguang, the People's Republic of China.

2717 Shandong Chiway Industry Development Co.,Ltd. engages in the production and sale of aluminum anticounterfeit bottle caps and composite anticounterfeit printing aluminum plates. The company also offers aluminum anticounterfeiting bottle caps, combined anticounterfeiting bottle caps and composite anticounterfeiting printed aluminum plates. In addition, it provides project and landscape planning and design, engineering construction, greening management, and forest planting, sand and gravel mining services. The company was formerly known as Shandong Lipeng Co.,Ltd. and changed its name to Shandong Chiway Industry Development Co.,Ltd. in February 2021. Shandong Chiway Industry Development Co.,Ltd. was founded in 1995 and is based in Yantai, China.

2718 Shandong Delisi Food Co., Ltd. engages in live pigs slaughtering business in China. The company offers lowtemperature, chilled, fermented, and quickfrozen meat products, beef products, Chinese sauces, prepared dishes, rice noodles and condiments. It also exports its products; and trades in steel products, hardware tools, prepackaged products. The company was founded in 2003 and is headquartered in Zhucheng, China.

2719 Shandong HiSpeed New Energy Group Limited engages in the investment, development, construction, operation, and management of photovoltaic power business in Mainland China. The company develops and

constructs distributed photovoltaic power stations; and provides engineering, procurement, construction, and technical consultancy services for photovoltaic and wind powerrelated projects, and clean heat supply services, which include the production of heat through natural gas, electricity, geothermal energy, biomass energy, photovoltaic power, industrial excess heat energy, clean coal energy, river water source, etc., as well as trades in equipment related to photovoltaic power business. It also engages in the infrastructure development and operation of wind power plants and clean energy projects, as well as in the property investment business. The company was formerly known as Beijing Enterprises Clean Energy Group Limited and changed its name to Shandong HiSpeed New Energy Group Limited in July 2022. Shandong HiSpeed New Energy Group Limited was founded in 2000 and is headquartered in Central, Hong Kong.

2720 Shandong High Speed Renewable Energy Group Limited engages in the urban organic waste disposal business in China. It is also involved in the resource utilization, urban heating, and biomass energy business. The company was formerly known as BECE Legend Group Co., Ltd. and changed its name to Shandong High Speed Renewable Energy Group Limited in August 2022. Shandong High Speed Renewable Energy Group Limited is headquartered in Beijing, China.

2721 Shandong Huapeng Glass Co.,Ltd. researches and develops, produces, and sells various glassware products and glass bottles primarily in China. The company offers ware products, including leadfree crystal glass products and molding goblets; fawles; and bottle products, such as food, wine, liquor, brandy, champagne, beverage, and olive oil bottles under the Shidao brand name. It also exports its products to South Korea, Japan, the United States, Canada, Russia, and other countries. The company was founded in 2001 and is headquartered in Rongcheng, China.

2722 Shandong Jincheng Pharmaceutical Group Co., Ltd, together with its subsidiaries, researches and develops, produces, markets, and sells Cephalosporin intermediates in China and internationally. The company offers active pharmaceutical ingredients, biopharmaceuticals, medical intermediates, fine chemicals, finished dosages, and pharmaceutical products. It also provides animal nutrition and health care, as well as CMO and CDMO services. The company was founded in 2004 and is based in Zibo, China.

2723 Shandong Longda Meishi Co., Ltd. operates as a meat processing company in China. The company primarily engages in the pig breeding and slaughtering activities. It also provides sauce, lowtemperature, smoked barbecue, and cured meat products; and smoked ham sausages and quickfrozen foods. In addition, the company offers food safety testing services. It operates through a chain of meat stores. The company also exports its products to approximately 20 countries and regions, including Australia, New Zealand, Argentina, and Brazil. The company was formerly known as Shandong Longda Meat Foodstuff Co., Ltd. and changed its name to Shandong Longda Meishi Co., Ltd. in December 2021. Shandong Longda Meishi Co., Ltd. was founded in 2003 and is based in Laiyang City, China.

2724 Shandong Meichen Ecology & Enviroent Co.,Ltd. engages in the garden engineering construction business in China. The company products include nontire rubber products, such as hoses, seals, shock absorbers, and safety products which are mainly used in passenger cars and commercial vehicles. The company was formerly known as Shandong Meichen Science & Technology Co., Ltd. and changed its name to Shandong Meichen Ecology & Enviroent Co.,Ltd. in December 2017. Shandong Meichen Ecology & Enviroent Co.,Ltd. was founded in 2004 and is based in Weifang, China.

2725 Shandong Molong Petroleum Machinery Company Limited engages in the design, research and development, production, and sale of products for

the energy equipment industry in the People's Republic of China. The company operates through Pipe Products, Three Kinds of Pumping Units, Petroleum Machinery Parts, Tube Blank, HighEnd Castings and Forgings, and Others segments. The company's products include API and non API casing products, line pipe products, precision steel pipes, hydraulic prop tubes, fluid pipes, cylinder tubes, and boiler tubes; sucker rods; and valve body, cylinder liners, gate valves, and billet products. Its products are used in petroleum, natural gas, coalbed methane, shale gas, machinery processing, urban pipe network, etc., as well as used in equipment for oil and gas drilling, and wind turbine castings. In addition, the company engages in the research of new materials for energy equipment; production and sale of metal casting and forging; sea water desalination activities; waste heat and gas power generation activities; and manufacture and sale of special equipment. It also exports its energy equipment. Shandong Molong Petroleum Machinery Company Limited was founded in 2001 and is based in Shouguang City, China.

2726 Shandong Polymer Biochemicals Co., Ltd., together with its subsidiaries, produces and sells oilfield chemicals in China and internationally. The company offers monomers, surfactants, and polymers. It also involved in oil and gas engineering technology services; oil and gas exploration and development; and environmental water treatment businesses. Shandong Polymer Biochemicals Co., Ltd. was founded in 1996 and is headquartered in Dongying, China.

2727 Shandong Sacred Sun Power Sources Co., Ltd provides green energy solutions worldwide. The company offers lithiumion batteries, lead acid batteries, and power integration systems. Its products are used in network power, energy storage, and motive power applications. The company was founded in 1991 and is based in Qufu, China.

2728 Shandong Shengli Co., Ltd. engages in the plastic pipe, natural gas, and other industrial businesses in China. The company invests in, builds, and operates gas transmission and distribution pipelines, natural gas urban pipeline networks, liquefied natural gas (LNG), compressed natural gas (CNG), and natural gas distributed energy. It also researches and develops, produces, and sells herbicides, fungicides, insecticides, and other products; and provides pipes for use in gas transmission and distribution, water supply and drainage, environmental protection, chemical industry, etc. In addition, the company engages in oil trading, red wine, and car sales business. It operates approximately 60 CNG filling stations, 20 LNG filling stations, 3 CNG parent stations, and 1 LNG liquefaction plant. Shandong Shengli Co., Ltd. was founded in 1994 and is based in Jinan, the People's Republic of China.

2729 Shandong Sinobioway Biomedicine Co., Ltd. engages in the research and development, production, and sale of pharmaceutical intermediates in China. The company manufactures and supplies trimethyl orthoformate, triethyl orthoformate, trimethyl orthoacetate, phosphorous acid, ethyl formate, and trimethyl acetate and its byproducts. It also offers Enjingfu, a mouse nerve growth factor for injection; Anfulong, a recombinant human interferon α 2b injection; Jiefu, a recombinant human interferon α 2b spray; Bellafort, a combined hepatitis A and B vaccine; Anerlifu, a preservativefree influenza virus split vaccine; Paneraifu.1, an influenza A H1N1 vaccine; and Yierlifu, an inactivated enterovirus 71 vaccine. In addition, the company exports its products. Shandong Sinobioway Biomedicine Co., Ltd. was founded in 2000 and is based in Beijing, China.

2730 Shandong Sito Biotechnology Co., Ltd. researches and develops new steroid hormones, intermediates, and derivatives. Its products include 9ahydroxyandrostenedione, 17ahydroxyprogesterone, 17ahydroxy progesterone derivatives, anecort acetate, dexamethasone epoxy hydrolysate,

progesterone intermediate, opener, tetraene, androstenedione, ketal, acid removal, 3ketal, and betamethasone epoxy hydrolyzate, as well as 1,4androstenedione. The company was founded in 2002 and is based in Heze, China.

2731 Shandong Weigao Group Medical Polymer Company Limited engages in the research and development, production, and sale of singleuse medical devices in the People's Republic of China. It operates through Medical Device Products, Orthopaedic Products, Interventional Products, Pharma Packaging Products, Blood Management Products, and Others segments. The company offers vascular and nonvascular access infusion devices, infusion sets, syringes, puncture needles, and specialized singleuse clinical collection kits; wound sutures, wound healing dressings, and wound cleaning and nonvascular catheter supporting extracorporeal devices; and blood collection, storage, separation, and sterilization equipment. It also provides prefilled syringes and prefilled flush syringes; blood collection and blood glucose testing devices; and general anesthesia consumables, local anesthesia consumables, anesthesia auxiliary consumables, ICU equipment, and open and minimally invasive surgical equipment. In addition, the company engages in the production and sale of orthopedic devices; tumor and blood vessel interventional instruments; implantation materials and artificial organs; medical PVC granules, plastic packing bags, and carton boxes; industrial automatic equipment and parts; molds; hemodialysis equipment; and type I, type II, and type III medical devices. Further, it is involved in the finance leasing and factoring business; wholesale of type I medical devices, surgical devices, and other disposal medical products; provision of asset management, enterprise consulting, enterprise management advisory services, as well as logistics and storage services, as well as export its products. The company offers its products under the Jierui, Wego Ortho, Yahua, Bangde, and Hai Xing brands. It serves hospitals, blood stations, and other medical units; and distributors. The company was incorporated in 2000 and is based in Weihai, the People's Republic of China.

2732 Shandong Xinchao Energy Corporation Limited engages in the exploration, production, and sale of oil and natural gas. It holds interest in oil fields in Crosby County, Texas; and shale oil and gas properties in Howard and Borden counties, Texas. The company was formerly known as Yantai Xinchao Industry Co., Ltd. and changed its name to Shandong Xinchao Energy Corporation Limited in June 2016. The company was founded in 1985 and is headquartered in Beijing, China.

2733 Shandong Xinjufeng Technology Packaging Co., Ltd. researches and develops, produces, and sells aseptic packaging materials for liquid foods in China and internationally. The company was founded in 2007 and is based in Beijing, the People's Republic of China.

2734 Shandong Xinneng Taishan Power Generation Co.,Ltd. engages in the industrial park development business in China. The company is also involved in the asset operation and bulk commodity supply chain. In addition, it engages in cable business; and provision of leasing and property services. The company was founded in 1994 and is based in Tai'an, China.

2735 Shang Gong Group Co., Ltd. engages in research and development, production, and sale of industrial sewing equipment and household sewing machines in China and internationally. It offers machines for apparel manufacturing, including lock and chain stitch machines, engineered workstations, sewing automats, and sewing units; and machines for upholstery, automotive, and technical textiles, such as Mtype Htype flatbed machines, postbed machines, cylinder arm machines, and workstations, as well as sewing units. The company also provides sewing

machines for the manufacturing of shoes, bags, automotive interior processing, and suitcases, as well as for aerospace and new materials. In addition, the company offers office equipment sale, import and export trade, and logistics services. Further, it manufactures and sells electronic equipment; offers asset and property management services; develops and sells sewing software; and offers park logistics management and labor services. The company offers its products under the DÄrkopp Adler, PFAFF Industrial and KSL, SGGEMSY, Richpeace, Shanggong, and Butterfly brands. The company was formerly known as SGSB Group Co., Ltd. Shang Gong Group Co., Ltd. was founded in 1965 and is headquartered in Shanghai, China.

2736 Shanghai 2345 Network Holding Group Co., Ltd. operates as an Internet service provider in China. Its suite of products include 2345 Website Navigation, Explorer, Security Guard, Mobile Assistant, Input Method, â€ˆHaoZipâ€™, â€ˆ2345 Picture Kingâ€™, etc., which covers approximately 260 million PC and mobile users in an accumulative basis. The company was formerly known as Shanghai Hyron Software Co., Ltd. and changed its name to Shanghai 2345 Network Holding Group Co., Ltd. in March 2015. Shanghai 2345 Network Holding Group Co., Ltd. was founded in 2005 and is based in Shanghai, China.

2737 Shanghai Ace Investment&Development Co.,Ltd engages in the supply chain logistics and supply chain execution trading businesses in China. The company offers multimodal transport of railways, highways, and waterways; and thirdparty logistics services. It also provides warehouses, bulk cargo yards, container operation stations, liquid chemical storage tanks, warehousing and processing centers, and other logistics facilities. In addition, the company offers transport fleets, loading and unloading equipment, and dry bulk selfcontained containers services. Further, the company provides logistics and trade services of sulfur, fertilizers, nonferrous metals, mineral products, and other goods. The company was founded in 2003 and is headquartered in Shanghai, China.

2738 Shanghai Challenge Textile Co.,Ltd. provides fabrics for men and women. It offers functional sports, wool, and fleece fabrics; readytowear clothes; and medical protective equipment. The company was founded in 2001 and is headquartered in Shanghai, the Peopleâ€™s Republic of China.

2739 Shanghai Chengtou Holding Co.,Ltd engages in the real estate business in China. It develops commercial housing, affordable housing, commerce, and science and technology parks, as well as develops and operates rental houses. The company also offers renovation services for building projects; and equity investment and private equity investment fund management services. Shanghai Chengtou Holding Co.,Ltd was founded in 1992 and is based in Shanghai, China.

2740 Shanghai Eliansy Industry Group Corporation Limited, together with its subsidiaries, engages in packaging printing business in China and internationally. The company provides packaging and printing services for food, beverage, books, electrical appliances, medicine, fastmoving consumer goods and other industries. It is also involved in the rental of commercial properties; and provision of business services. The company was formerly known as Shanghai Jielong Industry Group Corporation Limited. Shanghai Eliansy Industry Group Corporation Limited is headquartered in Shanghai, China.

2741 Shanghai Enviroent Group Co., Ltd provides municipal solid waste disposal and transfer services in Shanghai. The company offers municipal solid waste, municipal sewage and sludge, medical and hazardous waste, and food waste treatment and disposal services, as well as contaminated soil and groundwater remediation services. It also provides consulting

and construction management services. The company is based in Shanghai, China.

2742 Shanghai Feilo Acoustics Co., Ltd operates in lighting, automotive electronics, and module packaging and chip testing service businesses in China and internationally. It offers public environment lighting products and services, light source components, and precision components; LED lighting products, intelligent lighting control, and system integration technology under the Asia and SYLVANIA brands; automotive lighting and electronics products; and integrate machinery, electronics, interior decoration, and other electromechanical products. The company also provides smart card module and chip packaging and testing; chip thinning, dicing and other chip services; and intelligent manufacturing planning, design consulting, and intelligent manufacturing systems. Shanghai Feilo Acoustics Co., Ltd was founded in 1984 and is based in Shanghai, China.

2743 Shanghai Gench Education Group Limited, an investment holding company, provides higher education services in the People's Republic of China. The company primarily operates a private university in Shanghai. It provides education services. The company also provides common undergraduate education services. As of December 31, 2021, its university offered 71 majors and concentrations in its formal undergraduate program and 12 majors and concentrations in its formal junior college program. The company was founded in 1999 and is headquartered in Shanghai, China.

2744 Shanghai Guangdian Electric Group Co., Ltd. manufactures and sells mechanical and electrical equipment in China. The company offers its products under the SGEG, Honeywell, and AEG brands. It serves electric power, petroleum, chemical, metallurgy, municipal construction, construction, environmental protection, and other fields industries. Shanghai Guangdian Electric Group Co., Ltd. was founded in 1986 and is based in Shanghai, China.

2745 Shanghai Industrial Development Co., Ltd primarily engages in the real estate investment and development business in China. It develops residential and commercial properties. The company also provides real estate management and property management services, and commercial services. Its projects are primarily located in Shanghai, Hangzhou, Suzhou, Huzhou, Shaoxing, Quanzhou, Qingdao, Chengdu, Chongqing, Changsha, and other cities. The company is based in Shanghai, China.

2746 Shanghai Jiaoda Onlly Co., Ltd., together with its subsidiaries, engages in the research, development, and production of single probiotic food raw material and health products in China. The company offers functional health products, probiotics, traditional tonics, dietary supplements, and natural elements, as well as provides disinfection products. It also provides medical care services for the elderly with moderate to severe disability and dementia and the elderly after surgery. The company operates and manages 14 medical care institutions, including hospitals and nursing homes. Shanghai Jiaoda Onlly Co., Ltd. was founded in 1990 and is based in Shanghai, China.

2747 Shanghai Jin Jiang Online Network Service Co., Ltd. provides vehicle and logistics services in the People's Republic of China. The company engages in warehousing, loading and unloading, processing, packaging, and distribution of general cargo, and related information processing and consulting activities; provision of supply chain, transportation, inventory, and purchase order management services; computer software development and technical service activities; and domestic and international freight forwarding agency businesses. It is also involved in the reception, hotels, property management, travel service, office rental, real estate development and management, food management, and shopping malls businesses. The company was formerly known as Shanghai JinJiang International Industrial Investment Co., Ltd. and

changed its name to Shanghai Jin Jiang Online Network Service Co., Ltd. in March 2021. Shanghai Jin Jiang Online Network Service Co., Ltd. was founded in 1993 and is headquartered in Shanghai, China.

2748 Shanghai Kehua BioEngineering Co., Ltd researches and develops, produces, and sells in vitro diagnostic products in China. The company offers HBV, hepatitis B, HCV antibody, alpha fetoprotein quantitative, and fecal occult blood test kits; carcinoembryonic antigen quantitative determination kits; test kits for antibody to treponema pallidum and human immunodeficiency virus, and the five serological markers of hepatitis B; and diagnostic kit for syphilis rapid plasma regain. It also provides automatic biochemical analysis systems for clinical laboratories and medical institutions; nucleic acid blood screening systems; automatic chemiluminescence measuring systems; microplate readers and plate washers; general and dedicated reagent packaging systems; and electrolyte analyzers. In addition, the company researches and develops diagnostic products in the field of renal disease that provides screening diagnosis and therapeutic effect monitoring solutions for patients with various types of kidney disease. Further, it offers singlepart and multipart nucleic acid detection, and enzyme immunoassay analysis systems; reagents for blood collection agencies and clinical diagnosis; and laboratory diagnostic instruments. Additionally, the company distributes automatic chemiluminescence, microbial, and blood and urine analysis systems, as well as their supporting supplies; and automatic biochemical analyzers and other products. It also establishes thirdparty medical laboratory centers; provides planning and designing, management consulting, equipment and reagent supplying, and supply chain optimization services for medical laboratories, as well as medical testing services. In addition, the company is involved in the social medical undertakings. It also exports its Kehuabrand products to 38 countries and regions. The company was founded in 1981 and is based in Shanghai, the People's Republic of China.

2749 Shanghai Kinetic Medical Co., Ltd manufactures and sells medical devices in China and internationally. It provides products for multidisciplinary specialties, including orthopedics, cardiovascular, and sports medicine. The company offers primom spinal fixation system, a system of instruments and implants designed to treat modern deformity, degenerative, and trauma applications; kyphoplasty systems; vertebral osteotome for cavity creation or working pathway establishment in vertebral body; bone cement delivery systems for distance bone cement delivery; injection guns for bone cement injection; and multifunctional tools for insertion and working pathway setup. It also provides kinect locking compression plate systems. The company was founded in 2005 and is based in Shanghai, China.

2750 Shanghai Milkground Food Tech Co., Ltd manufactures and sells cheese and liquid milk products to consumers and industrial clients in China. The company provides readytoeat nutrition series cheese sticks, adult shredded cheese sticks, children's growing cups, mozzarella cheese, cheese slices, cream cheese, butter, grilled cheese, etc., as well as milk and related products through distributors, selfoperated ecommerce channels, large shopping malls, and supermarkets. Shanghai Milkground Food Tech Co., Ltd was founded in 1998 and is headquartered in Shanghai, China.

2751 Shanghai New Culture Media Group Co., Ltd. operates in the film and television drama industry. The company engages in development of film, radio, and television production, distribution, new media, outdoor advertising, industrial investment, and other diversified development activities. It also offers a range of entertaient products and services, which includes TV dramas, movies, big variety arts, shooting of 4K3D

movies, online custom dramas, fashion variety shows, and other forms of film and television. In addition, the company is involved in independent research and development and agent publishing game business; and developing film and television IP copyright resources. Further, the company provides integrating interactive technology and media content resources. Shanghai New Culture Media Group Co., Ltd. was founded in 2004 and is based in Shanghai, China.

2752 Shanghai Pret Composites Co., Ltd. engages in the research and development, production, sale, and service of polymer and composite materials in China. It offers modified polyolefin materials, ABS, polycarbonate alloy, and nylon material products for use in automotive interior and exterior decoration, electrical and electronic, and military and aerospace applications; and LCP resin, LCP film, and LCP fiber materials for use in 5G highfrequency highspeed communication materials, highfrequency electronic connectors, acoustic wires, and military aerospace materials. The company was founded in 1993 and is based in Shanghai, China.

2753 Shanghai Runda Medical Technology Co., Ltd. provides integrated medical laboratory services in China. It offers platform supply, laboratory design/renovation, laboratory standardization, and information management system services; medical solutions to help healthcare professionals in the areas of biochemistry, diabetes, POCT, immunoassay analyzer, and molecular biology diagnosis; professional technical services; and logistic services. The company was founded in 1999 and is based in Shanghai, China.

2754 Shanghai Shenqi Pharmaceutical Investment Management Co., Ltd., together with its subsidiaries, operates as a pharmaceutical manufacturing holding investment company in China. The company engages in the research and development, and production of antitumor, cardiovascular, cerebrovascular, tonic products, cold and cough, children's medicine, and antifungal drugs. Its products include prescription drugs and OTC products. The company was founded in 1992 and is based in Shanghai, China.

2755 Shanghai Shimao Co., Ltd. engages in the commercial real estate development activities in China. It develops, operates, and sells residential and commercial real estate projects, as well as engages in the operation management of commercial sectors. The company was founded in 1993 and is headquartered in Shanghai, China.

2756 Shanghai Shunho New Materials Technology Co.,Ltd. develops, manufactures, and sells enviroental packaging materials in China. The company provides gold and silver paper boards for use in cigarette, gifts, cosmetics, liquor, food, medicine, toothpaste, sports products, electronic products packaging, etc.; and aluminumcoated and laminating papers, acrylic fibers, printed materials, optical anticounterfeiting membranes, and printing equipment. It also offers cloud printing and vertical ecommerce institutions, etc. services; and electronic cigarettes. The company was formerly known as Shanghai Luxin Packing Materials Science & Technology Co., Ltd. and changed its name to Shanghai Shunho New Materials Technology Co.,Ltd. in December 2016. Shanghai Shunho New Materials Technology Co.,Ltd. was founded in 2004 and is based in Shanghai, China.

2757 Shanghai Sinyang Semiconductor Materials Co., Ltd. engages in the research and development, design, manufacture, sale, and service of electronic materials and relevant surface treatment equipment in China. The company offers electroplating and deflashing chemical products; and high speed plating line, energy saving automatic plating line, automatic rack plating line, high pressure water jet, and automatic chemical immersion line equipment. It also provides ultrapure wafer processing

chemicals and wafer level wet process benches; and aerospace aircraft electronic chemical materials, such as electroless nickel chemical materials. The company was founded in 1999 and is based in Shanghai, China.

2758 Shanghai SK Petroleum & Chemical Equipment Corporation Ltd., together with its subsidiaries, engages in the research and development, and manufacture of petroleum and chemical equipment in China. The company offers mud logging units, chromatographs, sensors, special and drilling instruments, LWDs, GMWDs, and FMWDs. It also provides well logging tools, oil instruments, well control equipment, wellhead equipment, and rubber seals. In addition, the company offers mud logging and well logging services, MWD services, and rental services. Further, it provides oilfield engineering technical services; manufactures precision analyzing instrumentation; and supplies petroleum analysis instrumentation. The company also exports its products to America, the Middle East, Europe, Central Asia, South Asia, and Africa. Shanghai SK Petroleum & Chemical Equipment Corporation Ltd. was founded in 1993 and is headquartered in Shanghai, China.

2759 Shanghai Sunglow Packaging Technology Co., Ltd engages in the research, development, manufacture, and sale of packaging and printing products in China. It offers gift boxes, labels, handbags, blisters, and cartons. The company was founded in 2006 and is headquartered in Shanghai, China.

2760 Shanghai Weaver Network Co., Ltd. provides collaborative management software products in China. It offers ecology, a platform for large and middle size enterprises; eoffice, a collaboration platform for SMEs; eteams, a mobile cloud software; and emobile/mobile integration platform that enables mobile connectivity. The company serves manufacturing, real estate, software and Internet, financial, electronics, telecommunications, energy and chemical, automotive, media and entertainment, and catering chain industries, as well as textile, shoes, and apparel markets. Shanghai Weaver Network Co., Ltd. was founded in 2001 and is headquartered in Shanghai, China.

2761 Shanghai Xuerong Biotechnology Co., Ltd., together with its subsidiaries, engages in the research and development, industrial planting, and sale of fresh edible mushrooms in the People's Republic of China. It offers enoki, shiitake, king oyster, and shiitake mushrooms, as well as deer Flammulina velutipes. The company was formerly known as Shanghai Gaorong Food Co., Ltd. Shanghai Xuerong Biotechnology Co., Ltd. was founded in 1997 and is headquartered in Shanghai, the People's Republic of China.

2762 Shanghai Yuyuan Tourist Mart (Group) Co., Ltd. operates as a tourism and financial company in China. The company engages in designing, producing, processing, wholesaling, and retailing of gold, silver, platinum, and diamond jewelry products, as well as jade ware, arts, and crafts; engages in catering and restaurants business; operates department stores; sells hardware and electricity products, chemical raw materials and products, metal materials, and construction and decoration materials; and engages in the wholesale and retail of furniture. It also provides catering business management, corporate management, investment and asset management, social and economic consulting, largescale event organization, and exhibition services; engages in real estate development and operation, own house leasing, property management, ecommerce activities, and import and export of various types of goods and technologies; reexport trade and offset trade activities; and consignment business. The company was founded in 1896 and is based in Shanghai, China. Shanghai Yuyuan Tourist Mart (Group) Co., Ltd. operates as a subsidiary of Shanghai Fosun High Technology (Group) Co., Ltd.

2763 Shanghai Zhenhua Heavy Industries Co., Ltd. engages in the manufacture and sale of heavyduty equipment worldwide. The company offers various cranes; quayside container cranes, bulk cargo handling equipment such as ship loaders and ship unloaders; and stackers and reclaimers. It also provides various offshore products, such as cranes, pipelay vessels and other engineering vessels; offshore platforms; DP systems and jacking systems; and goliath cranes. In addition, the company offers steel structures that comprise large and heavy scale steel structures, such as bridges, modules, and sea wind structures, as well as electrical products. Further, it provides marine transport and installation products; marine engineering equipment; and mechanical and electrical suites used for lifting machinery, such as large anchor winch, power positioning device, platform lifting device, pipe tensioner, large rack for mechanism, large open gear and rotary support, and large reducer. In addition, the company is involved in the software development and integration; investment and financing business; leasing of cranes and engineering vessels; real estate development; and design and manufacturing of accessories. Further, it provides maintenance, consulting, and technical services. It owns a fleet of more than 20 transportation vessels. Shanghai Zhenhua Heavy Industries Co., Ltd. was founded in 1885 and is headquartered in Shanghai, the People's Republic of China.

2764 Shanghai Zhezhong Group Co.,Ltd manufactures and sells sets of switchgears in China. It also provides spare parts. The company was formerly known as Shanghai Zhezhong Construction Co., Ltd. and changed its name to Shanghai Zhezhong Group Co., Ltd. in March 2015. Shanghai Zhezhong Group Co.,Ltd is based in Shanghai, China.

2765 ShangriLa Hotels (Malaysia) Berhad, an investment holding company, engages in the operation of hotels and beach resorts primarily in Malaysia. The company operates through Hotels, Resorts and Golf Course; and Investment Properties segments. The company also engages in the property investment and management, office management, and commercial laundry services businesses; and rental of offices, shoplots and apartments, and car parks. In addition, it operates a golf course and clubhouse, and related facilities. The company was incorporated in 1971 and is based in Batu Ferringhi, Malaysia. ShangriLa Hotels (Malaysia) Berhad is a subsidiary of Hoopersville Limited.

2766 Shanxi Guoxin Energy Corporation Limited engages natural gas development and utilization, and consulting services. It is also involved in the sale of pipeline transportation services of natural gas and ethanol; provision of gas storage facilities leasing services; development, construction, operation, management, and heating of central heating projects; production, processing, and sales of natural gas cookers and instrumentation equipment; information technology development and consulting services; and import and export business. The company was formerly known as Shanghai Lianhua Synthetic Fiber Co., Ltd. and changed its name to Shanxi Guoxin Energy Corporation Limited in July 2014. The company was founded in 1992 and is based in Taiyuan, China.

2767 Shanxi Meijin Energy Co., Ltd. produces and sells commercial coke and coking coal in China. The company provides gas, coal tar, crude benzene, ammonium sulfate, and urea and LNG products. Shanxi Meijin Energy Co., Ltd. was founded in 1981 and is based in Taiyuan, China.

2768 Shanxi Yongdong Chemistry Industry Co., Ltd., together with its subsidiaries, engages in the research, development, and sale of chemical raw materials and chemical products in China. The company offers carbon black products, such as rubber, conductive, and pigment carbon black products. It also provides coal tar products comprising modified asphalt, industrial naphthalene, washing oil, phenol oil, anthracene oil, etc.

Shanxi Yongdong Chemistry Industry Co., Ltd. was founded in 2000 and is based in Yuncheng, China.

2769 Shanying International Holdings Co.,Ltd., together with its subsidiaries, engages in regenerated fiber, papermaking, packaging, and printing businesses. Its paper making business includes newsprint, craft board paper, linerboard, white coated cardboard, white cattle calf paper, coated grey board, corrugated paper, special paper. The packing products includes beverage packaging, packaging for industrial products and electronics products, fast food as well as products with special specification. The company operates in China, the United States, the United Kingdom, Sweden, Norway, the Netherlands, Japan, Thailand, and other countries. The company was formerly known as Anhui Shanying Paper Industry Co.,Ltd. and changed its name to Shanying International Holdings Co.,Ltd. in March 2017. Shanying International Holdings Co.,Ltd. was founded in 1957 and is headquartered in Shanghai, China.

2770 Shaw Communications Inc. operates as a connectivity company in North America. The company's Wireline segment provides cable telecommunications services, including video, Internet, WiFi, phone, satellite video, and data networking through a national fibreoptic backbone network to Canadian consumers, North American businesses, and publicsector entities. Its Wireless segment provides wireless services for voice and data communications serving customers in Ontario, British Columbia, and Alberta through Freedom Mobile; and in British Columbia and Alberta through Shaw Mobile. The company was formerly known as Shaw Cablesystems Ltd. and changed its name to Shaw Communications Inc. in May 1993. Shaw Communications Inc. was incorporated in 1966 and is headquartered in Calgary, Canada.

2771 Shawcor Ltd. operates as a material sciences company that serves the infrastructure, energy, and transportation markets worldwide. It operates through three segments: Composite Systems, Automotive and Industrial, and Pipeline and Pipe Services. The Composite Systems segment manufactures flexible composite that are used for oil and gas gathering, and other applications; fiberglass reinforced plastic underground storage tanks for the retail fuel, water and wastewater, and oil and gas markets. The Automotive and Industrial segment manufactures heatshrinkable products, including thin, medium, and heavywalled tubing; sleeves and molded products, as well as heatshrink accessories and equipment; and lowvoltage wires and cables for control, instrumentation, thermocouple, power, and industrial applications. The Pipeline and Pipe Services segment offers ultrasonic and radiographic pipeline girth weld inspection services to pipeline operators and construction contractors. The company was formerly known as Shaw Industries Ltd. and changed its name to Shawcor Ltd. in 2001. Shawcor Ltd. was founded in 1930 and is headquartered in Toronto, Canada.

2772 Shengda Resources Co.,Ltd., through its subsidiaries, engages in the exploration and development of nonferrous metals in China. The company primarily mines for lead, zinc, and silver. It also disposes hazardous wastes containing nickel, copper, gold, silver, and chromium. The company was formerly known as Shengda Mining Co., Ltd. and changed its name to Shengda Resources Co.,Ltd. in October 2019. The company was founded in 1995 and is based in Beijing, China.

2773 Shenghe Resources Holding Co., Ltd engages in the research and development, production, and supply of rare earth and related products in China and internationally. Its principal products include rare earth concentrates, rare earth oxides, rare earth salts and compounds, rare earth metals, rare earth metallurgical materials, rare earth catalytic materials, zircon sand, titanium concentrates, rutile, monazite, kyanite, garnet, etc., used in new energy, new materials, energy conservation and

environmental protection, aerospace, military industry, electronic information, and other fields. The company was formerly known as Taiyuan Tiancheng Science & Technology Co., Ltd and changed its name to Shenghe Resources Holding Co., Ltd in January 2013. The company was founded in 1998 and is based in Chengdu, China.

2774 Shengli Oil & Gas Pipe Holdings Limited, an investment holding company, designs, processes, manufactures, and sells welded pipes for oil and gas pipeline, and other construction and manufacturing applications in Mainland China and Hong Kong. The company operates through two segments, Pipes Business and Trading Business. It produces submerged arc helical and longitudinal welded pipes that are primarily used to transport crude oil, refined petroleum products, natural gas, and other related products, as well as used for the oil and infrastructure industry. The company also engages in the provision of anticorrosion services for oil and gas pipelines, and other construction and manufacturing applications; trading of environmental energy equipment, fuel oil and chemical products, and commodities; and provision of new energy technical development services. In addition, it offers anticorrosion technical and rental services; and trades in rolled coils. Shengli Oil & Gas Pipe Holdings Limited was founded in 1972 and is headquartered in Zibo, the People's Republic of China.

2775 Shenguan Holdings (Group) Limited, an investment holding company, manufactures and sells edible collagen sausage casing products in Mainland China, rest of Asia, and internationally. It also manufactures pharmaceutical products and intermediates, food products, skin care and health care products, bioactive collagen products, and fine chemicals for human usage. The company was incorporated in 2009 and is headquartered in Causeway Bay, Hong Kong. Shenguan Holdings (Group) Limited is a subsidiary of Rich Top Future Limited.

2776 Shenyang Blue Silver Industry Automation Equipment Co., Ltd engages in the industrial cleaning and surface treatment, digital factory, rubber intelligent equipment, and electrical automation and integration business in China. The company offers customized and standard cleaning solutions, equipment and spare parts, maintenance and repair, upgrades, technical training, and other ancillary services. It also manufactures rubber equipment, tire building machines, heat laminators, and automatic tread assembly units, as well as provides radial tire production workshop and tire production control integrated system solutions. In addition, the company offers power distribution system used as high voltage and low voltage parts in power systems, system control, smart grid, and end user use in the power system. Further, its logistics automation division provides logistics automation solutions in the fields of transportation, conveying, sorting, stacking, and three dimensional warehouse, fast moving consumer goods, and parcel sorting applications, as well as control and management systems for tire manufacturing, and industrial robots. Additionally, the company is involved in general multipiece cleaning business, dedicated single piece cleaning business, and precision cleaning business. Shenyang Blue Silver Industry Automation Equipment Co., Ltd was founded in 2004 and is headquartered in Shenyang, China.

2777 Shenzhen Asia Link Technology Development Co., Ltd. provides private network communication solutions in China and internationally. Its private network communication solutions are used in power grid companies; and railway transportation, as well as designs and develops software products. The company offers system, network, and highway industry products. The company was formerly known as Shenzhen Keybridge Communications Co., Ltd. Shenzhen Asia Link Technology Development Co., Ltd. was founded in 1999 and is based in Shenzhen, China.

2778 Shenzhen Batian Ecotypic Engineering Co., Ltd. engages in the research, production, sale, and terminal service of compound fertilizers in the People's Republic of China. It offers nitro phosphate fertilizers. The company was founded in 1989 and is headquartered in Shenzhen, China.

2779 Shenzhen CDL Precision Technology Co., Ltd. produces and sells functional basic components, structural components, and optical components for consumer electronics in China. The company offers sticking and fixing functional devices, buffering and sealing functional devices, conductive and shielding functional devices, insulating functional devices, thermal conduction and heat dissipation functional devices, and strengthening and functional devices, as well as optical protective films, dustproof nets, labels, packaging boxes, composite sheet mobile phone covers, flash covers, earpiece nets, etc. Its products are used in mobile phones, tablet computers, and communication digital products. The company was formerly known as CDL Sticky Products (Shen Zhen) CO.,LTD. and changed its name to Shenzhen CDL Precision Technology Co., Ltd. in 2013. Shenzhen CDL Precision Technology Co., Ltd. was founded in 2004 and is based in Shenzhen, China.

2780 Shenzhen Centralcon Investment Holding Co., Ltd. engages in the real estate development business in China. It is also involved in the hotel operation management, property management and lease, business management, and industrial investment activities. The company was formerly known as Shenzhen Changcheng Investment Holding Co., Ltd. and changed its name to Shenzhen Centralcon Investment Holding Co., Ltd. in March 2014. Shenzhen Centralcon Investment Holding Co., Ltd. was founded in 1994 and is based in Shenzhen, China.

2781 Shenzhen Changfang Group Co., Ltd. engages in the research and development, design, production, and sale of LED lighting source device packaging and LED lighting application products in China and internationally. It provides its lighting products for whole house customization, living room, bedroom, kitchen and bathroom, and meal hanging areas. The company was formerly known as Shenzhen Changfang Light Emitting Diode Lighting Co., LTD and changed its name to Shenzhen Changfang Group Co., Ltd. in March 2016. Shenzhen Changfang Group Co., Ltd. was founded in 2005 and is headquartered in Shenzhen, China.

2782 Shenzhen Clou Electronics Co., Ltd., together with its subsidiaries, provides equipment and solutions for smart grid, energy storage, new energy vehicle charging and operation, and integrated energy services in China and internationally. The company offers smart meters, intelligent power distribution and electrical equipment, precision instrument/intelligent detection products, smart logistics/smart manufacturing products, battery compartment systems, energy storage bidirectional converters, energy management systems, and energy storage full life cycle advanced management systems. It also provides charging infrastructure and smart cloud platform solutions; and charging station construction and operation, new energy vehicle operation, equipment integration and maintenance, EPC engineering general contracting, and building and park operation services, as well as operation and maintenance services for energy storage power stations. In addition, the company offers smart power consumption products; smart power distribution and transformation products; smart power industrial products; power engineering and technical services; new energy power generation auxiliary equipment, energy storage system facilities, battery assembly, etc.; and new energy vehicle pile operation services. Shenzhen Clou Electronics Co., Ltd. was founded in 1996 and is headquartered in Shenzhen, China.

2783 Shenzhen Cotran New Material Co.,Ltd. manufactures and provides waterproof and sealing insulation products and solutions in China. It

offers cold shrink, tape, site materials, fireproof sealing, electric power, pipeline anticorrosion, and liquid cooling products. The company provides its solution for telecom, power, anticorrosive, and fireproofing industries. Shenzhen Cotran New Material Co., Ltd. was founded in 2008 and is based in Shenzhen, the People's Republic of China.

2784 Shenzhen Das Intellitech Co., Ltd. provides intelligent building and energy management solutions in China. The company offers central airconditioning energy management systems; central airconditioning energy saving control systems; C3 card systems; and smart home products, access control products and accessories, and consumer and attendance products. It also offers energy monitoring and management platform for urban buildings; metro integrated monitoring software system for rail transit lines; and community integrated management platform. The company was founded in 1995 and is headquartered in Shenzhen, China.

2785 Shenzhen Deren Electronic Co., Ltd. engages in the research, development, manufacture, and sale of connectors and precision components for the home appliance, consumer and automotive electronics, and telematics technology sectors. It offers MFI, FPC, and FFC products, as well as LED supports, LED optical lens, camera lens, wiring harnesses, and connectors for the home appliance and consumer products industry; automotive electronics for the automotive electronics and electrics industry; and various telematics industry solutions. Shenzhen Deren Electronic Co., Ltd. was founded in 1989 and is based in Shenzhen, the People's Republic of China.

2786 Shenzhen Expressway Corporation Limited, together with its subsidiaries, primarily invests in, constructs, operates, and manages toll highways and roads, as well as other urban and transport infrastructure in the People's Republic of China. The company provides construction management and highways operation management services for government and other enterprises, as well as project development and management, advertising, construction consulting, internet network toll collection, and financial services; and billboard leasing, advertising agency, and design production and related services. It also invests in industries and project construction; and offers property management, real estate development, and engineering consulting services. In addition, the company provides infrastructure construction, environmental protection construction, equipment manufacturing, capital market, apartment rental and management, environmental technology development consultation, land development, architecture and engineering, and environmental projects and advisory services. It operated and invested in 17 toll highway projects. The company was incorporated in 1996 and is based in Shenzhen, the People's Republic of China. Shenzhen Expressway Corporation Limited is a subsidiary of Shenzhen International Holdings Limited.

2787 Shenzhen Fastprint Circuit Tech Co., Ltd. manufactures and sells PCBs in China and internationally. The company offers HDI, high frequency, and highspeed PCB products; rigidflex and flexible boards; semiconductor test boards; and IC substrates. It primarily serves communications, medical electronics, rail transit, computers and peripherals, semiconductors, automotive electronics, and industrial control companies. The company was founded in 1999 and is headquartered in Shenzhen, China.

2788 Shenzhen Feima International Supply Chain Co., Ltd. engages in the supply chain management and environmental protection new energy businesses in China and internationally. It offers coal procurement, logistics, warehousing, and distribution services to coal end users, as well as coal resources; settlement; import and export customs clearance, and procurement and sales execution services; and enterprises or government overseas contracting and foreign aid services, as well as operates a

nonferrous metal ecommerce platform. The company is also involved in the enterprise logistics outsourcing projects; procurement of largescale specialshaped equipment; straw and garbage power generation, and solid waste renewable resources treatment and utilization business; and industrial park construction, as well as IT electronics business. In addition, it engages in general trading and investment business; and provision of IoT technical services. Shenzhen Feima International Supply Chain Co., Ltd. was founded in 1998 and is headquartered in Shenzhen, the People's Republic of China.

2789 Shenzhen Fenda Technology Co., Ltd. develops, manufactures, and sells smart hardware and integrated solutions in China. Its principal products include electroacoustic products, health appliances, smart wearable products, precision metal parts, smart door locks, and wireless headsets. The company also offers speakers, such as wireless bluetooth, smart voice, and soundbars; smart bracelets, smart watches, safety bells, and TWS headsets; and hair straighteners, curling irons, and hair dryers. In addition, it offers metal exterior parts products comprising precision parts of smart phones, drones, wearable devices, and other products. The company was formerly known as Shenzhen Baoan Fenda Industry Co., Ltd. and changed its name to Shenzhen Fenda Technology Co., Ltd. in 2010. The company was incorporated in 1993 and is based in Shenzhen, China.

2790 Shenzhen Fluence Technology PLC. researches and develops, produces, and sells radiators, heat sinks, and LED lights in China and internationally. The company offers LED lighting products, including sports, education, facade, solar, infrastructure, industrial facilities, commercial, and household lightings. It also provides consumer electronics, such as radiators, storage devices, memory products, power supply devices, computer accessories, and cases; and flood light, highbay light, street light, and tunnel light heatsinks. In addition, the company offers heat dissipation systems comprising medical equipment cooling solutions; generating set and transportation solutions; aerospace and military testing equipment; and IDC data center and cloud computing centers. Further, it provides smart city solutions for transportation, humanities scenic spots, education facilities, and other fields. Shenzhen Fluence Technology PLC. was founded in 2005 and is based in Shenzhen, China.

2791 Shenzhen HeungKong Holding Co., Ltd engages in the real estate development businesses in China. It is also involved in the operation of land; property management; construction and decoration projects; corporate image planning; hotel management; education, investment, and economic information consulting; domestic trade; counter rental; supply chain management; investment management; marketing planning; and managing the physical examination centers businesses. In addition, the company provides warehousing; nutrition and health consulting; hospital management, nursing homes, and elderly care services; health and wellness management consulting; logistics management services for hospitals and physical examination centers; and technical research and development of medical devices and health products. The company was incorporated in 1994 and is based in Guangzhou, China.

2792 Shenzhen Infinova Limited provides electronic security products and solutions China and internationally. The company offers specialized, network cameras, control room, encoders and decoders, recorder, and network video management software, as well as camera accessories. The company was formerly known as Kuantuo Technology (Shenzhen) Ltd. and changed its name to Shenzhen Infinova Limited in December 2007. Shenzhen Infinova Limited was founded in 2000 and is headquartered in Shenzhen, China. Shenzhen Infinova Limited is a subsidiary of Infinova Corporation.

2793 Shenzhen INVT Electric Co.,Ltd focuses on industrial automation, and energy and power businesses worldwide. The company offers industrial automation, new energy vehicles, network energy and rail transportation, industrial IoT solutions, controllers, frequency converters, servo systems, new energy vehicle powertrain system, main motor controller, auxiliary motor controller, drive motor, onboard charging power supply, charging pile, data center infrastructure, photovoltaic power generation, power management, urban rail transit traction system, construction vehicle traction system, mining vehicle traction system, train air conditioner controller, etc. It also provides low and medium voltage drive; dedicated drive; elevator control system; fieldbus; and control device, location display device, control cabinet, leveling device, floor selector; and others. In addition, the company offers motion control devices, including PLC, HMI, general servo system, hydraulic servo system, electronic control system, and other motion control products; and renewable energy products, such as on grid inverters, singlephase off grid inverter, hybrid inverter, accessories, and photovoltaic networking monitoring platform. Further, it provides uninterruptible power supply comprising modular UPS, standalone UPS, single phase UPS, 208V and 120V UPS, battery and hot swap battery cabinet, energy absorbing unit, bypass cabinet, and power. The company serves lifting, machine tools, elevators, petroleum, metal products, wires and cables, plastics, printing and packaging, textile and chemical fiber, building materials, metallurgy, coal mines, new energy vehicles, rails Transportation, power, photovoltaic, and other industries. The company was founded in 2002 and is headquartered in Shenzhen, China.

2794 Shenzhen Jianyi Decoration Group Co., Ltd. provides interior architectural construction and design services in China. It offers services for office buildings, goverent agencies, starrated hotels, cultural and educational sports sanitary buildings, transportation infrastructure buildings, residences, etc. The company was incorporated in 1994 and is based in Shenzhen, China.

2795 Shenzhen Jieshun Science And Technology Industry Co.,Ltd. provides software and hardware products for smart car dealers and pedestrian entrances worldwide. The company offers intelligent parking management system and intelligent access control channel management system for use in residential properties, commercial plazas, office buildings, transportation hubs, goverent agencies, schools, hospitals, enterprises and institutions, and other social fields. It also engages in the software and cloud service business, which includes Tianqi intelligent IoT platform, parking lot cloud hosting service, cloud parking/cloud access control, urban parking management platform, and other related businesses. The company was founded in 1992 and is headquartered in Shenzhen, China.

2796 Shenzhen Jinjia Group Co.,Ltd. engages in the research, development, and production of packaging materials in China. It also develops packaging materials, such as lithography laser transfer film/paper, laser composite film/paperbased laser packaging, color cigarette films and degradable materials. The company's products include cigarette labels, color box packaging, and tobacco products. Shenzhen Jinjia Group Co.,Ltd. was incorporated in 1996 and is headquartered in Shenzhen, China.

2797 Shenzhen Jufei Optoelectronics Co., Ltd. engages in the research and development, manufacture, marketing, and sale of SMD LED devices in China, South Korea, Japan, India, Turkey, and internationally. The company offers backlight LED devices, lighting LED, LB, display LED, automotive LED, Nixie tube LED, and flat LED devices, as well as backlight LED modules, opto semiconductors, optical film, and TOCAN

products. Its products are used in various applications, such as mobile communications, liquid crystal display, lighting, automotive electronics and lighting, screen displays, Nixie tube, and other electrical appliances. The company was founded in 2005 and is based in Shenzhen, China.

2798 Shenzhen Kingdom SciTech Co., Ltd provides Fintech services in China. It offers digital medical image systems, digital financial services, stock market solutions, and smart city solutions. The company was founded in 1992 and is headquartered in Shenzhen, the People's Republic of China.

2799 Shenzhen Kingkey Smart Agriculture Times Co.,Ltd engages in the real estate, feed, breeding and sales terminal, and other businesses in China. The company is involved in the breeding and sale of pigs, meat pigs, chickens, and broilers; production, processing, and sale of feed products; manufacturing, refrigerating, and transportation of meat products; slaughtering of live pigs; and beverage, chicken farm equipment, and beer brewing businesses. It also engages in the import and export of goods and technologies; house leasing, commercial trade, aquaculture, and packaging activities; and real estate development and operation on legally acquired land. The company was formerly known as Shenzhen Kondarl (Group) Co., Ltd. and changed its name to Shenzhen Kingkey Smart Agriculture Times Co.,Ltd in April 2020. The company was founded in 1979 and is based in Shenzhen, China.

2800 Shenzhen Kingsino Technology Co.,Ltd. engages in the processing, production, and sale of feed in China. The company also engages in the farming and breeding of pigs; provides technical services for pig breeding and sales; trades in raw material related to feed production; and produces and sells animal health products and veterinary drugs, functional feed additives, aquaculture environment water quality improvers, etc. for use in various diseases of pigs and aquaculture. In addition, the company provides billing services for telecom operators. Shenzhen Kingsino Technology Co.,Ltd. was founded in 1999 and is based in Shenzhen, China.

2801 Shenzhen Mason Technologies Co.,Ltd researches, develops, designs, produces, and sells medium and highend LED light source device packaging and LED application lighting products in China and internationally. It offers street, tunnel, high bay, flood, and threeproof lights; and plugin and patches. The company also provides professional services for real estate properties; and internet marketing services for home furnishing, as well as professional communication services. Shenzhen Mason Technologies Co.,Ltd was founded in 2002 and is based in Shenzhen, China.

2802 Shenzhen Microgate Technology Co., Ltd. operates in the multilayer passive component industry worldwide. The company engages in the research, development, manufacture, and sale of LTCC RF components, chip inductors, EMI/EMC components, power inductors, and NFC antennas, as well as chip circuit protect and coil components, molding products, wirewound power inductors, SAW filters and duplexers, and chip EMC components. Its products are used in DVD players, mobile phones, personal computers, flat panel displays, car carriers, MP3s and MP4s, GPS systems, and other consumptive manufactures, as well as wireless, digital product, LCD/LED TV and monitor, and other applications. The company was founded in 2001 and is headquartered in Shenzhen, China.

2803 Shenzhen Minkave Technology Co., Ltd. engages in undertaking lighting engineering projects in China. It undertakes projects in the areas of urban night planning, cultural tourism scenic spot, smart street light systems, and light shows. The company was formerly known as Shenzhen Minkave City Lighting Technology Co., Ltd. Shenzhen Minkave

Technology Co., Ltd. was founded in 2001 and is headquartered in Shenzhen, China.

2804 ShenZhen Properties & Resources Development (Group) Ltd. engages in real estate development business in the People's Republic of China and internationally. It is involved in the development, sale, and leasing of real estate properties; management and construction of buildings; rental of houses; and retail of the Chinese food, Westernstyle food, wines, etc. It also provides buildings and building devices maintenance, garden afforest and cleaning, engineering supervision and management, property management, construction supervision, domestic trading, marketing, catering, and other services. The company was founded in 1982 and is based in Shenzhen, China. Shenzhen Properties & Resources Development (Group) Ltd. is a subsidiary of Shenzhen Investment Holdings Co., Ltd.

2805 ShenZhen RoadRover Technology Co.,Ltd provides automotive electronic products and solutions for car manufacturers in China and internationally. It offers invehicle infotainment systems; internet of vehicles; car audio solutions; power tailgate systems; digital multifunctional instrument panels; smart seating systems; and telematics solutions. The company was formerly known as Shenzhen Roadrover Technology Limited and changed its name to ShenZhen RoadRover Technology Co.,Ltd in March 2012. The company was founded in 2006 and is headquartered in Shenzhen, China. ShenZhen RoadRover Technology Co.,Ltd is a subsidiary of Zoomlion Heavy Industry Science and Technology Co., Ltd.

2806 Shenzhen Salubris Pharmaceuticals Co., Ltd. engages in the research, development, production, and sale of medicines for cardiovascular, antidiabetic, antineoplastic, and orthopedic therapeutic in China. It offers cardiovascular and cerebrovascular products, such as allisartan isoproxil, benazepril hydrochloride, desloratadine, and clopidogrel bisulfate tablets, as well as bivalirudin and pamidronate disodium injections; recombinant SeVhFGF2/dF Injection for the treatment of diabetic foot disease; and antitumor and orthopedics medicines. The company also provides antiinfection products comprising cefonicid sodium, ceftazidime, ceftriaxone sodium, cefonicid sodium, cefminox sodium, cefuroxime sodium, cefepime hydrochloride, and cefodizime sodium injections, as well as azithromycin dispersible and levetiracetam tablets. In addition, it offers biotechnological drugs, such as recombinant protein and monoclonal antibody drugs. Further, the company is involved in import, licensingin, and licensingout medicines for Europe markets. The company was founded in 1998 and is headquartered in Shenzhen, China.

2807 Shenzhen Senior Technology Material Co., LTD engages in the research and development, manufacture, and sales of lithiumion battery separators in China. It offers dry and wet process, and coated process separator products. The company's products are used in energy vehicles, energy storage power stations, electric bicycles, and power tools, aerospace, medical and digital electronic products, and other fields. It also offers thermoplastic carbon fiber composite, RO membrane, and other functional products. Shenzhen Senior Technology Material Co., LTD was founded in 2003 and is headquartered in Shenzhen, China.

2808 Shenzhen Soling Industrial Co.,Ltd provides car networking hardware and software services. Its products include MWR, HUD, rearview mirror, ADAS, DVR, back seat infotainment device, TPMS, 360 monitor, telematics, backup camera, full LCD cluster, MIFI, tbox, OBD, IVI, and antifatigue system. The company offers IVI systems for passenger car infotainment systems and commercial vehicle products; and tire pressure monitoring systems. It also provides IOV management platform for vehicle data monitoring, fault reminder, location tracking, in-car entertainment,

maintenance reminder, location sharing, electric vehicle management, vehicle remote control, collision reminder, realtime detection, car friends group, address book interaction, electric vehicle international and landmark docking, and overall security management. In addition, the company offers tire pressure monitoring systems. It sells its products to approximately 30 provinces and cities in China; and approximately 60 countries and regions in Europe, the United States, and Southeast Asia. The company was founded in 1997 and is based in Shenzhen, China.

2809 Shenzhen Success Electronics Co., Ltd develops and manufactures sensors, capacitive touch screens, small and medium size LCDs and corresponding modules, and glass cover products. It offers TN, HTN, STN, CSTN, and TFT LCDs; and GFF, OGS, and GG capacitive touch screens. The company also provides a range of touch and display integrated solutions for smart phone manufacturers. Its products are used in communications terminals, household appliances, automotive electronics, digital products, and other industries. The company exports its products to Europe, Japan, South Korea, Singapore, and other countries. Shenzhen Success Electronics Co., Ltd. was founded in 2004 and is based in Shenzhen, China.

2810 Shenzhen Sunline Tech Co., Ltd. provides banking software and technology services to banking and finance customers worldwide. It offers core products, including core, bank loan, smart deposit, and cash management business systems; and digital products, such as digital core systems, digital financial business platforms, business middle office centers, open platforms, digital loan business systems, and unified payment platforms. The company also provides big data products comprising data warehouse centers, external data management platforms, financial data marts, risk data marts, label management platforms, smart marketing centers, data service platforms, indicator management platforms, and decision engines; and IT consulting and planning, test, training, IT operation and maintenance, and hardware installation services. Shenzhen Sunline Tech Co., Ltd. was founded in 2002 and is headquartered in Shenzhen, China.

2811 Shenzhen Sunlord Electronics Co.,Ltd. operates as a technology developer for the passive component industry worldwide. It offers planar electronic and wire wound electronic transformers; coils/inductors, such as metal alloy multilayer chip power inductor/MPM, wire wound SMD power inductors/WPL series, wire wound SMD power inductors/WPN series; fine ceramic products, including zirconia fingerprint identification sensor covers and zirconia back covers; and customized components comprises wireless charging coil assemblies, NFC products, throughhole boards, and HDI boards. The company also provides chip temperature sensing NTC thermistors and sensors, and chip polymer PTC thermistors; EMC components consisting of multilayer chip ferrite beads, wire wound chip ferrite beads, chip 3terminal filters, and common mode filters; circuit protection components, including multilayer varistors, glass ceramic ESD suppressors, and leaded varistors for voltage surge suppressions; RF components; and solid tantalum chip capacitors and solid niobium oxide chip capacitors. Its products applications include communications, consumer electronics, computers, automotive electronics, new energy, network equipment, industry electronics, and other fields. Shenzhen Sunlord Electronics Co.,Ltd. was founded in 2000 and is based in Shenzhen, China.

2812 Shenzhen SunXing Light Alloys Materials Co.,Ltd. develops, produces, and sells light alloy materials in China. The company offers aluminum and magnesium alloy materials for use in various fields, such as military, aerospace, navigation, rail transit, construction, machinery

manufacturing, and chemical industries. Shenzhen SunXing Light Alloys Materials Co.,Ltd. was founded in 1992 and is based in Shenzhen, China.

2813 Shenzhen Wenke Landscape Co., Ltd. engages in planning and designing landscape engineering projects in China. It operates through Design and R&D; Landscape Engineering; Ecological Environment Protection; and Department of Science, Education, Culture and Tourism Division. The company is involved in the research and development of ecological technology and sponge city; and tourism planning and design. It also engages in the landscape engineering, municipal public engineering, and ancient garden building engineering projects; and water environment treatment, human settlement improvement, and soil pollution restoration projects. In addition, the company invests, constructs, and operates Flower Expo parks. The company was incorporated in 1996 and is based in Shenzhen, China.

2814 Shenzhen Wongtee International Enterprise Co., Ltd. operates in real estate industry in China. The company invests in and operates commercial real estate properties, such as office buildings, shopping centers, hotels, industrial parks, tourist attractions, cultural and creative parks, and other properties. It also provides asset management, brand incubation investment, Internet big data, financing, and intelligent integrated development services. The company was formerly known as Shenzhen International Enterprise Co., Ltd. and changed its name to Shenzhen Wongtee International Enterprise Co., Ltd. in September 2015. Shenzhen Wongtee International Enterprise Co., Ltd. was founded in 1983 and is based in Shenzhen, China.

2815 Shenzhen Yinghe Technology Co., Ltd researches, develops, produces, and sells automation equipment in China. It offers coating, roller press, slitting, tableting, winding, and stacking machines. The company also offers filming machine, laser die cutting machine, laminating machine, winding machine, cutting and stacking machine, and automatic assembly lines. In addition, it provides electronic cigarettes, cartridges, atomizers, and other electronic cigarette accessories. The company was incorporated in 2006 and is based in Shenzhen, China.

2816 Shenzhen Yitao Intelligent Control Co., Ltd. provides intelligent control products for appliances in China and internationally. It offers semiconductor products, such as power components, optical sensors, power supply ICs, DTV fronted ICs, video ICs, and driver ICs, as well as MEMS mirrors for optical scanners; enterprise management systems; and smart home products, such as OOMI systems, smart sensors, smart lightings, smart warning devices, and smart convertors, as well as intelligent control products for homes. The company also engages in the distribution of electronics, including biometrics, power components, integrated semiconductors, ARM SOC, electronic materials, analog devices, relay products, communication modules, MEMS, passive devices, navigation products, storage products, and MCU items. The company was incorporated in 2001 and is based in Shenzhen, China.

2817 Shenzhen YUTO Packaging Technology Co., Ltd. engages in the research and development, production, and sale of paper printing packaging products and plant fiber products in China and internationally. The company offers color boxes, gift boxes, manuals, stickers, corrugated boxes, and molded pulp trays. It serves ICT, health, tobacco, cosmetics, wine, and other industries. The company was founded in 2002 and is headquartered in Shenzhen, China.

2818 Shenzhen Zhenye (Group) Co.,Ltd. engages in the development, management, and rental of real estate properties in China. It develops villas, ordinary houses, apartments, office buildings, and commercial complexes. The company was founded in 1989 and is based in Shenzhen, China.

2819 Sherwood Corporation (Thailand) Public Company Limited, together with its subsidiaries, manufactures and distributes chemical products for household and industrial, agriculture, and public health applications in Thailand and internationally. The company offers insecticides; wood preservatives; and cleaning, industrial, public health, agrochemical, and pet care products. It also manufactures and distributes food products, such as milk, herbal beverages, drinking yogurts, syrups, and snack products. The company offers its products under the Chaindrite, Chaingard, Teepol, Vite Oil, Hokkaido, Teepol Professional, Teepol Pro Clean, Marujo, Super Fight, Steadfast, Emiforce, Biforce, Cypertac, Fipforce, PreMax, Alpha Gold, ThermatrFix, Sherwaside, Outrigger, Vapona, Sherwood Shield More, Schooner, Dreger, Vite Oil, Trine oil, Shermiprid, Shermida, Pyranica, Fenpyrad, Thiamethoxam, Pugio, Benshermic, Robonate, Tipblue, Sherplus, Azoxfee, Sherbew, Pethilachlor, Mewpendi, Acetchlor, Sherestol, Sir, Floralisa Grade A/Sherestol Plus, Sherbalance, Sherwagizer, Shermic Root, Mate, Jigsaw, Sherwamix, Hicap, Sherwa mazing, Sherdoll, Sherfen 10, Vita Bean, and Mos Away brands. The company was formerly known as Sherwood Chemicals Public Company Limited and changed its name to Sherwood Corporation (Thailand) Public Company Limited in June 2018. Sherwood Corporation (Thailand) Public Company Limited was founded in 1996 and is headquartered in Bangkok, Thailand. Sherwood Corporation (Thailand) Public Company Limited is a subsidiary of TOA Venture Holding Company Limited.

2820 Shifeng Cultural Development Co., Ltd., together with its subsidiaries, engages in the research, development, design, production, and sale of toys in China and Internationally. The company offers range of toy products, such as electric remote control, baby, car model, animation game derivative, and smart and other toys. It also develops online video games. The company also exports its products. Shifeng Cultural Development Co., Ltd. was founded in 1992 and is based in Shantou, China.

2821 Shikun & Binui Ltd., together with its subsidiaries, engages in the infrastructure and construction, real estate development, concessions, energy, and other businesses in Israel and internationally. It engages in building and maintaining infrastructure projects, including goverent and public facilities, educational and cultural institutions, medical facilities, courthouses, etc.; and development, construction, and operation of power generation facilities using photovoltaic (PV) systems, natural gas, thermosolar technology, and wind and hydro facilities. The company also undertakes roads, highways, bridges, and water and wastewater treatment plants projects; and digging of tunnels and underpasses, and other works. In addition, it develops residential and commercial units; and rents properties, such as student dormitories, office buildings, and commercial spaces. The company was formerly known as Housing and Construction Holding Company Ltd. and changed its name to Shikun & Binui Ltd. in March 2009. The company was founded in 1920 and is headquartered in Airport City, Israel.

2822 Shin Hwa World Limited, an investment holding company, engages in integrated resort development, gaming, and property development businesses in South Korea. It develops and operates integrated leisure and entertaient resort; and operates gaming and entertaient facilities, as well as invests in residential and commercial properties. The company is also involved in the development, management, operation, and rental of facilities for tourism, commerce, accommodation, and recreation; residential management; property holding; and securities investment business. In addition, it provides office management and marketing services. The company was formerly known as Landing International Development Limited and changed its name to Shin Hwa World Limited in

December 2022. Shin Hwa World Limited was incorporated in 2001 and is headquartered in Central, Hong Kong.

2823 Shinghwa Advanced Material Group Co., Ltd. engages in the production and sale of chemical products in China. Its products include methyl tertbutyl ether, propylene oxide, dimethyl carbonate, propylene carbonate, ethylene carbonate, ethyl methyl carbonate and other carbonate products, lithium hexafluorophosphate, and other products. The company was formerly known as Shandong Shida Shenghua Chemical Group Company Limited and changed its name to Shinghwa Advanced Material Group Co., Ltd. in September 2022. Shinghwa Advanced Material Group Co., Ltd. was founded in 2002 and is headquartered in Dongying, China.

2824 Shinva Medical Instrument Co., Ltd. provides medical instruments and equipment in the People's Republic of China. It offers CSSD integrated solutions, pharmaceutical equipment integrated solutions, radiotherapy integrated solutions, digital operating room integrated solutions, dental integrated solutions, medical environmental protection integrated solutions, experiment animal safeguard integrated solutions, in vitro diagnostic reagents and instruments, and biomedical materials and supplies. The company also provides pharmaceutical machinery and air purifiers. Shinva Medical Instrument Co., Ltd. was founded in 1943 and is headquartered in Zibo, the People's Republic of China.

2825 SHL Telemedicine Ltd., together with its subsidiaries, develops and markets personal telemedicine solutions in Israel, Europe, and internationally. The company offers smartHeart, a personal mobile 12 lead ECG device that enables the detection of heart attacks; CardioSenTM, a personal cellular digital 12 lead ECG transmitter device; CardioTMB, a portable device to transmit a 12 lead ECG; and Cardio Beeper 12/12, a handheld ECG transmitter device for personal use that transmits a full ECG reading to the monitoring center. It also provides central communication module, a telecommunication device that transmits medical data to its telemedicine centers from various medical monitoring devices; TeleWeight, a transtelephonic weight monitoring device for personal use; TelePress, a remote blood pressure monitoring device for personal use; TeleBreather, a remote electronic handheld device to test the working of lungs; and TelePulse Oximeter, an electronic handheld diagnostic device to measure the saturation level of oxygen in blood, as well as pulse rate. The company offers its telemedicine services and devices to subscribers using telephonic and internet communication technology. It serves patients, health insurance companies, hospitals, clinics, physicians, and other health care providers. The company has a collaboration agreement with Mayo Clinic to evaluate the incidence of emergency department visits, rehospitalizations, and major adverse cardiovascular events over a period of 90 days after first hospitalization for a heart attack for patients using SmartHeart FDA approved 12 lead ECG; and collaboration agreement with the Hebrew University of Jerusalem and the Hadassah Medical Center to develop an artificial intelligence tool for predicting future life threatening cardiac events based on 12 Lead ECG monitoring. SHL Telemedicine Ltd. was founded in 1987 and is headquartered in Tel Aviv, Israel.

2826 Shougang Fushan Resources Group Limited, an investment holding company, engages in the mining and exploration of coal resources, and production and sale of raw and clean coking coal in the People's Republic of China. The company owns and operates the Xingwu coal mine covering an area of approximately 11.6 square kilometers; the Jinjiazhuang coal mine covering an area of approximately 6.08 square kilometers; and the Zhaiyadi coal mine covering an area of approximately 13.9 square kilometers located in the Liulin County, Shanxi Province. It primarily serves steel manufacturers. The company was formerly known as Fushan

International Energy Group Limited and changed its name to Shougang Fushan Resources Group Limited in May 2011. Shougang Fushan Resources Group Limited was incorporated in 1985 and is based in Wan Chai, Hong Kong.

2827 Shouhang HighTech Energy Co., Ltd. engages in the research and development, design, manufacture, and sale of aircooling systems of power plants in China and internationally. The company also involved in the solar thermal power generation, power station water saving, waste heat utilization, water technology, clean heating, hydrogen energy utilization, and white smoke plume elimination, etc. The company was formerly known as Beijing Shouhang Resources Saving Co.,Ltd and changed its name to Shouhang HighTech Energy Co., Ltd. in December 2019. Shouhang HighTech Energy Co., Ltd. was founded in 2001 and is headquartered in Beijing, China.

2828 Shun Tak Holdings Limited, an investment holding company, engages in property, transportation, hospitality, and investment businesses in the People's Republic of China and internationally. It develops and sells hotel, commercial, and residential properties; leases retail, office, and residential properties; and offers property and facility management services for residential developments, clubhouses, office towers, shopping malls, and carparks. The company also offers passenger sea and land transportation services across destinations within the Pearl River Delta connecting cities, such as Hong Kong, Macau, Zhuhai, Shenzhen, and Shekou under the TurboJET brand name. In addition, it operates hotels and golf clubs, as well as offers MICE and transportation services; invests in gaming concessionaires; and operates toy stores under the "Toys"Us name. Additionally, the company provides financing; hospitality management and auxiliary; and travel agency services. Shun Tak Holdings Limited was incorporated in 1972 and is based in Central, Hong Kong.

2829 Shunfa Hengye Corporation engages in real estate development and operation business. The company primarily develops residential real estate projects. It is also involved in wind power electricity generation and property management business. Shunfa Hengye Corporation was founded in 1997 and is based in Xiaoshan, China.

2830 Shunfeng International Clean Energy Limited, together with its subsidiaries, provides clean energy and lowcarbon energysaving integrated solutions in the Peoples Republic of China and internationally. The company manufactures and sells solar products, as well as offers related installation services. It also engages in the solar power generation business; and develops hydrogen energy equipment of heavy duty trucks. The company was formerly known as Shunfeng Photovoltaic International Limited and changed its name to Shunfeng International Clean Energy Limited in November 2014. Shunfeng International Clean Energy Limited is headquartered in Wan Chai, Hong Kong.

2831 Shunliban Information Service Co.,Ltd engages in the enterprise Internet service business in China. It provides enterprise registration, finance and taxation, intellectual property, investment and financing, and problem solving services in the process of enterprise development. The company also offers modern enterprise services, such as standard and customized advisory; and user, professional factory, cooperative, service station outlet, and offline service support system services. In addition, it operates online service platform that provides knowledge, application, ecommerce, resource, and data cloud services combined with offline service system, as well as open cloud and cloud computing services; and provides smart enterprise services, such as enterprise insurance, procurement, and marketing, as well as service insurance and corporate finance services. The company was formerly known as Shenzhou Yiqiao

Information Service Co., Ltd. and changed its name to Shunliban Information Service Co., Ltd in June 2018. Shunliban Information Service Co., Ltd was founded in 1996 and is based in Chengxi, China.

2832 Siam Food Products Public Company Limited, together with its subsidiaries, grows, manufactures, and distributes processed food from agricultural products. Its products include pineapples in cans; aseptic and plastic bags; pineapple juice concentrates; other fruits in can and plastic cups; and canned pineapple juices, as well as animal feeds. The company is also involved in the commercial and investment activities. It also exports its products. The company was founded in 1970 and is based in Bangkok, Thailand. Siam Food Products Public Company Limited is a subsidiary of Plantheon Company Limited.

2833 Siam Global House Public Company Limited engages in the merchandising of construction and decoration materials and equipment in Thailand, Kingdom of Cambodia, and Republic of the Union of Mya. It offers mortar; steel; electric appliances; doors and windows; water tanks and plumbing equipment; home improvement and repair equipment; tools and hardware products; TV and stereo; bathroom products; floor and wall products; furniture; electrical equipment; kitchen appliances; agricultural and gardening equipment; lamp and lighting products; painting and chemical products; home decoration products; storage and cleaning equipment; bedroom products; sports and recreation goods; toys and fashion products; consumer goods; and related installation services. The company was founded in 1995 and is headquartered in Mueang Roi Et, Thailand.

2834 Siam Makro Public Company Limited operates cash and carry trade centers under the Makro name. It operates through Cash and Carry, Retail, Mall Rental, and Food Services segments. The company's trade centers sell food and nonfood products to registered members, including small and medium-sized businesses, retailers, caterers, professional sectors, and institutions. It offers freight, delivery rental, and storage services; marketing and consulting services; and imports, exports, trades in, and distributes food products. The company is also involved in the provision of technical and support services; trading of nonfood products; investing and operation of retail business and mall rental activities; importing and trading of frozen and chilled foods; telecommunication business; and operation of restaurant and minimart. As of December 31, 2021, it operated 135 Makro stores and 7 frozen shops. The company was incorporated in 1988 and is headquartered in Bangkok, Thailand. Siam Makro Public Company Limited is a subsidiary of CP ALL Public Company Limited.

2835 Siam Pan Group Public Company Limited, together with its subsidiaries, manufactures and distributes lubricating oils and greases, and automotive batteries in Thailand, Mya, and internationally. The company operates through three segments: Lubricating Oil, Grease, and Batteries. It offers lubricating oils for engines under the Trane, Deterla, and Super Star brands; lubricating greases for lubricating works under the Trane and Crocodile brands; and automotive batteries under the Boliden brand. The company is also involved in the manufacture and sale of plastic containers, caps, and lids. It also exports its products to Germany, Finland, Nigeria, Ghana, Gambia, Ethiopia, Lebanon, Dubai, Australia, New Zealand, Hong Kong, Singapore, Taiwan, Malaysia, Vietnam, Afghanistan, Sudan, Liberia, Angola, Mya, Indonesia, China, the Philippines, Bangladesh, Laos, Cambodia, and Burma. Siam Pan Group Public Company Limited was incorporated in 1996 and is headquartered in Bangkok, Thailand.

2836 Sibanye Stillwater Limited, together with its subsidiaries, operates as a precious metals mining company in South Africa, the United

States, Zimbabwe, Canada, and Argentina. The company produces gold; platinum group metals (PGMs), including palladium, platinum, and rhodium; and byproducts, such as iridium, ruthenium, nickel, copper, and chrome. It owns the East Boulder and Stillwater mines located in Montana, the United States; and Columbus metallurgical complex, which smelts the material mined to produce PGM-rich filter cake, as well as conducts PGM recycling activities. The company is also involved in the Kroondal, Rustenburg, Marikana, and Platinum Mile operations situated in South Africa; Mimosa located on the southern portion in Zimbabwe; the Driefontein, Kloof, and Cooke surface operations located on the West Rand of the Witwatersrand Basin; and the Beatrix situated in the southern Free State. In addition, it owns an interest in surface tailings retreatment facilities; the Marathon PGM project in Ontario, Canada; the Altar and Rio Grande copper gold projects in the Andes in northwest Argentina; the Hoedspruit; and the Burnstone and southern Free State gold projects in South Africa. Sibanye Stillwater Limited was founded in 2013 and is headquartered in Weltevreden Park, South Africa.

2837 Sichuan Golden Summit (group) JointStock Co., Ltd. engages in mining, processing, and sale of limestone in China. It is also involved in the production and sale of calcium carbonate composite materials; and sale of building materials. The company provides consulting services; import and export of mineral products; warehousing services; and machinery and equipment leasing businesses. Sichuan Golden Summit (group) JointStock Co., Ltd. is based in Leshan, China.

2838 Sichuan Haite Hightech Co., Ltd. provides aircraft airborne equipment maintenance services in China. It is also involved in aviation technology research and development, aviation product manufacturing, aviation training, aviation material maintenance, microelectronics, gas turbine engineering, and leasing activities. The company was founded in 1991 is based in Chengdu, China.

2839 Sichuan Languang Development Co., Ltd. engages in real estate development business in China. It is also involved in the modern service, biomedicine, and 3D bioprinting business. The company was formerly known as Sichuan Di Kang Technology Pharmaceutical Co., Ltd. and changed its name to Sichuan Languang Development Co., Ltd. in April 2015. Sichuan Languang Development Co., Ltd. was founded in 1993 and is based in Chengdu, the People's Republic of China.

2840 Sichuan Lutianhua Company Limited By Shares produces and sells fertilizer and chemical products in China. It offers chemical fertilizer products, such as urea and compound fertilizer; and chemical products, including liquid ammonia, methanol, dimethyl ether, liquid ammonium nitrate, concentrated nitric acid, dilute nitric acid, nitrous oxide, and urea for vehicles. The company was formerly known as Sichuan Lutianhua Company Limited and changed its name to Sichuan Lutianhua Company Limited By Shares in July 2021. Sichuan Lutianhua Company Limited By Shares was founded in 1999 and is based in Luzhou, China.

2841 Sichuan Meifeng Chemical Industry Co., Ltd. manufactures and sells chemical products in China. It offers urea, compound fertilizer, nitrogen oxide reducing agents, melamine, nitric acid, ammonium nitrate, carbon dioxide, polymer materials, and other products; and packaging plastic products, as well as liquefied natural gas. The company was founded in 1994 and is based in Deyang, China.

2842 Sichuan Xichang Electric Power Co., Ltd. engages in generation, supply, distribution, and sale of electric power in Liangshan prefecture, Sichuan province, China. It operates 129 grid-connected hydropower stations with an installed capacity of 706,300 kilowatts; and owns and controls 8 hydropower stations with an installed capacity of 124,800 kilowatts. The company was formerly known as Liangshan Xichang Electric

Power Co., Ltd. Sichuan Xichang Electric Power Co.,Ltd. was founded in 1980 and is headquartered in Xichang, China.

2843 Sichuan Xunyou Network Technology Co., Ltd. provides network addons for online games and other internet realtime interactive applications in China. It offers online game accelerator primarily used in strong interaction and battle online games on the PC side that is compatible with various Windows systems; and mobile game accelerator for use in smartphones. The company was founded in 2006 and is headquartered in Chengdu, China.

2844 Siegfried Holding AG engages in the life sciences business worldwide. The company develops and produces active pharmaceutical ingredients (APIs) and intermediates, as well as finished dosage forms, including solid oral dosage forms, and sterile and aseptic filling injectables, ophthalmics, and inhalative products. It offers contract development and manufacturing services, including pharmaceutical and analytical development, process and analytical transfer, commercial manufacturing and packaging, and scale up and clinical trial material production. In addition, the company provides APIs and controlled substances focusing on anesthetics, pain treatment applications, and central nervous and respiratory diseases. Further, it licenses oral solid and sterile products; assembles registration dossiers; and offers a common technical document for various products. The company was founded in 1873 and is headquartered in Zofingen, Switzerland.

2845 Siem Offshore Inc., together with its subsidiaries, owns and operates offshore support vessels for the offshore energy service industry and offshore renewables market. It operates platform supply vessels (PSVs); offshore subsea construction vessels (OSCVs); anchorhandling tug supply vessels (AHTS vessels); multipurpose field and ROV support vessels; scientific core drilling vessels (SCDVs); well intervention vessels (WIVs); and other vessels, including fast crew, fast supply, and oilspill recovery vessels. The company has a fleet of 28 vessels, which includes six PSVs, four OSCVs, eight AHTS vessels, two WIVs, one SCDV, five smaller Brazilian flagged vessels, and one Canadian flagged vessel comprising an AHTS vessel. It operates in Norway, North Sea, Brazil, Australia, Canada, the Arctic Ocean, Northern Pacific Ocean, Southeast Asia, and West Africa. The company was founded in 2005 and is headquartered in Kristiansand, Norway.

2846 Siemens Gamesa Renewable Energy, S.A., together with its subsidiaries, supplies wind power solutions in Europe, the Middle East, Africa, the Americas, Asia, and Australia. It operates through two segments, Wind Turbines; and Operation and Maintenance. The Wind Turbines segment offers wind turbines for various pitch and speed technologies, as well as provides development, construction, and sale of wind farms. The Operation and Maintenance segment engages in the management, monitoring, and maintenance of wind farms. It has a total installed capacity of approximately 127 gigawatts. The company was formerly known as Gamesa Corporaci3n Tecnol3gica, Sociedad An3nima and changed its name to Siemens Gamesa Renewable Energy, S.A. in May 2017. The company was incorporated in 1976 and is headquartered in Zamudio, Spain. Siemens Gamesa Renewable Energy, S.A. operates as a subsidiary of Siemens Energy Global GmbH & Co. KG.

2847 SIG Group AG provides aseptic carton packaging systems and solutions for beverage and liquid food products. The company provides aseptic carton filling lines, aseptic carton sleeves and closures, baginbox, and spouted pouch, as well as spare parts, maintenance, digital, addon, training, and other services. It primarily operates in Europe, the Middle East, Africa, the Asia Pacific, and the Americas. The company was formerly known as SIG Combibloc Group AG and changed its name

to SIG Group AG in April 2022. SIG Group AG was founded in 1853 and is headquartered in Neuhausen am Rheinfall, Switzerland.

2848 "Sigiriya Village Hotels PLC operates hotels in Sri Lanka. It operates a tourist hotel under the name Sigiriya Village located in Sigiriya. The company was incorporated in 1978 and is based in Sigiriya, Sri Lanka. As of February 10, 2023 Sigiriya Village Hotels PLC is a subsidiary of Colombo Fort Hotels Ltd..

"

2849 Signature International Berhad, an investment holding company, designs, manufactures, markets, distributes, and retails modular kitchen systems, wardrobe systems, and builtin kitchen appliances under the SignatureKitchen brand name. The company markets, distributes, and sells white goods, such as washing machines, hoods, hobs, ovens, fridges, etc. to projects, retailers, and end consumers; and kitchen and bedroom cabinets, knockdown furniture and furniture parts, appliances, and accessories. It also manufactures, supplies, fabricates, and installs aluminum, glass, and aluminum related products for the retail and project businesses; and designs, supplies, fabricates, and installs wall panels, curtain walls, as well as engages in cladding, glazing, and other aluminum and glass architectural works. In addition, the company trades in water heaters and bathroom accessories, and related equipment; and provides interior decoration, consulting, and planning services for office, shops, and residential interiors. Further, it engages in property investment and development activities. The company has operations in Malaysia, Singapore, Myaar, Brunei, Vietnam, the Philippines, Cambodia, Sri Lanka, Maldives, Thailand, Indonesia, Pakistan, Mauritius, India, and the United Arab Emirates. Signature International Berhad was incorporated in 1994 and is headquartered in Petaling Jaya, Malaysia.

2850 Signify Health, Inc. operates a healthcare platform that utilizes analytics, technology, and healthcare provider networks in the United States. The company operates through Home & Community Services and Episodes of Care Services segments. The Home & Community Services segment offers health evaluations performed within the patient's home or at a healthcare provider facility primarily to Medicare Advantage health plans; diagnostic screening and other ancillary services; and services to address healthcare concerns related to social determinants of health. The Episodes of Care Services segment provides services to enhance the healthcare delivery through developing and managing episodic payment programs in partnership with healthcare providers under the Bundled Payment for Care Improvement Advanced program with Centers for Medicare and Medicaid Services; and care management services. The company serves health plans, goverents, employers, health systems, and physician groups. The company operates in Norwalk, Connecticut, New York, New York, Dallas, Texas, South Dakota, Deerfield, Florida, and Rapid City. Signify Health, Inc. was founded in 2017 and is headquartered in Dallas, Texas.

2851 Sihuan Pharmaceutical Holdings Group Ltd., an investment holding company, engages in the research and development, manufacture, marketing, and sale of pharmaceutical products in the People's Republic of China. It offers drugs in the oncology, metabolic diseases, digestive system, and other therapeutic areas. The company is also involved in the investment and sale of medical beauty products; manufacture of medical instruments; investment in properties; construction for medical projects; and project preparation for pharmaceutical products manufacturing. In addition, it provides information support, general hospital, hospital management, biotechnology promotion, and medical aesthetic research and development services. The company was founded in 2001 and is based in Wanchai, Hong Kong.

2852 SIIC Enviroent Holdings Ltd., an investment holding company, engages in the wastewater treatment, water supply, sludge treatment, solid waste incineration, and other enviroent related businesses primarily in the People's Republic of China. It operates through three segments: Water and Sludge Treatment; Water Supply; and Waste Incineration. The Water and Sludge Treatment segment constructs, manages, and operates water and sludge related infrastructure under service concession arrangements; and manages and operates water and sludge related infrastructure under nonservice concession arrangements, as well as provides financial income under service concession arrangements. The Water Supply segment engages in the construction, management, and operation of water supply related infrastructure under service concession arrangements. The Waste Incineration segment constructs, manages, and operates waste incineration related infrastructure under service concession arrangements. In addition, it provides design, installation, and consultancy of water meter activities. The company has a portfolio of approximately 200 water treatment and supply projects, 8 waste incineration projects, and 11 sludge treatment projects in 19 municipalities and provinces in China. SIIC Enviroent Holdings Ltd. was incorporated in 2002 and is based in Singapore.

2853 Sikarin Public Company Limited, together with its subsidiaries, operates hospitals in Thailand. It provides payment and data management solutions for retail, business payment, and transactional processing requirements. The company also engages in selling Eftpos terminals; and provides hardware, software, and maintenance and repairs services. The company serves 25,000 merchants with approximately 35,000 EFTPOS terminals. It serves retail, trade, taxi and transport, charities and schools, hospitality, and tourism industries. The company was incorporated in 1986 and is based in Auckland, New Zealand.

2898 SMCP S.A. operates as a readytowear and accessories retail company in France and internationally. It designs, markets, and sells womenâ€™s wear, menâ€™s wear, and accessories. The company sells its products through a network of points of sale and websites under four brands, including Sandro, Maje, Claudie Pierlot, and De Fursac. The company was founded in 1984 and is headquartered in Paris, France. SMCP S.A. is a former subsidiary of Shandong Ruyi Technology Group Co., Ltd.

2899 SMT Scharf AG plans, manufactures, sells, installs, and maintains machinery and equipment for the transportation of equipment and logistics systems for underground mining and tunnel construction. The company operates through four segments: Coal Mining, Mineral Mining, Tunnel, and Other Industries. It offers diesel locomotives, monorail systems, chairlift systems, segment cranes, construction site cranes, lifting devices, explosive device placement devices, drilling and splitting devices, lifting beams, cherry picker, muckmasters, cable drive, battery trolley, mini climbers, and rope drives. The companyâ€™s products are

primarily used in hard coal, gold, platinum, copper, nickel, and salt mining activities. It has operations in Germany, Russia, Poland, China, South Africa, the United States, and internationally. SMT Scharf AG was founded in 1941 and is based in Hamm, Germany.

2900 Smurfit Kappa Group plc, together with its subsidiaries, manufactures, distributes, and sells containerboard, corrugated containers, and other paperbased packaging products in the Americas and Europe. The company offers consumer, retail, industrial, ecommerce, heavyduty corrugated, and hexacomb packaging products; composite cardboard tubes, bags, and sacks; and baginbox, a packaging system that comprises films, accessories, bags, taps, and boxes. It also provides point of sale displays; safespace communication standees; automated packing lines; various types of containerboards, such as Kraftliners, testliners, and containerboard flutings; and corrugated sheet boards, solid board sheets, other papers and boards, folding carton sheet boards, sack Kraft papers, MG brown Kraft papers, preprint products, agropapers, technical papers, BanaBag, and Catcher Board MB12. In addition, the company offers recycling solutions to cardboard and paper products. It primarily serves consumer goods, industrial goods, and food and drink sectors. Smurfit Kappa Group plc was founded in 1934 and is headquartered in Dublin, Ireland.

2901 Snam S.p.A., together with its subsidiaries, engages in the operation of natural gas transport and storage infrastructure in Italy. The company operates through Natural Gas Transportation, Liquefied Natural Gas (LNG) Regasification, and Natural Gas Storage segments. It provides natural gas transportation and dispatching services with approximately 32,700 kilometers of highand mediumpressure gas pipelines; and owns and manages LNG regasification plants. The company also offers natural gas storage services through an integrated group of infrastructure comprising deposits, wells, gas treatment and compression plants, and the operational dispatching systems; and operates nine storage concessions, including five in Lombardy, three in EmiliaRomagna, and one in Abruzzo. In addition, it engages in the lease and maintenance of fibre optic telecommunications cables, as well as provides integrated services in the natural gas mobility sector; energy efficiency solutions for residential, industrial, tertiary, and public administration sectors; and management of biogas and biomethane plants. Further, the company offers engineering and project management services; and supervision of infrastructure planning activities. It also operates in Albania, Saudi Arabia, Austria, China, Egypt, the United Arab Emirates, France, Greece, the United Kingdom, and the United States. The company was formerly known as Snam Rete Gas S.p.A. and changed its name to Snam S.p.A. in January 2012. Snam S.p.A. was founded in 1941 and is headquartered in San Donato Milanese, Italy.

2902 SNC Former Public Company Limited, together with its subsidiaries, manufactures and sells component parts for automobile air conditioners and cooling machines in Thailand and internationally. It is also involved in the contract manufacturing and assembly of air conditioners for household use. In addition, the company manufactures plastic parts for electric appliance and automobiles; household and automotive air conditioner parts; heat pumps for water heat pumps; insulation copper price kits used for the installation of cooling machines and foam pipe insulation; and tools for equipment. Further, it engages in the generation of biomass electric plant garbage; and invests in alternative power plant. SNC Former Public Company Limited was founded in 1981 and is headquartered in Samut Prakarn, Thailand.

2903 SOCAM Development Limited, an investment holding company, engages in the property development and construction businesses in Hong Kong,

Macau, and Mainland China. The company operates in three segments: Property, Construction and Building Maintenance, and Other Businesses. It undertakes the construction of public housings, and commercial and institutional buildings, as well as provides interior fitting out and building renovation, maintenance, and facility management services. The company also provides venture capital investment, design and contracting, management, and consultancy services; and undertakes structural steel construction works. In addition, it owns and leases plants and machineries; supplies facades; and develops and leases properties. The company was formerly known as Shui On Construction and Materials Limited and changed its name to SOCAM Development Limited in September 2011. SOCAM Development Limited was incorporated in 1997 and is headquartered in Wan Chai, Hong Kong. SOCAM Development Limited operates as a subsidiary of Shui On Land Limited.

2904 Sociedad Agr cola La Rosa Sofruco S.A. cultivates, harvests, processes, and sells various agricultural products primarily in Chile. It offers fresh fruits, dehydrated fruits, nuts, bee and palm honey, and natural juices. The company also exports its products. The company was founded in 1824 and is based in Santiago, Chile. Sociedad Agr cola La Rosa Sofruco S.A. is a subsidiary of Compania de Inversiones Mobiliaria e Iobiliaria Mar del Plata S.A.

2905 Sociedad Matriz SAAM S.A. provides towage, port terminals, and logistics services. Its Towage segment provides berthing and deberting, assistance, security guards, salvage, and harbor towage services; oil and gas platforms positioning and anchoring services; and specialized services for ships at offshore terminals. This segment operates through a fleet of 153 tugboats at 69 ports in 9 countries, including Canada, Mexico, Guatemala, Costa Rica, Panama, Ecuador, Brazil, Chile, and Uruguay. The company s Port Terminals segment offers dockage/wharfage, stevedoring, and terminal logistics services. This segment also operates ten ports in the United States, Mexico, Costa Rica, Colombia, Ecuador, and Chile. Its Logistics and Others segment provides trucking, warehousing, bonded warehouse, and valueadded services in Colombia, Ecuador, Uruguay, and Chile; and airport services, such as cargo and passenger services, as well as cold storage services at eight airports in Chile, Ecuador, and Colombia. The company was founded in 1961 and is headquartered in Las Condes, Chile.

2906 Sociedad Minera Corona, SA engages in the exploration, extraction, production, and sale of copper, silver, lead, zinc, and oxides concentrates. It holds interest in the Yauricocha mine covering 18,778 hectares located in the Yauyos province. The company was incorporated in 1993 and is based in Lima, Peru. Sociedad Minera Corona, SA is a subsidiary of Dia Bras Peru, S. A. C.

2907 Sociedad Qu mica y Minera de Chile S.A. produces and distributes specialty plant nutrients, iodine and its derivatives, lithium and its derivatives, potassium chloride and sulfate, industrial chemicals, and other products and services. The company offers specialty plant nutrients, including potassium nitrate, sodium nitrate, sodium potassium nitrate, specialty blends, and other specialty fertilizers. It also provides iodine and its derivatives for use in medical, pharmaceutical, agricultural, and industrial applications comprising xray contrast media, polarizing films for LCD and LED, antiseptics, biocides and disinfectants, pharmaceutical synthesis, electronics, pigments, and dye components. In addition, the company offers lithium carbonates for various applications that include electrochemical materials for batteries, frits for the ceramic and enamel industries, heatresistant glass, air conditioning chemicals, continuous casting powder for steel extrusion, primary aluminum smelting process, pharmaceuticals, and

lithium derivatives, as well as ingredient in manufacturing of gunpowder. Further, it supplies lithium hydroxide for the lubricating greases industry, as well as cathodes for batteries. Additionally, it offers potassium chloride and potassium sulfate for various crops, including corn, rice, sugar, soybean, and wheat; industrial chemicals, including sodium nitrate, potassium nitrate, potassium chloride, and solar salts; and other fertilizers and blends. The company operates in Chile, Latin America and the Caribbean, Europe, North America, Asia, and internationally. Sociedad Química y Minera de Chile S.A. was incorporated in 1968 and is headquartered in Santiago, Chile.

2908 Soci  t   de Services, de Participations, de Direction et d'Elaboration Soci  t   anonyme produces and markets natural mineral water in Belgium. It offers natural mineral water under the Spa, Bru, Wattwiller, Carola, and Devin brand names. The company is based in Woluwe  SaintLambert, Belgium. Soci  t   de Services, de Participations, de Direction et d'Elaboration Soci  t   anonyme is a subsidiary of Finances Et Industries SA.

2909 Soci  t   Financi  re des Caoutchoucs S.A., together with its subsidiaries, engages in the development and management of tropical oil palm and rubber plantations in Africa and Southeast Asia. The company offers palm oil for use as vegetable oil. It operates approximately 192,000 hectares of tropical oil palm and rubber plantations. The company was founded in 1909 and is based in Luxembourg, Luxembourg.

2910 "Leader in the prime segment of the Parisian commercial real estate market, Soci  t   Fonci  re Lyonnaise stands out for the quality of its property portfolio, which is valued at   7.2 billion and is focused on the Central Business District of Paris (  cloud.paris, Edouard VII, Washington Plaza, etc.), and for the quality of its client portfolio, which is composed of prestigious companies in the consulting, media, digital, luxury, finance and insurance sectors. "

2911 Soci  t   Fran  saise de Casinos Soci  t   Anonyme operates casinos in France. The company is also involved in the hotel and restaurant activities. The company is based in Paris, France.

2912 Soci  t   Marseillaise du Tunnel Prado Car  nage constructs and operates tunnels in France. It operates the Prado Car  nage, R  ge and Prado Sud, Prado South tunnels. The company was incorporated in 1989 and is headquartered in Marseille, France.

2913 SoftBank Corp., together with its subsidiaries, engages in the telecommunication and information technology businesses in Japan. It operates through Consumer, Enterprise, Distribution, and Yahoo segments. The Consumer segment offers mobile services under the SoftBank, Y!mobile, LINE MOBILE, and LINEMO brands. This segment also sells mobile devices, such as phones and tablets; provides Internet broadband services under the SoftBank Hikari brand; sells and rents related customer premises equipment for broadband services; and purchase, sale, supply, and intermediation of electricity services. The Enterprise segment provides mobile, voice call and fixedline communication, data transmission and dedicated, and telecommunications consulting services; construction services for telecommunications carriers and general service providers; and rental and maintenance services for telecommunications facilities, housing, and data centers, as well as sells and rents telecommunications equipment. The Distribution segment offers hardware, software, and

services in relation to information and communication technology, cloud, and Internet of Things (IoT) to enterprise customers. This segment also offers PC software, IoT products, and mobile device accessories to individual customers, as well as online business solutions and services, and solution services for government. The Yahoo segment provides internet-based advertising-related, information listing, and other corporate services, as well as settlement and finance related services; and plans and sells services through internet to small, medium-sized businesses, and individual customers. The company was formerly known as SoftBank Mobile Corp. and changed its name to SoftBank Corp. in May 2015. SoftBank Corp. was founded in 1984 and is headquartered in Tokyo, Japan.

2914 SolarWinds Corporation provides information technology (IT) management software products in the United States and internationally. The company offers a portfolio of solutions to technology professionals for monitoring, managing, and optimizing networks, systems, desktops, applications, storage, databases, website infrastructures, and IT service desks. It provides a suite of network management software that offers real-time visibility into network utilization and bandwidth, as well as the ability to detect, diagnose, and resolve network performance problems; and a suite of infrastructure management products, which monitors and analyze the performance of applications and their supporting infrastructure, including websites, servers, physical, virtual and cloud infrastructure, storage, and databases. The company also provides a suite of application performance management software that enable visibility into log data, cloud infrastructure metrics, applications, tracing, and digital experiences; and service management software that offers ITIL-compliant service desk solutions for various companies. In addition, it offers suite of database performance management software monitors, analyzes, diagnoses, and optimizes database performance and operations for the Microsoft data platform, as well as other database management system platforms, and traditional, open-source, and cloud-native databases hosted on-premises, in the cloud, and in hybrid models; and security solutions provide security information and event management access rights management, identity monitoring, server configuration monitoring and patching, and secure gateway and file transfers. It markets and sells its products directly to network and systems engineers, database administrators, storage administrators, DevOps, SecOps, and service desk professionals. The company was formerly known as SolarWinds Parent, Inc. and changed its name to SolarWinds Corporation in May 2018. SolarWinds Corporation was founded in 1999 and is headquartered in Austin, Texas.

2915 Solocal Group S.A. provides digital services in France and internationally. Its services include connect that allows VSEs and SMEs to manage their digital presence on PagesJaunes and various Web through mobile application, or a web interface, as well as manages interactions between professionals and their customers; and booster that allows companies to increase their digital visibility in the Web. The company was formerly known as PagesJaunes Groupe and changed its name to SoLocal Group S.A. in June 2013. Solocal Group S.A. was founded in 1896 and is based in Boulogne-Billancourt, France.

2916 Solstad Offshore ASA operates offshore service and construction vessels for offshore and renewable energy industry worldwide. It provides platform supply vessel, anchor handling vessel, subsea construction, and renewable energy services. The company offers subsea construction and renewable energy services, such as geotechnical work, walk to work services, grouting, SURF operations, deep sea mining, cable laying and repair, trenching and burial, ROV support, installation of subsea equipment, survey work, IMR operations, node seismic operations, and diving and topside maintenance work. It operates a fleet of 25

construction service vessels, 26 anchor handling tug support vessels, and 45 platform supply vessels. The company was founded in 1964 and is headquartered in Skudeneshavn, Norway.

2917 Solteq Oyj provides digital business solutions and industryspecific software in Finland, Sweden, Norway, Dearth, Poland, and the United Kingdom. It operates through two segments, Solteq Software and Solteq Digital. The company offers Solteq Commerce Cloud, a point of sale system for retail businesses and restaurants; Solteq Care, an electronic journal system designed for product development in municipality health care; Solteq Tooth, a dental system for handling records and patientoriented administrative tasks. In addition, it offers Solteq Tekso, a cash register system for specialty shops and grocery retail; Solteq Order Engine for improved customer experience and streamlined processes in omnichannel environments; Solteq Smart Dealer, a solution for streamlined backend processes and highquality customer meetings; Solteq WebService, a cloudbased ERP system for vehicle maintenance and aftersales services; and Trafi query, a search portal for accessing upto date vehicle and customer information from the Trafi ATJ Database; and Solteq Connector, an integration platform to update the data between systems. Further, the company provides Solteq Electricity Distribution to enhance strategic business planning with offtheshelf SaaS solution for DSOs; Solteq Electricity Trade to digitalize electricity sales process; Solteq i4U product family tools for digital customer engagement for district heating, water supply, and energy companies; Solteq inWorks product family browserbased customer data management and invoicing systems; and S2B Energia, a customer information system built with salesforce technology, as well as analytics for energy and water companies, and consulting services for energy and water companies. The company was formerly known as Tampereen Tiedonhallinta. Solteq Oyj was incorporated in 1982 and is headquartered in Vantaa, Finland.

2918 Solueta Co., Ltd. provides electromagnetic wave shielding materials in Korea and internationally. The company offers nano powder, alloy materials, graphitic carbon layers, and carbon coated nickel nano powder. Its products are used in various applications, such as mobile, display, automobile, medical device, and specs. The company was founded in 2001 and is headquartered in Hwaseong, South Korea.

2919 Solus Advanced Materials Co., Ltd. provides materials and solutions in South Korea, Europe, and internationally. It offers battery copper foil for use in electric car battery; copper foil for use in various electronic equipment; electro materials for use in organic light emitting diode display devices, such as mobile, TV, and vehicle/tablet/PCs; and natural bio materials for use in pharmaceutical, cosmeceutical, and nutraceutical ingredients, as well as provides customized development manufacturing services. The company was formerly known as Doosan Solus Co., Ltd. The company was founded in 2019 and is based in Iksan, South Korea. Solus Advanced Materials Co. Ltd. is a subsidiary of Skylake Equity Partners Limited.

2920 Sonaecom, S.G.P.S., S.A., together with its subsidiaries, operates in technology, media, and telecommunications sectors worldwide. The company provides consultancy services in the area of information systems; develops management platforms and commercializes products, services, and information through the internet; sells licensed software; and research, development, consulting, maintenance, and audit services for products, systems, facilities, and communication and security services. It also engages in the editing, composition, and publication of periodical and nonperiodical materials, as well as exploration of radio and TV stations and studios; consulting, advisory, audit, and maintenance of various facilities, and communication services and security systems; and purchase

and installation of communication and security systems. In addition, the company is involved in the research, development, and commercialization of projects and service solutions in the area of information technology, communications and retail, and consulting activities for business and management; development, installation, implementation, training, and maintenance of systems and software products; rental of equipment; consulting business; management of telecommunication services; and advisory in retail segments, and industries and services. Further, it provides management consulting and administration services; engineering and IT consulting services in information security; and services in IT and cybersecurity to institutions, banks, and insurance companies, as well as invests in and manages venture capital and venture capital funds. 2921 SONASID S.A. produces and sells rebars and wire rods for the construction and industrial applications. The company was founded in 1974 and is headquartered in Casablanca, Morocco. SONASID S.A. is a subsidiary of Nouvelles Siderurgies Industries.

2922 Songcheng Performance Development Co.,Ltd operates in the performing arts industry in China. The company operates tourism resorts and theme parks; and performs art shows under Songcheng and the Romance Show Series brand names. It also provides leisure tourism, live entertainment, and online entertainment services. The company was formerly known as Hangzhou Songcheng Tourism Development Co.,Ltd. and changed its name to Songcheng Performance Development Co.,Ltd in April 2014. Songcheng Performance Development Co.,Ltd is headquartered in Hangzhou, China.

2923 Sonid Inc. manufactures and sells chemicals, electronic materials, and printed electronics in South Korea. The company offers display chemical products for cleaning, developing, wet etching, and stripping in OLED, TFTLCD, and TSP applications. It also provides functional electronic materials used in manufacturing electronic parts, including optical clear resins, UV resins, UV color sealants, and gap fillers; photo resist (PR) products, such as column spacer PR, photo sensitive polyimide, OLED and TSP protective films, bridge insulator films, etching PR, and resin black matrix for TSP; and Ag bar pastes/Ag dot pastes and pastes for bezel electrode. In addition, the company offers conductive inks and conductive pastes for printed electronics, including RFID tags, NFC antennas, and bio sensors, as well as metal pastes for solar battery. Further, it manufactures and sells radio frequency identification tags and near field communication products. The company was formerly known as Yapex Inc. and changed its name to Sonid Inc. in March 2022. Sonid Inc. was founded in 1976 and is headquartered in Gumisi, South Korea.

2924 Soosung Salvacion co., Ltd. engages in the manufacture and sale of material handling equipment in South Korea and internationally. The company offers material handling equipment, such as electric forklift trucks, engine powered forklift trucks, pallet trucks, tow tractors and platform trucks, electric elevating platform, stackers, drum handling equipment, lift tables, and cranes, as well as customized equipment. It also provides cleaning equipment including, walkie scrubber, sitdown scrubber, and sitdown sweepers. The company was formerly known as Ev Soosung. Co., Ltd and changed its name to Soosung Salvacion co., Ltd. in January 2023. Soosung Salvacion co., Ltd. was founded in 1970 and is based in Incheon, South Korea.

2925 Sotera Health Company provides sterilization, and lab testing and advisory services in the United States, Canada, Europe, and internationally. The company's sterilization services include gamma and

electron beam irradiation, and EO processing. It also provides microbiological and analytical chemistry testing, and advisory services. The company serves medical devices; pharmaceuticals; food and agricultural products; and commercial, advanced, and specialty application industries. The company was formerly known as Sotera Health Topco, Inc. and changed its name to Sotera Health Company in October 2020. Sotera Health Company was incorporated in 2015 and is headquartered in Broadview Heights, Ohio.

2926 South Manganese Investment Limited, an investment holding company, engages in manganese mining, ore processing, and downstream processing operations in Mainland China, the rest of Asia, Europe, and North America. It operates through four segments: Manganese Mining, EMM and Alloying Materials Production, Battery Materials Production, and Other Business. The Manganese Mining segment mines and produces manganese products, including manganese concentrate, and natural discharging manganese powder and sand. This segment also has interests in the Daxin mine located to the west of Daxin County in Guangxi; the Tiandeng manganese mine located to the north of Tiandeng County in Guangxi; the Waifu manganese mine located in Jingxi, Guangxi; the Changgou manganese mine located in Guizhou; and the Bemba manganese mine located to the north of Ndjola town in the Moyen-Ogooue Province of Gabon. The EMM and Alloying Materials segment mines and processes ores used in hydrometallurgical processing activities for the production of electrolytic manganese metal (EMM) and manganese briquette, and pyrometallurgical processing for the production of silicomanganese alloys. The Battery Materials segment manufactures and sells battery materials products, including Electrolytic Manganese Dioxide (EMD), manganese sulfate, lithium manganese oxide, and lithium nickel cobalt manganese oxide. The Other Business segment trades in various commodities, such as manganese ores, EMM, manganese alloys, and nonmanganese metals, as well as sells scraps, rents investment properties and leasehold lands, and invests in companies engaged in the mining and production of nonmanganese metals. It also manufactures and sells equipment, develops properties, and produces sulphuric acid and steam. The company was formerly known as CITIC Dameng Holdings Limited and changed its name to South Manganese Investment Limited in February 2021. The company was incorporated in 2005 and is headquartered in Admiralty, Hong Kong.

2927 South32 Limited operates as a diversified metals and mining company in Australia, Southern Africa, North America, and South America. The company operates through Worsley Alumina, Brazil Alumina, Brazil Aluminium, Hillside Aluminium, Mozal Aluminium, Sierra Gorda, Cannington, Hermosa, Cerro Matoso, Illawarra Metallurgical Coal, Australia Manganese, and South Africa Manganese segments. It has a portfolio of assets producing bauxite, alumina, aluminum, copper, silver, lead, zinc, nickel, metallurgical coal, manganese, ferronickel, and other base metals. South32 Limited also exports its products. The company was incorporated in 2000 and is headquartered in Perth, Australia.

2928 Southern Archipelago Ltd., an investment holding company, provides contract sterilization and polymerization services in Singapore, Malaysia, and Indonesia. It operates through Investment Holding, Sterilisation, Property, and Hospitality and Wellness segments. The Investment Holding segment invests in transferable securities, such as marketable shares, warrants, debentures, etc. The Sterilisation segment offers contract sterilization and polymerization services to the food packaging, medical devices, cosmetic raw materials, and consumer products. The Property segment develops properties for sale, as well as holds properties for rental and related income. The Hospitality and

Wellness segment provides hotel management and wellness services. The company was formerly known as Blumont Group Ltd and changed its name to Southern Archipelago Ltd. in March 2022. Southern Archipelago Ltd. incorporated in 1993 and is headquartered in Singapore.

2929 Southern Cross Media Group Limited, together with its subsidiaries, engages in the creation of audio content for distribution on broadcast and digital networks. It operates in two segments, Audio and Television. The company owns 99 radio stations in FM, AM, and DAB+ radio, as well as 34 regional radio stations; broadcasts 93 free to air TV signals in regional Australia; operates LiSTNR, an audio destination for consumers housing radio, podcasts, music, and news; and offers sales representation for open audio platform SoundCloud and Sonos Radio. It also provides social media, live events, and digital platforms that deliver national and local entertainment, and news content. The company was formerly known as Macquarie Media Group. Southern Cross Media Group Limited was incorporated in 2005 and is based in South Melbourne, Australia.

2930 SouthGobi Resources Ltd., together with its subsidiaries, operates as an integrated coal mining, development, and exploration company in Mongolia, Hong Kong, and China. It primarily explores for coking and thermal coal. The company's flagship project is the Ovoot Tolgoi open pit coal mine located in the Umnugobi Aimag of Mongolia. It also holds interest in Zag Suuj and Soumber Projects. In addition, the company engages in the logistics and trading of coal in Mongolia and China. The company was formerly known as SouthGobi Energy Resources Ltd. and changed its name to SouthGobi Resources Ltd. in May 2010. SouthGobi Resources Ltd. was incorporated in 2002 and is based in Mong Kok, Hong Kong.

2931 Southwest Gas Holdings, Inc., through its subsidiaries, distributes and transports natural gas in Arizona, Nevada, and California. It operates through Natural Gas Distribution, Utility Infrastructure Services, and Pipeline and Storage segments. The company also provides trenching, installation, and replacement of underground pipes, as well as maintenance services for energy distribution systems. As of December 31, 2022, it had 2,197,000 residential, commercial, industrial, and other natural gas customers. The company was incorporated in 1931 and is headquartered in Las Vegas, Nevada.

2932 SP Group A/S engages in the manufacture and supply of moulded plastic and composite components primarily in Denmark, rest of Europe, the Americas, Asia, the Middle East, Australia, and Africa. The company develops and produces fluoroplastic coatings, and PTFE and other refined materials principally for the healthcare, cleantech, and food-related industries. It also manufactures solid, foamed, flexible, and light foam polyurethane products for the cleantech industry, as well as produces ventilation equipment, ergonomic mats, and striping products. In addition, the company offers thermoformed plastic components for refrigerators, freezers, cars, buses and other rolling stock, cleantech and medical device industries, etc. Further, it provides injection moulded plastic precision components for various industries; packaging for FDA-registered products for customers in the medical device industry; rotational moulded precision components manufacturing services for range of industries; fenders and buoys to the maritime industry; blow moulded plastic precision components manufacturing services for medical device industry; and composite solutions for various raw materials, as well as performs coatings on plastic and metal components. SP Group A/S was incorporated in 1962 and is headquartered in Sønderborg, Denmark.

2933 Space Group Holdings Limited, an investment holding company, undertakes fitting out and building construction works in Macau and Hong Kong. It is involved in the procurement of materials, site supervision, management of subcontractors, project management, and interior decorative

and modification works for existing buildings. The company also undertakes fittingout and building construction projects for hotels and casinos, restaurants and retail shops, and other properties. In addition, it offers financial services comprising securities brokerage, underwriting, margin financing, money lending, and securities and asset management advisory services. The company was founded in 2007 and is headquartered in Macau. Space Group Holdings Limited is a subsidiary of Space Investment (BVI) Ltd.

2934 SpaceCommunication Ltd. provides satellite communication services worldwide. The company offers onthefly connectivity solutions; satellite broadband services, including highspeed twoway internet, broadband internet access, B2B and B2C, pointtomultipoint streaming, congestionfree IP trunking, and ondemand services; and satellite broadcasting services, such as DTH and TV/audio origination and distribution, redundancy and backup, encryption, satellite news gathering, video signals packaging and uplinking, TV channels retransmission, and satellite TV programs broadcasting services. It also provides hybrid cellularsatellite internet solutions; crossregion connectivity services; and satellite teleport services. In addition, the company offers corporate and goverent network solutions comprising local area network interconnection, VSAT network, satellite VPN, and data transmission services, as well as delivery of video, voice, and data to remote locations, including videoconference, telephony, fax transmissions, etc. Further, it provides point of sale applications, such as ATM and inventory reports; and internet applications. The company was founded in 1989 and is based in Ramat Gan, Israel. SpaceCommunication Ltd. is a subsidiary of Eurocom Holdings (1979) Ltd.

2935 Spartan Delta Corp. engages in the exploration, development, and production of crude oil and natural gas properties in the Western Canada. Its assets are located in Montney and Deep Basin. The company was formerly known as Return Energy Inc. and changed its name to Spartan Delta Corp. in May 2020. Spartan Delta Corp. was incorporated in 2006 and is headquartered in Calgary, Canada.

2936 Speed Tech Corp. designs, research and develops, manufactures, and sells connectors for use in communication, computers, automotive, and consumer industries worldwide. It offers USB TYPE C receptacle and plug connectors; SAS and slim SAS pin connectors, miniSAS HD connectors, OCulink connectors; pogo pins; RF switches and coaxial connectors; RJ45 connectors; SMT products; and BTB receptacles and plugs. The company also engages in reinvestment and trading activities; and the manufacturing, processing, and trading of remote control buttons, computer peripherals, data storage media, electronic components, and consumer electronics accessories. In addition, it manufactures and sells metal stamping parts, plastic injection parts, other iron and steel products, and other copper products; and researches, develops, manufactures, and sells electric wires and cables, connecting lines, connectors, computer peripherals, precise die molds, plastic hardware, precise die mold, jig mold, and plastic molding products. Further, it sells printed circuit boards. The company was incorporated in 1990 and is headquartered in Taoyuan City, Taiwan.

2937 Speedy AD provides courier services in Bulgaria and internationally. It offers express, standard, pallet, parcel, and tire courier services. The company also provides cash on delivery, open/test, packaging, storage, address correction surcharge, parcelâ€™s shipment on Saturday, heavy parcel surcharge, toll tax surcharge, and loading and unloading services. In addition, it offers cash on delivery, postal money transfer, and cash terminal services; and web services. The company was

2964 STMicroelectronics N.V., together with its subsidiaries, designs, develops, manufactures, and sells semiconductor products in Europe, the Middle East, Africa, the Americas, and the Asia Pacific. The company operates through Automotive and Discrete Group; Analog, MEMS and Sensors Group; and Microcontrollers and Digital ICs Group segments. The Automotive and Discrete Group segment offers automotive integrated

circuits (ICs), and discrete and power transistor products. The Analog, MEMS and Sensors Group segment provides industrial applicationspecific integrated circuits (ASICs) and applicationspecific standard products (ASSPs); general purpose analog products; custom analog ICs; wireless charging solutions; galvanic isolated gate drivers; low and high voltage amplifiers, comparators, and currentsense amplifiers; MasterGaN, a solution that integrates a silicon driver and GaN power transistors in a single package; wireline and wireless connectivity ICs; touch screen controllers; microelectromechanical systems (MEMS) products, including sensors or actuators; and optical sensing solutions. The Microcontrollers and Digital ICs Group segment offers general purpose and secure microcontrollers; radio frequency (RF) and electrically erasable programmable readonly memories; and RF, digital, and mixedsignal ASICs. It also provides assembly and other services. The company sells its products through distributors and retailers, as well as through sales representatives. It serves automotive, industrial, personal electronics and communications equipment, and computers and peripherals markets. STMicroelectronics N.V. was incorporated in 1987 and is headquartered in Geneva, Switzerland.

2965 STO Express Co.,Ltd provides express delivery services in China and internationally. It offers express services; valueadded services, such as payment collection, presale sinking, and other products; and express accessories, including envelopes, document bags, and cartons, as well as warehousing and distribution, grid warehouses, etc. services. The company was founded in 1993 and is based in Shanghai, China. STO Express Co.,Ltd is a subsidiary of Shanghai Deyin Investment Holding Co., Ltd.

2966 StoltNielsen Limited provides transportation, storage, and distribution solutions for bulk liquid chemicals, edible oils, acids, and other specialty liquids worldwide. It operates through five segments: Tankers, Terminals, Tank Containers, Stolt Sea Farm, and StoltNielsen Gas. The company also produces, processes, and markets seafood, including turbot and sole; and transports, stores, and distributes chemicals, clean petroleum products, liquefied petroleum gases, vegetable oils, biofuels, and oleochemicals, as well as alternative fuels and feedstocks. In addition, it owns and operates liquid natural gas carriers. The company was founded in 1959 and is based in London, the United Kingdom. StoltNielsen Limited is a subsidiary of Fiducia Ltd.

2967 Stratasys Ltd. provides connected polymerbased 3D printing solutions. It offers range of 3D printing systems, which includes polyjet printer, Fused Deposition Modeling (FDM) printers, stereolithography printing systems, origin P3 printers, and SAF printer for manufacturing, tooling and rapid prototyping, and various vertical markets, such as automotive, aerospace, consumer products and healthcare. The company provides consumable materials including 3D printing materials comprising FDM, polyjet, and stereolithography materials for manufacturing applications, such as jigs and fixtures, investment casting, and injection mold or composite tooling applications. In addition, it offers software and services, which includes cloud, desktop and mobile technologies comprising GrabCAD, an additive manufacturing platform to manage productionscale operations; and GrabCAD Print, job programming software enables the unique features of 3D printing technologies, such as creating lightweight, structurally sound infills for FDM, and multimaterial and color and material management for polyjet. The company also provides GrabCAD Shop including scheduling, remote monitoring, and analytics; GrabCAD Connect provides twoway SDK integration for thirdparty software applications; and GrabCAD Community, an online community of professional engineers, designers, manufacturers and students who share their practices through tutorials, discussion forums, design/print

challenges, and 3D content. Further, it offers GrabCAD Streamline Shop, which simplifies 3D printing shop workflow; GrabCAD Streamline Software Development Kit (SDK) to support enterprise goals such as system connectivity, compliance, and workflow automation; and Grab CAD Software Partner program for independent software vendors. The company sells its products through a network of resellers and independent sales agents worldwide. Stratasys Ltd. is headquartered in Eden Prairie, Minnesota.

2968 Straumann Holding AG provides tooth replacement and orthodontic solutions worldwide. It researches, develops, manufactures, and supplies dental implants, instruments, CAD/CAM prosthetics, orthodontic aligners, biomaterials, and digital solutions for use in tooth correction, replacement, and restoration, as well as to prevent tooth loss. The company offers dental implant systems for tissue and bone level; titanium, titanium alloy, ceramic, and mini dental implant systems; surgical instruments; and implantborne prosthetics. It provides ceramic healing and screwretained abutments; intraoral scanners; 3D printers; milling and grinding machines; and prevention products. In addition, it offers biomaterials, bone substitutes, membranes, and soft tissue management and oral healing products; digital solutions for dental labs, dentists, and centralized milling centers; surgical instruments comprising surgical and modular cassettes, guided instruments, bone block fixation sets, bonerings, titanium pin sets, and other cassettes; and edentulous, pro arch fixed, prosthetic, and miniimplant solutions for edentulous patients. Further, it provides esthetic restorations that include ceramic implant monotypes, ceramic implants, abutments, biologics, and other solutions; and Emdogain for wound healing. Further, it offers systems ClearCorrect aligners; and training and education services to its customers. The company provides its products to general dentists, specialists, and dental technicians and laboratories, as well as corporate customers, such as distributors, hospitals, universities, and dental service organizations in approximately 100 countries through a network of distribution subsidiaries and partners. Straumann Holding AG was founded in 1954 and is headquartered in Basel, Switzerland.

2969 Strauss Group Ltd., together with its subsidiaries, develops, manufactures, markets, and sells various food and beverage products in Israel. The company operates through Israel Operation and the Coffee Operation segments. It offers coffee, dairy, dips and spreads, fresh food, confectionery, and snacks. In addition, Sundart Holdings Limited provides project management and consultancy services. Further, it manufactures interior decorative timber products, such as firerated timber doors and wooden furniture. The company was founded in 1986 and is headquartered in Kowloon, Hong Kong. Sundart Holdings Limited operates as a subsidiary of Reach Glory International Limited.

2984 Sundiro Holding Co., Ltd. operates in the coal industry in China and internationally. It is involved in coal mining; offers coal chemical products; house leasing; and beef food business. The company was founded in 1988 and is headquartered in Shanghai, China.

2985 Sundy Land Investment Co., Ltd. operates as a real estate development company in China. The company was founded in 1984 and is based in Hangzhou, China.

2986 Sunfly Intelligent Technology Co., LTD engages in the research and development, production, and sale of electrical equipment, power equipment, and components in China. It operates in four segments: Intelligent Electrical Equipment, LED Lighting, Intelligent Communities, and Public Security. The company offers electrical equipment sets, such as industrial electrical equipment is mainly used in petroleum, chemical, electric power, metallurgy, papermaking, medicine, rail transit, enviroental protection, information technology services, and other fields; and civil electrical equipment is mainly used in civil buildings, public buildings, municipal engineering, and other fields, as well as power supply and distribution solutions, integrating hardware, software, and services. It also provides LED lighting and lighting products, such as lighting, home lighting, light source appliances, office lighting, commercial lighting, outdoor lighting, and other products; smart communities, such as scheme design, software platform development, integrated installation and implementation, equipment debugging, and postsystem operation; and public security solutions. The company was formerly known as Shandong Luyitong Intelligent Electric Plc. and changed its name to Sunfly Intelligent Technology Co., LTD in September 2020. Sunfly Intelligent Technology Co., LTD was founded in 2003 and is headquartered in Laiyang, China.

2987 Sungei Bagan Rubber Company (Malaya) Berhad produces and sells fresh oil palm fruit bunches in Malaysia. It operates through two segments, Plantation and Investments. The company's Plantation segment cultivates oil palm. As of June 30, 2022, it owned 4,728 acres of planted area. Its Investments segment is involved in long term portfolio investment in securities, and deposits with banks in Singapore, Hong Kong, the United Kingdom, Mauritius, the Cayman Islands, and Australia. Sungei Bagan Rubber Company (Malaya) Berhad was incorporated in 1958 and is based in Machang, Malaysia.

2988 SunPower Corporation, a solar technology and energy services provider, offers solar, storage, and home energy solutions primarily in

the United States and Canada. Its solutions include the Equinox and SunVault systems which are preengineered modular solutions for residential applications that combine solar module technology with integrated plugandplay power stations, cable management systems, and mounting hardware that enable dealers and installers to complete system installations, as well as for end customers to manage their energy production. The company also provides postinstallation monitoring and maintenance services. It serves residential customers, including individual homeowners and new home builders. The company was incorporated in 1985 and is headquartered in San Jose, California. SunPower Corporation is a subsidiary of TotalEnergies SE.

2989 Sunsea AIoT Technology Co., Ltd. provides Internet of Things (IoT) products and services to telecom operators, ICT equipment vendors, system integrators, and enterprise customers in China and internationally. It offers optical modules, optoelectronic, multiplexing equipment, mobile communication system antennas, base station accessories, data communication equipment, micro DC cabinets, micro module systems, broadcast communication towers, high and low voltage switchgear equipment, communication power supply, smart street lights, electric vehicle charging system, uninterruptible power supply system, power distribution unit, and air conditioning equipment. The company was formerly known as SUNSEA Telecommunications Co., Ltd. Sunsea AIoT Technology Co., Ltd. was founded in 1994 and is headquartered in Shenzhen, China.

2990 Sunward Intelligent Equipment Co., Ltd. manufactures and sells construction and engineering machineries worldwide. The company offers engineering equipment, such as excavation machinery, underground engineering equipment, rock drilling equipment, hoisting machinery, loading machinery, aerial work platform, mobile crushing plant shield machine, and mining truck. It also provides aviation equipment, which includes aviation manufacturing, aviation operations and aviation operator services; and special equipment. The company was formerly known as Hunan Sunward Intelligent Machinery Co., Ltd. and changed its name to Sunward Intelligent Equipment Co., Ltd. in 2011. Sunward Intelligent Equipment Co., Ltd. was founded in 1999 and is headquartered in Changsha, China.

2991 Sunway Co., Ltd. engages in the design, manufacturing, and sale of cable products. It offers its products for various applications, such as nuclear facilities, road transit, smart grid, solar photovoltaic power generation, firefighting, and construction. The company was formerly known as Sichuan Star Cable Co., Ltd. Sunway Co., Ltd. was founded in 2003 and is based in Leshan, China.

2992 Sunwoda Electronic Co.,Ltd engages in the research, design, manufacture, and sale of lithiumion battery modules worldwide. The company offers battery system for coach, passenger cars, logistics vehicles, and special vehicles; battery management system; block, column, and soft modules; start and stop system device; automation and intelligent manufacturing; and laboratory testing services. Sunwoda Electronic Co.,Ltd was founded in 1997 and is headquartered in Shenzhen, China.

2993 Suny Cellular Communication Ltd imports and sells cell phones, accessories, and storage devices in Israel. The company provides sale, technical support, repair, and maintenance services for mobile end equipment, tablets, mobile phones and telephones, accessories, and spare parts, which are made by the Samsung Electronics Co. Ltd. It sells products through a network of 22 stores of Samsung brand; other retail chains, distributors, and mobile stores; and its website and other online sites. The company was formerly known as Scailex Corporation Ltd. and

changed its name to Suny Cellular Communication Ltd in November 2016. Suny Cellular Communication Ltd was incorporated in 1971 and is based in Petah Tikva, Israel.

2994 Suofeiya Home Collection Co., Ltd. engages in the research, development, manufacturing, and sale of furniture products in China. The company offers kitchen cabinets, vanity cabinets, builtin furniture, interior doors, hardware, and accessories. It also provides floors, loose furniture, closets, and wardrobes. In addition, the company offers MDF and KC Boards. Somec S.p.A. was founded in 2003 and is based in Guangzhou, China.

2995 Suoxinda Holdings Limited, an investment holding company, develops and delivers data and artificial intelligence solutions to the banks and financial institutions in the People's Republic of China and Hong Kong. Its data solutions include software development, data analysis, and system integration and customization services, as well as consulting, storage, and data cleaning and processing services. The company also provides marketing intelligence platform; realtime marketing platform for realtime events such as customer transaction/browsing behavior, function activation, etc.; personalized recommendation system to manage and operate content recommendations in mobile apps and online placements; tag management system, which integrates tag creation, operation, and management; and marketing content management system to achieve onestop management of marketing content, to meet customers' needs for the construction of scenariobased interactive social marketing activities. It offers user portrait systems to help business / analysts of financial institutions; interpretable machine learning solutions for bank clients; automated machine learning solutions for enterpriselevel data mining to financial institutions; antifraud solutions; and risk earlywarning solutions. The company provides enterpriselevel data platform; data warehouse and management systems; and data lake platform that allows structured and unstructured data to be stored at any scale. It also sells software and hardware products; and offers installation, and information technology maintenance and support services. The company was founded in 2004 and is headquartered in Hangzhou, the People's Republic of China.

2996 Supalai Public Company Limited, together with its subsidiaries, engages in property development business in Thailand and Australia. It owns and operates housing projects, including detached houses, duplex houses, townhouses, and condominiums, as well as develops office buildings, resorts, and hotels for commercial purposes under the Supalai brand. The company also manages hotels; invests in securities; deals and trades in real estate properties; and rents and leases real estate properties. Supalai Public Company Limited was founded in 1989 and is headquartered in Bangkok, Thailand.

2997 Super Group Limited engages in the supply chain management, dealership, and fleet management activities in South Africa, subSaharan Africa, Australia, Europe, New Zealand, and the United Kingdom. The company operates through seven segments: Supply Chain Africa, Supply Chain Europe, Fleet Africa, SG Fleet, Dealerships SA, Dealerships UK, and Services. It provides supply chain services comprising supply chain optimisation, consulting, technology, procurement, third party distribution, transport, multitemperature controlled product distribution, bulk raw material transportation, warehousing, inbound and outbound freight forwarding, customs clearing, import and export consolidation, international airfreight, and bonded crossborder transportation services. The company also offers fleet management solutions for specific transport and vehicle management needs of various customers; and various valueadded services, such as driver, fuel, and tyre management; accident and insurance administration; fleet

optimization and route planning; vehicle tracking and recovery; call centers; and national service/repair networks. In addition, it provides various vehicle leasing and salary packaging solutions to corporate and government customers; and contract hire and employee benefit solutions to the private and public sectors. Further, the company offers passenger and light commercial vehicles, and heavy commercial assets, as well as new and used vehicle sale, finance, insurance, vehicle servicing, safety accessories, and parts through its motor dealerships. It operates 49 motor dealerships in South Africa and 34 motor dealerships in the United Kingdom. Super Group Limited was incorporated in 1943 and is headquartered in Sandton, South Africa.

2998 Super Telecom Co.,Ltd, together with its subsidiaries, provides communications technology services in China. It provides communication network construction, communication network maintenance, communication network optimization, software, and leasing and construction services, as well as equipment; and Internet of Things solutions for customers in various industries, such as water affairs, logistics, electricity, transportation, gas, fire protection, retail, and medical. The company is also involved in intelligent hardware manufacturing, which includes intelligent modules used to connect the perception layer and network layer of the Internet of Things used for Internet transmission; and smart operation of the city, including covering police affairs, urban management, and software and hardware solutions for fire, medical, transportation, water, energy, and other industries. In addition, it provides computer room construction, operation and maintenance services to operators or customers; and edge computing and IDC services for government, financial, Internet, and other customers; and comprehensive information technology (IT), such as communication technology, IT technology, AI technology, cloud computing, big data, etc., as well as new energy services. The company was formerly known as Guangdong Super Telecom Co., Ltd. and changed its name to Super Telecom Co.,Ltd in May 2019. Super Telecom Co.,Ltd was incorporated in 1998 and is based in Guangzhou, China.

2999 Superactive Group Company Limited, an investment holding company, manufactures and sells consumer electronic products. The company also provides nursery education, money lending, property development and management, and regulated financial services. It sells its products primarily in the People's Republic of China, Mainland China, Hong Kong, and internationally. The company is headquartered in Central, Hong Kong. Superactive Group Company Limited is a subsidiary of Super Fame Holdings Limited.

3000 Surgery Partners, Inc., through its subsidiaries, owns and operates a network of surgical facilities and ancillary services in the United States. The company operates through two segments, Surgical Facility Services and Ancillary Services. Its surgical facilities comprise ambulatory surgery centers and surgical hospitals that offer nonemergency surgical procedures in various specialties, including orthopedics and pain management, ophthalmology, gastroenterology, and general surgery. The company's surgical hospitals also provide ancillary services, such as diagnostic imaging, laboratory, obstetrics, oncology, pharmacy, physical therapy, and wound care; and ancillary services, including multispecialty physician practices, urgent care facilities, and anesthesia services. The company was founded in 2004 and is headquartered in Brentwood, Tennessee.

3001 Sutton Harbour Group plc, together with its subsidiaries, offers harbour and its ancillary facilities in the United Kingdom. It operates through Marine, Real Estate, Car Parking, and Regeneration segments. The company owns and operates a Marina at Sutton Harbour that provides

berthing for 492 leisure and commercial vessels; King Point Marina that has 119 leisure berths; and Plymouth Fisheries. It is also involved in the waterfront regeneration and destination creation; property management; asset enhancement; and rental of investment properties, as well as providing car parking and support services to harbour users. Sutton Harbour Group plc was incorporated in 1989 and is headquartered in Plymouth, the United Kingdom. Sutton Harbour Group plc is a subsidiary of FB Investors LLP.

3002 Suzhou Dongshan Precision Manufacturing Co., Ltd. engages in the production and sale of critical components for IoT intelligence, telecommunication equipment, metal precision, LED technologies, and interconnect solutions. The company offers flexible circuits, flexible circuit assembly products, flexible circuit module assembly products, rigid printed circuit boards (PCB), flexible printed circuits, rigidflex PCBs, and PCB assembly and box build products for automotive, telecom equipment, consumer electronics, highreliability systems, telecommunications infrastructure, and consumer technology applications. It also provides HD electronic display products, such as indoor finepitch RGB and outdoor RGB products for HD displays, TV backlights, mobile phones, and other lighting applications. In addition, the company offers telecom equipment and metal precision products comprising base station antennas, RF filters, technical ceramic products, sheet metal products, stamping parts, diecasting products, and CNC and thermal products for the automotive, communication base station, and medical treatment applications. It provides its products and services in Mainland China, Taiwan, South Korea, Finland, India, Sweden, Germany, Poland, Estonia, the United States, and Mexico. The company was formerly known as Suzhou Dongshan Sheet Metal Liability Co., Ltd. and changed its name to Suzhou Dongshan Precision Manufacturing Co., Ltd. in 2007. Suzhou Dongshan Precision Manufacturing Co., Ltd. was founded in 1998 and is based in Suzhou, China.

3003 Suzhou Douson Drilling&Production Equipment Co., Ltd. engages in manufacture and sale of oil and gas development equipment in China, the United States, Canada, Australia, South America, the Middle East, Southeast Asia, and internationally. The company offers wellhead equipment, valve products, fracturing complete sets, high pressure pipe fittings, and well control devices. In addition, it offers fracturing and rental fracking services. The company's products are used in shale oil and gas and tight oil and gas exploration, onshore oil exploration, Offshore oil extraction, and oil and gas pipeline transportation. Suzhou Douson Drilling&Production Equipment Co., Ltd. was founded in 2001 and is headquartered in Suzhou, China.

3004 Suzhou Jinfu Technology Co., Ltd. engages in the research and development, manufacture, sale, and service of precision parts of electronic products, liquid crystal display modules, and intelligent detection and automation equipment. Its products are used in consumer electronics, automobiles, medical care, and new energy industries. The company was formerly known as Suzhou Jinfu New Material Co., Ltd. and changed its name to Suzhou Jinfu Technology Co., Ltd. in February 2017. Suzhou Jinfu Technology Co., Ltd. was founded in 1998 and is headquartered in Suzhou, China.

3005 Suzhou Kelida Building& Decoration Co.,Ltd. engages in the design and construction of architectural curtain walls and architectural decoration projects in China. The company offers indoor and outdoor architectural decoration, enviroental, public building decoration, architectural, landscape, municipal, geotechnical, prefabricated decoration, and steel structure engineering construction and design

services; smart home products; pipeline equipment installation and construction services; and solar photovoltaic curtain wall system equipment. It also develops software; manufactures wooden doors, wooden veneers, movable furniture, etc.; manages hotel and property; develops, operates, and leases real estate; advertising; sells electronic products and mechanical equipment, prepackaged and bulk food, building materials, and fire protection facilities; dance hall entertainment; retails tobacco products; and leases engineering machinery and equipment. In addition, the company offers construction and technical consultation, ecommerce technical, accommodation, catering, cleaning, conferences, exhibitions, cultural event, sports performances, corporate image planning, and engineering management services; social and economic, information technology, and enterprise management consulting services; construction, municipal, petrochemical, mining, highway, roadbed, pavement, bridge, electric power, water conservancy and hydropower, mechanical and electrical, metallurgical, communication, earthwork, construction mechanical and electrical installation, tunnel, fire protection, waterproof, anticorrosion and thermal insulation, highway maintenance, transportation facility, environmental protection, river and lake treatment, special, decoration, ancient building, readymixed concrete, foundation, intelligent building, urban and road lighting, and formwork scaffolding engineering services. Suzhou Kelida Building& Decoration Co.,Ltd. was founded in 2000 and is based in Suzhou, China.

3006 Suzhou SLAC Precision Equipment CO., Ltd. researches, develops, design, manufactures, assembles, and tests production equipment sets for easy open ends in China and internationally. It offers high speed EOE line, high speed 2 pieces Can line inspection systems, and auxiliary equipment. Suzhou SLAC Precision Equipment CO., Ltd. was founded in 2004 and is headquartered in Suzhou, China.

3007 Suzhou TA&A Ultra Clean Technology Co., Ltd. manufactures and sells ESD control and cleanroom contamination control solutions. The company provides cleanroom garments, cleanroom shoes, clean gloves, and ESD control wrist straps; cleanroom wipers, cleanroom swabs, shielding bags, ESD packing trays, ESD adhesive tapes, and prescales; and sticky mats/rollers, ionizing blowers, monitoring systems, and static and access control systems. It also offers diecutting products, such as protective and optical films. In addition, it provides protective apparel, isolation gown, and face mask. The company's products are used in semiconductor, storage, display, and communications, etc. Suzhou TA&A Ultra Clean Technology Co., Ltd. was founded in 1997 and is headquartered in Suzhou, the People's Republic of China.

3008 "SuZhou THVOW Technology. Co., Ltd provides energy engineering, power industry engineering, and EPC general contracting services in China and internationally. The company offers equipment, such as coal chemical, petrochemical, fine chemical, metallurgy, and nuclear power equipment; marine equipment; and pressure vessel equipment. It also provides thermal, solar, wind, and biomass power generation services; and consulting services, as well as other power projects. In addition, it also offers heat exchangers, separators, reactors, storage tanks, towers, filters, and evaporators, which are used in refining, chemical, coal chemical, electric power, and other sectors. The company was formerly known as Suzhou Tianwo Science and Technology Co., Ltd. and changed its name to SuZhou THVOW Technology. Co., Ltd in March 2015. SuZhou THVOW Technology. Co., Ltd is based in Zhangjiagang, China. SuZhou THVOW Technology. Co., Ltd. operates as a subsidiary of Shanghai Electric Group Company Limited.

"

3009 Svedbergs i Dalstorp AB (publ) develops, manufactures, and markets bathroom products in the Nordic countries. The company offers bathroom furniture, including lower parts, mirror cabinet and mirrors, sink, basin mixer, bathroom storage, lighting, and options and handles, as well as storage for laundry room. It also provides showers products, such as corners, partition walls, niche showers, cabins, and optional showers; bathtubs; bath mixers; towel dryers; WC and toilet products; and other bathroom accessories. Svedbergs i Dalstorp AB (publ) was founded in 1920 and is headquartered in Dalstorp, Sweden.

3010 Svenska Cellulosa Aktiebolaget SCA (publ), a forest products company, develops, manufactures, and sells forest, wood, pulp, and containerboard products in Sweden, the United States, Germany, the United Kingdom, rest of Europe, Asia, and internationally. The company offers various sawn wood products; wood solutions for industrial buildings comprise construction timber, outer panels, dimensionally planed timber, laths, base rafters, planks, and shaped timber products; wood solutions for merchants include joists, batten, and untreated and painted outer panel, as well as pressureimpregnated wood products; and marine and land transportation services, including forwarding services using RoRo vessels, container express, and road and rail. It also provides pulp products under the Pure, Star, and Cirrus names; bleached softwood kraft pulp and chemithermomechanical pulp; and Kraftliner products for consumer durables, electronics, hazardous goods, industrial products, fruit and vegetables, and frozen foods, etc. In addition, the company engages in the generation of energy from wind power projects, bioenergy, and liquid biofuels; and pellets manufacturing and sales. Svenska Cellulosa Aktiebolaget SCA (publ) was incorporated in 1915 and is headquartered in Sundsvall, Sweden.

3011 Swedish Orphan Biovitrum AB (publ), an integrated biotechnology company, researches, develops, manufactures, and sells pharmaceuticals in the therapeutic areas of haematology, immunology, and genetic and metabolic diseases in Europe, North America, and internationally. It offers Alprolix for haemophilia B; Doptelet treatment of thrombocytopenia; Elocta for haemophilia A; Gamifant for hemophagocytic lymphohistiocytosis (HLH); Kineret for cryopyrin associated periodic syndrome, rheumatoid arthritis, and still's disease; Orfadin to treat hereditary tyrosinaemia type I; and Synagis for serious lower respiratory tract infection. The company It also provides other products, such as Akynzeo, Aloxi, Ammonul, Betapred, Caphosol, Fibclot, IVheBex, and Willfact. In addition, it develops drug substance for ReFacto AF/Xyntha for Pfizer; BIVV001 for haemophilia A; and Nirsevimab for respiratory syncytial virus. The company has a strategic collaboration with Apellis Pharmaceuticals Inc. to develop pegcetacoplan for the treatment of multiple rare diseases, including paroxysmal nocturnal hemoglobinuria. Swedish Orphan Biovitrum AB (publ) is headquartered in Solna, Sweden.

3012 Swire Properties Limited, together with its subsidiaries, develops, owns, and operates mixed use, primarily commercial properties in Hong Kong, Mainland China, the United States, and internationally. It operates through three divisions: Property Investment, Property Trading, and Hotels. The company is involved in the development, leasing, and management of commercial, retail, and residential properties; development, construction, and sale of residential apartments; and operation of hotels. It also provides financial and real estate agency services. The company was incorporated in 1972 and is based in Hong Kong, Hong Kong. Swire Properties Limited is a subsidiary of Swire Pacific Limited.

3013 Sword Group S.E. provides IT services and software in Europe, the United States, the Oceania, and Asia. Its products include Sword GRC, a

governance, compliance, and enterprise risk management solution; Sword Aequos offers collaborative tools and solutions; and Sword Venue, an event planning, collaboration, and organizing software. The company also provides information systems integration and engineering services, including strategic and operational consulting, solution engineering and application development, project ownership support and project management support, infrastructure management and application maintenance for third parties, and resource outsourcing. The company serves banking and insurance, energy, public services, aviation, defence, and government institutions. Sword Group S.E. was founded in 2000 and is headquartered in Windhof, Luxembourg.

3014 SYF Resources Berhad, an investment holding company, manufactures and trades in rubber wood furniture and component parts in Malaysia and internationally. It operates through Rubberwood Furniture, Property Development and Construction, and Other segments. The company produces kiln dried sawn timber, lamination board, and dining furniture, as well as develops industrial factories, residential houses, condominiums, and commercial properties. It also involved in manufacturing and trading of moulded timber and timber treatment processing; manufacture and export of furniture and component parts; and building contractor business. The company exports its products. The company was formerly known as Tomisho Holdings Berhad and changes its name into SYF Resources Berhad in February 2004. The company was incorporated in 1995 and is based in Semenyih, Malaysia.

3015 Sygnity S.A. provides IT products and services in Poland and internationally. The company engages in the manufacture, purchase, and sale of integrated IT systems, infrastructure, and hardware for the banking, finance, insurance, industry and energy, and public administration sectors. It also offers spatial information, geodesy information, and cartography services; supplies software and IT services; and sells software and computer hardware, as well as provides electricity trading services. The company was formerly known as Computerland Poland SA and changed its name to Sygnity S.A. in April 2007. Sygnity S.A. was founded in 1991 and is headquartered in Warsaw, Poland. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V. As of May 16, 2022, Sygnity S.A. operates as a subsidiary of TSS Europe B.V.

3016 Sylvania Platinum Limited primarily engages in the retreatment of platinum group metals (PGM) bearing chrome tailings materials in South Africa and Mauritius. The company produces PGMs, including platinum, palladium, and rhodium. It holds interests in the Sylvania dump operations that comprise six chrome beneficiation and PGM processing plants located in the Eastern and Western Limb of the Bushveld Igneous Complex; and various mineral asset development projects, including Volspruit and Northern Limb projects located on the Northern Limb of the Bushveld Igneous Complex located in South Africa. The company was incorporated in 2010 and is based in Hamilton, Bermuda.

3017 Symphony Communication Public Company Limited provides telecommunication network and services in Thailand, the Southeast Asian countries, and internationally. The company offers network connectivity services, including private network for branches solution, access network for service provider, and DC/DR connectivity; and Internet services, such as direct Internet, virtual firewall, DDoS protection, SME broadband internet, internet exchange, and cloud direct connect services. It also

provides international network connectivity services comprising international private leased circuit services, IPvirtual private network, Eline/IEPL, and submarine cable systems; and cloud services. The company was incorporated in 2005 and is headquartered in Bangkok, Thailand.

3018 SÃ½n hf. provides communication and media service in Iceland. The company operates under the Vodafone, StÃ½Ã° 2, StÃ½Ã° 2 Sport, Visi, Bylgjuna, FM957, and X977 brands. It offers a subscriptionbased television network, and advertisement services. The company was formerly known as Fjarskipti hf. and changed its name to SÃ½n hf. in April 2018. SÃ½n hf. was incorporated in 2005 and is headquartered in ReykjavÃ½k, Iceland.

3019 Synchronoss Technologies, Inc. provides cloud, messaging, digital, and network management solutions in the Americas, Europe, the Middle East, Africa, and the Asia Pacific. The companyâ€™s product EngageX, offers personal cloud, which helps in backup, manage, and engage with content; multichannel messaging, peertopeer communications, and applicationtoperson commerce solutions; and email solutions. Its OnboardingX offers backup, view, and restore content in operating systems and devices; streamlines the activation of new services and devices; and moves content between mobile devices. In addition, the company provides NetworkX, an integrated application suite that designs, procures, manages, and optimizes telecom network infrastructure. Further, it offers software development and customization services. The company markets and sells its services through direct sales force and strategic partners. Synchronoss Technologies, Inc. was incorporated in 2000 and is headquartered in Bridgewater, New Jersey.

3020 Synergy Innovation Co., Ltd. engages in the research and development of generic and new drugs, medical devices, and materials in South Korea. It also provides reagents for in vitro medical analysis; and produces microbial culture medium for monitoring pharmaceutical manufacturing enviroent. The company offers its products for hospitals, pharmaceuticals, food and cosmetics, strains, and others. Synergy Innovation Co., Ltd. was founded in 1998 and is headquartered in Seongnam, South Korea.

3021 Synex Renewable Energy Corporation, through its subsidiaries, develops, owns, and operates electric power generation facilities. It provides engineering services for the control and use of water, primarily the design of hydroelectric and other power generation facilities, hydrology studies, river engineering, and related enviroental services. The company also engages in the development, ownership, management, and operation of electrical power producing facilities. In addition, it acts as an independent power producer, which owns 12 megawatts of hydroelectric capacity in British Columbia, primarily on Vancouver Island. The company was formerly known as Synex International Inc. and changed its name to Synex Renewable Energy Corporation in January 2022. Synex Renewable Energy Corporation was founded in 1973 and is headquartered in Niagara Falls, Canada.

3022 SYNLAB AG provides clinical laboratory and medical diagnostic services for insurance companies, hospitals, pharmacies, national health organizations, practicing doctors, clinics, patients, goverents, and corporations primarily in Europe. The company offers Coronavirus tests, and medical and veterinary diagnostics services. It operates through approximately 500 laboratories and 1,800 blood collection points in 36 countries in four continents. The company was founded in 1998 and is headquartered in Munich, Germany.

3023 Synlait Milk Limited, together with its subsidiaries, manufactures and sells dairy products in China, rest of Asia, the Middle East, Africa, New Zealand, Australia, and internationally. The company is also involved

in the processing, packaging, and marketing of dairy products, including cheese, butter, and milk powder. It offers liquid milk; milk powder related products; nutritional products, such as infant and adult nutritional powders; ingredients comprising skim milk powders and anhydrous milk fat; and specialized nutritional ingredients, such as lactoferrin. The company was incorporated in 2005 and is headquartered in Rakaia, New Zealand.

3024 SysGroup plc, together with its subsidiaries, provides managed IT and cloud hosting services in the United Kingdom and internationally. It operates through two segments, Managed IT Services and Value Added Resale. The company offers public, private, and hybrid cloud services, as well as virtual private cloud, PCIDSS hosting, cloud desktop, and SysCloud services; managed IT services comprising managed cloud, managed infrastructure, managed IT support, managed virtual desktop, managed office 365, managed AWS, and managed azure; disaster recovery, sysassure 365, and back up services; and IT security services, such as penetration testing, endpoint security, DDOS, email security, security awareness training, firewalls, multi factor authentication, and GDPR automation services. It also provides connectivity solutions, and IT consultancy services; and sells IT hardware, licenses, and warranties from supplier partners. The company serves charity, education, financial, goverent, healthcare, legal, leisure, manufacturing, retail, and tech industries. The company was formerly known as Daily Internet PLC and changed its name to SysGroup plc in July 2016. SysGroup plc was incorporated in 2007 and is based in Liverpool, the United Kingdom.

3025 Syswork Co., Ltd manufactures and sells clean room syatems, air conditioning systems, and ventilation control systems in South Korea. The company offers FFU/EFU monitoring control, volatile organic compound collection and emission control, chiller control, ventilation controller, and total heat exchanger control devices; BLDC motor controllers; and molding and processing services. The company was founded in 2004 and is headquartered in Daejeon, South Korea.

3026 TMobile US, Inc., together with its subsidiaries, provides mobile communications services in the United States, Puerto Rico, and the United States Virgin Islands. The company offers voice, messaging, and data services to customers in the postpaid, prepaid, and wholesale and other services. It also provides wireless devices, including smartphones, wearables, tablets, home broadband routers, and other mobile communication devices, as well as wireless devices and accessories; financing through equipment installment plans; leasing through JUMP! On Demand; and High Speed Internet services. In addition, the company offers services, devices, and accessories under the TMobile and Metro by TMobile brands through its owned and operated retail stores, TMobile app and customer care channels, and its websites. It also sells its devices to dealers and other thirdparty distributors for resale through independent thirdparty retail outlets and various thirdparty websites. The company was founded in 1994 and is headquartered in Bellevue, Washington.

3027 TAI Technology Co., Ltd. manufactures and supplies chip resistors in Taiwan and internationally. The company provides a range of chip resistors, including automotivegrade metal current sensor, precision thin film, surge, sulfurresistant, high power, high voltage, arrays, miniature types 01005 and 0201, and other products; and circuit protection products, such as fuse products. Its components are applied to products in the field of 3C, including motherboards, notebooks, LCD TVs, STBs, scanners, video cards, lan cards, sound cards, mobile phones, digital cameras, LCDs, etc. The company serves automotive, industrial, alternative energy, power supplies, telecommunications, and consumer

electronics industries. TAI Technology Co., Ltd. was founded in 1989 and is based in Taoyuan City, Taiwan.

3028 Tabcorp Holdings Limited, together with its subsidiaries, provides gambling and entertainment services in Australia. It operates through Wagering and Media, and Gaming Services segments. The Wagering and Media segment offers through a network of TAB agencies, hotels and clubs, and oncourse operations, as well as through retail, Internet, mobile devices, and phone. It also provides Trackside, a computer simulate racing product; and international wagering and pooling services. In addition, the company engages in the Three Sky Racing television channels broadcasting thoroughbred, and harness and greyhound racing to audiences; Sky Racing Active, a digital app providing Sky Racing's live and ondemand racing content across thoroughbred, and harness and greyhound racing; and Sky Sports Radio network. The Gaming Services segment offers electronic gaming machine (EGM) monitoring and related services; provides EGM and systems supply and expertise; specialized services and strategic advice to licensed gaming venues; valueadd services to venues, such as gaming and loyalty systems, business intelligence tools, and cashless and ticket in ticket out services; and logistics, installation, and relocation services, as well as EGMs, lottery and wagering terminals, and other transaction device repair and maintenance services. The company was founded in 1881 and is based in Melbourne, Australia.

3029 Tahoe Group Co., Ltd. engages in real estate business in China. The company develops residential and commercial projects, office buildings, serviced apartments, and commercial pedestrian streets, urban complexes, as well as operates hotels. It also provides property management services. Tahoe Group Co., Ltd. was founded in 1996 and is headquartered in Fuzhou, China.

3030 Tai United Holdings Limited, an investment holding company, primarily invests in properties in the People's Republic of China, Singapore, the United States, the United Kingdom, and the Republic of Mongolia. The company operates through Property Investment, Medical Equipment Trading, Flooring Materials Trading, Mining and Exploitation of Natural Resources, and Financial Services and Asset Management segments. The Property Investment segment invests in, manages, and leases properties, as well as develops shopping malls. The Medical Equipment Trading segment trades in medical equipment. The Flooring Materials Trading segments trades in flooring materials. The Mining and Exploitation of Natural Resources segment is involved in the mining and production of tungsten resources. The Financial Services and Asset Management segment trades in equity securities and derivatives; and manages assets arising from acquisition of distressed debts assets. The company was formerly known as Bestway International Holdings Limited and changed its name to Tai United Holdings Limited in August 2016. 3031 Taier Heavy Industry Co., Ltd. designs, develops, manufactures, markets, and services metallurgical equipment and spare parts in China. The company provides universal joint shafts, gear couplings, shear blades, sliding plates, mandrels; and coldrolled hotdip galvanized shaft sleeve and bush, sink roll and stabilizing roll series, furnace roll, process roll, side guide, laminar colling roll, and crystallizer for continuous casting. It also offers wire rod coil compactors; bar bundling, Hbeam tying, strapping, and spray marking machines; and decoilers/recoilers, as well as compactor spare parts, and cold and hot rolling equipment. The company was formerly known as Anhui Taier Heavy Industry Co., Ltd. and changed its name to Taier Heavy Industry Co., Ltd.

in February 2013. Taier Heavy Industry Co., Ltd. was founded in 2000 and is based in Maanshan, China.

3032 Taihan Fiber Optics Co., Ltd operates in the optical communication cable and system industry in South Korea and internationally. It offers optical fibers, cables, connectivity products, accessories, and equipment for the telecommunication sector; cable and connectivity products for power T&D sector; and specialty fibers, accessories, and fiber laser systems, as well as wired and wireless telecommunication, power T&D, and data center solutions. The company was formerly known as Optomagic Co. Ltd. and changed its name to Taihan Fiber Optics Co., Ltd in April 2012. Taihan Fiber Optics Co., Ltd was founded in 1955 and is based in Ansan, South Korea.

3033 Taihan Textile Co., Ltd. produces and supplies textile products in South Korea and internationally. The company offers various apparel products, including shirts/blouses, jackets/pants, underwear products, etc.; bedding products, such as blankets, pillows, etc.; military and police uniforms, and working clothes; and gear products. It also provides woven and knit fabrics; cupra and cellulose fibers; and yarns comprising special, melange, cotton, MVS, slub, and fancy yarns. The company was founded in 1953 and is headquartered in Seoul, South Korea.

3034 Tailim Packaging Co., Ltd. manufactures and sells paper and packaging products in South Korea. The company was formerly known as Tailim Packaging Industrial Co., Ltd. and changed its name to Tailim Packaging Co., Ltd. in May 2016. Tailim Packaging Co., Ltd. was founded in 1976 and is based in Siheung, South Korea.

3035 Taiwan High Speed Rail Corporation operates and manages a highspeed rail system in Taiwan. It operates 345 kilometers length of rail system that links Taipei, Banqiao, Taoyuan, Hsinchu, Taichung, Chiayi, Tainan, and Kaohsiung service stations. The company was incorporated in 1998 and is headquartered in Taipei, Taiwan.

3036 Taiwan Navigation Co., Ltd. provides shipping services in Taiwan. It offers passenger and freight transportation services through water; port warehousing; aquatic sand mining; and navigation channel dredging services, as well as acts as a shipping agency and provides tugboats. The company also acts as a land owner in agreements with construction companies for the use of its land for the construction of residential and commercial buildings for sale and rental. As of December 31, 2021, it operated 30 vessels. Taiwan Navigation Co., Ltd. was founded in 1946 and is headquartered in Taipei City, Taiwan.

3037 Taiwan Semiconductor Manufacturing Company Limited manufactures, packages, tests, and sells integrated circuits and other semiconductor devices in Taiwan, China, Europe, the Middle East, Africa, Japan, the United States, and internationally. It provides complementary metal oxide silicon wafer fabrication processes to manufacture logic, mixedsignal, radio frequency, and embedded memory semiconductors. The company also offers customer support, account management, and engineering services, as well as manufactures masks. Its products are used in mobile devices, high performance computing, automotive electronics, and internet of things markets. The company was incorporated in 1987 and is headquartered in Hsinchu City, Taiwan.

3038 TAKKT AG operates as a B2B direct marketing company for business equipment in Germany, the rest of Europe, and the United States. The company operates in three segments: Industrial & Packaging, Office Furniture & Displays, and FoodService. The Industrial & Packaging segment offers pallet lifting trucks, universal cabinets, and swivel chairs, as well as specialpurpose products, such as environmental cabinets and containers for hazardous materials under the KAISER+KRAFT brand; and office and business equipment to smaller corporate customers under the

Certeo and B&A from Aqbelonline brands. The company was incorporated in 1965 and is headquartered in Kuala Terengganu, Malaysia. TDM Berhad is a subsidiary of Terengganu Incorporated Sdn. Bhd.

3057 TE Connectivity Ltd., together with its subsidiaries, manufactures and sells connectivity and sensor solutions in Europe, the Middle East, Africa, the Asia-Pacific, and the Americas. The company operates through three segments: Transportation Solutions, Industrial Solutions, and Communications Solutions. The Transportation Solutions segment provides terminals and connector systems and components, sensors, relays, antennas, and application tooling products for use in the automotive, commercial transportation, and sensor markets. The Industrial Solutions segment offers terminals and connector systems and components; and interventional medical components, relays, heat shrink tubing, and wires and cables for industrial equipment, aerospace, defense, marine, medical, and energy markets. The Communications Solutions segment supplies electronic components, such as terminals and connector systems and components, relays, heat shrink tubing, and antennas for the data and devices, and appliances markets. TE Connectivity Ltd. sells its products to approximately 140 countries primarily through direct sales to manufacturers, as well as through thirdparty distributors. The company was formerly known as Tyco Electronics Ltd. and changed its name to TE Connectivity Ltd. in March 2011. TE Connectivity Ltd. was incorporated in 2000 and is based in Schaffhausen, Switzerland.

3058 Teamway International Group Holdings Limited, an investment holding company, designs, manufactures, and sells packaging products and structural components in the People's Republic of China, Hong Kong, and Singapore. The company offers expanded polystyrene and expanded polyolefin products for packaging consumer electrical appliances, such as televisions, air conditioners, washing machines, and refrigerators. It also invests in properties. The company was formerly known as Jin Bao Bao Holdings Limited and changed its name to Teamway International Group Holdings Limited in September 2017. Teamway International Group Holdings Limited was founded in 1995 and is headquartered in Tsim Sha Tsui, Hong Kong.

3059 Techbank Food Co., Ltd., together with its subsidiaries, engages in the agriculture and animal husbandry businesses in China and internationally. The company operates through Feed, Breeding, Food, Animal Vaccine Division, and Engineering Division segments. It provides feed technical consulting services; manufactures and sells organic and microbial fertilizers; and sells fresh and live aquatic products. The company also engages in wholesale and retail of feed and feed raw materials; import and export of selfoperated, agency goods, and technologies; steel structure, electrical, and industrial automation engineering construction; production of aquatic fry, livestock, and poultry; aquatic product and pig breeding; and planting and sale of

crops. In addition, it is involved in the manufacturing, selling, installation, maintenance, and technical consultation of machinery and equipment; and research and development, manufacturing, and selling of environmental protection materials and equipment. The company was formerly known as Ningbo TechBank Co., Ltd. and changed its name to Techbank Food Co., Ltd. in May 2017. Techbank Food Co., Ltd. was founded in 1996 and is based in Nanjing, China.

3060 Technicolor Creative Studios provides visual effects and creative production services to the global entertainment, brand experience, film, television, animation, gaming, and advertising sectors. The company was founded in 2021 and is based in Paris, France. Technicolor Creative Studios is a former subsidiary of Technicolor SA.

3061 Technology One Limited researches, develops, markets, sells, implements, and supports integrated enterprise business software solutions worldwide. The company operates through Software and Consulting segments. It offers various business solutions, including business analytics, corporate performance management, DXP local government, enterprise asset management, enterprise budgeting, enterprise cash receipting, enterprise content management, financials, human resources and payroll, performance planning, property and rating, spatial, strategic asset management, student management, timetabling and scheduling, and supply chain management. The company serves local government, education, government, health and community services, asset and project intensive, and financial services and corporate organizations. Technology One Limited was incorporated in 1983 and is based in Fortitude Valley, Australia.

3062 Techwing, Inc. develops and sells semiconductor test handling solutions. The company offers IC test handlers, which is used in the test process of semiconductor production; module test handlers to transfer assembled memory modules to machine for testing purpose; and test boards, which connects electrical signal between handler and tester. It also provides factory automation systems, such as AGV, OHT, etc.; and OLED/LCD evaluation/production, and inspection equipment, as well as display equipment. Techwing, Inc. was founded in 2002 and is headquartered in Hwaseong, South Korea.

3063 Teco Image Systems Co., Ltd. provides OEM and ODM services to imaging and communication products industries worldwide. The company is involved in the design, development, and manufacture of multifunction printing devices, plain paper facsimiles, digital copiers, and color scanners. It also offers mechanical subsystems comprising control panels and automatic document feeders; optical subsystems, such as scan units; and electronic subsystems, including printer controller cards, printer network cards, Internet fax cards, fax controllers, and copier controllers. The company was founded in 1956 and is headquartered in Taipei, Taiwan.

3064 TECON BIOLOGY Co.LTD, together with its subsidiaries, engages in the provision of animal health care, feed, pig breeding, agricultural product processing and trade, and financial services in China and internationally. The company operates through five divisions: Feed, Pharmaceutical, Food Farming, Protein Oil, and Agricultural Products. The Feed division offers pigs, poultry, dairy cows, ruminants, aquatic feed products, as well as premixes and additives. The Pharmaceutical division researches and develops livestock and poultry disease vaccine products. The Food Farming division operates pig breeding, slaughtering, and segmentation facilities; provides deep processing of meat products; and cold chain distribution and sales. The Protein Oil division processes and produces cotton oil, meals, and shells, as well as linters. The Agricultural Products division engages in the acquisition and sale of

agricultural and sideline products; crop drying, warehousing, logistics; agricultural machinery; grain storage equipment processing; import and export of goods and technology; processing, sales, agency business, etc. The company was formerly known as Xinjiang Tecon Animal Husbandry BioTechnology Co., Ltd. and changed its name to Tecon Biology Co.Ltd in June 2016. Tecon Biology Co.Ltd was founded in 1993 and is based in Urumqi, China.

3065 Teekay Corporation engages in the international crude oil and other marine transportation services worldwide. The company provides a full suite of shiptoship transfer services in the oil, gas, and dry bulk industries; lightering and lightering support; and operational and maintenance marine, as well as offshore production services. As of March 1, 2022, it operated a fleet of approximately 55 vessels. The company primarily serves energy and utility companies, major oil traders, large oil consumers and petroleum product producers, goverent agencies, and various other entities that depend upon marine transportation. Teekay Corporation was founded in 1973 and is headquartered in Hamilton, Bermuda.

3066 Tefron Ltd. engages in the design, development, production, marketing, and sale of intimate apparel and activewear, and leisurewear worldwide. The company operates in two segments, Brands and Retail. It offers womenâ€™s intimate, and active and lounge wear; and menâ€™s underwear, activewear, and baselayer products. The company was incorporated in 1977 and is headquartered in Misgav, Israel.

3067 Tagma GestÃ£o LogÃstica S.A. provides logistics management, transportation, and storage services in Brazil. The company operates through two divisions, Automotive Logistics and Integrated Logistics. The Automotive Logistics division engages in the transfer and distribution of new and used vehicles, port transfers, inventory management, vehicle assembly yards, and vehicle preparation services. The Integrated Logistics division provides road transport, general and bonded storage, logistics management, chemicals supply chain management, packaging management, 3pl/4pl, intralogistics, fulfillment, built to suit, turnkey, consultancy, and special projects. It serves food and drinks, automotive, consumer goods, cosmetics, electronics, pharmacists, chemicals, petrochemicals, and household appliances sectors. The company was founded in 1969 and is headquartered in SÃ£o Bernardo do Campo, Brazil.

3068 TEGNA Inc. operates as a media company in the United States. The company operates television stations that deliver television programming and digital content. It offers news content to consumers across various platforms, including online, mobile, connected television, and social platforms; owns and operates multicast networks under the names True Crime Network, Quest, and Twist that offer ondemand episodes of shows; and operates VAULT Studios, which provides true crime and investigative content in the form of podcasts and original television programs. 3152 Tian Lun Gas Holdings Limited, together with its subsidiaries, engages in the transportation, distribution, and sale of natural gas and compressed natural gas through its gas pipeline connections in the People's Republic of China. The company provides construction, designing, laying, installation, and maintenance services for gas pipeline connections. It also constructs and operates gas filling stations; produces and sells liquefied natural gas in bulk and in cylinders; trades in natural gas equipment; provides engineering design and consulting, new energy technology development, and gas vehicle refueling services; generates, supplies, and sells electricity; invests in equity and assets; and sells urban gas and gas appliances. The company serves to the residential, vehicles, commercial, and industrial sectors. The company was formerly known as China Tian Lun Gas Holdings Limited and changed its name to Tian Lun Gas Holdings Limited in September 2021. Tian Lun Gas Holdings Limited was founded in 2002 and is headquartered in Zhengzhou, the People's Republic of China. Tian Lun Gas Holdings Limited is a subsidiary of Tian Lun Group Limited.

3153 Tiangong International Company Limited engages in the production and sale of die steel, high speed steel, cutting tools, and titanium alloys. The company products are used in aviation, automotive, highspeed trains, petroleum chemical, and machinery processing industries. It operates in the People's Republic of China, North America, Europe, other Asian countries, and internationally. The company was founded in 1981 and is headquartered in Danyang, China.

3154 Tianjin Binhai Energy & Development Co., Ltd produces and sells steam, electricity, and related products in China. The company's products are used in heating, nonelectric airconditioning refrigeration, equipment and process heating, disinfection, air purification,

automotive, electronics, pharmaceutical, food, chemical, and other industries. The company was formerly known as Tianjin Lighthouse Paint and Coatings Co., Ltd. Tianjin Binhai Energy & Development Co., Ltd is based in Tianjin, China.

3155 Tianjin Futong Information Science and Technology Co., Ltd. researches, develops, produces, and supplies optical communication products in China. The company primarily offers optical fiber preforms, optical fibers, and optical cables for national information network construction, backbone information networks, metropolitan area networks, access networks, base stations, indoor distribution, etc. It also focuses on quartz materials and products, including large optical fiber preform bushing tubes. The company was formerly known as Tianjin Futong Xiao Science&Technology Co.,Ltd. and changed its name to Tianjin Futong Information Science and Technology Co., Ltd. in January 2020. Tianjin Futong Information Science and Technology Co., Ltd. was founded in 1997 and is based in Tianjin, China.

3156 Tianjin Motor Dies Co., Ltd. engages in the research, design, development, production, and sale of molds and related products in China and internationally. It offers car molds, including side, fender, back door, top cover, door panel, structural, and cover molds; stamping and welding products; and aviation parts. The company was founded in 1965 and is headquartered in Tianjin, China.

3157 Tianjin Pengling Group Co., Ltd. researches, develops, designs, produces, and sells automotive fluid pipelines and automotive seal products for automotive manufacturers and vehicle powertrain manufacturers in China and internationally. It offers automotive cooling, automotive fuel, automotive air conditioning, automotive oil air, transmission oil cooling, automobile turbocharged, automobile vacuum brake, and automobile molded pipeline assembly products; and automobile sunroof drainage pipeline products. The company also provides fluid pipeline products, such as turbo line, air filter line, sunroof drain line, air conditioning pipeline, cooling line, oil cooler piping, vacuum line, oil and gas pipeline, and fuel line products; and vehicle seals, including door frame seals, window frame seals, water cut inside and outside doors, front and rear windshield seals, engine compartment seals, trunk seals, sunroof seals, and roof seals trim products. In addition, it offers automotive rubber hoses and sealing strip products. The company was formerly known as Tianjin Pengling Rubber Hose Co., Ltd. and changed its name to Tianjin Pengling Group Co., Ltd. in June 2018. Tianjin Pengling Group Co., Ltd. was founded in 1988 and is based in Tianjin, China.

3158 Tianjin Pharmaceutical Da Ren Tang Group Corporation Limited, together with its subsidiaries, produces and sells traditional Chinese medicine, western medicine, and healthcare products primarily in the People's Republic of China. It operates in Chinese Medicine and Western Medicine segments. The company is also involved in the manufacture and sale of Chinese and western pharmaceutical and biological products; wholesale and retail sale of medicines, biochemical pharmaceutical products, and daily use products; and operation of hospitals. In addition, it provides logistics, stocks, equipment installation, and medicine processing services; medicine inspection and testing services; and pharmaceutical consultancy services. The company sells its medicinal products under its own brand to the wholesalers; and purchases medicinal products under other brands from distributors and sells these to other wholesalers. The company was formerly known as Tianjin Zhong Xin Pharmaceutical Group Corporation Limited and changed its name to Tianjin Pharmaceutical Da Ren Tang Group Corporation Limited in May 2022. Tianjin

Pharmaceutical Da Ren Tang Group Corporation Limited was incorporated in 1992 and is based in Tianjin, the People's Republic of China.

3159 Tianjin Port Co., Ltd. engages in the cargo loading and unloading operations in China. It is also involved in the commodity storage, intermodal transportation, and automobile transportation activities; container handling, and unpacking and related activities; economic information consulting and freight forwarding services; and wholesale and retail of commerce and various materials. The company is based in Tianjin, China.

3160 Tianjin Realty Development (Group) Co., Ltd. operates as a real estate development company in China. It also operates and manages real estate properties; sells commercial housing; operates commercial assets; and manages building materials. The company was founded in 1981 and is based in Tianjin, China.

3161 Tianjin Tianyao Pharmaceuticals Co., Ltd. engages in the research, manufacture, and export of pharmaceutical APIs in Asia. It primarily provides corticosteroid, cardio cerebrovascular, and analgesic APIs and formulations. The company offers bulk drugs, including dexamethasone, dexamethasone sodium phosphate, dexamethasone acetate, triamcinolone acetonide acetate, prednisone acetate, prednisone, prednisolone, flucanide, halcinonide, triamcinolone acetonide, clobetasol propionate, betamethasone, methylprednisolone hydrocortisone acetate, methylprednisolone, and triamcinolone. The company is based in Tianjin, China. Tianjin Tianyao Pharmaceuticals Co., Ltd. (SHSE : 600488) operates as a subsidiary of Jinhushen Biomedical Technology Co., Ltd.

3162 Tianshan Aluminum Group Co., Ltd. engages in the production and sale of aluminum deepprocessed products and materials, prebaked anodes, highpurity aluminum, bauxite, and alumina. It sells selfproduced and purchased aluminum ingots that are used as raw materials for downstream aluminum processing; electrolytic aluminum products which are used in construction, transportation, electric power, packaging, and household appliances, as well as rail transit, new energy vehicles, photovoltaic power plants, and wind power equipment; highpurity aluminum products that are used to manufacture electronic products, electronic components, high and low voltage electrolytic capacitors, highperformance wires, sapphire raw materials, integrated circuits, etc.; and aluminum plates, aluminum strips, and aluminum foils which are used in industries, such as automobiles, packaging, home appliances, and printing. The company was founded in 2010 and is based in Shihezi, China.

3163 Tibet Development Co., Ltd. engages in the production and sale of beer under the Lhasa brand in China. The company was formerly known as Tibet Galaxy Science & Technology Development Co., Ltd. Tibet Development Co., Ltd. was founded in 1997 and is headquartered in Chengdu, China.

3164 Tibet Huayu Mining Co., Ltd. engages in mining, processing, exploration, and sale of lead, zinc, copper, and other nonferrous metals in China. It engages in the solid mineral exploration; nonferrous metal trading; sale of mining equipment; mineral information consulting services; beneficiation test; laboratory equipment; chemical products; building materials trading; and house leasing businesses. The company was founded in 2002 and is based in Lhasa, China.

3165 Tibet Rhodiola Pharmaceutical Holding Co. engages in the research and development, production, and sale of pharmaceuticals in China and internationally. It offers biological products, Tibetan medicine, Chinese medicine, and chemical medicine products. The company was founded in 1999 and is based in Lhasa, China.

3166 Tibet Water Resources Ltd., an investment holding company, manufactures fastconsuming beverages in the People's Republic of China. It operates in two segments, Water and Beer. The Water segment

manufactures and sells a range of water products through wholesales under the 5100 Glacial Water, Highland Barley Beer, Zhuoma Spring, and Gesang Spring brand names; sells raw materials and consumables to associates and third parties; leases production lines and a plant to associates; and provides lending services to third parties in Hong Kong with relevant license. The Beer segment offers various beer products through wholesales under the Tibet Green Barley Beer brand name. The company also engages in the marketing, promotion, distribution, and retailing of water products; and investment in culture, entertainment, consumer product, retail business, and related industries. It sells its products through retail outlets, hotels, bars, restaurants, supermarkets, and convenience, as well as through ecommerce platforms. The company was formerly known as Tibet 5100 Water Resources Holdings Ltd. and changed its name to Tibet Water Resources Ltd. in December 2015. Tibet Water Resources Ltd. was founded in 2006 and is headquartered in Admiralty, Hong Kong.

3167 Tidewater Midstream and Infrastructure Ltd. operates as a diversified midstream and infrastructure company in North America. The company primarily focuses on natural gas, natural gas liquids (NGLs), crude oil, refined products, and renewable space. It also engages in the sale of refined petroleum products, including gasoline, low sulphur diesel, and ancillary products, as well as renewable fuels and natural gas; gathering, processing, and transporting natural gas and NGLs; and NGL extraction and marketing. The company was incorporated in 2015 and is headquartered in Calgary, Canada.

3168 TIE Kinetix N.V. develops, distributes, and sells software and services in the Netherlands, the United States, Germany, and France. The company offers digital supply chain solutions; and electronic document exchange solutions, such as electronic data interchange (EDI)2FLOW, PDF2FLOW, and PORTAL2FLOW, as well as EArchiving. It also provides software as a service solution for exchanging business documents to companies, governmental institutions, and trading partners and suppliers, as well as artificial intelligencepowered onboarding services. In addition, the company offers AP automation solutions for buyers and suppliers to engage in smart business exchanges; prebuilt connectors and standardized API integrations to connect to ERP or other systems; compliance solutions; value added network services, which enables trading partners to communicate and exchange business documents in various formats realtime using various communication protocols; electronic invoicing solutions; and consultancy services. Further, it provides FLOW Partner Automation platform that combines supply chain integration solutions, such as EDI/XML, PDF conversion, and supplier portal, as well as analytics data and dashboards for users. The company offers its solutions to business services, industry and home improvement, telecom, banking and insurance, food industry and food retail, nonfood, consumer electronics, transport and logistics, office supplies, automotive, medical, and others markets directly, as well as through a network of distribution partners. TIE Kinetix N.V. was founded in 1987 and is headquartered in Breukelen, the Netherlands.

3169 TietoEVERY Oyj operates as a software and services company. It operates through six segments: Tietoevry Create, Tietoevry Banking, Tietoevry Care, Tietoevry Industry, Tietoevry Transform, and Tietoevry Connect. The Tietoevry Create segment provides digital agenda to create competitive products, as well as uses design, data, and cloud technologies for datadriven businesses. This segment also offers software and data engineering services. The Tietoevry Banking segment provides software products for digital transformation and financial institutions. The Tietoevry Care segment offers modular and interoperable software, reinventing Nordic health, and social care services. The Tietoevry

Industry segment offers software and data solutions across various industries, such as public sector, pulp and paper, and utilities. The Tietoevry Transform segment provides customers' business processes, applications, and infrastructure. The Tietoevry Connect segment operates a cloud platform that provides a range of infrastructure choices ensuring security, resilience, and compliance for the customer's business. The company was formerly known as Tieto Oyj and changed its name to TietoEVRY Oyj in December 2019. TietoEVRY Oyj was founded in 1968 and is headquartered in Espoo, Finland.

3170 TIM S.A., a telecommunications company, provides mobile voice, data, and broadband services in Brazil. The company offers in mobile, landline, longdistance, and data transmission services. It also offers ultrabroadband, digital content, and tailored packages services. The company serves individuals and corporates, as well as small, medium, and large companies. TIM S.A is founded in 2013 and is based in Rio de Janeiro, Brazil. The company operates as a subsidiary of TIM Brasil Servios e Participaes S.A.

3171 Times Neighborhood Holdings Limited provides property management and other relevant services primarily to property developers, property owners and residents, and goverental authorities in the People's Republic of China. The company offers property management services for residential and nonresidential properties. The company also provides valueadded services to nonproperty owners comprising sales assistance; construction site services, including consultancy and security services; housing agency services for residences, shops, and parking spaces; predelivery cleaning services; and urban redevelopment project services. Further, the company provides sale, installation, repair, and maintenance services for elevators; and intelligent engineering and municipal sanitation services. The company was founded in 1998 and is headquartered in Guangzhou, the People's Republic of China.

3172 TimkenSteel Corporation manufactures and sells alloy steel, and carbon and microalloy steel products in the United States and internationally. It offers carbon, microalloy, and alloy steel ingots, bars, tubes, and billets. The company's products are used in gears; hubs; axles; crankshafts and connecting rods; oil country drill pipes; bits and collars; bearing races and rolling elements; bushings; fuel injectors; wind energy shafts; antifriction bearings; and other applications. It also provides custommake precision steel components. The company offers its products and services to the automotive; oil and gas; industrial equipment; mining; construction; rail; defense; heavy truck; agriculture; and power generation sectors. TimkenSteel Corporation was founded in 1899 and is headquartered in Canton, Ohio.

3173 Tingo Group, Inc., an agrifintech company, operates a marketplace platform that empowers social upliftment through mobile, technology, and financial access for rural farming communities in Africa, Southeast Asia, and the Middle East. Its platform service through use of smartphones "device as a service" to empower a marketplace to enable subscribers/farmers within and outside of the agricultural sector to manage commercial activities of growing and selling production to market participants domestically and internationally. The ecosystem provides a "one stop shop" solution to enable subscribers to manage airtime top ups, bill pay services for utilities and other service providers, and access to insurance services and micro finance to support value chain from "seed to sale". The company also focuses on the development of a

suite of consumer fintech services in China, including proprietary platforms for insurance products (B2B, B2B2C and B2C), and financial services/products (B2C), the technology for which is adaptable for other applications and markets. The company was formerly known as MICT, Inc. and changed its name to Tingo Group, Inc. in February 2023. Tingo Group, Inc. was incorporated in 2002 and is based in Montvale, New Jersey.

3174 Tire Company Debica S.A. manufactures and sells passenger, commercial, and truck tires under the Debica, Goodyear, Dunlop, Fulda, and Sava brands in Poland. It also offers curing bladders and membranes that are used to make tires for motorcycles, planes, passenger cars, farming vehicles, trucks, and heavy earthworks vehicles. The company sells its products through tire distributors, a franchising network, and tire service stations, as well as online stores. It also exports tires to Luxembourg, Germany, Turkey, the United States, Canada, and France. The company was formerly known as Firma Oponiarska Debica S.A. The company was founded in 1937 and is based in Debica, Poland. Tire Company Debica S.A. is a subsidiary of Goodyear S.A.

3175 Titan Cement International S.A., together with its subsidiaries, produces, distributes, and trades in a range of construction materials in Greece and Western Europe, North America, Southeastern Europe, the Eastern Mediterranean, and internationally. The company provides cement; readymix concrete; aggregates and coarse materials, including sand, gravel, crushed stone, and recycled concrete; and other building materials, such as dry mortars, building blocks, fly ash, and other concrete products for the construction of infrastructure, residential housing, commercial buildings, and social projects. It is also involved in the distribution of cement; processing of fly ash; sale of fly ash processing equipment; quarries and aggregates; real estate brokerage services; engineering design services for solid and liquid waste facilities; and alternative fuels. In addition, it designs, manufactures, and markets proprietary separation equipment for dry powders. Titan Cement International S.A. was founded in 1902 and is based in Brussels, Belgium.

3176 Titan Logix Corp. engages in the research and development, manufacture, and marketing of technology fluid management solutions in Canada, the United States, and internationally. It offers mobile monitoring systems and smart truck systems. The company also provides hardware products, including level gauges, probes, displays, mobile accessories, flow meters, and transmitters. It serves oil and gas, chemical, produced water, vacuum, aviation, and fuel and lubricant industries. The company was formerly known as Titan Pacific Resources Ltd. Titan Logix Corp. was incorporated in 1979 and is headquartered in Edmonton, Canada.

3177 Titan Wind Energy (Suzhou) Co., Ltd produces, develops, and sells wind towers and components in China. The company is also involved in the production and sale of wind power blades and molds; and development, investment, construction, and operation of wind farm projects. In addition, it engages in the equity investment; finance leasing; and general import and export trade activities. The company was founded in 2005 and is based in Taicang, China.

3178 Tiv Taam Holdings 1 Ltd. owns and operates a chain of food retail stores in Israel. The company provides fruits and vegetables, meat and chicken products, fish and sea fruits, eggs, milk, salads, cheese products, sausages, breads and pastries, canned food pasta dressing and spreads, nuts, seeds, snacks, dried fruits, spices, frozen vegetables and fruits, frozen food and concentrates, and cereal snacks and sweets, such as oats, energy bars, halva, chocolates and candies, snacks, and cakes and cookies, as well as ice creams and ices. The company was formerly known as Maple Group

Acquisition Corporation and changed its name to TMX Group Limited in August 2012. TMX Group Limited was incorporated in 2011 and is headquartered in Toronto, Canada.

3184 TOBESOFT Co., Ltd., a software company, develops and sells UI and UX technology solutions in South Korea. The company offers nexacro platform 17, a UI UX real OSMU solution; XPLATFORM, a UI UX platform for implementing smart business environments; NexUp, a server framework for service development; and XPush, a real time push server. It also provides BUX consulting and conversion services; and Fusion platform, an AIpowered digital transformation solution. The company was founded in 2000 and is headquartered in Seoul, South Korea.

3185 TOD'S S.p.A., together with its subsidiaries, creates, produces, and distributes shoes, leather goods and accessories, and apparel in Italy, rest of Europe, the Americas, Greater China, and internationally. The company distributes its products through directly operated singlebrand stores (DOS), online, franchised stores, and independent multibrand stores under the TOD'S, HOGAN, FAY, and ROGER VIVIER brands. As of March 10, 2022, it operated through a distribution network of 318 DOS and 88 franchised stores. The company was founded in 1970 and is headquartered in Sant'Elpidio a Mare, Italy. TOD'S S.p.A. is a subsidiary of DI.VI. FINANZIARIA DI DIEGO DELLA VALLE & C. S.r.l.

3186 Tokai Carbon Korea Co., Ltd. produces and sells various parts and components for the semiconductor, light emitting diode (LED), and solar industries in South Korea. The company offers high purified graphite components for use in heaters, crucibles, Gr shields, rings, reflectors, wafer holders, etc.; and plates and other products for semiconductor manufacturing equipment. It also provides wafer susceptors for LED MOCVD and silicon Epi reactors, including LED wafer carriers, and ALD semiconductor and Epi susceptors; and CVD SiC coated components that are used in SiC rings, wafers, and shower heads for lifetime extension and yield improvement of plasma etch chamber parts. Tokai Carbon Korea Co., Ltd. was incorporated in 1996 and is based in Anseongsi, South Korea.

3187 Tomra Systems ASA provides sensorbased solutions for optimal resource productivity worldwide. It operates through three divisions: Collection, Recycling Mining, and Food. The Collection division engages in the development, production, sale, and service of reverse vending machines and related data management systems. This segment is also involved in picking up, transporting, and processing empty beverage containers on behalf of beverage producers/fillers. The Recycling Mining division offers sorting systems for waste and metal material streams; and ore sorting systems for the mining industry. The Food Solutions division provides postharvest grading and sorting solutions for fresh produce; and sorting and processing technology for the processed food industries. The company was founded in 1972 and is headquartered in Asker, Norway.

3188 Tong Petrotech Corp. develops and offers perforation technology services to oilfield customers in China and internationally. It offers composite perforators, downhole tools, directional drilling technology services, and hydraulic fracturing technology services. The company was formerly known as Tong Oil Tools Co., Ltd. and changed its name to Tong Petrotech Corp. in June 2019. Tong Petrotech Corp. was founded in 1995 and is headquartered in Xi'an, the People's Republic of China.

3189 Tongda Hong Tai Holdings Limited, an investment holding company, manufactures and sells casings for notebooks and tablets in Mainland China. It also offers other related accessories. The company was founded in 2008 and is headquartered in Wan Chai, Hong Kong.

3190 Tongfu Microelectronics Co., Ltd provides integrated circuit (IC) packaging and testing services to the semiconductor industry. It offers wafer probe, strip testing, final testing, and system level testing

semiconductor testing services; test platform and engineering services for analog and mixed signal, automotive, radio frequency, highperformance calculated devices, baseband ,memory devices, LCD driver devices, SiP devices, power module devices, and integrated circuits; and test products that includes CPU, GPU, gaming consoles, and networking products. The company was formerly known as Nantong Fujitsu Microelectronics Co., Ltd. and changed its name to Tongfu Microelectronics Co.,Ltd in December 2016. Tongfu Microelectronics Co.,Ltd was founded in 1997 and is headquartered in Nantong, China.

3191 Tonghua GoldenHorse Pharmaceutical Industry Co., Ltd. engages in the research, development, manufacture, and sale of pharmaceutical products in China. Its products primarily focus on the rheumatism, digestion, cancer, and gynecology fields. The company offers traditional Chinese medicines, such as gynecological, rheumatic and bone pain, urology, detoxification, cardiocerebral, digestive, respiratory, diabetes, and pediatric medication products, as well as antitumor drugs, prescription and OTC drugs, and Western medicines. The company offers its products in the form of capsules, tablets, injections, liquids, etc. Tonghua GoldenHorse Pharmaceutical Industry Co., Ltd. was founded in 1990 and is based in Tonghua, China.

3192 Tongyang Inc. manufactures and sells readymixed concrete materials. It manufactures and distributes construction materials, such as readymixed concrete and aggregates; and distributes construction materials, including readymixed concrete, steel reinforcement, thermal insulation materials, tiles, sanitary wares, and plaster boards. The company is also involved in housing construction projects for apartments, highend residential facilities, and town houses; civil engineering activities, including the development of traffic facilities, such as roads and harbors, as well as living facilities; construction of building, shopping complexes, and residences; and remodeling services for commercial real estate and apartments. In addition, it engages in designing, equipment supply, construction, and operation of cement plants, power plants, iron works, and chemical plants. The company was formerly known as Tongyang Major Corporation and changed its name to Tongyang Inc. in March 2011. Tongyang Inc. was founded in 1955 and is headquartered in Seoul, South Korea.

3193 Tongyu Heavy Industry Co., Ltd. engages in the research and development, manufacture, and sale of forgings and castings. It offers wind power generator main shafts, ductile iron casting pipe moulds, cold work rolls, support rolls, steam turbine and generator rotor shafts, crank shafts, marine shafts, pressure pipeline products, supercritical boiler pipes, pressure vessel forgings, machine tool bed products, wind power diesel engine body hubs, forging blanks, ESR and steel ingots, etc., as well as fabrication products and alloys. The company also designs and manufactures various general and nonstandard equipment and parts, as well as engages in nonferrous metal smelting and calendaring business. It serves metallurgy, mining, hydroelectric and thermal power, nuclear and wind power, shipbuilding, petroleum chemical, heavy machinery, marine engineering, aerospace, mould, and other industries. The company was founded in 2002 and is based in Yucheng, China.

3194 Top Energy Company Ltd.Shanxi operates coal power plants in China. The company was founded in 1992 and is based in Taiyuan, China.

3195 TOP Engineering Co., Ltd engages in developing, manufacturing, and selling LCD/OLED, LED, camera module, and test equipment primarily in Korea, the rest of Asia, Europe, and North America. The company offers LCD/OLED equipment, such as LC and seal dispensers, glass cutting systems, array testers, direct bonding systems, dam and fill dispensers, and probe station and testers; secondary battery equipment comprising

rolltoroll type assembly process equipment and pack assembly process equipment; and LED equipment, including UV LED high temp MOCVD systems, blue/green LED MOCVD systems, ICP etchers, ICP CVD, and plasma enhanced CVD. It also provides camera module equipment comprising auto focus testers, final inspection equipment, housing attach equipment, and OIS calibration shakers; and test equipment, such as mobile display test boards and testers, parametric test equipment, and semiconductor parameter analyzers. The company was founded in 1993 and is headquartered in Gumi, South Korea.

3196 Topchoice Medical Corporation provides medical services in China. It provides various specialty medical services in oral, reproductive, and ophthalmology areas; and operates dental medical institutions and assisted reproductive medical institutions. It operates approximately 32 dental hospitals; and Tongze Dental College, a nonprofit educational training organization. The company was formerly known as Topchoice Medical Investment Co., Inc. and changed its name to Topchoice Medical Corporation in November 2019. Topchoice Medical Corporation was founded in 1995 and is based in Hangzhou, China.

3197 Topgolf Callaway Brands Corp. designs, manufactures, and sells golf equipment, golf and lifestyle apparel, and other accessories in the United States, Europe, Asia, and Internationally. It operates through three segments: Topgolf; Golf Equipment; and Active Lifestyle. The Topgolf segment operates Topgolf venues equipped with technology-enabled hitting bays, bars, dining areas, and event spaces, as well as Toptracer ballflight tracking technology; and World Golf Tour digital golf game. The company was incorporated in 1999 and is based in Stockholm, Sweden. Tradedoubler AB (publ) is a subsidiary of Reworld Media S.A.

3208 Tradelink Electronic Commerce Limited, together with its subsidiaries, provides government electronic trading services (GETS) for processing official trader-related documents in Hong Kong. It operates through three segments: Ecommerce, Identity Management, and Other Services. The company's GETS and related services include import and export trade declaration, dutiable commodities permit, certificate of origin, electronic cargo manifest, importer security filing, advance filing rules, automated manifest, compliance, freight quotation, insurancelink, and paper-to-electronic conversion services, as well as road cargo solutions. It also provides supply chain solutions, which includes digital warehousing, distributed order management, transport and distribution, and supplier/vendor management capabilities, as well as Internet of Things solutions for asset tracking of logistics and inventory; and value added services, such as electronic data interchange integration service, order management system, and eShop module. In addition, the company offers identity management solutions, including biometric authentication, facial recognition, digital certificate, and eKYC solutions. Further, it provides paytech solutions, such as onestop payment services from sourcing to customer support; value-added payment applications; and smart products that include smart PoS, cashless payment reader, vending machine, and self-service kiosk. Additionally, the company offers electronic messages, technical support, training, and other project services; certificate authority services; electronic messaging routing and transformation services; and ecommerce and e logistics

services. It serves government and utility, trade and logistics, banking and financial, retail and hospitality, and other industries. Tradelink Electronic Commerce Limited was incorporated in 1988 and is based in Kwai Chung, Hong Kong.

3209 TransAlta Corporation engages in the development, production, and sale of electric energy. It operates through Hydro, Wind and Solar, Gas, Energy Transition, and Energy Marketing segments. The Hydro segment has a net ownership interest of approximately 922 megawatts (MW) of owned hydro electrical generating capacity located in Alberta, British Columbia, and Ontario. The Wind and Solar segment has a net ownership interest of approximately 1,878 MW of owned wind and solar electrical generating capacity, as well as battery storage facilities located in Alberta, Ontario, New Brunswick, and QuÃ©bec in Canada; and the states of Massachusetts, Minnesota, New Hampshire, North Carolina, Pennsylvania, Washington, and Wyoming in the United States. The Gas segment has a net ownership interest of approximately 2,775 MW of owned gas electrical generating capacity, and facilities located in Alberta and Ontario in Canada; Michigan, the United States; and Western Australia. The Energy Transition segment has a net ownership interest of approximately 671 MW of owned coal electrical generating capacity, as well as operates the Skookumchuck hydro facility in Centralia; and engages in the highvale mine and the mine reclamation activities. The Energy Marketing segment is involved in the trading of power, natural gas, and environmental products. It serves customers in various industry segments, including commercial real estate, municipal, manufacturing, industrial, hospitality, finance, and oil and gas. The company was founded in 1909 and is headquartered in Calgary, Canada.

3210 TransDigm Group Incorporated designs, produces, and supplies aircraft components in the United States and internationally. Its Power & Control segment offers mechanical/electromechanical actuators and controls, ignition systems and engine technology, specialized pumps and valves, power conditioning devices, specialized AC/DC electric motors and generators, batteries and chargers, databus and power controls, sensor products, switches and relay panels, hoists, winches and lifting devices, and cargo loading and handling systems. This segment serves engine and power system and subsystem suppliers, airlines, third party maintenance suppliers, military buying agencies, and repair depots. The company's Airframe segment provides engineered latching and locking devices, engineered rods, engineered connectors and elastomer sealing solutions, cockpit security components and systems, cockpit displays, engineered audio, radio and antenna systems, lavatory components, seat belts and safety restraints, engineered and customized interior surfaces and related components, thermal protection and insulation products, lighting and control technology, and parachutes. This segment serves airframe manufacturers, cabin system and subsystem suppliers, airlines, third party maintenance suppliers, military buying agencies, and repair depots. Its Nonaviation segment offers seat belts and safety restraints for ground transportation applications; electromechanical actuators for space applications; hydraulic/electromechanical actuators and fuel valves for landbased gas turbines; refueling systems for heavy equipment used in mining, construction, and other industries; and turbine controls for the energy and oil and gas markets. This segment serves offroad vehicle and subsystem suppliers, child restraint system suppliers, and satellite and space system suppliers; and manufacturers of heavy equipment. The company was founded in 1993 and is based in Cleveland, Ohio.

3211 Transmissora AlianÃ§a de Energia ElÃ©trica S.A. implements, operates, and maintains electric power transmission assets in Brazil. It operates 14,014 kilometers (km) of transmission lines, which include

11,685 km of transmission lines in operation and 2,329 km of lines under construction; and 100 substations with voltage ranging from 230 to 525kV. The company was founded in 2000 is headquartered in Rio de Janeiro, Brazil.

3212 Transocean Holdings Bhd., an investment holding company, engages in the provision of logistics, tyre manufacturing, and information technology services in Malaysia and Singapore. It operates through Logistics Solutions, Tyre Products, and Investment Holdings segments. The company offers custom brokerage, freight forwarding, trucking, international air and ocean freight, project logistics, warehousing, inland and crossborder transportation, container haulage and depot, and custom clearance services. It also manufactures and trades in new and retread tires under the Transocean brand for cars, light and heavy trucks, and earth moving equipment, as well as solid tires for forklifts. In addition, the company is involved in the provision of management services and letting of properties. Transocean Holdings Bhd. was founded in 1977 and is headquartered in Kuala Lumpur, Malaysia. Transocean Holdings Bhd. is a subsidiary of Nadicorp Holdings Sdn. Bhd.

3213 Transportadora de Gas del Sur S.A. engages in transportation of natural gas, production, and commercialization of natural gas liquids in Argentina. The company operates through four segments: Natural Gas Transportation Services; Liquids Production and Commercialization; Other Services; and Telecommunications. The Natural Gas Transportation segment transports natural gas through 5,769 miles of pipeline system to distribution companies, power plants, and industrial customers. It also provides operation and maintenance services for the natural gas transportation facilities. The company's Liquids Production and Commercialization segment produces and commercializes natural gas liquids, such as ethane, liquid petroleum gas, natural gasoline, propane, and butane in Argentina and internationally. Its Other Services segment offers midstream services, including natural gas treatment, separation, and removal of impurities from the natural gas stream, as well as natural gas compression. It also provides services related to pipeline and compression plant construction, operation, and maintenance; and generates steam for electricity production. The Telecommunications segment provides telecommunication services with a network that includes a microwave digital network with synchronous digital hierarchy technology and a dark fiber optic network. As of December 31, 2021, it served 6.2 million residential, commercial, industrial, and electric power generation end users. The company was founded in 1992 and is headquartered in Buenos Aires, Argentina. Transportadora de Gas del Sur S.A. is a subsidiary of Compañía de Inversiones de Energía S.A.

3214 Transtema Group AB builds, maintains, and manages the operation of various communication networks in Sweden. The company offers operation and maintenance services, including network monitoring, consulting, support, and field services; communication network, including fiber, mobile, copper network, property network, IoT, wireless networks, mobile indoor coverage, and network equipment; electricity, telecommunications, and security product and services, including electricity meters, charging stations, telecommunication systems, and electrical installation services; and data center services. It also provides networking equipment, data storage, IoT solutions. The company was founded in 1997 and is headquartered in Malmö, Sweden.

3215 Transurban Group develops, operates, manages, and maintains toll road networks. It operates 21 toll roads in Sydney, Melbourne, and Brisbane in Australia; the Greater Washington area, the United States; and Montreal, North America. The company is headquartered in Melbourne, Australia.

3216 Trastor Real Estate Investment Company SA operates as a property investment company in Greece. Its property portfolio includes shops, offices, gas stations, and garages. The company was formerly known as Piraeus Real Estate Investment Company and changed its name to Trastor Real Estate Investment Company SA in May 2009. Trastor Real Estate Investment Company is headquartered in Athens, Greece.

3217 Travel + Leisure Co., together with its subsidiaries, provides hospitality services and products in the United States and internationally. business process outsourcing services in technical service, marketing, and customer relations. The company was formerly known as TelecomAsia Corporation Public Company Limited and changed its name to True Corporation Public Company Limited in April 2004. True Corporation Public Company Limited was incorporated in 1990 and is based in Bangkok, Thailand.

3227 Truking Technology Limited engages in the research and development of pharmaceutical and medical equipment in China. The company offers solutions for sterile products lyophilization, ampoule injectable products, vial injectable products, vial(powder) products, prefilling and sealing products, plastic bottle blowfillseal, cartridge, nonPVC soft bag, and glass infusion bottle production, as well as fluid processing systems. It also offers isolating systems and lyophilization laboratory. The company exports its products to approximately 40 countries and regions in Asia, Europe, South America, and internationally. Truking Technology Limited was founded in 2000 and is headquartered in Changsha, China.

3228 Trust Alliance Information Development Inc.Ltd.Shanghai engages in industry specific cloud integration that uses big data and blockchain technologies for food safety, archives, justice to goverents and enterprises in China. The company provides smart food safety solutions, including smart farm batch, important product traceability management platform, oneticket food safety traceability, food safety quick inspection, traceability cloud system construction, fresh supermarket, and smart farmer comprehensive solutions; smart justice, including smart prison, smart supervision, special group service cloud platform solutions; and entity file custody solutions, including file application innovative technology alternative, electronic archives full life cycle management, file resource coconstruction and sharing, digital archive, smart archive, Minsheng archive remote service, threedimensional intelligent management and control solution for archives, secure storage of massive archive data solutions, and smart Wembo solutions. It also provides information system planning consultation, integration, operation maintenance and promotion, software and hardware development and construction, data services and other related solutions for judicial clients, including smart prison and smart supervision overall solutions, and special group service cloud platform solutions; smart goverent solutions, including IT operation and maintenance, and goverent affairs cooperative office solutions. The company was formerly known as Zhongxin Information Development Inc., Ltd. Shanghai and changed its name to Trust Alliance Information Development Inc.Ltd.Shanghai in August 2020. The company was founded in 1997 and is headquartered in Shanghai, China.

3229 TS Nexgen Co., Ltd. manufactures and sells power plant dampers and busways in South Korea. It offers dampers for thermal power generation, petrochemical plants, steel mills, and cement plants; diverters, steel structures, exhaust gas bypass systems, hydraulic power units, expansion joints, stack dampers, and blanking plates; electric steam humidifiers, silencers, fire dampers, pneumatic control and electro hydraulic products, back draft and check dampers, and opposed/parallel blades; and SOx scrubber dampers, as well as busway power distribution systems. The company also manufactures electric energy storage systems. In addition, it provides duct, air conditioning, and mechanical equipment, as well as electric work services; and lifeboats, and debit maintenance and repair work services. Further, the company offers micro batteries; air clean filter products; agriculture systems; health drinks; derma cosmetic products; oil adsorbent pads; and medical appliances, such as disposable syringe sand needles, and filter syringes. The company was formerly known

as HLB Power Co., Ltd. TS Nexgen Co., Ltd. was founded in 1995 and is headquartered in Seoul, South Korea.

3230 TSI Co., Ltd., a mixing system company, manufactures and sells rechargeable battery mixing systems in South Korea, the United States, China, and Europe. The company offers integrated mixing solutions, including procurement and equipment manufacturing, mixing room layout design and structure construction, piping and wiring, equipment installation, customer MES linkage, and finishing services; and Planetary Despa (PD) mixer. It also provides Corona Mix for manufacturing slurry for secondary batteries; Solu Mix, an equipment to dissolve PVDF and CMC; and powder transfer system, a device that transfers active material powder using a vacuum pump. TSI Co., Ltd. was founded in 1996 and is based in Hwaseong, South Korea.

3231 Tsinghua Tongfang Co., Ltd. operates as an information and security company. The company operates in three segments: Digital Information, Civil Nuclear Technology, and Energy Conservation and Environmental Protection. The company offers products and services, such as computers, televisions, Ebooks, consumer electronic equipment, CNKI knowledge data products, security and security equipment, military equipment, urban energy conservation, industrial energy conservation, big data, cloud computing software and hardware, lightening and other products or services. Tsinghua Tongfang Co., Ltd. was founded in 1997 and is based in Beijing, China.

3232 Tsingtao Brewery Company Limited, together with its subsidiaries, engages in the production, distribution, wholesale, and retail sale of beer products worldwide. It operates through seven segments: Shandong Region; South China Region; North China Region; East China Region; Southeast China Region; Hong Kong, Macau and Other Overseas Region; and Finance Company. The company sells its beer products primarily under the Tsingtao and Laoshan brand names. It also provides wealth management, and agency collection and payment services; and financing, construction, and logistics services, as well as technology promotion and application services. The company was founded in 1903 and is headquartered in Qingdao, the People's Republic of China.

3233 TSRC Corporation, together with its subsidiaries, engages in the manufacture, import, and sale of various synthetic rubber and related products in Taiwan, rest of Asia, North America, and Europe. The company offers ESBR rubber for use in automotive tires, shoe soles, conveyor belts, military caterpillar and tow trucks tracks, sports equipment, and toys; SSBR rubber for use in energysaving, high performance, and allseason tires; BR rubber that is used in the production of plastic modification for HIPS and highspeed radial tires; and NBR rubber for use in oil hoses and seals, rollers, industrial gaskets, belts, shoe soles, rubber plastic foam sheets, and conveyor belts. It also provides styrenebutadienestyrene, styreneisoprenestyrene, and styreneethylene/butylenestyrene copolymers, as well as TBLEND applied materials for use in advance shoe material, foam material, soft touch and gel, and overmolding materials. The company was formerly known as Taiwan Synthetic Rubber Corporation and changed its name to TSRC Corporation in August 1999. TSRC Corporation was incorporated in 1973 and is headquartered in Kaohsiung, Taiwan.

3234 Tsubaki Nakashima Co., Ltd. manufactures and sells industrial precision balls, rollers, cages, and sheet metal parts worldwide. The company operates through Precision Component Business, Linear Business, and Others Business segments. It offers precision steel balls, including bearing and stainless steel, ballpoint pen, and various metal balls for use in home electronics, such as air conditioners, refrigerators, and vacuum cleaners; and precision rollers and stampings comprising tapered,

spherical, cylindrical, and needle rollers, as well as cages, sheet metal stampings, and welded products for transmission, engine, pump, wheel bearing, mining, heavy industry, and railway applications. The company also provides precision ceramic balls, including silicon nitride and alumina oxide balls for use in wind power generators, electric vehicles, and semiconductor manufacturing equipment applications. In addition, it offers ball screws for machine tools, electric injection molding machines, semiconductor manufacturing equipment, industrial robots, and advanced medical equipment applications. Further, the company provides iron and steel, electric power, wind tunnel, and other blowers for steel, thermal power, nuclear power, and other applications; and customized solutions comprising solid plastic balls, specially manufactured products, and glass balls for medical diagnostic tests and devices. Additionally, it is involved in the real estate leasing business. The company was founded in 1934 and is headquartered in Katsuragi, Japan.

3235 TTW Public Company Limited, together with its subsidiaries, produces and sells treated water in Thailand. The company supplies water to the Provincial Waterworks Authority in the Amphur Nakorn Chaisri, Amphur Sam Pran, and Amphur Budha Monthon areas of Nakhon Pathom; and Amphur Muang and Amphur Kratumban areas of Samut Sakhon under the water purchase agreement. It is also involved in the management of water production and distribution systems, and wastewater collection and treatment systems; and operation and maintenance of water supply project. The company was formerly known as Thai Tap Water Supply Public Company Limited and changed its name to TTW Public Company Limited in April 2014. TTW Public Company Limited was incorporated in 2000 and is headquartered in Nakhon Pathom, Thailand.

3236 Tubacex, S.A., together with its subsidiaries, engages in the manufacture, supply, and sale of stainless steel and nickel superalloy tubular solutions worldwide. The company offers seamless stainless steel tubes; mechanical tubes; round bars, billets, and ingots; fittings and special components, such as welding fittings, curved sections, elbows, tees, reducers, and caps; and Tubacoat, a ceramic coating for long steel and highnickel alloy products. Its products have applications in oil and gas exploration and production, hydrocarbon processing, fertilizer, power generation, aerospace, and other industries. The company was incorporated in 1963 and is headquartered in Llodio, Spain.

3237 Tuesday Morning Corporation operates as an offprice retailer in the United States. The company offers various products, such as upscale home textiles, home furnishings, housewares, gourmet food products, pet supplies, bath and body products, toys, and seasonal décor products. Tuesday Morning Corporation was founded in 1974 and is headquartered in Dallas, Texas. On February 14, 2023, Tuesday Morning Corporation, along with its affiliate, filed a voluntary petition for reorganization under Chapter 11 in the U.S. Bankruptcy Court for the Northern District of Texas. On February 14, 2023, Tuesday Morning Corporation, along with its affiliate, filed a voluntary petition for reorganization under Chapter 11 in the U.S. Bankruptcy Court for the Northern District of Texas.

3238 Tukas Gida Sanayi ve Ticaret A.S., together with its subsidiaries, manufactures and sells food products. The company offers tomato and pepper pastes, dried and grated tomatoes, sauces, spreads, and condiments; roasted and canned products; and pickles, ready to serve foods, jams, and olives, as well as catering products. It sells its products under the Tukas brand name. The company was founded in 1962 and is headquartered in Izmir, Turkey.

3239 Tunghsu Azure Renewable Energy Co.,Ltd. engages in new energy business in China and internationally. It operates solar photovoltaic and wind power plants; and provides smart energy services, as well as offers

ecological management, water environment restoration and operation, soil restoration, and other businesses. The company was formerly known as Baoan Hongji Real Estate Group Co., Ltd. and changed its name to Tunghsu Azure Renewable Energy Co., Ltd. in July 2016. Tunghsu Azure Renewable Energy Co., Ltd. was founded in 1950 and is based in Shenzhen, China.

3240 Turiya Berhad engages in the semiconductor business in Malaysia and Singapore. The company operates through Investment Property, Semiconductor, and Investment holding segments. The company is involved in the rental of office lots; manufacture and sale of industrial machineries; and research and development, manufacture, and distribution of specialty chemicals for the electroplating process in the semiconductor, electronics, and automotive sectors. In addition, it provides Web based electronic medical records. The company was formerly known as Sitt Tatt Sdn Bhd. Turiya Berhad was founded in 1961 and is based in Kuala Lumpur, Malaysia. Turiya Berhad is a subsidiary of MAA Group Berhad.

3241 T rk Telekom nikasyon Anonim Sirketi, together with its subsidiaries, provides integrated telecommunication services in Turkey. The company operates in two segments, Fixed Line and Mobile. It offers mobile, internet, phone and TV products and services under T rk Telekom brand name. The company also provides PSTN and wholesale broadband services; retail internet services, IPTV, satellite TV, Web TV, mobile TV, and smart TV services; IT solutions; convergence technologies; online education software; project development and corporate venture capital services; and wholesale data and capacity services. In addition, it offers TV Broadcasting and VOD services; telecommunications devices sales; payment and money services; and web portal and computer programming services. Further, the company provides call center, electric supply and sales, facilities support, and counselling services. The company was founded in 1840 and is headquartered in Ankara, Turkey. T rk Telekom nikasyon Anonim Sirketi is a subsidiary of LYY Telekom nikasyon A.S.

3242 Turners Automotive Group Limited engages in the automotive retail business in New Zealand and Australia. It operates through Automotive Retail, Finance, Credit Management, and Insurance segments. The Automotive Retail segment engages in purchasing and remarketing of motor vehicles, trucks, heavy machinery, and commercial goods. The Finance segment provides assetbased finance to consumers and SME's. The Credit Management segment offers collection, credit management, and debt recovery services to the corporate and SME sectors. The Insurance segment engages in marketing and administration of a range of life and consumer insurance products, and saving products. The company was formerly known as Turners Limited and changed its name to Turners Automotive Group Limited in May 2017. Turners Automotive Group Limited was incorporated in 1984 and is based in Auckland, New Zealand.

3243 TURVO International Co., Ltd. develops and produces precision metal parts and components in Taiwan and internationally. The company's products have application in automotive engine systems, steering systems, transmission systems, safety systems, chassis systems, connectors for industrial communication applications, sensors, temperature control equipment, industrial automation, medical equipment components, and highend bicycle components, etc. TURVO International Co., Ltd. was founded in 1987 and is based in Taichung City, Taiwan.

3244 TUS ENVIROENTAL SCIENCE AND TECHNOLOGY DEVELOPMENT Co., LTD. is involved in the sewage treatment, water, solid waste treatment, and other businesses in the People's Republic of China. It also engages in renewable resource processing; municipal construction and environmental protection equipment installation and technical consulting; and

sanitation businesses. In addition, the company is involved in the provision of sanitation services; sludge treatment and disposal; environmental technology research and development; biomass power generation; provision of financing services; municipal and waste vegetable disposal; and medical waste treatment, as well as landfill business, construction and investment in thermal and production projects; environmental protection business, such as water pollution control; and zero carbon business; manufacture of environmental protection equipment; food waste treatment and investment in renewable resources; financial leasing business; and real estate development and sales, housing leasing, and property management business. Further, it engages in the design, manufacture, and sale of sanitation vehicles. The company was formerly known as TusSound Environmental Resources Co., Ltd. TUS ENVIRONMENTAL SCIENCE AND TECHNOLOGY DEVELOPMENT Co., LTD. was founded in 1993 and is based in Beijing, China.

3245 Tyro Payments Limited provides payment solutions to merchants in Australia. The company operates through Payments and Banking segments. It offers electronic funds transfer at point of sale (EFTPOS) solutions, business loans, and banking solutions. The company also acquires credit, debit, and EFTPOS cards; and offers Medicare and private health fund claiming and rebating services. In addition, it provides complementary banking solutions, including merchant cash advance, transaction account, and a term deposit account. Further, the company offers Tyro Go, a mobile payment card reader; Tyro Connect that integrates apps and services with POS system designed for cafes, restaurants, QSRs, pubs, clubs, and bars; and Medipass, a digital health payment platform that links practitioners, funders, and patients. It primarily serves health, hospitality, services, corporate, accommodation, and retail industries. The company was incorporated in 2003 and is based in Sydney, Australia.

3246 Tysan Holdings Limited, an investment holding company, engages in the foundation piling and site investigation, and property development and investment activities in the People's Republic of China. It offers foundation piling services, including bored piling, driven piling, socketed H-piling, mini piling, preboring, pile cap, basement construction, diaphragm wall, and shoring services, as well as undertakes footing, ground investigation field, site formation, demolition, landslide preventive and slope, road and drainage, and minor building works. The company also trades in and leases various tower cranes; develops and invests in various commercial and residential properties; and offers property management services consisting of tenancy management, security, concierge and value-added, fire consultancy and risk assessment, repair and maintenance, cleaning, environmental protection, hygiene and safety management, landscape management, car park management, and clubhouse management services. In addition, it offers property consultancy services; and corporate management, engineering, and machinery hiring and trading services. The company was formerly known as Hong Kong International Construction Investment Management Group Co., Limited and changed its name to Tysan Holdings Limited in August 2019. Tysan Holdings Limited was incorporated in 1991 and is headquartered in Hong Kong, Hong Kong. Tysan Holdings Limited is a subsidiary of Times Holdings II Limited.

3247 UTech Co., Ltd. manufactures and sells mobile electronic components. It also offers machinery and inspection equipment for display manufacturing. The company was founded in 2006 and is headquartered in Anyang, South Korea.

3248 UBcare. Co., Ltd. provides health care solutions in South Korea and internationally. The company offers medical IT services, such as Ysarang, an EMR system for hospital/clinic use; and U Pharm, an integrated

management control system for pharmacies, hospitals, clinics, and pharmacy environments; and Big Ysarang, an EMR system for small and medium-sized hospitals, as well as customer management and media services. It is also involved in the medical distribution business that suggests products and services, such as high-technology medical equipment/devices for hospitals, clinics, pharmacies, medical e-commerce businesses, and shop-in-shop for health functional food; and provision of customized services. In addition, the company engages in the pharmaceutical marketing business; and provision of Uhealthcare solution that offers digitalized hospital solution and healthcare service for personnel. Further, it operates digital hospital in Thailand. Its healthcare network covers 30,000 hospitals/clinics, pharmacies, 17 agencies, and 1.2 million members of healthkorea.net. The company was founded in 1992 and is based in Seoul, South Korea.

3249 UBIS (Asia) Public Company Limited, together with its subsidiaries, manufactures and distributes sealing compounds, lacquers, and coatings used in can production and bottle closure for the food, beverage, and other general industries in Thailand, China, and internationally. The company serves can manufacturers producing food cans, caps and closures, aerosol cans, and other general cans. Ubis (Asia) Public Company Limited was incorporated in 1997 and is headquartered in Bangkok, Thailand.

3250 Ubisoft Entertainment SA produces, publishes, and distributes video games for consoles, PC, smartphones, and tablets in both physical and digital formats in Europe, North America, and internationally. The company designs and develops software, including scenarios, animation, gameplay, layouts, and game rules, as well as develops design tools and game engines. It is also involved in the development in the area of online and mobile gaming; and film business. The company was incorporated in 1986 and is headquartered in Saint-Mandré, France.

3251 UBM Development AG, together with its subsidiaries, engages in the development, management, and sale of real estate properties in Germany, Austria, Poland, and other markets. The company's property portfolio comprises residential, office, hotel, and other properties. It also engages in hotel leasing business. The company was formerly known as UBM Realitätenentwicklung Aktiengesellschaft and changed its name to UBM Development AG in May 2015. UBM Development AG was founded in 1873 and is headquartered in Vienna, Austria.

3252 Ubon Bio Ethanol Public Company Limited produces and distributes processed cassava products in Thailand. It primarily produces ethanol from cassava, as well as distributes electricity. The company also provides industrial-grade ethanol for hand sanitizer spray under the UBON BIO and KLAR brands; and cassava flour and starch products under the Tasuko and Savvy brands. It is also involved in the farming of coffee and rice; and production of agricultural inputs, such as organic fertilizers and biosubstances. The company also exports flour and starch to the United States and Europe. Bio Ethanol Public Company Limited was founded in 2006 and is based in Ubon Ratchathani, Thailand.

3253 UCB SA, a biopharmaceutical company, develops products and solutions for people with neurology and immunology diseases. The company's primary products include Cimzia for inflammatory TNF-mediated diseases, as well as ankylosing spondylitis, axial spondyloarthritis, Crohn's disease, nonradiographic axial spondyloarthritis, plaque psoriasis, psoriatic arthritis, and rheumatoid arthritis; Vimpat, Keppra, and Briviact for epilepsy; Neupro for Parkinson's disease and restless legs syndrome; Nayzilam, a nasal spray rescue treatment for epilepsy seizure clusters; and Zyrtec and Xyzal for allergies. It also offers Evenity for the treatment of osteoporosis in postmenopausal women; BIMZELX for treating psoriasis, psoriatic arthritis, axial

spondyloarthritis, and hidradenitis suppurativa; and dapirolizumab pegol for systemic lupus erythematosus. In addition, the company is involved in developing rozanolixizumab to treat myasthenia gravis, immune thrombocytopenia, and chronic inflammatory demyelinating polyneuropathy; zilucoplan to treat myasthenia gravis and immunemediated necrotizing myopathy; staccato alprazolam to treat tereotypical prolonged seizure; Bepranemab to treat Alzheimerâ€™s disease; and UCB0599 to treat Parkinson's disease. Further, it engages in contract manufacturing activities. UCB SA has collaboration agreements with Amgen, Biogen, Roche/Genentech, Novartis, Otsuka, and doc.ai. It operates in the United States, Japan, Germany, rest of Europe, Spain, France, China, Italy, the United Kingdom, Ireland, Belgium, and internationally. The company was incorporated in 1925 and is headquartered in Brussels, Belgium.

3254 UFUK Yatirim Yonetim ve Gayrimenkul A.S. engages in financial leasing business. It leases machinery, equipment, land and sea transport vehicles, and other fixed assets. The company was formerly known as Fon Sinai Yatirimlar A.S. and changed its name to UFUK Yatirim Yonetim ve Gayrimenkul A.S. in May 2016. The company was founded in 1995 and is headquartered in Istanbul, Turkey. UFUK Yatirim Yonetim ve Gayrimenkul A.S. is a subsidiary of Yildiz Holding A.S.

3255 UIL Co., Ltd. manufactures and sells electronic parts to smartphone manufacturers in South Korea and internationally. The company offers key button products, including home and side keys, and keypads; metal components, such as sim trays and camera deco components; silicone components, including waterproof and general silicone materials; and heat preventing, waterproof, conductive, sponge, and general tapes. It also provides accessories, such as photo printers, battery packs, wireless chargers, covers, bands, Bluetooth speakers, touch pens, and pads; and electronic components, such as car air purifiers, metal touch products, logo lighting modules, and force and VR sensors. The company was formerly known as DK UIL Co., Ltd. and changed its name to UIL Co., Ltd. in March 2017. UIL Co., Ltd. was founded in 1982 and is headquartered in Paju, South Korea.

3256 Ulusoy Elektrik Imalat Taahhât ve Ticaret A.S. manufactures and sells medium voltage power distribution equipment in Turkey. It offers metal enclosed modular, metal clad, and gas insulated switchgears; and compact transformer substations, medium voltage distribution transformers and switchgear components, and medium voltage cable accessories, as well as production relays. The company was founded in 1985 and is headquartered in Ankara, Turkey. Ulusoy Elektrik Imalat Taahhât ve Ticaret A.S. is a subsidiary of Eaton Corporation plc

3257 UniBio Science Group Limited, an investment holding company, engages in the research and development, manufacture, and sale of biological and chemical pharmaceutical products to treat human diseases in the Peopleâ€™s Republic of China. The company provides GeneTime, a prescription biological drug for wound healing; GeneSoft, an EGF eye drop for dry eye syndrome, corneal damage, and postoperative healing; Pinup, a voriconazole tablet to treat severe fungal infections; and Bokangtai, a mitiglinide tablet for the treatment of Type 2 diabetes, as well as Boshutai, an oral antidiabetic drug targeting patients with prediabetes condition. It is also developing prescription drugs, including rExendin4 (UniE4) for Type 2 diabetes; and rhPTH 134 (UniPTH) for the treatment of osteoporosis in postmenopausal women, as well as UniGLP, a GLP1 agonist, a noninsulin treatment candidate for the treatment of Type 2 diabetes. The company was founded in 2001 and is headquartered in Sha Tin, Hong Kong.

3258 UniSelect Inc., together with its subsidiaries, distributes automotive refinish, and industrial coatings and related products in

North America. It operates through FinishMaster U.S., Canadian Automotive Group, and GSF Car Parts U.K. segments. The company also engages in the distribution of automotive aftermarket and original equipment manufacturer parts in Canada and the United Kingdom. It operates 15 distribution centers and approximately 390 corporate stores under the BUMPER TO BUMPER, AUTO PARTS PLUS, and FINISHMASTER names. UniSelect Inc. was founded in 1968 and is headquartered in Boucherville, Canada.

3259 Unieuro S.p.A. distributes consumer electronics and appliances in Italy and internationally. It offers telephone systems, computers, photos, large and small appliances, consumer electronics, and media storage products; and other products, including consoles, video games, and bicycles, as well as ancillary services, such as delivery and installation, extended warranties, and consumer financing services. The company provides its products through online, indirect, business to business, and travel distribution channels. The company was formerly known as S.G.M. Distribuzione S.r.l. and changed its name to Unieuro S.p.A. in December 2016. Unieuro S.p.A. is headquartered in Forlì, Italy.

3260 Unigroup Guoxin Microelectronics Co., Ltd. designs and develops integrated circuit (IC) chip in China. It also provides system integration solutions. The company offers intelligent secure chip for telecommunication SIM card, financial IC card, mobile payment card, USBKey, social security card, citizen card, residential health card, residence permit and trusted computing TPM, noncontact readwrite machine, etc.; memory chips; and quartz crystal components and sapphire substrate materials. The company was formerly known as Unigroup Guoxin Co., Ltd. and changed its name to Unigroup Guoxin Microelectronics Co., Ltd. in June 2018. Unigroup Guoxin Microelectronics Co., Ltd. was founded in 1990 and is based in Tangshan, China.

3261 Unilever PLC operates as a fastmoving consumer goods company. It operates through Beauty & Wellbeing, Personal Care, Home Care, Nutrition, and Ice Cream segments. The Beauty & Wellbeing segment engages in the sale of hair care products, such as shampoo, conditioner, and styling; skin care products including face, hand, and body moisturizer; and prestige beauty and health & wellbeing products, which includes the vitamins, minerals, and supplements. Personal Care segment offers skin cleansing products comprising soap and shower, deodorant and oral care products, such as toothpaste, toothbrush, and mouthwash products. Home Care segment engages in the sale of fabric care including washing powders and liquids, and rinse conditioners; and home and hygiene, fabric enhancers, water and air wellness products. Nutrition segment provides the sale of scratch cooking aids, which includes soups, bouillons, and seasonings; dressings products, such as mayonnaise and ketchup; and beverages and functional nutrition products including Horlicks and Boost, as well as tea products. Ice Cream segment offers ice cream products including inhome and outofhome ice creams. It offers its products under the AXE, Bango, Ben & Jerry's, Cif, Comfort, Domestos, Dove, Equilibra, Hellmann's, Knorr, LUX, Lifebuoy, Liquid I.V., Love Beauty & Planet, Magnum, OLLY, OMO, Onnit, Rexona, Seventh Generation, SmartPants, Sunsilk, The Vegetarian Butcher, Vaseline, and Wall's brands. The company was founded in 1860 and is headquartered in London, the United Kingdom.

3262 Unilumin Group Co., Ltd., together with its subsidiaries, designs, develops, manufactures, sells, and services LED display and lighting solutions in China and internationally. It offers various industry solutions for control room, broadcast, commercial, retail, entertainment, sports, landscape lighting, and other applications. The company also provides LED display units, and plug and play LED TVs; rental LED

displays; fixed LED display products, including LED signage solutions, outdoor SMD LED displays/products for DOOH market, and other LED display products; and surge arrestors. In addition, it offers LED outdoor lighting solutions comprising street lighting, industrial lighting, landscape lightning, tunnel lighting, and canopy lighting, as well as energy management control solutions. Further, the company produces and processes highpower lamp, and other LED products; and provides online and warranty services. Additionally, it provides creative displays for stage, architecture, TV studio, etc.; and LED displays for professional markets. The company was incorporated in 2004 and is headquartered in Shenzhen, China.

3263 Unimech Group Berhad, an investment holding company, engages in the system design, fabrication, installation, and maintenance of boilers, combustion and engineering equipment, and piping systems. It operates in Valves, Instrumentation and Fittings; Electronic; Pumps; and Other segments. It offers various valves, strainers, steel flanges, and related products; and designs, fabricates, and deals in industrial electronic automation control systems. The company also provides chemical pumps, rubber flexible joint and mold products, pressure gauges, thermometers, and metal stamped parts and die casting products. In addition, it fabricates and installs automation instruments/systems and control panels; and supplies and installs insulation materials, valves, and other engineering components. Further, It trades in and supplies sanitary and kitchen products; instruments and control equipment; valves, piping systems, and engineering equipment; burners; level switches and gauges, and related products; electronic components; and automotive machines and spare parts. Additionally, it engages in the design, fabrication, installation, restoration, commissioning, and trading of pipelines and equipment, engineering hardware, and components for water, oil and gas industries; development and marketing of automation solutions and precision machinery; and installation, testing, commissioning, and trading of marine and sanitary equipment, and other engineering components, as well as provides management and accounting services; and spraying, coating, powder coating, wet spraying, silk screening services in metal, plastic, chemicals, minerals, substance, and products. It operates in Malaysia, Australia, Indonesia, Singapore, China, Thailand, the United States, and internationally. The company serves the oil and gas, water, food, beverage, pharmaceutical, steam, petrochemical, and fire protection industries. Unimech Group Berhad was incorporated in 1996 and is based in Butterworth, Malaysia.

3264 Uni³n de Cervecer³as Peruanas Backus y Johnston S.A.A. produces and distributes beers and mineral water. It provides its products under the Crystal, Pilsen Callao, Cusque³ta, Black Cusco, Red Cusco, Golden, Pilsen Trujillo, Arequipe³ta, San Juan, Saint Matthew, Guarana Backus, Maltin Power, Viva Backus, and Tonic Water Backus, as well as Beck³â€™s, Budweiser, Crown, Michelob Ultra, Mike³â€™s, and Stella Artois brands. The company was founded in 1876 and is based in Lima, Peru. Uni³n de Cervecer³as Peruanas Backus y Johnston S.A.A. operates as a subsidiary of ABI SAB Group Holding Limited.

3265 Uni³n El Golf S.A. operates business center in Santiago, Chile. The company offers meeting room, wedding, gourmet restaurant, buffet/selfservice restaurant, bar and cafeteria, and spa and gym services and facilities, as well as threetrack heated pool, jacuzzi, sauna, and steam bath services. It also provides barber shop, yoga and pilates, and fitness facilities. The company was formerly known as Uni³n Sede Oriente S.A. and changed its name to Uni³n El Golf S.A. in May 2004. Uni³n El Golf S.A. was founded in 1996 and is based in Las Condes, Chile.

3266 Union Materials Corp. manufactures and sells magnetic and ceramic materials worldwide. The company offers fine ceramics products, such as alumina, silicon nitride, zirconia, and silicon carbide materials; and ceramic, cermet, and PCBN/PCD cutting tools, as well as tool holders, milling cutters, endmills and drills, and hydraulic expansion chucks. It also provides ferrite magnets, such as ARC type for D/C motor applications and rectangular (block) type for industrial applications; and industrial ceramics, such as faucet discs, ferrule for fiber optics, metalized parts, bioceramics, and others for the automobile, electrical and electronic engineering, and machinery industries. The company was formerly known as Ssangyong Materials Corp. and changed its name to Union Materials Corp. in September 2017. Union Materials Corp. was founded in 2000 and is headquartered in Daegu, South Korea.

3267 Unique Mining Services Public Company Limited, together with its subsidiaries, engages in the distribution of coal in Thailand. The company also engages in the provision of port and barge transportation services; and generation and distribution of electricity. It serves medium and small sized industries, such as food and beverage, pulp and paper, textile, and cement industries. The company was founded in 1994 and is headquartered in Bangkok, Thailand. Unique Mining Services Public Company Limited is a subsidiary of Athene Holding Co., Ltd.

3268 Unisem (M) Berhad manufactures, markets, and sells semiconductor devices. It offers an integrated suite of assembly, packaging, and test services, which include wafer bumping, wafer probing, and wafer grinding; wafer level chipscale packaging services; a range of leadframe and substrate integrated circuit packages; and radio frequency, analog, digital, and mixedsignal testing services. The company also provides test related services, such as reliability testing, thermal and electrical characterization, dry pack, and tape and reel; and semiconductor assembly and test services to electronics companies. In addition, it provides turnkey services comprising design, assembly, test, failure analysis, warehousing, and dropship services. Further, the company offers marketing and other support services. It serves fabless companies and integrated device manufacturers primarily in the United States, Europe, and Asia. The company was incorporated in 1989 and is headquartered in Kuala Lumpur, Malaysia. Unisem (M) Berhad operates as a subsidiary of Huatian Technology (Malaysia) Sdn. Bhd.

3269 Unison Co., Ltd. engages in the manufacture, sale, and installation of wind power generation systems and towers in South Korea and internationally. The company offers 750kW, 2MW, and 4MW wind turbines that convert energy into electricity using kinetic energy. It is also involved in the construction, operation, and maintenance of wind power generation complexes. The company was founded in 1984 and is headquartered in Sacheonsi, South Korea.

3270 United Co. for Housing & Development S.A.E. operates as a real estate developer in Egypt. The company buys, sells, and divides land, as well as prepares and supplies land with utilities and services. The company was founded in 1907 and is based in Alexandria, Egypt.

3271 United Company RUSAL, International Public JointStock Company produces and sells aluminum and related products. It operates through four segments: Aluminium, Alumina, Energy, and Mining and Metals. The company is involved in the mining and refining of bauxite and nepheline ore into alumina; the smelting of primary aluminum from alumina; and the fabrication of aluminum and aluminum alloys into semifabricated and finished products. Its products include primary aluminum, billets, rolling slabs, primary foundry alloys, wire rods, highpurity aluminum, foil and packaging products, aluminum wheels and powders, alumina and bauxite products, corundum products, and gallium and silicon products, as

well as aluminum anodes for cathodic protection. The company is also involved in the mining and sale of coal; generation and transmission of electricity produced from various sources; and trading businesses. In addition, it offers repair and maintenance, and finance services. The company sells its products primarily in Europe, Russia, other countries of the Commonwealth of Independent States, Asia, and North and South America. The company was founded in 2000 and is based in Kaliningrad, Russia. United Company RUSAL, International Public Joint Stock Company is a subsidiary of En+ GROUP International public joint stock company.

3272 United Energy Group Limited, an investment holding company, engages in the investment and operation of upstream oil, natural gas, and other energy related businesses in South Asia, the Middle East, and North Africa. The company explores for and produces crude oil and natural gas. United Energy Group Limited is headquartered in Admiralty, Hong Kong.

3273 United Internet AG, through its subsidiaries, operates as an Internet service provider. The company operates through Consumer Access, Business Access, Consumer Applications, and Business Applications segments. It offers landline based broadband and mobile internet products, including home networks, online storage, telephony, and IPTV for private users; and telecommunication products ranging from fiberoptic direct connections to tailored ICT solutions, which include voice, data, and network solutions, as well as infrastructure services to national and international carriers and ISPs. The company also provides ad financed and fee based application products for consumer and business customers, including domains, websites, web hosting, servers, cloud solutions, and e shops; personal information management applications, such as email, todo lists, appointments, and addresses; and group works, online storage, and office software. It offers its access products through the yourfone, smartmobile.de, 1&1, and 1&1 versatel brands; and applications through GMX, mail.com, WEB.DE, home.pl, Arsys, STRATO, IONOS, Fasthosts, InterNetX, uniteddomains, and World4You brand names. In addition, the company offers customers professional services in the fields of active domain management under the Sedo brand; and online advertising services under the United Internet Media brand name. It has operations in Germany, the United States, the United Kingdom, Spain, France, Poland, Italy, Austria, Hungary, Romania, Bulgaria, the Czech Republic, Slovakia, the Netherlands, Switzerland, Canada, and Mexico. The company was founded in 1988 and is headquartered in Montabaur, Germany.

3274 United Overseas Australia Limited, together with its subsidiaries, engages in the development and resale of land and buildings in Australia, Malaysia, and Vietnam. The company operates through three segments: Investment, Land development and Resale, and Others. The Investment segment is involved in the holding of various investment properties. The Land Development and Resale segment engages in the development, construction, and sale of residential and commercial properties. The Others segment engages in the operation of hotels, and food and beverage outlets; and provision of facilities support, money lending, and management services, as well as car park operations. United Overseas Australia Limited was incorporated in 1987 and is headquartered in Kuala Lumpur, Malaysia.

3275 Uniti, an internally managed real estate investment trust, is engaged in the acquisition and construction of mission critical communications infrastructure, and is a leading provider of wireless infrastructure solutions for the communications industry. As of September 30, 2020, Uniti owns 6.7 million fiber strand miles and other communications real estate throughout the United States.

3276 UniTEC Co., Ltd provides integrated solutions in the areas of rail transit, and energy saving and environmental protection in China. The

company offers signaling systems, including CBTC, DTO/UTO, tram, monorail/sky rail, and suburban railway signaling system solutions for urban rail transit; and computerbased interlocking and intercity high speed train automatic operation systems for mail line railways, as well as intelligent control and dispatching optimization systems for heavy haul trains. It also provides automatic fare collection systems (AFC) and AFC system equipment; and rail transit intellectualization systems, such as CRH carriage video monitoring systems, train bogie monitoring systems, axial temperature sensors, and online monitoring and early warning systems. In addition, the company offers heavy metal pollution prevention, control, and treatment; dyeing wastewater treatment; advanced treatment; zero liquid discharge and reuse; petrochemical field; and comprehensive treatment of regional environmental systems for water treatment. Further, it provides smart lighting solutions; and manufactures semiconductor materials comprising monocrystalline silicon material. The company was formerly known as United Science and Technology Co., Ltd. and changed its name to UniTTEC Co., Ltd in March 2017. UniTTEC Co., Ltd was founded in 1999 and is based in Hangzhou, China.

3277 Universal Entertainment Corporation, together with its subsidiaries, manufactures, develops, and sells pachislot and pachinko machines in Japan, Philippines, and internationally. The company operates in two segments, Amusement Equipment Business, and Integrated Resort Business. The company also develops and provides Falcon X, a peripheral system; Hot Stadium, a digital signage system; Universal Kingdom, a membership website for Android; and Slots Street, a social casino game; as well as operates OKADA MANILA, a casino resort in the Philippines. 3279 USANA Health Sciences, Inc. develops, manufactures, and sells sciencebased nutritional, personal care, and skincare products. The company offers USANA nutritional products that comprise essentials/CellSentials, such as vitamin and mineral supplements that provide a foundation of total body nutrition for various age groups; optimizers comprising targeted supplements that are designed to meet cardiovascular, skeletal/structural, and digestive health needs; and foods that include meal replacement shakes, snack bars, and other related products. It also provides Celavive, a skin care regimen for various skin care types and ethnicities; and other products for prenatal, infant, and young child age groups. In addition, the company offers materials and online tools to assist associates in building their businesses, as well as in marketing products. It offers its products directly in the Asia

Pacific, the Americas, and Europe, as well as online. The company has a research collaboration agreement with Beijing University of Chinese Medicine; and National Sports Training Bureau. USANA Health Sciences, Inc. was founded in 1992 and is headquartered in Salt Lake City, Utah.

3280 Usinas Sider rgicas de Minas Gerais S.A. manufactures and markets flat steel products in Brazil and internationally. The company operates through three segments: Mining and Logistics, Steel Metallurgy, and Steel Transformation. It extracts and process iron ore, such as pellet and sinter feed and, granulated iron ore; provides storage, handling, and road cargo transportation services; and operates highway and railway cargo terminals. It also manufactures and sells steel products; manufactures and installs equipment for various industries; and transforms coldrolled coils into hotdip galvanized coils. In addition, the company provides technology transfer services for steel industry; project management and services for civil construction and capital goods industry; road transportation of flat steel; and texturing and chrome plating of cylinders. It serves automotive, construction, distribution, energy, white line, oil and gas, and machines and equipment markets. Usinas Sider rgicas de Minas Gerais S.A. was founded in 1956 and is headquartered in Belo Horizonte, Brazil.

3281 UTStarcom Holdings Corp. operates as a telecom infrastructure provider to develop technology for bandwidth from cloudbased services, mobile, streaming, and other applications in China, India, Japan, Taiwan, and internationally. The company s products include packet transport network, packet aggregation network, multiservices access network, fiber to the X, carrier WiFi solutions, and software defined network controller products. It serves telecommunications and cable service providers. The company was founded in 1991 and is based in Hangzhou, the People s Republic of China.

3282 V V Food & Beverage Co.,Ltd engages in the research and development, production, and sale of food and beverage products in China and internationally. Its products include soybean milk powder, vegetable protein beverage, dairy products, tea, and other products. The company also purchase, processes, stores, trades in grain products. The company offers its products under the VV, VV Liuchapine, Tianshan Snow, and Yiqingyuan brands. V V Food & Beverage Co.,Ltd was founded in 1992 and is based in Xuzhou, China.

3283 VOne Tech Co., Ltd. develops, manufactures, and sells a range of inspection equipment. It offers AKKON AOI systems, COG/FOG and tab bonding aligent systems, 3D POL FPR aligent and inspection systems, after POL AOI systems, before and after cleaner AOI systems, AKKON AOI M/C systems, and OLED fine metal mask systems, as well as rechargeable battery inspection systems, fine dust measurement equipment, and machine PC control systems. The company was founded in 2006 and is based in Seongnam, South Korea.

3284 vaQtec AG develops, produces, and markets vacuum insulation panels and phase change materials in Germany, rest of European Union, and internationally. It also manufactures and distributes thermal packaging solutions and thermal energy storage components. The company supplies temperature controlled supply chain systems for healthcare and logistics companies; insulation of refrigeration/freezing equipment and food containers to appliance and food companies; insulating water boilers, pipelines, laboratory equipment, and ultralow temperature refrigeration units for technics and industry; building insulation solutions for facades, roofs, and floors; and insulation in refrigeration trucks, cars, trains, and aircraft. It also offers container rental and thermal consulting services. vaQtec AG was founded in 2001 and is headquartered in W rzburg, Germany.

3285 Valamar Riviera d.d., together with its subsidiaries, operates as a tourism company in the Republic of Croatia and internationally. The company operates through three segments: Hotels and Apartments, Camps, and Other Business. It engages in the provision of accommodation services in hotels, resorts, and campsites; and food preparation and catering services, as well as the preparation and serving of beverages. The company operates 37 hotels and resorts, as well as 15 camping resorts for accommodating approximately 58,000 guests. It also involved in the provision of laundry services; and rental of properties. The company offers its services under the Valamar Collection, Valamar Hotels & Resorts, Sunny by Valamar, [PLACES] by Valamar, and Camping Adriatic by Valamar brand names. Valamar Riviera d.d. was formerly known as Riviera Porec d.d. The company was founded in 1910 and is headquartered in Porec, the Republic of Croatia.

3286 Vallibel Power Erathna PLC, through its subsidiary, engages in the generation and supply of hydroelectric energy to the Ceylon Electricity Board in Sri Lanka. It manages and operates three mini hydropower plants, including Erathna project in Kuruwita; Denawaka Ganga project in Rathnapura; and Kiriwaneliya project in Norton Bridge with a generation capacity of 21.85 megawatts. The company was formerly known as Power Company Erathna Limited and changed its name to Vallibel Power Erathna PLC in June 2005. Vallibel Power Erathna PLC was incorporated in 2001 and is headquartered in Colombo, Sri Lanka.

3287 Vallourec S.A., through its subsidiaries, provides tubular solutions for the oil and gas, industry, and energy markets in Europe, North America, South America, Asia, and internationally. It operates through Seamless Tubes and Specialty Products segments. The company offers seamless tubes for refineries, petrochemical facilities, and floating liquefied natural gas plants, as well as production, storage, and offloading units; casings; tubings; VAM connections; rigid subsea line pipes, onshore rigid line pipes, and specialized tubes for transportation of oil and gas; and carbon steel and steel alloy tubes, hollow bars, and connections for the processing of industrial fluids, and oil and gas. Its oil and gas market services include assistance in lowering tubes, inspecting connections, and supervising assembly; repair services for its products and thread tubes inventory management, advisory, and training services; tube inspection, maintenance, and repair services; onsite services; preparation for drilling operations; well coordination and supply services based on the drilling programs; integrated solutions for the subsea line pipe market comprising welding, coating, insulation, logistics, and service agreements; tube coating and welding services. The company's power generation market products and services comprise seamless tubes for steam generators. Its industrial market products and services include tubes and hollow bars, as well as circular, square, rectangular, and octagonal sections; tubular solutions for infrastructure construction; tubes and rings to manufacture cranes, construction machinery, agricultural machinery, and hydraulic cylinders; and tubes and axles for automotive manufacturers. The company is also involved in the iron ore production business; and various projects concerning renewable energies. Vallourec S.A. was founded in 1899 and is headquartered in Boulogne-Billancourt, France.

3288 Valora Holding AG operates as a retailer in the convenience and food service sector in Europe. It operates through Retail and Food Service segments. The Retail segment operates small retail outlets in Switzerland, Germany, Luxembourg, and Austria. This segment also operates marketing and distribution systems for press, tobacco, and consumer products under the kiosk, avec, Press & Books, ServiceStore DB, cigo formats, and Ustore brands. lye bread, such as pretzels, baguettes, croissants, hot dogs, and sandwich snacks; and other bakery products under the BackWerk, Ditsch, BrezelkÄnig, and SuperGuud brand names. This segment also operates CaffÄ Spettacolo, a coffeebar chain. The company was formerly known as Merkur Holding AG and changed its name to Valora Holding AG in July 1996. Valora Holding AG was founded in 1905 and is headquartered in MuttENZ, Switzerland. As of September 30, 2022, Valora Holding AG operates as a subsidiary of Impulsora de Marcas e Intangibles S.A. de C.V. As of October 7, 2022, Valora Holding AG operates as a subsidiary of Impulsora de Marcas e Intangibles S.A. de C.V.

3289 ValparaÄso Sporting Club S.A., together with its subsidiaries, engages in the horse racing activities in Chile. It offers its facilities for concerts shows, and business and social events. The company also provides living rooms and outdoor spaces. ValparaÄso Sporting Club S.A. was founded in 1882 and is based in ViÄta del Mar, Chile.

3290 Valvoline Inc. provides automotive services through retail stores in the United States and Canada. It offers cabin air filter, battery replacement, and tire rotation services for various vehicles. As of September 30, 2022, it operated 1,700 systemwide service center stores. The company was founded in 1866 and is headquartered in Lexington, Kentucky.

3291 Vanguard International Semiconductor Corporation, together with its subsidiaries, engages in manufacturing, selling, packaging, testing, and computeraided design of integrated circuits and other semiconductor devices in Taiwan and internationally. The company offers a range of foundry process technologies, including high voltage, ultrahigh voltage, bipolar CMOS DMOS (BCD), silicon on insulator (SOI), discrete, mixedsignal, analog, and embedded flash technologies, as well as manufactures and sells masks. Its services include multiple project wafer services; mask services comprising frame generation, mask making, and mask repairing; backend services, including frontside metallization, backside grinding and metallization, chip probe, gallium nitride compound semiconductor material, WLCSP and RDL, and backend solutions; and automotive services, as well as provides intelligent manufacturing and management services. The company was incorporated in 1994 and is headquartered in Hsinchu, Taiwan.

3292 Vantone Neo Development Group Co., Ltd. engages in the development and sale of real estate properties. Its property portfolio comprises residential buildings, office buildings, hotel apartments, and shops. The company also provides real estate brokerage; real estate information consulting; project investment; investment management; asset management; technology promotion; general construction contracting; professional contracting; and sports project management services. In addition, it engages in the sales culture supplies; building materials; computer software; hardware and peripheral equipment; design, production, agency, and advertising; and undertaking exhibition activities. The company was founded in 1998 and is headquartered in Beijing, China.

3293 Varex Imaging Corporation designs, manufactures, and sells Xray imaging components. The company operates through two segments, Medical and Industrial. The Medical segment designs, manufactures, sells, and services Xray imaging components comprising Xray tubes, digital detectors, high voltage connectors, imageprocessing software and workstations, 3D reconstruction and computeraided diagnostic software, collimators, automatic exposure control devices, generators, heat exchangers, ionization chambers, and buckys. This segment's products are used in a range of applications, including radiographic and fluoroscopic imaging, mammography, computed tomography, oncology, CT, cardiac, surgery, dental, computeraided detection, and other diagnostic

radiography uses. The Industrial segment designs, manufactures, sells, and services Linatron X-ray accelerators, X-ray tubes, digital detectors, and high voltage connectors for use in security and inspection applications, such as airport security, cargo screening at ports and borders, and nondestructive testing and examination in various applications. The company sells its products through imaging system original equipment manufacturers, independent service companies, and distributors, as well as directly to endusers. It has operations in North America, South America, Europe, Russia, the Middle East, India, Africa, Asia, and Australia. Varex Imaging Corporation was incorporated in 2016 and is headquartered in Salt Lake City, Utah.

3294 Vassiliko Cement Works Public Company Ltd produces and sells clinker and cement in Cyprus and internationally. It also provides port services, as well as operates a photovoltaic park. The company was founded in 1963 and is based in Nicosia, Cyprus.

3295 Vcanbio Cell & Gene Engineering Corp., Ltd, together with its subsidiaries, primarily engages in the preparation and storage of cell tests in the People's Republic of China. The company provides cell test preparation and storage services for umbilical cord blood hematopoietic stem cells, umbilical cord mesenchymal stem cells, placental sub totipotent stem cells, immune cells, adipose stem cells, and dental stem cells. It also provides genetic testing services related to noninvasive prenatal genetic testing during pregnancy, safe medication guide gene testing for children and adults, disease genetic testing, disease susceptibility gene testing, etc.; and in vitro diagnostic raw materials, such as monoclonal antibodies and polyclonal antibody products. In addition, the company is involved in the research, development, production, and sales of biological genes, proteins, antibodies, pharmaceutical intermediates, and experimental synthetic agents; and in vitro diagnostic reagents and medical devices. Vcanbio Cell & Gene Engineering Corp., Ltd was founded in 1992 and is based in Tianjin, the People's Republic of China.

3296 Vector Limited, together with its subsidiaries, engages in electricity and gas distribution, natural gas and LPG sale, gas processing, metering, and telecommunication and new energy solutions businesses in New Zealand. The company operates through Regulated Networks, Gas Trading, and Metering segments. It distributes electricity to residential and commercial customers in Auckland, from Wellsford to Papakura through its network consisting of approximately 18,000 kilometers of overhead lines and underground cables; bulk LPG to commercial customers; and bottled LPG to commercial and residential customers, as well as processes, trades, and sells natural gas. The company also provides Vector solar systems; electricity and gas metering, and data services to approximately 2,000,000 homes and businesses; and designs, builds, and supports fiber network solutions that connect approximately 800 buildings in Auckland. In addition, it offers electric vehicle charging station app; bulk LPG storage, distribution, and management services; trustee and technology services; and ventilation, heating, and water systems and related assembly services. The company is headquartered in Auckland, New Zealand. Vector Limited is a subsidiary of Entrust.

3297 VEON Ltd., through its subsidiaries, provides mobile and fixedline telecommunications services. It offers voice, data, and other telecommunication services through a range of wireless, fixed, and broadband internet services. The company provides value-added services, including short messages, multimedia messages, caller number identification, call waiting, data transmission, mobile internet, downloadable content, mobile finance, machine-to-machine, and other

services; national and international roaming services; wireless internet access; and mobile bundles and call completion services. It also offers value-added services for corporations, operators, and consumers, as well as sells equipment and accessories. The company provides its services under the Beeline, Kyivstar, Jazz, Djezzy, and banglalink brands in Russia, Pakistan, Algeria, Uzbekistan, Ukraine, Bangladesh, Kazakhstan, Kyrgyzstan, and Georgia. It serves approximately 220 million customers. The company was formerly known as VimpelCom Ltd. and changed its name to VEON Ltd. in March 2017. VEON Ltd. was founded in 1992 and is headquartered in Amsterdam, the Netherlands.

3298 Verallia Soci t  Anonyme produces and sells glass packaging products for beverages and food industry worldwide. It also provides bottles for still and sparkling wines, spirits, beers, soft drinks, and oils. The company offers jars for baby food, dairy products, jams, honey, spreads, condiments, sauces, and preserves. Verallia Soci t  Anonyme was founded in 1827 and is based in Courbevoie, France.

3299 VERBUND AG, together with its subsidiaries, generates, trades, and sells electricity to energy exchanges, traders, electric utilities and industrial companies, and households and commercial customers in Austria and internationally. It operates through Hydro, New Renewables, Sales, Grid, and All Other segments. As of December 31, 2021, the company operated hydropower plants with a capacity of 8,307 megawatts (MW); wind farms with a capacity of 418 MW; solar farms with a capacity of 3 MW; and thermal power plants with an electrical capacity of 1,013 MW. It also operates electricity transmission network in Austria, as well as long-distance gas pipeline and gas distribution network; trades and sells gas; and provides energy-related services. The company was formerly known as  sterreichische Elektrizit tswirtschafts Aktiengesellschaft and changed its name to VERBUND AG in 2010. VERBUND AG was founded in 1947 and is headquartered in Vienna, Austria.

3300 Verizon Communications Inc., through its subsidiaries, provides communications, technology, information, and entertainment products and services to consumers, businesses, and governmental entities worldwide. It operates in two segments, Verizon Consumer Group (Consumer) and Verizon Business Group (Business). The Consumer segment provides wireless services across the wireless networks in the United States under the Verizon and TracFone brands and through wholesale and other arrangements; and fixed wireless access (FWA) broadband through its wireless networks. It also offers wireline services in the Mid-Atlantic and Northeastern United States, as well as Washington D.C. through its fiber-optic network, Verizon Fios product portfolio, and a copper-based network. The Business segment provides wireless and wireline communications services and products, including data, video, conferencing, corporate networking, security and managed network, local and long-distance voice, network access, and various IoT services and products, as well as FWA broadband through its wireless networks. The company was formerly known as Bell Atlantic Corporation and changed its name to Verizon Communications Inc. in June 2000. Verizon Communications Inc. was incorporated in 1983 and is headquartered in New York, New York.

3301 Versatile Creative Berhad, an investment holding company, manufactures and trades in paper and cardboard packaging products in Malaysia and internationally. It operates Paper Products, Plastic Products, Colour Separation and Printing, and Others segments. The Paper Products segment offers paper board packaging products, such as offset-printed boxes and offset-laminated cartons. The Plastic Products segment manufactures and sells food-grade plastic packaging products, such as combo lids, dairy scoops, chilled food tubs and lids, and noodle cups. The Colour Separation and Printing segment provides color separation and

lithography services, as well as printed materials. The Others segment offers outdoor advertising media services. In addition, the company offers diecut boxes, nestings, and pallets; and services ranging from printing, scanning, and inkjet proofing to desktop publishing, synology backup, and media digital transmission. Further, it operates grocery stores, supermarkets, and hypermarkets; wholesales, retails, online retails, imports, exports, buys, sells, deals in, distributes, and processes food products; and provides packaging services for various consumer products, goods, merchandises, produce products, foodstuffs, things, and commodities. Versatile Creative Berhad is based in Kuala Lumpur, Malaysia.

3302 Veru Inc., a biopharmaceutical company, focuses on developing medicines for the management of COVID19, and breast and prostate cancers. Its commercial products comprise FC2 female condom/internal condom for the protection against unintended pregnancy and the transmission of sexually transmitted infections; and Entadfi, a capsule for the treatment of urinary tract symptoms. The company's drug candidates under development include Enobosarm, an oral selective androgen receptor agonist that is in phase III clinical trial for the treatment of AR+ ER+ HER2 metastatic breast cancer; Sabizabulin, which is phase 2b clinical trial for the treatment of AR+ ER+ HER2 metastatic breast cancer; and Enobosarm + abemaciclib combination therapy, which is in phase III clinical trial for the treatment of AR+ ER+ HER2 metastatic breast cancer. In addition, its drug candidate also comprise Sabizabulin, which is in Phase 3 clinical trial for the treatment of metastatic castration and androgen receptor targeting agent resistant prostate cancer; VERU100, a GnRH antagonist peptide injection, which is in Phase II clinical trial for the treatment of advanced hormone sensitive prostate cancer; Zuclomiphene Citrate, which is in Phase 2b clinical trial for treating hot flashes; and Sabizabulin, an oral microtubule disruptor with dual antiviral and antiinflammatory to severe COVID19 patients at risk for acute respiratory distress syndrome. The company was formerly known as The Female Health Company and changed its name to Veru Inc. in July 2017. Veru Inc. was incorporated in 1971 and is headquartered in Miami, Florida.

3303 Vessel Co., Ltd. operates in the FPD industry in South Korea and internationally. It provides LCD and OLED inline systems, edge grinders, ovens, and OGS grinders; and develops doubleseater light aircraft. The company was founded in 2004 and is based in Suwon, South Korea.

3304 Viatris Inc. operates as a healthcare company worldwide. The company operates in four segments: Developed Markets, Greater China, JANZ, and Emerging Markets. It offers prescription brand drugs, generic drugs, complex generic drugs, biosimilars, and active pharmaceutical ingredients (APIs). The company offers drugs in various therapeutic areas, including noncommunicable and infectious diseases; biosimilars in the areas of oncology, immunology, endocrinology, ophthalmology, and dermatology; and APIs for antibacterial, central nervous system agents, antihistamines/antiasthmatics, cardiovascular, antivirals, antidiabetics, antifungals, and proton pump inhibitor areas, as well as support services, such as diagnostic clinics, educational seminars, and digital tools to help patients better manage their health. It provides its medicines in the form of oral solid doses, injectables, complex dosage forms, and APIs to retail and pharmacy establishments, wholesalers and distributors, payers, insurers and goverents, and institutions. The company distributes its products through pharmaceutical wholesalers/distributors, pharmaceutical retailers, institutional pharmacies, mailorder and ecommerce pharmacies, and specialty pharmacies. It sells its products under the Lyrica, Lipitor, Creon, Influvac, Wixela

Inhub, EpiPen autoinjector, Fraxiparine, and Yupelri; Norvasc and Viagra; AMITIZA, Lipacreon, and Effexor; and Celebrex and ARV names, as well as glargine and SEMGLEE names. The company has collaboration and licensing agreements with Revance Therapeutics, Inc.; Momenta Pharmaceuticals, Inc.; Theravance Biopharma, Inc.; and Fujifilm Kyowa Kirin Biologics Co. Ltd. Viatris Inc. was founded in 1961 and is headquartered in Canonsburg, Pennsylvania.

3305 Vibhavadi Medical Center Public Company Limited operates a hospital under the Vibhavadi Hospital name in Thailand. It operates through two segments, Hospital and Others. The company provides medical services; and rental services and space rental. In addition, it operates an anti aging center. Vibhavadi Medical Center Public Company Limited was founded in 1986 and is based in Bangkok, Thailand.

3306 Victoria Gold Corp. acquires, explores, and operates mineral properties in Canada and the United States. The company primarily explores for gold deposits. Its flagship property is 100% owned Dublin Gulch property, which hosts the Eagle and OliveShamrock Gold deposit covering an area of approximately 555 square kilometers located in central Yukon, Canada. The company was formerly known as Victoria Resource Corporation and changed its name to Victoria Gold Corp. in July 2008. Victoria Gold Corp. was incorporated in 1981 and is headquartered in Toronto, Canada.

3307 Vidrala, S.A., a consumer packaging company, manufactures and sells glass containers for food and beverage products in Spain, the United Kingdom, Ireland, France, Italy, Portugal, and internationally. The company provides glass oil bottles and vinegar bottles, beer bottles, preserve food jars, cider bottles and sparkling wine bottles, spirit bottles, wine glass bottles, and juice bottles, as well as bottles for nonalcoholic beverages. It also offers packaging services, such as logistic solutions and beverage filling. The company was incorporated in 1965 and is headquartered in Llaudio/Llodio, Spain.

3308 Vidullanka PLC produces and transmits electrical energy in Sri Lanka and Uganda. It operates through five segments: Power Generation (Local), Power Generation (Overseas), Dendro & Plantation, Solar Power and Engineering, and Consultation & Project Management. The company generates electricity through hydro, wind, solar, biomass, and other renewable sources. It operates 19 projects with a total installed capacity of 39MW. The company also engages in agribusiness including supply of fuel wood; and provision of engineering, procurement, and construction services to renewable energy plants and related structures. Vidullanka PLC was incorporated in 1997 and is headquartered in Colombo, Sri Lanka.

3309 Vietnam Dairy Products Joint Stock Company provides milk and dairy products in Vietnam and internationally. It processes, manufactures, and distributes milk cake, soya milk, fresh milk, refreshment drinks, bottled milk, powdered milk, nutritious powder, and other milk products. The company also offers liquid milk, yogurt, condensed milk, icecream, and sugar, as well as fruit juices and beverages. In addition, it is involved in the trading of food technology, spare parts, equipment, materials, and chemicals; trading of real estate properties; owning or leasing land use rights; trading of warehouses and yards; provision of internal transportation by cars for manufacturing and consuming company's products; manufacture, sale, and distribution of beverages, grocery and processing foods, and roastedgroundfiltered and instant coffee; and manufacture and sale of plastic packaging products. Further, the company engages in the provision of healthcare clinic services; cattle raising and cultivation activities; manufacture and trading of products from tea and wine; and manufacture, breed, process, and trading of cattle and

poultry products, as well as premix products for livestock. Additionally, it is involved in retailing sugar, milk and milk products, bread, jam, candy and products processed from cereal, flour, starch, and other food; and alcoholic drinks, carbonated and noncarbonated soft drinks, natural mineral water, and lowalcoholic or nonalcoholic wine and beer. The company was formerly known as Vietnam Milk Company and changed its name to Vietnam Dairy Products Joint Stock Company in November 2003. Vietnam Dairy Products Joint Stock Company was founded in 1976 and is headquartered in Ho Chi Minh City, Vietnam.

3310 Vieworks Co., Ltd. develops, manufactures, and sells imaging systems and solutions. The company offers Xray detectors and image processing technologies for general radiography system, dental and surgical Carm systems, radiography and fluoroscopy system, veterinary radiography system, industrial inspection instrument, and other applications. It also provides industrial cameras; and bio imaging systems comprising in vivo imaging systems under the VISQUE brand. The company was formerly known as Raysis Co., Ltd. and changed its name to Vieworks Co., Ltd. in November 2006. Vieworks Co., Ltd. was founded in 1999 and is headquartered in Anyangsi, South Korea.

3311 Viglacera Corporation, together with its subsidiaries, manufactures and sells building materials in Vietnam. It offers sanitary wares comprising electronic bidets, water closets, lavabos, urinals and bidets, mirrors and accessories, wash basin faucets, kitchen faucets, showers, shower columns, and other products; and granite and ceramic tiles, such as wall, floor, border, and roof tiles. The company also provides Cotto tiles; building glass and energy saving glass products; and nonfired materials. In addition, it develops, sells, and leases housing projects, industrial parks, urban areas, trade centers, and offices; and engages in trading and training activities. Viglacera Corporation was founded in 1974 and is based in Hanoi, Vietnam.

3312 Viking Tech Corporation designs, manufactures, and markets electronic components in Taiwan and internationally. The company offers resistors, inductors, capacitors, and supercapacitors. Its products are used in medical, automotive, industrial, communication, energy, power management, SMD inductor, and chip resistor and capacitor applications. The company was incorporated in 1997 and is headquartered in Hsinchu, Taiwan.

3313 Viña San Pedro Tarapacá S.A. produces and exports wines in Chile and internationally. It markets its products under the Cabo de Hornos, Kankana del Elqui, Tierras Moradas, Sideral, Altair, 1865 Single Vineyard, 1865 Master Blend, 1865 Old Vines, 1865 Pisco Barrel, 1865 Desert Valley, 1865 Tayu, Castillo de Molina, Castillo de Molina Tributo, 9 Lives, Epica, and GatoNegro brand names. The company was founded in 1865 and is based in Santiago, Chile. Viña San Pedro Tarapacá S.A. operates as a subsidiary of CCU Inversiones S.A.

3314 VINCI SA, together with its subsidiaries, engages in the operation of concessions, energy, and construction businesses worldwide. The company operates through Concessions, Energy, and Construction segments. The Concessions segment designs, finances, builds, and operates transport infrastructure and public amenities under publicprivate partnership agreements. The segment operates 4,443 kilometers of motorway concession network; 53 airports; and more than 4,000 kilometers of motorways, highways, bridges, Tunnels, urban roads, railways, and stadiums. The Energy segment provides services to the manufacturing, infrastructure, facilities management, and information and communication technology sectors; engineering, procurement, and construction services in the energy sector, and manufacturing and energyrelated services; and renewable energy concession projects development services. The

Construction segments engages in designing and carrying out projects that involve general contractor capabilities; works related to geotechnical and structural engineering, digital technology, nuclear or renewable thermal energy; and focuses on business area, such as buildings, civil engineering, roadworks, rail works, and water works. It also provides property development services for residential and commercial properties, and residences and property management services. The company was founded in 1899 and is headquartered in Nanterre, France.

3315 Vinda International Holdings Limited, an investment holding company, manufactures and sells household paper and personal care products in Mainland China, Hong Kong, Malaysia, Japan, Taiwan, and internationally. It offers tissues under the Tempo, Vinda, and TORK brand names; incontinence products under the TENA and Dr.P brand names; feminine care products under the Libresse brand; and baby care products under Libero and Drypers brand names. 3355 Wärtsilä Oyj Abp offers technologies and lifecycle solutions for the marine and energy markets worldwide. It offers marine power products, such as engines, propulsion systems, hybrid technology, and integrated powertrain systems; marine systems comprising products and lifecycle services related to the gas value chain, exhaust treatment, shaft line, underwater repair, and electrical integrations; voyage solutions, including bridge infrastructure solutions, cloud data services, decision support systems, and smart port solutions to enable shore-to-shore visibility, as well as builds end-to-end digital ecosystem for shipping; and decarbonization energy services, future-fuel enabled balancing power plants, hybrid solutions, energy storage solutions, and optimization technology solutions. The company also provides power and propulsion products, such as electrical and power systems, engines and generating sets, propulsors and gears, and shaft line solutions; gas, ballast water management, freshwater generation, waste and wastewater treatment, and exhaust treatment equipment; and voyage and fleet optimization services comprising autonomy, simulation and training, fleet optimization and safety, integrated vessel control systems, port and traffic management, and dynamic positioning services. In addition, it offers spare parts and field services, lifecycle upgrades and solutions, technical support, maintenance and repair services, training services, and cyber services. In addition, the company provides products and solutions for energy storage, and engine and hybrid power plants. It serves merchant vessels, gas carriers, cruise and ferry, navy, and special vessels segments; offshore installations and related industry vessels and land-based gas installations; and ship owners, shipyards, and ship management companies. The company was founded in 1834 and is headquartered in Helsinki, Finland.

3356 Waskaduwa Beach Resort PLC provides food and beverage, lodging, and other hospitality industry related services in Sri Lanka. Its flagship resort is Citrus Waskaduwa, a five-star property that consists of 150 rooms, including 140 superior rooms, 8 deluxe suites, 1 executive suite, and 1 presidential suite. The company was incorporated in 2011 and is based in Kalutara, Sri Lanka. Waskaduwa Beach Resort PLC is a subsidiary of Hikkaduwa Beach Resort PLC.

3357 Waste Management, Inc., through its subsidiaries, engages in the provision of environmental solutions to residential, commercial, industrial, and municipal customers in the United States and Canada. It offers collection services, including picking up and transporting waste and recyclable materials from where it was generated to a transfer station, material recovery facility (MRF), or disposal site; and owns and

operates transfer stations, as well as owns, develops, and operates landfill facilities that produce landfill gas used as renewable natural gas for generating electricity. As of December 31, 2022, the company owned or operated 254 solid waste landfills, five secure hazardous waste landfills, 97 MRFs, and 337 transfer stations. It also provides materials processing and commodities recycling services at its MRFs, where cardboard, paper, glass, metals, plastics, construction and demolition materials, and other recycling commodities are recovered for resale or redirected for other purposes; recycling brokerage services, such as managing the marketing of recyclable materials for third parties; and other strategic business solutions. In addition, the company offers construction and remediation services; services related with the disposal of fly ash, and residue generated from the combustion of coal and other fuel stocks; inplant services comprising fullservice waste management solutions and consulting services; and specialized disposal services for oil and gas exploration and production operations. The company was formerly known as USA Waste Services, Inc. and changed its name to Waste Management, Inc. in 1998. Waste Management, Inc. was incorporated in 1987 and is headquartered in Houston, Texas.

3358 Watawala Plantations PLC, together with its subsidiaries, cultivates, manufactures, and sells crude palm oil in Sri Lanka. It also engages in dairy farming business; and tea, cinnamon, rubber, coconut, and maize cultivation business, as well as production of organic fertilizers. The company was incorporated in 1992 and is headquartered in Colombo, Sri Lanka. Watawala Plantations PLC is a subsidiary of Sunshine Wilmar (Private) Limited.

3359 Water Intelligence plc provides leak detection and remediation services for potable and nonpotable water in the United States, the United Kingdom, Australia, Canada, and internationally. The company operates through Franchise Royalty Income, FranchiseRelated Activities, US Corporate Operated Locations, and International Corporate Operated Locations segments. It offers water leak and repair solutions. The company is also involved in franchising activities, as well as operates corporate owned stores. In addition, it provides clean water and wastewater solutions for residential, commercial, and municipal customers. The company was founded in 1974 and is based in London, the United Kingdom.

3360 Watt's S.A. manufactures and sells food products primarily in Chile. The company provides fruit products, such as liquid juices, nectars, marmalades, jams, desserts, and canned and packaged tomato products; and oils, margarine, and butter. It also offers dairy products, including liquid and powdered milk, cheese, butter, milk drinks and creams, lactose free milk, and soymilk; frozen foods comprising fruits, vegetables, mixes, and ready meals, as well as sautÃ©ed, prefried potatoes, legumes, and bases for cooking; pasta; and wines. The company offers its products under the Watt's, Loncoleche S.A., Calo, Chef, Belmont, SureÃ±a, Wasil, Yogu Yogu, and other brands. It also exports its products to approximately 30 countries primarily in the American continent. Watt's S.A. was founded in 1930 and is headquartered in San Bernardo, Chile.

3361 Waves Corporation Limited, together with its subsidiaries, manufactures, assembles, markets, trades in, and retails consumer appliances and other light engineering products. It offers refrigerators, air conditioners, LED TVs, washing machines, microwave ovens, sewing machines, water heaters, gas ovens, deep freezers, Visi coolers, water dispensers, instant geysers, and cooking ranges under the Singer and Waves brands. The company also engages in the distribution, wholesale, and retail of electronic appliances, components, accessories, etc. In

addition, it is involved in the real estate development activity. The company was formerly known as Waves Singer Pakistan Limited. Waves Corporation Limited was founded in 1877 and is based in Lahore, Pakistan. 3362 Webzen Inc., a game company, engages in the PC, online, and mobile gaming business worldwide. It operates Webzen.com, a game portal; and WEBZEN.CO.KR. The company provides various game genres, such as the Korea Full 3D online game MU Online; MU Origin and MU IP franchising mobile games; and other online/mobile/sport games. Webzen Inc. was founded in 2000 and is headquartered in Seongnam, South Korea.

3363 Wedge Industrial Co., Ltd. invests in, develops, operates, and interior decoration of real estate properties in China. It also engages in research, development, production, and sales of microecological preparations, superalloys, and its products. The company was formerly known as Guangdong Wanze Industrial Co., Ltd. and changed its name to Wedge Industrial Co., Ltd. in May 2013. The company was founded in 1992 and is based in Shantou, China.

3364 Weiye Holdings Limited, an investment holding company, develops residential and commercial properties in the People's Republic of China, Singapore, and internationally. It operates in two segments, Property Development and Equipment Manufacturing. The company also constructs resettlement houses and leases investment properties. In addition, it manufactures and trades in heating, ventilation, airconditioning, air purification, and clean room equipment, including fan filter units, air showers, clean booths, pass boxes, clean hand dryers, clean benches, deflection grilles, and air diffusers; and marine dampers. Further, the company trades in building construction materials; develops intelligent parking software and hardware; and provides property management, logistics management, cold chain logistics, ancillary, technology consultation and transfer, and aftersales services. It is also involved in the wholesale, import, and export of industrial products. Weiye Holdings Limited was incorporated in 1984 and is headquartered in Shenzhen, China.

3365 Welife Technology Limited, an investment holding company, operates restaurants in Hong Kong. The company offers Cantonese dining and banquet services, including wedding banquet services. It operates Chinese fullservice restaurants under the Palace, Royal Courtyard, Sea Moon Cuisine brand names. The company was formerly known as The Palace Holdings Limited and changed its name to Palace Banquet Holdings Limited in October 2018. Welife Technology Limited was founded in 2006 and is headquartered in Wan Chai, Hong Kong.

3366 Wellbiotec Co., Ltd. produces and sells leather products in South Korea and internationally. The company provides leather products for shoes, bags, car seats, and handle covers. It also offers logistics consulting, container, warehouse/clearance, and transportation agency services; product research and development, consulting, distribution, and sales; and general and specialized medicines, health functional products, diagnosis kits, cosmeceuticals, and other products. In addition, the company is involved in casting agency, celebrity development, content production, and multichannel network; and food and beverages businesses. The company was founded in 1975 and is headquartered in Seoul, South Korea.

3367 Welle Enviroental Group Co., Ltd. provides urban enviroental management, agriculture and rural enviroental management, and industrial energy savings and enviroental protection services in the People's Republic of China. It offers waste leachate treatment, food and kitchen waste treatment, river remediation, and municipal sewage treatment services; agricultural organic waste utilization and rural domestic sewage treatment services; and industrial flue gas treatment, VOC

recovery, industrial waste utilization, and industrial wastewater treatment services. The company was formerly known as Jiangsu WELLE Enviroental Co.,Ltd and changed its name to Welle Enviroental Group Co., Ltd. in March 2019. Welle Enviroental Group Co., Ltd. was founded in 2003 and is headquartered in Changzhou, the People's Republic of China.

3368 Wemade Max Co., Ltd. develops and offers mobile games worldwide. It provides games, such as Windrunner, Candypang, Wind Soul, Hero Stone, God of GoStop, and Silkroad. The company was formerly known as JOYMAX Co.,Ltd. and changed its name to Wemade Max Co., Ltd. in March 2021. The company was founded in 1997 and is based in Seongnam, South Korea.

3369 Wemade Play Co., Ltd. develops casual games in South Korea. The company was formerly known as SundayToz Corp. and changed its name to Wemade Play Co., Ltd. in March 2022. Wemade Play Co., Ltd. was founded in 2009 and is based in Seongnam, South Korea.

3370 Wenzhou Hongfeng Electrical Alloy Co., Ltd., together with its subsidiaries, researches, develops, manufactures, and supplies electrical contact materials in the People's Republic of China. It offers structured composite electrical contact materials and components; composite clad electrical contact materials and components, including composite button contact materials, profiled contact materials, composite rivet contact materials, clad strips and stamped parts, Cu/Fe/Cu and Cu/Al/Cu clad materials, and novel Cu/Ag/Cu clad materials; electrical contact assemblies comprising staked and welded contact assemblies; and welding and other accessories, such as solder pastes and brazing material systems. The company also provides thermostat bimetal products consisting of stamping parts and strips; and cemented carbide products, including coaling and geological mining products, road repair tools, carbide burrs and rods, tire studs, CNC cutting inserts, nonstandard products, wear resistant parts, wood working knives and glass cutters, and tools of processing building materials. Its products are used in industrial electrical equipment, such as AC contactors, miniature circuit breakers, moldedcase circuit breakers, intelligent air circuit breakers, relays, and fuses; construction apparatus, including wall mounted switches and socket outlets; automotive equipment, such as thermostats; and communications electronics, which include micro motors and touch switches. The company was founded in 1997 and is headquartered in Yueqing, the People's Republic of China.

3371 West China Cement Limited, an investment holding company, manufactures and sells cement and cement products in the People's Republic of China. It sells its products under the Yao Bai and Yaobaishuini names. The company's cement products are used in the construction of infrastructure projects, such as highways, railways, bridges, hydroelectric power stations, and water conservancy and water transfer projects, as well as housing and social infrastructure projects. It also engages in financial leasing and transportation businesses. The company is headquartered in Xi'an, the People's Republic of China.

3372 Westgold Resources Limited engages in the exploration, operation, development, mining, and treatment of gold assets primarily in Western Australia. The company's assets include Bryah Operations, Murchison Operations, Meekatharra Gold Operations, and Cue Gold Operations that comprise approximately 350 mining titles covering 1,300 square kilometers in the Central Murchison region. It also provides contract mining services. Westgold Resources Limited is based in Perth, Australia.

3373 Westinghouse Air Brake Technologies Corporation provides technologybased locomotives, equipment, systems, and services for the freight rail and passenger transit industries worldwide. The company operates in two segments, Freight and Transit. The Freight segment manufactures and services components for freight cars and locomotives;

builds, rebuilds, upgrades, and overhauls locomotives; supplies railway electronics, positive train control equipment, and signal design and engineering services; services locomotives and freight cars; and provides heat exchange and cooling systems, and components and digital solutions. It serves publicly traded railroads; leasing companies; manufacturers of original equipment; and utilities. The Transit segment offers components for new and existing passenger transit vehicles, such as regional and high speed trains, subway cars, lightrail vehicles, and buses; refurbishes subway cars; and provides heating, ventilation, and air conditioning equipment, as well as doors for buses and subways. This segment serves public transit authorities and municipalities, leasing companies, and manufacturers of subway cars and buses. The company also provides electronically controlled pneumatic braking products; freight car trucks; draft gears, couplers, and slack adjusters; air compressors and dryers; track and switch products; railway and freight braking equipment and related components; friction products; access and platform screen doors; pantographs; energy measuring systems; auxiliary power converter and battery charging products; antifire systems; passenger information systems and CCTV; signaling and railway electric relays; sanitation systems; window assemblies; accessibility lifts and ramps for buses; and electric charging solutions for buses and electric ferries. In addition, it offers freight locomotive overhaul, modernizations, and refurbishment services. The company was founded in 1869 and is headquartered in Pittsburgh, Pennsylvania.

3374 WeWork Inc. provides flexible workspace solutions to individuals and organizations worldwide. The company offers workstation, private office, and customized floor solutions; and various amenities and services, such as private phone booths, internet, highspeed business printers and copiers, mail and package handling, front desk services, offpeak building access, common areas, and daily enhanced cleaning solutions. It also offers various valueadd services; business and technical service solutions, including professional employer organization and payroll services, remote workforce solutions, human resources benefits, dedicated bandwidth, and IT equipment colocation solutions. In addition, the company offers workspace management solutions, which enable landlords and operators to power flexible spaces and provide direct access to an established customer base. As of December 31, 2021, its real estate portfolio includes 756 locations. WeWork Inc. was founded in 2010 and is headquartered in New York, New York.

3375 Wheaton Precious Metals Corp. primarily sells precious metals in Canada, Europe, and South America. The company sells gold, silver, palladium, and cobalt deposits. The company was formerly known as Silver Wheaton Corp. and changed its name to Wheaton Precious Metals Corp. in May 2017. Wheaton Precious Metals Corp. was founded in 2004 and is headquartered in Vancouver, Canada.

3376 Where Food Comes From, Inc., together with its subsidiaries, operates as a thirdparty food verification company in North America. The company operates in Verification and Certification, and Software Sales and Related Consulting segments. It conducts onsite and desk audits to verify that claims being made about livestock, food, other specialty crops, and agricultural and aquaculture products are accurate, as well as offers Where Food Comes From Source Verified retail and restaurant labeling program, which connects consumers directly to the source of the food they purchase through product labeling, and webbased information sharing and education. It also offers software as a service; maintenance, support, and softwarerelated consulting services; and webhosting services, as well as sells hardware. The company serves beef and pork packers, organic producers and processors, and specialty retail chains.

The company was formerly known as Integrated Management Information, Inc. and changed its name to Where Food Comes From, Inc. in December 2012. Where Food Comes From, Inc. was founded in 1996 and is based in Castle Rock, Colorado.

3377 Whitehaven Coal Limited develops and operates coal mines in New South Wales and Queensland. It operates through three segments: Open Cut Operations, Underground Operations, and Coal Trading and Blending. The company produces metallurgical and thermal coal. It operates four mines, including three open cut and one underground located in the Gunnedah Coal Basin in New South Wales. The company sells coal in Japan, Korea, Taiwan, India, Malaysia, New Caledonia, Vietnam, Thailand, Indonesia, and Europe. Whitehaven Coal Limited was founded in 1999 and is based in Sydney, Australia.

3378 Whole Shine Medical Technology Co., Ltd. engages in the oral medical, electrical equipment, and banking businesses in China. It offers electrical equipment products, such as electronic control equipment, permanent magnet low and high voltage switch products, electronic energy meters, and other products, as well as automatic control system integration services. The company also provides banking services comprising corporate finance, personal finance, and small and micro finance, as well as financial markets and international banking services. In addition, it offers dental implantology, orthodontic, dental restoration, teeth whitening, oral medicine, oral surgery, and pediatric dentistry services. The company was formerly known as Rongyu Group Co., Ltd. and changed its name to Whole Shine Medical Technology Co., Ltd. in December 2022. Whole Shine Medical Technology Co., Ltd. was founded in 1986 and is based in Beijing, China.

3379 WildBrain Ltd. develops, produces, and distributes films and television programs worldwide. The company operates through two segments, Content Business and Canadian Television Broadcasting. It focuses on children's and family content, including animated series; and provides production services, as well as operates children's ad-supported video on demand (AVOD) channels on YouTube and other AVOD platforms. It is also involved in the retail of garments; provision of consultancy and advisory services; and project management and property maintenance activities. The company was founded in 1955 and is headquartered in Singapore.

3390 Wingtech Technology Co.,Ltd engages in the research and development and manufacturing of smart terminal products in the fields of consumption, industry, and automobiles. It provides mobile phones, tablet and notebook computers, servers, automotive electronics, and other intelligent terminals; semiconductors and other electronic components; and optical and AIoT modules, including new product development, ID design, structural design, hardware and software research and development, manufacturing, and supply chain management. The company also provides technology research and development related to mobile communications, smart terminals, semiconductors, electronic components, and materials. In addition, it engages in the real estate business. The company was formerly known as JoinIn (Holding) Co.,Ltd. Wingtech Technology Co.,Ltd was founded in 1993 and is based in Jiaxing, China.

3391 Wiate Inc. engages in the research and development, manufacture, and sales of rugged display equipment and rugged mobile computer in Europe, Asia, the United States, and internationally. The company offers enterprise mobility products, including rugged laptops, handheld computers, and tablets; windows and android vehicle mounted computers; standalone panel PC HMI, industrial panel PCs, stainless panel PCs, rugged Panel PCs, ATEX grade rugged computers, HMI, and bar type panel PC products; and healthcare rugged tablets and displays. It also provides multitouch, open frame, chassis, panel mount, front IP65, power over ethernet touch, USB TypeC, stainless, GWIN, rear mount, ATEX grade, SDI series, rack mount, bar type, and LCD scaler board display products; embedded computing/peripherals products, such as box PC, IoT gateway, rack server, embedded board, and power converter board products; defense rugged handheld computers, rugged tablets, panel PCs, displays, and servers; and marine panel PC, display, and embedded computing products. It serves food and hygienic, warehousing and logistics, healthcare, heavy duty, robot controller, industrial automation, energy and utility, marine, renewable energy, metals and mining, automotive technology, public safety, defense, selfservice kiosks, transportation, IIOT and edge computing, goverent, and infrastructure sectors. Wiate Inc. was incorporated in 1996 and is headquartered in New Taipei City, Taiwan.

3392 WINPAC Inc. produces and sells semiconductor packaging and testing solutions in South Korea. Its packaging products comprise fine pitch ball grid array typed packages for flash/SRAM/fast SRAM, flash/SRAM MCP/DRAM,

and ASIC/logic/analog IC packaging; land grid array type packages for PC, memory, DDR2, graphic memory, and mobile phone packaging; and POP and flip chip package products. The company's packaging products also include quad flat packages for analog, ASIC, DSP, PLD, sensor, and microcontroller packaging; quad flat no lead packages for analog, ASIC, wireless RF, MEMS, cell phone, and laptop packaging; humidity sensor packages for automotive, home appliance, industrial HVAC, smart home products, and washing machine packaging; and proximity/ambient light sensor packages for smart phone, automotive, and home appliance, as well as smart, lighting, and display devices packaging. In addition, it offers USB flash drives for portable storage applications; and solid state drives for PC, mobile phone, and digital camera storage applications. Further, the company provides design and simulation services, as well as semiconductor testing services, including SOC and memory testing. WINPAC Inc. was founded in 2002 and is based in Yonginsi, South Korea.

3393 Winstek Semiconductor Co., Ltd., together with its subsidiaries, engages in the research, development, and testing of integrated circuits in Taiwan. It offers wafer sort, final and posttest, engineering support, and test platforms services; copper pillar bump, wafer level chip scale package, lead free bump, plating bump/ball drop/RDL, 6S protection, and backside metallization services; die processing, wafer thinning, singulation, and flip chip services; and failure analysis and reliability testing services. The company was formerly known as Stats ChipPac Taiwan Semiconductor Corp. and changed its name to Winstek Semiconductor Co., Ltd. in June 2015. The company was founded in 2000 and is headquartered in Hsinchu, Taiwan. Winstek Semiconductor Co., Ltd. is a subsidiary of GeShing Corporation.

3394 WirelessGate, Inc. provides wireless broadband and related services. The company offers mobile internet, PC and smartphone insurance, and WiFi rental services, as well as peripheral services. It is also involved in the remote life support and local DX platform businesses. The company was incorporated in 2004 and is based in Tokyo, Japan.

3395 Wiscom System Co., Ltd. engages in smart energy and smart city businesses in China. The company researches and develops, manufactures, and sells power generation, transmission, substation, distribution, and other power automation products. It is also involved in the wind power, solar energy, and other new energy power generation; biomass and waste heat power generation; distributed gas turbine and other thermal power generation; and power distribution professional engineering consulting, survey, and design businesses. In addition, the company engages in the new energy, micronetwork, energy emission reduction, and other project development, construction management, and general contracting businesses; and other technology development and technical services businesses. Further, it provides IT consulting, value added, and infrastructure, as well as industry application solutions. The company was founded in 1995 and is headquartered in Nanjing, China.

3396 WiseTech Global Limited provides software solutions to the logistics execution industry worldwide. The company offers CargoWise, a software platform for logistics service providers that enables execution of complex logistics transactions and manage operations. It provides customs declaration management and related international trade, customs compliance and warehouse, customs management, freight forwarding, warehousing, transport, customs clearance, tracking, shipping and port logistics software solutions, cloud enabled customs compliance, freight forwarding software, trade compliance, container optimization, and parcel, less than truckload and logistics transportation management, as well as freight rate management, ocean freight rate management, container

yard/terminal management, and messaging integration software solutions. The company was incorporated in 1994 and is headquartered in Alexandria, Australia.

3397 WiSoL CO.,LTD. manufactures and sells surface acoustic wave filters, duplexers, and modules in South Korea. It offers single and dual filters; multiplexers; RF modules; and ceramic actuator modules and touch feedback sensors. The company was founded in 2008 and is headquartered in Osansi, South Korea.

3398 WIZIT Co., Ltd. manufactures and sells LCD and semiconductor equipment in South Korea and internationally. It offers LCD parts, including upper and lower electrodes, susceptors, diffusers, chucks, and coater chucks; and semiconductor parts comprising gas diffusers, and chambers and walls. The company was founded in 1992 and is based in Incheon, South Korea.

3399 Wonders Information Co., Ltd operates as a smart city software and service provider in China. The company offers medical and health, smart goverent affairs, market supervision, people's livelihood protection, urban safety, smart education, information and communication technology (ICT), information technology (IT), and health management services; and construction and operation of smart city public platforms. It also provides integration, operation and maintenance, consulting, security, and valueadded ICT services; cloud data center, digital park, network security, and other services; cloud management platform and cloud service bus; unified payment platform; artificial intelligence services; internet of things; and big data center services. The company has approximately 1,300 software products and copyrights with intellectual property rights. Wonders Information Co., Ltd was founded in 1995 and is headquartered in Shanghai, China.

3400 Wong Engineering Corporation Berhad, an investment holding company, designs, manufactures, and sells high precision metal stamped parts, sheet metals, and turned metal components in Malaysia, Asia, Europe, and internationally. It operates through Precision Engineering; and Construction and Property Development segments. The company also engages in trading, marketing, and retailing of industrial and consumer products; and designing, manufacturing, and supplying welded frame structures, and related modules and systems. In addition, it offers general building construction and infrastructure services; and property development and related services. The company serves clients in the oil and gas, aerospace, telecommunication, test instrument, automotive, printing and imaging, consumer products, and medical devices sectors. Wong Engineering Corporation Berhad was founded in 1982 and is based in Kulim, Malaysia.

3401 WONIK Materials Co.,Ltd. manufactures and sells specialty gases in South Korea. The company's specialty gases include NH₃, N₂O, NO C₃H₆, and PH₃MIX. The company was founded in 2006 and is headquartered in Cheongwon, South Korea.

3402 Wonik Pne Co., Ltd. manufactures and sells rechargeable battery process automation and laseraided automation equipment in South Korea. It offers package and degas machines, as well as laser slitting and cutting machines. The company offers its products for manufacturing rechargeable batteries and optical films. The company was formerly known as NS Co., Ltd. Wonik Pne Co., Ltd. was founded in 1999 and is headquartered in Cheongju, South Korea.

3403 Woodside Energy Group Ltd engages in the exploration, evaluation, development, production, marketing, and sale of hydrocarbons in Oceania, Africa, the Americas, Asia, and the Caribbean. The company produces liquefied natural gas, pipeline gas, condensate, natural gas liquids, and crude oil. It holds interests in the Pluto LNG, Northwest Shelf, Wheatstone and JulimarBrunello, Bass Strait, Pyrenees FPSO, Macedon,

Scarborough, Sangomar, Trion, Calypso, Browse, Wildling, Atlantis, Woodside Solar project, Sunrise and Troubadour, and Pluto Train 2 projects, as well as Liard basin. The company was formerly known as Woodside Petroleum Ltd and changed its name to Woodside Energy Group Ltd in May 2022. Woodside Energy Group Ltd was founded in 1954 and is headquartered in Perth, Australia.

3404 WOOJUNG BIO, Inc. provides research and laboratory services in Korea. The company offers environmental infection control. It also provides construction solutions, such as preventing clean and infected; hospital negative pressure isolation ward; pharmaceutical company's aseptic production rooms; general and animal laboratory; highrisk pathogen research facility; and HEPA box air conditioning systems. In addition, the company offers tab verification; equipment systems; space sterilizers, including HPV and plasmair; sterilizers other than autoclave, and washer; hospital central supply system; notouch waste treatment system; wastewater verification treatment; waste verification process; hospital infection control; intensive care unit; space sterilization and validation services, such as managed areas, room numbers, and various patient package services through product selection with counseling; and facility sterilization verification services. Further, it provides equipment maintenance services; various customized services; and guidance and communication services. WOOJUNG BIO, Inc. was founded in 1989 and is based in Suwon, South Korea.

3405 Wooree E&L Co., Ltd., together with its subsidiaries, develops, manufactures, and sells light emitting diode (LED) products in South Korea and internationally. It offers LED BLU package and lighting package products, as well as LED modules for notebook, monitors, and TV. Wooree E&L Co., Ltd. was founded in 2008 and is based in Ansan, South Korea.

3406 World Precision Machinery Limited, an investment holding company, manufactures and sells stamping machines and related components in the People's Republic of China. Its products include high performance Cframe fixed, Cframe inclined, and Cframe dualpistons fixed stamping machines; and single point fixed bolster, Cframe fixed bolster, Cframe deepthroat fixed bolster, single point, closed type doublepoint, half straightside two points, closed type single point, straightside two point, and single action hydraulic presses, as well as computer numeric control laser cutting machines. The company also provides hydraulic swing beam shears, hydraulic gate type shearing machines, and hydraulic sheet metal press brakes. In addition, it offers related components, including machinery parts and accessories, as well as precision components. The company provides its products for various industries, such as automotive parts, home appliances, electronics, railways, aircraft, machinery, hardware, etc. under the World names. It also exports its products to Southeast Asia, Europe, South America, and South Africa. The company was formerly known as Bright World Precision Machinery Limited and changed its name to World Precision Machinery Limited in April 2011. The company was incorporated in 2004 and is based in Danyang, the People's Republic of China. World Precision Machinery Limited is a subsidiary of World Sharehold Limited.

3407 World Wrestling Entertaient, Inc., an integrated media and entertaient company, engages in the sports entertaient business in North America, Europe, the Middle East, Africa, the Asia Pacific, and Latin America. It operates through three segments: Media, Live Events, and Consumer Products. The Media segment engages in the production and monetization of longform and shortform video content across various platforms, including WWE Network, broadcast and pay television, and digital and social media, as well as filmed entertaient. The Live Events segment is involved in the sale of tickets; provision of event services;

and sale of travel packages related to its live events. The Consumer Products segment engages in merchandising of WWE branded products, such as video games, toys, and apparel through licensing arrangements and direct-to-consumer sales, as well as through ecommerce platforms. World Wrestling Entertainment, Inc. was founded in 1980 and is headquartered in Stamford, Connecticut.

3408 WorldCall Telecom Limited provides telecom and multimedia services in Pakistan. The company offers wireless local loop and interactive communication services, as well as long distance and international services comprising international calls origination and termination, nationwide calls origination and termination, and data and value-added services to wholesale and retail segments; and rebroadcasts international/national satellite/terrestrial wireless and cable television (TV), and radio signals. It also establishes, maintains, and operates licensed telephony services; and offers fiber to the home, cable broadband, and digital TV services. WorldCall Telecom Limited was founded in 1996 and is headquartered in Lahore, Pakistan.

3409 Worldline SA provides payments and transactional services to financial institutions, merchants, corporations, and government agencies in Northern Europe, Central and Eastern Europe, Southern Europe, and internationally. The company operates through Merchant Services; Financial Services; and Mobility & eTransactional Services segments. The Merchant Services segment offers commercial acquiring, terminal, omnichannel payment acceptance, and digital retail services. The Financial Services segment provides issuing processing, acquiring processing, digital banking, and account payments; deploys transformative technologies; manages risk and fraud; and optimizes processes. The Mobility & eTransactional Services segment offers trusted digitization, e-ticketing, and e-consumer and mobility. The company was formerly known as Atos Worldline S.A.S. and changed its name to Worldline SA in April 2014. Worldline SA was founded in 1973 and is headquartered in Puteaux, France.

3410 Worley Limited provides professional project and asset services to energy, chemicals, and resources sectors worldwide. The company offers digital, consulting, engineering and design, construction management, construction and fabrication, supply chain management, project management, and operation and maintenance services, as well as maintenance, modification, and operation services. It serves new energy, power, upstream and midstream, refining and chemicals, and infrastructure markets, as well as mining, minerals, and metals markets. The company was formerly known as WorleyParsons Limited and changed its name to Worley Limited in October 2019. Worley Limited was incorporated in 2001 and is headquartered in North Sydney, Australia.

3411 WPG (Shanghai) Smart Water Public Co., Ltd. engages in research and development, production, sale, and service of secondary water supply equipment in China. The company provides integrated water plant solutions for the construction, operation, and management of smart water plants; smart water marketing and customer service solutions; secondary water supply management services; gap and leakage control solutions; big data and application integration solutions; integrated solutions for urban and rural drinking water; and solutions for pumping stations. It also offers industrial internet smart water all-in-one machine solutions; water supply scheduling solutions; water pipe network management solutions; and smart network metering solutions. In addition, the company provides various software and platforms for water supply; water Internet of Things; and consulting and planning services. WPG (Shanghai) Smart Water Public Co., Ltd. was founded in 2011 and is based in Shanghai, China.

3412 Wuchan Zhongda Geron Co., Ltd. researches, develops, manufactures, and sells textile carding equipment in China. The company was formerly

known as Geron Co.,Ltd and changed its name to Wuchan Zhongda Geron Co.,Ltd. in July 2022. Wuchan Zhongda Geron Co.,Ltd. was founded in 2004 and is based in Nantong, China.

3413 Wuhan DDMC Culture & Sports Co.,Ltd. operates in film, television, and sports industries in China and internationally. The company offers TV series, film investment, production and distribution, program production, advertising, artist brokerage, cinema investment and management, and develops film related and television derivative products. It also engages in the sports business including, sports copyright distribution, sports marketing, sports product subscription, sports brokers, etc. The company was founded in 1992 and is headquartered in Wuhan, China.

3414 Wuhan East Lake High Technology Group Co., Ltd. engages in engineering construction, environmental protection technology, and technology parks businesses. It is involved in the investment, development, construction, operation, and maintenance of highways, large bridges, municipal infrastructure, and other related projects; and investment, development, construction, and operation of technology parks. The company also engages in the investment, development, construction, operation, and maintenance of environmental protection projects, such as flue gas treatment, urban sewage treatment, lake water purification, ecological restoration, solid waste treatment, new energy, and other environmental protection projects; and sale, installation, and commissioning of waste incineration flue gas treatment equipment. The company was founded in 1993 and is based in Wuhan, China.

3415 Wuhan Nusun Landscape Co., Ltd. engages in landscape services in China. The company provides landscape construction, landscape architecture design, municipal public engineering construction, garden construction, and building decoration engineering contracts. Wuhan Nusun Landscape Co., Ltd. is based in Wuhan, China.

3416 Wuhan Sante Cableway Group Co., Ltd. operates in the tourism industry in China. The company invests in, constructs, and operates approximately 20 sightseeing ropeway and scenic spots projects, including Huashan cableway in Shaanxi; Qiandao Lake cableway in Zhejiang; Fanjing Mountain scenic spot in Guizhou; and Monkey Island scenic spot in Hainan. It also operates a tourism complex. The company was founded in 1989 and is based in Wuhan, China.

3417 Wuhan Sanzhen Industry Holding Co.,Ltd engages in the water production and supply activities in China. It is also involved in the construction and operation of urban infrastructure, such as sewage treatment, tap water production, and tunnel operation. The company is headquartered in Wuhan, China.

3418 Wuhu Token Sciences Co., Ltd. engages in the research and development, processing, manufacture, sale, and service of key touch display device materials in China. It offers ITO transparent conductive glasses, touch sensors and modules, highend mobile phone LCM liquid crystal modules, etc., as well as TFTLCD panel thinning products. Wuhu Token Sciences Co., Ltd. was founded in 2000 and is based in Wuhu, China.

3419 Wuxi Boton Technology Co., Ltd. engages in the industrial bulk material handling and mobile Internet businesses in China and internationally. It offers rubber and fabric conveyor belts, heat resistant steel wire ropes, high temperature resistance flame retardants, energy saving and environmental protection products, digital chips, and other products that are used in mineral mining, steel smelting, sand and gravel aggregates, bulk cargo terminals, thermal power generation, and other industries. It also provides mobile Internet services for the distribution and operation of mobile games. The company was formerly known as Wuxi Boton Belt Co., Ltd. and changed its name to Wuxi Boton

Technology Co., Ltd. in August 2015. Wuxi Boton Technology Co., Ltd. was founded in 2000 and is headquartered in Wuxi, China.

3420 Wuxi Taiji Industry Limited Corporation primarily engages in the semiconductor packaging and testing business. It designs and manufactures semiconductor wafer, IC, chip, chip packaging, and postpackage testing products; and invests in and operates photovoltaic power stations. The company is also involved in the engineering design and general contracting business in the field of photovoltaics. In addition, it provides chemical fiber products, machinery and accessories, and textile machinery and accessories. The company was founded in 1966 and is based in Wuxi, China.

3421 Wyndham Hotels & Resorts, Inc. operates as a hotel franchisor worldwide. It operates through Hotel Franchising and Hotel Management segments. The Hotel Franchising segment licenses its lodging brands and provides related services to thirdparty hotel owners and others. The Hotel Management segment provides hotel management services for fullservice hotels. It is also involved in the reward loyalty program business. The company's hotel brand portfolios include Super 8, Days Inn, Travelodge, Microtel, Howard Johnson, La Quinta, Ramada, Baymont, AmericInn, Wingate, Wyndham Alltra, Wyndham Garden, Ramada Encore, Hawthorn, Trademark Collection, TRYP, Wyndham, Wyndham Grand, Dazzler, Esplendor, Dolce, Vienna House, and Registry Collection. It operates a hotel portfolio of 24 hotel brands with affiliated hotels located in approximately 95 countries. The company was incorporated in 2017 and is headquartered in Parsippany, New Jersey.

3422 Wynn Resorts, Limited designs, develops, and operates integrated resorts. The company operates through four segments: Wynn Palace, Wynn Macau, Las Vegas Operations, and Encore Boston Harbor. The Wynn Palace segment operates private gaming salons and sky casinos; a luxury hotel tower with suites, and villas, including a health club, spa, salon, and pool; food and beverage outlets; retail space; meeting and convention space; and performance lake and floral art displays. The Wynn Macau segment operates casino space with private gaming salons, sky casinos, and a poker room; a luxury hotel tower, that include health clubs, spas, a salon, and a pool; food and beverage outlets; retail space; meeting and convention space; and Chinese zodiacinspired ceiling attractions. The Las Vegas Operations segment operates casino space with private gaming salons, a sky casino, a poker room, and a race and sports book; a luxury hotel tower with suites, and villas, including swimming pools, private cabanas, fullservice spas and salons, and a wedding chapel; food and beverage outlets; meeting and convention space; retail space; and theaters, nightclubs, a beach club. The Encore Boston Harbor segment operates casino space with gaming areas, and a poker room; a luxury hotel tower including a spa and salon; food and beverage outlets and a nightclub; retail space; meeting and convention space; and a waterfront park, floral displays, and water shuttle service. Wynn Resorts, Limited was founded in 2002 and is based in Las Vegas, Nevada.

3423 Wysiwyg Studios Co., Ltd. designs visual effects for films and dramas. It produces 2D/3D visual effects; onset supervision effects and simulations; creatures; digital enviroents; and new media, including digital content, exhibition/advertising, and ScreenX, as well as provides technology services for various media formats. It also plans, develops, and produces various contents. The company was founded in 2016 and is based in Seoul, South Korea.

3424 Xcel Energy Inc., through its subsidiaries, generates, purchases, transmits, distributes, and sells electricity. It operates through Regulated Electric Utility, Regulated Natural Gas Utility, and All Other segments. The company generates electricity through coal, nuclear,

natural gas, hydroelectric, solar, biomass, oil, wood/refuse, and wind energy sources. It also purchases, transports, distributes, and sells natural gas to retail customers, as well as transports customer-owned natural gas. In addition, the company develops and leases natural gas pipelines, and storage and compression facilities; and invests in rental housing projects, as well as procures equipment for the construction of renewable generation facilities. It serves residential, commercial, and industrial customers in the portions of Colorado, Michigan, Minnesota, New Mexico, North Dakota, South Dakota, Texas, and Wisconsin. The company sells electricity to approximately 3.7 million customers; and natural gas to approximately 2.1 million customers. Xcel Energy Inc. was incorporated in 1909 and is headquartered in Minneapolis, Minnesota.

3425 Xcure Corp. provides smart card and mobile security platform technology in South Korea and internationally. The company offers USIM cards in the areas of mobile banking transactions, mobile transportation/payment, mobile/card ID, loyalty management system, smart card management system, smart card Web server, and trusted service manager. It also provides banking IC and mobile POS cards, as well as micro SD cards for secure token and payment. In addition, the company offers mobile security platform products, such as secure MicroSD for highly secure hardware backed isolation for various services that are to be enabled on smart devices; and SecuriTEE Stick, a HDMI dongle type android device embedded with secure OS for sending online contents to smart devices. It serves telecommunication, finance/banking, and mobile banking industries. The company was formerly known as Hansol Secure Co., Ltd. and changed its name to Xcure Corp. in March 2020. Xcure Corp. was incorporated in 2000 and is headquartered in Seoul, South Korea.

3426 Xenia Hotels & Resorts, Inc. is a self-advised and self-administered REIT that invests in uniquely positioned luxury and upper upscale hotels and resorts, with a focus on the top 25 U.S. lodging markets as well as key leisure destinations in the United States. The Company owns 37 hotels comprising 10,749 rooms across 16 states. Xenia's hotels are in the luxury and upper upscale segments, and operated and/or licensed by industry leaders such as Marriott, Hyatt, Kimpton, Fairmont, Loews, and Hilton, as well as leading independent management companies including The Kessler Collection and Sage Hospitality.

3427 Xerox Holdings Corporation, a workplace technology company, designs, develops, and sells document management systems and solutions in the Americas, Europe, the Middle East, Africa, India, and internationally. It offers workplace solutions, including desktop monochrome, and color and multifunction printers; digital printing presses and light production devices, and solutions; and digital services that leverage workflow automation, personalization and communication software, content management solutions, and digitization services. The company also provides graphic communications and production solutions; and IT services, end user computing devices, network infrastructure, communications technology, and a range of managed IT solutions, such as technology product support, professional engineering, and commercial robotic process automation; and provides finance for the sale of Xerox, non-Xerox office, and IT services equipment. In addition, it provides FreeFlow a portfolio of software solutions for the automation and integration to the processing of print job comprises file preparation, final production, and electronic publishing. Further, the company sells paper products and wideformat systems, licensing, as well as standalone software such as CareAR, DocuShare, and XMPie. The company sells its products and services directly to its customers through its direct sales force, as well as through independent agents, dealers, value-added resellers, systems integrators, and e-commerce marketplaces. Xerox

Holdings Corporation was founded in 1906 and is headquartered in Norwalk, Connecticut.

3428 Xi'an Qujiang Cultural Tourism Co., Ltd. engages in the tourism business in China. Its activities include the scenic spot operation and management, accommodation, catering, property management, travel, tourism industry education and training, financial services, and engineering construction, as well as cultural and creative. The company was founded in 1984 and is headquartered in Xi'an, China. Xi'an Qujiang Cultural Tourism Co., Ltd. is a subsidiary of Xi'an Qujiang Tourism Investment (Group) Co., Ltd.

3429 Xiamen Changelight Co., Ltd. researches, develops, produces, and sells compound semiconductor devices in China. It provides LED epitaxial wafers and chips, GaAs solar cells, miniLEDs/microLEDs, and VCSEL products for the use in digital, matrix, display, traffic and black lights, lamps, indicators, and other fields. Xiamen Changelight Co., Ltd. was founded in 2006 and is headquartered in Xiamen, China.

3430 Xiamen Comfort Science&Technology Group Co., Ltd researches, develops, manufactures, and sells health massage appliances in China and internationally. The company offers massage chairs and appliances; fresh air systems and air purifiers; weight analysis scales; and other products, such as sports brace. It offers its products under the BRI, medisana, SHUSIJIA, ETRO, joypal, EASEWELL, FUJIMEDIC, ihoco, FUJI, cozzia, and OGAWA brands. The company was founded in 1996 and is based in Xiamen, China.

3431 Xiamen Hexing Packaging Printing Co., Ltd. engages in research and development, design, production, and sale of packaging materials in China and internationally. It offers cartons; cardboards; color boxes; medium and highend corrugated paper boxes; and cushioning packaging materials, including EPE, honeycomb products, and pulp molding products; books; and periodicals. The company also provides other packaging solutions. It serves food and beverages, electronic, and consumer goods industries. The company was founded in 1993 and is based in Xiamen, China.

3432 Xiamen Jihong Technology Co., Ltd. provides integrated packing solutions in China. The company offers folding cardboard, color carton, food grade packaging, cluster packaging, personalized packaging, and recyclable paper bags. It also provides blockchain and digital marketing services, as well as engages in crossborder ecommerce business. The company was formerly known as Xiamen Jihong Package Technology Corp. and changed its name to Xiamen Jihong Technology Co., Ltd. in September 2019. Xiamen Jihong Technology Co., Ltd. was founded in 2003 and is based in Xiamen, China.

3433 Xiamen Wanli Stone Stock Co.,Ltd develops, processes, and installs stone products, construction stones, stone carving handicrafts, and mineral products in China, Japan, South Korea, the United States, the European Union, and internationally. It offers slab, cuttosize, countertop, vanity top, window sill, wall cladding, special shaped stone, garden and landscaping stone, sculpture, monument, and slate products. The company was incorporated in 1996 and is headquartered in Xiamen, China.

3434 Xiamen Zhongchuang Enviroental Technology Co., Ltd. engages in the research, development, production, sale, and service of high temperature dust and bag filters in China and internationally. The company offers flue gas island, hazardous waste, solid waste disposals, sanitation integration, indoor air purification, and water treatment services. The company was formerly known as Xiamen Savings Enviroental Co., Ltd and changed its name to Xiamen Zhongchuang Enviroental Technology Co., Ltd. in February 2020. Xiamen Zhongchuang Enviroental Technology Co., Ltd. was founded in 2001 and is headquartered in Xiamen, China.

3435 Xiangyang Automobile Bearing Co., Ltd. researches, develops, manufactures, and sells automobile bearings in China. The company offers ball, TRB, NRB, CRB, CHB, CVJ, CJ, and other bearings. It also provides various bearing products in the areas of machinery, agricultural machinery, household appliances, wind power, etc. The company's products are used in heavyduty, mediumduty, lightduty, and miniduty trucks, as well as cars. It also exports its products to Europe, the United States, Southeast Asia, and other countries and regions. The company was founded in 1968 and is based in Xiangyang, China.

3436 Xilien Furniture Co.,Ltd designs, develops, produces, and sells bedroom furniture products in China. The company offers mattresses, beds, sofas, and other supporting guest bedroom furniture. It offers its products under the Fashman, Erna, Burano, Ximian, Keshang, and other brands. Xilien Furniture Co.,Ltd was founded in 1993 and is based in Shaoxing, China.

3437 Xin Yuan Enterprises Group Limited, an investment holding company, provides asphalt tanker chartering services in China, Hong Kong, and Singapore. The company operates through three segments: Asphalt Tanker Chartering Services, Bulk Carrier Chartering Services, and Asphalt Trading. As of December 31, 2021, it operated five vessels under asphalt tanker time charters; five vessels under asphalt tanker voyage charters or contracts of affreightment; and two secondhand Capesize vessels under bulk carrier time charters. The company was founded in 2010 and is headquartered in Fuzhou, China.

3438 Xinda Investment Holdings Limited, together with its subsidiaries, engages in the smart energy and public infrastructure construction businesses in the People's Republic of China. The company's Smart Energy segment operates solar power plants; sells solar power generation systems; offers smart energy utilization services, which include multienergy complementation of electricity, heat, and gas; smart operation and maintenance; energy trade; energy efficiency analysis; and consultancy management. Its Public Infrastructure Construction segment is involved in the construction and related preliminary investment businesses, as well as provides postconstruction, operation, and management services of public infrastructure. The company was formerly known as LongiTech Smart Energy Holding Limited and changed its name to Xinda Investment Holdings Limited in August 2022. Xinda Investment Holdings Limited was incorporated in 2011 and is headquartered in Gaobeidian, the People's Republic of China.

3439 Xinglong Holding (Group) Company Ltd. engages in the research, development, production, processing, and sale of spunlace, meltspun, and other nonwoven materials for medical and health protection, household cleaning, personal care, beauty and makeup, tourism, etc. The company is also involved in the provision of nonwoven terminal products; distribution and sale of drugs and medical services; and trading of petroleum, natural rubber, and other products. It exports its products. Xinglong Holding (Group) Company Ltd. was founded in 1993 and is based in Haikou, the People's Republic of China.

3440 Xihu Zhongbao Co.,Ltd. engages in the hightech, real estate, and financial service businesses in China. It develops real estate projects. The company was founded in 1993 and is based in Hangzhou, China.

3441 Xinjiang Joinworld Co.,Ltd. engages in the research and development, production, and sale of aluminum products in China and internationally. It also provides electronic aluminum foil, electrode foil, and other electronic components, as well as aluminum alloys. The company's aluminum products are used in electronic aluminum foil, electronic guide needle wire, alumina powder, aviation aluminum alloy, and target materials, as well as other fields of electronics, aerospace,

and integrated circuits; electronic aluminum foils are used for the production of electrode foil; electrode foils are used for the production of aluminum electrolytic capacitors; and aluminum alloys are used in electronic consumer goods, energysaving wires, automobile engines, automobile decoration, and architectural decoration fields, as well as other fields of electronics, electricity, transportation, and construction. In addition, the company manufactures and sells electronic materials. Further, it provides logistics trade and metallurgical technical services, as well as development of mineral resources. Xinjiang Joinworld Co.,Ltd. was founded in 1958 and is based in Urumqi, China.

3442 Xinjiang Machinery Research Institute Co., Ltd. engages in the research, design, manufacture, and sale of agricultural and animal husbandry machinery in China. The company offers corn and silage machines, chili machinery, and tillage machines; harvesting machinery, farming machinery, tractors, agricultural and sideline product processing machinery, and fruit machinery; power rotary harrow; and raisin equipment, as well as aircraft structural parts, including frames, beams, ribs, wall panels, skins, long stringers, angle pieces, shafts, etc.; spacecraft structural parts, such as thinwalled tubular sheet metal parts, support rings, air inlets, nozzles, loadbearing parts, rudder assemblies, wing assemblies, projectile compartments, steering gear compartments, fairings, liquid oxygen engine parts, liquid hydrogen engine parts, curved section, straight section, etc.; and engine and gas turbine structural components comprising combustion chamber casings, flame tubes, external casings, intermediate casings, afterburner nozzles, integral blisks, blades, power turbine outer casings, rotatable guide casings, guide tubes, etc. It offers agricultural and animal husbandry machinery products under the Mushen brand. The company was founded in 1960 and is headquartered in Urumqi, China.

3443 Xinjiang Torch Gas Co., Ltd provides energy integrated services in China. The company primarily engages in the provision of urban gas supply, refueling station operation management, urban heating power supply, taxi operation management, gas facilities, and equipment installation services. It owns 2 CNG mother stations and CNG refueling, as well as pipeline network. Xinjiang Torch Gas Co., Ltd was founded in 2003 and is based in Kashi, China.

3444 Xinjiang Winka Times Department Store Co.,Ltd. operates department stores in China. It also operates shopping centers and supermarkets. The company is based in Urumqi, China.

3445 Xinjiang Xintai Natural Gas Co., Ltd. transmits, distributes, and sells natural gas. It is also involved in home installation and coalbed methane mining businesses. The company was formerly known as Xinjiang Xintai Investment (Group) Co., Ltd. and changed its name to Xinjiang Xintai Natural Gas Co., Ltd. in December 2012. Xinjiang Xintai Natural Gas Co., Ltd. was founded in 2000 and is based in Urumqi, China.

3446 Xinlun New Materials Co., Ltd. engages in the research, development, manufacture, and sale of new materials in China. It offers doublesided adhesive tapes, optical tapes, protective films, functional tapes, and graphite sheets, as well as aluminum laminated films; highend display materials and optical films for display; die cutting products for electronics; and smart mold and plastic products. The company also provides electronic/pharmaceutical/food industry cleanroom engineering design, construction, maintenance integrated solution and ultraclean products research, production, sales integration services. It serves consumer electronics, new energy, optoelectronic display, petroleum refining, biomedicine, food, daily chemicals, automobile manufacturing, aerospace, rail transit, and other sectors. The company also exports its products to Europe, the United States, Japan, Korea, Southeast Asia, and

internationally. The company was formerly known as Shenzhen Selen Science & Technology Co., Ltd. and changed its name to Xinlun New Materials Co., Ltd. in September 2021. Xinlun New Materials Co., Ltd. was founded in 2002 and is headquartered in Shenzhen, China.

3447 Xintec Inc. operates as a threedimensional (3D) wafer level chip scale packaging company in Taiwan, the United States, Europe, and internationally. The company offers optical sensor chipscale package technology for cellular phones, notebooks, gesture sensors, and laser intensity sensor for blueray and pico projectors; PPI and 3D Package technologies for use in integrated passive devices, power management IC and analogue IC, cellular phone RF IC, and capacitive couplers; and MicroElectroMechanical Systems (MEMS) and sensor packaging for ink printer heads, motion sensors, temperature and humidity sensors, pressure sensors, identification sensors, picoprojector heads, silicon microphones, and bio sensors. It also provides design and modeling services for its technologies. Xintec Inc. was incorporated in 1998 and is headquartered in Taoyuan, Taiwan.

3448 Xinxiang Chemical Fiber Co., Ltd. produces and sells chemical fiber products in China and internationally. Its products include biomass cellulose filaments that are used in highend clothing and home textiles; spandex fibers for use in various textile products; functional products, such as graphene fibers, artemisia silks, antibacterial fibers, and flame retardant fibers; differentiated fibers comprising colored silks, magic silks, and fine denier fibers; and photochromic, thermochromic, intelligent thermostat, super high efficient antibacterial, antimites, antibacterial, and other fibers. The company was founded in 1993 and is headquartered in Xinxiang, China.

3449 Xuzhou Handler Special Vehicle Co., Ltd engages in research, development, production, and sales of aerial work vehicles, electric emergency support vehicles, military products, and fire trucks. It offers aerial work platforms, power support vehicles, and firefighting robots. The company was founded in 2005 and is headquartered in Xuzhou, China.

3450 Xvivo Perfusion AB (publ), a medical technology company, develops solutions for organ, tissue, and cell preservation and perfusion in connection with transplantation in Sweden, the United States, North America and South America, Europe, the Middle East, Africa, and the Asia Pacific. The company offers XVIVO System (XPS), an integrated offtheshelf cardiac bypass system that includes various components needed to safely run normothermic ex vivo lung perfusion (EVLP); XPS Disposable Lung Kit that contains disposables and prepacked products to suit requirement for sterility; and STEEN Solution, a buffered extracellular solution optimally designed to perfuse the isolated donor lung during EVLP. It also provides Perfadex Plus, an extracellular, low potassium, dextranbased electrolyte preservation solution; XVIVO Silicone Tubing Set for rapid flushing of donor lungs during procurement; and XVIVO LS and XVIVO Disposable Lung Set, a device for EVLP. In addition, the company offers XVIVO Organ Chamber, a singleuse sterile disposable container intended to be used as a temporary receptacle for isolated lungs in preparation for eventual transplantation into a recipient; and XVIVO Lung Cannula Set, a singleuse, sterile disposable product. The company was incorporated in 1998 and is headquartered in Gothenburg, Sweden.

3451 Xylem Inc., together with its subsidiaries, engages in the design, manufacture, and servicing of engineered products and solutions for the water and wastewater applications in the United States, Europe, the Asia Pacific, and internationally. It operates through three segments: Water Infrastructure, Applied Water, and Measurement & Control Solutions. The Water Infrastructure segment offers various products, including water, storm water, and wastewater pumps; controls and systems; filtration,

disinfection, and biological treatment equipment; and mobile dewatering equipment and rental services under the Flygt, Godwin, Sanitaire, Leopold, Wedeco, and Xylem Vue brand names for the transportation and treatment of water. The Applied Water segment provides pumps, valves, heat exchangers, controls, and dispensing equipment systems under the Goulds Water Technology, Bell & Gossett, AC Fire Pump, Standard Xchange, Lowara, Jabsco, Xylem Vue, and Flojet brand names for residential and commercial building services, and industrial water applications. The Measurement & Control Solutions segment offers smart meters, networked communication devices, data analytics, test equipment, controls, sensor devices, software and managed services, and critical infrastructure services; and software and services, including cloudbased analytics, remote monitoring and data management, leak detection, condition assessment, asset management, and pressure monitoring solutions, as well as testing equipment. This segment sells its products under the Pure Technologies, Sensus, Smith Blair, WTW, Xylem Vue, and YSI brand names. The company markets and sells its products through a network of direct sales force, resellers, distributors, and valueadded solution providers. Xylem Inc. was formerly known as ITT WCO, Inc. and changed its name to Xylem Inc. in May 2011. Xylem Inc. was incorporated in 2011 and is headquartered in Washington, District of Columbia.

3452 Y2 Solution CO.,LTD provides TV power supply and LED lighting services in South Korea. The company offers switching mode power supply (SMPS) module for displays used in LED TV, UHD TV, OLED TV, signage TV, etc.; and indoor and outdoor LED lighting. It also provides secondary battery cell testing systems; locationbased visible light communication (VLC) systems, which provides guidance and marketing services based on location without using RF communication for shopping malls, electronic attendanceabsence recording systems, indoor navigation, and Zigbee commissioning; and bidirection VLC systems used in smart factory, hospital, RF communication error enviroent, etc. In addition, the company offers IoT VLC systems to smart farm, smart factory, home IoT, etc.; and highspeed VLC systems used in meeting room security system, data transmission security system, network segregate, etc. Further, it provides imports and sells petrochemical products; and develops drugs for epidermolysis bullosa, dryamd, duchenne muscular dystrophy, and type 2 diabetes. The company was formerly known as Yuyang D&U Co., Ltd. The company was founded in 1976 and is headquartered in Hwaseongsi, South Korea.

3453 Yadea Group Holdings Ltd., an investment holding company, researches, develops, manufactures, distributes, and sells electric two wheeled vehicles and related accessories in the Peopleâ€™s Republic of China. The company offers electric scooters, electric bicycles, and batteries and chargers, as well as other electric two wheeled vehicles parts. The company exports its products in 88 countries. Yadea Group Holdings Ltd. was founded in 2001 and is based in Causeway Bay, Hong Kong.

3454 Yageo Corporation engages in the manufacture and sale of passive components in China, Europe, the United States, and rest of Asia. It offers chip resistors, including automotive, current sensing, antisulfurated, thin film, thick film precision and general purpose, array/network, high voltage, surge, lead free, Ni/Au termination, RF attenuator, and trimmable; and MLCCs, such as general purpose, automotive, high frequency, soft termination, miniaturization, array, and low inductance. The company also provides throughhole resistors comprising carbon film, metal film, MELF, metal glazed film, metal oxide film, zero and low ohmic, jumper wire, cement, aluminum housed, wire wound, and other resistors; and wireless components consisting of

antennas, LTCC filters, and X2Y. In addition, it offers electrolytic capacitors, including screw terminal, surface mount, snapin, and radial capacitors; and inductors and coils, such as chip beads, multilayer chip inductors, wire wound chip inductors, and power inductors. Further, the company provides circuit protection solutions, which include overvoltage protection components, such as TVS, MOV, GDT, SPG, ESD, and TSS; and overcurrent protection components that comprise PPTC and NTC. Additionally, it offers logistics and electronic data interchange services. The company's products are used for various applications, including aerospace, automotive, 5G and telecommunications, industrial, medical, IoT, power management, green power, and computer peripherals and electronics. It serves EMS, ODM, and OEM customers, as well as distributors. Yageo Corporation was founded in 1977 and is headquartered in New Taipei City, Taiwan.

3455 YaGuang Technology Group Company Limited engages in the design, research, development, manufacture, and sale of intelligent highperformance boats primarily in china. The company provides business boats, special boats, and yachts, as well as military assault boats, command boats, motorboats, and local garrisoned troops. The company was formerly known as Sunbird Yacht Co., Ltd. and changed its name to YaGuang Technology Group Company Limited in January 2018. YaGuang Technology Group Company Limited is based in Yuanjiang, China.

3456 Yamana Gold Inc., together with its subsidiaries, operates as a precious metal producer. It has gold and silver production, developmentstage properties, exploration properties, and land positions throughout the Americas, including Canada, Brazil, Chile, and Argentina. The company was formerly known as Yamana Resources Inc. and changed its name to Yamana Gold Inc. in August 2003. Yamana Gold Inc. was founded in 2003 and is headquartered in Toronto, Canada.

3457 YanAn Bicon Pharmaceutical Listed Company researches and develops, produces, and sells pharmaceutical intermediates, pesticide intermediates, and new energy and materials products in China. It offers pharmaceutical intermediate products, including sodium triclopyridine, 5,5dimethylhydantoin, benzaldehyde, etc.; and Chinese herbal medicines. The company also provides lithium hexafluorophosphate; and ultrahigh molecular weight polyethylene fibers for use in anticut gloves, home textiles, cables, fishing nets, fishing lines, outdoor sports wear products, bulletproof helmets, stabproof clothing, etc., as well as military industry, aerospace composite materials, oceangoing ships, naval ship ropes, ocean fishing trawls, deepsea antiwind wave cages and sporting goods equipment, construction engineering reinforcement, and performance composite materials. In addition, it is involved in the freight warehousing and leasing; cultivation and sales of medicinal herbs; ecommerce business; real estate development; transportation; postal industry; cargo freight; textile industry; and chemical fiber manufacturing. The company was formerly known as JiangSu Bicon Pharmaceutical Listed Company and changed its name to YanAn Bicon Pharmaceutical Listed Company in October 2018. YanAn Bicon Pharmaceutical Listed Company was founded in 2007 and is headquartered in Xi'an, China.

3458 Yancoal Australia Ltd engages in the exploration, development, production, and marketing of metallurgical and thermal coal in Australia, Japan, Taiwan, South Korea, Europe, Malaysia, Vietnam, Thailand, India, Chile, Indonesia, and Bangladesh. The company owns a 95% interest in the Moolarben coal mine located in the Western Coalfields of New South Wales; 82.9% interest in the Mount Thorley and Warkworth mines located in the Hunter Valley region of New South Wales; and 51% interest in the Hunter Valley Operations located to the northwest of Singleton in the Hunter Valley region of New South Wales. It also holds 100% interests in the

Yarrabee mine located to the north east of Blackwater in Central Queenslandâ€™s Bowen Basin; Ashton mine located in the Upper Hunter Valley region of New South Wales; and Stratford Duralie mine located within the New South Wales Gloucester Basin, the Stratford Duralie. In addition, the company owns a 50% interest in the Middlemount mine located to the north east of Emerald in Queenslandâ€™s Bowen Basin; and interests in sites located in New South Wales, Queensland, and Western Australia. Yancoal Australia Ltd was incorporated in 2004 and is based in Sydney, Australia. Yancoal Australia Ltd is a subsidiary of Yankuang Energy Group Company Limited.

3459 Yango Group Co.,Ltd engages in the real estate development business in China. The company develops residential, office, and industrial projects, as well as commercial complexes. It also provides property and urban renewal services, as well as asset management services. The company was founded in 1991 and is headquartered in Shanghai, China.

3460 Yantai Dongcheng Pharmaceutical Group Co.,Ltd., together with its subsidiaries, engages in the manufacture and sale of biochemical API, chemical medicines, proprietary Chinese medicines, and nuclide drugs products in China. It offers heparin, chondroitin sulphate, and glucosamine series products, as well as collagen, hyaluronic acid, and cytochrome C for use in the therapeutic areas of cardiovascular, oncology, urology, orthopedics, and other therapeutic areas. The company also exports its products to approximately 40 countries and regions, including the Europe, America, Asia Pacific, and internationally. Yantai Dongcheng Pharmaceutical Group Co.,Ltd. was founded in 1998 and is based in Yantai, China.

3461 Yaprak Sâ€™t ve Besi Âiftlikleri Sanayi ve Ticaret A.S. is involved in the animal husbandry business in Turkey. It breeds calf, heifers, and dairy animals, as well as provides health services. The company also operates milk production facilities. Yaprak Sâ€™t ve Besi Âiftlikleri Sanayi ve Ticaret A.S. was founded in 1994 and is based in Atasehir, Turkey.

3462 Yara International ASA provides environmental and industrial solutions in Norway, European Union, Europe, Africa, Asia, North and Latin America, Australia, and New Zealand. The company offers nitrogenbased fertilizers, including urea, urea ammonium nitrate, calcium ammonium nitrate, ammonium nitrate, and ammonium sulfate; compound fertilizers that contain plant nutrients, such as nitrogen, phosphorus, and potassium; and blended products, as well as foliar and fertigation solutions through micronutrients. It also offers farmer centric solutions; solutions for farming, such as crop monitoring, variable rate fertilization, NTester BT, and Driving Mode, a mobile app; NSensor, a tractormounted tool that allows growers to measure a cropâ€™s nitrogen requirement; CheckIT, a smartphone app using a library of crop photographs to give a simple and fast identification of nutrient deficiencies; TankmixIT, an app used to check for the physical compatibility when tank mixing; and Tankmix.com, an online service providing advice on the physical mixing characteristics of Yaraâ€™s foliar products with agrochemicals. The company sells its products under YaraBela, YaraLiva, YaraMila, YaraRega, YaraTera, YaraVera, and YaraVita brands name. Yara International ASA was founded in 1905 and is headquartered in Oslo, Norway.

3463 Yashili International Holdings Ltd, an investment holding company, manufactures and sells dairy and nourishment products in the People's Republic of China and internationally. It operates through four segments: Milk Powder Products; Other Milk Powder Products; Dissolvable Products; and Other Operations. The company provides infant milk formula products under the Yashily, Reeborne, Dumex, Doraler, Toponic, M8, and Arla Baby &

Me brand names. It also offers adult milk powder products under the Mengniu brand name; and milk formula for the middleaged and elderly under the Yourui brand name. In addition, the company provides various dissolvable products, such as soymilk powder, rice flour, and cereal products; and fruit oatmeal, baked cereal, yam powder, and goji drinks. Further, it is involved in the wholesale, retail, import, and export of dairy products and related materials. The company was founded in 1983 and is headquartered in Causeway Bay, Hong Kong. Yashili International Holdings Ltd is a subsidiary of China Mengniu International Company Limited.

3464 Yeo Hiap Seng Limited, an investment holding company, engages in the manufacture, marketing, distribution, and sale of food and beverage products in Singapore. It operates through two segments, Consumer Food and Beverage Products, and Others. The company offers Asian drinks, readytodrink tea, soy drinks, coconut water, sparkling water, isotonic drinks, sauces, canned food, and instant noodles. It offers its products under the Yeo's, HTWOO, Pink Dolphin, Purete, Cintan, and Sparkle brand names. The company also provides vending, warehousing, and logistics services; and invests in and develops properties. It also exports its products. The company was founded in 1900 and is headquartered in Singapore. Yeo Hiap Seng Limited is a subsidiary of Far East Organization Pte. Ltd.

3465 YG Entertaiment Inc. operates as an entertaiment company in South Korea. The company publishes and distributes digital music and other materials. It also trains and offers artists, as well as provides content services. The company was formerly known as Hyun Entertaiment and changed its name to YG Entertaiment Inc. in April 2001. YG Entertaiment Inc. was founded in 1996 and is based in Seoul, South Korea.

3466 YG1 Co., Ltd. engages in the manufacture and sale of cutting tools in South Korea. It offers milling, hole making, threading, and turning tools, as well as tooling systems. The company also exports its products to approximately 75 countries. YG1 Co., Ltd. was founded in 1981 and is headquartered in Incheon, South Korea.

3467 YiChang HEC ChangJiang Pharmaceutical Co., Ltd. develops, manufactures, and sells pharmaceutical products in the therapeutic areas of antiviral, endocrine and metabolic diseases, and cardiovascular diseases in the People's Republic of China. It also manufactures and sells active pharmaceutical ingredients; researches and develops medical devices and drugs, as well as biotechnology; and provides medical consulting services. The company sells its products to hospitals and medical institutions through a network of distributors. It has a strategic cooperation framework agreement with Alibaba Health Technology (China) Limited to carry out influenza special projects; Jointown Pharmaceutical Group Co., Ltd.; Guangdong Yihao Pharmaceutical Co., Ltd.; and Shenzhen HEC Industrial Development Co., Ltd, as well as strategic cooperative partnership with China National Accord Medicines Corporation Ltd. The company was formerly known as Yichang Changjiang Pharmaceutical Company Limited and changed its name to YiChang HEC ChangJiang Pharmaceutical Co., Ltd. in May 2015. The company was incorporated in 2001 and is based in Yichang, China. YiChang HEC ChangJiang Pharmaceutical Co., Ltd. is a subsidiary of Guangdong HEC Technology Holding Co., Ltd.

3468 Yida China Holdings Limited, an investment holding company, develops and operates business parks in the People's Republic of China. Its Property Development segment develops and sells properties. The company's Property Investment segment invests in and rents properties. Its Business Park Operation and Management segment provides operation and management services to the business park projects owned by the local

goverments or other independent third parties. The company's Construction, Decoration and Landscaping segment engages in property construction business; and the provision of interior decoration services to property buyers, as well as landscaping services to property projects. Its property portfolio includes multifunctional integrated residential community projects, office properties, and residential properties. The company was founded in 1988 and is headquartered in Shanghai, the People's Republic of China.

3469 Yieh Hsing Enterprise Co., Ltd. produces and sells steel products in Taiwan. It offers stainless, carbon, alloy, and freecutting steel wire rods, as well as deformed bars. Its products are used in manufacturing of nuts, screws, wires, automobile parts, machine parts, hardware, tools, etc. The company also exports its products to North America, South America, China, India, Southeast Asia, Northeast Asia, Europe, and the Middle East. The company was founded in 1978 and is based in Kaohsiung, Taiwan. Yieh Hsing Enterprise Co., Ltd. operates as a subsidiary of Yieh Phui Enterprise Co., Ltd.

3470 Yifan Pharmaceutical Co., Ltd. produces and sells drugs and medicines in China and internationally. It provides drugs across gynecology, pediatrics, orthopedics, and dermatology therapeutic areas; therapeutic infusion solutions; and pantothenic acid and Provitamin B5 products. The company also provides Chinese traditional medicines, women's health products, and blood tumor drugs. In addition, it offers APIs, including feed additives/animal health products, skin and hair care ingredients, functional food additives, and fine chemicals; and PBAT/PBS biodegradable resins and PVB films. The company was formerly known as Yifan Xinfu Pharmaceutical Co., Ltd. and changed its name to Yifan Pharmaceutical Co., Ltd. in October 2016. Yifan Pharmaceutical Co., Ltd. was founded in 2000 and is based in Hangzhou, China.

3471 Yinbang Clad Material Co., Ltd. researches, develops, produces, and sells aluminum clad and multimetal clad materials in China. The company offers aluminum heat transfer materials, multimetal composite materials, aluminumsteel composite materials, and aluminum alloy composites. Its aluminum clad materials are used in heat exchangers for automotive and offhighwayvehicles; air conditioning; and energy industry. The company also provides multilayer clad products, including aluminum copper and rigid, copper steel, and aluminum stainless steel products for use in heat exchangers, aircooled power stations, car components, domestic appliances, cookware, telecommunication equipment, marine engineering, aerospace and aviation, and machinery and metallurgy. Yinbang Clad Material Co., Ltd. was founded in 1988 and is headquartered in Wuxi, China.

3472 Ying Li International Real Estate Limited, an investment holding company, engages in the development, sale, rental, management, and ownership of commercial, residential, and other properties in Singapore, Hong Kong, and the People's Republic of China. It operates through Property Development and Property Investment segments. The company primarily develops office, retail, car park, and other projects. It is also involved in the provision of property consulting, selling, marketing, management, and leasing services, as well as corporate management consultancy services. The company was incorporated in 1991 and is headquartered in Singapore. Ying Li International Real Estate Limited is a subsidiary of State Alpha Limited.

3473 Yinson Holdings Berhad, an investment holding company, operates as a floating, production, storage, and offloading (FPSO) service provider. The company operates through Offshore Production & Offshore Marine, Renewables, and Other operations segments. It designs, constructs, leases, and subleases FPSO on a bareboat or time charter basis, as well as offers related operation and maintenance services; builds, owns, and

operates renewable generating assets; sells electricity; and owns, operates, and charters offshore support vessels and tankers. The company also offers management, treasury management, work permit, and business and management consultancy services. In addition, the company provides ship management services; floating marine assets for chartering and service activities incidental to oil and gas extraction; and engineering design and consultancy services relating to the offshore oil and gas industry. 3474 Yintai Gold Co., Ltd. explores for, mines, and trades in precious and nonferrous metals. It explores for gold, lead, zinc, and silver polymetallic deposits. The company was formerly known as Yintai Resources Co., Ltd and changed its name to Yintai Gold Co., Ltd. in February 2013. Yintai Gold Co., Ltd. was founded in 1999 and is based in Beijing, China.

3475 Yiwu Huading Nylon Co., Ltd. engages in the research, development, manufacture, and sale of nylon filaments primarily in China. The company offers nylon 6 POY, HOY, FDY, ACY, ATY, and DTY products. Its products are used for sports and leisure clothing, swimwear, down jackets, seamless underwear, lace, suits, shirts, T-shirts, fashion fabrics, and high-end socks. The company also exports its products to South America, Southeast Asia, the Middle East, and other countries and regions. Yiwu Huading Nylon Co., Ltd. was founded in 2002 and is based in Yiwu, China.

3476 Yizumi Holdings Co., Ltd. designs, researches and develops, manufactures, sells, and services various molding machines in China and internationally. It offers injection molding machines, diecasting machines, rubber injection molding machines, industrial 3D printing machines, and robotic automation systems, as well as high-speed packaging systems. The company was formerly known as Guangdong Yizumi Precision Machinery Co., Ltd. and changed its name to Yizumi Holdings Co., Ltd. in November 2022. Yizumi Holdings Co., Ltd. was founded in 2002 and is headquartered in Foshan, China.

3477 YJM Games Co., Ltd. engages in the development of smartphone and IT core components in South Korea. The company offers brush coin type motors, BLDC coin type motors, cylindrical DC motor or bar type motor, and linear ac motors. It is also involved in the mobile games and VR/AR/MR games businesses. The company was formerly known as Young Bag Micro Motor Co., Ltd. and changed its name to YJM Games Co., Ltd. in March 2016. YJM Games Co., Ltd. was founded in 2004 and is headquartered in Seoul, South Korea.

3478 YLZ Information Technology Co., Ltd provides information services for livelihood industries in China. It provides its solutions in the areas of medical insurance, health, human resources and big data innovation, and intelligent IoT fields. YLZ Information Technology Co., Ltd was founded in 2000 and is based in Xiamen, China.

3479 Yong Tai Berhad, an investment holding company, engages in the tourism-related property development business in Malaysia. It develops residential and commercial properties; and invests in properties. The company also engages in the provision of asset and facilities management business, which include consultancy, mall management, project management, and corporate office management; hospitality and tourism business, such as hotel and accommodation, and food and beverages. In addition, it offers land acquisition, concept design, permit approval, architecture planning, site construction, and sales and marketing services, as well as assisted living, wellness, education, and international terminal cruise. The company was founded in 1971 and is headquartered in Melaka, Malaysia.

3480 Yonwoo Co. Ltd, a packaging company, manufactures and sells cosmetic dispenser pumps for skin and personal care markets in Korea and internationally. The company was founded in 1983 and is headquartered in

Incheon, South Korea. As of July 1, 2022, Yonwoo Co. Ltd operates as a subsidiary of Kolmar Korea Co., Ltd.

3481 YOOZOO Interactive Co., Ltd. engages in the development, distribution, publishing, and operation of mobile and web games. It provides Game of Thrones Winter Is Coming; ThirtySix Strategies; The Emperor; Era of Celestials; Saint Seiya Awakening: Knights of the Zodiac; League of Angels, League of Angels II, and League of Angels III; League of AngelsHeaven's Fury; Legacy of Discord; Light of Thel: Glory of Cepheus; Rangers of Oblivion; and Paradise Land games, as well as Youth series of card mobile games. The company was formerly known as YOOZOO Games Co., Ltd. and changed its name to YOOZOO Interactive Co., Ltd. in April 2021. YOOZOO Interactive Co., Ltd. was founded in 2009 and is based in Shanghai, China.

3482 Yorhe Fluid Intelligent Control Co., Ltd. designs, develops, produces, and sells brass ball valves in China, Europe, the United States, and internationally. The company's products portfolio includes heating systems, lead free ball valves, gas and ball valves, bib cocks, angel and gate valves, push fit fittings, carbon steel tubing, copper press systems, stainless steel systems, carbon press fittings, and zinc plated carbon press fittings, as well as low pressure values, push, PEX, press, brass and copper, and conduit fittings; and flexible supply lines. It also provides radiator, thermostatic radiator, and certified thermostatic radiator valves; bathroom products; and basin waste products. Yorhe Fluid Intelligent Control Co., Ltd. was founded in 2003 and is headquartered in Yuhuan, China.

3483 York Timber Holdings Limited, an investment holding company, engages in the forestry, sawmilling, plywood, wholesale, farming of citrus, avocados and macadamias and the hospitality industry businesses. It operates through four segments: Processing Plants, Forestry and Fleet, Wholesale, and Agricultural. The Processing Plants segment operates three sawmills, which produces and sells a range of structural and industrial sawn timber products; and a plywood plant that offers plywood timber products. The Forestry and Fleet segment owns plantations, which grows pine and eucalyptus trees in the Mpumalanga Province; and engages in the provision of fleet solutions that owns heavy motor vehicles that are used to transport logs. The Wholesale segment operates five distribution centers, which sells timberrelated products from the sawmills, plywood plants, and external suppliers in Germiston, Polokwane, Gqeberha, Durban, and Cape Town. The Agricultural segment owns land with avocados, citrus and macadamias orchards, fruit packaging facility, and lumber and pallet plants. The company was incorporated in 1916 and is headquartered in Sabie, South Africa.

3484 YouGov plc provides online market research services in the United Kingdom, the United States, Germany, the Nordic countries, the Middle East, Mainland Europe, and the Asia Pacific. It operates through three divisions: Data Products, Data Services, and Custom Research. The Data Products division offers syndicated data products, which are available to clients on a subscription basis. The Data Services division provides clients with fastturnaround services. The Custom Research division offers a range of quantitative and qualitative research services. It is also involved in the software development. YouGov plc was incorporated in 1998 and is headquartered in London, the United Kingdom.

3485 "Young Poong Paper Mfg Co.,Ltd. manufactures and sells paper products. It offers core boards that are used in manufacturing paper cores and tubes; and liner boards for use in manufacturing corrugated boards and boxes. The company was founded in 1970 and is headquartered in Pyeongtaek, South Korea. Young Poong Paper Mfg Co.,Ltd. is a subsidiary of Daiyang Metal Co., Ltd..

"

3486 Youngor Group Co.,Ltd engages in the real estate development and financial investment activities in China and internationally. The company develops real estate properties, as well as offers hotel management, tourism development, health care, and other related services. It also engages in wool, hemp, and cotton spinning business; and designs and manufactures shirts, suits, trousers, jackets, ties and Tshirts under the Youngor, Mayor Youngor, Hart Schaffner Marx, HANP, and CEO brands. In addition, the company engages in the trading of oil, chemical products, iron and steel, nonferrous metals, and agricultural products; foreign trade; auto trading business; and logistics and bidding business. Youngor Group Co.,Ltd was founded in 1979 and is based in Ningbo, China.

3487 Youngwire Co., Ltd. manufactures and sells wire rope products. It offers general, paralleled, nonrotating, and compact wire ropes, as well as swaged, cable laid, and EV and IP ropes; steel wires for beds, springs, and rolling products; control cables, which are used for machinery operations and automobiles; and PC strands for use in nuclear power plants, railroad ties, bridges, bridge piers, and elevated roads. The company also provides XBon products for use in concrete electric pole and pile reinforcing, reinforcement of building columns, bents, reinforcing ducts, piles, poles, hume piles, beams, sheet piles, and high stressed pile; CD bars that are used in OA and optical instrument, and automotive applications, as well as for bolt, lench, tools, and spring; and IT wires that are used for automobile suspension coil springs. Further, the company provides industrial packaging materials; and port and inland logistic services. The company exports its products to the United States, Europe, Asia, and internationally. The company was formerly known as Young Heung Iron & Steel Co., Ltd. Youngwire Co., Ltd. was founded in 1977 and is headquartered in Boryeong, South Korea.

3488 YPF Sociedad AnÃ³nima, an energy company, engages in the oil and gas upstream and downstream activities in Argentina. The company's upstream operations include the exploration, development, and production of crude oil, natural gas, and NGLs. Its downstream operations include the refining, marketing, transportation, and distribution of oil, petroleum products, petroleum derivatives, petrochemicals, LPG, and biofuels, as well as in gas separation, natural gas distribution operations, and power generation. As of December 31, 2021, it had interests in 119 oil and gas fields; approximately 643 million barrels (mmbbl) of oil; and approximately 2,447 billion cubic feet (bcf) of gas. It also had a retail distribution network of 1,654 YPFbranded service stations; and 18 exploration permits. In addition, the company owns and operates three refineries with combined annual refining capacity of approximately 120 mmbbl; approximately 2,800 kilometers of crude oil pipelines with approximately 640,000 barrels of aggregate daily transportation capacity of refined products; and crude oil tankage of approximately 7 mmbbl, as well as maintains terminal facilities at five Argentine ports. Further, it participates in 21 power generation plants with an aggregate installed capacity of 3,091 megawatts; offers diesel, fertilizers, lubricants, phytosanitary products, and ensiling bags; and supplies diesel, gasoline, fuel oil, coal, asphalts, paraffin, and sulfur, CO2, decanted oil, and aromatic extract. The company was founded in 1977 and is headquartered in Buenos Aires, Argentina.

3489 YTL Power International Berhad, an investment holding company, provides electricity, clean water, sewerage system, and communication services in Malaysia and internationally. It operates through five segments: Power Generation (Contracted), Multi Utilities Business (Merchant), Water and Sewerage, Telecommunications Business, and Investment Holding Activities. The company owns and operates power plants

with total generating capacity of 3,100 megawatts (MW) and multi utility operations in Singapore; solar photovoltaic power plants; and high voltage electricity transmission network in Australia, as well as supplies water and treats sewage and wastewater in the United Kingdom. It also owns and operates 4G wireless broadband network under the YES brand; provides wired line and wireless broadband access, and other related services; and offers oil trading and oil tank leasing, financial, engineering, computer systems integration, housing development, construction management, and consultancy services. In addition, the company issues bonds; develops web environment products and arena; operates as a license reseller for virtual learning educational platforms; operates electric vehicle charging station; and designs and constructs power generating facilities. Further, it engages in the trading of fuel related derivative instruments; hotel and food waste treatment business; processing of digital payments through emoney platform; sale of byproducts from the electricity generation process; development, operation, and marketing of data centre projects and related infrastructure, services, and activities; and planning, implementation, and maintenance of telecommunication towers and related services. The company is headquartered in Kuala Lumpur, Malaysia.

3490 YTO Express Group Co.,Ltd. provides express delivery and logistics services in China and internationally. It offers domestic timesensitive products, international express and parcel services; and valueadded, warehousing, freight forwarding, aviation, and other services. The company was founded in 2000 and is based in Shanghai, China.

3491 Yuan Cheng Cable Co.,Ltd. engages in the design, research and development, production, and sales of wire and cable products in China. It offers low, medium, and high voltage power cables; control, overhead insulated, mineral insulated, fireproof, special, and nuclear cables; cloth wires; and other wire products. The company was formerly known as Recon Wen Yuan Cable Co., Ltd. and changed its name to Yuan Cheng Cable Co.,Ltd. in January 2019. Yuan Cheng Cable Co.,Ltd. was founded in 2001 and is based in Yixing, China.

3492 Yuan Long Ping HighTech Agriculture Co., Ltd. engages in cultivating, promoting, and selling of crop seeds and seedlings in China. The company primarily offers rice, corn, vegetables, cotton, wheat, rape, and other seeds; develops, promotes, and sells pesticides and fertilizers; processes and sells agricultural and sideline products; and provides agricultural hightech development, agricultural technology consulting, and training services. It is also involved in the import and export business of goods and technologies; land development investment; and other investment businesses, as well as land consolidation and restoration business. The company was founded in 1999 and is headquartered in Changsha, China.

3493 Yuancheng Enviroent Co., Ltd. engages in the ecological landscape, green environmental protection, and leisure tourism businesses in China. The company was founded in 1999 and is headquartered in Hangzhou, China.

3494 YuanShengTai Dairy Farm Limited, a dairy farming company, engages in the production and sale of raw milk in the People's Republic of China. As of December 31, 2021, it had eight farms in Heilongjiang Province and one farm in Jilin Province with a total site area of approximately 7,791,700 square meters. The company was founded in 2008 and is headquartered in Qiqihar, the People's Republic of China.

3495 Yuexiu Transport Infrastructure Limited, together with its subsidiaries, invests in, develops, operates, and manages expressways and bridges in the People's Republic of China. As of December 31, 2021, the company had a total of 15 investments in operating expressways and bridge projects comprising Guangzhou Northern Second Ring Expressway, Guangzhou

Western Second Ring Expressway, Guangzhou Northern Ring Road, Guangdong Humen Bridge, Shantou Bay Bridge, and Guangdong Qinglian Expressway located in the Guangdong Province; Cangyu Expressway in Guangxi Zhuang Autonomous Region; Jinxiong Expressway in Tianjin Municipality; HanXiao Expressway, Suiyuanan Expressway, Hancui Expressway, Hanâ€™s Expressway, and Daguangnan Expressway in Hubei Province; Changzhu Expressway in Hunan Province; and Weixiu Expressway in Henan Province with a attributable toll length of approximately 416.6 kilometers. It also holds properties. The company was formerly known as GZI Transport Limited and changed its name to Yuexiu Transport Infrastructure Limited in May 2011. Yuexiu Transport Infrastructure Limited was founded in 1996 and is headquartered in Wan Chai, Hong Kong.

3496 Yuk Wing Group Holdings Limited, an investment holding company, designs, manufactures, and trades in downthehole (DTH) rock drilling tools in Hong Kong, Macau, the Peopleâ€™s Republic of China, and internationally. The company operates through Manufacturing and Trading of DTH Rockdrilling Tools; Trading of Piling and Drilling Machineries; and Trading of Rockdrilling Equipment segments. It offers DTH hammers, casing systems, button bits and bit openers, drill pipes, cluster drills, and casing tubes. The company also trades in piling and drilling machineries, and rock drilling equipment. Its products are used in building foundation and piling on construction sites, mining and quarrying, water well drilling, utility linings, microtunneling, and overburden drilling. The company was founded in 1997 and is headquartered in Central, Hong Kong. Yuk Wing Group Holdings Limited is a subsidiary of Colour Shine Investments Limited.

3497 Yulho Co., Ltd. manufactures and sells server/storage and software solutions. It also manufactures, distributes, and sells womenâ€™s clothes; and produces and sells travel bags, handbags, duffel bags, etc. In addition, the company retails small currents and computerrelated components. Yulho Co., Ltd. was founded in 1998 and is based in Seoul, South Korea.

3498 Yum China Holdings, Inc. owns, operates, and franchises restaurants in China. The company operates through two segments, KFC and Pizza Hut. It operates restaurants under the KFC, Pizza Hut, Little Sheep, Huang Ji Huang, Lavazza, COFFii & JOY, Taco Bell, and East Dawning brands, which specialize in chicken, pizza, hot pot cooking, simmer pot, Italian coffee, specialty coffee, Mexicanstyle food, and Chinese food categories. 3513 Zentiva S.A. engages in the production and marketing of preparations and medicines for human use in Romania and internationally. Its product portfolio includes tablets, capsules, and pellets, as well as injectable solutions. The company was formerly known as Sicomed S.A. and changed its name to Zentiva S.A. in January 2006. Zentiva S.A. was founded in 1962 and is headquartered in Bucharest, Romania. Zentiva S.A. is a subsidiary of Zentiva Group a.s.

3514 Zhanjiang Guolian Aquatic Products Co., Ltd. engages in the research, development, breeding, acquisition, freezing, processing, and sale of aquatic products in China and internationally. The company offers fresh prawns/shrimps and fresh fish; and prepacked, fresh, and crumbed seafood products. It is also involved in the manufacture and sale of aquatic feeds. Zhanjiang Guolian Aquatic Products Co., Ltd. was founded in 2001 and is headquartered in Zhanjiang, China.

3515 Zhaojin Mining Industry Company Limited, an investment holding company, engages in mining, processing, smelting, and sale of gold, silver, and copper products in the People's Republic of China. The company operates through three segments: Gold Operations, Copper Operations, and Others. It produces gold products under the Zhaojin brand. The company is also involved in the purchase of gold concentrates; processing of sulphur ore; processing, smelting, and treatment of waste water, waste gas, and waste residue; freight transportation; engineering design and development; and mining and smelting of other precious metals, as well as mining, smelting, and sale of ceramic materials. In addition, it offers accommodation, catering, financial, and advisory services, as well as engages in the material trading and construction businesses. The company was incorporated in 2004 and is headquartered in Zhaoyuan, the People's Republic of China.

3516 Zhejiang Baida Precision Manufacturing Corp. engages in the research, development, manufacture, and sale of compressor and auto parts in China. It offers airconditioning compressors, refrigerator compressors, air compressors, blades, balance blocks, auto parts, hardware, machinery, and equipment and electrical accessories. The company was founded in 1995 and is based in Taizhou, China.

3517 Zhejiang Century Huatong Group Co.,Ltd engages in the auto parts, Internet games, and cloud data business in China and internationally. The company's Auto Part Manufacturing division engages in the research, development, production, and sale of automotive plastic parts and metal stamping parts. Its Internet Game division focuses on the research and development, operation, licensing, and investment in the entertainment industry. The company's Cloud Data division provides Internet data center services, equipment leasing, and other solutions. The company was founded in 2005 and is based in Shaoxing, China.

3518 Zhejiang Cheng Yi Pharmaceutical Co., Ltd. produces and sells APIs and capsules/tablets in China. The company was formerly known as Wenzhou No. 3 Pharmaceutical Factory and changed its name to Zhejiang Cheng Yi Pharmaceutical Co., Ltd. in April 2001. Zhejiang Cheng Yi Pharmaceutical Co., Ltd. was founded in 1966 and is headquartered in Wenzhou, China.

3519 Zhejiang CONBA Pharmaceutical Co.,Ltd. engages in the research and development, production, and sale of traditional Chinese medicines and botanical products in China. It offers chemical medicines, Chinese patent medicines, eye health products, nutritional supplements, health supplies, healthy daily necessities and food products, and other personal care products. The company was formerly known as Lanxi Yunshan Pharmaceutical Factory and changed its name to Zhejiang CONBA Pharmaceutical Co.,Ltd. in October 1999. Zhejiang CONBA Pharmaceutical Co.,Ltd. was founded in 1969 and is headquartered in Hangzhou, China. Zhejiang CONBA Pharmaceutical Co.,Ltd. is a subsidiary of Zhejiang Traditional Chinese Medicine Health Industry Group Co., Ltd.

3520 Zhejiang Feida Enviroental Science & Technology Co., Ltd. engages in design, production, sale, and installation of enviroental protection equipment in the People's Republic of China. It offers flue gas, water, and solid waste pollution control, as well as other equipment. The company was founded in 1969 and is headquartered in Zhuji, China.

3521 Zhejiang Fuchunjiang Enviroental Thermoelectric Co.,LTD. generates and sells electricity and heat in China. The company generates power using solid waste, garbage, and hazardous waste resources. It is also involved in solid waste disposal, hazardous waste disposal cogeneration and thermal power energy conservation, and enviroental protection business. The company was founded in 2003 and is based in Hangzhou, China.

3522 Zhejiang Great Shengda Packaging Co.,Ltd. develops, produces, and sells paper packaging products. It offers watermark cartons, preprint products, creative products, paper trays and paper corners, and boutique packaging products. The company was founded in 2004 and is headquartered in Hangzhou, China. Zhejiang Great Shengda Packaging Co.,Ltd. is a subsidiary of Hangzhou Xinshengda Investment Co., Ltd.

3523 Zhejiang Hailide New Material Co.,Ltd engages in the research, develops, produces, and markets industrial polyester yarns, plastic materials, tire cord fabrics, and plastic floors in China and internationally. The company's products include industrial polyester filament yarns; architectural membrane materials, enviroental materials, industrial fabrics, TPU series, PVC ceiling films, tent materials, truck tarpaulins, inflatable boat materials, storage materials, pool cloth, advertising inkjet materials, functional materials, etc. Its products are used in tensile structures architecture, enviroental project, logistics

transportation, sports and leisure, inflatable toy, advertising media, and decorative soft film. Zhejiang Hailide New Material Co.,Ltd was founded in 2001 and is based in Haining, China.

3524 Zhejiang Hangmin Co.,Ltd, together with its subsidiaries, engages in the textile printing and dyeing activities in China. The company offers corduroy, cotton, stretch cotton, shirting, and linen fabrics; weaving; and nonwoven fabrics, spunlace, fiber blended fabrics, facsimile fabrics, printed fabrics, etc. It is also involved in the thermoelectric, logistics, and sewage treatment activities. The company exports its products to Southeast Asia, the Middle East, North America, the European Union, Hong Kong, Macao, and internationally. Zhejiang Hangmin Co.,Ltd was founded in 1998 and is based in Hangzhou, China.

3525 Zhejiang Huayou Cobalt Co., Ltd engages in the research, development, manufacture, and sale of lithium battery materials and cobalt materials in China and internationally. The company's products include battery grade cobalt tetroxide and cobalt sulfate, and cobalt oxide; electrodeposited copper and copper oxide; cobalt trioxide, cobalt cathode, cobalt hydroxide battery grade, iron phosphate, and ferric phosphate; and Li carbonic acid and ternary precursors. Its products are used for Liion battery cathode material, high temperature alloy for aviation and aerospace, cemented carbide, colorant and glaze material, rubber adhesive, petrochemical catalysts, magnetic materials, glass, as well as used in the manufacture of dyes, paint, antiwrinkle, and fireworks. The company was founded in 2002 and is headquartered in Tongxiang, China.

3526 Zhejiang Hugel Leaf Co.,Ltd. produces and sells biological pesticides, veterinary drugs, and feed additive products. It also engages in the combined heat and power, online game research and development, and agency distribution and other related businesses. The company was formerly known as Zhejiang Shenghua Biok Biology Co., Ltd. and changed its name to Zhejiang Hugel Leaf Co., Ltd. in May 2017. Zhejiang Hugel Leaf Co., Ltd. was founded in 1999 and is based in Shanghai, China.

3527 Zhejiang Jingu Company Limited researches, develops, produces, and sells steel rolling wheels in China. It offers high vent, semifullface, full face, and light wheels; passenger car wheels; tubeless truck/bus wheels; trailer wheels; snow car wheels; UTV wheels; and agricultural vehicle wheels. It is involved in the production and sale of tubeless drop well steel wheels and auto parts; sale of automobile and motorcycle accessories; and provision of services, such as changing and repairing tires, dynamic balance, and four wheel aligent, as well as importexport business. The company also exports its products to Europe, the United States, and Southeast Asia. Zhejiang Jingu Company Limited was founded in 1986 and is headquartered in Fuyang, China.

3528 Zhejiang Jinke Tom Culture Industry Co., Ltd. engages in the production, distribution, and operation of online early childhood education business. The company primarily develops Talking Tom Cat Family mobile application for parents and children. It also provides animation film and television services; IP derivates; and advertising services, as well as develops and operates games. The company was formerly known as Zhejiang Jinke Culture Industry Co., LTD. and changed its name to Zhejiang Jinke Tom Culture Industry Co., Ltd. in August 2021. The company was founded in 2007 and is headquartered in Hangzhou, China.

3529 Zhejiang Jiuzhou Pharmaceutical Co., Ltd manufactures and sells active pharmaceutical ingredients (API) and intermediates in China and internationally. Its API pipeline comprise central nervous system, nonsteroidal, antiinfection, hypoglycemic and antiviral, tumor treatment, antidepressant, Parkinson, HCV drugs, diabetes, cardiovascular, and respiratory antiinfection drugs. The company also provides asymmetric

catalysts and lithium battery materials. Zhejiang Jiuzhou Pharmaceutical Co., Ltd was founded in 1973 and is headquartered in Taizhou, China.

3530 Zhejiang Jolly Pharmaceutical Co., Ltd. engages in the research, production, and marketing of Chinese medicinal products in China and internationally. The company offers Wuling capsule that is used to treat insomnia, amnesia, heart palpitations, lack of energy, lassitude in loin and legs, and giddy tinnitus, as well as deficiency of energy and weak pulse caused by the disharmony of heart and kidney, or neurasthenia. It also provides Lingze tablet, which is used to treat frequent urination, dysuria, weak stream of urine, endless urine, and soreness and weakness of waist and knees caused by benign prostatic hyperplasia, kidney deficiency, and blood stasis; and Bailing tablet that is used as the adjuvant therapy to treat cough, asthma, back pain, and chronic bronchitis, which are caused by the deficiency of lungs and kidney. In addition, the company offers Linglianhua particles for the treatment of symptoms, including sweating, insomnia, dysphoria, heart palpitations, dreaminess, giddy tinnitus, lassitude in loin and legs, dry stool, and abnormal furred tongue, as well as weak pulse caused by perimenopausal syndrome, or disharmony of heart and kidney. Further, it provides azithromycin, clindamycin phosphate, doxapram, pefloxacin mesylate, adenosine cyclophosphate, and sodium nitroprusside injections. Additionally, the company offers materials, such as cordyceps cephalosporium, fermented cordyceps, and Wuling powders. It also invests and participates in the medical services of Deqing No.3 People's Hospital. The company was formerly known as Zhejiang Jolly Pharmaceutical Health Products Co., LTD. and changed its name to Zhejiang Jolly Pharmaceutical Co., Ltd. in 1998. Zhejiang Jolly Pharmaceutical Co., Ltd. was founded in 2000 and is based in Huzhou, China.

3531 Zhejiang Kan Specialities Material Co., Ltd. produces and sells special long fiber and electrical papers. The company offers electrolytic capacitors, nonheat and heat sealed tea filters, cigarette tipping base papers, paper series for tapes, and vacuum cleaner bag papers. Zhejiang Kan Specialities Material Co., Ltd. was founded in 1940 and is based in Lishui, China.

3532 ZheJiang KangLongDa Special Protection Technology Co., Ltd. designs, develops, produces, and sells labor protection products and solutions primarily in Europe, the United States, and Japan. The company wearresistant, cutresistant, tearresistant, impactresistant, chemicalresistant, antistatic, and heat and coldresistant gloves, as well as other functional labor protective gloves used in construction, electric power, electronics, automobile, machinery manufacturing, metallurgy, petrochemical, mining, and other industries. It also provides labor protection gloves, glasses, shoes, hats, clothing, etc. The company was formerly known as Shangyu Dongda knit Co.,Ltd. ZheJiang KangLongDa Special Protection Technology Co., Ltd. was founded in 2000 and is based in Shaoxing, China.

3533 Zhejiang Shengyang Science and Technology Co., Ltd., together with its subsidiaries, engages in the development, production, and sale of communication equipment for radio frequency cable industries and satellite communications operators primarily in China, Europe, and the United States. It offers 75ohm coaxial cables, data cables, electronic wires and other products, and high frequency heads for use in cable TV, satellite TV, fixed network, and other standard signal transmission systems. The company was formerly known as Zhejiang Shengyang Cable Co., Ltd. and changed its name to Zhejiang Shengyang Science and Technology Co., Ltd. in October 2010. Zhejiang Shengyang Science and Technology Co., Ltd. was founded in 2003 and is based in Shaoxing, China.

3534 Zhejiang Shibao Company Limited, together with its subsidiaries, researches, designs, develops, produces, and sells automotive steering systems and components in the People's Republic of China. The company offers automotive steering gears, and other components and parts of steering system. It also provides hydraulic power recirculating ball steering gears for use in commercial vehicles; and electric power steering, and intelligent steering systems for use in passenger cars and commercial vehicles. Zhejiang Shibao Company Limited supplies steering products to automakers. The company was founded in 1984 and is headquartered in Hangzhou, the People's Republic of China. Zhejiang Shibao Company Limited is a subsidiary of Zhejiang Shibao Holding Group Co., Ltd.

3535 Zhejiang Sunriver Culture Co.,Ltd. engages in the animation, film and television, game, and reading businesses in China. It offers Internet animation, such as new media, cultural travel, and original animations, as well as animation copyright authorization. The company also engages in the production and sale of animated films, TV series, short films, and ads. In addition, it provides Internet promotion and Internet finance services, as well as mobile boutique games. Further, the company offers Xiangyue APP, adigital reading platform; panpsychological reading mentality service; and animation education services, such as vocational skills training, children animation educations, and other modules. The company was formerly known as Zhejiang Wanjia Co., Ltd. and changed its name to Zhejiang Sunriver Culture Co.,Ltd. in September 2017. Zhejiang Sunriver Culture Co.,Ltd. was founded in 1992 and is based in Hangzhou, China.

3536 Zhejiang Tiantie Industry Co., Ltd. engages in the development, manufacture, and sale of noise and vibration control technology and rubber products for rail, level crossings, buildings, and industrial applications in China. It offers tuned mass damper, sleeper boots, ballast mats, modular rubber level crossing, TULC/tiantie unity level crossing, sound absorbing panels, rail pads, FST steel springs, track mats, rubber bearings/springs, and rail dampers. The company was founded in 2003 and is headquartered in Taizhou, China.

3537 Zhejiang Unifull Industrial Fibre Co., Ltd. engages in the research and development, production, and sale of polyester industrial fibers in China and internationally. The company manufactures and sells industrial polyester yarns, dipped tire cord fabrics, dipped conveyor belt fabrics, dipped cords, and PVC ceiling films. It also offers cord fabrics and canvas products, as well as lithium batteries for new energy vehicles and other commodities. The company was founded in 2003 and is headquartered in Huzhou, China.

3538 Zhejiang Waa Co., Ltd. engages in the manufacture and sale of communication cables in China and internationally. It offers power, XLPE insulated, medium and low voltage, fireresistant, civil building, and other cables. The company also provides coaxial cables, indoor and outdoor optical cables, security data cables, component cables, etc. Its cables are used in industrial robots, semiconductor equipment, lithium battery manufacturing, lithography machines, industrial automation assembly lines, construction machinery, medical equipment, textile machinery, food machinery, and other automated intelligent precision equipment. Zhejiang Waa Co., Ltd. was founded in 1996 and is based in Hangzhou, China.

3539 Zhejiang Wansheng Co., Ltd. produces and sells organic phosphorusbased flame retardants, special amines, and cardanol based curing agents and diluents in China. The company offers flame retardants for rigid PU, PC/ABS, flexPU, HIPS/MPPO, PVC/soft, epoxy resin, intermediates, and others. It also provides solvent free curing agents,

nonactive and active epoxy diluent, and cardanol products. In addition, the company offers amine, pyrrolidone, fatty tertiary amine, amine, and amide related products. The company's products are used in automobiles, electronic appliances, network communication equipment, construction, furniture, medicine, pesticides, oil additives, electronic chemicals, chemical products, ship anticorrosion, bridge anticorrosion, marine engineering anticorrosion, wind power generation anticorrosion coatings, floor coatings and other sectors. Zhejiang Wansheng Co., Ltd. was founded in 1995 and is based in Linhai, China.

3540 Zhejiang Yatai Pharmaceutical Co., Ltd. researches, produces, sells, and exports pharmaceutical products in China and internationally. It offers tablets, capsules, patches, powder injections, and troches. It also provides chemical agents and raw materials, and diagnostic reagents, as well as pharmaceutical research and development outsourcing services. Zhejiang Yatai Pharmaceutical Co., Ltd. was founded in 1989 and is based in Shaoxing, China.

3541 Zhejiang Yilida Ventilator Co., Ltd. engages in the manufacture and sales of central air conditioner and building fans in China and internationally. It offers air conditioner and refrigeration products, manufacturing equipment, and axial fans. The company also provides automobile charger, DC converter, and other products that are used in electric vehicles, forklifts, golf carts, solar power, wind and electric power communications, rail systems, and other industries, as well as lightweight components, such as automotive transmission housing, engine box, retarder housing, etc. In addition, it offers vessel and marine protective, function, and composite materials for military and civilian markets; testing and checking facilities; and support services. The company offers its products under the Yilida, Wolter, Fulihua, ESSENTEC, AMMT, TC Charger, and Sanjin brand names. Zhejiang Yilida Ventilator Co., Ltd. was founded in 1994 and is headquartered in Taizhou, China.

3542 Zhejiang Yongtai Technology Co., Ltd. engages in the research and development, manufacture, and sale of fluorinate chemicals in China. The company was founded in 1999 and is headquartered in Linhai, China.

3543 Zhejiang Zheneng Electric Power Co., Ltd. engages in thermal power generation business in China. It also provides thermal products, as well as invests in nuclear power projects. In addition, the company engages in gas power, cogeneration, integrated energy, and other businesses; operation of ports; and engineering maintenance, as well as electrical equipment and engineering, and trading business. The company was formerly known as Zhejiang Electric Power Development. The company was founded in 1985 and is headquartered in Hangzhou, China. Zhejiang Zheneng Electric Power Co., Ltd. is a subsidiary of Zhejiang Energy Group Co., Ltd.

3544 Zheneng Jinjiang Enviroent Holding Company Limited generates and sells electricity and steam in the People's Republic of China, India, Singapore, Indonesia, and Germany. It operates through WasteToEnergy Project Construction and Operation; and Project Technical and Management Service, Equipment Selection and Sale, and EMC Business segments. It provides waste treatment services; project management, technical consulting and advisory, equipment selection, and energy management contracting services; and construction services under service concession arrangement. The company also operates power plants. As of December 31, 2022, it operated 25 wastetoenergy facilities, 2 kitchen waste treatment facilities, and 9 resource recycling facilities in the People's Republic of China with a total installed waste treatment capacity of 41,955 tons/day. The company was formerly known as China Jinjiang Enviroent Holding Company Limited and changed its name to Zheneng Jinjiang Enviroent Holding Company Limited in November 2019. Zheneng

Jinjiang Enviroent Holding Company Limited was founded in 1998 and is headquartered in Hangzhou, the People's Republic of China.

3545 Zhewen Pictures Group co.,ltd produces and sells yarns in China. The company offers worsted, semiworsted, fancy, slubbed, and other knitted yarns; and worsted fabrics. It provides its products under the SINFONIA, ARMONIA, REGAL, LANIFICIO LA MALPENG, and PALLADIO brand names. In addition, the company engages in the hotel, film and television, and sewage treatment businesses. Zhewen Pictures Group co.,ltd was founded in 1993 and is based in Zhangjiagang, China.

3546 Zhong Fu Tong Group Co., Ltd. provides communication network construction, maintenance, and optimization services in China. It provides communication network construction, maintenance, and optimization services for telecom operators, communication equipment vendors, radio, and television networks; and technical services, such as communication network engineering construction, construction integration, operation management, fault repair and daily maintenance, and technical services. The company also offers informatization software services. In addition, the company provides communication systems, smart community management platforms, garbage classification intelligent monitoring systems, population information management systems, public security comprehensive management information systems, and social security comprehensive management and control platforms; and information management platform, smart house number management system, standard address management platform, public security convenience selfservice systems, and other software and hardware products. Further, the company sells communication terminals, electronic products, and other parts. Zhong Fu Tong Group Co., Ltd. was founded in 2001 and is based in Fuzhou, China.

3547 Zhongman Petroleum and Natural Gas Group Corp., Ltd., an oil and gas company, engages in the drilling and completion engineering services, and petroleum equipment manufacturing businesses. The company explores for, develops, and produces oil and gas deposits. It also offers drilling and completion services, including integrated drilling engineering, equipment management, production management, and project management services, as well as cover drilling, wireline logging, mud logging, cementing, well completion, drilling fluid, and directional well, and wells technology integration services; and drilling technical services. In addition, the company designs, manufactures, leases, sells, and technical services petroleum drilling equipment; and researches, develops, manufactures, and sells land drilling rigs, components, electrical control systems, and intelligent products. Further, it offers presale and in sale services, such as assembling tests, technical directing, customer training to operation support, maintenance with fullweather service, etc.; maintenance services; weather technical consultation, spare parts supply, and operational support services; and product customization services. The company operates in the Middle East, Central Asia, North Africa, Europe, and internationally. Zhongman Petroleum and Natural Gas Group Corp., Ltd. was founded in 2003 and is headquartered in Shanghai, China.

3548 Zhongmin Energy Co., Ltd. focuses on the development and construction of power generation projects in China. It generates electricity from wind, solar, and biomass energy. The company was formerly known as Nanzhi Co Ltd. and changed its name to Zhongmin Energy Co., Ltd. in December 2015. Zhongmin Energy Co., Ltd. is based in Fuzhou, China. Zhongmin Energy Co., Ltd. is a subsidiary of Fujian Investment & Development Group Co.,Ltd.
